Diversion Definitions
Disposed is sent via transfer stations to landfills or waste-to-energy facilities outside NYC.

Diversion Rate is tonnage diverted divided by the sum of tonnage diverted and disposed.
Abbreviations
C is Curbside Collections (includes Regular Trucks, Street Basket, Public Space Recycling, School Trucks).
CT is Containerized Collections.
DS is Total DSNY managed.
Different Collections Categories
Curbside Collection routes serve individual districts; trucks on these routes pass over scales each day which transmit tonnage data into DSNY's centralized computer system. For this reason, monthly statistics, by Community Districts, can be tracked and reported. See Municipal Refuse and Recycling in NYC, by Borough and District for District level detail.
Other DSNY Collection routes cross district boundaries. Like Curbside routes, the weights of collections are uploaded into the DSNY computer system daily. However, unlike curbside routes, these other DSNY collections cannot be reported by district.
* * These tonnage numbers are reported monthly by Vendor. Citywide only, Figures reflect Calendar Month / Year. Metals recovered from waste delivered to Essex facility in New Jersey were added to Other Metal Bulk starting in May 2013.
Please note:
* Annual figures averaged to determine approximate Tons Per Day (TPD) at end of year. Annual numbers may differ from monthly numbers in other reports due to data adjustments.
* * Reported monthly by vendor citywide.

Additional tonnage managed by DSNY is diverted through other mechanisms, but only available for annual reporting. Materials including Textile & Used Materials Donations, E-Waste, Hazardous Waste, other Organics collections, Redeemed Bottle & Can Deposit containers, and other take-back and diversion programs are included on the annual report only, and contribute to an overall annual diversion percentage of DSNY-managed waste that is different from the monthly reports. Tonnage numbers from external organizations are reported as provided and cannot be verified by DSNY.
