CERTIFICATE            24962

RESOLVED That the Design Commission, having considered designs for the reconstruction of Corona Plaza, south side of Roosevelt Avenue between National Street and 104<sup>th</sup> Street, Queens, submitted by the Department of Design & Construction, the Department of Transportation and the Department of Parks & Recreation, represented by exhibits 6896-C, D, E & H of record in this matter, hereby gives to the same unanimous preliminary approval with the understanding that the Department of Transportation will actively pursue an alternate to the pedestrian-height version of the standard round pole, noting that both the base and pole diameter are scaled for a 30' H pole and reducing the height by lopping off the top of the pole does not result in an attractive or well-proportioned design.

Preliminary approval is conditioned upon submission of this project for final review and approval before February 18, 2016.

RESOLVED That the Design Commission, having considered designs for the construction of Brigham Park, Brigham Street between Emmons Avenue and Rockaway Inlet, Brooklyn, submitted by the Department Parks & Recreation, represented by exhibits 6100-BA, BB, BC & BD of record in this matter, hereby gives to the same unanimous preliminary approval with the understanding that the Parks Department will work with the Department of Environmental Protection to remove all of its chain-link fencing, noting that, while it appreciates that the Department of Environmental Protection is transferring property to the Parks Department to create the park, it is unfortunate that the deteriorated dock, which is visible from the park and actively used by local fishermen, is not included as part of the improvements, particularly since the sludge pipe has not been used since the 1970s.

Preliminary approval is conditioned upon submission of this project for final review and approval before February 18, 2016.
