

**Fentanyl causes overdose deaths.**

**Fentanyl is commonly found in drugs sold as heroin.**

**Fentanyl has also been found in crack, cocaine,**

**methamphetamine and pills from nonmedical sources.**

Reduce your overdose risk:

- Test your drugs using fentanyl test strips.
  - If positive, consider not using. If you do plan to use, start with a small amount and go slowly.
- Avoid using alone. Take turns or call the Never Use Alone hotline at 877-696-1996.
- Avoid mixing drugs.
- Keep naloxone ready and on hand.
