### New Collateral Code: Cooperative with Addendum

ACRIS has recently added a new **Collateral Code**, “Cooperative with Addendum,” that should be used when you are filing a UCC Coop Addendum or an Initial Coop UCC with an Addendum. Note that UCCs filed without an addendum should use the **Collateral Code** of “Cooperative,” and they will receive an expiration date of five years.

*It is important that you use the correct Collateral Code because this determines the expiration date of the UCC.*

### Initial Coop UCC filed with an Addendum

- When you are filing an Initial Coop UCC with an Addendum, select “Initial Coop UCC1” for the **Document Type**.
- Select “Cooperative with Addendum” for the **Collateral Code** to have the expiration date set to fifty years.

### UCC Coop Addendum

- When you are filing a UCC Cooperative Addendum separately, select “UCC Cooperative Addendum” for the **Document Type**.
- Select “Cooperative with Addendum” for the **Collateral Code** to add fifty years to the effective date of the original UCC filing.

Select “Initial Coop UCC1” for the Document Type.

Select “UCC Cooperative Addendum” for the Document Type.

Make sure to select “Cooperative with Addendum” for the Collateral Code.
