

What is a Neighborhood Slow Zone?

- Speed limit set at 20mph
- Small, self-contained area (~5x5 blocks or ¼ mile diameter)
- Announced with signage and gateways
- Self-enforcing via speed bumps
- 20mph markings remind drivers to slow down

Safety Impacts

London, UK:

- 46% reduction in fatal and severe injury crashes, as compared to untreated areas
- Average speeds reduced 9mph
- No collision migration (crashes did not increase in adjacent areas)

The Netherlands

Average decrease of injuries of ~25% in 30 km (18 mph) zones

Barcelona

- Crash rates dropped up to 27%
- Similar programs have also been adopted in Berlin, Zurich, Dublin, Stockholm & Helsinki

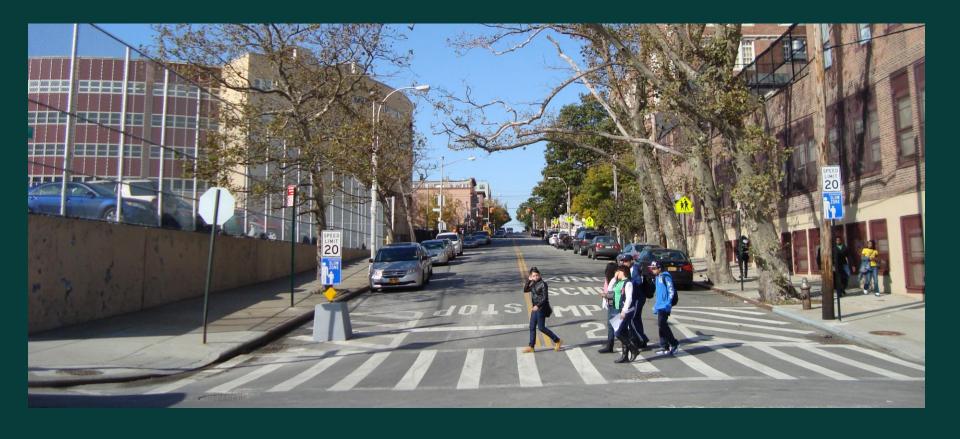

Slow Zone Components: Gateways

- Roadway is narrowed by sign base, signs and markings to bring down vehicle speeds
- Drivers are clearly alerted that they are entering a traffic calmed zone
- 1-2 parking spaces removed at each gateway ("daylighting")

Slow Zone Components: Speed Bumps

- Keep vehicle speeds around 20mph; 15 mph near schools
- ~30% reduction in mid-block crashes
- ~20% reduction in speeds
- Speed bumps distributed evenly throughout the Slow Zone
- Key element in making the Slow Zone "self-enforcing"
- Follow standard speed bump criteria when choosing streets for installation

Speed Humps vs Speed Bumps

- NYC DOT uses the term Bump for what technically is a speed Hump
- Speed Hump
 - Gradual rise designed to be taken at 15-20mph
 - 3 to 4 inches in height
- Speed Bump
 - Abrupt rise designed to be taken at 5mph or less
 - •3 to 6 inches in height

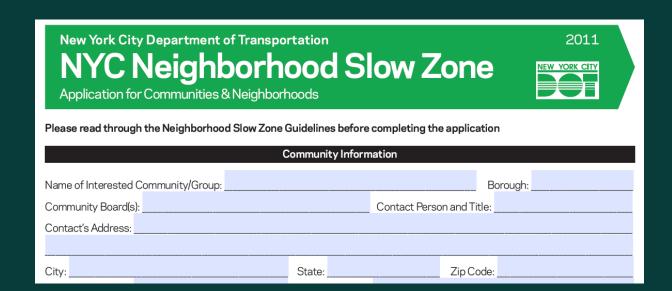

Slow Zone Components: 20 MPH Markings

- Install on streets in between or infeasible for speed bumps
- Exclude on:
 - Streets leaving the Slow Zone
 - Very short blocks

Auburndale Slow Zone Application

- Slow Zone application
 - Application submitted by Auburndale Improvement Association
- Proposed Implementation:
 - March 2013 Speed Hump Installation
 - June 2013 Signs and Markings
- 1 of 4 zones for Queens
- DOT installing 13 Slow Zones citywide in 2012-2013

Slow Zone Selection Criteria

- Many letters of support
 - Dan Halloran Council Member District 19
 - Edward C. Braunstein Assembly Member
- Good size (.19 sq mi)
- Good boundaries (wide busy streets)
- School in zone area

Positive Criteria	Crashes	Letters of Support	Schools	Senior Centers	Daycare	Strong Boundaries	Subway Stations	Bus Routes (on Boundary)	Truck Routes (on boundary)
Negative Criteria	Fire Stations	Hospitals						Bus Routes (in zone)	Truck Routes (in zone)

Proposed Slow Zone

- 11 proposed speed bumps
- 19 proposed gateways
