

Full Time – Per Diem Position

SOFTWARE DEVELOPER

AGENCY DESCRIPTION:

The New York City Department of Small Business Services (SBS) is a vibrant, client-centered agency whose mission is to serve New York's small businesses and commercial districts. SBS makes it easier for companies in New York City to start, operate, and expand by providing direct assistance to business owners, supporting commercial districts, promoting financial and economic opportunity among minority- and women-owned businesses, preparing New Yorkers for jobs, and linking employers with a skilled and qualified workforce. With a staff of 300 employees and a budget of \$190 million, SBS is quickly becoming one of the most respected and dynamic agencies in the City. SBS continues to reach for higher professional standards through innovative systems, new approaches to government, and a strong focus on its employees.

JOB DESCRIPTION:

SBS is seeking an experienced ASP.NET Developer to work with our Technology Unit on the development of components of the suite of systems that support the Agency's Workforce Development Division.

Responsibilities will include:

- Development of a design document for the application
- Development of code to support business process and business requirements
- Work with a database administrator to determine where and how to make additions and/or changes to the existing database structure in the Agency's primary Workforce application
- Test and debugging all code
- Development of technical documentation to provide SBS with a comprehensive knowledge transfer

QUALIFICATION REQUIREMENTS:

- Minimum of 3 years web programming experience with ASP.NET, C# and JavaScript
- Hands-On experience working with both .NET 1.1 and .NET 2.0/3.5 (including master pages, themes, etc.)
- Advanced MS-SQL skills including writing stored procedures and modifying the database structure
- Minimum 3 years experience with HTML, JavaScript, Cascading Style Sheets
- Experience developing and enhancing sophisticated web-based business application and the supporting database structure
- Experience working with Microsoft Team System and Team Foundation Server
- Experience with reading and modifying existing code
- Solid understanding of Software development life cycle
- Experience with Telerik r.a.d controls for .NET
- Strong communication skills - must be able to interact with senior management, programmers and end-users.
- Ability to complete assigned tasks properly and on time
- Foreign language skills a plus

Salary range for this position is: \$70,000 - \$80,000 per year
