

Full Time – Per Diem Position

SQL DATABASE PROGRAMMER

AGENCY DESCRIPTION:

The New York City Department of Small Business Services (SBS) is a vibrant, client-centered agency whose mission is to serve New York's small businesses and commercial districts. SBS makes it easier for companies in New York City to start, operate, and expand by providing direct assistance to business owners, supporting commercial districts, promoting financial and economic opportunity among minority- and women-owned businesses, preparing New Yorkers for jobs, and linking employers with a skilled and qualified workforce. With a staff of 300 employees and a budget of \$190 million, SBS is quickly becoming one of the most respected and dynamic agencies in the City. SBS continues to reach for higher professional standards through innovative systems, new approaches to government, and a strong focus on its employees.

JOB DESCRIPTION:

SBS is seeking a SQL Database Programmer to support the development of new modules and enhancements to current functionality in databases and building reports that support the Agency's Workforce Program Division.

Responsibilities will include:

- Writing complex SQL Reports to support business needs
- Supporting, modifying, and expanding the data schema of the existing databases in accordance with Agency data storage standards and functional requirements documents
- Meet with Agency Program Units to discuss reporting needs and ensure alignment with Agency guidelines.
- Performing critical data analysis
- Writing stored procedures, triggers and SSIS packages

QUALIFICATION REQUIREMENTS:

- Minimum 4 years experience with design of advanced Microsoft SQL Server queries, stored procedures, triggers, scripts
- Strong Experience in SSRS with the ability to understand the database design and create complex reports and data models
- Experience with design and optimization of SSIS packages
- Experience maintaining, modifying, and optimizing SQL Server databases
- Experience collaborating with application developers on data modeling and E-R diagrams
- Excellent time management skills and experience in a multi-project environment
- Excellent written and verbal communication skills
- Previous experience with .NET projects preferred
- Experience migrating from SQL 2005 to 2008 a plus
- Foreign language skills a plus

Salary range for this position is: \$70,000 - \$80,000 per year
