Staffing Questions:

Due to attendance the questions are not asked. DOC asked for additional time. Due to this, we ended the meeting early and asked DOC if they could provide answers in writing in advance of the meeting. CHS regularly gives us answers in writing in advance and that is appreciated.

- DOC says they did not review the questions despite being sent out on January 20, 2024. DOC asks that we bump the document and says they are very focused on other items so might not be able.
