

District Service Cabinet Agenda

January 19, 2021 - 1:00 PM

Description: The City Charter establishes a District Service Cabinet (DSC) in each community district, to be composed of agency officials responsible for local service delivery. The District Manager of the Community Board chairs the District Service Cabinet, whose members include representatives of the agencies that deliver local services to the Community District. The District Service Cabinet is the primary mechanism through which local service delivery issues can be raised, discussed and resolved. If used effectively, the Cabinet can provide the basis for a comprehensive approach to service delivery within the community district.

I. Call to Order

II. Service Requests

1. NYC Planning

- a. New garden at block number 4042 Lot 1 – NYC Planning Rep was not present, request to be followed-up via email.
