REGULAR MEETING

Assistant District Manager Dorothy Paul called the roll. A quorum was present to begin the meeting.

Chairperson Naomi Hopkins asked if there were any additions or corrections to the minutes of the Regular Board meeting held on December 20, 2023. Board Member Frank Seddio made a motion that the minutes be accepted. Board Member Rosamond Alvaranga seconded the motion. The motion passed unanimously. Naomi Hopkins introduced herself as the new Chairperson of Community Board 18. She thanked her fellow board members for entrusting her with this very important position. She also thanked Michael Ien for his many years of service on the Community Board and for leading the Board as Chairperson. She knows this isn't an easy job, but she knows she has an excellent support team. Chairperson Hopkins acknowledged the Elected Officials and guests that were in the room and informed everyone that we will hear from the NYC Department of City Planning regarding the "City of Yes for Economic Opportunity" after which she will invite the elected officials to speak. She also requested the past Chairs of Community Board 18 and staff to please come up and join the Executive Board to present Michael Ien with a City Council citation for his service to the community and as Chair of Community Board 18 from Council Member Mercedes Narcisse. Board Member Michael Ien thanked the Executive Board, Staff, and Council Member Narcisse.

7:17 P.M.

PUBLIC HEARING

Chairperson Naomi Hopkins introduced Kyra Cuevas, Senior Borough Planner for the NYC Department of City Planning who is accompanied by Carolan Meager and Josh Vogel. Kyra Cuevas provided a presentation on the "City of Yes for Economic Opportunity." The proposal by the New York City Department of City Planning is for a citywide zoning text amendment to the New York City Zoning Resolution to support economic growth and resiliency in New York City. They explained that the proposed action is a comprehensive overhaul of zoning regulations that would 1) make it easier for businesses to find space and grow by lifting barriers to enable businesses to locate closer to their customers; 2) support growing industries by reducing impediments for emerging business types; 3) foster vibrant neighborhoods by ensuring businesses contribute to active, safe, and walkable corridors; and 4) create new opportunities for local businesses to open by establishing new zoning tools to boost job growth and business expansion. They said that this plan would support economic growth and resiliency by allowing existing non-residential space to be repurposed for alternative non-residential uses and by providing businesses with additional flexibility to grow and thrive in New York City. Board Member Frank Seddio explained that it is important for the DCP to drive through the neighborhoods of Community Board 18. He described the neighborhood as mostly one- and two-family homes with C1 and C2 areas that house small stores. He said, we have a few C3 and C4 zoned areas that are shopping centers. Kings Plaza is our biggest C5/C6 zoned area. The changes that are being proposed would be detrimental to our residential district. Carolan Meager replied that the proposals require some level of review by BSA and DOB. 1st Vice Chair Greg Borruso stated that commercialization and deregulation of our neighborhoods is unacceptable. 2nd Vice Chair Maria Garrett expressed that NYC cannot regulate the stores that are here now, people are setting up their items on streets. Allowing businesses on upper floors of residential buildings does not and will not work. The City of Yes is a No. Board Member Sal Calise stated that the wool is being pulled over our eyes. DCP's 18 proposals in an 1127-page report are ridiculous. The Board Members and the community at large cannot understand this huge document. Board Member Paul Curiale referred to number 16 of the proposal stating that corners can become commercial properties. Carolan Meager replied that anyone can ask for property, but they must do an environmental noise and traffic study. They also must show how the neighborhood will benefit. Board Member Curiale continued with his concerns and went on to reference former City Council Member Lew Fidler who he said fought to keep developers from changing our landscape. Board Member Joan Gilbert echoed Paul Curiale and expressed how we cannot let developers come in and mess up our area. She says No to the City of

Yes. Board Member Rob Mazzuchin stated that he is an attorney who argues with other attorneys over a few paragraphs but this proposal of 1127 pages is impossible to sort through. He asked how you can revitalize a neighborhood by allowing homes to use their property for businesses. It's all propaganda, there have been no studies done on the sewer system and the houses that are sinking in Canarsie. Board Member Eugene Burshtein stated that we live in a suburban area here in 11234 and 11236 and don't want the district rezoned. He continued to talk about rumors of developers coming in to build large complexes that would tower over homes. In this district it's going to be a No to the City of Yes. Board Member Kenny Jean-Baptiste voiced his concerns about commercial spaces on upper floors of buildings and the safety issues that would accompany them. He stated that this proposal does not fit this area. Board Member Jibreel Jalloh expressed that there is no action plan in this proposal that would give businesses access to loans. Board Member Felina Backer made a motion to move forward since the Board has heard this rhetoric before and it gets worse each time. Chair Hopkins asked her to make the motion a little later so that the local elected officials can be heard. Assembly member Jaime Williams stated that the people throughout this community have put years of hard work into their homes. We are the last suburban community in New York City and your main goal should be to preserve our one- and two-family homes, not destroy them. Council Member Mercedes Narcisse expressed her concerns about the massive number of pages for this proposal. She asked DCP if this is about rezoning and they replied, no. She stated that residents are scared that they will lose the low-density housing they fought for. The Council Member also requested that her constituents provide her with recommendations, eliminations, and additions on the proposal for her to take back to city hall. Council Member Farah Louis agreed with Assembly Member Williams and is also disheartened about the proposals to change the face of the community. She explained that prior to her becoming the City Council Member, the zoning was changed, and the neighborhood now must deal with a hotel that is used as a halfway house and place for sex offenders. Not one city agency was there to help and mark my words, things will change for the worse if this proposal goes through. We don't need it here; we don't want it here. Chair Hopkins inquired about other Community Boards and how they voted. City Planning replied that they cannot give an exact count of yes and no votes from other Boards. Paul Graziano, Urban Planner/Land Use Expert stated that the Mayor made this a true outreach against our communities. This proposal was done in consultation with big developers and construction companies, not neighborhood organizations and community boards. This economic portion will be devastating to all our neighborhoods, the housing portion will be the nuclear bomb. Single-one- and two-family zoning will immediately change. He urged DCP to come up with a new package after listening to and consulting with communities about their wishes. He asked the Community Board, as he has asked others to vote all 18 proposals down. Chair Hopkins thanked everyone for their opinions, statements, and questions. Board Member Felina Backer made a motion to vote No on the City of Yes for Economic Opportunity. Board Member Frank Seddio seconded the motion. Chairperson Hopkins reminded the Board Members that a yes is in favor of the proposal and a no is against the proposal. The vote was unanimous with 38 No votes recorded.
