Happy Birthday to Senator Roxanne Persaud

Congratulations to Board Member Sallie Bennett who was honored earlier today at Gov. Hochul's Women's History Month Luncheon

Congratulations to Board Member Tom Hernandez on his daughter's graduation from New Orleans Culinary & Hospitality Institute

*National Women's History Month's roots go back to March 8, 1857, when women from New York City factories staged a protest over working conditions. International Women's Day was first observed in 1909, but it wasn't until 1981 that Congress established National Women's History Week to be commemorated the second week of March. In 1987, Congress expanded the week to a month. To the dedicated women in our office and on our Community Board, thank you for all you do in our community every day.*

Happy St. Patrick's Day, Happy Ramadan, Happy Purim, and Happy Easter  
Whatever holiday you celebrate, enjoy in good health with family and friends.

## **REGULAR MEETING**

Secretary Barbara Bieber called the roll. A quorum was present to begin the meeting.

Chairperson Naomi Hopkins asked if there were any additions or corrections to the minutes of the Regular Board Meetings held on February 28, 2024. Board Member David Price made a motion that the minutes be accepted. Board Member Aryanna Holder seconded the motion. The motion passed unanimously.

**7:17 P.M.**

## **PUBLIC HEARING**

Chairperson Naomi Hopkins introduced The NYC Department of Parks and Recreation who provided a presentation on the design for the reconstruction of Hickman Playground (Ave N & East 66<sup>th</sup> St). Questions from Board Members and the public about the proposal consisted of where the entrance to the park will be, how many receptacles, and materials for tabletops and what materials will be used for tabletops explained that the entrance to the park will be moved to the corner of East 68<sup>th</sup> Street, and that there will be

several receptacles throughout the park, a variety of material for tabletops will be considered, and trees and flowers will be planted around the playground. The project will also have slides and jungle gyms painted in bright colors. There will be disability swings but no balance beams to avoid tripping hazards. After questions and a lengthy discussion, Chairperson Hopkins asked for a motion and vote for a letter of support for the reconstruction and design of Hickman Playground. Board Member Grace Zwillenberg made a motion to accept the reconstruction of Hickman Playground (Ave N & East 66<sup>th</sup> St). Board Member Paul Curiale seconded the motion. The motion passed with 29 Yes votes recorded.

**7:26 P.M**

**GUEST PRESENTATION**

Dashaun Simmons' team conducted a Q&A on his company's proposal to create a new website for Community Board 18. Board Members had questions about the initial cost, maintenance, changes, additions, projected costs going forward, and an idea of what Community Board 18 can expect each year. Dashaun Simmons responded by explaining that ongoing maintenance cannot be established. His team is talking about creating a community email, hyperlinking events to access information, populating events, calendars, social media and posts. It all depends on where we land in the first phase. Simmons said that he's not sure we can confidently say that right now they know about the budget for this initiative. Some Board Members supported spending the initial \$15,000 dollars for the proposed website, while other Board Members wanted more clarification. Chair Hopkins reminded the board members that is incumbent of them to check their emails and be informed about content before attending board meetings and voting. There is a motion on the floor to table the vote since some members had more questions. A few members felt that postponing the vote would mean the budget would expire by June 30<sup>th</sup> and wanted to know what the board is saving it for. Chair Hopkins explained that the monies can be put back into the community by planting in our parks and along our business corridors. It can be used for food distributions, job fairs, family fun days and partnering with local organizations. The discussion continued as area residents expressed their concerns about spending that amount of money when Community Board 18 already has a website, while others asked more technical questions about WordPress, Cloudflare and a staging server. Board Member Eugene Burshtein made a motion to table Dashaun Simmons' proposal to create a Community Board 18 website. Board Member Paul Curiale seconded the motion. The motion did not pass with 9 Yes, 21 No, and 1 Abstention votes recorded. Chair Hopkins closed the discussion and asked for a motion. Board Member David Price made a motion to approve Dashaun Simmons' proposal to create a Community Board 18 website. Board Member Frank Seddio seconded the motion. The motion passed with 23 Yes, and 5 No votes recorded.

**CHAIRPERSON'S REPORT** – Naomi Hopkins, Chairperson

City of Yes, Canarsie is Sinking, Events, Suggestions:

**City of Yes Economic Development** is over for us—for now. After CB 18 voted and commented, DCP re-worked and updated the plan; it passed its own commission and should go before the New York City Council for a vote. We did our part, and we were heard, but the concerns of CB 18 alone are not enough to stop a citywide rezoning. I have shared on numerous occasions that while I agreed with some and even understood the intention behind much of the up and rezoning, I didn't agree with it as a blanket over the entire City. Further, I believe communities in a proactive process should have led the conversation as opposed to others telling us what changes would be best for our community. We, the people, are the community. Our behaviors, cultures, dreams, habits inform who we are and what we need. Lastly, the presentation was full of jargon and complicated for everyday people. It is unfair to ask people to vote on professional urban plans without some level setting. If you require additional information, updates or want to continue advocacy regarding this portion of C.O.Y., then I encourage you to reach out to your New York City Council representative and let them know your concerns. There are 51 members of the City Council, it only takes 26 representatives to make changes. Next up is the City of Yes Housing plan, DM Partnow and I have seen the preliminaries. I will request a preview for our Housing Committee and send it to the Board Members to prepare questions immediately. The first two draft plans of C.O.Y. showed us that there could be some room for negotiation, or at the very least space to make our desires heard.

**Canarsie is Sinking**

Last month, the mayor learned for the first time that Canarsie is sinking. As we look to a new commissioner of DEP, CB 18 will host another town hall (this spring) to address this issue.

In these past two months, I've observed a lot and borrowed excellent ideas from other community boards. I want to share ideas that will increase our ability to be a resource to the community. I've shared these items with Treasurer David Price and expect that we will be able to have dates and budgets available for April's meeting.

**Event Ideas**

1. Local hiring event for catering halls and restaurants. Appointing Tomas Hernandez., Eugene Burshtein, and Victoria Stennett.
2. Planting and beautification of local parks and gardens. Appointing Maria Garrett, and Nancy Walby
3. Spring Fling. Appointing Terri Cadet-Donald and taking volunteers.

**Suggestions**

If there are suggestions or requests about how the Board can be more supportive to the community, please don't hesitate to call. Let's work together to maximize our time here and be great.

**Attendance**

If any members have circumstances that prohibit meeting attendance, please let me know. We must have 26 members present to conduct business. If we know ahead of time that we won't get there, we can amend our agenda and change the flow of the meeting. Not showing up, blowing off committee meetings or not participating keeps us from completing the business of the day.

Sadly, I've watched members leave mid-way through a meeting. I am of the mindset that a meeting does not have to be three hours long to be productive. As Chair, it is my job to keep us on task and flowing appropriately, which may require a reminder and enforcement of our procedures:

Board Members speak first during Comment. Members of the public may or may not be given the same pleasure. All comments are addressed to the Chair, not to the person who spoke before you, not to the person who inspired you to speak, not to a person who you KNOW doesn't agree with you. You are only allowed to speak once during comment and debate unless everyone else has spoken. Comments are limited to two minutes. It is my job to quickly evaluate passion, protest and purpose and the implications all will have

on the meeting. I have and I will interrupt comment if it is disruptive or violates the policies and procedures that we follow. If we have a public hearing with the magnitude of City of Yes, I will sit here until midnight until every resident within the confines of CB 18 has spoken—because where else will they get the opportunity? But I will not allow rudeness, abuse, blaming and the like. The general board meeting is for action items that are the manifestation of the previous month's committee work. Not all committees report every month. Almost weekly, correspondence comes from this office announcing events. Dozens of flyers are on tables at any given time. Our general board meeting is a business meeting. Business starts at committee except for ongoing business, all new items should be first brought to the corresponding committee chair. The committee will meet, receive presentations, deliberate and report at the general meeting. This is the time and place to ask questions, make suggestions and negotiate for a vote passage. When an item is ready for full board consideration, the committee chair should inform District Manager Sue Ann Partnow of their desire to proceed with a recommendation in any direction. If a committee does not believe an item is ready for consideration, it never has to come before the board. By the time a committee makes a recommendation for a vote, board members can question the committee about their recommendation before voting. I'm convening the Executive Board every two months. I am in constant communication with board staff, I listen to calls, concerns and do my best, with top-notch level support from the district staff.

### **Virtual Attendance:**

Every month I must deny requests from members to participate virtually. On May 3, 2023, Governor Kathy Hochul signed into Law Chapter 58 of the Laws of 2023. This law, in part, provides for the exemption from meeting participation requirements of individuals with disabilities who are members of public bodies as defined in the full text of the Open Meetings Law. While keeping standards with the Americans with Disabilities Act of 1990 this current law was also expanded to include extraordinary circumstances. Four days' written notice is required, cameras must be on, and full names must be visible on screen. Extraordinary circumstances will not count toward a quorum, but they do count for attendance and voting. By resolution in June of 2023, Community Board 18 adopted a resolution that specified that sickness counts as extraordinary circumstances. As per President Biden and the CDC, the Coronavirus Pandemic is over therefore virtual participation in public business is greatly diminished.

### **Communication:**

Board members' contact information is confidential. Feel free to ask a member for their phone number at meetings but the district staff cannot share it. I rely on district staff to relay information. If you have a message that should be circulated to the Board, please send it to the bk18 e-mail for distribution. The district staff works for the district. While the Executive Board and full body work in tandem, the district staff do not work for us. Sue Ann, Dorothy, and Gail are accommodating, they are in service to the district, but they are not servants. I am asking that we consider tones when speaking to and e-mailing them.

Chairperson Hopkins introduced the family spokesperson for the Street Co-naming of 2-year-old Nasir Carter Parris who was brutally beaten and subsequently murdered by someone who was entrusted to care for him. Nasir Carter Parris resided at 2125 East 68<sup>th</sup> Street and it was his residence at the time of his death. The family is requesting that the corner of East 68<sup>th</sup> Street and Avenue U be co-named for him. Several members found the request for a Street Co-naming unusual for a two-year-old. They suggested naming a park or playground for him. After a discussion and some further ideas to memorialize this young victim, Chair Hopkins asked for a motion and a vote. Board Member Greg Borruso made a motion to approve the Street Co-naming. Board Member Grace Zwillenberg seconded the motion. The motion passed with 20 Yes, and 1 Abstention votes recorded.
