I. Call to Order

- a. The monthly scheduled meeting of Brooklyn Community Board 9 Environmental Protection Committee was called to order virtually via zoom on September 1, @ 7:20p.m.

II. Open Discussion

- a. The EPC meeting was a bit delayed; however, got on the way eventually with (2) committee and (1) resident committee members. Since all committee members were not in attendance to conduct the business of the committee, a decision was made to have an open dialogue and conduct all agenda items at the October meeting. We had a great open discussion on topics worked on by our former EPC members of CB9. We were informed that the district received some garbage cans, some also purchased with CB9 funding, the topic is still pending additional cans for the 43rd district. We look forward to learning more on this dire community project.
- b. In addition, one of our prior/current EPC resident members spoke about outstanding environmental issues on new/old developments in the community. The committee will be speaking on those issues and any others that may arise and bring them forward to be addressed via the Borough Service Cabinet meeting or through the responsible Mayoral agency
- c. The committee will be looking at all environmental (drains, sewers, air pollution, asbestos, etc.) concerns in the community, those that have been problematic and can be to have them addressed in a timely manner. We ask if anyone has any concerns that falls within NYC Environmental Code, please refer to CB9 office for follow-up.

III. Adjournment

- a. Meeting adjourned at 8:30pm

Respectfully submitted,
Debbie Timothy
