Hello. Thank you for speaking with my wife a few weeks ago on this matter. We are requesting NYC Landmarks approve the replacement of 3 small, damaged, basement windows that are not original to our home at 203 Maple Street. After reviewing our application and meeting with us on zoom, they have indicated that while they do support our request for this change, we still must go before our community board landmark committee to ask for the community board's support, and then we can make a presentation in front of the NYC Landmark Commissioners so they can vote on it as well.

I have attached a photo of the basement windows as they are currently and a file with the schematics of the windows that we are asking to replace and photos of the house. We are requesting to replace these non-original windows, with windows that are identical to the style of the home's original windows, that will allow for the proper amount of light and air and will be functional as the ones in the house presently are badly deteriorated.

Thank you in advance for your consideration of this request.

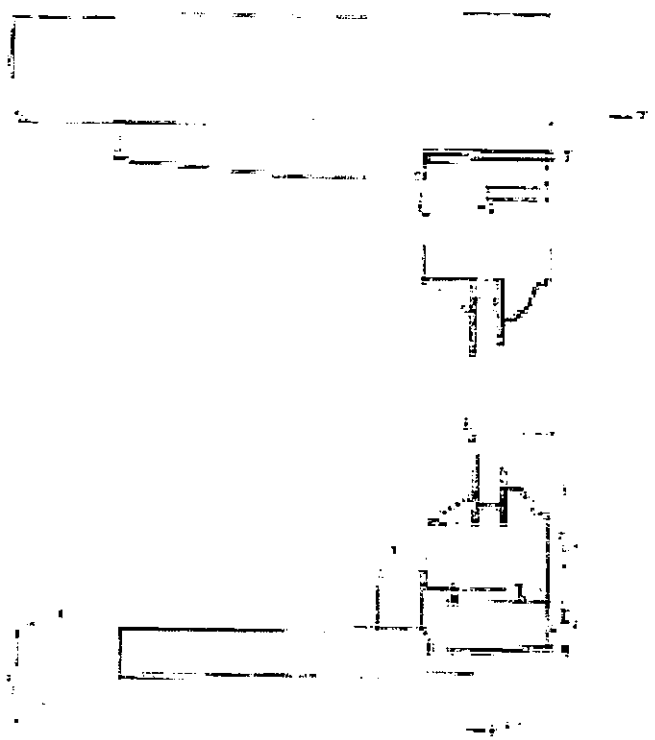

With regards,

Homeowner
