Project Checklists contain project-specific details as they apply to the scope of work of the project to provide compliance with the NYC Construction Codes and other regulations.

☑ **Electrical Drawings**

Verify that DOB approved drawings clearly convey project's scope and that the contracted work reflects the approved and full scope of work.

☑ **Insurance Requirements**

Verify compliance with the insurance requirements for general liability insurance, workers compensation and disability insurance. If necessary, update the general liability insurance when required.

☑ **Special Inspections**

Check that the owner has hired the Special Inspection Agency and their details are submitted – a requirement for obtaining a permit.
