# SERVICE NOTICE

NEW Worker Wallet Card to Launch in Training Connect

Effective November 1, 2024, Department-approved Course Providers will issue Worker Wallet Cards through the NYC DOB Training Connect platform, leveraging the same technology used to issue Site Safety Training (SST) cards.

Worker Wallet Cards are required to be used by construction workers and accepted by employers as proof of their certifications to work on certain construction jobs or equipment, i.e., scaffolds. The new card eliminates the need to carry multiple cards, allowing the card holder to house proof of all their certification information in one card. Like the SST Card, when scanned using the Training Connect App, the Worker Wallet Card reveals the cardholder's certifications.

Training certifications included in the Worker Wallet:
- Mast Climber User/Operator and Refresher
- Climber/Tower Crane Rigger
- Rigging Supervisor
- Rigging Worker
- Supported Scaffold User
- Supported Scaffold Installer & Remover
- Suspended Scaffold User
- Suspended Scaffold Supervisor
- Periodic Gas Piping Inspector

Existing worker qualification cards issued prior to November 1, 2024, must be replaced by July 1, 2025, for any of the above-listed certification card holders to perform work that requires the qualification. To obtain a Worker Wallet Card visit a DOB-approved Course Provider. Course Providers may charge an administrative fee to issue the Worker Wallet Card.

The Worker Wallet Card is not replacing the SST Cards. The Worker Wallet and SST Cards will remain separate cards until further notice. However, both cards will be linked to the individual's profile in Training Connect.
