CITY COUNCIL
CITY OF NEW YORK

-----X
TRANSCRIPT OF THE MINUTES
Of the
NEW YORK CITY CHARTER
REVISION COMMISSION 2024
-----X

Date: June 6, 2024
Start: 10:00 a.m.
Recess: 11:30 a.m.

HELD AT: BOROUGH HALL
10 Richmond Terrace
Staten Island, NY 10301

BEFORE: Carlo Scissura, Chair

COMMISSIONERS: Kyle Bragg
Ruben Diaz, Jr.
Lorraine Grillo
Kenny Ngai
Max Rose-Secretary
Jackie-Rowe Adams
Ed Kiernan
Dr. Hazel Dukes
Rev. Herbert Daughtry
Stefanie McGraw
Rabbi Chaim Steinmeitz

1 MR. SCISSURA: Good morning everybody. It's
2 nice to be in Diane Savino and Max Rose territory. I live
3 in the suburbs of Staten Island, also known as Bay Ridge
4 Brooklyn, so it's great to be in this wonderful island.

5 Welcome to our second public hearing and the
6 third meeting of the Charter Review Commission of 2024 and
7 the first of our two meetings in Staten Island. As we
8 committed to and promised, we will host two meetings in
9 every borough. Yesterday we were in Queens, today we are
10 in Staten Island and we will be announcing some meetings
11 shortly.

12 So let me thank first of all my friends,
13 Borough President Vito Fossella and his team for hosting us
14 here in Staten Island Borough Hall. I'm Carlo Scissura,
15 Chair of the Commission and I'm joined by an esteemed group
16 of members. I will start with my left; Ruben Diaz, Jr.,
17 Lorraine Grillo, Ken Ngai, Max Rose, Jackie Rowe-Adams and
18 Kyle Bragg. So welcome everybody. And including our
19 executive director general counsel and the entire team that
20 is working so hard on getting this done.

21 I'm going to ask our Commissioners before I
22 begin to just give a quick good morning. So Ruben, Ruben,
23 we always start with you.

24 MR. RUBEN: Good morning, Mr. Chairman, I
25 don't mind. Good morning to the Island of Shaolin as we

1 call it where we come from. I'm (in audible) from the
2 birth place of Hip Hop and it's great to be here this
3 morning. Yesterday we had, I thought was a good start,
4 and we were able to hear from the people in Queens some
5 provocative and some great suggestions as to how we should
6 approach with this Commission.

7 Let me just put this out to those who are
8 viewing and for further meetings, I think that every
9 borough should have a friendly competition. So of all of
10 you who are going to come to these hearings, I would
11 suggest that you look over the Charter and I would love for
12 there to be this friendly competition as to who can come up
13 with the most, you know, innovative ideas and thoughts that
14 we as a Commission who are filled with distinguished Board
15 of Commissioners, how it is that we can do something so
16 impactful with this Commission that Mayor Adams has formed
17 .

18 So it's good to be here on this island, I look
19 forward to hearing from everyone here this morning and I
20 look forward to everyone moving forward taking me up on my
21 challenged.

22 MR. SCISSURA: I love the challenge.

23 MS. GRILLO: Good morning everyone. My name is
24 Lorraine Grillo and I just love being in the borough of
25 Staten Island, it's my favorite place because as President

1 of -- former of President of School Construction Authority,
2 I built a lot of schools in Staten Island and I loved every
3 minute of it. Everybody was so happy and so grateful. So
4 hopefully we will get some good input for this Commission
5 and work really hard to solve the problems of the City of
6 New York.

7 MR. NGAI: Good morning everybody, my name is
8 Ken Ngai. Thank you for coming to the Staten Island
9 borough here today to join us in a unique opportunity to
10 voice your concerns about the direction of the City.

11 We have an opportunity here to review the City
12 Charter and we would love to gather your input and whatever
13 issues or concerns that you may have. We are eager to
14 listen to you, and, you know, put forward good government
15 and that's something that we had said previously and I
16 think everyone can agree that that's what we are driving
17 for.

18 Thank you again and I look forward to hearing
19 from everyone.

20 MR. ROSE: Good morning everybody, it is
21 great to be home for one of these events. I look forward
22 to hearing all of your thoughts and concerns and continuing
23 to serve the City with delivering a sound recommendation on
24 revision. Thanks again.

25 MS. ROWE-ADAMS: Good morning Staten Island.

1 Staten Island in the house. Well, we are in the house with
2 you this morning Staten Island and I'm Jackie Rowe-Adams
3 and I hail from Harlem, but that's all right. Staten
4 Island is beautiful, it really is. But everybody says oh,
5 it's so far. We got here in like half an hour from Harlem.
6 I mean how cool is that? So I just want to say I'm honored
7 to be here with the team, with the other Commissioners
8 because we have work to do and, you know, and that's why
9 you're here this morning, because you care and that's what
10 we need. We need people to care about their community,
11 about their City of what's going on. And I said at the
12 first meeting, I said, you know, you have to know what's
13 going on and you have to be able to help fix it.

14 So this is your opportunity to be the voice for
15 the voices and let people know that you know what's going
16 on. And that's the song I love by Marvin Gaye, what's
17 going on. And so again, congratulations to you all that is
18 sitting here so we could get the job done and we want you
19 to voice your opinion and your concerns, it's so important.
20 Thank you.

21 MR. SCISSURA: If that doesn't get you ready
22 for this morning, nothing will. Kyle you have a tough act
23 to follow.

24 MR. BRAGG: I know I do. I always do when I
25 sit behind Jackie.

1 Well, good morning everyone, I'm Kyle Bragg
2 again. I hail from the borough of Queens and it's actually
3 a real honor to be here on the beautiful borough of Staten
4 Island. This is my second go round with the Charter
5 Revision Commission. I had a pleasure of serving with
6 Carlo, the Chair, in 2019 under DeBlasio.

7 It's very important the work that we will get
8 done through this Charter Revision Commission. To make
9 government work for everyone, we need to hear from the
10 people that it impacts the most which are all of you and
11 those who we hope to be talking to in the future. People
12 will come out and voice their opinions and concerns about
13 how to make government better work for everyone and with
14 your engagement and the participation, we'll be able to put
15 together, and we hope, some really good changes that will
16 impact all of your communities and again make government
17 work for all of us.

18 Good government is hearing from the people and
19 that's why we're here today and we will be continuing to
20 have these meetings and hear from those folks that are
21 impacted by the government that serves them. So thank you.

22 MR. SCISSURA: Thank you, Kyle.
23 We are joined virtually by our
24 Vice-chair Dr. Hazel Dukes, Reverend Herbert Daughtry,
25 Stefanie McGraw and Rabbi Chaim Steinmeitz. Would any of

1 you like to say anything before I proceed? No, okay.

2 Okay, I want to touch upon something Kyle and
3 Jackie said which we are here to listen to the people. And
4 while I've learned, this is my third Charter Commission,
5 that often times people who come to Charter Commission
6 meetings who testify in person or now we are adding virtual
7 testimony which allows more people to participate, often
8 times those people are not coming to talk about the
9 Charter, they're coming because they are frustrated, they
10 have an issue and they want somebody to hear what they're
11 saying. So I am saying to people, to New Yorkers, we're
12 here to listen. It doesn't mean we can answer everything,
13 it doesn't mean we can solve everything, but at least we
14 can hear you and at least share your concerns and your
15 comments with people who may be able to do something. So
16 that is important and it is important for New Yorkers to
17 know that this is a group of individuals committed to
18 listening to your voice.

19 So couple of words, we were formed by Mayor
20 Adams on May 21st. We are tasked with reviewing the entire
21 City Charter and recommending changes that will help City
22 government work more efficiently and better serve all New
23 Yorkers.

24 We will be soliciting recommendations and
25 comments on how to improve City government, the members of

1 the public at forums like this and from experts in certain
2 areas in forums that we will be hosting later this month.

3 At the end of the process, the Commission will
4 determine what proposals to take to the voters in the form
5 of a valid question or maybe more than one question and
6 those questions or questions will appear on the ballot
7 November 5th in the general.

8 Today we are excited to welcome, as we said,
9 folks to Staten Island to provide comments in person and
10 via Zoom and also in writing. So we are excited to get
11 testimony from a variety of sources.

12 This is our input session and we are excited
13 that it is the first of two that will be in Staten Island.
14 We will be back in Staten Island on the evening of
15 June 24th at Curtis High School and so that will be
16 exciting. And on June 13th we will have an issue forum and
17 public hearing on fiscal responsibility at New York Law
18 School in Tribeca.

19 Please tell your friends, please tell your
20 neighbors to come out and share your comments. We will do
21 our best to accommodate everyone who wishes to speak. We
22 are going to try and stick to a three-minute rule if we can
23 and if time allows I will be happy to extend the three
24 minutes for the speaker.

25 So with that I'm going to begin. And as I

1 said, thank you to Borough President Vito Fossella and we
2 have with us today Daniel Master, Jr., who is the legal
3 counsel to the Borough President.

4 Daniel, welcome.

5 MR. MASTER: Good morning everyone and the
6 audience as well. Good morning everyone. As you just
7 heard, my name is Daniel Hale Master, Jr., I'm legal
8 counsel to the Staten Island Borough President and I will
9 be delivering his testimony to the Commission today.

10 First I'd like to welcome the Charter
11 Commission to Staten Island, the borough whose residents
12 and elected officials are often the least satisfied
13 consumers of New York City services and who often find
14 themselves on the proverbial short end of the stick when it
15 comes to governmental dysfunction.

16 As you're aware, the 1989 City Charter Section
17 203 required the City Planning Commission to adopt criteria
18 that are now referred to as the Fair Share Provisions of
19 the New York City Charter. I'll just read some of that
20 paragraph;

21 "The criteria shall be designed to further the fair
22 distribution among communities of the burdens and benefits
23 associated with City facilities."

24 Now this is a lovely sentiment and a lovely
25 verbiage, but unfortunately it's only aspirational, it's

1 not something that is self executed.

2 For example, when this provision, this
3 particular provision was adopted and inserted into the
4 Charter in 1989, Staten Island was the only borough in the
5 City of New York that was collecting all of the City's
6 garbage and all of the City's garbage was dumped. Now
7 that's kind of a prima facie proof that we were doing more
8 than our fair share with regard to this particular burden
9 of government.

10 So for Staten Islanders right in the beginning,
11 1989 when the Fair Share Provisions were adopted, we have
12 kind of looked at those Fair Share Provisions as being an
13 empty slogan with regard to our own treatment. That's a
14 historical example of not being treated fairly, but it's
15 not an isolated incident and it's representative of a
16 continuum that persists right up to the end lines of today

17 For example, the environmental assessment for
18 the City Congestion Pricing Plan was sold to residents of
19 the City as a plan that was going to result in less traffic
20 and less air pollution, but in verifiable fact, if you go
21 through the 5,000 page study, the study actually found that
22 on Staten Island traffic would increase and pollution would
23 increase and that those increases in both traffic and
24 pollution would persist through the year 2024. So
25 approximately another 25 years of more air pollution and

1 more traffic on Staten Island and there would be no
2 mitigation efforts that were offered in that study,
3 although they have been offered to the Bronx. Staten
4 Island is the only borough that can say that they're being
5 harmed this way by this program.

6 Now I understand this is an MTA program that
7 falls under the Governor, but one of the projects's
8 sponsors of Congestion Pricing is the New York City
9 Department of Transportation, so the City is a partner in
10 this new initiative.

11 Let me share with you one more current example
12 of harmful treatment for Staten Island, it's right now in
13 the planning process, it's in the process of being planned.
14 The so-called City of Yes for Carbon Neutrality passed by
15 the New York City Council on December 6th of last year,
16 2023. It effectively changes the zoning and use group
17 requirements for storage battery energy system, they're
18 better known as BEST Units, battery energy storage systems
19 in New York City.

20 Before the 6th of December 2023 these units
21 were considered inherently dangerous and could only be
22 located in commercial zones far from residential areas.
23 That changed on December 6, 2023, when the New York City
24 Planning Commission proposed and the New York City Council
25 approved the placement of BEST Units in 1 and 2-family

1 residential zones.

2 Just to give you a visual aid, and I'll submit
3 these along with copies of my remarks, when you look at
4 BEST Units in other parts of the United States or in other
5 parts of the world, they're not in residential
6 neighborhoods. In fact, they look like they've been
7 constructed on the moon, they're so far away from any kind
8 of business or other activity, human activity. That's
9 because they are inherently dangerous.

10 I hope the folks that voted for this provision
11 allowing these units to be in 1 and 2-family residential
12 neighborhoods, I hope they have been listening to or
13 reading the news for the last month because in Otay Mesa,
14 that's, O-T-A-Y new word M-E-S-A, Otay Mesa just outside of
15 San Diego, a BEST unit went on fire on May 15, 2024 and it
16 burned for two weeks. It burned for two weeks. During
17 that time millions of gallons of water were poured on the
18 blaze to no avail because water cannot put out this kind of
19 battery, these lithium batteries. Fire evacuation orders
20 were issued and not once, but twice, these battery storage
21 units reignited and the fire department had to go back out
22 there.

23 The fire is only part of the problem with these
24 units, I think an even larger problem is the toxic gases
25 that are let off when these things burn. And remember,

1 this fire burned for two weeks. The fluoride gases, the
2 carbon monoxide, these gases can migrate off a site even if
3 the fire itself has been contained. So my worry is both
4 the fire and the toxic gases that will be released into a
5 residential neighborhood, for example.

6 This is only the most recent battery
7 storage fire. For the record, there have been four such
8 fires in New York State within the past 13 months. Four
9 fires in New York State in the past 13 months.

10 Now closer to home, as of April 19th of
11 this year for New York City there are 31 battery storage
12 sites proposed for New York City, 15 of which are proposed
13 for Staten Island. That's just under half, that's
14 48 percent. I'll exaggerate and say half of those battery
15 units are going to be on Staten Island. Many of them are
16 going to be in densely populated areas or densely populated
17 commercial areas.

18 I hope that the lesson we learned from the Otay
19 Mesa fire just two weeks ago, they put it out finally at
20 the end of May, I hope the lesson we learned is that if we
21 don't know how to extinguish one of these fires once they
22 start, then we shouldn't be placing them in residential
23 neighborhoods. We really need to know much more about the
24 Science and the imperfections of these batteries than we
25 know now before we start putting them in residential areas.

1 Now this leads me to my proposed revision for
2 the City Charter for your consideration. I'll bring all of
3 this home to a solid recommendation for the Commission. My
4 proposal is that going forward, let me say it this way,
5 currently every proposed law before the City Council has to
6 have attached to it a statement of fiscal impact, how much
7 is this going to cost us essentially? Our proposal is that
8 going forward every proposed law should also require a
9 statement of compliance with the Fair Share Provisions of
10 the New York City Charter and if they can't state that it's
11 going to be in compliance, state why it's not going to be
12 in compliance. Such a statement will insure that those who
13 proposed our laws, as well as those who enact our laws,
14 will better understand the impacts of those laws on our
15 neighborhoods.

16 There are also variances of the Fair Share
17 Provisions, for example, while Staten Islanders may
18 preliminary, and for good reason, complain about being both
19 a literal and figurative dumping ground for everything that
20 is unwanted in the other boroughs, Staten Islanders also
21 complain that they don't receive their share of the
22 benefits of government. Remember fair share is both a
23 balance the benefits and burdens.

24 For example, here is a list, okay, the 62
25 New York City agency headquarters with their addresses and

1 the number of employees and some of these employ thousands
2 of people. These agencies bring jobs and economic activity
3 to wherever they're located. While the boroughs of
4 Manhattan, Brooklyn and Queens are well represented,
5 there's not a single New York City agency headquartered on
6 Staten Island. We have space right here at the Ferry
7 Terminal which would be very easy to get to for anyone from
8 the rest of the City and of course the ferry is a free
9 ride. We have adequate space here. Please give us some
10 benefits of government. We'd be glad to take them.

11 Further examples of lack of fair distribution
12 of the benefits and services on Staten Island range from
13 the ridiculous to the sublime and here I have to mention
14 the City's new UR Luck Program. Yes, urine is a play on
15 the word urine, UR in Luck Program. And this is an
16 initiative that is going to be bring public bathrooms to
17 the five boroughs.

18 Now fortunately for Manhattan, Manhattan is
19 going to receive 28 of these new bathrooms, Staten Island
20 is going to get 7. Again, from the ridiculous to subline,
21 Staten Island is many times larger in terms of geography
22 than Manhattan and I'm sure if you're walking in Manhattan
23 there is going to be a free bathrooms somewhere within a
24 stone's throw.

25 In closing, until more is done to insure the

1 Fair Share Provisions of the City Charter are met, these
2 provisions will do nothing more than an empty slogan and
3 the City of New York can expect to hear further rumblings
4 of succession from the people of Staten Island and thank
5 you for your kind considerations of these remarks. Thank
6 you.

7 MR. SCISSURA: Thank you very much.

8 Do any of the Commissioners have any questions
9 or comments? Thank you.

10 MR. BRAGG: I'm sorry, I did have a quick
11 question.

12 MR. SCISSURA: Sure, go ahead.

13 MR. BRAGG: In your testimony earlier you spoke
14 about the -- you mentioned, you said 2024. You said it
15 would be 20 years, but it's 2024 I think you said.

16 MR. MASTER: Through 2048.

17 MR. BRAGG: '48, all right. You had said 2024,
18 I wanted to get the date correct.

19 MR. MASTER: 2048.

20 MR. SCISSURA: Thank you.

21 MR. DIAZ: Thank you for that testimony.

22 Question: Is there an example in the City of New York of
23 any facility where they did comply with Section 203, where
24 we have seen a compliance on, you know, for instance the
25 distribution among the communities for, it says here,

1 "burdens and benefits associated with the facility
2 consistent with community needs for services and efficient
3 costs effective delivery."

4 Have you ever seen an example where there was a
5 compliance of that?

6 MR. MASTER: I think there are compliance, for
7 example, if there are, if they're distributing, for
8 example, birth control for safety for AIDS or to make sure
9 facilities are available in every borough, they're not
10 going to have facilities only available in one place. And
11 I think it is aspirational, this is what we try to do

12 I would just like to see it -- I would like to
13 see it in print when a law is being enacted how do you see
14 from this point on how is this going to affect various
15 neighborhoods in the City of New York if you know in
16 advance.

17 MR. DIAZ: I'm sorry, should environmental and
18 even health impacts statements be considered?

19 MR. MASTER: Yes. Short answer yes.

20 MR. BRAGG: I have one more comment, maybe
21 question.

22 I hear you clearly on this battery storage
23 issue which is I think vital issue for Staten Islanders.
24 Sometimes Science and technology advances quicker than we
25 can really understand the impact that it will cause, the

1 human impact, but I'm trying to understand how would you
2 address this through the Charter Revision Commission as a
3 challenge for our City?

4 MR. MASTER: Well, I think that you could have
5 foreseen that most of these storage facilities would be on
6 Staten Island because we have more space and open space
7 available than the other boroughs, so it's going to be
8 difficult to put storage fields anywhere else in the City
9 of New York.

10 So I think it could have been readily
11 anticipated that the only place these could be adapted
12 would be on Staten Island and sure enough when the
13 applications came in, half of them are for Staten Island.

14 MR. BRAGG: I guess my question was how would
15 you address us through the Charter Revision Commission to
16 make sure that if they're going to be created that they're
17 created in a safe manner that does not impact our
18 residential communities.

19 MR. MASTER: Well, if you were to put, if you
20 were to revise the provisions in the Charter, the Fair
21 Share Provisions in the Charter, you would put in that if
22 the City Council is going to vote on this as they did, they
23 should understand that it will probably affect Staten
24 Island more than the other boroughs for the following
25 reasons.

1 MR. BRAGG: Thank you.

2 MR. SCISSURA: Okay, thank you very much.

3 MR. MASTER: Thank you very much.

4 MR. SCISSURA: I'm going to ask Assemblyman
5 Michael Tannousis who is on Zoom to provide his remarks and
6 testimony

7 Assemblyman, good morning.

8 MR. TANNOUSIS: Good morning. Can you hear me?

9 MR. SCISSURA: Yes, we can.

10 MR. TANNOUSIS: Perfect.

11 First of all, thank you very much for meeting
12 on Staten Island today. I'm coming to you from Albany as
13 we wrap up the legislative session. Today's remarks, I
14 just want to be very brief.

15 I want to address certain things that New York
16 City Council has done in recent memory, especially when it
17 comes to Bills that involve public safety.

18 As was noted by the prior speaker, many times
19 the City Council has acted without impunity, without input
20 from agencies that would be affected by these laws, without
21 input from the community that will be affected by these
22 laws and, you know, in the New York State Assembly, when we
23 pass legislation, we have to jump through various hurdles
24 in order to pass that legislation and they are need to be
25 organization bodies, local governments that would have to

1 be in agreement for us to pass those pieces of legislation

2 As City Council however continues to pass Bills
3 that affect our daily lives, affect our City agencies,
4 affect our communities without any type of responsibility
5 and they do that continuously and they have done that
6 continuously for the past few years, City government, just
7 like the Federal government, just like the State
8 government, is supposed to be a balance of powers. It is
9 not supposed to be a bullpitt to pass whatever agenda any
10 specific member may have. You're supposed to be passing
11 Bills and laws to benefit New York City as a whole and to
12 benefit our communities.

13 So although I'm not going to go into specific
14 instances with you today, I do ask that as you go through
15 this process, please keep in mind that there needs to be a
16 fair and adequate balance and the City Council should not
17 just be allowed to pass any type of Bills without having
18 analysis, any type of input from agencies as to what these
19 would do for the agencies, for the community and, you know,
20 unfortunately on Staten Island myself, my elected
21 colleagues, whether they be from the City Council, from the
22 State Assembly, 80 percent of our time is fighting against
23 various initiatives that the City Council passed, and I say
24 this to you not only as a Assembly member, but as a former
25 employee of the New York City Council.

1 I worked for a New York City Council member for
2 a few years, so I do have a little bit of experience in
3 that process. At that time the New York City Council was a
4 much different body than it is today.

5 So going forward I ask that you take that into
6 consideration for the betterment of our community and for
7 the betterment of our City and thank you so much for
8 joining us here today.

9 MR. SCISSURA: Thank you, Assemblyman. Any
10 questions or comments? Kyle, please.

11 MR. BRAGG: Thank you again, Assemblyman, I
12 appreciate your comments. I just wanted to understand in
13 regard to the Charter Revision Commission, what would you
14 recommend on how to address this issue because I agree that
15 the community needs to be engaged in particularly these
16 type of legislative laws that are changing the fabric of
17 this City and how government engages our communities and
18 unlike this forum there should be more forums with the
19 community to get their reaction or opinions to this type of
20 legislation that has a great impact on the City

21 So how would you address your concern through
22 the Charter Revision Commission as putting out something
23 for the people to vote on?

24 MR. TANNOUSIS: So one potentiality, and I want
25 to use this as an example, there was a Bill that was passed

1 in the New York State Senate and the New York State
2 Assembly a few years back in regard to some homeless
3 shelters. I believe at that point then Senator Savino and
4 Assemblyman Fall passed a Bill that would require public
5 hearings to be held before a decisions to open home a
6 homeless shelter

7 Using that as an example, maybe something could
8 be done where a public hearing is required in our
9 communities, perhaps in our specific communities on site to
10 make it easier for people to attend the hearings as opposed
11 to just doing hearings at City Hall and forcing people to
12 come into lower Manhattan. That's one possibility.

13 I'm sure that there are many other
14 possibilities and they will come as we continue the
15 process, but I just want you to have that theory in your
16 mind as we go forward because I don't see any type of end
17 in sight when it comes to New York City Council in regard
18 to the laws that they continuously pass. It needs to be
19 more accountability and more transparency and it shouldn't
20 be -- the community should not be up in arms after a Bill
21 is passed by the New York City Council, they should have
22 their input before it's passed and that's something that I
23 would ask you to keep in mind as you go forward in in this
24 process.

25 MR. BRAGG: Thank you.

1 We also heard someone in Queens at our hearing
2 yesterday in regard to this similar issue, one was public
3 safety, but also Mayoral control and the City Council
4 passing legislations without engaging the community. So
5 thank you for your comments.

6 MR. TANNOUSIS: Thank you. Thank you for
7 having me.

8 MS. ROWE-ADAMS: Thank you Assemblyman, music
9 to my ears. Because that's why we are here today. That's
10 why we are here, to make sure that our City and our
11 community voices are heard because we are the taxpayers.
12 You are the taxpayers and we have to make sure that the
13 ones that don't understand what's going on know what's
14 going on in their community and their City and that is very
15 key.

16 So we have to be a part of the voting, the
17 hearing, we have to have these hearings. We've got to let
18 our people understand and that's why I thank Mayor Adams
19 for being concerned and caring about his City and caring
20 about the community. Thank you.

21 MR. SCISSURA: Thank you. Anybody else? All
22 right, Assemblyman, good luck with your final day. Thank
23 you.

24 I'm now going to call Frank Morano to come
25 speak.

1 MR. MORANO: Good morning, Commission. I'm
2 limited to three minutes, I have a whole book worth of
3 recommendations on a wide variety of subjects. If I had
4 extra time I'd be sharing with you all of them

5 Welcome to Staten Island and the good news for
6 those of you who are on your first Commission is that Max
7 Rose, since this is his home borough, has to buy lunch
8 today. But fortunately for you there is a wide variety of
9 great restaurants in the neighborhood. I don't think the
10 Congressman knew that when he agreed to serve on this.

11 Also first my compliments on behalf of all
12 Staten Islanders in terms of your staff's elections. I
13 don't think you could have a better selection for Executive
14 Director than Staten Islands own Diane Savino. We got a
15 first-hand seat for 18 years for what an incredible
16 representative that she was and a big part of the reason
17 for that was because assembled an incredible staff with
18 people like Rob Cataldo and I'm glad both of them are on
19 this Commission staff as well. Staten Island is being well
20 representing, not only with Congressman Rose there, but
21 with a staff like that.

22 I do want to try and focus my remarks on the
23 areas that you guys are focused on as a Commission because
24 there is a short amount of time and I know you're focused
25 primarily on public safety and fiscal responsibility as is

1 your mandate from the Mayor and really, just speaking on
2 public safety today, one of the things that can be done,
3 which will safeguard public safety for generations of New
4 Yorkers and maybe turn back the clock on some of the bad
5 public safety steps we've seen these last few years is
6 non-partisan elections

7 People may say, well, what sense does that
8 make? How does electoral reform have anything to do with
9 what's going on in terms of safety in our streets. It has
10 everything to do with it. Because if you look now at
11 what's gone on in the City Council, we have seen the most
12 anti-cop body in New York City's history pass legislation
13 after legislation that's overtly hostile to the NYPD. You
14 know it, I don't have to list all of them for you, although
15 I'd be happy to.

16 This is rapidly becoming one of the most
17 anti-police entities in the entire country. It's not
18 progressive. I'm not going to call it progressive, it's
19 anti-cop. And why does that happen? Why do they pass
20 things like defunding the police and making police fill out
21 a mirage of paperwork whenever they have a conversation
22 with someone. It's because in 43 out of 51 Council
23 Districts and Citywide, the only meaningful election is the
24 Democratic primary.

25 When all you have to do is win a Democratic

1 primary, the only thing that you do is campaign to win the
2 Democratic primary and that leads to people staking out the
3 most radical left wing positions possible because they know
4 that's their only method of getting elected. Fortunately
5 there is another way and you can make this transition to
6 non-partisan elections. This would result in a more sane
7 and sober elected official, it would result in a
8 contingency that includes people that are not Democratic
9 primary voters feeling like they're represented. It can be
10 done and I hope you guys will put this on the ballot this
11 year in order for New Yorkers to have the choice as to
12 whether it should be done. Thank you.

13 MR. SCISSURA: I have a question. We know each
14 other a long time and you've talked about this for many
15 years. Explain to this Commission in your proposal how it
16 would work.

17 MR. MORANO: So I would suggest that at the
18 issue forum on the 13th that this be one of the issues that
19 you look at with experts who can delve into a wide variety
20 of the possibilities because there are several ways to go.

21 Personally I think that the simplest, the
22 easiest for New Yorkers to understand given their 30-year
23 track record in voting in elections like this, the easiest
24 to implement without requiring new voting machines or
25 people to learn other methods of voting is to simply do

1 what we do for non-partisan special elections in this City
2 for every election in this City. The same method that
3 elected Christine Quinn and Jimmy Otto and Gifford Miller
4 where you have a non-partisan election which now includes
5 Ranked Choice Voting in that special election, that should
6 be the election.

7 And as far as fiscal responsibility goes, if
8 you were so inclined, you could have just one round of
9 elections saving the cost of the first round of elections
10 entirely.

11 Now you may hear expert testimony and determine
12 maybe that's not the best course of action. Other people,
13 other entities in other cities do it in different ways, but
14 in Oakland, in San Francisco and in a lot of other
15 municipalities throughout the country, they do one round of
16 Ranked Choice Voting and in those two cities -- excuse me,
17 one round of non-partisan elections and in those two cities
18 include Ranked Choice Voting. It prevents companies from
19 slipping in with morality to prevent the taxpayer from
20 putting the Bill for two different directions and most
21 importantly the voters get to have a say, a meaningful say
22 in every step of the process which they're completely
23 denied now.

24 I made the reference to your candidacy in 2001,
25 where you having lived, grown up in Brooklyn and having a

1 lot of relationships in Brooklyn, those relationships
2 included Republics and Independents. When you lost that
3 Democratic primary, not one of them could vote for you and
4 I happen to know personally quite a few people who were
5 quite ticked off that they couldn't vote for you. I think
6 that's not a unique story. I could point to election after
7 election where that's been replicated around the City.
8 Why? Why don't people that are paying the bills for these
9 elections deserve the say in terms of who is representing
10 them?

11 We have a system now of taxation without
12 representation. I'm not asking you to change that. I'm
13 just asking you to put the question on the ballot and let
14 us, the voters, decide whether we want to change it.

15 MR. DIAZ: I have a question.

16 MR. SCISSURA: Yes, please. Anyone that wants
17 to jump in. Ruben.

18 MR. DIAZ: I want to steer away from a specific
19 issue in this case you brought up de funding police.

20 MR. MORANO: Only because I know that mandates
21 in terms of public safety.

22 MR. DIAZ: Right. But do you know of anybody
23 on the City Council now or before who voted to defund the
24 police who won in a non-partisan special election?

25 MR. MORANO: I'm sure I could find some

1 examples, right, but I'd have to look at the specifics of
2 the --

3 MR. DIAZ: So a non-partisan election did not
4 stop someone from being elected who voted on an issue that
5 you don't agree with?

6 MR. MORANO: I would have to look at the
7 specific election, but probably not.

8 MR. DIAZ: Would you say that the overwhelming
9 majority of people who are registered as say Democrats are
10 also against defunding the police?

11 MR. MORANO: I would say that, yes.

12 MR. DIAZ: I would say that too and I'm from
13 the Boogie Down Bronx. But what do you say to those who
14 don't come out and vote.

15 MR. MORANO: Well, I would say two things; one,
16 the people that vote in Democratic primaries aren't
17 representative of the Democratic party as a whole. And I
18 would say that they tend to be more representative of the
19 most partisan and the more strident ideologies in the
20 process and not representative of the general public.

21 MR. DIAZ: But for instance, in the Bronx the
22 overwhelming majority of registered voters -- I don't want
23 to say that, I don't have the --

24 MR. MORANO: You have a Republican in there
25 now.

1 MR. DIAZ: I don't have the data in front of
2 me, but there is a great deal of registered voters in the
3 Bronx are registered Democrats. A lot of them do not come
4 out and vote in a Democratic primary election. They do
5 come out in bigger numbers in a general election and the
6 general election they can vote for whoever, they can cross
7 party lines.

8 So I don't know if the solution is a
9 non-partisan primary election when if someone who is
10 putting out their record currently now as a person who
11 wants to defund the police, even though I believe like you,
12 that the majority of the registered Democrats are not in
13 favor of defunding the police just don't come out and vote
14 during the primary election.

15 MR. MORANO: So why not simply have the
16 election be what we have as the special election now, a
17 non-partisan election on general election day which has a
18 wider degree of public turn out.

19 The problem as it stands now in the Bronx and
20 other areas that are primarily one party is that the
21 general election doesn't matter. It's a ProForma
22 enterprise. You have the right honorable former City
23 Councilman and State Senator Ruben Diaz, Sr., ran a
24 Democratic primary for Congress. I realize we are talking
25 about municipal elections here, but the same principal

1 applies

2 He has an enormous amount of support among
3 Republicans and Independents as I'm sure you know and are
4 occasionally frustrated by, but he wasn't able to be a
5 choice in the general election for any of those folks and
6 yet those folks are still paying the taxes for the
7 Democratic party to have their selection process.

8 And, by the way, I live in the South Shore of
9 Staten Island and I'm not a Republican. Same thing applies
10 in the South Shore of Staten Island. If you're a Democrat
11 or Independent in the South Shore of Staten Island, you
12 have no meaningful say in who your elected officials are.
13 Why should we offer to be paying the taxes for these
14 elections that don't matter?

15 MR. DIAZ: What I'm struggling with, Mr.
16 Chairman, on this one, and I'm looking forward to hearing
17 more from you in future hearings I suppose you'll be coming
18 to, is I'm not sure that by having a non-partisan election
19 that A, that you get an increase in voter turnout during
20 the non-partisan primary election. And B, I'm not sure
21 that you still get a result in terms of philosophy because
22 according to, and we talked about this yesterday, if you
23 have say the top 2, 3, 4, 5 go-getters in that non-partisan
24 primary election then go off to the general election, those
25 top 2, 3, 4, 5 individuals could be of light mind and may

1 all support a certain philosophy that you may not agree
2 with in the general election.

3 MR. MORANO: Yeah, I don't see Tom DeLay
4 getting elected in Harlem or, you know, Alexandria
5 Ocasio-Cortez getting elected in the South Shore of Staten
6 Island, that's not going to happen

7 What this is a means of is actually having
8 elected officials that are more representative of the
9 community which really isn't the case now. You know, in
10 terms of the City Council for instance, you have about
11 30 percent of the City of New York that votes Republican,
12 right, and yet if we were equate that to Council seats,
13 they would have about 15 Council seats. Instead they have
14 I guess about six.

15 So New York is already a liberal City as many
16 large cities are, but the body representing New Yorkers is
17 far more left wing than the population is and I believe
18 that's because they're not being represented.

19 Now as for the question you raised about
20 comparing voter turnout in non-partisan elections versus --

21 MR. DIAZ: Is that where the real indictment
22 is? The real indictment is on the people who are
23 registered to vote who don't come out and vote in any given
24 primary regardless of the party. That's the real
25 indictment.

1 MR. ROSE: Can I just step in for a second
2 here. You're a master communicator, I've always
3 appreciated that about you, but there is something that I
4 think is getting lost here. You're not really talking
5 about something that is non-partisan. What you're talking
6 about is first-past-the-post.

7 MR. MORANO: No, I'm not. For instance, I
8 mentioned your example yesterday. Everyone agreed you did
9 a great job as a Congressman. I believe the reason you
10 lost was because you were running as a Democratic and you
11 had what a lot of people in Staten Island viewed as a
12 scarlet letter given what was happening on a national
13 perspective, stuff that you had very little to do with.
14 What if there was no Democratic label on the ballot, no
15 Republican --

16 MR. SCISSURA: Let me interrupt for a second.
17 We all know whether it's non-partisan or the system we have
18 today, people, voters will know what the person's
19 ideology is. They will know if they're a Democratic, a
20 Republican or an Independent.

21 MR. MORANO: That's great. That's part of
22 outreach and communicating to voters what you stand for and
23 what you believe in, but at far as that notion that an
24 ideology is attached to our partisan identification, for
25 about 15 years in Brooklyn both Dov Hikind and Charles

1 Baron were running for office in Brooklyn as Democrats.
2 Now I can't think of two people with more dynametrically
3 opposed views as Dov Hikind and Charles Baron and, yeah,
4 they were both nominated by the Brooklyn Democratic party.
5 What clue do the voters get about their ideology?

6 MR. SCISSURA: They want their primary and I
7 think there is a couple of things, and we will -- I'm
8 actually going to ask the staff that ensure that we do have
9 experts that appear at a hearing at a forum that talks
10 about this, but we do have elections and I think Ruben, you
11 made a point, and I think you did as well. People don't
12 vote in primaries and the numbers are the numbers, the
13 facts are the facts. Primaries have small turnout.

14
15 Do we believe, and this is where I think the
16 experts and the facts can tell us, do we believe that in a
17 June primary was for all voters would it be more people
18 voting or would it just be the same number of people just
19 thrown into one primary?

20 MR. MORANO: Or if there was a special election
21 in November on the general election day would there be more
22 people voting and I think the answer to that is yes. When
23 your predecessor's Commission studied this issue in 2002
24 and 2003 they solicited expert testimony that reviewed,
25 they did a comparative analysis of cities with non-partisan

1 elections around the cities, around the country and around
2 the state by the way and they found that, yes, in areas
3 where all things are equal, where there are non-partisan
4 elections there are -- there is an increase in turnout and
5 in the 12 years that New York City had proportional
6 representation in in the 30s and 40s, there was greater
7 turnout and those proportional representation elections
8 were non-partisan.

9 You had anybody able to compete as a candidate,
10 anybody able to vote. The system we have now is
11 discriminatory towards minority views. It is
12 discriminatory towards people that are not in the majority
13 party. It's unfair to candidates and unfair to voters

14 As I eluded to yesterday, Eric Adams
15 acknowledged this in 2003 and this is exactly what Fiorello
16 La Guardia talked about when he implemented proportional
17 representation and said there is no Democratic or
18 Republican way to clean the street.

19 I guess what I'm trying to figure out is why
20 keep the system as it is now? Who is benefiting from this
21 aside from the cottage industry of consultants, lobbyist
22 and the shallow state that knows how to make money in terms
23 of gaming out elections?

24 MR. SCISSURA: Okay. More to come. Any other
25 -- Max you look like you're thinking.

1 MR. MORANO: The chairman did sort of cut you
2 off.

3 MR. SCISSURA: I apologize.

4 MR. ROSE: I appreciate him bringing up all our
5 respected political scar tissue, psychotherapy session.

6 MR. MORANO: I think you guys turned out okay.

7 MR. ROSE: All I would just draw the
8 Commission's attention to, the party affiliation matters,
9 political parties matter. They serve a role and they're
10 important for democracy, but there is I think a really
11 strong example of what your North Star is in California,
12 which is just the first two past-the-post

13 For instance, there was a chance that the
14 California Senate general election was going to be Adam
15 Shift versus Katie Porter, it was just going to be the two
16 that got the most votes in the primary and then they
17 advance on to the general electors where you have a
18 different elector than a primary.

19 So as you're thinking about this, and I'm sure
20 we will continue to hear you from you, publically,
21 privately and all the rest, I would just urge you to think
22 about ways in which you can advance your general cause here
23 without waging war on the entire notion of party
24 affiliation. It could do us all, you know, a positive

25 MR. DIAZ: A point of

1 information because something was said about, you testified
2 about how this negatively impacts minorities and, you know,
3 other communities. This City Council, for better or worse,
4 just a point of information has more minorities on it and
5 more women than the history of the City Council.

6 MR. MORENO: I'm sorry if I was unclear. I was
7 talking about political minorities, just meaning people
8 that are not in the majority party in any given district.
9 I appreciate the opportunity to clarify that.

10 Just in response to what Commission Rose said,
11 the problem with first past-the-post and a top two style
12 election rather than what I'm proposing which is Ranked
13 Choice Voting which is what we have for special election
14 currently is two fold; one, you have a situation which you
15 just eluded where could have two Democrats or two
16 Republicans in that final round of the election and you're
17 leaving out a wide swap of the electors that feel they're
18 not representative. It's also totally discriminatory
19 towards people in minor parties. You know, you won't have
20 a green choice, you won't have libertarian choice. Even if
21 it ends up with two candidates that are Republicans and
22 Democrats, you know, that there is a lot of folks that are
23 in the green or libertarian sphere that wouldn't be
24 comfortable with that choice in the general election.

25 So why not just do a November election,

1 non-partisan, no party labels just like we have for
2 specials with Ranked Choice Voting?

3 MR. SCISSURA: Okay.

4 MR. MORANO: Thank you, appreciate it.

5 MR. SCISSURA: Thank you. More to come.

6 Okay, just a reminder for the folks on Zoom, if
7 you do have a question, please raise your hand.

8 Annmarie Aka sh

9 MS. AKASH: Hello. Thanks everybody for taking
10 a listen to our voices today. Am I coming through on the
11 microphone?

12 MR. SCISSURA: Yes, you are.

13 MS. AKASH: I wanted to the address the City
14 FHEPS Program which I guess comes under public housing in
15 the City Charter, I'm not sure because I haven't seen a
16 copy of it yet. It stands for Family Homeless and
17 Evictions Prevention Services for anybody who might not
18 realize what FHEPS stands for, okay

19 So I have some personal testimony, I know a
20 tenant who are living in apartments where there FHEPS
21 payments that they rely on are not being paid, so they're
22 now being evicted by their landlords. Some have paid their
23 eligible shares, some pay nothing, but some pay a certain
24 amount depending on their work status and that might be 1
25 or 200 a month and they paid their 1 or 200 a month

1 reliably for months or years and they're still getting
2 evicted because the majority of the rent has not been paid.

3 I know of landlords who have FHEPS tenants
4 who are not getting their payments so they cannot meet
5 their budget. Many landlords here in Staten Island area
6 are in two-family houses where only one apartment will be
7 under the FHEPS payment role I guess you call it. They're
8 now in danger of losing that house under foreclosures from
9 either bank because they cannot make their mortgage
10 payments. They have utility, threats from the utility
11 companies for turning off their utilities and there is no
12 monies extra available to maintain the houses, so the
13 tenants are in there with toilets not working or laundry
14 machines not working, refrigerators not working.

15 There is also in between the landlord and the
16 tenants are real estate agents who apparently work cross
17 borough, a Queens real estate agent might be working on a
18 Staten Island property and the real estate agents are
19 pulling their hair out, maybe having heart attacks because
20 they can work for months and months getting the apartments
21 arranged for someone and it's not going through and they
22 cannot get proper communication from the FHEPS department.

23 I just want to make sure I read everything I
24 noted here. I wanted to mention personally I'm a landlord
25 in this position. My FHEPS tenant is also my neighbor, I'm

1 usually a good neighbor in my community, I've been here
2 30 years in Staten Island and 37 years in this house and I
3 raised my two kids in this house as a single mom, right.
4 Now my FHEPS tenant is a single dad without his kids being
5 in there with him, but this is pretty irritating because
6 now my tenant hates me.

7 He was told by either the real estate agent or
8 the FHEPS program that the reason I'm not getting my money
9 for about eight months now is because I never submitted my
10 Social Security number to that department and because my
11 apartment did not pass inspection. That's what is he being
12 told. However, I have an inspection that passed in early
13 December, paperwork from it and not only that, but I had a
14 FHEPS tenants there for a whole year previously that had a
15 passed inspection and my Social Security number was in the
16 first packet of information that I sent to the agent in
17 late October of last year.

18 So for some reason, and I've gone to -- I
19 should say I've gone in person down to the offices where
20 they line up the programs here on Bay Street and I just was
21 told I cannot talk to anyone because of the HIPAA program
22 and it's protecting of course the tenants, but they don't
23 want the landlord to know the tenant's business which I
24 understand, but I said please just go to wherever the bank
25 is and have them cut me a check because I have, you know,

1 foreclosure notices from my bank and possibly my water can
2 be turned off.

3 MR. SCISSURA: I want to make sure I understand
4 and I get your issue. And let's make sure this is brought
5 to the proper folks, but is there anything you're asking us
6 to do on the Charter?

7 MS. AKASH: Like I said, I didn't have a chance
8 to read the Charter where it stands right now. I'm not
9 sure where this would fit in, but I think the FHEPS need to
10 be overhauled, maybe abolished, that's what I think. So
11 that's what I'm asking Council to do, if they can fix
12 anything with it and I'm bringing it here today because --
13 well first, I'm a member of this community, I know other
14 people are having similar problems and it's just something
15 that looks like -- I've already gone to my council person,
16 the City advocates, the person for the offices for a few
17 times. I've gone kind of gone to everywhere, that's why
18 I'm bringing it here. I'm not sure, like I said, where it
19 fits into Charter, but it's probably somewhere in there.

20 MR. SCISSURA: Thank you very much. Any
21 questions, comments? Thank you very much.

22 Maybe someone can just get the information and
23 we will send it to the relevant agency.

24 MS. AKASH: Thank you.

25 MR. SCISSURA: Thank you.

1 Okay, so we have got about 30 people, close to
2 30 people on Zoom. Do we have any questions or testimony
3 from folks on Zoom?

4 Do we have any of our Commission on Zoom who
5 would like to say anything?

6 I'm going to take a couple of minutes since
7 it's 11:00 a.m. to just go around the table here with our
8 Commissioners, and as you know, all of our meetings are
9 public and just a chance to get some of your thoughts so
10 far as to where we are and some next steps

11 I can go down the row or would anybody like to
12 jump in? Kyle.

13 MR. BRAGG: Thank you, Chair. I think that
14 this process is important. I think that what we are
15 hearing is important, whether or not it pertains directly
16 to our mission or our work as the Charter Revision
17 Commission and I appreciate the fact that you take those
18 issues that are not necessarily issues that should be
19 before us, but hear about and make sure that we translate
20 that back to the proper agency so that the people of the
21 City both get an opportunity to be heard, but also the City
22 has an opportunity then to react to those challenges

23 So I just think that this process again is
24 important and appreciate those people who have taken the
25 time to come out and share those issues with us.

1 MS. ROWE-ADAMS: I agree. Thank you, Kyle.

2 I'm really impressed because this is my first
3 time really sitting on a Charter, but not my first time
4 dealing with other Charter of leadership, but I'm impressed
5 because of some of the stuff that I'm hearing that the
6 concern of the communities, like we were in Queens, we were
7 in Manhattan and now we are in Staten Island and I'm just
8 so glad that people care, the ones that's out and I'm sure
9 others that will be coming out to hear what's going on.

10 Again, so I'm impressed and we got a lot of
11 work to do. And I'm glad that you're interested in doing
12 it and I'm looking forward to it. So I'm listening and
13 learning along with you so we can get it fixed, whatever it
14 is. We will work together and make a difference on this
15 Commission.

16 Thank you.

17 MR. ROSE: I think it's important for us to
18 consider what is the challenge that New York City is facing
19 today and how is that related to the political process in
20 New York City. That's how I, you know, see partially what
21 we are considering in an era where hyper-partisanship is so
22 very real and politics is so incredibly tribal, do we need
23 to adapt in any way, shape or form

24 So I look forward to having that conversation
25 over the coming weeks and months and serving the City. So

1 thank you.

2 MR. SCISSURA: Thank you.

3 MR. NGAI: What was said previously by the
4 Assemblyman up in Albany, Mike Tannousis was very impactful
5 for me. I served the City for 32 years with the NYPD and I
6 just recently retired, so what he had mentioned in regard
7 to the City Council unilaterally, and that's probably the
8 wrong word, when they're pushing out policy without
9 considering any analysis or public hearing on the impact on
10 the community is something that I think that we need to
11 work on.

12 What we really need to do is just to see what
13 the checks and balances are here. Are they going to be
14 just partisan ideology that's just pushed forward without
15 any community thought on the policies that they're putting
16 forth is something that I think we can definitely work more
17 on for a more inclusive City so that everyone can be safe.

18 I think by and large some of the policies that
19 are pushed forward now is impacting the City and it's where
20 we are right now and this Commission is taking all of this
21 input and we are going to digest it and we are going to
22 come up with a good resolution to perhaps, you know, put a
23 more robust check and balances into these processes.

24 MS. GRILLO: If I may, the issue of
25 non-partisan elections has come up a couple of times now

1 and I'm just wondering, and maybe it's our responsibility
2 to find data from those cities that have begun that process
3 to see if in fact there is a large increase in the number
4 of voters that participate.

5 So if you would as Chair let us know how we
6 should proceed gathering up that information. Thank you.

7 MR. SCISSURA: Thank you.

8 MR. DIAZ: I just -- first of all, Frank
9 Morano, thank you for that exchange.

10 MR. MORANO: Likewise.

11 MR. DIAZ: I'm a little out of fighting
12 condition when it comes to hearings being I'm a recovering
13 politician.

14 The fact is that being outside of elective
15 office, believe it or not, I actually get to hear from more
16 New Yorkers than ever before on the ground level and people
17 are frustrated or people are concerned by a myriad of
18 different issues

19 Mr. Chairman, moving forward, I would love for
20 more of these exchanges to occur. And so I think that our
21 challenge is how is it that we make this, for lack of a
22 better word, sexy. You know, people don't know what they
23 don't know. They don't know what the Charter is quite
24 frankly. I have now the Charter since I've been appointed
25 on this Commission on my phone now and it's been several

1 years since I even looked at the Charter.

2 The Charter is essentially the constitution of
3 the City of New York and, you know, how do we get people to
4 know even what the Charter is, how this City is governed by
5 it and how often maybe the things they're frustrated about
6 because they're codified in the Charter, you know, they can
7 complain about all they want about individuals who are
8 elected or a bodies that are elected and so this is an
9 opportunity that have happened every so often where we can,
10 you know, change that or impact that or amend it or augment
11 it.

12 So I don't know how, I think I would challenge
13 how do we get it out there to New Yorkers, average New
14 Yorkers that this is a perfect opportunity to be heard on
15 everything that you have concerns about, everything that
16 you are frustrated about, but before they even do that,
17 this is not a Commission to hear constituent services or
18 constituent needs, with no disrespect to that, but about
19 how do we change or amend the Charter and have them present
20 their case in the same passion that Frank did this morning

21 I'm looking forward to that. I hope that
22 moving forward that we can get the information out there
23 and have more and more people participate, not just on
24 non-partisan elections, but public safety, on education, on
25 transportation issues on citing, you know, so on and so

1 forth and they would just give us more and more ammunition
2 to debate and delivery as the Commission moving forward.

3 MR. SCISSURA: Thank you very much

4 Chris Lynch, I know you have your hand up.

5 MR. LYNCH: Yes. Good morning. I'm just super
6 excited about being on board with the Commission and being
7 here at this meeting today with Staten Island and I heard
8 some very good points here, especially on the election
9 process and I think Ruben hit the nail on the head, that
10 the vote is mainly on the registered voters. You know, we
11 have the elections that are there, but how do we get the
12 people to come out and vote in these primary elections, not
13 so much should they be partisan, not partisan.

14 I think it was very interesting dialog, a lot
15 of information was taken away from that. I think as the
16 Charter Commission, that is something that we should
17 carefully look into as this is an issue that involves all
18 of the boroughs as we have learned so far from Queens and
19 as well as here in Staten Island

20 So yes, I'm super excited on being on this
21 Commission. Look future to future hearings.

22 MR. SCISSURA: Thank you, sir.

23 Before I provide my remarks, we do have one
24 more speaker who signed up in person. Mona Davids.

25 MS. DAVIDS: Good morning. I had initially --

1 I wasn't planning on speaking today, but I'm going to any
2 way. Mr. Chair, I just wanted to just put out a disclaimer
3 because I know it will come up later.

4 So my name is Mona Davids. I'm a publisher of
5 Little African News. I'm the founder of the New York City
6 School Safety Coalition as well as the New York City
7 Parents Union and I'm also the community advocate that
8 requested that Mayor Adams convene this Commission,
9 officially requested it. It's in the minutes and it's out
10 there. So I represent a number of different organizations.

11 So I don't know, Mr. Chair, how we can do this,
12 but each organization has a specific issue related to the
13 Charter. So I will start first with the New York City
14 School Safety Coalition and of course let me just say this,
15 I am from the Bronx, so I'm happy to see my Borough
16 President here. Co-op City to be precise.

17 So my name is Mona Davis. I'm a parent, I'm an
18 education advocate, I care deeply about public safety and
19 school safety, the New York City School Safety Coalition is
20 a Citywide coalition of parents, community leaders, clergy
21 as well who care deeply about insuring the safety of our
22 children inside and outside of schools, traveling to and
23 from schools and we are deeply concerned about the rise in
24 weapons as well as youth violence and gun violence in our
25 communities.

1 The previous cohorts of the City Council with
2 Mayor DeBlasio wanted to remove our school safety agents
3 from under the purview of the NYPD and parents throughout
4 the City rallied. We rallied here outside of Staten Island
5 Borough Hall, we have rallied in every borough including
6 outside of City Hall and we were able to push back removing
7 our school safety agents from under the purview of the NYPD
8 back to the DOE, but the City Council was intent on doing
9 that. Such decisions, Commissioners, should not be made by
10 the City Council. Such decisions, when it comes to the
11 safety of our children and our communities, whether it was
12 the removal of school safety agents or something as to how
13 many (in audible) which we (in audible) opposed. These
14 decisions should not be made by the City Council. These
15 decisions should be made by the Mayor, whoever the Mayor is
16 and by the Police Commissioner, they are the experts.

17 I know that the City Council members like to
18 say that, oh, they were elected by their communities, but
19 Commissioners, if we look at just the recent 2023
20 Democratic primary, because as Frank said, we are pretty
21 much a Democratic City, if we even look at the 2021
22 municipal elections that included as Citywide elections you
23 will see that turnout when it comes to our elections are
24 low. Therefore, when City Council members say that they
25 represent their constituents, when we look at the empirical

1 data, which mind you I do have right here on my laptop, the
2 percentages for the industry for both the 2021 and 2023
3 primaries, most of them that got elected were elected with
4 less than five percent of the registered Democratic voters
5 in their district. And I'm just talking about the primary
6 because the general really doesn't matter so much in most
7 of our City Council districts

8 So here we are being dictated by a small group
9 of people who have an anti-police bias, who are not putting
10 the safety of our children, of our families, of our
11 communities first because of their political ideology who
12 were voted in on average by less than five percent of the
13 voters, the registered voters, registered Democratic voters
14 in their district. That to me is simply outrageous

15 So when it comes to the power of the City
16 Council with regard to public safety and the NYPD, we
17 oppose the City Council having the authority to dictate and
18 to develop NYPD policy when it comes to protecting our
19 communities and we would like that language put on the
20 ballot in the Charter and let us New Yorkers decide if we
21 want unqualified people voted in by less than five percent
22 of voters in their district to decide what's in the best
23 interest of our City and our communities. That's one.

24 That's New York City School Safety Coalition

25 Now I'll go on to the next organization. As

1 the founder and president of the New York City Parents
2 Union I must say it's very interesting to be back in this
3 building. Years ago, I think it was 2014, when they were
4 is doing construction the court was here in this building
5 and I was a plaintiff in Davids versus New York which was a
6 Parents Union lawsuit with parents from throughout the City
7 including Staten Island residents and that's why we were
8 here.

9 With that lawsuit filed Judge Minardo, God
10 bless him, was the judge in that lawsuit. This lawsuit was
11 about giving parents a voice and a seat at the table. That
12 lawsuit, Commissioners, in the Supreme Court building went
13 all the way up to the Court of Appeals and parents won
14 every step of that lawsuit and it was parents against the
15 State, the teacher's union and the City. The lawyer that
16 got us from the Supreme Court whose work put us over the
17 top that we won this case in the Court of Appeals and now
18 it's continuing with discovery was Randy Mastro. And this
19 is why the New York City Parents Union and other parents
20 throughout the City we oppose advice and consent when it
21 comes to the City Council.

22 We keep on hearing that Randy Mastro worked for
23 Giuliani. What we are not hearing is all the work that
24 Randy Mastro does for families, for communities of color.
25 All the work that Randy Mastro does to support and help New

1 Yorkers. So it comes back, Commissioners, to the City
2 being held hostage by the City Council that is not really
3 representing the populus. They're not representing us and
4 there are voting numbers, the voting, that empirical data
5 that no one can dispute shows they're not representing us
6 should not stand in the way of us having qualified people
7 representing the City and the City 's interest and our
8 interest as constituents such as Randy Mastro

9 So I propose, and I would ask the Commission to
10 consider completely repealing advice and consent by the
11 City Council in the Charter. Corporation Counsel
12 Department of Investigation and whatever else that they can
13 sometimes, that they can weigh in should be completely
14 repealed because DOI and Corporation Counsel should not
15 have been put under the purview of the City Council for
16 advice and consent because they are keeping and they would
17 keep great people like Randy Mastro from representing the
18 interest of New Yorkers. So on that, we ask that you
19 explore completely repeal that and putting that on the
20 ballot for New Yorkers to decide.

21 Last thing that I want to speak about, just as
22 myself, in my personal capacity is Ranked Choice Voting.
23 Ranked Choice Voting was decided by referendum, yes. It
24 was decided by a low turnout referendum and that's the
25 problem with New York City elections. We have voter apathy

1 because New Yorkers are fed up. Ranked Choice Voting we
2 were told was going to increase voter turnout, but the roll
3 out of Ranked Choice Voting was so poorly done that they
4 actually had to have a City Council hearing to talk about
5 the crisis of the low turnout.

6 Ranked Choice Voting has not increased voter
7 turn out. What happens with Ranked Choice Voting,
8 Commissioners, was Ranked Choice Voting there wasn't
9 information put out about Ranked Choice Voting in time.
10 Education on Ranked Choice Voting. Everything happened so
11 late that our communities, our seniors weren't aware
12 exactly what the hell Ranked Choice Voting was and it
13 wasn't just our seniors, most New Yorkers weren't aware
14 that for the first time they're going to have to rank their
15 votes. They didn't understand what that meant, so many
16 people didn't come out in 2023. It also has affected
17 special elections as well.

18 Now I get it, Ranked Choice Voting was voted
19 in, but now we had two elections plus some special
20 elections to look at the data and see where the Ranked
21 Choice Voting, whether this experiment has worked and I
22 also want to add when it comes to or Ranked Choice Voting,
23 not only did I disagree with it, I did not vote for it, but
24 even after Ranked Choice Voting was passed, when I saw that
25 our communities weren't being educated about this new way

1 of voting, I personally did Ranked Choice Voting seminars,
2 training, I did it with elected official, I did it with the
3 NAACP, I did it with my councilmen, I did Ranked Choice
4 Voting training on the Facebook page, Ranked Choice Voting
5 NYC. Myself and others, we did all of this to educate our
6 communities. The campaign finance (in audible) came to my
7 Ranked Choice Voting seminars.

8 So this is about educating our voters so that
9 they can be civically engaged. And Ranked Choice Voting
10 has been an utter failure. So I am asking that you
11 consider repealing Ranked Choice Voting because it has not
12 increased voter turnout

13 So I thank you for your time. I was going
14 to wait until you guys got to the Bronx, but...

15 MR. SCISSURA: We are happy to see you in
16 Staten Island. So I appreciate it. That was a lot, a lot,
17 and I didn't want to stop you because I think it was
18 important to hear and you came all the way from the Bronx.
19 A lot to process.

20 If anyone has a comment or question?

21 MS. ROWE-ADAMS: I do. I'm going to go before
22 her Borough President.

23 First, just let me say thank you, thank you,
24 thank you, Mona for that wonderful detailed presentation.
25 You have given us, and especially me, something to really

1 think about, look at. So you did a charge and you really
2 spelled it out

3 So we have, like I said earlier, we have work
4 to do, but you did a great, great plan, planned it out
5 well, planned and this is what we need as Ruben said
6 earlier. You know, we need more, we need to know what
7 direction our community, our City is going in and thank
8 you. That was so much needed and I needed to hear it. I
9 needed to hear it. So we definitely have work to do with
10 you and so many others.

11 Thank you

12 MR. Ruben: As they say in Spanish, I'm (spoken in
13 Spanish." We are New Yorkers. I feel Bronx proud and I
14 started this in my opening remarks by having a challenge to
15 New York and that is how we do it in the Boogie Down Bronx.

16 In all seriousness, this is exactly what I mean
17 when we move forward is what we want folks to step up to
18 the challenge of reviewing the Charter as best they can or
19 whatever issue, you don't have to read the whole Charter,
20 but whatever issue, find that in the Charter and delineate
21 and outline to us exactly what in the Charter you want to
22 us revisit or to deliberate such as the way Ms. Davids did
23 this morning. Well done.

24 MR. SCISSURA: Thank you. Any other
25 Commissioners?

1 Okay, just a couple of comments and I think the
2 first one is for the team and the staff. Let's insure that
3 at one of our public forums we have some experts on
4 election, law election reform. I think obviously there are
5 lots of questions around it. One of the questions I would
6 have is implementation, how long would that take if we put
7 something on the ballot. Would it take effect in the next
8 election or would you have to wait until something after
9 and I think as folks come in to testify to us it would be
10 good to hear how other cities are doing it and how it works
11 and if it has in fact increased turnout.

12 And I want to preface, a lot of what we are
13 dealing with. We cannot force people to come out and vote.
14 We have elections. People choose not to vote. We can't
15 force people, but can we do something that will allow more
16 voters to vote perhaps, but I think we have to hear from
17 folks about what that means.

18 Ruben, I agree with you, we've got to get
19 people excited about the Charter. It is not easy, but we
20 will get people excited. And we will listen to people's
21 voices.

22 So speaking of voices, we have a member of the
23 City Council from Queens, Council member Joann Ariola and
24 I'm going to ask her to present her testimony now.

25 MS. ARIOLA: Thank you so much. And my testimony is on

1 public safety portion that this Charter committee will be
2 discussing.

3 In an era where adherence to political ideology
4 has overtaken common sense, it is incredible that the
5 Mayor's office has been forced to take this step to protect
6 the people of the City of New York.

7 Thanks to the misguided policies from radical
8 progressives at both City and State levels the New York law
9 enforcement agency have been handcuffed. The decision to
10 create this Charter Commission presents an opportunity to
11 restore normalcy to the greatest City in the world and
12 reverse the disasters unleashed by fellow law makers.

13 The Commission is not being created for no
14 reason. It's being created because communities across the
15 City have repeatedly expressed that they feel left out of
16 the equation when it comes to passing laws and that
17 criminally friendly legislation is making it increasingly
18 harder for them to raise their families and do so and have
19 businesses here.

20 Through the creation of this Commission we can
21 more directly address the concerns of the average every day
22 New Yorker rather than simply cater to the loudest voices
23 of the most radical voices. Voices which tend to drown the
24 real issues to hyper focus on narrow partisan politics.

25 I support the Mayor in his decision to create

1 this Commission and I urge all of my colleagues who wish to
2 truly represent the interest of the every day New Yorkers
3 to do the same.

4 Thank you for the time to weigh in.

5 MR. SCISSURA: Thank you, Council member.

6 Do any of the Commissioners have questions for
7 the Council woman? Okay, I'm sure we will see you at
8 another Commission hearing in the coming weeks, but we
9 appreciate your time today.

10 Okay, before we motion to adjourn, are there
11 any other members here who would like to testify? Is there
12 anyone else on Zoom that we may have missed or that just
13 decided they would like to testify? No? Do we have any
14 members of our Commission who would like to add any final
15 thoughts?

16 Okay, hearing done. I will ask for a motion to
17 adjourn hearing. Second?

18 MS. GRILLO: Yes.

19 MR. SCISSURA: All in favor?

20 (Commissioners agreed in unison.)

21 MR. SCISSURA: Thank you very much
22 everyone, have a great day.
