25-81 Required Bicycle Parking Spaces

25-811 Enclosed bicycle parking spaces R1 R2 R3 R4 R5 R6 R7 R8 R9 R10 In all districts, as indicated, enclosed #accessory# bicycle parking spaces shall be provided for at least that amount specified for the applicable #use# set forth in the table below. For the purposes of calculating the number of required bicycle parking spaces, any fraction of a space 50 percent or greater shall be counted as an additional space. For #residences#, the #accessory# bicycle parking requirement shall be calculated separately for separate #buildings# or #building segments#.

Where any #building# or #zoning lot# contains two or more #uses# having different bicycle parking requirements as set forth in the following table, the bicycle parking requirements for each type of #use# shall apply to the extent of that #use#.

Where an enclosed #accessory group parking facility# is provided, the required number of bicycle parking spaces for the #use# to which such facility is #accessory# shall be the amount set forth for such #use# in the table below, or one for every 10 automobile parking spaces that are enclosed within a #building# or other structure# or located on the roof of a #building#, whichever will require a greater number of bicycle parking spaces.

Table with 2 columns: Type of #Use#, Bicycle Parking Spaces Required in Relation to Specified Unit of Measurement. Rows include FOR RESIDENTIAL USES, Use Group 1, Use Group 2, #Non-profit residences for the elderly#, FOR COMMUNITY FACILITY USES\*, College or #school# student dormitories, Colleges, universities, or seminaries, Theaters, auditoriums, gymnasiums, Libraries, museums or non-commercial art galleries, Monasteries, convents or novitiates, All other Use Group 3 and Use Group 4.

\* #Non-profit hospital staff dwellings# shall be subject to the requirements for Use Group 2 #residential uses#. \*\* Up to half of these spaces may be provided as unenclosed bicycle parking spaces pursuant to the requirements of Section 25-83 (Restrictions on Operation, Size and Location of Enclosed Bicycle Parking Spaces).

However, the bicycle parking requirements set forth in the above table shall be waived for bicycle parking spaces that are #accessory# to:

- (a) #residential buildings# or #residential building segments# containing 10 #dwelling units# or less; (b) colleges, universities, or seminaries where the number of required bicycle parking spaces is six or less; (c) college or #school# student dormitories or fraternity and sorority student houses where the number of required bicycle parking spaces is five or less; or (d) all other #community facility uses# not otherwise listed in the above table where the number of required bicycle parking spaces is three or less.

25-812 Unenclosed bicycle parking spaces R1 R2 R3 R4 R5 R6 R7 R8 R9 R10 In all districts, as indicated, for open parking areas #accessory# to #community facility uses# that contain 18 or more spaces or are greater than 6,000 square feet in area, which meet the applicability standards of Section 25-67 (Parking Lot Landscaping), unenclosed #accessory# bicycle parking spaces shall be provided as follows:

- (a) One bicycle parking space shall be provided for every ten vehicle parking spaces, up to 200 vehicle parking spaces. Thereafter, one bicycle parking space shall be provided for every 100 vehicle parking spaces. Fractions equal to or greater than one-half resulting from this calculation shall be considered to be one bicycle space.

(b) Each bicycle rack shall allow for the bicycle frame and at least one wheel to be locked to the rack. If bicycles can be locked to each side of the rack without conflict, each side may be counted toward a required space. Thirty inches of maneuverable space shall be provided between parallel bicycle racks and a 96 inch wide aisle shall be provided between bicycle rack areas.

(c) Bicycle racks shall be provided within 50 feet of a main entrance of a #building# and a minimum of 24 inches from any wall. However, if more than 40 bicycle parking spaces are required, 50 percent of such spaces may be provided at a distance of up to 100 feet from the main entrance of a #building#. Department of Transportation bicycle racks provided on a fronting sidewalk may be counted toward this requirement, provided such racks meet the standards of this paragraph, (c).

**25-82  
Authorization for Reduction of Spaces**

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10  
In all districts, as indicated, the City Planning Commission may authorize a reduction in the number of required bicycle parking spaces set forth in Section 25-811 (Enclosed bicycle parking spaces), or a waiver of all such spaces, upon finding there are subsurface conditions, below-ground infrastructure or other site planning constraints that would make accommodating such bicycle parking spaces on or below the first #story# of the #building# infeasible. The Commission may request reports from licensed engineers or registered architects in considering such reduction.

**25-83  
Restrictions on Operation, Size and Location of Enclosed Bicycle Parking Spaces**

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10

Each bicycle space shall adjoin a rack or similar system for securing the bicycle. Bicycle parking spaces shall be located in an area secured by a lock or similar means, or adjoin a securely anchored rack to which the bicycle frame and at least one wheel can be locked. Fifteen square feet of area shall be provided for each bicycle space. However, the area for each bicycle space may be reduced by up to nine square feet per bicycle if the Commissioner of Buildings certifies that a layout has been submitted to adequately accommodate the specified number of bicycles.

A plaque shall be placed at the exterior of the entry to the bicycle parking area, outside any locked door, with lettering at least three-quarter inches in height stating "Bicycle Parking."

For colleges, universities, or seminaries, one-half of required enclosed #accessory# bicycle parking spaces may be provided as open unenclosed spaces, provided that such spaces meet the standards of Section 25-812 (Unenclosed bicycle parking spaces), paragraph (b).

All bicycle parking spaces which are #accessory# to #residences# shall be made available for the storage and independent access of the bicycles used by the occupants of such #residences#.

All required bicycle parking spaces which are #accessory# to a #community facility use# shall be made available for the storage and independent access of the bicycles used by the employees of such #use#, except that bicycle parking spaces #accessory# to colleges or universities shall be accessible to all authorized users of such #building#, and that bicycle parking spaces #accessory# to #community facilities# with sleeping accommodations may be accessible to the occupants of such facility.

Bicycle spaces may be located in a room secured by a lock or similar means, provided that access is through a commonly accessible area and access is made available to eligible users on an equal basis.

**25-84  
Certification for Off-Site Bicycle Parking Spaces**

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10  
In all districts, as indicated, for colleges, universities, seminaries, hospitals and related facilities, except animal hospitals, #accessory# bicycle parking spaces required pursuant to Section 25-811 (Enclosed bicycle parking spaces) may be provided on a #zoning lot# other than the same #zoning lot# as the #use# to which such spaces are #accessory#, provided that the Chairperson of the City Planning Commission certifies to the Department of Buildings that all such bicycle parking spaces are:

- (a) located on a #zoning lot# not further than 1,000 feet from the nearest boundary of the #zoning lot# occupied by the #use# to which they are #accessory#; or within a subsurface parking and other service facility that serves multiple #zoning lots#, including the #zoning lot# occupied by the #use# to which they are #accessory#; and
- (b) subject to deed restrictions filed in an office of record, binding the owner and his heirs and assigns to maintain the required number of spaces as accessible throughout the life of the #use# generating the #accessory# bicycle parking spaces.

A plaque shall be placed within 30 feet of a #building#

entrance, with lettering at least three-quarter inches in height stating "Bicycle Parking" followed by information directing users to the address of the off-site location.

The number of off-site #accessory# bicycle parking spaces provided pursuant to this Section and the area of such bicycle parking spaces, in square feet, shall be noted on the Certificate of Occupancy for both the #building# in which the off-site bicycle parking spaces are located, and the #building# to which such bicycle parking spaces are #accessory#.

**25-85  
Floor Area Exemption**

R1 R2 R3 R4 R5 R6 R7 R8 R9 R10  
In all districts, as indicated, space provided for enclosed #accessory# bicycle parking spaces pursuant to the standards of this section shall be excluded from the definition of #floor area#, provided that:

- (a) the space excluded from #floor area# does not exceed an amount equal to 15 square feet multiplied by the number of required spaces, or if spaces are waived pursuant to paragraphs (a), (b), (c) or (d) of Section 25-811 (Enclosed bicycle parking spaces), the number that would have been required but for the waiver; and

**36-01  
General Purposes**

The following regulations on permitted and required accessory off-street parking spaces and #accessory# bicycle parking spaces are adopted in order to provide parking spaces off the streets sufficient to give necessary access to developing centers of commerce outside the high density central areas, to reduce traffic congestion caused by parking on the streets, to prevent substantial amounts of traffic from circulating in and parking on residential streets surrounding commercial centers, to provide for a higher standard of commercial development within the City and thus to promote and protect public health, safety and general welfare.

**36-02  
Applicability of District Regulations**

Except as otherwise provided in this Section, the regulations of this Chapter on permitted and required #accessory# off-street parking spaces and #accessory# bicycle parking spaces apply to #residences#, #community facility uses# or #commercial uses#, as set forth in the provisions of the various Sections. In addition, the regulations of this Chapter, or of specified Sections thereof, also apply in other provisions of this Resolution where they are incorporated by cross reference.

**36-72 Authorization for Reduction of Spaces**  
 C1 C2 C3 C4 C5 C6 C7 C8

In all districts, as indicated, the City Planning Commission may authorize a reduction in the number of required bicycle parking spaces set forth in Section 36-711 (Enclosed bicycle parking spaces) or a waiver of all such spaces, upon finding there are subsurface conditions, below-ground infrastructure or other site planning constraints that would make accommodating such bicycle parking spaces on or below the first #story# of the #building# infeasible. The Commission may request reports from licensed engineers or registered architects in considering such reduction.

**36-73 Restrictions on Operation, Size and Location of Bicycle Parking Spaces**  
 C1 C2 C3 C4 C5 C6 C7 C8

In all districts as indicated, all #accessory# bicycle parking spaces shall be provided on the same #zoning lot# as the #building# or #use# to which such spaces are #accessory#, except as provided in Section 36-74 (Certification for Off-Site Bicycle Parking Spaces).

All required bicycle parking spaces which are #accessory# to #residences# shall be made available for the storage and independent access of the bicycles used by the occupants of such #residences#.

All required bicycle parking spaces which are #accessory# to a #commercial# or #community facility use# shall be made available for the storage and independent access of the bicycles used by the employees of such #use#, except that bicycle parking spaces #accessory# to colleges or universities must be accessible to all authorized users of such #building#, and that bicycle parking spaces #accessory# to #community facilities# with sleeping accommodations may be accessible to the occupants of such facility.

Bicycle spaces may be located in a room secured by a lock, or similar means, provided that access is through a commonly accessible area and access is made available to eligible users on an equal basis.

- (a) For colleges, universities, or seminaries, one-half of required #accessory# bicycle parking spaces shall be permitted to be provided as open unenclosed

spaces, provided that such spaces meet the standards of Section 36-712 (Unenclosed bicycle parking spaces), paragraph (b).

- (a) located on a #zoning lot# not further than 1,000 feet from the nearest boundary of the #zoning lot# occupied by the #use# to which they are #accessory#; or within a subsurface parking and other service facility that serves multiple #zoning lots#, including the #zoning lot# occupied by the #use# to which they are #accessory#; and
- (b) subject to deed restrictions filed in an office of record, binding the owner and his heirs and assigns to maintain the required number of spaces as accessible throughout the life of the #use# generating the #accessory# bicycle parking spaces.

A plaque shall be placed within 30 feet of an entrance of the #building#, with lettering at least three-quarter inches in height stating "Bicycle Parking" followed by information directing users to the address of the off-site location.

The number of off-site #accessory# bicycle parking spaces provided pursuant to this Section and the area of such bicycle parking spaces, in square feet, shall be noted on the Certificate of Occupancy for both the #building# in which the off-site bicycle parking spaces are located, and the #building# to which such bicycle parking spaces are #accessory#.

**36-59**  
**Cross Access Connections in the Borough of Staten Island**

**C4-1 C8**  
In the Borough of Staten Island, in the districts indicated, existing or new open parking lots adjacent to one another on the same or separate #zoning lots# shall be required to provide vehicular passageways between such open parking lots. Such vehicular passageways are hereinafter referred to as "cross access connections", and shall be provided in accordance with the requirements of this Section.

**36-59I**  
**Applicability and location**

Cross access connections shall be required for:

- (a) #developments# where at least 70 percent or more of the #floor area# on the #zoning lot# is occupied by a #commercial# or #community facility use# with an open parking lot that has 18 or more #accessory# parking spaces or is greater than 6,000 square feet in area;
- (b) #enlargements# on a #zoning lot# with an open parking lot that has 18 or more #accessory# parking spaces or is greater than 6,000 square feet in area; or
- (c) #zoning lots# where the number of parking spaces #accessory# to #commercial# or #community facility uses# is increased and such increase results in at least 18 parking spaces or more than 6,000 square feet of open parking lot area.

Such #developments#, #enlargements# or #zoning lots# shall provide a cross access connection at each #zoning lot line#, or other boundary between properties on the same #zoning lot#, that is contiguous for a distance of at least 60 feet with an adjoining #zoning lot# or boundary between separate parking lots on the same #zoning lot#, within a C4-1, C8 or Manufacturing District.

All cross access connections shall be shown on the site plan required pursuant to Section 36-58 (Parking Lot Maneuverability and Curb Cut Regulations), certified pursuant to Section 36-592 and constructed at the time of #development#, #enlargement# or increase in the number of parking spaces.

**36-592**  
**Certification of cross access connections**

No excavation, foundation or building permit shall be issued for any #development# or #enlargement# requiring a cross access connection, and no certificate of occupancy shall be amended for any increase in the number of parking spaces requiring a cross access connection until the Chairperson of the City Planning Commission certifies to the Department of Buildings that each required cross access connection:

- (a) is a minimum of 22 feet in width as measured along a #lot line# or boundary between separate properties when located on the same #zoning lot#, and at least 23 feet from any #street line#;
- (b) is an extension of a travel lane of the subject open parking lot and;
  - (1) aligns with any previously certified cross access connection for an adjacent open parking lot, or
  - (2) where no previously certified cross access connection exists for an adjacent open parking lot, aligns to the maximum extent practicable with a travel lane in such adjacent open parking lot.
- (c) has a grade not greater than 15 percent;
- (d) is placed in an area that is not blocked by an existing #building or other structure# that is within 50 feet of the #lot line# or other boundary of the subject property;#
- (e) is placed in an area that will not require the removal of significant natural features such as wetlands or trees with a caliper of six inches or more, on the same #zoning lot# or adjacent #zoning lots#;

Furthermore, an easement through all required cross access

connections for vehicular and pedestrian passage between and among adjacent parking lots, in a form acceptable to the Department of City Planning, shall be recorded in the Office of the Richmond County Clerk. An easement so recorded shall not become effective unless and until a corresponding easement has been recorded against an adjacent property, whether on the same or adjacent #zoning lot#, pursuant to this Section. Accordingly, if an easement pursuant to this Section has previously been recorded against any adjacent property, the subject easement shall be effective immediately upon recordation. Nothing herein shall be construed to limit the ability of a property owner or lessee to prohibit parking by non-customers

The Chairperson may relocate a previously-certified cross access connection where such new location is acceptable to the owners of both properties and such connection complies with all requirements of this Section.

The Chairperson, however, shall certify to the Department of Buildings that a cross access connection shall be waived along a #lot line#, or other boundary between separate parking lots when located on the same #zoning lot#, due to the presence of:

- (1) grade changes greater than 15 percent;
- (2) #buildings or other structures# located within 50 feet of the subject #zoning lot# or property, or
- (3) wetlands or trees with a caliper of six inches or more,

and no alternate location along such #lot line# or other boundary between properties exists.

No screening or landscaping along a #lot line# shall be required in the connection area, and, upon the effective date of the easement, if such cross access connection is in a location that contained required parking spaces, such connection shall be counted as three required parking spaces.

**36-593**  
**Authorizations for waivers or modifications of cross access connections**

The City Planning Commission may authorize modifications or waivers of the requirements of Section 36-59, inclusive, provided the Commission finds that:

- (a) due to the irregular shape of the #zoning lot# or the location of connections along other #lot lines# or boundaries between properties on the same #zoning lot#, it is not possible to design a complying parking lot with a complying cross access connection; or
- (b) site planning constraints necessitate the placement of a new or enlarged #building# against a #lot line# or other boundary between properties that precludes a cross access connection along such #lot line# or boundary, and no other site plan is feasible.

The Commission may request reports from licensed engineers or landscape architects in considering such modifications or waivers.

In the Borough of Staten Island, in the districts indicated, existing or new open parking lots adjacent to one another on the same or separate #zoning lots# shall be required to provide vehicular passageways between such open parking lots. Such vehicular passageways are hereinafter referred to as "cross access connections", and shall be provided in accordance with the requirements of this Section.

**44-49I**  
**Applicability and location**

Cross access connections shall be required for:

- (a) #developments# where at least 70 percent or more of the #floor area# on the #zoning lot# is occupied by a #commercial or community facility use# containing an open parking lot that has 18 or more #accessory# parking spaces or is greater than 6,000 square feet in area; or
- (b) #enlargements# on a #zoning lot# with an open parking lot that has 18 or more #accessory# parking spaces or is greater than 6,000 square feet in area; or
- (c) #zoning lots# where the number of parking spaces #accessory# to #commercial# or #community facility uses# is increased and such increase results in at least 18 parking spaces or more than 6,000 square feet of open parking lot area.

Such #developments#, #enlargements# or #zoning lots# shall provide a cross access connection at each #zoning lot line# or other boundary between properties that is coincident, for a contiguous distance of at least 60 feet, with an adjoining #zoning lot# or other property on the same #zoning lot# within a C4-1, C8 or Manufacturing District.

All cross access connections shall be shown on the site plan required pursuant to Section 44-47 (Parking Lot

Maneuverability and Curb Cut Regulations), certified pursuant to Section 44-492 and constructed at the time of #development#, #enlargement# or increase in the number of parking spaces.

**44-492**  
**Certification of cross access connections**

No excavation, foundation or building permit shall be issued for any #development# or #enlargement# requiring a cross access connection, and no certificate of occupancy shall be amended for any increase in the number of parking spaces requiring a cross access connection until the Chairperson of the City Planning Commission certifies to the Department of Buildings that each required cross access connection:

- (a) is a minimum of 22 feet in width as measured along a #lot line# or boundary between separate properties when located on the same #zoning lot#, and at least 23 feet from any #street line#;

  - (2) where no previously certified cross access connection exists for an adjacent open parking lot, aligns to the maximum extent practicable with a travel lane in such adjacent open parking lot.
- (c) has a grade not greater than 15 percent;
- (d) is placed in an area that is not blocked by an existing #building or other structure# that is within 50 feet of the #lot line# or other boundary of the subject property;
- (e) is placed in an area that will not require the removal of significant natural features such as wetlands or trees with a caliper of six inches or more, on the same #zoning lot# or adjacent #zoning lots#;

Furthermore, an easement through all required cross access connections for vehicular and pedestrian passage between and among adjacent parking lots, in a form acceptable to the Department of City Planning, shall be recorded in the Office of the Richmond County Clerk. An easement so recorded shall not become effective unless and until a corresponding easement has been recorded against an adjacent property, whether on the same or adjacent #zoning lot#, pursuant to this Section. Accordingly, if an easement pursuant to this Section has previously been recorded against any adjacent property, the subject easement shall be effective immediately upon recordation. Nothing herein shall be construed to limit the ability of a property owner or lessee to prohibit parking by non-customers.

The Chairperson may relocate a previously-certified cross access connection where such new location is acceptable to the owners of both properties and such connection complies with all requirements of this Section.

The Chairperson, however, shall certify to the Department of Buildings that a cross access connection shall be waived along a #lot line#, or other boundary between separate parking lots when located on the same #zoning lot#, due to the presence of:

- (1) grade changes greater than 15 percent;

and no alternate location along such #lot line# or other boundary between properties exists.

No screening or landscaping along a #lot line# shall be required in the connection area, and, upon the effective date of the easement, if such cross access connection is in a location that contained required parking spaces, such connection shall be counted as three required parking spaces.

**44-493**  
**Authorization for modification or waiver of cross access connections**

The City Planning Commission may authorize modifications or waivers of the requirements of Section 44-49, inclusive, provided the Commission finds that:

- (a) due to the irregular shape of the #zoning lot# or the location of connections along other #lot lines# or other boundaries between properties, it is not possible to design a parking lot with a complying cross access connection; or
- (b) site planning constraints necessitate the placement of a new or #enlarged building# against a #lot line# or other boundary between properties that precludes a cross access connection along such #lot line# or boundary, and no other site plan is feasible.

The Commission may request reports from licensed engineers or landscape architects in considering such modifications or waivers.

(b) Location rules for #zoning lots# abutting #parks#

Where a tower is provided on a #zoning lot# that abuts a #park#, such tower shall be located within 85 feet of such #park#, and if two towers are provided on such #zoning lot#, the second tower shall be located within 45 feet of East 149th Street or an #upland connection#. Where two towers are provided on a #zoning lot# that abuts a #park#, the shorter of the towers shall be located closer to such #park#.

(c) Maximum tower size

The outermost walls of each #story# located entirely above the applicable transition height shall be inscribed within a rectangle. The maximum length of any side of such rectangle shall be 135 feet. Each #story# of a tower located entirely above the applicable transition height shall not exceed a gross area of 8,800 square feet.

(d) Tower top articulation

All #buildings# that exceed a height of 200 feet shall provide articulation in accordance with at least one of following provisions:

- (1) Setbacks on each tower face
  - (i) For #buildings# less than 260 feet in height, the highest three #stories#, or as many #stories# as are located entirely above a height of 200 feet, whichever is less, shall have a #lot coverage# of at least 50 percent of the #story# immediately below such #stories#, and a maximum #lot coverage# of 80 percent of the #story# immediately below such #stories#.
  - (ii) For #buildings# 260 feet or more in height, the highest four

#stories#, or as many #stories# as are located entirely above a height of 260 feet, whichever is less, shall have a #lot coverage# of at least 50 percent of the #story# immediately

below such #stories#, and a maximum #lot coverage# of 80 percent of the #story# immediately below such #stories#.

Such reduced #lot coverage# shall be achieved by one or more setbacks on each face of the tower, where at least one setback on each tower face has a depth of at least four feet, and a width that, individually or in the aggregate, is equal to at least 10 percent of the width of such respective tower face. For the purposes of this subparagraph (1), each tower shall have four tower faces, with each face being the side of a rectangle within which the outermost walls of the highest #story# not subject to the reduced #lot coverage# provisions have been inscribed. The required setbacks shall be measured from the outermost walls of the #building# facing each tower face. Required setback areas may overlap.

(2) Three setbacks facing Harlem River

The upper #stories# of a tower shall provide setbacks with a minimum depth of 15 feet measured from the west facing wall of the #story# immediately below. Such setbacks shall be provided at the level of three different #stories#, or as many #stories# as are located entirely above a height of 230 feet, whichever is less. The lowest level at which such setbacks may be provided is 230 feet, and the highest #story# shall be located entirely within the eastern half of the tower.

The provisions of Sections 62-41 (Requirements for Waterfront Public Access) are modified as follows:

- (1) Parcel 3 may provide the #upland connection# at either of the two optional locations indicated on Map 2 in the Appendix to this Chapter.
- (2) The required width for an #upland connection# on Parcel 6, as indicated on Map 2, is reduced to 12 feet. Such #upland connection# shall be subject only to the applicable pedestrian path provisions.

(c) Supplemental public access areas

#Supplemental public access areas# pursuant to this Plan shall be provided on Parcels 1 and 2, as indicated on Map 2 in the Appendix to this Chapter, however, the requirement may be waived by certification by the Chairperson of the City Planning Commission as set forth in Section 87-72 (Certification to Waive Supplemental Public Access Area Requirement).

(d) Visual Corridors

#Visual corridors# shall be located within Parcels 1 and 4, and the #park#, as indicated on Map 2 in the Appendix to this Chapter.

**87-72 Certification to Waive Supplemental Public Access Area Requirement**

For Parcels 1 and 2, the requirement to provide a designated #supplemental public access area#, as indicated on Map 2 in the Appendix to this Chapter, may be waived by the Chairperson of the City Planning Commission upon finding that:

- (a) the site plan includes a vehicular connection through the #zoning lot# pursuant to the design guidelines set forth in Section 87-50 (Design Requirements for Fire Apparatus Access Roads); and
(b) a declaration of restrictions has been provided pursuant to Section 87-74 (Declaration of Restrictions); and
(c) the design meets all applicable connection requirements set forth in Section 87-76 (Connection with adjacent zoning lots); and
(d) such a connection either:
(1) on Parcel 1, provides a vehicular connection between East 149th Street and Exterior Street; or
(2) on Parcel 2, provides a bidirectional connection between Exterior Street at its intersection with East 144th Street and the southernmost #lot line# of the #development#.

**87-73 Certification to Allow Fire Apparatus Access Road Turnaround in Shore Public Walkways**

On Parcels 2, 3 and 4, a dead-end fire apparatus access road turnaround, as defined in the New York City Fire Code Section 503.2.5 (Dead-ends), may by certification, extend into the designated #shore public walkway#, provided that:

- (a) a declaration of restrictions has been provided pursuant to Section 87-74; and
(b) a fire apparatus access road abutting the shared #zoning lot line# between the #development# seeking certification under this section and Parcels 2, 3 or 4 does not exist; and
(c) the following connection requirements are met:
(1) On Parcel 1, the fire apparatus access road shall serve as a connection along all #buildings# on such Parcel along the #shore public walkway# and #park#. Such road shall provide for a vehicular connection between East 149th Street and Exterior Street; or
(2) On Parcels 2, 3 and 4, the fire apparatus access road shall serve as a segment of a bidirectional loop road along the #shore public walkway# on such Parcels, providing a connection to Exterior Street at the northeast corner of Parcel 2 and a connection to Exterior Street at the southeast corner of Parcel 4.

Such turnaround shall have a diameter of 70 feet and be located at the end of the fire apparatus access road, abutting the adjacent #lot line#. At no point may the turnaround extend into the #shore public walkway# for a distance greater than 23 feet. Sidewalks shall not be required adjacent to the turnaround. The portion of the turnaround that lies within a #shore public walkway# shall remain clear of obstacles, shall be composed of permeable materials, and shall meet all applicable requirements set forth in the New York City Fire Code Section 503.1.1 (Fire apparatus access roads). In addition, the roadbed material of a fire apparatus access road leading to a vehicular turnaround may be extended into the turnaround provided the area of the turnaround paved with such material is not wider than the roadbed leading to the turnaround. The remaining portions of the turnaround shall be paved with distinct materials to facilitate pedestrian usage. In addition, the level of the area within the turnaround shall be raised to be flush of the level of adjoining sidewalks.

**87-74 Declaration of Restrictions**

For any fire apparatus access road proposed for certification pursuant to Sections 87-72 or 87-73, a declaration of restrictions shall be provided to guarantee the construction, improvement, operation, maintenance and repair of such road, to guarantee that such road remains open, unobstructed and accessible to all members of the public, except as necessary to avoid public dedication, and to ensure compliance with all applicable provisions. Such declaration of restrictions shall be prepared in a form acceptable to the Department of City Planning, shall be filed and duly recorded in the Borough Office of the Register of the City of New York and indexed against the property. Filing and recording of the declaration of restrictions shall be a precondition for the Chairperson's certification under Section 87-72 and 87-73, where applicable.

For certifications proposed pursuant to Section 87-73, at the time a declaration of restrictions has been provided by the adjacent #development#, pursuant to this section, permitting

vehicular connection between #zoning lots#, the #zoning lot# containing a previously constructed fire apparatus access turnaround shall be responsible for the following actions on the portion of the connection on such #zoning lot#:

- (a) deconstructing the fire apparatus access road turnaround; and
(b) re-landscaping the area that had extended into the #shore public walkway#, so as to create the conditions of the immediately surrounding #shore public walkway#, which may include any combination of tree planting, laying sod, removing pavers, or any other required landscaping action; and
(c) extending all required sidewalks that had remained short of the #lot line# to the shared #lot line# to connect to the required adjacent sidewalks and enable pedestrian movement across #developments#; and
(d) complying with all applicable waterfront rules, street regulations and the New York City Fire Code.

**87-75 Applicability of waterfront regulations**

In the event that #streets# are mapped on Parcels 1, 2, 3 and 4 after (effective date of amendment), the area within such #streets# may continue to be considered part of the #zoning lot# for the purposes of applying all waterfront regulations of the Zoning Resolution.

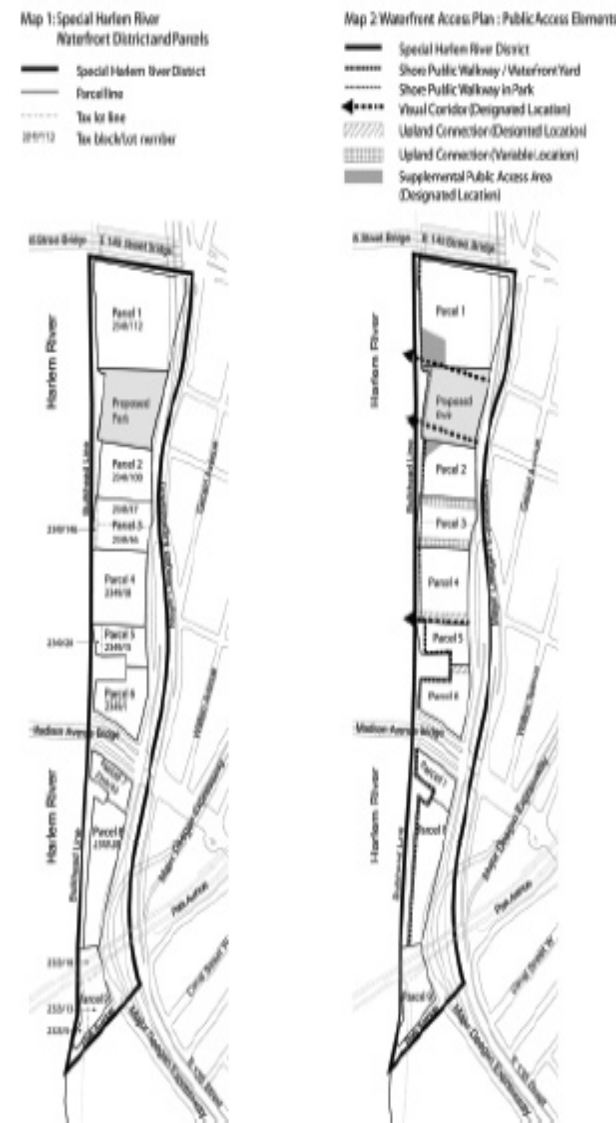

**87-76 Connection with adjacent zoning lots**

The following provisions apply to #developments# pursuing certification pursuant to either Section 87-72 (Certification to Waive Supplemental Public Access Area Requirement) or Section 87-73 (Certification to Allow Fire Apparatus Access Road Turnaround in Shore Public Walkways).

On each of Parcels 2, 3 and 4, and only among Parcels 2, 3 and 4, a #development# shall provide a connection for bidirectional vehicular travel at an adjacent #zoning lot line# if such adjacent #zoning lot# has previously constructed a connection that terminates at the shared #lot line#. Any connection of fire apparatus access roads across a shared #zoning lot line# must meet the grade of and maintain the street width of the existing adjacent private street. In addition to such physical shared #lot line# connection, a private road declaration shall be provided pursuant to the provisions of Section 87-74 of this Chapter. A connection need not be opened unless and until such declaration of restrictions, in accordance with 87-74, has been recorded against the adjacent #zoning lot#.

When no connection for vehicular travel terminating at the opposite side of a shared #zoning lot line# exists, one may, by certification pursuant to Section 87-73, construct a dead-end fire apparatus access road turnaround that may extend into the designated #shore public walkway#. Such certification is also contingent upon providing a declaration of restrictions, in accordance with Section 87-74.
