GENERAL PURPOSES

The #Special Southern Roosevelt Island District# established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

- providing opportunities for the development of an academic and research and development campus in a manner that benefits the surrounding community;
- allowing for a mix of residential, retail, and other commercial uses to support the academic and research and development facilities and complementing the urban fabric of Roosevelt Island;
- establishing a network of publicly accessible open areas that take advantage of the unique location of Roosevelt Island and that integrate the academic campus into the network of open spaces on Roosevelt Island and provide a community amenity;
- strengthening visual and physical connections between the eastern and western shores of Roosevelt Island by establishing publicly accessible connections through the Special District and above grade view corridors;
- encouraging alternative forms of transportation by eliminating required parking and placing a maximum cap on permitted parking;
- providing flexibility of architectural design within limits established to assure adequate access of light and air to the street and surrounding waterfront open areas, and thus to encourage more attractive and innovative building forms; and
- promoting the most desirable use of land in this area and thus conserving the value of land and buildings, and thereby protect the City’s tax revenues.

No. 5

CD 8 C130078 PPM IN THE MATTER OF an application submitted by the NYC Department of Citywide Administrative Services (DCAS), pursuant to Section 197-c of the New York City Charter, for the disposition to the New York City Land Development Corporation (NYCLDC) of city-owned property located on Block 1373, Lot 20 and p/o Lot 1, pursuant to zoning.

NOTICE

On Wednesday, February 6, 2013, at 10:00 A.M., in Spector Hall, at the Department of City Planning, 22 Reade Street, in Lower Manhattan, a public hearing is being held by the Office of the Deputy Mayor for Economic Development in conjunction with the above

ULURP hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning disposition of City-owned property, approval of the lease and sale terms of the disposition parcels, amendment of the NYC Health and Hospitals Corporation operating agreement with the city in order to surrender a portion of the project site, zoning map changes and zoning text amendments, and a City map amendment to map a one-way loop road surrounding the project site and its connection to Main Street as a city street. Roosevelt Island Operating Corporation's actions as an involved agency may include amendment of the 1969 Master Lease originally between the City and the NYS Urban Development Corporation (RIOC's predecessor in interest) and related actions. It is also possible that an approval from the U.S. Environmental Protection Agency would be required with respect to a geothermal well system that may be part of the project. The proposed actions would facilitate an initiative by the Office of the Deputy Mayor for Economic Development to allow for the development of an applied science and engineering campus, Cornell NYC Tech, on Roosevelt Island by Cornell University of an approximately 1.8 million gross square feet (gsf) of building space, of which 620,000 gsf must be for academic use. The project site is located in Manhattan Community District 8 on the southern portion of Roosevelt Island, south of the Ed Koch Queensboro Bridge.

The zoning map amendment would rezone the project site and surrounding area from R7-2 to C4-5, and to map the Special Southern Roosevelt Island District over the same area. The zoning text amendments would create the Special Southern Roosevelt Island District and establish special use, bulk, and public access controls for the rezoning area. The Special District is intended to create a uniform, flexible framework for the ongoing development of the Cornell NYC Tech campus. The proposed C4-5/Special Southern Roosevelt Island District zoning designation would allow for the commercial uses anticipated with the project up to a maximum FAR of 3.4. Residential uses in the C4-5/Special Southern Roosevelt Island District would be permitted to a maximum FAR of 3.44, and community facility uses would be allowed to a maximum FAR of 6.5. Use Group 17B research labs would also be allowed under the C4-5/Special Southern Roosevelt Island District, to a maximum FAR of 3.4. Comments are requested on the DEIS and will be accepted until Tuesday, February 19, 2013.

This hearing is being held pursuant to the State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR), CEQR No. 12DME004M.

Name, Description and Location of Proposal

Beach 12th Street Demapping

The applicant, Bnos Bais Yaakov of Far Rockaway, proposes a city map amendment involving the elimination, discontinuance and closing (i.e. demapping) of Beach 12th Street between Frisco Avenue and Caffrey Avenue (the "Subject Street"), and the conveyance of the portion of Beach 12th Street in city ownership to the adjoining property owner (Bnos Bais Yaakov of Far Rockaway). The project is located in the Far Rockaway neighborhood in Queens Community District 14. The Subject Street is comprised of Block 15584 p/o Lots 16 and 52, and Block 15585 p/o Lots 11, 16 and 33. Different portions of the Subject Street are owned by three separate parties, the Applicant, the City of New York and a private owner. The City owns approximately 5,053 square feet of the eastern portion of the Subject Street adjacent to Frisco Avenue, while the private landowner of Lot 33 (on Block 15585) owns 942 square feet of the western portion of the Subject Street. The Applicant owns approximately 14,571 square feet of the northern portion of the Subject Street.

The proposed project site (Block 15584, Lots 16, 50, 52, 56 and Block 15585, Lots 11, 16), is bounded by Beach 9th Street on the East, Mott Avenue on the West, Frisco Avenue on the North and Caffrey Avenue on the South. The proposed action would facilitate a proposal by the applicant to replace existing modular classrooms with a permanent school building in the portion of the applicant's property that is currently encumbered by the mapped street. The proposed building would be located on portions of Lot 11 and 16 on Block 15585, and portions of Lots 52 and 56 on Block 15584.

The proposed project would include the replacement of approximately 8,600 square foot of temporary classroom facilities with a permanent facility that would be approximately 60,000 square feet. This would result in a net increment of up to 240 additional students. The acquisition of the city owned portion of the mapped street would result in an increase in lot area of the applicant's property.

The affected area is currently zoned R4A, which permits one- and two-family detached houses at a maximum FAR of 0.9, which includes a 0.15 attic allowance. Community facilities are permitted at an FAR of 2.0. The minimum lot size is 2,850 square feet and the minimum lot width is 30 feet. The maximum building height is 35 feet with a maximum perimeter wall height of 21 feet. The front yard must be a minimum of 10 feet and must be as deep as an adjacent front yard, but it shall not exceed the depth of 20 feet. Two side yards, each a minimum of 2 feet and totaling a minimum of 10 feet are required. One parking space is required for each dwelling unit. Parking must be located in the driveway alongside the lot ribbon if the lot is less than 35 feet wide. If the lot is 35 feet or wider, a garage is permitted within the house, provided the driveway is at least 18 feet long.

Absent the proposed action, the existing temporary classrooms would be removed and the existing high school capacity would be accommodated through a re-allocation of space within the existing building and through temporary facilities on portions of the site not located within the bed of the mapped street. The existing school would continue to operate with 723 elementary school students and 120 high school students. The proposed project is expected to be completed by 2015.

To avoid any potential significant adverse impacts with respect to hazardous materials and air quality, the Mapping Agreement between the applicant and the City of New York in connection with the proposed demapping shall set forth the environmental requirements outlined below concerning the applicant's properties at Block 15584, Lots 50, 52, 56 and Block 15584 Lots 11, 16.

The environmental requirements for hazardous materials are as follows:

Task 1 – Sampling Protocol

The applicant must submit to the Department of Environmental Protection (DEP) for review and approval, a Phase 1 of the site.

If site sampling is necessary, a soil and groundwater testing protocol including a description of methods and a site map with all sampling locations clearly and precisely represented must be submitted to DEP. No sampling program should begin until written approval of a protocol is received from DEP. The number and location of sample sites should be selected to adequately characterize the site, the specific source of suspected contamination (i.e., petroleum based contamination or non-petroleum based contamination) and

the remainder of the site's condition. The characterization should be complete enough to determine what remediation strategy (if any) is necessary after review of sampling data. Guidelines and criteria for selecting sampling locations and collecting samples are provided by DEP upon request.

Task 2 – Remediation Determination and Protocol

A written report with findings and a summary of the data must be submitted to DEP after completion of the testing phase and laboratory analysis for review and approval. After receiving such tests results, a determination will be made by DEP if the results indicate that remediation is necessary.

If DEP determines that no remediation is necessary, written notice shall be given by DEP.

If based on the test results, DEP concludes that remediation is required; a remediation plan must be prepared and submitted to DEP for review and approval. The applicant must complete such remediation when and as determined necessary by DEP. The applicant should then provide proper documentation, including an engineering certification, that the work has been satisfactorily completed.

A DEP-approved construction-related health and safety plan would be implemented during excavation and construction activities to protect workers and the community from potentially significant adverse impacts associated with contaminated soil and/or groundwater. This Plan would be submitted to DEP with the remediation plan for review and approval prior to implementation.

The environmental requirements, as set forth in the Mapping Agreement, would preclude the potential for significant adverse air quality impacts related to heating and hot water systems (HVAC) emissions. As noted above, the environmental requirements for air quality would apply to the following properties:

Projected Development Site

Block 15584, Lots 50, 52, 56 and Block 15584 Lots 11, 16.

The environmental requirements for air quality are as follows:

Block 15584, Lots 50, 52, 56 and Block 15584 Lots 11, 16 (Projected Development Site): Any new residential and/or commercial development on the above-referenced properties must ensure that the heating, ventilating and air conditioning stack(s) will use exclusively natural gas as the type of fuel for space heating and hot water (HVAC) systems to avoid any potential significant adverse air quality impacts.

With the above environmental requirements ensured through the Mapping Agreement, no significant air quality or hazardous materials impacts are expected as a result of the proposed action.

Statement of No Significant Effect:

The Environmental Assessment and Review Division of the Department of City Planning, on behalf of the City Planning Commission, has completed its technical review of the Environmental Assessment Statement, dated January 18, 2013, prepared in connection with the ULURP Application (Nos. 120209MMQ). The City Planning Commission has determined that the proposed action will have no significant effect on the quality of the environment, once it is modified as follows:

- The applicant agrees to prepare a Phase II Environmental Assessment Statement (ESA), hazardous materials sampling protocol and health and safety plans, which would be submitted to the Department of Environmental Protection (DEP) for approval. The applicant agrees to test and identify any potential hazardous material impact pursuant to the approved sampling protocols and, if any such impact is found, submit a hazardous material remediation plan including a health and safety plan to DEP for approval. If necessary, remediation measures would be undertaken pursuant to the remediation plans. These requirements will be embodied in the Mapping Agreement to be executed in connection with the demapping.
- The applicant agrees that any new residential and/or commercial development on the above-referenced properties must ensure that the heating, ventilating and air conditioning stack(s) will use exclusively natural gas as the type of fuel for space heating and hot water (HVAC) systems to avoid any potential significant adverse air quality impacts. These requirements will be embodied in the Mapping Agreement to be executed in connection with the demapping.

Supporting Statement:

The above determination is based on an environmental assessment which finds that:

- A Phase I Environmental Site Assessment (ESA) was prepared for the project site. The Phase I ESA was reviewed by DEP's Office of Environmental Planning and Assessment, and pursuant to a letter dated September 13, 2012 a Phase II Environmental Site Assessment (ESA), hazardous materials sampling protocol and health and safety plan were recommended due to the potential presence of hazardous materials on the site as a result of past on-site and/or surrounding area land uses. As such, the applicant agrees that the Mapping Agreement will ensure that a detailed Phase II testing would occur, and hazardous materials sampling protocol including a health and safety plan would be prepared, and is binding upon the property's successors and assigns. The environmental requirements set forth in the Mapping Agreement will serve as a mechanism to assure the potential for hazardous material contamination that may

exist in the subsurface soils and groundwater on the project site would be characterized prior to any site disturbance (i.e., site grading, excavation, demolition, or building construction). Consequently, no significant adverse impacts related to hazardous materials will occur.

- 2. The environmental requirements that will be set forth in the Mapping Agreement for hazardous materials will ensure that the proposed action will not result in significant adverse impacts due to hazardous materials.
3. The environmental requirements that will be set forth in the Mapping Agreement for air quality will ensure that the proposed action will not result in significant adverse impacts due to air quality.
4. No other significant adverse effects on the environment which would require an Environmental Impact Statement are foreseeable.

It is fully agreed and understood that if the foregoing conditions not fully incorporated into the proposed action, this Conditional Negative Declaration shall become null and void. In such event, the applicant shall be required to prepare a Draft Environmental Impact Statement before proceeding further with said proposal.

Should you have any questions pertaining to this Conditional Negative Declaration, you may contact Munmun Parmar at (212) 720-3524.

This Conditional Negative Declaration has been prepared in accordance with Article 8 of the Environmental Conservation Law 6NYCRR part 617.

I, the Undersigned, as the applicant or authorized representative for this proposal, hereby affix my signature in acceptance of the above conditions to the proposed action.

READER'S GUIDE

The City Record (CR) is published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above \$100,000 for information technology and for construction and construction related services, above \$50,000 for other services, and above \$25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in The City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Monday through Friday from 9:00 A.M. to 5:00 P.M., except on legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptroller's Office at www.comptroller.nyc.gov, and click on Prevailing Wage Schedules to view rates.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION-RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$17 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. Registration for these lists is free of charge. To register for these lists, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application, which can be found online at www.nyc.gov/selltonyc. To request a paper copy of the application, or if you are uncertain whether you have already submitted an application, call the Vendor Enrollment Center at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services at 110 William Street, New York, NY 10038. Sessions are convened on the second Tuesday of each month from 10:00 A.M. to 12:00 P.M. For more information, and to register, call (212) 618-8845 or visit www.nyc.gov/html/sbs/nycbiz and click on Summary of Services, followed by Selling to Government.

PRE-QUALIFIED LISTS

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstances. When an agency decides to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR. Information and qualification questionnaires for inclusion on such lists may be obtained directly from the Agency Chief Contracting Officer at each agency (see Vendor Information Manual). A completed qualification questionnaire may be submitted to an Agency Chief Contracting Officer at any time, unless otherwise indicated, and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings (OATH). Section 3-10 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists. For information regarding specific pre-qualified lists, please visit www.nyc.gov/selltonyc.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board Rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, and the Housing Authority. Suppliers interested in applying for inclusion on bidders lists for Non-Mayoral entities should contact these entities directly at the addresses given in the Vendor Information Manual.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 9:30 A.M. to 5:00 P.M., except on legal holidays. For more information, contact the Mayor's Office of Contract Services at (212) 341-0933 or visit www.nyc.gov/mocs.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN-OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women-Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about this program, contact the Department of Small Business Services at (212) 513-6311 or visit www.nyc.gov/sbs and click on M/WBE Certification and Access.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City pays interest on all late invoices. However, there are certain types of payments that are not eligible for interest; these are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year: in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City's website at www.nyc.gov/selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section.

At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified unless a different one is given in the individual notice. In that event, the directions in the individual notice should be followed.

The following is a SAMPLE notice and an explanation of the notice format used by the CR.
