TRANSPORTATION

■ NOTICE

Pursuant to the Concession Rules of the City of New York, the Department of Transportation ("DOT") intends to enter into a concession for the operation, management, and maintenance of a pedestrian plaza located on Marcy Avenue between Fulton and MacDonough Streets, in the borough of Brooklyn ("Licensed Plaza"), including through DOT-approved events, sponsorships, and subconcessions including but not limited to providing for the sale of any of the following: prepared food, flowers, locally grown produce or locally manufactured products, merchandise (such as souvenirs or T-shirts) that help brand or promote the neighborhood or the concessionaire, and other similar merchandise within the Licensed Plaza.

Subconcessions would be awarded based on solicitations issued by the concessionaire in the basic form of Request for Proposals or Request for Bids, subject to DOT's prior written approval of both solicitation and award.

The concession agreement will provide for one (1) five-year term, with four (4) one-year renewal options. The renewal options shall be exercisable at DOT's sole discretion.

DOT has identified the Bedford-Stuyvesant Gateway District Management Association as a potential concessionaire, but DOT will consider additional expressions of interest from other potential not-for-profit concessionaires for the operation, management, and maintenance of the Licensed Plaza. In order to qualify, interested organizations should be active in the neighborhood of the Licensed Plaza and have demonstrated experience in the management, operation and maintenance of publicly accessible facilities, including but not limited to programming/events management and concession or retail operation/management.

Not for profit organizations may express interest in the proposed concession by contacting Nicholaas Peterson, Senior Project Manager for Public Spaces, by email at npeterson@dot.nyc.gov or in writing at 55 Water Street, 6th Floor, New York, NY 10041 by November 11, 2014. Mr. Peterson may also be contacted with any questions relating to the proposed concession by email or by telephone at (212) 839-6691.

Please note that the New York City Comptroller is charged with the audit of concession agreements in New York City. Any person or entity that believes that there has been unfairness, favoritism or impropriety in the concession process should inform the Comptroller, Office of Contract Administration, 1 Centre Street, New York, NY 10007, telephone number (212) 669-2323.

PROCUREMENT

“Compete To Win” More Contracts!

Thanks to a new City initiative - “Compete To Win” - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and women-owned businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- *Win More Contracts at nyc.gov/competetowin*

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and

building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)
- Department of Probation (DOP)
- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)
- Human Resources Administration (HRA)
- Office of the Criminal Justice Coordinator (CJC)

To sign up for training on the new system, and for additional information about HHS Accelerator, including background materials, user guides and video tutorials, please visit www.nyc.gov/hhsaccelerator

■ VENDOR LIST

Construction/Construction Services

PREQUALIFIED VENDOR LIST: GENERAL CONSTRUCTION - NON-COMPLEX GENERAL CONSTRUCTION SITE WORK ASSOCIATED WITH NEW YORK CITY DEPARTMENT OF PARKS AND RECREATION ("DPR" AND/OR "PARKS") PARKS AND PLAYGROUNDS CONSTRUCTION AND RECONSTRUCTION PROJECTS

DPR is seeking to evaluate and pre-qualify a list of general contractors (a "PQL") exclusively to conduct non-complex general construction site work involving the construction and reconstruction of DPR parks and playgrounds projects not exceeding \$3 million per contract ("General Construction").

By establishing contractor's qualifications and experience in advance, DPR will have a pool of competent contractors from which it can draw to promptly and effectively reconstruct and construction its parks, playgrounds, beaches, gardens and green-streets. DPR will select contractors from the General Construction PQL for non-complex general construction reconstruction site work of up to \$3,000,000 per contract, through the use of a Competitive Sealed Bid solicited from the PQL generated from this RFQ.

The vendors selected for inclusion in the General Construction PQL will be invited to participate in the NYC Construction Mentorship. NYC Construction Mentorship focuses on increasing the use of small NYC contractors by making them more competitive in their pursuit of NYC contracts, and winning larger contracts with larger values. Firms participating in NYC Construction Mentorship will have the opportunity to take management classes and receive on-the-job training provided by a construction management firm.

DPR will only consider applications for this General Construction PQL from contractors who meet any one of the following criteria:

- 1) The submitting entity must be a Certified Minority/Woman Business enterprise (M/WBE)*;
- 2) The submitting entity must be a registered joint venture or have a valid legal agreement as a joint venture, with at least one of the entities in the venture being a certified M/WBE*;
- 3) The submitting entity must indicate a commitment to sub-contract no less than 50 percent of any awarded job to a certified M/WBE for every work order awarded.

*Firms that are in the process of becoming a New York City-certified M/WBE may submit a PQL application and submit a M/WBE Acknowledgement Letter, which states the Department of Small Business Services has begun the Certification process.

Name, Description and Location of Proposal:

Bloomfield Development

The Applicant, Matthew S. Bloomfield, is seeking discretionary and ministerial actions from the City Planning Commission in connection with a proposed residential development on a property located at 4680 Fieldston Road (Block 5819, Lots 2167, 2168, 2170, and 2175, the "project site"). The proposed discretionary actions are: modification of lot coverage controls (Zoning Resolution (ZR) Section 105-431); modification of requirements for driveways on Tier II sites (ZR Section 105-434); and modification of spacing between buildings on the same zoning lot (ZR Section 105-432). In addition to the discretionary actions, the Applicant is also seeking the following ministerial actions, which are not subject to environmental review: development on a portion of a Tier II site having a steep slope or steep slope buffer (ZR Section 105-422); alteration of rock outcrops (ZR Section 105-424); and modification of botanic environment and tree preservation and planting provisions (ZR Section 105-425). The project site, which is zoned R1-2 and is currently occupied by a single-family detached house containing 9,230 gross square feet (gsf) of floor area, is located within Special Natural Area District-2 (NA-2) in the Fieldston Historic District, a New York City Landmarks Preservation Commission (LPC) designated historic district. The project site is bounded by Fieldston Road to the west, Indian Road to the North, and Delafield Park and Livingston Avenue to the East in the Fieldston neighborhood of the Bronx Community District 8.

The proposed actions would facilitate a proposal by the Applicant to construct three additional single-family detached houses ("House #1 - #3, collectively the proposed project") on the project site. The existing single-family house would remain on Lot 2170. House #1, located on Lot 2167, would consist of a three-story plus cellar residential 5,665 gsf development; House #2, located on Lot 2168, would consist of a two-story plus cellar 4,970 gsf residential development; House #3, located on Lot 2175, would consist of a two-story plus cellar 5,300 gsf residential development. Each of the proposed houses would contain a two-car garage in the cellar. The three proposed buildings combined would comprise 15,935 gross square feet (gsf), increasing the total floor area ratio (FAR) on the lot from .14 to .37. In an R1-2 zoning district, the permitted FAR is 0.5. The project is expected to be completed in 2015.

Absent the proposed actions, the Applicant has stated that existing conditions on the project site would not change. The single-family residence would remain on the project site and three additional

one-family homes would not be constructed.

Statement of No Significant Effect:

The Environmental Assessment and Review Division of the Department of City Planning, on behalf of the City Planning Commission, has completed its technical review of the Environmental Assessment Statement, dated October 17, 2014, prepared in connection with the ULURP Application (No. N100337ZAX). The City Planning Commission has determined that the proposed action will have no significant effect on the quality of the environment.

Pursuant to City Environmental Quality Review (CEQR), Mayoral Executive Order No. 91 of 1977, CEQR Rules of Procedure of 1991 and the regulations of Article 8 of the State Environmental Conservation Law, State Environmental Quality Review Act (SEQRA) as found in 6 NYCRR Part 617, a Draft Environmental Impact Statement (DEIS) has been prepared for the actions described below. The proposal involves actions by the City Planning Commission and Council of the City of New York pursuant to Uniform Land Use Review Procedures (ULURP). Copies of the DEIS are available for public inspection at the office of the undersigned. A public hearing on the DEIS will be held at a later date to be announced, in conjunction with the City Planning Commission's citywide public hearing pursuant to ULURP. Advance notice will be given of the time and place of the hearing. Written comments on the DEIS are requested and would be received and considered by the Lead Agency until the 10th calendar day following the close of the public hearing.

The DEIS considers the series of proposed discretionary actions proposed by the New York City Department of City Planning (DCP) and a private applicant—Green 317 Madison LLC (317 Madison)—that would facilitate commercial development between Madison and Vanderbilt Avenues in East Midtown Manhattan, improve pedestrian circulation within Grand Central Terminal and its vicinity, and allow greater opportunity for area landmarks to transfer their unused development rights.

DCP is proposing the following actions:

- Zoning text amendment to: (1) create the Vanderbilt Corridor and a new special permit under which the City Planning Commission (CPC) may approve bonus floor area up to a maximum floor area ratio (FAR) of 30.0 (the "Grand Central Public Realm Improvement Bonus") in connection with public space and transit improvements related to development within the Vanderbilt Corridor; (2) increase the maximum FAR of 21.6 to 30.0 for sites in the Vanderbilt Corridor utilizing the existing Landmark transfer special permit available in the Grand Central Subdistrict; and (3) modify the uses permitted in the Vanderbilt Corridor to allow the development, conversion, or enlargement of hotels only by a new special permit established by the proposed text amendment. The proposed Vanderbilt Corridor consists of the five blocks along the west side of Vanderbilt Avenue between East 42nd and East 47th Streets.
- A City Map amendment to designate the portion of Vanderbilt Avenue between East 42nd and East 43rd Streets as a "public place" dedicated to pedestrian uses, to remain under the ownership of the City under the jurisdiction of the New York City Department of Transportation (DOT).

The area subject to these actions includes the five blocks of the Vanderbilt Corridor and the 12,820-square-foot portion of Vanderbilt Avenue between East 42nd and East 43rd Streets.

317 Madison owns the portion of Block 1277 (Lots 20, 27, 46, and 52) in the proposed Vanderbilt Corridor bounded by East 42nd and East 43rd Streets and Madison and Vanderbilt Avenues (One Vanderbilt site). 317 Madison is applying for the following:

- Special permit pursuant to Section 81-635 of the New York City

Zoning Resolution (ZR) (Grand Central Subdistrict Landmark Transfer Special Permit) as modified by the above-referenced zoning text amendment to allow for the transfer of development rights from the landmarked Bowery Savings Bank building.

- Special permit pursuant to the new ZR Section 81-641 created under the above-referenced zoning text amendment to grant a floor area bonus in connection with on-site and off-site above and below-grade improvements to the pedestrian and mass-transit network in the Grand Central Subdistrict.
- Special permit pursuant to the new ZR Section 81-642 created under the above-referenced zoning text amendment to modify streetwall regulations, height and setback regulations, and mandatory district plan elements, with respect to the following: a) retail continuity, b) street wall continuity, c) pedestrian circulation, d) height and setback, e) building entrance requirements, and f) curb cuts.

The proposed actions would allow 317 Madison to construct an approximately 1.8 million-gross-square-foot (gsf) 30.0 FAR building containing a mix of uses including office, trading floors, retail, restaurant, transit access, a transit hall at ground level, and rooftop amenity space.

DCP is proposing the Vanderbilt Corridor text amendment in order to address the number of development sites along Vanderbilt Avenue that offer the opportunity to provide modern commercial space in the immediate vicinity of Grand Central Terminal in the near term, to create a mechanism for linking new commercial development to significant infrastructure improvements in the overall Grand Central Terminal area, and to provide greater options for the transfer of unused landmark development rights.

Pursuant to the proposed zoning text amendment and special permit, as currently proposed the One Vanderbilt development would include on-site, transit-related improvements as follows:

- A new ground-level entrance with stairs, escalators, and an elevator on East 42nd Street, providing direct access to the 42nd Street Shuttle with access to the Nos. 4, 5, 6, and 7 Subway lines, the Metro-North commuter lines, and the Long Island Rail Road commuter lines.
- A new below-grade corridor and escalators connecting to the Long Island Rail Road East Side Access concourse level currently under construction, providing access to the 42nd Street Shuttle, the Metro-North trains at Grand Central Terminal, the Nos. 4, 5, 6, and 7 subway lines, and street level.
- A new ground-level transit hall and waiting area with entrances at East 43rd Street, providing stairway connections to the new below-grade corridor, with connections to Long Island Rail Road East Side Access, the 42nd Street Shuttle, Metro-North trains at Grand Central Terminal, and the Nos. 4, 5, 6, and 7 subway lines.

In consultation with New York City Transit (NYCT) of the Metropolitan Transportation Authority (MTA), 317 Madison has agreed to provide off-site pedestrian circulation improvements specific to the IRT Lexington Avenue subway station. The list below includes the proposed off-site improvements:

- A new stair in the basement of the Pershing Building (located at the southeast corner of East 42nd Street and Park Avenue) that would connect the IRT Lexington Avenue subway mezzanine to the platform;
- A new street-level subway entrance in the sidewalk at the southeast corner of East 42nd Street and Lexington Avenue that would connect to an existing below-grade passageway;
- Narrowing of stairs and columns between the IRT Lexington Avenue subway mezzanine paid area and platform level to provide more platform area and improved pedestrian flow;
- Replacement of an existing street-level subway entrance at the northwest corner of East 42nd Street and Lexington Avenue with new stairs and an elevator;
- Creation of a new IRT Lexington Avenue subway mezzanine paid area in the basement of the Grand Hyatt Hotel with two new stairs to the subway platform; and,
- Conversion of existing enclosed spaces into new circulation areas on the mezzanine level of the IRT Lexington Avenue station.

These transit improvements and off-site pedestrian circulation improvements will provide a range of benefits to the transit system and will address the infrastructure challenges described above related to Grand Central subway station pedestrian circulation and sidewalk widths.

With the proposed actions, a 30 FAR building would be constructed on the One Vanderbilt site. 317 Madison intends for the proposed One Vanderbilt development to contain approximately 1,079,000 gsf of office

space, approximately 246,000 gsf of trading floors, approximately 53,000 gsf of retail, approximately 27,000 gsf of restaurant space, an approximately 55,000-square-foot rooftop amenity at the top of the building, a 4,000-square-foot transit hall, and approximately 343,500 square feet of space for circulation, mechanical, core, back-of-house, and loading uses. Development of the proposed One Vanderbilt building would also include the public realm improvements on the One Vanderbilt site and off-site to the IRT Lexington Avenue subway station. In addition to the transit-oriented improvements, 317 Madison is undertaking ongoing consultation with DOT and DCP regarding design and implementation of improvements and public amenities within the portion of Vanderbilt Avenue that would be designated as a public place as part of the proposed actions. Because construction of the proposed One Vanderbilt building is expected to be complete in December of 2020 with full occupancy to follow in 2021, the analysis year is 2021.

Absent the proposed actions, 317 Madison would redevelop the 43,313-square-foot One Vanderbilt site with a commercial building under the existing commercial C5-3 district and Special Midtown District regulations, which permit commercial development up to a maximum FAR of 15.0. The building would be approximately 678 feet tall and total approximately 811,034 gsf of space including 636,312 gsf of office space, 83,648 gsf of retail space, and 91,074 gsf of mechanical space. Unlike the proposed One Vanderbilt development, the building would not contain trading floors, the rooftop amenity space, or the transit hall. Since it would not be requesting a special permit, 317 Madison would not provide a transit hall amenity or transit-related improvements. However, the building will provide a replacement stairway connecting to the mezzanine level of the 42nd Street Shuttle station in accordance with the existing NYCT easement in order to maintain the access provided by the existing subway stair on the site. Under the future without the proposed actions condition, there would not be an amendment to the City Map to map Vanderbilt Avenue between East 42nd and East 43rd Streets as a public place. That section of Vanderbilt Avenue would, therefore, remain in its current condition and open to vehicles. The incremental difference between the future without the proposed actions and future with proposed actions conditions (approximately 996,966 gsf) forms the basis of the impact category analyses conducted for the DEIS.

There are no specific proposals to redevelop the four blocks of the proposed Vanderbilt Corridor north of the One Vanderbilt site (portions of Blocks 1278, 1279, 1281, and 1282), but it is conceivable that one or more of these sites would be redeveloped in the foreseeable future using the new Grand Central Public Realm Improvement Bonus, the modified Landmark Transfer special permit, or the special permit to allow hotel uses. Therefore, additional development on these four blocks was considered at a conceptual level only. For the conceptual analysis, it will be assumed that only Block 1279 (containing the MTA parcels and the building at 52 Vanderbilt Avenue) and Block 1281 (containing the Roosevelt Hotel) in the Vanderbilt Corridor would be redeveloped in the foreseeable future. For analysis purposes, it assumed that the redevelopment of Blocks 1279 and 1281 may be complete by 2033 based on long-term projections of the East Midtown area's potential to capture a proportionate share of the City's new office development. Blocks 1278 and 1282 would not be assumed to be redeveloped in the foreseeable future, as those two blocks contain recently renovated/constructed commercial buildings.

The DEIS has identified significant adverse impacts with respect to transportation (traffic and pedestrian).

Traffic conditions were evaluated at 31 intersections for the weekday peak periods and 10 intersections for the Saturday peak period. In the 2021 future with proposed actions condition, there would be the potential for significant adverse impacts at 14 intersections during the weekday AM peak hour, 6 intersections during the weekday midday peak hour, 15 intersections during the PM peak hour, and 2 intersections during the Saturday peak hour. Most of the impacted locations could be fully mitigated with the implementation of standard mitigation measures (e.g., signal timing changes, approach daylighting, changing parking regulations). However, the significant adverse traffic impacts at the intersections of Third Avenue and East 42nd Street, Madison Avenue and East 42nd Street, Fifth Avenue and 42nd Street, and Sixth Avenue and West 42nd Street could not be fully mitigated during one or more analysis peak hours.

Pedestrian conditions were evaluated at 11 sidewalks, 15 corners, and 9 crosswalks for the weekday peak periods and 5 sidewalks, 5 corners, and 4 crosswalks for the Saturday peak period. In the 2021 future with proposed actions condition, there would be the potential for significant adverse pedestrian impacts at 3 corners and 4 crosswalks during the weekday AM peak hour; 2 corners and 2 crosswalks during the weekday midday peak hour; 1 sidewalk, 3 corners, and 5 crosswalks during the weekday PM peak hour; and 1 crosswalk during the

Saturday peak hour. Potential measures, including relocating sidewalk/corner obstructions, reconstructing an existing newsstand kiosk, extending existing curb lines to provide for additional corner reservoir space, and widening existing crosswalks, were identified to mitigate the projected pedestrian impacts.

Mitigation measures that would address traffic and pedestrian impacts will be subject to review and approval by DOT. In the event that certain proposed mitigation measures are deemed infeasible by DOT and no other alternative mitigation measures can be identified, those impacts would be unmitigated. Between Draft and Final EIS, additional measures will be explored, where feasible, to further mitigate the identified impacts. If no feasible measures can be identified, the projected impacts would remain unmitigated.

The DEIS also considered two alternatives for the One Vanderbilt site – a No Action Alternative and a Lesser Density (20.7 FAR) Alternative. The No-Action Alternative examines future conditions without the proposed actions and, as such, the zoning text and City Map amendments would not be made; and, no special permits would be requested, and a 15 FAR building consistent with all existing zoning regulations would be built on the One Vanderbilt site. The No Action Alternative would avoid any significant adverse traffic and pedestrian impacts associated with the proposed One Vanderbilt development. However, it would not provide any of the significant public benefits associated with the proposed One Vanderbilt development. The Lesser Density (20.7 FAR) Alternative assumes a subway improvement bonus and a transfer of development rights from the Bowery Savings Bank, under the existing mechanism for such transfers. The transit improvements provided would be limited to the new ground-level entrance with stairs, escalators, and an elevator on East 42nd Street, providing direct access to the 42nd Street Shuttle with access to the Nos. 4, 5, 6, and 7 subway lines and Metro-North commuter lines. As compared with the proposed One Vanderbilt development, the Lesser Density Alternative would not result in any significant adverse traffic and transit impacts and would reduce or avoid significant adverse impacts on pedestrian conditions.

The conceptual analysis concluded that any redevelopment in addition to the proposed One Vanderbilt development that could reasonably be expected to occur by 2033 in the Vanderbilt Corridor (on Blocks 1279 and 1281) would be anticipated to result in additional significant adverse impacts to historic resources and transportation, specifically traffic and pedestrians. As development programs for Block 1279 and Block 1281 become more defined, they will be studied as part of separate environmental reviews, for which more details on the predicted impacts and associated mitigation measures would be determined.

HUMAN RESOURCES ADMINISTRATION

■ NOTICE

The New York City Human Resources Administration (HRA) intends to issue a Request for Proposals (RFP) for Housing and Homelessness Prevention.

In advance of the release of the RFP, HRA is issuing a concept paper which outlines the program model of the Homelessness Prevention Law Project (HPLP) program (RFP). The HPLP program has existed for over a decade, but as of fiscal Year 2015, the City of New York (City) moved the HPLP program from the Department of Homeless Services (DHS) to the Human Resources Administration (HRA). The HPLP program provides an array of legal services that help ensure that low-income families facing eviction or other potential loss of housing remain housed and avoid becoming homeless and entering shelters. HRA's Office of Housing and Homelessness Prevention is seeking qualified service providers to provide HPLP services in all five boroughs.

The concept paper has been posted on the Agency's website at www.nyc.gov/raconracs www.nyc.gov/hra/contracts
