"Compete To Win" More Contracts!

Thanks to a new City initiative - "Compete To Win" - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and women-owned businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

• Win More Contracts at nyc.gov/competetowin

"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at http://www.nyc.gov/html/hhsaccelerator/html/ roadmap/roadmap.shtml. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS) Department for the Aging (DFTA) Department of Consumer Affairs (DCA) Department of Corrections (DOC) Department of Health and Mental Hygiene (DOHMH) Department of Homeless Services (DHS) Department of Probation (DOP) Department of Small Business Services (SBS) Department of Youth and Community Development (DYCD) Housing and Preservation Department (HPD) Human Resources Administration (HRA) Office of the Criminal Justice Coordinator (CJC)

To sign up for training on the new system, and for additional information about HHS Accelerator, including background materials, user guides and video tutorials, please visit www.nyc.gov/hhsaccelerator

Name, Description and Location of Proposal:

Watson Avenue Rezoning

The Applicant, Azimuth Development Group LLC, is seeking a zoning map amendment from R5/C1-2 to R7A/C1-4 on a majority portion of Block 3751, Lot 1 (the "Project Site"), located at 1755 Watson Avenue in the Soundview neighborhood of the Bronx, Community District 9. The Applicant is also seeking a zoning text amendment to Appendix F (Inclusionary Housing Designated Areas and Mandatory Inclusionary Housing Areas) of the New York City Zoning Resolution (ZR) to designate the Project Area as a Mandatory Inclusionary Housing (MIH) Area. The proposed MIH option, Option 2, requires that at least 30% of the residential floor area to be provided at an average of 80% AMI, with no unit targeted at a level exceeding 130% of AMI. Together these actions would facilitate the development of four new multistory, mixed use buildings containing residential, commercial and community facility uses, with a total of 284,606 gross square feet (gsf) at the Project Site. The Project Site is bounded by Watson Avenue to the south, Rosedale Avenue to the west, Commonwealth Avenue to the east, and a line measuring 310 linear feet parallel to Watson Avenue to the north. Currently, the Project Site is located in an R5 residential zoning district and is mapped with a C1-2 commercial overlay district, and contains a one-story 12,240 gsf community facility (a Use Group (UG) 4 house of worship), and an at-grade private parking facility with capacity for 131 parking spaces. R5 residential districts are medium-density districts that allow residential uses at an FAR of 1.25 and community facility uses at an FAR of 2.0, with a maximum building height of 40 feet. Off-street parking is required for 85% of dwelling units. C1-2 commercial overlay districts are mapped within residential districts and along streets that serve local retail needs. When mapped with a C1-2 commercial overlay, commercial uses are permitted in R5 districts at an FAR of 1.0. Parking requirements for C1-2 districts are 1 per 300 square feet of floor area for UG 6 local commercial retail uses, and 1 per 15 persons-rated capacity for UG 4 community facility uses (houses of worship).

Compared to R5 zoning districts, R7A districts are higher density, contextual general residence districts that permit residential and community facility uses at an FAR of 4.0, with a maximum building height of 85 feet. When mapped with MIH, residential uses are permitted at an FAR of 4.6, and buildings with a qualifying ground floor of 13 feet in height may reach a maximum building height of 95 feet. Parking is required for 50% of the market rate dwelling units, but may be waived if fewer than 15 spaces are required, or for any new income-restricted dwelling units if the area is located in a Transit Zone. C1-4 commercial overlay districts are mapped within residential districts and along streets that serve local retail needs. When mapped with a C1-4 commercial overlay, commercial uses are permitted at an FAR of 2.0 in R7A districts. Parking requirements for C1-4 commercial overlay districts are 1 per 1,000 square feet of floor area for UG 6 local commercial retail uses, and none required for UG 4 community facility uses (houses of worship).

The proposed actions would facilitate a proposal by the applicant to construct four buildings that contain a total of 284,606 gsf, including 257,607 gsf of Use Group (UG) 2 residential uses (286 affordable dwelling units pursuant to the MIH program), 16,592 gsf of UG 6 ground floor commercial retail space, and 10,407 gsf of UG 4 community facility space (a house of worship). Building A would be the tallest building on the project area, containing nine stories of residential uses. The Applicant proposed that 100% of the proposed dwelling units would be income restricted units, provided at 80% AMI or below.

Pursuant to ZR 25-251, ("Required Accessory Off-Street Parking for Residences: Income-restricted housing units") no parking spaces are required for income restricted residential uses, and pursuant to ZR 36-232, ("Requirements for accessory off-street parking spaces for commercial or community facility uses: waiver of requirements for spaces below minimum number in districts with very low parking requirements"), the parking requirement for commercial retail and community facility uses would be waived, since the total number of accessory off-street parking spaces required would equal less than 40. However, the Applicant intends to provide a total of 56 at-grade private, unattended parking spaces to serve all of the proposed uses, accessible via a driveway through the northern portion of the site. The parking lot would be entered by a proposed new driveway that would be accessed via one new curb cut on Rosedale Avenue and one new curb cut on Commonwealth Avenue.

The four buildings on the project site would contain the following uses and programming:

- Building A comprises a nine-story residential structure occupying the western portion of the lot facing Rosedale Avenue and containing approximately 107,459 gsf of residential uses (119 affordable dwelling units)
- Building B comprises an eight-story mixed use residential and commercial structure occupying the southern portion of the lot facing Watson Avenue and would contain approximately 16,592 gsf of commercial retail space on the ground floor and approximately 101,434 gsf of residential uses on the floors above (112 affordable dwelling units)
- Building C comprises an eight-story residential structure occupying the eastern portion of the lot facing Commonwealth Avenue and would contain approximately 48,714 gsf of residential uses on the floors above (55 market rate dwelling units)
- Building D comprises a three-story community facility structure, occupying the northeastern portion of the lot facing Commonwealth Avenue and containing approximately 10,407 gsf of community facility uses (a house of worship).

Absent the proposed actions, the Project Area could be developed with four buildings totaling 102,461 gsf, containing 77,337 gsf of UG 2 residential uses (81 market-rate dwelling units), 17,000 gsf of UG 6 commercial retail uses, and 8,124 gsf of UG 4 community facility space (a church). A total of 157 accessory off-street parking spaces would be required: 69 parking spaces for residential uses (85% of dwelling units pursuant to ZR Section 25-23), 56 parking spaces for commercial uses (1 per 300 sf pursuant to ZR Section 36-21), and 32 for community facility uses (one per 15 persons-rated capacity pursuant to ZR Section 36-21). The required 157 parking spaces would be provided as underground parking, accessible via a driveway through the northern portion of the site. Parking would be accessed by one new curb cut on Rosedale Avenue and one new curb cut on Commonwealth Avenue.

The four buildings on the project site would contain the following uses and programming:

- Building A would be a four-story residential building occupying the eastern portion of the lot facing Commonwealth Avenue and containing approximately 33,633 gsf of residential uses (33 market rate dwelling units)
- Building B would be a four-story mixed use building occupying the western portion of the lot facing Rosedale Avenue and would contain approximately 9,990 gsf of commercial retail space on the ground floor and approximately 23,380 gsf of residential uses on the floors above (26 market rate dwelling units)
- Building C would be a four-story mixed use building occupying the southwestern portion of the lot facing Rosedale Avenue and Watson Avenue and would contain approximately 7,161 gsf of commercial retail space on the ground floor and approximately 20,173 gsf of residential uses on the floors above (22 market rate dwelling units)
- Building D would be a three-story community facility building, occupying the southeastern portion of the lot facing Commonwealth Avenue and Watson Avenue and containing approximately 8,124 gsf of community facility uses (a house of worship).

The analysis year for the proposed actions is 2019.

To avoid the potential for significant adverse impacts related to hazardous materials, air quality, and noise, an (E) designation (E-403) is proposed to be assigned to the project site.
