NOTICE OF PUBLIC SCOPING

The Office of the Deputy Mayor for Housing and Economic Development

Draft Scope of Work for an Environmental Impact Statement Bedford Union Armory Project

NOTICE IS HEREBY GIVEN that a public scoping meeting will be held as detailed below for the Bedford Union Armory Project. The purpose of the scoping meeting is to provide the public with the opportunity to comment on the Draft Scope of Work proposed to be used to develop an Environmental Impact Statement (EIS) for the proposed Bedford Union Armory Project.

A public scoping meeting has been scheduled for Thursday, January 26, 2017 at 6:30 P.M., and will be held at Dr. Gladstone H. Atwell M.S. 061, 400 Empire Boulevard, Brooklyn, NY 11225.

Comments on the Draft Scope of Work are invited and may be presented at the public scoping meeting and/or may be submitted in writing to the Mayor's Office of Environmental Coordination until 5:00 P.M. on Friday, February 10, 2017 to the addresses below.

Directing that an Environmental Impact Statement be prepared, the Environmental Assessment Statement, Positive Declaration, and Draft Scope of Work were issued by the Office of the Deputy Mayor for Housing and Economic Development on December 23, 2016, and are available for review from the contact person listed below and on the website of the Mayor's Office of Environmental Coordination: www.nyc.gov/oeec.

The New York City Economic Development Corporation (NYCEDC) in coordination with Bedford Courts LLC (the "Applicant") is seeking a series of discretionary approvals to facilitate the redevelopment of the historic Bedford Union Armory (the "Armory"), located at 1555 Bedford Avenue (Block 1274, Lot 1) in the Crown Heights neighborhood of Brooklyn (the "Project Site") into an approximately 542,393 gross square feet (gsf) three-building mixed-use development. Specifically, the redevelopment would result in approximately 390 residential dwelling units (DUs), including approximately 177 affordable DUs; up to 48,997 gsf of office space; up to 18,122 gsf of academic space; approximately 72,252 gsf of community facility space; and a minimum of 118 parking spaces (the "Proposed Development"). Should the 18,122 gsf of academic space be determined infeasible, 25 additional DUs (including 14 affordable DUs) would be incorporated into the Proposed Development in lieu of the 18,122 gsf of academic space and associated office space (approximately 8,278 gsf).

The Applicant is seeking discretionary approvals including the disposition of City-Owned property, zoning map and text amendments, and special permits to facilitate the Proposed Development. These actions are described in detail below and collectively referred to as the "Proposed Actions." The Proposed Actions are subject to environmental review pursuant to the State Environmental Quality Review Act (SEQRA) in conformance to City Environmental Quality Review (CEQR) guidelines and procedures and are subject to review under the City's Uniform Land Use Review Procedure (ULURP). The New York City (NYC) Office of the Deputy Mayor for Housing and Economic Development (ODMHED) is the lead agency for this environmental review. The analysis build year for this project is 2020.

The Proposed Project would require the following discretionary approvals:

- 1) **Disposition of City-Owned Property:** The portion of the Project Site on which the condominium building would be built would be disposed of from the City to the Applicant through a land sale. The remainder of the Project Site, including the Armory's existing Drill Shed, Head House, and garage, would be disposed of through a long-term ground-lease between the City and the Applicant. The disposition of City-Owned property requires Mayoral approval pursuant to Section 384(b)(4) of the New York City Charter for the disposition of City-Owned property.
- 2) **Zoning Map Amendment:** The Project Site is currently located in an R6 residential zoning district. The Applicant is requesting approval by the New York City Planning Commission (CPC) to change the zoning on the Project Site from R6 to R7-2 with a C2-4 commercial overlay.
- 3) **Zoning Text Amendment:** The Applicant is requesting approval of a Zoning Text Amendment to map the Project Site as a Mandatory Inclusionary Housing Area ("MIHA") in Appendix F of the New York City Zoning Resolution (ZR), pursuant to ZR Sections 23-154 and ZR 23-90. In support of this request, the Applicant commits that the Proposed Development would comply with ZR 23-154(d)(3)(ii) - Option 2 ("MIH Option 2").
- 4) **Special Permit:** Pursuant to ZR Section 74-74, the Applicant is seeking approval of a special permit to create a "large-scale general development" ("LSGD"). The LSGD would allow the Applicant to address the unique circumstances created by preserving the existing Armory's Drill Shed and Head House, and meet the project goals to provide 50% of the proposed rental DUs as affordable, a large recreation center, a community multi-purpose space, and community office space. Specifically, the Applicant is seeking approval of the following special permits under ZR Section 74-74:
 - Lot coverage relief pursuant to ZR Section 74-743(a)(1)
 - Rear yard relief pursuant to ZR 74-743(a)(2)
 - Height and setback relief pursuant to ZR 74-743(a)(2)
 - Inner court relief pursuant to ZR 74-743(a)(2).
- 5) **Special Permit:** Pursuant to ZR Section 74-532, the Applicant is requesting approval of a special permit to reduce the parking requirements for accessory group parking facilities. The reduction in accessory residential off-street parking spaces would allow the Applicant to meet the project goals of maximizing on-site affordable housing while preserving and maintaining the existing Drill Shed and Head House to the largest extent practicable.

In addition, in the future the Applicant may seek public financing by the New York City Department of Housing Preservation and Development (HPD) and/or the New York City Housing Development Corporation (HDC) to facilitate the Proposed Development. Depending on the public funding source additional review under the State Environmental Quality Review Act (SEQRA) may be required at a later point in time.

Copies of the Positive Declaration and Draft Scope of Work for the proposed project may be obtained by any member of the public from:

The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)

- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)

NEWBORN HOME VISIT PROGRAM DATA COLLECTION AND EVALUATION

- Government to Government - PIN# 17FN016201R0X00 - Due 1-3-17 at 11:00 A.M.

NYC DOHMH intends to enter a Government to Government contract with Rutgers The State University of New Jersey to collect data for an evaluation of both Newborn Home Visiting Program (NHVP) and Shelter Initiative models (SIM) using phone surveys at two points in time. Rutgers will collaborate with the Bureau of Maternal, Infant, and Reproductive Health (BMIRH) to finalize the protocol and survey tool, administer a telephone-assisted survey to a sample of clients from NHVP/Traditional and a specified comparison group; and administer the identical survey tool (with an additional component) to a sample of clients from NHVP/SIM. The goals of the NHVP home visits are to provide education on key health topics including breastfeeding, safe sleep, bonding and attachment, smoking cessation, and health insurance; to screen mothers and children for potential health or social problems that might require referral to a specialized provider or agency (e.g. domestic violence); and to conduct an assessment of the home environment and offer referrals to appropriate agencies.

Rutgers The State University of New Jersey is a government entity, and are uniquely positioned to provide these services. Given the time sensitivity of the urgent needs of the required services, DOHMH determined that it is in the best interest of the City to procure these services via a government to government purchase.

Vendors who feel they may be able to provide these services in the future, may submit an expression of interest via email to Ms. Nedd at bnedd@health.nyc.gov.

Name, Description and Location of Proposal:

19 East 70th Street

The applicant, NY 70th St, LLC, is seeking a Special Permit pursuant to Zoning Resolution (ZR) Section 74-711, affecting 19 East 70th Street, on Block 1385, Lot 15 (The "Project Site"), located within the Upper East Side Historic District and Special Madison Avenue Preservation District in Manhattan, Community District 8. The proposed Special Permit would waive regulations relating to (1) minimum inner court dimension and minimum inner court area (ZR 23-851); (2) the minimum distance between legally required windows and walls or lot lines (ZR 23-86); and (3) maximum permitted height for a narrow building (ZR 23-692). The proposed action would facilitate a proposal by the applicant to increase the floor area and bulk of an existing building currently undergoing renovations pursuant to Department of Building (DOB) approved plans from 21,326 gross square feet (gsf) to 22,839 gsf (the "Proposed Project"). The as-of-right renovation of the Project Site, which is developed with an existing six-story townhouse that rises to 100 feet (including the bulk head), would include façade repairs and occupation of the structure with a single-family residential use. The proposed project includes interior renovations to repurpose a non-complying air shaft that will create new floor space on the eastern side of the Project Site between the second floor and the penthouse level.

The building at the Project Site was designated as a New York City Landmark (NYCL). The proposal is subject to Landmarks Preservation Commission (LPC) review and approvals, and requires the implementation of a Continuing Maintenance Plan. LPC has issued a design approval Certificate of Appropriateness (issued September 11, 2015) and a Certificate of No Effect (issued May 16, 2014) for the Proposed Project, and as a part of the project approvals, a Restrictive Declaration would be assigned to the Project Site to ensure development consistent with the LPC approvals and the implementation of the Continuing Maintenance Plan.

Currently, the Project Site contains a 19,694 gsf, six-story, vacant townhouse building with a built FAR of 5.09. The underlying C5-1 zoning district currently mapped on the Project Site allows a maximum FAR of 10.0 for residential and community facility uses and 4.0 for commercial uses. The current building at the Project Site predates the existing zoning regulations and contains above-grade features that do not conform to the zoning requirements for residential use. Present zoning, under ZR 23-86, requires that the rear windows of the Project Site meet a 30 foot minimum distance from the lot line. The open area at the rear of the Project Site, considered the "inner court," must have a 30 foot minimum distance from the lot line or at least a 1,200 square foot area under ZR 23-851. The building at the site, pursuant to ZR 23-692, is currently above the maximum permitted building height for narrow buildings which is 60 feet.

At present, renovations are ongoing pursuant to DOB approved plans to utilize the building as a single-family home (UG 2 residential). The as-of-right DOB approved renovations include adjustments to the interior of the building to create level floors, the removal of a partial mezzanine, and below grade excavations to expand subcellar level 1 and create a new subcellar level 2. The building also contains above-grade features that do not conform to the zoning requirements, but under the current DOB approved plans, if there is no increase in non-compliance, the as-of-right structure is permitted with limited modifications. The DOB plans include work that would setback the building's rear façade to allow for a vertical enlargement (a penthouse) that is a minimum distance of 40 feet from the lot line. The total gross square footage of the building at the Project site per the DOB approved plans is expected to increase to 21,326 gsf.

The proposed action would waive the underlying ZR 23-86, ZR 23-851, and ZR 23-692 zoning regulations to facilitate the applicant's above-grade modifications. Currently, the site's rear windows are ten feet from the rear lot line on the cellar and first floors and about 13 to 21 feet from the rear lot line on the upper floors, which is less than the minimum 30 foot distance required under ZR 23-86. The proposal to fill in the air shaft would create new gross floor area (approximately 1,500 gsf) for the building at the Project Site and eliminate the non-complying inner court requirements, pursuant to ZR 23-851, but would locate new floor area above the maximum permitted building height of 60 feet pursuant to ZR 23-692. The Special Permit would waive these requirements to facilitate the Proposed Project.

Absent the proposed action and under the existing C5-1 zoning district and zoning requirements, the building at the Project Site would continue to be developed into a 21,326 gsf single-family residence pursuant to the previously approved DOB.

The proposed project is expected to be completed by 2019.
