MAYOR'S OFFICE OF ENVIRONMENTAL COORDINATION

■ PUBLIC HEARINGS

NOTICE OF PUBLIC HEARING ON THE DRAFT ENVIRONMENTAL IMPACT STATEMENT

The Office of the Deputy Mayor for Housing and Economic Development
Bedford Union Armory Project

NOTICE IS HEREBY GIVEN that a public hearing will be held as detailed below for the Bedford Union Armory Project. The purpose of the public hearing is to provide the public with the opportunity to comment on the Draft Environmental Impact Statement (DEIS), which received a Notice of Completion on May 19, 2017.

The public hearing has been scheduled for Tuesday, September 19, 2017, at 10:00 A.M., and will be held at the New York City Department of City Planning, Spector Hall, 22 Reade Street, New York, NY, 10007, in conjunction with the City Planning Commission's citywide public hearing pursuant to ULURP. Translation services will be accommodated upon request at a minimum five business days before the public hearing.

Comments on the DEIS will be accepted until 5:00 P.M., on Friday, September 29, 2017, and may be submitted at the public hearing, or to the contact person below.

The New York City Economic Development Corporation (NYCEDC) in coordination with Bedford Courts LLC, (the Applicant, is seeking a

series of discretionary approvals to facilitate the redevelopment of the historic Bedford Union Armory, located at 1555 Bedford Avenue (Block 1274, Lot 1), in the Crown Heights neighborhood of Brooklyn (the "Project Site"), into an approximately 542,393 gross square feet (gsf) three-building mixed-use development. Specifically, the redevelopment would result in approximately 390 residential dwelling units (DUs), including approximately 177 affordable DUs; up to 48,997 gsf of office space; up to 18,122 gsf of academic space; approximately 72,252 gsf of community facility space; and a minimum of 118 parking spaces (the "Proposed Development"). Should the 18,122 gsf of academic space be determined infeasible, 25 additional DUs (including 14 affordable DUs) would be incorporated into the Proposed Development in lieu of the 18,122 gsf of academic space and associated office space (approximately 8,278 gsf).

The Applicant is seeking discretionary approvals including the disposition of City-Owned property, zoning map and text amendments, and special permits to facilitate the Proposed Development (the "Proposed Actions"). The analysis build year for this project is 2020.

The DEIS analyzed the potential environmental impacts of the Redevelopment Project and disclosed the potential for significant adverse impacts with regard to: historic resources, transportation (traffic), and construction (traffic and noise). The DEIS identified measures and/or potential measures that would fully or partially mitigate most significant adverse impacts; some impacts would remain unmitigated. Between DEIS and Final Environmental Impact Statement (FEIS), potential mitigation measures are being studied further to determine whether they are feasible and whether any significant adverse impacts would remain unmitigated. The DEIS considered alternatives to the Proposed Actions that included a No-Action Alternative and a No Unmitigated Significant Adverse Impacts Alternative.

Copies of the Final Scope of Work, the DEIS, and the Notice of Completion may be obtained by any member of the public from:

"Compete To Win" More Contracts!

Thanks to a new City initiative - "Compete To Win" - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and women-owned businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- **Win More Contracts at nyc.gov/competetowin**

"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS)
 Department for the Aging (DFTA)
 Department of Consumer Affairs (DCA)
 Department of Corrections (DOC)
 Department of Health and Mental Hygiene (DOHMH)

 Department of Probation (DOP)
 Department of Small Business Services (SBS)

Statement of Basis and Purpose

Working with the City's rulemaking agencies, the Law Department, the Mayor's Office of Management and Budget, and the Mayor's Office of Operations conducted a retrospective rules review of the City's existing rules, identifying those rules that should be repealed or modified to reduce regulatory burdens, increase equity, support small businesses, and simplify and update content to help promote public understanding and compliance. In light of this retrospective rules review, the Department of Environmental Protection is making several changes to its community Right-to-Know regulations to make them more readily understandable to the public.

Proposed Rule Amendment

New material is underlined.
[Deleted material is in brackets.]

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

Section 1. Section 41-03 of Title 15 of the Rules of the City of New York is amended to read as follows:

Covered process. "Covered process" shall mean any process in which there is an [extremely hazardous substance] EHS or regulated toxic substance present in an amount at or above the [threshold planning quantity] TPQ for that substance.

Equipment. "Equipment" shall mean equipment whose failure or improper operation could directly or indirectly result in a release of an [extremely hazardous substance] EHS and/or regulated toxic substance from a covered process.

Extremely hazardous substance (EHS). "Extremely hazardous substance (EHS)" shall mean a hazardous substance listed by the United States Environmental Protection Agency as an extremely hazardous substance, pursuant to 42 U.S.C. Section 11002(a) of the Emergency Planning and Community Right-to-Know Act, as contained in 40 C.F.R. Part 355 Appendix A.

Flammable. "Flammable" shall mean any liquid having a [flash point] flashpoint below 100 degrees F (37.8 degrees C).

[Flash point] Flashpoint. "[Flash point]" "Flashpoint" shall mean the minimum temperature at which a liquid gives off vapor in a test vessel of sufficient concentration to form an ignitable mixture with air near the surface of the liquid. Such temperature shall be determined: by a Pensky-Martens Closed Cup Tester using the test method specified in ASTM Standard D93-79 or D93-80; or by a Setaflash Closed Cup Tester using the test method specified in ASTM Standard D-327878; or by a Tag Closed Cup Tester using the test method specified in ASTM D-56-79.

Process. "Process" shall mean any activity involving an [extremely hazardous substance] EHS or a regulated toxic substance, including any use, storage, manufacturing, handling, or on-site movement of any such substance, or any combination of the foregoing activities. For the purposes of this definition, any group of vessels that are interconnected, or separate vessels that are located in such close proximity to each other at a facility that a fire, explosion, or other catastrophic accident or event could result in a release of an [extremely hazardous substance] EHS or regulated toxic substance from all such vessels, shall be considered a single process.

[Sanitized] Sanitized. "Sanitized" shall mean a version of a document from which information claimed as trade secret or confidential has been omitted or withheld.

Section 2. Subdivision (b) of Section 41-06 of Title 15 of the Rules of the City of New York is amended to read as follows:

(b) *Procedure for withholding information based on a Federal or State claim.*

(1) A responsible party may withhold from the FIF and FIF UPDATE and/or risk management plan the specific chemical identity of a hazardous substance, including the chemical name and other specific identification, and the method or process in which an [extremely hazardous substance] EHS or regulated toxic substance is used, if a trade secret claim has been filed, pursuant to § 322 of the Federal Emergency Planning and Community Right-to-Know Act of 1986, or such information has been registered as a trade secret, pursuant to Article 48 of the New York State Public Health Law or Article 28 of the New York State Labor Law. The responsible party [shall] must submit a notarized statement [attesting to] verifying the facts of the claim or registration, including the date, place and recipient of the claim or registration, and that the chemical identity, or the method or process in which an [extremely hazardous substance] EHS or regulated toxic substance is used, continues to be treated as confidential by the governmental authorities with whom such claim or registration has been filed. The responsible party [shall] must also affirm that the claim or registration complied with the requirements for such a submission, that reasonable measures have been taken to safeguard the confidentiality of the chemical identity claimed or registered as a trade secret, and such measures will continue in the future.

(2) The responsible party [shall] must indicate in the manner provided on the FIF, FIF UPDATE and/or risk management plan that information has been withheld because of a trade secret claim or registration.

Section 3. Subdivision (c) of Section 41-06 of Title 15 of the Rules of the City of New York is amended to read as follows:

(c) *Procedure for requesting non-disclosure based on DEP determination of trade secret status.*

(1) The responsible party requesting DEP determination of trade secret status [shall] must not withhold from the FIF, FIF UPDATE and/or risk management plan any of the information for which trade secret status is sought. Such responsible party [shall] must submit "Trade Secret [Substantiation] Verification on a form to be prescribed by the Department at the time of the FIF, FIF UPDATE and/or risk management plan filing, containing answers to the questions listed in Paragraph (2) of this Subdivision (c). Information included in this [Substantiation] Verification or in supplemental information provided at the request of DEP shall be treated as confidential, and therefore shall not be disclosed by DEP, regardless of the ultimate disposition of the specific hazardous substance trade secret claim, provided that the responsible party certifies that such information, if disclosed, would cause [substantial injury to the competitive position of the subject enterprise] economic harm to the responsible party."

(2) The responsible party [shall] must substantiate claims of trade secrecy by providing a specific answer including, where applicable, specific facts, to each of the following questions and requests for information [.]:

(i) Describe the specific [measures] actions you have taken to safeguard the confidentiality of the chemical identity, method or process claimed as trade secret, and indicate whether these [measures] actions will continue in the future.

(ii) Have you disclosed the information claimed as trade secret to any other person (other than a member of a local emergency planning committee, officer or employee of the United States or a State or Local government, or your employee) who is not bound by a confidentiality agreement to refrain from disclosing this trade secret information to others?

(iii) List any municipal, State, and Federal government entities to which you have disclosed the specific chemical identity, method or processes. For each, indicate whether you asserted a confidentiality claim for the chemical identity, method or process and whether the government entity granted or denied that claim.

(iv) In order to show the validity of a trade secrecy claim, you must identify your specific use of the chemical, method or process claimed as trade secret and explain why it is a secret of interest to competitors.

(A) Describe the specific use of the chemical claimed as trade secret, identifying the product or process in which it is used. (If you use the chemical other than as a component of a product or in a manufacturing process, identify the activity where the chemical is used.)

(B) Has your company or facility identity been linked to the specific chemical identity, method or process claimed as trade secret in

a patent, or in publications or other information sources available to the public or your competitors (of which you are aware)? If so, explain why this [knowledge does not eliminate the justification for trade secrecy] public information does not eliminate the need for protection of the trade secret.

(C) If this use of the chemical, method or process claimed as trade secret is unknown outside your company, explain how your competitors could [deduce this use] infer the use, method or process from disclosure of the chemical identity, method or process together with other information on the FIF, FIF UPDATE and/or risk management plan.

(D) Explain why your use of the chemical, method or process claimed as trade secret would be valuable information to your competitors.

(v) Indicate the nature of the economic harm [to your competitive position] that would likely result from disclosure of the specific chemical identity, and indicate why such harm would be substantial.

(vi) (A) To what extent is the chemical, method or process claimed as trade secret available to the public or your competitors in products, articles, or environmental releases?

(B) Describe the factors which influence the cost of determining the identity of the chemical claimed as trade secret by chemical analysis of the product, article, or waste which contains the chemical (e.g., whether the chemical is in pure form or is mixed with other substances).

(3) The responsible party [shall] must include and sign the following certification at the end of the [Substantiation] Verification: "I certify under penalty of law that I have personally examined the information submitted in this and all attached documents. Based on my inquiry of those individuals responsible for obtaining the information, I certify that the submitted information is true, accurate, and complete. I acknowledge that I may be asked by DEP to provide further detailed factual [substantiation] evidence relating to this claim of trade secrecy, and certify to the best of my knowledge and belief that such information is available. I understand that knowingly or recklessly making any false statement, representation or certification could subject me to a penalty of \$1000, or imprisonment of up to one year, or both."

(4) A responsible party may request an extension [only for submission of Trade Secret Substantiation by including in the FIF and/or risk management plan filing a notarized statement that such filing is otherwise complete, and that the additional time is needed to fully comply with the substantiation requirements of this section. An extension of 15 business days commencing from the applicable FIF and/or risk management plan filing deadline shall be granted upon receipt by DEP of such notarized statement] of time for the submission of the Trade Secret Verification form by including in the FIF filing or risk management plan filing a notarized statement requesting additional time to fully comply with the verification requirements of this section.

(5) (i) DEP may request supplemental information from the responsible party in support of its trade secret claim. DEP may specify the kind of information to be submitted, or the responsible party may submit any additional detailed information which further supports the truth of the information previously supplied to DEP in its initial [substantiation] verification under this section. Any request for supplemental information must be submitted to DEP.

(ii) Any substantial information submitted by a responsible party [shall] must include a certification pursuant to Paragraph (3) of Subdivision (c) of this section, and where applicable, a certification pursuant to Paragraph (1) of Subdivision (c) of this section.

(6) If a trade secret claim is submitted after DEP has received the information to which such claim relates, DEP may make reasonable efforts [that are administratively practicable] to process the late claim with the previously submitted information.

(7) No information claimed as a trade secret shall be disclosed by DEP prior to an affirmative determination by DEP as to the validity of the claim.

(8) (i) The responsible party shall be notified in writing of DEP's determination as to the validity of the claim.

(ii) Within 7 business days of the receipt of written notice denying the claim, the responsible party may file a written appeal with the Commissioner.

(iii) The appeal shall be determined within 20 business days of the receipt of the appeal. Written notice of the Commissioner's determination shall include a statement of the reasons for the determination.

(iv) A proceeding to review an adverse determination may be commenced pursuant to Article 78 of the Civil Practice Law and Rules.

(9) Pursuant to § 24-709(c) of the New York City Community

Right-to-Know Law, the Commissioner shall disclose trade secret information in the emergency circumstances specified in Paragraph 1 of that section, and the responsible party shall disclose trade secret information for medical diagnosis and treatment purposes specified in Paragraph 2 of that section.

Section 4. Subdivision (c) of Section 41-07 of Title 15 of the Rules of the City of New York is amended to read as follows:

(c) A responsible party may use signs, placards, process sheets, batch tickets, operating procedures, or other such written materials [in lieu] instead of [affixing] attaching labels to individual [stationary process] containers, as long as the alternative method identifies the containers to which it is applicable and conveys the information required by Subdivision (a) of this section. The written materials [shall] must be readily accessible to the employees in their work area throughout each work shift.

Section 5. Subdivision (a) of Section 41-08 of Title 15 of the Rules of the City of New York is amended to read as follows:

(a) On or before March first of each year beginning in [nineteen hundred ninety-five] 1995 a responsible party of a facility where an EHS or regulated toxic substance is present at or above the TPQ for that substance [shall] must file with the Department a risk management plan. The plan [shall] must be submitted to:

Section 6. Subsection (2) of subdivision (b) of Section 41-10 of Title 15 of the Rules of the City of New York is amended to read as follows:

(2) Evaluation of the possibility and effects of a significant accidental release. A responsible party [shall] must examine each covered process and identify the circumstances that may cause a significant accidental release (e.g., pump failure, failure of controls, or operator error), evaluate the likelihood that such a release could occur, and perform a [qualitative] general evaluation of the effects that a significant accidental release [will] would have on public health and the environment.

NOTE:

As of January 1, 2017, the Bio-Diesel Blender Tax Credit has been rescinded for \$1.00 per gallon on B100. Therefore, for deliveries after January 1, 2017, the contractor will no longer be deducting the tax credit as a separate line item on the invoice. Should the tax credit be extended, it will once again appear as deduction and line item on the invoice.

Federal excise taxes are imposed on taxable fuels, (i.e., gasoline, kerosene, and diesel), when removed from a taxable fuel terminal. This fuel excise tax does not include Leaking Underground Storage Tank (LUST) tax. LUST tax applies to motor fuels for both diesel and gasoline invoices. Going forward, LUST Tax will appear as an additional fee at the rate of \$0.001 per gallon and will be shown as a separate line item on your invoice.

REMINDER FOR ALL AGENCIES:

Please send inspection copy of receiving report for all gasoline (E85, UL & PREM) delivered by tank wagon to OCP/Bureau of Quality Assurance (BQA), 1 Centre Street, 18th Floor, New York, NY 10007.
