- (g) to provide flexibility of architectural design within limits established to assure adequate access of light and air to the street, and thus to encourage more attractive and economic building forms on zoning lots with irregular shapes and on zoning lots fronting on the elevated rail structure along Jerome and River Avenues; and
- (h) to promote the most desirable use of land in accordance with a well-considered plan and thus conserve the value of land and buildings, and thereby protect the City's tax revenues.

141-10 SPECIAL USE REGULATIONS

Within the #Special Jerome Corridor District#, the underlying #use# regulations are modified by the provisions of this Section.

141-11 Special Permit for #Transient Hotels#

The #development# or #enlargement# of a #building# containing a #transient hotel#, as listed in Section 32-14 (Use Group 5), or the #conversion# or change of #use# within an existing #building# to a #transient hotel#, shall only be allowed in C2 Districts, subject to the locational criteria set forth in the double-asterisked footnote of Use Group 5 in Section 32-14, and in C4 Districts;

- (a) upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings that the #residential development# goal, as set forth in this Section, has been met; or
- (b) by special permit by the City Planning Commission where such #residential development# goal, has not been met. To permit such a #transient hotel#, the Commission shall find that:
 - (1) sufficient sites are available in the area to meet the #residential development# goal; or
 - (2) a harmonious mix of #residential# and non-#residential uses# has been established in the area, and such #transient hotel# is consistent with the character of the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

For the purpose of applying the provisions of this Section, the #residential development# goal shall be met when at least 3,006 #dwelling units# within the #Special Jerome Corridor District# have received temporary or final certificates of occupancy subsequent to [date of adoption].

141-20 SPECIAL BULK REGULATIONS

The underlying height and setback regulations are modified by the provisions of this Section.

141-21 Special Height and Setback Regulations Along the Elevated Rail Structure, Outside of Subdistrict A

For #zoning lots#, or portions thereof, within 100 feet of #street lines# along the elevated rail structure on Jerome or River Avenues, and located outside of Subdistrict A, the underlying height and setback provisions are modified by the provisions of this Section.

- (a) #Street wall# location

At least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# and shall extend to at least a minimum base height of 15 feet, or the height of the #building#, whichever is lower. The remaining #aggregate width of street walls# may be recessed beyond eight feet of the #street line#, provided that any such recesses deeper than 10 feet along a #wide street# or 15 feet along a #narrow street# are located within an #outer court#.

The underlying allowances for #street wall# articulation, set forth in paragraph (e) of Section 35-651 (Street wall location) shall

be permitted to project or recess, where applicable, beyond the #street wall# locations established in this paragraph.

Any open space between a #street wall# and a #street line# along the elevated rail structure on Jerome or River Avenues shall comply with the special open space provisions of paragraph (a) of Section 141-33.

- (b) Base heights, maximum #building# heights, and maximum number of #stories#

Table 1 below sets forth, by zoning district, the minimum and maximum base height, the maximum height of a #building or other structure#, and the maximum number of #stories# for #buildings#, or portions thereof. For #zoning lots# in a #Commercial District# the applicable district shall be the #Residence District# within which such #Commercial District# is mapped, or the applicable residential equivalent set forth in the tables in Section 35-23 (Residential Bulk Regulations in Other C1 or C2 Districts or in C3, C4, C5 or C6 Districts).

Separate maximum base heights are established in Table 1 for #street walls# of #buildings# facing #streets# intersecting Jerome or River Avenues, and for #street walls# facing the elevated rail structure. The maximum base heights along intersecting #streets# shall also apply to #street walls# facing the elevated rail structure on Jerome or River Avenues within 75 feet of the corner.

A setback is required for all portions of #buildings or other structures# that exceed the maximum base height specified for the district, and shall be provided at a height not lower than the minimum base height or higher than the permitted maximum base height. Such setback shall have a depth of at least 10 feet from any #street wall# fronting on a #wide street#, and a depth of at least 15 feet from any #street wall# fronting on a #narrow street#. The underlying provisions of paragraphs (c)(2) through (c)(4) of Section 23-662 shall apply to such setbacks.

Table 1

Base Heights, Maximum #Building# Heights and Maximum Number of #Stories#

Table with 5 columns: District, Maximum Base Height along Elevated Rail Structure, Maximum Base Height on Intersecting Streets, Maximum Height of #Buildings or Other Structures, Maximum Number of #Stories#. Rows include R7A, R7D, R8A, R9A.

- (c) Required and permitted articulation

A minimum of 20 percent of the surface area of such #street walls# above the level of the second #story#, or a height of 30 feet, whichever is lower, shall either recess or project a minimum of three feet from the remaining surface of the #street wall#. Any such projections shall be considered a permitted obstruction into a required setback, and the depth of such projections along the elevated rail structure shall not exceed three feet.

In addition, the underlying dormer provisions of paragraph (c) of Section 23-621 shall be modified for portions of #buildings# facing the elevated rail structure, so that above the maximum base height set forth in paragraph (b) of this Section, dormers shall be permitted only within 75 feet of a corner.

141-22 Special Height and Setback Regulations in Subdistrict A

In Subdistrict A, as shown on Map 1 (Special Jerome Corridor District, Subdistrict and Subareas) in the Appendix to this Chapter, the underlying height and setback provisions are modified by the provisions of this Section.

- (a) #Street wall# location

- (1) Along the elevated rail structure

For #street walls#, or portions thereof, within 100 feet of #street lines# along the elevated rail structure on Jerome or River Avenues, the provisions of paragraph (a) of Section 141-22 shall apply.

- (2) Along designated #streets#

For #street walls#, or portions thereof, along #streets#

designated on Maps 2 and 3 in the Appendix to this Chapter, at least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# and shall extend to at least a height of 30 feet, or the height of the #building#, whichever is lower. In addition, above a height of 30 feet, at least 50 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# and shall extend to at least a minimum base height of 60 feet, or the height of the #building#, whichever is lower.

The remaining #aggregate width of street walls# may be recessed beyond eight feet of the #street line#, provided that any such recesses deeper than 10 feet along a #wide street# or 15 feet along a #narrow street# are located within an #outer court#.

The underlying allowances for #street wall# articulation, set forth in paragraph (e) of Section 35-651 shall be permitted to project or recess, where applicable, beyond the #street wall# locations established in this paragraph.

In the corner locations designated on Maps 2 and 3, an open space may be provided within 75 feet of the corner, pursuant to the provisions of paragraph (b) of Section 141-33.

- (3) Along other #streets#

Along other #streets#, no #street wall# location provisions shall apply, and no minimum base heights shall apply.

- (b) Base heights, maximum #building# heights, and maximum number of #stories#

Table 2 below sets forth, by zoning district, the maximum base height, the maximum transition height, the maximum height of a #building or other structure# and the maximum number of #stories# for #buildings#.

However, for #street walls# facing the elevated rail structure along Jerome or River Avenues beyond 75 feet of the corner, the maximum base height shall be 30 feet.

A setback is required for all portions of #buildings or other structures# that exceed the maximum base height specified for the district, and shall be provided at a height not lower than the minimum base height, where applicable, or higher than the permitted maximum base height. Such setback shall have a depth of at least 10 feet from any #street wall# fronting on a #wide street#, and a depth of at least 15 feet from any #street wall# fronting on a #narrow street#. However, for portions of #buildings or other structures# along Cromwell Avenue located beyond 200 feet from a corner, a minimum setback with a depth of at least 30 feet shall be provided. The underlying provisions of paragraphs (c) (2) through (c)(4) of Section 23-662 shall apply to all such setbacks.

In R9A Districts, or #Commercial Districts# mapped over an R9A District, above the required setback, the height of a #building# shall not exceed the maximum transition height set forth in Table 2, except that where the #lot coverage# of all #buildings# on the #zoning lot# above the maximum transition height has been reduced to 50 percent on #zoning lots# with a #lot area# less than or equal to 15,000 square feet, 40 percent on #zoning lots# with a #lot area# greater than 15,000 square feet but less than 30,000 square feet, and 30 percent for all other #zoning lots#, a #building# may rise up to the maximum #building or other structure# height set forth in Table 2. The maximum #street wall# width of any #story# above the maximum transition height shall not exceed 165 feet, and where two or more non-contiguous portions of a #building# exist at the same level above the maximum transition height, such portions shall provide a minimum distance of 60 feet between facing walls at any point.

Table 2

Base Heights, Maximum #Building# Heights and Maximum Number of #Stories#

Table with 5 columns: District, Maximum Base Height, Maximum Transition Height, Maximum Height of #Buildings or Other Structures, Maximum Number of #Stories#. Rows include R8A, R9A.

- (c) Required and permitted articulation

A minimum of 20 percent of the surface area of #street walls# above the level of the second #story#, or a height of 30 feet,

whichever is lower, shall either recess or project a minimum of three feet from the remaining surface of the #street wall#. Any such projections shall be considered a permitted obstruction into a required setback, provided that any projections with a depth greater than five feet shall be considered a dormer.

In addition, the underlying dormer provisions of paragraph (c) of Section 23-621 shall apply, except that for #street walls# intersecting within 100 feet of the corners designated on Maps 2 and 3 in the Appendix to this Chapter, and irrespective of the width of the #street wall# below the maximum base height, dormers shall be permitted within 100 feet of such intersecting #street walls#. Such dormers need not decrease in width as the height above the maximum base height increases.

Any dormers or projections provided in accordance with this paragraph need not be included in the maximum #lot coverage# permitted above the maximum transition height, nor be included in the maximum #street wall# width of a #story#.

141-30 SPECIAL STREETScape REGULATIONS

141-31 Applicability of underlying ground floor use regulations

In C2 Districts mapped within R7D Districts, the underlying supplemental #use# regulations of Section 32-434 (Ground floor use in C4-5D and C6-3D Districts and in certain C2 Districts) shall not apply. In lieu thereof, the provisions of Section 141-32 (Ground Floor Use Regulations) shall apply.

141-32 Ground Floor Use Regulations

For the purposes of applying the special #ground floor level# streetscape provisions set forth in Section 37-30 to this Chapter, any portion of a #ground floor level street# frontage of a #zoning lot# in a #Commercial District# located within 50 feet of #street lines# along the elevated rail structure on Jerome or River Avenues, and, in Subdistrict A, a #ground floor level street# frontage along #streets#, or portions thereof, designated on Maps 2 and 3 in the Appendix to this Chapter, shall be considered #primary street frontages#. A #ground floor level street# frontage along any other #street# shall be considered a #secondary street frontage#. For the purposes of this Section, defined terms shall include those in Sections 12-10 and 37-31.1.

The provisions of this Section shall apply to #developments# or ground floor level #enlargements#.

(a) Along #primary street frontages#

For #buildings# with #primary street frontage#, or portions thereof, #uses# on the #ground floor level#, to the minimum depth set forth in Section 37-32 (Ground Floor Depth Requirements for Certain Uses), shall be limited to non-#residential uses#, except for Type 1 lobbies and entrances and exits to #accessory# parking spaces provided in accordance with the applicable provisions of Section 37-33 (Maximum Width of Certain Uses). #Group parking facilities# located on the #ground floor level# shall be wrapped by #floor area# in accordance with the provisions of paragraph (a) of Section 37-35 (Parking Wrap and Screening Requirements). #Ground floor level street walls# shall be glazed in accordance with the provisions set forth in Section 37-34 (Minimum Transparency Requirements).

(b) Along #secondary street frontages#

For #buildings# with #secondary street frontage#, or portions thereof, all #uses# permitted by the underlying district shall be permitted on the #ground floor level#, provided that any accessory# off-street parking spaces on the #ground floor level# shall be wrapped or screened in accordance with Section 37-35.

The level of the finished floor of such ground floor shall be located not higher than five feet above nor lower than five feet below the as-built level of the adjoining #street#.

141-33 Special Open Space Provisions

Along the elevated rail structure on Jerome or River Avenues, where open space is provided between the #street line# of the #zoning lot# and the #street wall# of a #building# facing the elevated rail structure, or in Subdistrict A, where open space is provided between the #street wall# and the corner at a located designated on Map 2 or 3 in the Appendix to this Chapter, the provisions of Section 28-23 (Planting Areas) shall apply to all #buildings#, whether the ground floor is occupied by #residential uses# or non-#residential uses#, subject to the modifications of this Section.

(a) Along the elevated rail structure on Jerome or River Avenues

Along the elevated rail structure on Jerome or River Avenues, a sidewalk widening, built to Department of Transportation standards, may be provided as an alternative to planting, provided that the area that would otherwise be allocated to planting,

measured in square feet, is allocated to streetscape amenities, including, but not limited to, trees, bicycle racks, benches, or wall treatment, are provided along such sidewalk widening, as set forth below.

Where benches are provided as an alternative to such planting, the length of such benches shall not exceed, in the aggregate, 15 feet per every 50 feet of #street wall# frontage. Where bicycle racks are provided, such racks shall be oriented so that the bicycles are placed parallel to the #street wall#, and the width of such bicycle racks shall not exceed, in the aggregate, 10 feet per every 50 feet of #street wall# frontage. Such benches or bicycle racks shall be located entirely within the #zoning lot#, and each bench or bicycle rack so provided shall be equivalent to 15 square feet of planted area.

Where trees, and associated tree pits are provided as an alternative, the minimum depth of any open space between the #street wall# and #street line# shall be eight feet. Each tree provided shall be equivalent to 15 square feet of planted area.

Where a wall treatment is provided as an alternative, it shall be in the form of permitted #signs#, graphic or sculptural art, rustication, decorative screening or latticework, or living plant material along the #street wall#. Such wall treatment shall extend to a height of at least 10 feet, as measured from the level of the adjoining sidewalk or grade, and shall have a minimum width of 10 feet, as measured parallel to the #street wall#. Portions of a #street wall# providing such wall treatment may be exempted from the ground floor glazing requirements of paragraph (a) of Section 141-32, provided that the exempted area not exceed 50 percent of the #street wall#, or a #street wall# width of 20 feet, whichever is less. The portion of the #street wall# allocated to a wall treatment shall satisfy the planting requirement directly in front of such #street wall#.

Where planting is provided, the minimum depth of open space between the #street line# and the #street wall# shall not be less than three feet.

(b) In Subdistrict A

In Subdistrict A, where open space is provided between the #street wall# and the intersection of two #streets#, pursuant to paragraph (a)(2) of Section 141-22, streetscape amenities may be provided as an alternative to planting, provided that the area that would otherwise be allocated to planting, measured in square feet, is allocated to trees, benches, or tables and chairs, as set forth below. However, planting shall not be reduced to less than 20 percent of the area of the open space.

Each bench provided shall be equivalent to 10 square feet of planted area, and each set of tables and at least two chairs shall be equivalent to 15 square feet of planted area. Seating shall be publicly accessible, unless tables and chairs are associated with an open eating or drinking establishment on the #zoning lot#. The area under such seating shall be paved with permeable materials and shall either abut the adjoining sidewalk or be connected to such sidewalk by a circulation path at least five feet wide that is also paved with permeable materials.

Each tree and associated tree pits provided shall be equivalent to 15 square feet of planted area, and shall be located at least 10 feet from any #building wall# or the adjoining sidewalk.

Where planting is provided, the minimum depth of a planted bed shall not be less than three feet.

In no event shall chain link fencing or barbed or razor wire be permitted in any open space provided, pursuant to this Section.

141-40 SPECIAL PARKING AND LOADING REGULATIONS

The underlying parking provisions are modified by the provisions of this Section.

141-41 Location of Curb Cuts

In all districts, for #zoning lots# existing on [date of adoption] with frontage along Edward L. Grant Highway, West 170th Street, or the portions of Jerome or River Avenues with an elevated rail structure, and additionally fronting other #streets#, no curb cut accessing off-street parking spaces or loading spaces shall be permitted along such #streets#, as applicable.

141-00 GENERAL PURPOSES

The "Special Jerome Corridor District" established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

- (i) to encourage well-designed buildings that complement the built character of the Highbridge, Concourse, Mount Eden, Mount Hope, Morris Heights, and University Heights neighborhoods;

- (j) to achieve a harmonious visual and functional relationship with the adjacent neighborhoods;
- (k) to enhance neighborhood economic diversity by broadening the range of housing choices for residents at varied incomes;
- (l) to create a livable community combining housing, retail and other uses throughout the district;
- (m) to create a walkable, urban streetscape environment through a mix of ground floor uses;
- (n) to create a lively and attractive built environment that will provide daily amenities and services for the use and enjoyment of area residents, workers and visitors;
- (o) to provide flexibility of architectural design within limits established to assure adequate access of light and air to the street, and thus to encourage more attractive and economic building forms on zoning lots with irregular shapes and on zoning lots fronting on the elevated rail structure along Jerome and River Avenues; and
- (p) to promote the most desirable use of land in accordance with a well-considered plan and thus conserve the value of land and buildings, and thereby protect the City's tax revenues.

**141-13
Modification of Supplemental Use Provisions**

For #mixed buildings# constructed after [date of adoption] on #zoning lots# in C1 or C2 Districts mapped within R7 or R8 Districts with #street lines# along the elevated rail structure on Jerome or River Avenues, the underlying provisions of Section 32-421 (Limitation on floors occupied by commercial uses) shall be modified to allow #commercial uses# listed in Use Groups 6, 7, 8, 9 or 14 to occupy the lowest two #stories#.

**141-22
Special Height and Setback Regulations Along the Elevated Rail Structure Outside Subdistrict A**

For #zoning lots#, or portions thereof, within 100 feet of #street lines# along the elevated rail structure on Jerome or River Avenues, and located outside Subdistrict A, the underlying height and setback provisions are modified by the provisions of this Section.

- (c) #Street wall# location

At least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# and shall extend to at least a minimum base height of 15 feet, or the height of the #building#, whichever is lower. The remaining #aggregate width of street walls# may be recessed beyond eight feet of the #street line#, provided that any such recesses deeper than 10 feet along a #wide street# or 15 feet along a #narrow street# are located within an #outer court#.

The underlying allowances for #street wall# articulation, set forth in paragraph (e) of Section 35-651 (Street wall location) shall be permitted to project or recess, where applicable, beyond the #street wall# locations established in this paragraph.

Any open space between a #street wall# and a #street line# along the elevated rail structure on Jerome or River Avenues shall comply with the special open space provisions of paragraph (a) of Section 141-33.

- (d) Base heights, maximum #building# heights and maximum number of #stories#

The table in this Section sets forth, by zoning district, the minimum and maximum base height, the maximum height of a #building or other structure#, and the maximum number of #stories# for #buildings#, or portions thereof. For #zoning lots# in a #Commercial District# the applicable district shall be the #Residence District# within which such #Commercial District# is mapped, or the applicable residential equivalent set forth in the tables in Section 35-23.

(Residential Bulk Regulations in Other C1 or C2 Districts or in C3, C4, C5 or C6 Districts).

Separate maximum base heights are established in the table in this Section for #street walls# of #buildings# facing #streets# intersecting Jerome or River Avenues, and for #street walls# facing the elevated rail structure. The maximum base heights along intersecting #streets# shall also apply to #street walls# facing the elevated rail structure on Jerome or River Avenues within 75 feet of the corner.

A setback is required for all portions of #buildings or other structures# that exceed the maximum base height specified for the district, and shall be provided at a height not lower than the minimum base height or higher than the permitted maximum base height. Such setback shall have a depth of at least 10 feet from any #street wall# fronting on a #wide street#, and a depth of at least 15 feet from any #street wall# fronting on a #narrow street#. The underlying provisions of paragraphs (c)(2) through (c)(4) of Section 23-662 (Maximum height of buildings and setback regulations) shall apply to such setbacks.

Base Heights, Maximum #Building# Heights and Maximum Number of #Stories#

District	Maximum Base Height along Elevated Rail Structure, beyond 75 feet of the corner (in feet)	Maximum Base Height on Intersecting Streets, and within 75 feet of the corner (in feet)	Maximum Height of #Buildings or Other Structures# (in feet)	Maximum Number of #Stories#

(d) Required and permitted articulation

For #street wall# fronting the elevated rail structure on Jerome or River Avenues with widths exceeding 100 feet, a minimum of 20 percent of the surface area of such #street walls# above the level of the second #story#, or a height of 30 feet, whichever is lower, shall either recess or project a minimum of three feet from the remaining surface of the #street wall#. Any such projections shall be considered a permitted obstruction into a required setback, and the depth of such projections along the elevated rail structure shall not exceed three feet.

In addition, the underlying dormer provisions of paragraph (c) of Section 23-621 shall be modified for portions of #buildings# facing the elevated rail structure, so that above the maximum base height set forth in paragraph (b) of this Section, dormers shall be permitted only within 75 feet of a corner.

141-23 Special Height and Setback Regulations in Subdistrict A

In Subdistrict A, as shown on Map 1 (Special Jerome Corridor District, Subdistrict and Subareas) in the Appendix to this Chapter, the underlying height and setback provisions are modified by the provisions of this Section.

(4) Along the elevated rail structure

For #street walls#, or portions thereof, within 100 feet of #street lines# along the elevated rail structure on Jerome or River Avenues, the provisions of paragraph (a) of Section 141-22 shall apply.

(5) Along designated #streets#

In Subareas A1 through A3, along the #streets# designated on Maps 2 through 4 in the Appendix to this Chapter, the following shall apply:

(i) In #Commercial Districts#

For #street walls#, or portions thereof, located in #Commercial Districts#, at least 70 percent of the #aggregate width of street walls# shall be located within eight feet of the #street line# and shall extend to at least a height of 30 feet, or the height of the #building#, whichever is lower. In addition, above a height of 30 feet, at least 50 percent of the #aggregate width of street walls# shall be located within eight feet of the #street

line# and shall extend to at least a minimum base height of 60 feet, or the height of the #building#, whichever is lower.

The remaining #aggregate width of street walls# may be recessed beyond eight feet of the #street line#, provided that any such recesses deeper than 10 feet along a #wide street# or 15 feet along a #narrow street# are located within an #outer court#.

The underlying allowances for #street wall# articulation, set forth in paragraph (e) of Section 35-651 shall be permitted to project or recess, where applicable, beyond the #street wall# locations established in this paragraph.

In the corner locations designated on Maps 2 and 3, an open space may be provided within 75 feet of the corner, pursuant to the provisions of paragraph (b) of Section 141-33.

(ii) In #Residence Districts#

For #street walls#, or portions thereof, located in #Residence Districts#, at least 70 percent of the #aggregate width of street walls# shall be located within 15 feet of the #street line# and shall extend to at least the minimum base height set forth in paragraph (b) of this Section, or the height of the #building#, whichever is lower.

The remaining #aggregate width of street walls# may be recessed beyond eight feet of the #street line#, provided that any such recesses deeper than 10 feet along a #wide street# or 15 feet along a #narrow street# are located within an #outer court#.

The underlying allowances for #street wall# articulation, set forth in paragraph (e) of Section 35-651 shall be permitted to project or recess, where applicable, beyond the #street wall# locations established in this paragraph.

In the corner locations designated on Map 4, an open space may be provided within 75 feet of the corner, pursuant to the provisions of paragraph (b) of Section 141-33.

(6) Along other #streets#

In Subareas A1 through A4, along #streets# that are not designated on Maps 2 through 5, no #street wall# location provisions shall apply, and no minimum base heights shall apply.

(e) Base heights, maximum #building# heights, and maximum number of #stories#

The table in this Section sets forth, by zoning district, the maximum base height, the maximum transition height, the maximum height of a #building or other structure# and the maximum number of #stories# for #buildings#.

However, for #street walls# facing the elevated rail structure along Jerome or River Avenues beyond 75 feet of the corner, the maximum base height shall be 30 feet.

A setback is required for all portions of #buildings or other structures# that exceed the maximum base height specified for the district, and shall be provided at a height not lower than the minimum base height, where applicable, or higher than the permitted maximum base height. Such setback shall have a depth of at least 10 feet from any #street wall# fronting on a #wide street#, and a depth of at least 15 feet from any #street wall# fronting on a #narrow street#. However, for portions of #buildings or other structures# along Cromwell Avenue located beyond 200 feet from a corner, a minimum setback with a depth of at least 30 feet shall be provided. The underlying provisions of paragraphs (c) (2) through (c)(4) of Section 23-662 shall apply to all such setbacks.

In R9A Districts, or #Commercial Districts# mapped over an R9A District, above the required setback, the height of a #building# shall not exceed the maximum transition height set forth in the table in this Section, except that where the #lot coverage# of all #buildings# on the #zoning lot# above the maximum transition height has been reduced to 50 percent on #zoning lots# with a #lot area# less than or equal to 15,000 square feet, 40 percent on #zoning lots# with a #lot area# greater than 15,000 square feet but less than 30,000 square feet, and 30 percent for all other #zoning lots#, a #building# may rise up to the maximum #building or other structure# height set forth in the table in this Section. The maximum #street wall# width of any #story# above the maximum transition height shall not exceed 165 feet, and where two or more non-contiguous portions of a #building# exist at the same level above the maximum transition height, such portions shall provide a minimum distance of 60 feet between facing walls at any point.

Base Heights, Maximum #Building# Heights and Maximum Number of #Stories#

R8A	105	N/A	145	14
R9A	125	175	225	22

(f) Required and permitted articulation

In Subareas A1 through A3, along #streets# designated in Maps 2 through 4 in the Appendix to this Chapter, for #street wall# widths exceeding 100 feet, a minimum of 20 percent of the surface area of #street walls# above the level of the second #story#, or a height of 30 feet, whichever is lower, shall either recess or project a minimum of three feet from the remaining surface of the #street wall#. Any such projections shall be considered a permitted obstruction into a required setback, provided that any projections with a depth greater than five feet shall be considered a dormer.

In addition, the underlying dormer provisions of paragraph (c) of Section 23-621 shall apply, except that in Subareas A1 through A3, for #street walls# intersecting within 100 feet of the corners designated on Maps 2, 3 and 4 in the Appendix to this Chapter, and irrespective of the width of the #street wall# below the maximum base height, dormers shall be permitted within 100 feet of such intersecting #street walls#. Such dormers need not decrease in width as the height above the maximum base height increases.

Any dormers or projections provided in accordance with this paragraph need not be included in the maximum #lot coverage# permitted above the maximum transition height, nor be included in the maximum #street wall# width of a #story#.

141-30 SPECIAL STREETScape REGULATIONS

141-31 Applicability of underlying ground floor use regulations

In C2 Districts mapped within R7D Districts, the underlying supplemental #use# regulations of Section 32-434 (Ground floor use in C4-5D and C6-3D Districts and in certain C2 Districts) shall not apply. In lieu thereof, the provisions of Section 141-32 (Ground Floor Use Regulations) shall apply.

141-32 Ground Floor Use Regulations

For the purposes of applying the special #ground floor level# streetscape provisions set forth in Section 37-30 to this Chapter, any portion of a #ground floor level street# frontage of a #zoning lot# in a #Commercial District# located within 50 feet of #street lines# along the elevated rail structure on Jerome or River Avenues and, in Subdistrict A, for Subareas A1 or A2, a #ground floor level street# frontage along #streets#, or portions thereof, designated on Maps 2 and 3 in the Appendix to this Chapter, shall be considered #primary street frontages#. A #ground floor level street# frontage along any other #street# shall be considered a #secondary street frontage#. For the purposes of this Section, defined terms shall include those in Sections 12-10 and 37-311.

The provisions of this Section shall apply to #developments# or #ground floor level enlargements#.

(c) Along #primary street frontages#

For #buildings# with #primary street frontage#, or portions thereof, #uses# on the #ground floor level#, to the minimum depth set forth in Section 37-32 (Ground Floor Depth Requirements for Certain Uses), shall be limited to non-#residential uses#, except for Type 1 lobbies and entrances and exits to #accessory# parking spaces provided in accordance with the applicable provisions of Section 37-33 (Maximum Width of Certain Uses). #Group parking facilities# located on the #ground floor level# shall be wrapped by #floor area# in accordance with the provisions of paragraph (a) of Section 37-35 (Parking Wrap and Screening Requirements). #Ground floor level street walls# shall be glazed in accordance with the provisions set forth in Section 37-34 (Minimum Transparency Requirements).

(d) Along #secondary street frontages#

For #buildings# with #secondary street frontage#, or portions thereof, all #uses# permitted by the underlying district shall be permitted on the #ground floor level#, provided that any accessory# off-street parking spaces on the #ground floor level# shall be wrapped or screened in accordance with Section 37-35.

The level of the finished floor of such ground floor shall be located not higher than five feet above nor lower than five feet below the as-built level of the adjoining #street#.

141-33 Special Open Space Provisions

Along the elevated rail structure on Jerome or River Avenues, where open space is provided between the #street line# of the #zoning lot# and the #street wall# of a #building# facing the elevated rail structure, or in Subdistrict A, for Subareas A1 through A3, where open space is provided between the #street wall# and the corner at a location designated on Maps 2, 3 or 4 in the Appendix to this Chapter, the provisions of Section 28-23 (Planting Areas) shall apply to all #buildings#, whether the ground floor is occupied by #residential uses# or non-#residential uses#, subject to the modifications of this Section.

(c) Along the elevated rail structure

Along the elevated rail structure on Jerome or River Avenues, a sidewalk widening, built to Department of Transportation standards, may be provided as an alternative to planting, provided that the area that would otherwise be allocated to planting, measured in square feet, is allocated to streetscape amenities, including, but not limited to, trees, bicycle racks, benches or wall treatment, are provided along such sidewalk widening, as set forth below.

Where benches are provided as an alternative to such planting, the length of such benches shall not exceed, in the aggregate, 15 feet per every 50 feet of #street wall# frontage. Where bicycle racks are provided, such racks shall be oriented so that the bicycles are placed parallel to the #street wall#, and the width of such bicycle racks shall not exceed, in the aggregate, 10 feet per every 50 feet of #street wall# frontage. Such benches or bicycle racks shall be located entirely within the #zoning lot#, and each bench or bicycle rack so provided shall be equivalent to 15 square feet of planted area.

Where trees, and associated tree pits are provided as an alternative, the minimum depth of any open space between the #street wall# and #street line# shall be eight feet. Each tree provided shall be equivalent to 15 square feet of planted area.

Where a wall treatment is provided as an alternative, it shall be in the form of permitted #signs#, graphic or sculptural art, rustication, decorative screening or latticework, or living plant material along the #street wall#. Such wall treatment shall extend to a height of at least 10 feet, as measured from the level of the adjoining sidewalk or grade, and shall have a minimum width of 10 feet, as measured parallel to the #street wall#. Portions of a #street wall# providing such wall treatment may be exempt from the ground floor glazing requirements of paragraph (a) of Section 141-32, provided that the exempted area not exceed 50 percent of the #street wall#, or a #street wall# width of 20 feet, whichever is less. The portion of the #street wall# allocated to a wall treatment shall satisfy the planting requirement directly in front of such #street wall#.

Where planting is provided, the minimum depth of open space between the #street line# and the #street wall# shall not be less than three feet.

(d) In Subdistrict A

in Subdistrict A, where open space is provided between the #street wall# and the intersection of two #streets#, pursuant to paragraph (a)(2) of Section 141-22, streetscape amenities may be provided as an alternative to planting, provided that the area that would otherwise be allocated to planting, measured in square feet, is allocated to trees, benches, or tables and chairs, as set forth below. However, planting shall not be reduced to less than 20 percent of the area of the open space.

Each bench provided shall be equivalent to 10 square feet of planted area, and each set of tables and at least two chairs shall be equivalent to 15 square feet of planted area. Seating shall be publicly accessible, unless tables and chairs are associated with an open eating or drinking establishment on the #zoning lot#. The area under such seating shall be paved with permeable materials and shall either abut the adjoining sidewalk or be connected to such sidewalk by a circulation path at least five feet wide that is also paved with permeable materials.

Each tree and associated tree pits provided shall be equivalent to 15 square feet of planted area, and shall be located at least 10 feet from any #building wall# or the adjoining sidewalk.

Where planting is provided, the minimum depth of a planted bed shall not be less than three feet.

In no event shall chain link fencing or barbed or razor wire be permitted in any open space provided, pursuant to this Section.

IN THE MATTER OF an application, submitted by The New York City Department of City Planning and The New York City Department of Parks and Recreation, pursuant to Sections 197-c and 199 of the New York City Charter and Section 5-430 *et seq.* of the New York City Administrative Code for an amendment to the City Map involving:

- the elimination, discontinuance and closing of Corporal Irwin Fischer Place between Nelson Avenue and Shakespeare Avenue;
- the establishment of parkland in the area bounded by Nelson Avenue, West 170th Street, Shakespeare Avenue and West 169th Street;
- the adjustment of grades and block dimensions necessitated thereby;

including authorization for any acquisition or disposition of real property related thereto in accordance with Map No. 13140 dated August 8, 2017 and signed by the Borough President.

NOTICE

On Wednesday, November 29, 2017, at 10:00 A.M., in Spector Hall, at 22 Reade Street, in Lower Manhattan, a public hearing is being held by the City Planning Commission to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by the New York City Department of City Planning (DCP) for approval of several discretionary actions including zoning map amendments, zoning text amendments, and City map changes (collectively, the "Proposed Actions") to rezone an approximately 92-block area primarily along Jerome Avenue and its east west commercial corridors in Bronx Community Districts 4 and 5 and 7 (the "Rezoning Area"). The Proposed Actions would also establish the Special Jerome Avenue District coterminous with the Rezoning Area. The Rezoning Area is generally bounded by East 165th Street to the south and 184th Street to the north; and also includes portions of Edward L. Grant Highway, East 170th Street, Mount Eden Avenue, Tremont Avenue, Burnside Avenue and East 183rd Street. The proposed City map changes are located a block outside of the Rezoning Area in the Highbridge neighborhood of the Bronx, Community District 4.

The Proposed Actions include: rezoning portions of existing C4-4, M1-2, R8, C8-3, and R7-1 with R7A, R8A, R9A, R7D, and C4-4D districts and C2-4 commercial overlays; amendments to the text of the City's Zoning Resolution (ZR) to establish the Special Jerome Avenue District, coterminous with the Rezoning Area, which would include regulations that would add controls to the ground floors of buildings within mapped commercial overlays and districts, modify height and bulk regulations on lots fronting the elevated rail line, modify bulk regulations on irregular lots, and establish controls, such as discretionary review provisions, for transient hotels; establish the proposed R7A, R7D, R8A, R9A, and C4-4D districts as Mandatory Inclusionary Housing areas, applying the Mandatory Inclusionary Housing program to require a share of new housing to be permanently affordable where significant new housing capacity would be created; amendments to the City map to: map Block 2520, Lot 19, a City-Owned parcel, as parkland, and de-map Corporal Fischer Place (street) between Nelson Avenue and Shakespeare Avenue, which is adjacent to the parcel to be mapped as park land as described above (Block

2520, Lot 19), and map it as parkland.

Since the issuance of the Notice of Completion for the DEIS, the Department of City Planning (DCP) has proposed to modify the application (ULURP Nos. C 180051 (A) ZMX and N 180050 (A) ZRX), to extend the boundaries of the proposed rezoning area and proposed Special Jerome Avenue District to include additional blocks and lots, located west and south of Jerome Avenue, from R7-1 and M1-2 to R8A with a C2-4 commercial overlay and R7D with a C2-4 commercial overlay. The modified application would also include zoning text amendment provisions to: allow second story retail along Jerome Avenue as-of-right; allow the second story as an obstruction in a rear yard within 100' of Jerome Avenue; allow Physical Culture Establishments as of right within the Special Jerome Avenue District; and clarify street wall and ground floor regulations.

In order to assess the possible impacts of the proposed action, a reasonable worst-case development scenario (RWCDS) was established for both the current (Future No-Action) and proposed zoning (Future With-Action) conditions by the build year of 2026. The incremental difference between the Future No-Action and Future With-Action conditions serves as the basis for the impact analyses in the DEIS. In total, the Proposed Actions are expected to result in a net increase of approximately 3,250 dwelling units, 72,273 square feet of community facility space, 35,575 square feet of commercial/retail space; and a net decrease of 47,795 square feet of industrial space and 98,002 square feet of auto-related uses.

Written comments on the DEIS are requested and will be received and considered by the Office of the Deputy Mayor for Housing and Economic Development, the Lead Agency, until Monday, December 10, 2017, at 5:00 P.M.

This hearing is being held, pursuant to the State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR), CEQR No. 17DCP019X.

With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- Win More Contracts at nyc.gov/competetowin

"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS)
Department for the Aging (DFTA)

Department of Consumer Affairs (DCA)
 Department of Corrections (DOC)

As of August 1, 2017, the New York City Mayor's Office of Contract Services (MOCS) has launched the Procurement and Sourcing Solutions Portal (PASSPort), a new procurement system that will replace the paper – VENDEX process.

All organizations intending to do business with the City of New York should complete an online disclosure process to be considered for a contract. This disclosure process was formerly completed using Vendor Information Exchange System (VENDEX) paper-based forms. In anticipation of awards, bidders/proposers must create an account and enroll in PASSPort, and file all disclosure information. Paper submissions, including Certifications of No Changes to existing VENDEX packages, will not be accepted in lieu of complete online filings. You can access PASSPort from the following link: <http://www.nyc.gov/passport>.

Companies certified by the New York City Department of Small Business Services as Minority- or Women- Owned Business Enterprises ("M/WBE") are strongly encouraged to submit a bid. This procurement is subject to Minority-Owned and Women-Owned Business Enterprises (MWBE) participation goals as required by Local Law 1 of 2013. All respondents will be required to submit an M/WBE Participation Plan with their response.
