"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children's Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)
- Department of Probation (DOP)
- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)
- Human Resources Administration (HRA)

This disclosure process was formerly completed using Vendor Information Exchange System (VENDEX) paper-based forms. In anticipation of awards, bidders/proposers must create an account and enroll in PASSPort, and file all disclosure information. Paper submissions, including Certifications of No Changes to existing VENDEX packages will not be accepted in lieu of complete online filings. You can access PASSPort from the following link: <http://www.nyc.gov/passport>.

This procurement is subject to Minority-Owned and Women-Owned Business Enterprises (MWBE) participation goals as required by Local Law 1 of 2013. All respondents will be required to submit an M/WBE Participation Plan with their response. For the MWBE goals, please visit our website at <http://ddcbiddocuments.nyc.gov/inet/html/contrbid.asp> see "Bid Opportunities". For a list of companies certified by the NYC Department of Small Business Services, please visit www.nyc.gov/buycertified. AGENCY RULES

TRANSPORTATION

■ NOTICE

Notice of Adoption

NOTICE OF ADOPTION relating to allowing oversized trucks hauling sealed shipping containers to travel to or from New Jersey across the Goethals Bridge to or from the Howland Hook Global Container Terminal (GCT), in Staten Island on a legal route along the streets of New York City.

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED in the Commissioner of DOT by Sections 1043 and 2903 of the New York City Charter and in accordance with the requirements of Section 1043 of the New York City Charter, that the Department of Transportation hereby amends Section 4-15 of Chapter 4 of Title 34 of the Rules of the City of New York.

This rule was first published on November 3, 2017, and a public hearing was held on December 6, 2017.

Statement of Basis and Purpose of Rule

The use of sealed shipping containers for the transportation of goods has led to a global transformation of maritime shipping operations. The efficiency and security afforded by sealed shipping containers has remained an important factor in choice of seaports and the availability of container servicing facilities and jobs. Access to the port facilities is a major determinant of the sustainable growth and development of port regions and the roadway transportation systems leading to the ports must be adequate to accommodate the container loads.

Trucks hauling sealed shipping containers from New Jersey across the Goethals Bridge to the Howland Hook Global Container Terminal (GCT) in Staten Island, require a route that can safely accommodate this sealed shipping container cargo without adversely impacting roadways and neighborhoods that are not designed for this cargo. The Howland Hook GCT supports approximately 300 well-paid jobs, moves 150,000 containers each year, and is the City and State's largest international cargo gateway.

Due to roadway design and geometric constraints, existing New York City Department of Transportation (NYCDOT) regulations prohibit trucks weighing more than 80,000 pounds and trucks that are longer than 55 feet in total length from using portions of certain highways, except when they receive appropriate permit(s). The current regulations put the Howland Hook GCT and the greater New York City area at a disadvantage when competing against other seaports in the area for maritime-based jobs and economic activity even as investments in modern crane lifts and container handling equipment are being made, and channel dredging for improved access to the port is underway. This rule supports the growth of maritime cargo jobs in New York City.

This rule expands the transportation network through designated routes in Staten Island to permit trucks hauling sealed shipping containers to operate safely and legally on New York City streets. It provides a clearly defined, safe route for drivers to haul sealed containers to and from Howland Hook GCT, exclusively using specified highways and streets. Additionally, it permits trucks that are up to 73-1/2 feet in length that are carrying sealed shipping containers to weigh up to 90,000 pounds to utilize the specified route.

DOT's rules are not affected by these amendments with respect to the existing prohibition on trucks with overweight and oversized trailers from being operated on any non-designated highway or street in New York City, such as destinations off the designated routes in Staten Island. Moreover, loads transported across streets and structures not regulated by New York City may still require additional authorization.

The Department of Transportation's authority for these rules is found in Section 2903(a) of the New York City Charter and Sections 385 and 1642 of the New York State Vehicle & Traffic Law.

In response to comments received by DOT, the added Subparagraphs (ix) and (xv) of Paragraph 1 of Subdivision (j) have been revised to provide more particularity in describing the routes designated in such subparagraphs, i.e., "Western Avenue" and "Gulf Avenue", respectively. These changes are reflected in the adopted rules.

New material is underlined.
[Deleted material is in brackets.]

Section 1. Paragraph 10 of Subdivision (b) of Section 4-15 of Chapter 4 of Title 34 of the Rules of the City of New York is amended to read as follows:

(10) Weight on three axles. Axles shall be counted as provided in Paragraph (5) of this Subdivision (b). In no case, however, shall the total weight exceed 80,000 pounds, except for a combination of vehicles that are operating, pursuant to Subdivision (j)(3) of this section where the total weight shall not exceed 90,000 pounds, without any tolerance for enforcement purposes.

§ 2. Paragraph 1 of Subdivision (j) of Section 4-15 of Chapter 4 of Title 34 of the Rules of the City of New York is amended by adding new Subparagraphs (vii) through (xv) to read as follows:

(1) Any semitrailer with a length in excess of forty-eight feet, but not exceeding fifty-three feet, if the distance between the kingpin of the semitrailer and the centerline of the rear axle does not exceed forty-three feet and if the semitrailer is equipped with a rear-end protective device of substantial construction consisting of a continuous lateral beam extending to within four inches of the lateral extremities of the semitrailer and located not more than twenty-two inches from the surface as measured with the vehicle empty and on a level surface, may be operated on:

§ 3. Subdivision (j) of Section 4-15 of Chapter 4 of Title 34 of the Rules of the City of New York is amended by adding a new Paragraph 3 to read as follows:

(3) A combination of vehicles operating, pursuant to Subparagraphs (vii) through (xv) of Paragraph 1 of this subdivision must not exceed a total weight of 90,000 pounds, over or on any bridge or other structure when the total weight is over 80,000 pounds, and must be on a trip that involves only the pickup or drop off of sealed shipping containers used for the transfer of freight transported in ocean-going commerce, bearing the seal of the United States Customs and Border Protection, the seal of another governmental agency, or seal of the shipper.
