■ INTENT TO AWARD

Services (other than human services)

HIGH QUALITY RESTAURANT IN BATTERY PARK, MANHATTAN - Negotiated Acquisition - Judgment required in evaluating proposals - PIN# M5-F-R - Due 12-23-19 at 5:00 P.M.

In accordance with Section 1-14 of the Concession Rules of the City of New York ("Concession Rules"), the New York City Department of Parks and Recreation ("Parks"), intends, to enter into a negotiated concession, for a license agreement, for the renovation, operation and maintenance of a high quality restaurant, in Battery Park, Manhattan, which is located, at 10 Battery Place, New York, NY 10004.

The concession, will have a term, not to exceed five (5) years, commencing on or around January 8, 2020, and expiring on or around January 7, 2025, inclusive of any optional renewals exercisable, at Parks sole discretion. The concession, will be operated, pursuant to a license issued by Parks; no leasehold or other proprietary right will be offered. As compensation to the City, Parks anticipates receiving

approximately a minimum of \$400,000.00 in annual concession fees (exact amount to be determined during negotiations).

At this time, it is neither practicable nor advantageous, to award this concession by competitive sealed proposals or competitive sealed bids, due to the existence of a time-sensitive situation, where a concession must be awarded quickly, or significant revenues will be lost. The existing concession agreement expires on January 7, 2020. Without a negotiated short-term concession, the current concession, will expire, and the facility will remain vacant, since Parks does not have the capability, or the resources, to operate, maintain or secure the restaurant. Service to the public will be interrupted and significant revenue, to the City, will be lost in concession fees. An RFP for this concession was originally issued on August 21, 2018, with the intent of making an award prior to the expiration of the then existing concession agreement; however, Parks is unable to make an award, pursuant to that RFP, because Parks has recently become aware, that the New York City Economic Development Corporation's ("NYC EDC") Battery Coastal Resiliency Project ("the Project"), will impact the operation of the concession, as solicited under the RFP. Therefore, Parks, intends to begin the competitive process again, with the new information, as part of the solicitation process, once NYC EDC announces its final plan for the Project. Currently, there are no known timelines for the Project, or definitive plan, that will illustrate the full impact of the Project, at the concession. Once this information is known, Parks will be able to issue a new RFP that addresses the full scope and timeline of Project.

As part of the negotiated concession, the successful concessionaire, will be required, to make required capital improvements and operate the restaurant in accordance with any future potential impact the Project may have, at the concession, until the end of the negotiated term. This negotiated concession is meant to act as a short-term solution, to bridge the gap, until a new competitive RFP solicitation, evaluation, and award process have concluded, and to allow time for the finalization of the scope of the Project, before the start of any longer term concession.

Potential concessionaires that would like to express interest in the proposed concession and/or obtain additional information concerning the concession, may contact Andrew Coppola, Senior Project Manager for the Revenue Division, at (212) 360-3454, or via email, at Andrew. Coppola@parks.nyc.gov, by December 23, 2019. Parks will evaluate the proposals on the bases of operating experience, financial capability, planned operations, and fee offer.

Where applicable, Parks may condition the award of this concession, upon the successful completion of PASSPort (The Procurement and Sourcing Solutions Portal) Questionnaires and review of that information by the Department of Investigation. In addition, any person or entity, with at least a 10 percent ownership interest in the submitting vendor (including a parent company), may be required to complete PASSPort Questionnaires (Principal Questionnaire for any person and Vendor Questionnaire for any entity with at least a 10 percent ownership interest in the submitting vendor).

This concession has been determined not to be a major concession, as defined by Chapter 7 of the Rules of the City Planning Commission.

Please note that the concession award is subject to applicable provisions of Federal, State, and Local laws and executive orders requiring affirmative action and equal employment opportunity.

The New York City Comptroller is charged, with the audit of concession agreements in New York City. Any person or entity who believes that there has been unfairness, favoritism or impropriety in the proposal process, should inform the Comptroller, Office of Contract Administration, 1 Centre Street, New York, NY 10007, telephone number (212) 669-2323.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above. What laws govern the rulemaking process? DSNY must meet the requirements of Section 1043 of the City Charter when creating or changing rules. This notice is made according to the requirements of Section 1043 of the City Charter.

Statement of Basis and Purpose of Proposed Rule

Each year in New York City, more than 100,000 commercial establishments generate more than 3 million tons of refuse and recyclables. Approximately 90 private carters collect this waste from commercial establishments across the City.

The current system for collecting commercial waste from the City's businesses has been plagued by dangerous driving and insufficient attention to public safety, harmful environmental impacts, and poor customer service. Since 2010, private waste collection trucks have killed at least 28 people on New York City streets.

In some parts of the city, more than 50 carters service a single neighborhood, and an individual commercial block may see dozens of different private waste collection trucks on a given night. This has resulted in millions of excess truck miles driven every year that harm the City's air quality, increase greenhouse gas emissions, create noise pollution and negatively impact public health. Additionally, the industry has lacked strong customer service standards, and pricing has remained unclear and confusing to most customers, putting small businesses at a significant disadvantage.

In response to these documented problems in the commercial waste collection industry, the Department released a comprehensive plan for reforming the private carting industry in November 2018 ("the Plan"), available at http://www.nyc.gov/commercialwaste. The Plan proposed the establishment of commercial waste zones - a safe and efficient collection system to provide high quality, low cost service to New York City businesses while advancing the City's zero waste and sustainability goals. The Department developed this plan after years of extensive public outreach and engagement with a wide variety of stakeholders. On November 20, 2019, Local Law number 199 for the year 2019 was enacted, which authorizes the Department to create a commercial waste zones system.

Under Local Law 199, codified in Title 16-B of the New York City Administrative Code, the Sanitation Commissioner must divide the geographic area of New York City into at least 20 "commercial waste zones." This proposed rule describes the 20 zones designated by the Commissioner and provides a map. The zone map described here largely

reflects the zone map described in the Plan, with a few differences. While the Plan assumed that certain zones in Manhattan would have up to five carters operating, Local Law number 199 authorizes up to three carters per zone. Accordingly, the Department made some adjustments to reflect this change, taking into consideration the number of customers and the average tonnage of waste per contract and per zone. First, this proposed map divides lower Manhattan into two zones. It also consolidates three Brooklyn zones described in the Plan into two zones. Finally, this proposed map includes geographic areas of the City that are not assigned to community districts, such as Central Park, which were not included in the map described in the Plan. The following is a map of the zones described in this proposed rule. In this map, the numbers refer to either community districts or "Joint Interest Areas," or "JIAs" which denote geographic areas of the City identified by the Department of City Planning that are not assigned to community districts, as described on the Department of City Planning webpage: https://www1.nyc.gov/site/planning/community/jias-sources.page. The colors denote the different commercial waste zones, which are labeled with the zone names.

This is the first of several rules that the Department intends to propose to implement the program. Thereafter, the Department will use a competitive procurement process to select up to three private carters to service businesses within each commercial waste zone. The competitive solicitation process will also be used to select up to five carters to provide containerized commercial waste collection services citywide. This process will identify the carters that can provide high quality service at low prices. The resulting contracts will include standards for pricing, customer service, safety, environmental health, and requirements to promote the City's commitment to recycling and sustainability.

Commercial waste zones will apply to the collection of commercial refuse, recyclables, and source-separated organic waste. It will exclude specialized or intermittent waste streams, such as construction and demolition debris, medical waste, hazardous waste and other types of waste that will continue to be collected and managed under existing City and State regulations.

Under the new commercial waste zones system, instead of dozens of different carters operating in a City neighborhood on a given night, only a few carters will operate in each area. With fewer trucks on the streets and shorter routes, zoned collection will also mean improved traffic and air quality and less unsafe driving behavior and worker fatigue. Citywide, the adoption of the commercial waste zones system will dramatically reduce truck traffic associated with this industry by 50 percent. This system will improve the quality of life of all New Yorkers, serve the needs of the City's local businesses, and support the City's short and long-term goals for a cleaner, safer, and more sustainable city.

DSNY's authority to promulgate these rules is found in New York City Charter §§ 753 and 1043, and Administrative Code § 16-1001.

New material is underlined.

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this Department, unless otherwise specified or unless the context clearly indicates otherwise.

Section 1. Title 16 of the rules of the city of New York is amended by adding a new chapter 20 to read as follows:

CHAPTER 20: COMMERCIAL WASTE ZONES

§ 20-02 Commercial waste zones

DETERMINATION AND FINDINGS BY THE CITY OF NEW YORK PURSUANT TO SECTION 204 OF THE NEW YORK STATE EMINENT DOMAIN PROCEDURE LAW

Whereas, the New York City Department of Design and Construction ("DDC"), on behalf of the New York City Department of Transportation ("DOT") and the City of New York ("City"), has proposed the acquisition of certain street beds and other impacted properties on Osborn Street from Belmont Avenue to Dead End, as shown on Damage and Acquisition Map, dated 01/18/2019, in the Borough of Brooklyn; and

Whereas, the New York State Eminent Domain Procedure Law ("EDPL") sets forth uniform procedures for condemnations by municipalities throughout the State of New York, which also governs over this acquisition; and

Whereas, pursuant to the EDPL, the City is required to hold a public hearing to determine whether the public would be better served by the proposed acquisition of the above-mentioned properties and the impact of such an acquisition on the neighborhood where the project is to be constructed; and

Whereas, the City held a public hearing pursuant to EDPL Section 204 in relation to this acquisition on September 16, 2019, in the Borough of Brooklyn. Having given due consideration to the complete hearing record, the City makes the following determination and findings concerning the above and below described acquisition and project:

- The public use and benefit of this project is for the creation of a concrete plaza space for pedestrians on Osborn Street in the Borough of Brooklyn (the "Project").
- 2. The bed of streets listed below that are proposed to be acquired are within the acquisition limits shown on Damage and Acquisition Map, dated 1/18/2019, as follows:
 - Osborn Street from Belmont Avenue to Dead End

The adjacent Blocks and Lots affected include the following locations, as shown on the Tax Map of the City of New York for the Borough of Brooklyn:

ADJACENT BLOCK NO.	ADJACENT LOT NO.
3526	119, 215

The City selected these locations based on a need for the reconstruction of the roadbed on Osborn Street.

The general effect on the neighborhood will be to improve current living conditions.

An environmental assessment of the proposed property acquisition location was conducted in accordance with the requirements of the State Environmental Quality Review Act (SEQRA) and the New York City Environmental Quality Review process. New York City Department of Transportation, as lead agency, determined that the proposed project would have no potential significant impact on the environment, and published a Type II Determination (CEQR No. 19DOT015K) on February 27, 2019.

Comments and concerns raised by the interested parties at the public hearing have been reviewed by the City. No written submissions were received. Requests were made to involve the community in the design process, specifically, youth members of the Brownsville Community Justice Center, and the Merchants Association, as well as to provide an opportunity to re-install certain equipment in the plaza, specifically, a projector. Concerns were also raised regarding the potential loss of parking spaces.

The City has also reviewed all potential alternate locations and has determined that no other sites are feasible for the Project.

DETERMINATION

Based upon due consideration of the record and the foregoing findings, it is determined that the City of New York should exercise its power of eminent domain to acquire the above-described properties in order to promote and permit the purposes of the Project to be achieved.

NOTICE 1

Pursuant to EDPL Section 207, property owners have thirty (30) days from completion of the publication of this "Determination and Findings" to seek judicial review of this determination. This publication will be advertised in the City Record and New York Post newspapers.
