HOUSING PRESERVATION AND DEVELOPMENT

PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN that a Real Property A&D Public Hearing will be held on Wednesday, June 24, 2020, at 10:00 A.M. The Public Hearing will be held via Conference Call. Call-in #: 1-646-992-2010, Access Code: 717-876-299.

Pursuant to Section 124 of the Public Housing Law and Section 1802(6)(j) of the Charter, the Department of Housing Preservation and Development ("HPD") has proposed an amendment to the deed described below, pursuant to which the City of New York ("City") previously conveyed certain real property located in the Borough of the Bronx and known as:

BLOCK	LOT	ADDRESS
3143	234	2291 Webster Avenue

on the Tax Map of the City ("Premises") and, now known as the Twin Parks Terrace project in the Extremely Low & Low-Income Affordability (ELLA) Program.

In 1997, the City conveyed five lots, Bronx Block 3143, Lots 234, 236, 240, 206 and 167 to the New York City Housing Authority ("NYCHA"), for purposes of creating accessory parking for the existing NYCHA development Twin Parks West (Sites 1 and 2), pursuant to a deed dated June 9, 1997 ("Deed"). Subsequently, Lots 234, 236, and 240 were merged into new Lot 234. New Lot 234 is improved by a now inactive parking lot that has 37 parking spaces. NYCHA requests that HPD amend the Deed to remove the covenant that limits Lot 234 (f/k/a 234, 236, and 240) to accessory uses so that the site can be developed as a mixed-use new construction affordable housing project under HPD's Extremely Low and Low-Income Affordability (ELLA) Program (the "New Construction Project"). The New Construction Project will include demolition of the existing inactive parking lot and the construction of a building containing approximately 182 multifamily residential units (including one superintendent unit) with rents affordable to households with incomes up to 80% AMI, approximately 10,628 square feet of commercial space and approximately 1,809 square feet of community facility space.

At the construction loan closing of the New Construction Project, it is anticipated that NYCHA will ground lease Lot 234 to Twin Parks Terrace Housing Development Fund Corporation as legal owner and a beneficial owner controlled by Joy Construction Corporation and Settlement Housing Fund, Inc. (collectively, "Proposed Ground Lessee"). Proposed Ground Lessee will enter into a Regulatory Agreement setting forth the income and rent restrictions for the New Construction Project along with other requirements.

This submission is to request approval to modify the Deed to remove the covenant that limits Lot 234 (f/k/a 234, 236, and 240) to accessory uses so that the site can be developed as a mixed-use new construction affordable housing project under HPD's Extremely Low and Low-Income Affordability (ELLA) Program.

The Amended Deed is available for public examination by contacting HPD, at pearsona@hpd.nyc.gov, on business days during business hours.

In order to access the Public Hearing and testify, please call 1-646-992-2010, Access Code: 717-876-299 no later than 9:55 A.M. If you need further accommodations, please let us know at least five business days in advance of the Public Hearing via email, at DisabilityAffairs@mocs.nyc.gov.

"Compete To Win" More Contracts!

Thanks to a new City initiative - "Compete To Win" - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and Women-Owned Businesses to compete, connect and grow their business with the City. - Win More Contracts, at nyc.gov/competetowin

"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed, at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children's Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)
- Department of Probation (DOP)
- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)

FIRE DEPARTMENT

■ NOTICE

Notice of Adoption of
New Fire Department Rule
3 RCNY 310-03, entitled
"Non-Tobacco Hookah Establishments"

NOTICE IS HEREBY GIVEN PURSUANT TO THE AUTHORITY VESTED IN THE Fire Commissioner of the City of New York pursuant to Sections FC102.6.3 and FC310.7 of the New York City Fire Code (Title 29 of Administrative Code of the City of New York), and in accordance with the requirements of Section 1043 of the New York City Charter, that the New York City Fire Department has adopted the above final rule.

The public hearing was held on February 6, 2020. The rule shall take effect on July 1, 2020.

The Notice of Adoption, final rule and the Statement of Basis and Purpose of Final Rule, will be available on the Fire Department's website (www.nyc.gov/fdny) and NYC RULES (www.nyc.gov/NYCRULES).

Statement of Basis and Purpose of Final Rule

The Fire Department adopts this rule to implement certain provisions of Local Law No. 187 of 2017.

The local law regulates hookah establishments, businesses that provide water pipes (hookah), heated by charcoals and containing non-tobacco products, for on-premises smoking. One goal of the law is to minimize the risk that hookah pipes and charcoals may contribute to the creation of fire hazards.

The local law amended the Fire Code to allow smoking on the premises of these businesses, and requires that such businesses obtain permits from the Fire Department and the Department of Health and Mental Hygiene (DOHMH). The local law also enacted Fire Code Section 310.7, which established, or authorized the Fire Department to establish, fire safety requirements for the storage of charcoal; the preparation, handling, use and disposal of lighted charcoal; and the handling and use of smoking paraphernalia. The local law also requires that persons holding Fire Department Certificates of Fitness supervise such activities, and mandates provision of portable fire extinguishers and flameproofing of decorations.

This rule implements the requirements of Local Law 187 and prescribes fire safety measures for the use of combustibles in non-tobacco hookah establishments by:

- specifying the types of ovens or other heating devices that may be used to heat the charcoal and maintain lighted coals, and related ventilation to exhaust the heat and gases generated by the lighted coals;
- detailing the manner for safe storage of charcoal, and providing several options for indoor and outdoor storage;
- requiring noncombustible surfaces in the charcoal preparation area and in the smoking area;
- prescribing the manner for safe handling of lighted charcoal and the disposal of spent charcoal and other combustible waste;
- prohibiting flammable and combustible liquids in the preparation of lighted charcoal, either as a fuel or an accelerant; and
- requiring the installation of carbon monoxide alarms.

The rule requires non-tobacco hookah establishments to have on-premises staff obtain a Certificate of Fitness by January 1, 2021, and comply with other operational and maintenance requirements by October 1, 2020. Such establishments are required to comply with the design and installation requirements of the rule (including any necessary improvements to the oven and ductwork) and to obtain a Fire Department permit by October 1, 2021.

Public Comments and the Fire Department's Response

In addition to the usual methods of notifying the public of the rule, the Fire Department made targeted efforts to solicit comment from non-tobacco hookah establishments operating with a permit issued by DOHMH. First, the Fire Department sent a letter by first class mail to each permitted establishment, notifying it of the hearing date and providing information about where to view the rule and how to provide comment. Second, the Fire Department emailed the same information to establishments that had provided their email address to DOHMH. At least one individual who offered public comment acknowledged receipt of both forms of correspondence.

The Fire Department received no written comments. Approximately 15 people attended the hearing, including hookah establishment owners

and patrons. The Fire Department responds to their public comments as follows:

Design and Installation Requirements

- Comment: Why can't the same stove be used to heat charcoal and prepare food?

Response: The New York City Mechanical Code (MC) regulates the design and installation of exhaust systems. MC506.3.5 requires that a separate exhaust system serve a solid fuel burning appliance. Exhaust systems serving solid fuel equipment is designed slightly differently and requires more stringent maintenance. For example, different types of filters (with spark arrestors) are used in the exhaust system for solid fuel-fired appliances. Such filters are not compatible with the exhaust systems used for commercial cooking equipment producing grease.

- Comment: Is a sprinkler required for outdoor storage of solid fuel?

Response: No.

- Comment: Requiring installation of a sprinkler system is burdensome on businesses, particularly those who lease the space they occupy, and the threat posed by lighted charcoal is so minor that a sprinkler system should not be required. It would be cheaper to require fire extinguishers instead.

Response: This rule does not establish sprinkler system requirements but merely references existing New York City Building Code and Fire Code requirements. The rule implements Local Law 187, which requires that the storage of charcoal in hookah establishments be treated in the same way as the storage of wood in restaurants. Existing code requirements require a sprinkler head in solid fuel storage rooms.

As the Fire Department noted at the public hearing, it may be possible to install in the solid fuel storage room a single sprinkler head connected to the domestic water supply, rather than a sprinkler system with a dedicated water supply. A licensed plumber can determine whether this type of installation is allowed at a particular premises and can perform the work.

The rule further offers the practical, low-cost alternative of outdoor storage of charcoal, which eliminates the need for a sprinkler system.

- Comment: Is my new ventilation system with a special filter adequate? What are the ventilation requirements?

Response: Ventilation requirements for all kinds of buildings and businesses are addressed in the New York City Mechanical Code, which is administered by the Department of Buildings (DOB). However, the rule offers the practical, low-cost alternative of using an existing room ventilation system if a small amount of charcoal is prepared indoors with an electric device and a registered design professional or other qualified professional determines such ventilation is adequate to exhaust the heat and gases from lighted coals to the outdoors.

- Comment: Does my existing oven and/or ventilation system comply with the rule?

Response: This question cannot be answered as part of this rulemaking. Business owners should consult a qualified professional and be prepared to present DOB documentation and/or documentation from the qualified professional attesting to the lawful installation of the system and its adequacy for purposes of exhausting the heat and gases from hookah charcoal preparation. The Fire Department will review such documentation when it inspects the premises for the purpose of granting a Fire Department permit.

- Comment: Are there specific requirements for furniture?

Response: Requirements for surfaces and decorations in the smoking area are set forth in Section 310-03(d)(2) of the rule.

- Comment: The rule imposes significant financial burdens (including engineers, ventilation, and special rooms for storage of charcoal) upon hookah establishments. Establishments are already required to get a Health Department permit and comply with other new restrictions.

Response: The requirements to which objection is made are set forth in Local Law 187, which this rule implements. As noted above, the Fire Department endeavored in its rule to provide practical, low-cost alternatives to facilitate compliance with the requirements of the local law.

- Comment: Other countries, such as Morocco, have figured out how to operate hookah establishments and we should follow

their lead rather than try to ban hookah lounges in New York City or prevent new ones from opening.

Response: This objection is directed to the legislative policies enacted by the local law, which are beyond the scope of this rule.

Certificate of Fitness Requirements

- Comment: It is onerous to require a Certificate of Fitness holder at all times on the premises.

Response: This requirement is set forth in Local Law 187, which this rule implements. The Certificate of Fitness requirement is designed to protect the public by ensuring that the business is being operated and maintained in accordance with the applicable code requirements. Requiring a Certificate of Fitness holder to be present on the premises is consistent with how the Fire Code regulates other businesses that present fire safety concerns.

- Comment: How many people at the premises are required to have a Certificate of Fitness?

Response: Only one Certificate of Fitness holder needs to be present at the premises, but such an individual must be present at all times when there are lighted charcoals at the premises.

- Comment: The Certificate of Fitness requirement is burdensome and expensive because there is very high turnover of staff at hookah establishments. There should be ways to minimize the burden on business owners, such as offering group classes at the business establishment.

Response: Obtaining a Fire Department Certificate of Fitness is neither time-consuming nor prohibitively expensive. Free study materials will be posted on the Fire Department's website. The required test, which is computerized, is offered Monday through Friday at Fire Department headquarters without an appointment. Upon passing the exam, the certificate can be obtained on the same day as testing. The cost is \$25.

Special arrangements can be made to provide testing for large groups. Appointments can be scheduled online at <https://www1.nyc.gov/site/fdny/business/all-certifications/cof-online-scheduler.page>.

- Comment: Will DOHMH-permitted establishments be notified when the test materials become available?

Response: The Fire Department anticipates distributing the Certificate of Fitness information, when it becomes available, to DOHMH-permitted hookah establishments for which the Fire Department has an email address. The information will also be posted on the Fire Department website.

Other Requirements

- Most hookah lounges use coconut charcoal, which takes longer to ignite than the easy light variety (five minutes as opposed to one). The easy light is "bad."

Response: The Fire Department has determined to refrain at this time from regulating the type of charcoal used in the hookah, which is central to the business operations of hookah establishments.

- Comment: How do I obtain a Fire Department permit?

Response: Section 310-03(c)(3) of the rule specifies what information must be provided to the Department in order to obtain a permit. Information about when and how to provide this information to the Department will be posted on the Fire Department website following publication of this final rule. Hookah establishments will be inspected by the Fire Department before a permit is issued.

- Comment: When will my business have to start complying with this rule?

Response: Section 310-03(c)(2) specifies the compliance timeframes.

The entire rule is underlined to indicate that it is a new rule.

Guidance with respect to the interpretation of the Fire Code and Fire Department rules may be obtained using the Public Inquiry Form on the Fire Department's website, <http://www1.nyc.gov/site/fdny/about/resources/code-and-rules/nyc-fire-code.page>.

(1) **Preparation of lighted coals.** Use of electrically-heated elements designed for use in hookah and other smoking paraphernalia, instead of *lighted coals*, is encouraged but not required. *Lighted coals*, if used, shall be prepared and maintained in one or more of the following manners:

(A) **Indoor electric device.** In one or more *listed* or *approved* electric devices designed to heat *hookah coal* and/or maintain the *lighted coals*, subject to the following requirements:

(1) Such devices are operated in a room or other indoor area in which a ventilation system has been installed that does not recirculate air and is capable of adequately exhausting to the outdoors the heat and gases generated by *lighted coals*, or under a suitable exhaust hood. The adequacy of such ventilation system shall be determined by a design professional or other qualified professional.

(2) If the total electrical current required to operate the device(s) exceeds 12 amperes, a master electrician licensed by the *Department of Buildings* has certified that the electrical wiring in the building or occupancy is sufficient to safely operate the device, or, if more than one device, sufficient to safely operate them simultaneously.

All wall surfaces are protected by ceramic tile or other noncombustible surface capable of withstanding the heat generated by the preparation and maintenance of *lighted coals*.

(5) Such oven is installed on a noncombustible base on ceramic tiles or other non-combustible floor surface.

(6) A durable sign conspicuously posted on a wall near such oven reads: "Oven installation approved for *hookah coal* use only. Not safe for wood burning or room heating."

(7) Either the installation of such oven has been approved by the *Department of Buildings*, or an application for approval thereof by the *Department of Buildings* has been filed.

(2) **Smoking area**

(A) **Smoking paraphernalia.** Use of hookah designed to hold the *lighted coals* in a metal container that can be securely closed is encouraged but not required. Hookah and other smoking paraphernalia used with *lighted coals* shall be designed for such use and used in accordance with manufacturer's instructions, subject to the following requirements:

- (1) No combustible material other than *hookah coal* shall be used in a hookah without prior *Department* approval.
- (2) Hookah and other smoking paraphernalia shall not be used and shall be removed from the premises when, by reason of wear or damage, it is unstable or otherwise likely to cause the *lighted coals* to be dislodged.

(B) **Surfaces.** Floors, tables or other surfaces upon which hookah or other smoking paraphernalia are placed shall be noncombustible or fully protected by a noncombustible mat.

(C) **Decorations.** Drapes and other decorations in *non-tobacco hookah establishments* shall be flame-resistant in accordance with FC805 and R80501.

(1) keeping the doors or lids to a solid fuel storage room, cabinet or container closed, except when the *hookah coal* is being removed or replenished;

(2) posting a durable sign or marking that reads: "SOLID FUEL – KEEP FIRE AWAY" at the entrance to a solid fuel storage room or other room in which *hookah coal* is stored in a metal cabinet or container in accordance with R31003(e)(2)(A), or if not in such a room, on the cabinet or container itself; and

(3) storing *hookah coal* in its original packaging, or in noncombustible containers with securely-closing lids and an internal vertical dimension of not more than 48 inches (1219 mm).

(3) **Preparation of lighted coals.** A maximum of 2.2 (two and two tenths) pounds of *lighted coals*, including *lighted coals* being maintained in an oven, may be prepared and maintained on the premises at any one time. The preparation and maintenance of *lighted coals* shall comply with R310-03(d)(1) and the following requirements:

(A) All flammable and combustible materials, except *hookah coal* for immediate use subject to the requirements of R31003(e)(1), shall be kept at least (5) feet away from *lighted coals* and the oven or other device in which the *lighted coals* are being heated.

(B) Use of any flammable gas or flammable or combustible liquid to light *hookah coals* (other than a lawful piped natural gas installation or an LPG-fueled torch for culinary or household use with a capacity of not more than 16.4 ounces), as a fuel or an accelerant, is prohibited.

Collected spent or discarded lighted coals, and any ashes, cinders and other fire debris, shall be promptly and thoroughly wetted down to extinguish and cool the coals. The collected spent and discarded hookah coal shall be removed from the premises and temporarily stored outdoors for disposal before the nontobacco hookah establishment closes to the public and whenever the certificate of fitness holder is not present on the premises.

These changes were not included in the Department’s legislative agenda because they were not contemplated at that time.

Statement of Basis and Purpose of Proposed Rule

Introduction

In 1998, New York State enacted a law that allowed cities having a population of one million or more to issue specialized vending licenses to honorably discharged members of the armed forces of the United States who were physically disabled as a result of injuries received while in service of the armed forces. Such specialized vending licenses authorized holders to hawk or peddle within the city issuing the license in accordance with the provisions of New York General Business Law section 35-a.

In 2013, the City of New York adopted section 6-13 of the Rules of the City of New York. Section 6-13 provides the requirements for disabled veterans with specialized vending licenses to obtain disabled veterans mobile food unit vending permits. These permits allow the operation of mobile food vending units on sidewalks surrounding parks under the jurisdiction of the New York City Department of Parks and Recreation.

Proposed Amendments

The proposed amendment seeks to remove subdivision (ii) of section 6-13, which requires any applicant for a disabled veterans mobile food unit vending permit to hold a currently valid general vendor license from DCA. This subdivision is being removed to conform the permit requirements applicable to disabled veterans to such requirements applicable to food vendors generally, which are not required to hold a general vendor license to sell food from a mobile unit.

Statutory Authority

The Department’s authority to adopt this proposed amendment is found in section 1043 of the Charter and section 17-325.3 of the Administrative Code.

* * *

The proposal is as follows. Deleted material appears in [brackets]. New material is underlined. The terms “shall” and “must” appear interchangeably and are mandatory.

Section 1. Section 6-13 of Chapter 6 of Title 24 of the Rules of the City of New York is amended to read as follows:

§ 6-13. Disabled veterans mobile food unit vending permits.

Disabled veterans who hold currently valid [(i)] specialized vendor licenses issued pursuant to General Business Law § 35-a, [(ii) general vendor licenses issued by the Department of Consumer Affairs] and [(iii)] mobile food vending licenses issued by the Commissioner[,] may apply for and be issued permits to operate mobile food vending units on sidewalks surrounding parks within the jurisdiction of the New York City Department of Parks and Recreation, or successor City agency, in accordance with the following conditions:

- (a) An applicant for such a restricted area permit may not hold any other currently valid mobile food vending permit, and only one such permit may be issued to any applicant.
- (b) In accordance with General Business Law § 35-a, such permit authorizes vending only on sidewalks surrounding park lands.
- (c) Operation of the mobile vending unit is subject to all provisions of General Business Law § 35-a.
- (d) During all times that a mobile food vending unit issued a permit under this section is in operation, as the term “operation” is defined in Health Code § 89.03 (j) or successor provision, a disabled veteran shall be present, but may be

assisted by an employee who is a licensed mobile food vendor. Department inspection reports which note the absence of a disabled veteran licensee are deemed proof that a disabled veteran is not operating the unit, in violation of General Business Law § 35-a.
