Resilient Neighborhoods: Gerritsen Beach (210130 ZMK, 210131 ZRK)

Applications by the New York City Department of City Planning (DCP), for zoning map and text amendments to ensure flood resiliency of future development in the Brooklyn Community District 15 (CD 15) neighborhood of Gerritsen Beach. Such actions would change the zoning on approximately 20 blocks from R4, C3, and C1-2/C2-2 commercial overlays to R4-1, C3A, and C2-3 commercial overlays, and establish a new Special Coastal Risk District (SCRD) in Gerritsen Beach.

69 Adams Street (200356 PPK)

An application submitted by the New York City Department of Citywide Administrative Services (DCAS), on behalf of the New York City Economic Development Corporation (EDC), pursuant to Section 197-c of the New York City Charter, for the disposition of approximately 98,500 square feet (sq. ft.) of development rights from a

New York City Department of Transportation (DOT) site, located between Front and York Streets, under the Manhattan Bridge approach. Such action would facilitate the merger of two City-owned zoning lots with the adjacent privately-owned lot at 69 Adams Street. The requested disposition would result in approximately six floors of commercial office space within a 25-story, as-of-right, mixed-use development in Brooklyn Community District 2 (CD 2). This application also seeks a permanent easement to ensure light and air for residential uses above a certain limiting plane on the DOT site.

737 Fourth Avenue Rezoning (200029 ZMK, 200030 ZRK)

Applications submitted by 737 Fourth Avenue LLC, pursuant to Sections 197-c and 201 of the New York City Charter, for a zoning map amendment to change the eastern side of Fourth Avenue between 24th and 25th streets from M1-1D to R8A/C2-4, a zoning map amendment to extend the existing Special Enhanced Commercial District (EC-1) to this block of Fourth Avenue, and a zoning text amendment to designate the rezoning area an MIH area. These actions are requested to facilitate a 14-story, mixed-use development with 142 dwelling units and ground-floor retail, in Brooklyn Community District 7 (CD 7). Approximately 35 units would be affordable to households at 60 percent of Area Median Income (AMI), pursuant to MIH Option 1. The building would also provide approximately 45 below-grade accessory off-street parking spaces.

HOUSING PRESERVATION AND DEVELOPMENT

PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN that a Real Property A&D Public Hearing will be held on Tuesday, December 22, 2020, at 10:00 A.M. The Public Hearing will be held via Conference Call. Call-in #: 1-646-992-2010, Access Code: 173-508-3809 at 10:00 A.M., or as soon thereafter as the matter may be reached on the calendar, at which time and place those wishing to be heard will be given an opportunity to be heard concerning the proposed disposition of the real property identified below.

Pursuant to Section 695(2)(b) of the General Municipal Law and Section 1802(6)(j) of the Charter, the Department of Housing Preservation and Development ("HPD") of the City of New York ("City") has proposed the sale of the following City-owned property (collectively, "Disposition Area") in the Borough of Brooklyn:

Addresses	Blocks/Lots
633-639 DeKalb Avenue	1774/74, 75, 76, and 77
648-654 DeKalb Avenue	1779 / 22,24 and 26
1187 Fulton Street	2000/ 43

Under HPD's Extremely Low and Low Income Affordability Program, sponsors purchase City-Owned or privately owned land or vacant buildings and construct multifamily buildings in order to create affordable rental housing. Construction and permanent financing is provided through loans from private institutional lenders and from public sources including HPD, the New York City Housing Development Corporation, the State of New York, and the federal government. Additional funding may also be provided from the syndication of low-income housing tax credits. The newly constructed buildings provide rental housing to low-income families with a range of incomes from 30% to 80% of the Area Median Income ("AMI").

Projects may include tiers of units with rents affordable to households earning up to 100% of AMI. Subject to project underwriting, up to 30% of the units may be rented to formerly homeless families and individuals.

Under the proposed project, the City will sell the Disposition Area to DeKalb Commons NY Housing Development Fund Corporation ("Sponsor") for the nominal price of one dollar per tax lot. The Sponsor will also deliver an enforcement note and mortgage for the remainder of the appraised value ("Land Debt"). The Sponsor will then construct 3 buildings containing a total of approximately 84 rental dwelling units, plus one unit for a superintendent and approximately 2,512 square feet of commercial space on the Disposition Area.

The Land Debt or the City's capital subsidy may be repayable out of resale or refinancing profits for a period of at least thirty (30) years following completion of construction. The remaining balance, if any, may be forgiven at the end of the term.

The appraisal and the proposed Land Disposition Agreement and Project Summary are available for public examination by contacting HPD, at careym@hpd.nyc.gov, on business days during business hours.

The hearing location is accessible to individuals using wheelchairs or other mobility devices. For further information on accessibility or to make a request for accommodation, such as sign language interpretation services, please contact the Mayor's Office Of Contract Services ("MOCS") via e-mail, at disabilityaffairs@mocs.nyc.gov, or via phone at (212) 788-0010. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- Win More Contracts, at nyc.gov/competetowin

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed, at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)
- Department of Probation (DOP)
- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)

PREQUALIFIED VENDOR LIST: GENERAL CONSTRUCTION, NON-COMPLEX GENERAL CONSTRUCTION SITE WORK ASSOCIATED WITH NEW YORK CITY DEPARTMENT OF PARKS AND RECREATION ("DPR") AND/OR "PARKS") PARKS AND PLAYGROUNDS CONSTRUCTION AND RECONSTRUCTION PROJECTS.

NYC DPR is seeking to evaluate and pre-qualify a list of general contractors (a "PQL") exclusively to conduct non-complex general construction site work involving the construction and reconstruction of NYC DPR parks and playgrounds projects not exceeding \$3 million per contract ("General Construction").

By establishing contractor's qualification and experience in advance, NYC DPR will have a pool of competent contractors from which it can draw to promptly and effectively reconstruct and construct its parks, playgrounds, beaches, gardens and green-streets. NYC DPR will select contractors from the General Construction PQL for non-complex general construction site work of up to \$3,000,000.00 per contract, through the use of a Competitive Sealed Bid solicited from the PQL generated from this RFQ.

The vendors selected for inclusion in the General Construction PQL, will be invited to participate in the NYC Construction Mentorship. NYC Construction Mentorship focuses on increasing the use of small NYC contracts, and winning larger contracts with larger values. Firms participating in NYC Construction Mentorship will have the opportunity to take management classes and receive on-the-job training provided by a construction management firm.

NYC DPR will only consider applications for this General Construction PQL from contractors who meet any one of the following criteria:

- 1) The submitting entity must be a Certified Minority/Woman Business enterprise (M/WBE)*;
- 2) The submitting entity must be a registered joint venture or have a valid legal agreement as a joint venture, with at least one of the entities in the joint venture being a certified M/WBE*;
- 3) The submitting entity must indicate a commitment to sub-contract no less than 50 percent of any awarded job to a certified M/WBE for every work order awarded.

* Firms that are in the process of becoming a New York City-Certified M/WBE, may submit a PQL application and submit a M/WBE Acknowledgement Letter, which states the Department of Small Business Services has begun the Certification process.

Application documents may also be obtained online at: <http://a856-internet.nyc.gov/nycvendoronline/home.asap.>; or <http://www.nycgovparks.org/opportunities/business>.

Statement of Basis and Purpose of Proposed Rules

The proposed amendments to Chapter 11 of Title 28 of the Rules of the City of New York revise and clarify certain rules promulgated under the New York City Childhood Lead Poisoning Prevention Act of 2003 (Lead Law). The amendments clarify that all of the provisions of the Lead Law will also apply to private dwellings where there is a tenant in occupancy, pursuant to Local Law 29 of 2020. The proposed amendments add criteria implementing Local Law 28 of 2020 regarding violations of the requirements for turnover of dwelling units, and additionally make technical amendments to the rules.

Beginning on January 1, 2020, the term “resides” means that a child under six routinely spends 10 or more hours per week in the dwelling unit. If such a child resides or will reside in the unit, the owner of the building is required to perform an annual visual inspection of the unit to determine the presence of lead-based paint hazards. IT IS IMPORTANT THAT YOU RETURN THIS FORM TO THE OWNER OR MANAGING AGENT OF YOUR BUILDING TO PROTECT THE HEALTH OF YOUR CHILD. If you do not respond to this notice, the owner is required to attempt to inspect your apartment to determine if a child under six years of age resides there.

If a child under six years of age does not reside in the unit now, but does come to reside in it at any time during the year, you must inform the owner in writing immediately. If a child under six years of age resides in the unit you should also inform the owner immediately if you notice any peeling paint or deteriorated surfaces in the unit during the year. You may request that the owner provide you with a copy of any records required to be kept as a result of a visual inspection of your unit.

ULURP Nos. Pending
SEQRA Classification: Type I

New York, NY 10271

Name, Description and Location of Proposal:

Project Commodore – Grand Hyatt

The Applicant, Commodore Owner LLC, is seeking several discretionary approvals from the City Planning Commission (CPC)—including special permits and zoning text amendments (the “Proposed Actions”)—to facilitate a mixed-use development containing approximately 2,108,820 gross square feet (gsf) of office space; an approximately 452,950-gsf, 500-room hotel; an approximately 16,000-sf publicly accessible space; and approximately 43,370 gsf of retail on the cellar, ground, and second floors of the proposed building (the “Proposed Project”). The Proposed Project would also include significant public realm improvements, as well as subway and mass transit improvements to enhance circulation and reduce congestion, at Grand Central Terminal (the “Terminal” or “Grand Central”) and the Grand Central – 42nd Street subway station.

Specifically, the application requests:

- A CPC special permit pursuant to ZR Section 81-621 to allow hotel use;
- A CPC special permit pursuant to ZR Section 81-644 for transit improvements;
- A CPC special permit pursuant to ZR Section 81-645 for public concourse improvements;
- A CPC special permit pursuant to ZR Section 81-685 to modify qualifying site, floor area, height and setback, street wall, district plan elements, and publicly accessible space regulations;
- Zoning text amendments to amend existing special permits in ZR Sections 81-644 and 81-685, and update a section reference in ZR Section 81-613;
- A CPC authorization pursuant to ZR Section 36-72 to reduce the number of required bicycle parking spaces; and
- Disposition of City-owned property;
- A joint certification from the CPC Chairperson and the MTA pursuant to ZR Section 81-673(a) as to the size and location of transit easement volumes on the zoning lot;
- A joint certification from the CPC Chairperson and the MTA pursuant to ZR Section 81-673(b) as to whether a transit easement volume is required on the zoning lot.

The Project Area includes Block 1280, Lots 1, 30, 54, and 154, and consists of 203,872 square feet (sf). Specifically, the Project Area consists of Lot 30 (Development Site). The 57,292-sf Development Site contains a 26-story, approximately 1,028,120 sf hotel. Lots 1, 54, and 154 are on an existing merged zoning lot and contain approximately 322,664 sf of floor area comprising the Beaux-Arts-style Grand Central Terminal and Grand Central Market.

Absent the Proposed Project, the Development Site would be developed with a 27 FAR development of approximately 1,849,470 gsf (1,546,884 zsf), comprised of 1,687,020 gsf of office space (1,543,602 zsf), 3,500 gsf (3,282 zsf) of retail, and a 5,750 sf enclosed publicly accessible space on the ground floor. In addition, 7,800 gsf of MTA circulation space and 14,800 gsf of MTA retail would be provided on the ground floor. The No-Action development would be 69 stories and 1,104 feet tall. In the No-Action condition, the Applicant would provide transit improvements from among the Priority Transit List Improvements set forth in ZR Section 81-682 to improve circulation and reduce congestion. Specifically, at Grand Central/42nd Street station, the Applicant would renovate to contemporary standards the south end of the Grand Central Lexington Subway mezzanine from the Shuttle Passageway and 125 Park Avenue entrances to join the renovated areas on the north end of the mezzanine (generating 120,000 sf of floor area). At the 5th Avenue-Bryant Park station, the Applicant would provide a new street entrance from the north side of West 42nd Street (generating 40,000 sf of floor area).

For purposes of analysis, the Proposed Project represents the future With-Action condition. The analysis year for the Proposed Action is 2030.

Statement of Significant Effect:

On behalf of the City Planning Commission (CPC), the Department of City Planning has determined, pursuant to 6 NYCRR Part 617.7, that the Proposed Actions may have a significant adverse effect on the environment as detailed in the following areas, and that an environmental impact statement will be required:

The Proposed Actions may result in significant adverse impacts related to: land use, zoning, and public policy; open space; shadows; historic and cultural resources; urban design and visual resources; hazardous materials; water and sewer infrastructure; transportation; air quality; greenhouse gas emissions and climate change; noise; public health; neighborhood character; and construction.

The Proposed Actions would not result in significant adverse

impacts related to socioeconomic conditions; community facilities; natural resources; solid waste and sanitation services; and energy.

Supporting Statement:

The above determination is based on an Environmental Assessment Statement prepared for the Proposed Actions which finds that:

1. The Proposed Actions would affect the land use, zoning, and public policies within the Project Site and immediate surrounding area. The Proposed Actions include minor modification of a large-scale residential development special permit that would affect regulations and policies governing land use within the Project Area. The Proposed Actions have the potential to result in significant adverse impacts related to land use, zoning, and public policy.
2. The Proposed Actions would result in a smaller hotel with 800 fewer rooms than the hotel that currently exists on the Development Site. The Proposed Project includes office space, retail, and enclosed publicly accessible space. Because the existing building on the Development Site contains a hotel and event space, analysis of direct residential displacement is not warranted. Given that there is no residential development in the With-Action condition, an analysis of indirect residential displacement is also not warranted. The Proposed Actions are expected to introduce a maximum increment of approximately 926,570 gsf of commercial office and hotel uses compared to the No-Action condition and would result in a minor reduction of local retail uses as compared to No-Action conditions. Projects resulting in less than 200,000 sf of regional-serving retail in the study area, or less than 200,000 sf of locally-serving or regional-serving retail on a single development site would not typically result in socioeconomic impacts, according to the guidance established in the *CEQR Technical Manual*. As the Proposed Actions and associated Proposed Development would not exceed the CEQR threshold, the Proposed Actions are not expected to result in significant adverse impacts attributable to indirect business displacement due to saturation, and no further analysis is warranted in the EIS.
3. The Proposed Project would not physically alter or displace any community facilities, nor would it result in a new residential population that would create new demands for community facilities, such as public schools, childcare centers, libraries, health care facilities, and police/fire services. Lastly, the Proposed Actions would not introduce a sizable new neighborhood as it is located in a well-established neighborhood; as such, an assessment of health care facilities and fire and police services would not be warranted. Therefore, the Proposed Actions have no potential to result in significant adverse impacts to community facilities and no further analysis is warranted.
4. The Proposed Action would not directly affect any open space. As residential uses are not currently found at the Development Site and would not be included in the project in the future with the Proposed Actions, the project would not introduce more than 200 residents to the project area. In terms of the non-residential population, the Proposed Actions would result in an increase of more than 500 workers to the study area, which is defined by the *CEQR Technical Manual* as the threshold for open space analysis. Therefore, the proposed project has the potential for a significant adverse impact to open space.
5. The Proposed Project would result in a structure greater than 50 feet in height (approximately 1,646 feet) and therefore a shadow analysis is warranted. Therefore, the Proposed Project would have the potential to result in significant adverse environmental impacts related to shadows.
6. The Development Site contains the existing 1,028,194 gsf Hyatt hotel. The area below the hotel has previously been disturbed and contains an extensive network of MTA circulation areas. Therefore, as no new in-ground disturbance is anticipated as a consequence of the Proposed Actions, the Proposed Project does not have the potential to result in archeological impacts as defined by the *CEQR Technical Manual*. According to the *CEQR Technical Manual*, a historic and cultural resources impact could occur if there is the potential to affect either archeological or architectural resources. The Proposed Actions would result in demolition of the existing Grand Hyatt Hotel building and new construction on the Development Site. The architectural components of this new building will also differ from the existing building. Additionally, the Proposed Actions have the potential to result in a change in scale, visual prominence, or visual context of architectural resources in the Project Area. Therefore, the Proposed Project has the potential to result in significant adverse impacts to historic and cultural resources.
7. The Proposed Action would introduce new building height and built-form not currently allowed by zoning and the current site plan. The Proposed Action would create a new building with different massing, height, and architectural features that could change the streetscape from the pedestrian's viewpoint. In addition, the Proposed Actions could potentially change or restrict significant views of visual resources that are currently available from the surrounding area. Therefore, the Proposed Action has the potential to result in significant adverse impacts related to urban design and visual resources.
8. The Proposed Action would result in development in an area with no significant natural resources and the project area is located within a fully developed urban area, consisting of paved lots. Therefore, the Proposed Action would not result in significant adverse impacts related to natural resources.
9. The Proposed Actions would facilitate construction of six new buildings within the Project Area, which would entail new in-ground excavation and subsurface disturbance; as such the project would increase pathways to exposure to hazardous materials. Therefore, the Proposed Action has the potential to result in significant adverse impacts related to hazardous materials.
10. The Proposed Project would result in an incremental water demand of approximately 262,352 gallons per day as compared with the No-Action condition. A preliminary water supply analysis is not warranted under either the Proposed Project or the no hotel scenario since the projected water demand for the With-Action condition does not exceed the CEQR threshold of 1 million gpd. However, water demand estimates will be provided in the EIS to inform wastewater and stormwater conveyance and treatment analysis. With regard to wastewater and stormwater conveyance, the *CEQR Technical Manual* states that a preliminary infrastructure analysis would be needed if a project that is located in a combined sewer area within Manhattan would result in incremental development over the No-Action scenario of more than 1,000 residential units or 250,000 sf of commercial, public facility, and institution and/or community facility space. As the Proposed Project would include an increment of up to 904,210 gsf of commercial space, the Proposed Project has the potential to result in significant adverse impacts to wastewater and stormwater conveyance.
11. The Proposed Action would not result in a substantial increase in solid waste production that would overburden available waste management capacity and would not result in solid waste generation greater than the threshold of 50 tons per week. Therefore, the Proposed Action would not result in significant adverse impacts related to solid waste and sanitation services.
12. The Proposed Action would not significantly affect the transmission or generation of energy or generate substantial consumption of energy. The project's projected energy use is estimated to be 195,580 mbtu/sf over the No-Action condition, which is below the analysis thresholds specified in the *CEQR Technical Manual*. Therefore, the Proposed Actions would not result in significant adverse impacts related energy.
13. The Proposed Action would generate additional pedestrian, and transit volumes that are expected to exceed the analysis thresholds specified in the *CEQR Technical Manual* for certain travel modes. Therefore, detailed analyses of the Proposed Project's potential to result in significant adverse impacts will be performed, and the Proposed Actions may have the potential to result in significant adverse impacts related to transportation.
14. The Proposed Action would have the potential to increase or cause a redistribution of traffic, create new stationary sources of pollutants, and introduce new emissions stacks so that changes in the dispersion of emissions from the stacks may affect surrounding uses. Therefore, the Proposed Action has the potential to result in significant adverse impacts related to air quality.
15. The Proposed Action may result in development that would affect the City's greenhouse gases reduction goal. The Project Area is not located within the coastal zone boundary or within the current 100- or 500-year flood zone, as delineated in the FEMA PFIRMs. However, according to the *CEQR Technical Manual*, Greenhouse Gas Assessments are appropriate for projects in New York City requiring an EIS that would result in the development of 350,000 square feet or greater. Because the Proposed Project exceeds this threshold, the Proposed Project has the potential to result in a significant adverse impact to greenhouse gas emissions.
16. The Proposed Action would introduce new noise-sensitive receptors including office uses with existing high ambient noise levels. Therefore, the Proposed Action has the potential to result in significant adverse impacts related to noise.
17. The Proposed Action would have the potential to result in

unmitigated significant adverse impacts related to hazardous materials, air quality, or noise. Therefore, the Proposed Action could have the potential to result in significant adverse impacts related to public health.

18. The Proposed Action would have the potential to result in significant adverse impacts in the constituent technical areas related to neighborhood character or in moderate effects to several elements that define neighborhood character. Therefore, the Proposed Action has the potential to result in significant adverse impacts related to neighborhood character.
19. Construction of the Proposed Project is expected to take place over a period greater than two years, and is therefore considered long-term. The Proposed Project's construction may involve closing, narrowing, or otherwise impeding traffic, transit or pedestrian elements. Therefore, the Proposed Project would exceed the analysis thresholds specified in the CEQR Technical Manual warranted for construction activities. Therefore, the Proposed Actions may have the potential to result in significant adverse impacts related to construction.

Public Scoping:

The CEQR lead agency hereby requests that the applicant prepare

or have prepared, at their option, a Draft Environmental Impact Statement (DEIS) in accordance with 6 NYCRR 617.9(b) and Sections 6-08 and 6-12 of Executive Order No. 91 of 1977 as amended (City Environmental Quality Review).

A public scoping meeting will be held on Monday, December 21, 2020, at 2:00 P.M. In support of the City's efforts to contain the spread of COVID-19, DCP will hold the public scoping meeting remotely through video conferencing. The meeting will be live streamed and accessible from New York City's online remote meeting portal—NYC Engage: <https://www1.nyc.gov/site/nycengage/index.page>.

Written comments will be accepted by the lead agency through Tuesday, January 12, 2021.

This determination has been prepared in accordance with Article 8 of the Environmental Conservation Law.

READER'S GUIDE

The City Record (CR) is published each business day. The Procurement section of the City Record is comprised of notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Notice of solicitations and other notices for most procurement methods valued at or above \$100,000 for goods, services, and construction must be published once in the City Record, among other requirements. Other procurement methods authorized by law, such as sole source procurements, require notice in the City Record for five consecutive editions. Unless otherwise specified, the agencies and offices listed are open for business Monday through Friday from 9:00 A.M. to 5:00 P.M., except on legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptroller's Office at www.comptroller.nyc.gov, and click on Prevailing Wage Schedules to view rates.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION-RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$17 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. Registration for these lists is free of charge. To register for these lists, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application, which can be found online at www.nyc.gov/selltonyc. To request a paper copy of the application, or if you are uncertain whether you have already submitted an application, call the Vendor Enrollment Center at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services at 110 William Street, New York, NY 10038. Sessions are convened on the second Tuesday of each month from 10:00 A.M. to 12:00 P.M. For more information, and to register, call (212) 618-8845 or visit www.nyc.gov/html/sbs/nycbiz and click on Summary of Services, followed by Selling to Government.

PRE-QUALIFIED LISTS

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstances. When an agency decides to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR. Information and qualification questionnaires for inclusion on such lists may be obtained directly from the Agency Chief Contracting Officer at each agency (see Vendor Information Manual). A completed qualification questionnaire may be submitted to an Agency Chief Contracting Officer at any time, unless otherwise indicated, and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings (OATH). Section 3-10 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists. For information regarding specific pre-qualified lists, please visit www.nyc.gov/selltonyc.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board Rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, and the Housing Authority. Suppliers interested in applying for inclusion on bidders lists for Non-Mayoral entities should contact these

entities directly at the addresses given in the Vendor Information Manual.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 9:30 A.M. to 5:00 P.M., except on legal holidays. For more information, contact the Mayor's Office of Contract Services at (212) 341-0933 or visit www.nyc.gov/mocs.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN-OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women-Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about this program, contact the Department of Small Business Services at (212) 513-6311 or visit www.nyc.gov/sbs and click on M/WBE Certification and Access.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City pays interest on all late invoices. However, there are certain types of payments that are not eligible for interest; these are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year: in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City's website at www.nyc.gov/selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards, and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section.

At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified unless a different one is given in the individual notice. In that event, the directions in the individual notice should be followed.

The following is a SAMPLE notice and an explanation of the notice format used by the CR.
