Certification for Transit Volumes

For all #developments# or #enlargements# on #primary transit-adjacent sites#, the #transit agency# and Chairperson shall jointly certify to the Commissioner of the Department of Buildings whether or not a #transit volume# is needed on the #zoning lot#, in accordance with the provisions of paragraph (a) of this Section. (a) Application requirements

The owner of the #zoning lot# shall file an application with the #transit agency# and the Chairperson of the City Planning Commission requesting a certification as to whether or not a #transit volume# is needed on the #primary transit-adjacent site#.

Within 60 days of receipt of such application, the #transit agency# and the Chairperson shall jointly certify whether or not a #transit volume# is needed on the #zoning lot#. Failure to certify within the 60-day period will release the owner from any obligation to provide a #transit volume# on such #zoning lot#.

The owner shall submit a site plan showing a proposed location of such #transit volume# that would accommodate needed transit or pedestrian circulation improvements and be compatible with the proposed #development# or #enlargement# on the #zoning lot# for joint approval and final certification by the #transit agency# and the Chairperson.

The #transit agency# and the Chairperson shall comment on such site plan within 45 days of its receipt and may, within such 45-day period or following its expiration, permit the granting of an excavation permit while the location and size of the #transit volume# is being finalized. Upon joint approval of a site plan by the #transit agency# and the Chairperson, copies of such certification shall be forwarded by the Chairperson to the Commissioner of the Department of Buildings.

(b) Recordation, completion procedures and termination of an easement volume

- in #Residence Districts#, #uses# listed in Use Group 6A and 6C; and
- in #Commercial# and #Manufacturing Districts#, any #commercial# or #manufacturing use# allowed by the underlying district.

The floor space allocated to such temporary #uses# within the #easement volume# shall continue to be exempt from the definition of #floor area# and shall not be included for the purpose of calculating #accessory# off-street parking, bicycle parking, or loading berths.

Improvements to, or construction of a temporary nature within the #easement volume# for such temporary #uses# shall be removed by

the owner of the #building# or portion of the #zoning lot# within which the #easement volume# is located prior to the time at which public #use# of the easement area is needed, except as otherwise specified by the #transit agency#. A minimum notice of six months shall be given, in writing, by the #transit agency# to the owner of the #building# or portion of the #zoning lot# to vacate the easement volume.

- at the two lowest #stories# of a #building# on a #zoning lot# with an #easement volume# serving an #above-grade mass transit station#.

Such #uses# may be permitted so long as that in #buildings# that include #residential uses#, such #uses# are located in a portion of the #building# that has separate access to the outside with no opening of any kind to the #residential# portion of the #building#, and that such #uses# are not located directly over any #story# containing #dwelling units#.

(b) Special regulations for #commercial use# location in #mixed buildings# in #Commercial Districts#

In C1 or C2 Districts, the underlying provisions of Section 32-422 (Location of floors occupied by commercial uses) shall be modified for #mixed buildings# that are #developed# or #enlarged# with an #easement volume# serving an #above-grade mass transit station#, to allow all permitted #commercial uses# on the lowest two #stories#.

66-23

Special Bulk Regulations

Where an #easement volume# is provided, the applicable #bulk# regulations of this Resolution shall be modified in accordance with the provisions of this Section. Where a #clear path# is provided, only the #street wall# provisions of Section 66-234 (Special street wall modifications) shall apply.

66-231

Any #building# or portion of a #building# used for any permitted #commercial# or #community facility uses#, up to two #stories#, excluding #basements#, or 30 feet above #curb level, whichever is less, shall be considered a permitted obstruction in any #rear yard# or #rear yard equivalent# of a #zoning lot# with an #easement volume# serving an #above-grade mass transit station#. Any portion of a #building# containing residences or rooms used for living or sleeping purposes (other than a room in a hospital used for the care or treatment of patients, or #joint living-work quarters for artists#) shall not be a permitted obstruction.

66-31
Certification for Optional Transit Volumes

For all #developments# and #enlargements# on #secondary transit-adjacent sites# and #conversions# on all #transit-adjacent sites# seeking to provide a #transit volume#, the #transit agency# and Chairperson shall jointly certify to the Commissioner of the Department of Buildings the location, appropriate type, and reasonable dimensions for such #transit volume# in accordance with the provisions of paragraph (a) of this Section. Such certification shall be obtained prior to any application with the Department of Buildings for an excavation permit, foundation permit, new building permit or alteration permit for such #development#, #enlargement# or #conversion#. Where an #easement volume# is provided, the additional requirements set forth in paragraph (b) of this Section shall apply.

(a) Application requirements

The owner of the #zoning lot# shall file an application with the #transit agency# and the Chairperson of the City Planning Commission requesting a certification as to whether or not a #transit volume# is needed on the #secondary transit-adjacent site#.

Within 60 days of receipt of such application, the #transit agency# and the Chairperson shall jointly certify whether or

not a #transit volume# is needed on the #zoning lot#. When the #transit agency# and the Chairperson indicate that a #transit volume# is needed within the 60-day period, the #transit agency# shall, in consultation with the owner of the #zoning lot# and the Chairperson, determine the appropriate type, and reasonable dimensions for such #transit volume# based on a concept plan for the use of such volume.

The owner shall submit a site plan showing a proposed location of such #transit volume# that would accommodate needed transit or pedestrian circulation improvements and be compatible with the proposed #development# or #enlargement# on the #zoning lot# for joint approval and final certification by the #transit agency# and the Chairperson.

The #transit agency# and the Chairperson shall comment on such site plan within 45 days of its receipt and may, within such 45-day period or following its expiration, permit the granting of an excavation permit while the location and size of the #transit volume# is being finalized. Upon joint approval of a site plan by the #transit agency# and the Chairperson, copies of such certification shall be forwarded by the Chairperson to the Commissioner of the Department of Buildings.

(b) Recordation, completion procedures and termination of an easement volume

Where an #easement volume# is needed pursuant to paragraph (a) of this Section, the Chairperson of the City Planning Commission shall be provided with a certified copy of the legally enforceable instrument providing the mechanism for creating such #easement volume#, as well as necessary documentation setting forth other obligations and requirements pursuant to Section 66-40 (RECORDATION, CONSTRUCTION AND MAINTENANCE, AND TERMINATION).

66-32
Special Modifications for Secondary Transit-adjacent Sites

Where a #transit volume# is provided pursuant to Section 66-31 (Certification for Optional Transit Volumes), special #use#, #bulk#, parking, and streetscape regulations may be applied as follows:

- (a) For all #developments# or #enlargements# on #secondary transit-adjacent sites#, the modifications set forth in Sections 66-22 through 66-25 shall apply as if such #development# or #enlargement# was on a #primary transit-adjacent site#.
- (b) For #conversions# on all #transit-adjacent sites#, the following modifications shall apply as if such #conversion# was on a #primary transit-adjacent site#:
 - (1) #Use# modifications pursuant to Section 66-221 (Temporary uses);
 - (2) #Bulk# modifications pursuant to Section 66-231 (Special floor area modification), paragraph (a)(1) of Section 66-232 (Special open space, lot coverage and yard modifications), Section 66-234 (Special street wall modifications), and paragraph (a)(1) of Section 66-235 (Special height and setback modifications);

66-40
RECORDATION, CONSTRUCTION AND MAINTENANCE, AND TERMINATION PROVISIONS

Where an #easement volume# is provided pursuant to Section 66-20 (SPECIAL PROVISIONS FOR PRIMARY TRANSIT-ADJACENT SITES) or Section 66-30 (SPECIAL PROVISIONS FOR SECONDARY TRANSIT-ADJACENT SITES) the provisions of this Section shall apply.

66-41
Recordation and Completion Procedures

The recordation and completion procedures of this Section shall apply to #transit-adjacent sites# providing an #easement volume#.

(a) Recordation

Legally enforceable instruments, running with the land, creating an #easement volume#, and setting forth the obligations of either

the #transit agency# or the owner and developer, their successors and assigns, to design and construct the improvement, as well as other basic terms of the easement shall be executed and recorded in a form acceptable to the #transit agency# and the Chairperson. The execution and recording of such instruments shall be a precondition to the issuance of any foundation permit, new building permit, or alteration permit by the Department of Buildings allowing such #development#, #enlargement# or #conversion#.

(b) Construction and maintenance

Where an #easement volume# is provided pursuant to this Section, transit access improvements within such volume shall be constructed and maintained either by the #transit agency# or the owner of the #zoning lot# with the #development#, #enlargement# or #conversion#.

- (1) Where such transit access improvement is constructed and maintained by the #transit agency#:
 - (i) Owner of #zoning lot# with the #development#, #enlargement# or #conversion# shall provide an #easement volume# that is designed and constructed in such a manner that would not inhibit the #transit agency's# functional requirements and ability to construct such transit access improvement at a future date.
 - (ii) Where the construction of the improvement is not contemporaneous with the construction of the #development#, #enlargement# or #conversion#, any underground walls constructed along the #front lot line# adjacent to an #at- or below-grade mass transit station# shall include one or more knockout panels, below #curb level# down to the bottom of the #easement volume#. The actual location and size of such knockout panels shall be determined through consultation with the #transit agency#.
 - (iii) Temporary construction access shall be granted to the #transit agency# on portions of the #zoning lot# outside of the #easement volume#, as needed, to enable construction within and connection to the #easement volume#.
 - (iv) In the event that the #transit agency# has approved of obstructions associated with the #development#, #enlargement# or #conversion# within the #easement volume#, such as #building# columns or footings, such construction and maintenance shall exclude any such obstructions within the #easement volume#.
- (2) Where such transit access improvement is constructed and maintained by the owner of the #development #, #enlargement# or #conversion#
 - (i) a transit access improvement shall be provided in accordance with standards set forth by the #transit agency#;
 - (ii) such improvement shall be accessible to the public at all times, except as otherwise approved by the #transit agency#;
 - (iii) such improvement shall include #signs# to announce accessibility to the public. Such #signs# shall be exempt from the maximum #surface area# of non-#illuminated signs# permitted by Section 32-642 (Non-illuminated signs); and
 - (iv) no temporary certificate of occupancy shall be granted by the Department of Buildings for the #building# until the Chairperson of the City Planning Commission, acting in consultation with the #transit agency#, has certified that the improvement is substantially complete and usable by the public.

66-42

Termination of an Easement

In the event that the #transit agency# and the Chairperson of the City Planning Commission jointly notify, in writing, the owner of the #zoning lot# and the Department of Buildings that an #easement volume# is not needed on such #zoning lot# in its final construction plans, the restrictions imposed on such #zoning lot# by the provisions of this Section shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the #transit agency# to the extinguishment of the #easement volume#.

On any #zoning lot# which has been #developed#, #enlarged# or #converted# in accordance with the provisions of this Section and on which termination of the #easement volume# has been certified, pursuant to this paragraph, any floor space in a previously needed #easement volume# shall continue to be exempt from the definition of

#floor area# and shall not be included for the purpose of calculating requirements for #accessory# off-street parking, bicycle parking or loading berths. However, where such previously needed volume is located within a #building#, the ground floor space shall be subject to all applicable ground floor level requirements of this Resolution.

66-50

SPECIAL APPROVALS

For #qualifying transit improvement sites#, a #floor area# bonus may be authorized by the City Planning Commission pursuant to Section 66-51 (Additional Floor Area for Mass Transit Improvements) where major #mass transit station# improvements are provided.

For all applications pursuant to the provisions of Sections 66-20 (SPECIAL PROVISIONS FOR PRIMARY TRANSIT-ADJACENT SITES), 66-30 (SPECIAL PROVISIONS FOR SECONDARY TRANSIT-ADJACENT SITES) or 66-51, additional modifications may be granted by the City Planning Commission, either by authorization or special permit, pursuant to Section 66-52 (Additional Modifications).

66-51

Additional Floor Area for Mass Transit Station Improvements

For #developments# or #enlargements# located on #qualifying transit improvement sites# the City Planning Commission may authorize a #floor area# bonus in accordance with the provisions of paragraph (a) of this Section where a major improvement to a #mass transit station# is provided in accordance with paragraph (b). All applications for an authorization pursuant to this Section shall be subject to the conditions, application requirements, findings and additional requirements of paragraphs (c) through (e).

(a) #Floor area# bonus

The City Planning Commission may authorize a #floor area# bonus not to exceed 20 percent of the basic maximum #floor area ratio# permitted by the applicable district regulations of this Resolution, in accordance with the following provisions:

- (1) Such #floor area# increase may be applied to the maximum #floor area ratio# of any permitted #use#, provided that the total of all such #floor area ratios# does not exceed such percent increase applied to the greatest #floor area ratio# permitted for any such #use# on the #qualifying transit improvements#;
- (2) Such #floor area# bonus may be used in combination with other #floor area# bonuses. However, the maximum #floor area# permitted through the combination of bonuses may exceed 20 percent of the base #floor area ratio# only as follows:
 - (i) within #Inclusionary Housing designated areas# and in R10 Districts outside of #Inclusionary Housing designated areas#, the percent in #floor area# bonus granted on a #qualifying transit improvement site# shall be calculated from the maximum #floor area ratios# set forth in paragraph (a) or (b) of Section 23-154 (Inclusionary Housing); or
 - (ii) where explicitly specified in a #Special Purpose District#; and
- (3) For #compensated developments# or #MIH developments#, as defined in Section 23-911 (General definitions), the requirements of Section 23-154 (Inclusionary Housing) shall not apply to the bonus #floor area# authorized under the provisions of this Section.

(b) Conditions

All applications shall include a proposed improvement to a proximate #mass transit station#, and may consist of on-site or off-site improvements.

Such improvements shall be characteristic of current best practice in mass-transit network design, and shall include capacity-enhancing, accessibility or significant environmental improvements, including, but not limited to, the provision of elevators and escalators, widening, straightening, expanding or otherwise enhancing the existing pedestrian circulation network, reconfiguring circulation routes to provide more direct pedestrian connections to subway or rail mass transit facilities, or providing daylight access, retail #uses# or enhancements to noise abatement, air quality, lighting, finishes or rider orientation in new or existing passageways.

All proposed improvements shall be subject to the approval of the applicable #transit agency# and the City Planning Commission.

(c) Application requirements

All applications for an authorization pursuant to this Section shall include the following:

- (1) Prior to submitting an application for an authorization pursuant to this Section, the applicant shall submit a

schematic or concept plan for the proposed improvement to the #transit agency# and the Chairperson of the City Planning Commission. Such schematic or concept plan shall include such materials and information sufficient to provide the basis for the #transit agencies# to evaluate and determine the constructability of such proposed improvement.

(2) At the time of certification, the Commission shall be provided with the following application materials:

- (i) a letter from the #transit agency# containing a conceptual approval of the improvement, including a statement of any considerations regarding the construction and operation of the improvement;
- (ii) all information and justification sufficient to provide the Commission with the basis for evaluating the benefits of such improvements to the general public; and
- (iii) initial plans for the maintenance of the proposed improvements.

(3) Where a #transit volume# is needed pursuant to the provisions of Section 66-21 (Certification for Transit Volume), the applicant shall provide materials sufficient to demonstrate the relationship between the proposed on-site improvement and such #transit volume#.

(d) Findings

In order to grant such authorization, the Commission shall find that:

- (1) the public benefit derived from the #mass transit station# improvements merits the amount of additional #floor area# being granted to the proposed #development# pursuant to this authorization;
- (2) for improvements involving capacity enhancements or accessibility, that newly created or expanded accessible routes for persons with physical disabilities, or measures to improve station ingress and egress routes or platform capacity, will constitute significant enhancements to connectivity from the pedestrian circulation network to and through the #mass transit station#; or
- (3) for improvements involving environmental design, that measures to augment station beautification, walkability and passenger safety, or environmental noise or air quality, will constitute significant enhancements to the station environment.

(e) Additional requirements

In addition to the application requirements of paragraph (c) of this Section, additional requirements set forth in this paragraph shall apply.

- (1) Prior to the granting of an authorization pursuant to this Section, the following requirements shall be met:
 - (i) To the extent required by the #transit agency#, the applicant shall execute an agreement, setting forth the obligations of the owner, its successors and assigns, to establish a process for design development and a preliminary construction schedule for the proposed improvement; construct the proposed improvement; establish a program for maintenance and capital maintenance; and establish that such improvements shall be accessible to the public during the hours of operation of the station or as otherwise approved by the #transit agency#. Where the #transit agency# deems necessary, such executed agreement shall set forth obligations of the applicant to provide a performance bond or other security for completion of the improvement in a form acceptable to the #transit agency#.
 - (ii) The City Planning Commission shall be provided with a final letter of approval from the #transit agency# stating that the drawings and other documents submitted by the applicant have been determined by such #transit agency# to be of sufficient scope and detail to describe the size and character of the improvement as to architectural, structural, mechanical and electrical systems, materials, relationship to existing site conditions and such other conditions as may be appropriate, and that the construction of the improvement in accordance with such submission is feasible; and
- (2) Prior to obtaining a foundation permit or building permit from the Department of Buildings, a written declaration of restrictions, in a form acceptable to the Chairperson of the City Planning Commission, containing complete drawings

of the improvement and setting forth the obligations of the owner as agreed upon with the #transit agency# pursuant to the requirements of paragraph (e)(1) of this Section, shall be recorded against such property in the Borough Office of the City Register of the City of New York. Proof of recordation of the declaration of restrictions shall be submitted in a form acceptable to the Department of City Planning.

(3) No temporary certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# authorized pursuant to the provisions of this Section until the required improvements have been substantially completed, as determined by the Chairperson, acting in consultation with the #transit agency#, where applicable, and such improvements are usable by the public. Such portion of the #building# utilizing bonus #floor area# shall be designated by the Commission in drawings included in the declaration of restrictions filed pursuant to this paragraph.

No permanent certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# until all improvements have been completed in accordance with the approved plans, as determined by the Chairperson, acting in consultation with the #transit agency#, where applicable.

The Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding area.

66-52

Additional Modifications

In conjunction with any application pursuant to Section 66-21 (Certification for Transit Volume), 66-31 (Certification for Optional Transit Volume) and 66-51 (Additional Floor Area for Mass Transit Station Improvements), modifications may be granted pursuant to Section 66-521 (Authorization for transit-adjacent sites or qualifying transit improvement sites) or Section 66-522 (Special permit for transit-adjacent sites or qualifying transit improvement sites).

66-521

Authorization for transit-adjacent sites or qualifying transit improvement sites

For #transit-adjacent sites# or #qualifying transit improvement sites#, the City Planning Commission may authorize the modification of applicable regulations of this Resolution, other than #floor area ratio#, including the other modifications set forth within this Chapter, provided that the Commission determines that the conditions and limitations set forth in paragraph (a), the application requirements of paragraph (b) and the findings set forth in paragraph (c) of this Section are met.

(a) Conditions and limitations

Modifications to the maximum #building# height limits shall not result in a #building# height that exceeds 25 percent of the maximum permitted height as set forth in applicable district regulations, and as such heights are modified pursuant to the provisions of 66-235 (Special height and setback modifications), as applicable.

(b) Application requirements

Applications for an authorization for modifications pursuant to this Section shall contain materials, of sufficient scope and detail, to enable the Commission to determine the extent of the proposed modifications.

(c) Findings

The Commission shall find that:

- (1) such proposed modifications are the minimum extent necessary to
 - (i) reasonably accommodate an #easement volume# and associated access thereto; or
 - (ii) where improvements to #mass transit stations# are provided, reasonably accommodate the proposed #development# or #enlargement#;
- (2) any modifications to #use# regulations will not be incompatible with or adversely affect the essential character, use or future growth of the surrounding area;
- (3) any modifications to #bulk# regulations will not unduly obstruct access of light and air to surrounding #streets# and properties; and
- (4) any modifications to #accessory# off-street parking or loading regulations will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

66-522

Special permit for transit-adjacent sites or qualifying transit improvement sites

For #transit-adjacent sites# or #qualifying transit improvement sites#, the City Planning Commission may grant, by special permit, the modification of applicable regulations of this Resolution, other than #floor area ratio#, including the other modifications set forth within this Chapter, provided that the Commission determines that the application requirements of paragraph (a) and the findings set forth in paragraph (b) of this Section are met.

(a) Application requirements

Applications for a special permit for modifications pursuant to this Section shall contain materials, of sufficient scope and detail, to enable the Commission to determine the extent of the proposed modifications.

(b) Findings

The Commission shall find that:

- (1) such modifications will result in a better site plan for the proposed #transit volume#, improvement to #mass transit station# or #building# that is superior in design and harmonious with the surrounding area;
(2) any modifications to #use# regulations will not be incompatible with or adversely affect the essential character, use or future growth of the surrounding area;
(3) any modifications to #bulk# regulations:
(i) will not unduly obstruct the access of light and air to surrounding #streets# and properties nor adversely affect the character of the surrounding area; and
(ii) will result in an improved distribution of #bulk# on the #zoning lot# that is harmonious with the surrounding area; and
(4) any modifications to #accessory# off-street parking or loading regulations will not create or contribute to serious traffic congestion and will not unduly inhibit surface traffic and pedestrian flow.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

Table with 2 columns: Station, Line. Rows include 8th Street, 23rd Street, 28th Street, 33rd Street, 34th Street-Penn Station, 59th Street/Lexington Avenue (60th St), and Broadway-60th Street, Lexington Avenue, 8th Avenue, and Lexington Avenue and Broadway-60th Street.

The selection of subway station improvements shall be on a case-by-case basis and shall be subject to the approval of the Metropolitan Transportation Authority, New York City Transit and the City Planning Commission. All such improvements shall comply with all applicable design standards of the current station planning guidelines of New York City Transit.

(a) Pre-application requirements

Prior to submitting an application for a special permit pursuant to this Section, the applicant shall submit a schematic or concept plan for the proposed improvement to the Metropolitan Transportation Authority, New York City Transit and the Chairperson of the City Planning Commission.

(b) Requirements for application

An application for a special permit pursuant to this Section shall include a letter from New York City Transit to the City Planning Commission containing conceptual approval of the improvement and a statement of any special considerations regarding New York City Transit's future operation of the improvement. The applicant shall submit all information and justification sufficient to enable the Commission to:

- (1) evaluate the benefits to the City;
(2) determine the appropriate amount of bonus #floor area#; and
(3) where applicable, assess the advantages and disadvantages of waiving or modifying #street wall# continuity requirements.

(c) Conditions

- (1) Within the #Special Midtown District#, for a #development# or #enlargement# within the Theater Subdistrict on a #zoning lot# containing a theater designated as listed pursuant to Section 81-742 (Listed theaters), the Commission shall find that the requirements of Section 81-743 (Required assurances for continuance of legitimate theater use) have been met.
(2) Within the #Special Midtown District#, for a #development# or #enlargement# located on a #zoning lot# divided by a Theater Subdistrict Core boundary, as defined in Section 81-71 (General Provisions), the amount of #lot area# eligible for bonus #floor area# shall not exceed an amount equal to twice the #lot area# of that portion of the #zoning lot# located outside the Theater Subdistrict Core.

(d) Findings

- (1) In determining the amount of #floor area# bonus, the City Planning Commission shall consider the degree to which:
(i) the general accessibility and security of the subway station will be improved by the provision of new connections, additions to or reconfigurations of circulation space, including provision of escalators or elevators; and
(ii) significant improvements to the station's environment by provision for direct daylight access, or improvements to noise control, air quality, lighting or rider orientation and satisfactory integration of the #street# level

entryway into the #development# or #enlargement# will occur.

- (2) In determining modifications to the requirements of Article III, Chapter 7 (Special Regulations), the Commission shall find that the provisions of a subway improvement cannot be accommodated without modification to these requirements.
(3) In determining modifications to the #street wall# continuity provisions of Section 81-43 in the #Special Midtown District#, Section 91-31 (Street Wall Regulations) in the #Special Lower Manhattan District# or Section 101-41 in the #Special Downtown Brooklyn District#, the Commission shall find that the modification will permit the proposed design to provide for access of daylight and air to the subway platform, mezzanine or concourse and that the advantages of such access outweigh the disadvantages incurred by the interruption of #street wall# and retail continuity.

(e) Procedural requirements

Prior to the granting of a special permit, the City Planning Commission shall be provided with the following:

- (1) a letter from New York City Transit stating that the drawings and other documents submitted by the applicant have been determined by New York City Transit to be of sufficient scope and detail to fix and describe the size and character of the subway improvement as to architectural, structural, mechanical and electrical systems, materials, relationship to existing site conditions and such other conditions as may be appropriate, and that the construction of the subway improvement in accordance with such submission is feasible; and
(2) a legally enforceable instrument running with the land and signed by the applicant and all parties in interest, other than parties in interest who have waived and subordinated their interests, containing complete drawings of the improvement and setting forth the obligations of owner and developer, their successors and assigns, to construct and provide capital maintenance for the improvement, establish a construction schedule and provide a performance bond for completion of the improvement.

(f) Recordation and completion procedures

Any instrument creating a transit easement on the #zoning lot# shall be recorded against the #zoning lot# in the Office of the Register of the City of New York and a certified copy of the instrument shall be submitted to the City Planning Commission and New York City Transit. The applicant shall not apply for nor accept a temporary certificate of occupancy for the bonus #floor area#, and the Department of Buildings shall not issue such a temporary certificate of occupancy, until New York City Transit has determined that the bonused subway improvement is substantially complete which shall, for this purpose, mean open to and usable by the public.

The applicant shall not apply for or accept a permanent certificate of occupancy for the #development# or #enlargement#, nor shall the Department of Buildings issue such permanent certificate of occupancy, until the bonused subway improvement has been completed in accordance with the approved plans and such completion has been certified by New York City Transit.

The Commission may prescribe additional appropriate conditions and safeguards to enhance the character of the surrounding area.

As a pre-condition to applying for such special permit, an applicant shall demonstrate that the maximum as-of-right #floor area ratio# for #qualifying sites# set forth in Row E of the table in Section 81-64 has been achieved prior to, or in conjunction with, the special permit application.

(a) #Floor area# bonus

The City Planning Commission may permit an increase in the amount of #floor area ratio# permitted on a #qualifying site#, up to the amount specified in Row F of the table in Section 81-64 (Special Floor Area Provisions for Qualifying Sites).

 - (iii) initial plans for the maintenance of the proposed improvements.

(d) Findings

In order to grant such special permit, the Commission shall find that:

- (1) the public benefit derived from the improvements to a subway or rail mass transit facility merits the amount of additional #floor area# being granted to the proposed #development# pursuant to this special permit;
- (2) for improvements involving capacity enhancements or accessibility, that newly created or expanded accessible routes for persons with physical disabilities, or measures

to improve station ingress and egress routes or platform capacity, will constitute significant enhancements to connectivity from the pedestrian circulation network to and through the subway or rail mass transit facility; or

- (3) for improvements involving environmental design, that measures to augment station beautification, walkability and passenger safety, or environmental noise or air quality, will constitute significant enhancements to the station environment.

(e) Additional requirements

In addition to the application requirements of paragraph (c) of this Section, additional requirements set forth in this paragraph shall apply.

- (1) Prior to the granting of a special permit pursuant to this Section, the following requirements shall be met:
 - (i) To the extent required by the MTA, the applicant shall execute an agreement, setting forth the obligations of the owner, its successors and assigns, to establish a process for design development and a preliminary construction schedule for the proposed improvement; construct the proposed improvement; establish a program for maintenance and capital maintenance; and establish that such improvements shall be accessible to the public during the hours of operation of the station or as otherwise approved by the MTA. Where the MTA deems necessary, such executed agreement shall set forth obligations of the applicant to provide a performance bond or other security for completion of the improvement in a form acceptable to the MTA.
 - (ii) The City Planning Commission shall be provided with a final letter of approval from the MTA stating that the drawings and other documents submitted by the applicant have been determined by the MTA to be of sufficient scope and detail to fix and describe the size and character of the improvement as to architectural, structural, mechanical and electrical systems, materials, relationship to existing site conditions and such other conditions as may be appropriate, and that the construction of the improvement in accordance with such submission is feasible; and
- (2) Prior to obtaining a foundation permit or building permit from the Department of Buildings, a written declaration of restrictions, in a form acceptable to the Chairperson of the City Planning Commission, containing complete drawings of the improvement and setting forth the obligations of the owner as agreed upon with the MTA pursuant to the requirements of paragraph (e)(1) of this Section, shall be recorded against such property in the Borough Office of the City Register of the City of New York. Proof of recordation of the declaration of restrictions shall be submitted in a form acceptable to the Department of City Planning.
- (3) No temporary certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# granted pursuant to the provisions of this Section until the required improvements have been substantially completed, as determined by the Chairperson, acting in consultation with the MTA, where applicable, and such improvements are usable by the public. Such portion of the #building# utilizing bonus #floor area# shall be designated by the Commission in drawings included in the declaration of restrictions filed pursuant to this paragraph.
 No permanent certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# until all improvements have been completed in accordance with the approved plans, as determined by the Chairperson, acting in consultation with the MTA, where applicable.

Off-street Relocation of Subway Station Entrances

For all #developments# or #enlargements# involving ground floor level construction on a #zoning lot# that is wholly or partially located within a Transit Easement Zone, as shown on Map 3 (Special Inwood District – Transit Easement Zones) in the Appendix to this Chapter, a transit easement volume may be required needed on such #zoning lot# for public access between the #street# and the adjacent above- or below-grade subway station, pursuant to the provisions of Section 66-20 (SPECIAL PROVISIONS FOR PRIMARY TRANSIT-ADJACENT SITES). Such #zoning lots# that are wholly or partially within a Transit Easement Zone shall be considered a #primary transit-adjacent site#, as defined in Section 66-11 (Definitions).

(a) Transit Easement

Prior to filing any application with the Department of Buildings for an excavation permit, foundation permit, new building permit or alteration permit for a #development# or #enlargement#, the owner of the #zoning lot# shall file an application with the Metropolitan Transportation Authority (MTA) and the Chairperson of the City Planning Commission requesting a certification as to whether or not a transit easement volume is required on the #zoning lot#.

Within 60 days of receipt of such application, the MTA and the Chairperson shall jointly certify whether or not a transit easement volume is required on the #zoning lot#. Failure to certify within the 60-day period will release the owner from any obligation to provide a transit easement volume on such #zoning lot#.

When the MTA and the Chairperson indicate that a transit easement volume is required, the MTA shall, in consultation with the owner of the #zoning lot# and the Chairperson, determine the appropriate type of transit easement and reasonable dimensions for such transit easement volume.

The owner shall submit a site plan showing a proposed location of such transit easement volume that would provide access between the #street# and the adjacent subway station and be compatible with the proposed #development# or #enlargement# on the #zoning lot# for joint approval and final certification by the MTA and the Chairperson. The MTA and the Chairperson shall comment on such site plan within 45 days of its receipt and may, within such 45-day period or following its expiration, permit the granting of an excavation permit while the location and size of the transit easement volume is being finalized. Upon joint approval of a site plan by the MTA and the Chairperson, copies of such certification shall be forwarded by the Chairperson to the Department of Buildings.

Legally enforceable instruments, running with the land, creating a transit easement volume, and setting forth the obligations of either the MTA or the owner and developer, their successors and assigns, to design and construct the improvement, shall be executed and recorded in a form acceptable to the MTA and the Chairperson. The execution and recording of such instruments shall be a precondition to the issuance of any foundation permit, new building permit, or alteration permit by the Department of Buildings allowing such #development# or #enlargement#.

(b) Construction and Maintenance

Where a transit easement volume is required pursuant to this Section, transit access improvements within such volume shall be constructed and maintained either by the MTA or the owner of the #zoning lot# with the #development# or #enlargement#.

- (1) Where such mass transit improvement is constructed and maintained by the owner of the #development# or #enlargement#:
 - (i) a transit access improvement shall be provided in accordance with standards set forth by the MTA;
 - (ii) such improvement shall be accessible to the public at all times, except as otherwise approved by the MTA;
 - (iii) such improvement shall include #signs# to announce accessibility to the public. Such #signs# shall be exempt from the maximum #surface area# of non-#illuminated signs# permitted by Section 32-642 (Non-illuminated signs); and
 - (iv) no temporary certificate of occupancy shall be granted by the Department of Buildings for the #building# until the Chairperson of the City Planning Commission, acting in consultation with the MTA, has certified that the improvement is substantially complete and usable by the public.
- (2) Where such mass transit improvement is constructed and maintained by the MTA:
 - (i) Where the construction of the improvement is not contemporaneous with the construction of the #development# or #enlargement#, any underground walls constructed along the #front lot line# adjacent to a below-grade subway station shall include a knockout panel, not less than 12 feet wide, below #curb level# down to the bottom of the easement. The actual location and size of such knockout panel shall be determined through consultation with the MTA.
 - (ii) Temporary construction access shall be granted to the MTA on portions of the #zoning lot# outside of the transit easement volume, as necessary, to enable construction within and connection to the transit easement volume.

(iii) In the event that the MTA has approved of obstructions associated with the #development# or #enlargement# within the transit easement volume, such as building columns or footings, such construction and maintenance shall exclude any such obstructions within the transit easement volume.

(c) Additional modifications

Where a transit easement volume is required pursuant to paragraph (a) of this Section, the Chairperson of the City Planning Commission shall certify the following modifications in conjunction with such transit easement volume certification:

- (1) the edge of the transit easement volume facing the #street# shall be considered a #street wall# for the purposes of applying the #street wall# location provisions set forth in Section 142-40 (SPECIAL HEIGHT AND SETBACK REGULATIONS), inclusive, irrespective of whether such volume is incorporated into a #building#;
- (2) for #zoning lots# adjacent to a below-grade subway station, the maximum height for the #building# set forth in Section 142-40, inclusive, shall be increased by 10 feet, and the maximum number of #stories#, if applicable, shall be increased by one, except where the provisions of Section 142-48 (Special Regulations for Certain Sites in Subdistricts C and F) are being utilized;
- (3) the floor space contained within any transit easement volume required pursuant to this Section shall be excluded from the definition of #floor area#; and
- (4) the street frontage of such transit easement volume shall be excluded for the purpose of applying the provisions of Section 142-14 (Ground Floor Level Requirements).

(d) Temporary Use

Any easement volume required on a #zoning lot# pursuant to paragraph (a) of this Section may be temporarily used for any permitted #commercial# or #community facility uses# until such time as required by the MTA for transit access improvements. The floor space allocated to such temporary #uses# within the transit easement volume shall continue to be exempt from the definition of #floor area# and shall not be included for the purpose of calculating #accessory# off-street parking, bicycle parking, or loading berths.

Improvements or construction of a temporary nature within the easement volume for such temporary #uses# shall be removed by the owner of the #building# or portion of the #zoning lot# within which the easement volume is located prior to the time at which public #use# of the easement area is required, except as otherwise specified by the MTA. A minimum notice of six months shall be given, in writing, by the MTA to the owner of the #building# or portion of the #zoning lot# to vacate the easement volume.

(e) Termination of an easement volume

In the event that the MTA and the City Planning Commission jointly notify the Department of Buildings and the owner in writing that a transit easement volume is not required on a #zoning lot# in its final construction plans, the restrictions imposed on such #zoning lot# by the provisions of this Section shall lapse, following receipt of notification thereof by the owner; and the owner shall have the right to record an instrument reciting the consent of the MTA to the extinguishment of the easement volume.

On any #zoning lot# which has been #developed# or #enlarged# in accordance with the provisions of this Section and on which termination of transit easement has been certified, pursuant to this paragraph, any floor space in a previously required transit easement volume shall continue to be exempt from the definition of #floor area# and shall not be included for the purpose of calculating requirements for #accessory# off-street parking, bicycle parking or loading berths. However, where such previously required volume is located within a #building#, the ground floor space shall be subject to the provisions of Section 142-14.

“Compete To Win” More Contracts!

Thanks to a new City initiative - “Compete To Win” - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and Women-Owned Businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- Win More Contracts, at nyc.gov/competetowin

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed, to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed, at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)

- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)
- Department of Probation (DOP)
- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)
- Human Resources Administration (HRA)

READER'S GUIDE

The City Record (CR) is published each business day. The Procurement section of the City Record is comprised of notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Notice of solicitations and other notices for most procurement methods valued at or above \$100,000 for goods, services, and construction must be published once in the City Record, among other requirements. Other procurement methods authorized by law, such as sole source procurements, require notice in the City Record for five consecutive editions. Unless otherwise specified, the agencies and offices listed are open for business Monday through Friday from 9:00 A.M. to 5:00 P.M., except on legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptroller's Office at www.comptroller.nyc.gov, and click on Prevailing Wage Schedules to view rates.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION-RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$17 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. Registration for these lists is free of charge. To register for these lists, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application, which can be found online at www.nyc.gov/selltonyc. To request a paper copy of the application, or if you are uncertain whether you have already submitted an application, call the Vendor Enrollment Center at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services at 110 William Street, New York, NY 10038. Sessions are convened on the second Tuesday of each month from 10:00 A.M. to 12:00 P.M. For more information, and to register, call (212) 618-8845 or visit www.nyc.gov/html/sbs/nycbiz and click on Summary of Services, followed by Selling to Government.

PRE-QUALIFIED LISTS

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstances. When an agency decides to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR. Information and qualification questionnaires for inclusion on such lists may be obtained directly from the Agency Chief Contracting Officer at each agency (see Vendor Information Manual). A completed qualification questionnaire may be submitted to an Agency Chief Contracting Officer at any time, unless otherwise indicated, and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings (OATH). Section 3-10 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists. For information regarding specific pre-qualified lists, please visit www.nyc.gov/selltonyc.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board Rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, and the Housing Authority. Suppliers interested in applying for inclusion on bidders lists for Non-Mayoral entities should contact these

entities directly at the addresses given in the Vendor Information Manual.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 9:30 A.M. to 5:00 P.M., except on legal holidays. For more information, contact the Mayor's Office of Contract Services at (212) 341-0933 or visit www.nyc.gov/mocs.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN-OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women-Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about this program, contact the Department of Small Business Services at (212) 513-6311 or visit www.nyc.gov/sbs and click on M/WBE Certification and Access.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City pays interest on all late invoices. However, there are certain types of payments that are not eligible for interest; these are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year: in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City's website at www.nyc.gov/selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards, and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section.

At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified unless a different one is given in the individual notice. In that event, the directions in the individual notice should be followed.

The following is a SAMPLE notice and an explanation of the notice format used by the CR.
