Statement of Basis and Purpose of Proposed Rule

The Department of Consumer and Worker Protection (“DCWP” or “Department”) is proposing to add and amend rules to implement Local Law 80 of 2021 (“LL 80”) and Local Law 98 of 2021 (“LL 98”). These proposed rule changes affect amusement devices, amusement arcades, amusement operators, and gaming cafés, as well as auction houses and auctioneers.

LL 80 provides civil penalty relief for small businesses from certain sanitation, health, transportation, consumer affairs, noise control and buildings violations. LL 80 sets fixed penalties at the bottom of existing penalty ranges, lowers existing penalty ceilings (or sometimes sets a lower fixed amount), or lowers existing fixed penalties. In certain instances, LL 80 allows a cure period for a first violation or eliminates the civil penalty for a first violation. LL 80 also repeals several requirements and prohibitions to provide relief for small businesses.

LL 98 increases penalties for certain deceptive and unconscionable business practices prohibited under the Department’s consumer protection law.

Specifically, these proposed rule amendments would:

- Remove all rules relating to auctioneers and auction houses. LL 80 repealed this license category and all substantive regulations. *See* sections 1, 3, and 8. These businesses will be able to operate without a license.
- Remove all rules relating to the licensing requirements for amusement devices, amusement arcades, amusement operators, and gaming cafés. LL 80 repealed these licensing requirements. *See* sections 1, 2, 6, and 7. These businesses will be able to operate without a license.
- Move rules relating to amusement devices, amusement arcades, amusement operators, and gaming cafés from chapter 2 of the Department’s rules to a new subchapter in chapter 4. Because LL 80 repealed the licensing requirements but retained other regulations, the accompanying rules must be moved from chapter 2, which is dedicated to licensed categories, to chapter 4 of the Department’s rules. Section 12 of LL 98 also added an accident notification provision applicable to amusement operators. *See* section 4.
- Update the Department’s list of curable rule provisions to account for these changes. *See* section 5.
- Update the Department’s penalty schedule for amusement devices, amusement arcades, amusement operators, and gaming cafés. LL 80 lowered most penalties for this category of violations. *See* section 7.

Sections 1043 and 2203(f) of the New York City Charter and Section 20-104(b) of the New York City Administrative Code authorize the Department of Consumer and Worker Protection to make these proposed rules.

■ NOTICE

**Determination and Findings of the Department of
Environmental Protection**

Pursuant to Section 204 of the Eminent Domain Procedure Law

A public hearing was held on October 18, 2021, in accordance with provisions of Article 2 of the New York State Eminent Domain Procedure Law ("EDPL") in connection with the proposal of the City of New York to acquire property needed for the DEP Bluebelt Program to address flooding on Todt Hill Road and the areas surrounding its intersection with Willow Pond Road (the "Project"). The proposed acquisition is a vacant, privately-owned approximately 35,000 square foot lot, located at 69 Whitlock Avenue (Staten Island Block 908, Lot 16) (the "Proposed Acquisition"). The hearing provided an opportunity for the public to comment on the Proposed Acquisition.

As provided by section 202 of the EDPL, notices were mailed to all affected property owners and published in The City Record and the Staten Island Advance advising the public that a hearing would be held on October 18, 2021, and comments would be received concerning the public use, benefits, and purposes to be served by the Proposed Acquisition and other pertinent facts. The hearing notices also informed the public that they would be given a reasonable opportunity to comment on the Proposed Acquisition.

The October 18, 2021, hearing provided an opportunity for the public to comment on the Proposed Acquisition. At the hearing, a representative of the City presented information concerning the public use, benefits and purposes to be served by the Proposed Acquisition, the Project location, the reasons for the selection of that location and the associated acquisition, and the general effect of the Project on the environment and residents. The record of the hearing remained open for written comments until 5:00 P.M., November 1, 2021. The owner of Block 908, Lot 16, Mr. Hamim Syed, attended and spoke at the hearing, and his statement is included in the record. No other attendees provided comments, and no written comments were received after the hearing. The City made available for public inspection copies of the hearing transcript and the exhibits introduced at the hearing, such as the notice of public hearing, affidavits of service and publication of the notice, map of the Proposed Acquisition, the authority upon which the Proposed Acquisition is based, and the Notice of Completion of Final Environmental Impact Statement and Technical Memorandum.

Pursuant to 204(B) of the EDPL, and having given due consideration to the complete hearing record, which includes all documents submitted, the City by and acting through its Department of Environmental Protection ("DEP") makes the following Determination and Findings with respect to the Proposed Acquisition for the DEP Bluebelt Program.

1. The public use, benefit, and purpose to be served by the proposed Project [EDPL §204(B)(1)]

The DEP Bluebelt Program is a multi-purpose program that provides comprehensive stormwater management and reduces chronic street and property flooding while preserving and enhancing wetlands. Bluebelts are engineered hydraulic systems situated at the nexus of the sewer pipes and the natural environment. The Proposed Acquisition furthers the purpose of the DEP Bluebelt Program by enabling the construction of a stormwater drainage feature known as a Best Management Practice (BMP) designed to calm stormwater flow and runoff from existing and new stormwater sewers along Todt Hill Road and Whitlock Avenue and slowly discharge it into Moravian Brook on an adjacent property owned by the State of New York and leased to the Richmond County Club. The BMP to be constructed within the Proposed Acquisition will provide extended water detention, which in turn will better alleviate flooding on Todt Hill Road. This BMP in this location will also allow DEP to construct new sewers to address flooding in the upstream neighborhoods and on Todt Hill Road without exacerbating flooding and erosion in downstream neighborhoods.

2. The approximate location for the proposed public Project and the reasons for the selection of that location [EDPL 204§(B)(2)]

To preserve storage capacity and maintain existing natural systems, DEP has already acquired numerous properties in Staten Island as part of the DEP Bluebelt Program in the Mid-Island Watersheds. The Proposed Acquisition, Staten Island Block 908, Lot 16, is within the Mid-Island Watershed. The drainage plan developed in the Final Environmental Generic Impact Statement and Drainage Plan supporting the acquisition of the Mid-Island Watershed properties (FGEIS) separated the stormwater systems along Todt Hill Road into upper and lower portions which would discharge to separate BMPs, designated NC-4 (upper) and NC-5 (lower). The Project would build the NC-4 BMP serving the uppermost portion of the stormwater system. An assessment by New York City's Department of Design and Construction in 2017, found that building out the storm sewer system in two phases was substantially less expensive than by-passing the originally proposed NC-4 BMP and constructing a single system to NC-5 due to the progressively larger volumes that must be handled by a single system.

As part of the Project, DEP selected Block 908, Lot 16 in order to construct a 0.8 acre BMP, which will be able to manage the anticipated stormwater volumes in its 103-acre contributing area. This will allow the BMP to provide an extended detention function, which in turn will

better alleviate flooding on Todt Hill Road while protecting Moravian Brook from storm surges.

The Proposed Acquisition was approved by the City Planning Commission through the City's Uniform Land Use Review Procedure on September 11, 2019 (Cal. No. 17).

3. The general effect of the proposed Project on the environment and residents of the locality [EDPL 204§(B)(3)]

DEP prepared the FGEIS for the Mid-Island Watersheds, which was published on November 4, 2013. In the FGEIS, DEP, acting as lead agency, and in accordance with the requirements of the New York City Environmental Quality Review (CEQR), as set forth in Executive Order 91 of 1977, and its amendments, and Article 8 of the New York Environmental Conservation Law, analyzed the potential for environmental impacts related to the design, construction, and operations of the Staten Island Bluebelt Drainage Plans for the Mid-Island watersheds.

The FGEIS concluded that as a whole the acquisitions for the Bluebelt Program had potential significant adverse impacts in three natural resources areas: vegetation and trees, rare threatened and endangered species, and wetlands. DEP examined mitigation measures to reduce these potential significant adverse impacts where feasible or practical. However, for the specific Proposed Acquisition, the only identified environmental impact is the loss of 0.17 acres of forested wetland, which DEP is required to mitigate. To mitigate the loss of this and other forested wetlands impacted by the Bluebelt Program, DEP developed a forested wetland mitigation plan, which will result in wetland creation or enhancement in other areas of Staten Island.

The primary effect of the Proposed Acquisition on residents in the area is to provide new storm sewer services in an area that is currently without and thereby alleviate flooding problems that have chronically plagued this neighborhood. The Bluebelt Program has several projects which have converted private lots to public stormwater infrastructure, and the establishment of permanent open space has often increased the quality of life of the community.

4. Other relevant factors [EDPL 204§(B)(4)]

Mr. Hamim Syed, the owner of Staten Island Block 908, Lot 16, attended the October 18, 2021, Public Hearing and made a statement for the record that he had given the City an easement on the property approximately ten years ago and questioned the need for the Proposed Acquisition. No other attendees made a statement for the record, and no written comments were received by DEP by the closing date of 5:00 P.M., November 1, 2021.

Mr. Syed's comments have been given due consideration.

Determination

Based on due consideration of the record and the foregoing findings, it is determined that the City may exercise its power of eminent domain to acquire Staten Island Block 908, Lot 16 for the purpose of providing stormwater management to the area.

Copies of this Determination and Findings by the City are available and will be forwarded without cost and, upon request, by writing or emailing:
