#### No. 11

CD 14
C 220237 HUQ
IN THE MATTER OF an application submitted by the Department of
Housing Preservation and Development pursuant to Section 505 of
Article 15 of the General Municipal (Urban Renewal) Law of New York
State and Section 197-c of the New York City Charter, for the second
amendment to the Edgemere Urban Renewal Plan.

#### NOTICE

On Wednesday, March 30, 2022, a public hearing is being held by the City Planning Commission (CPC), accessible remotely, in conjunction with the above ULURP hearing to receive comments related to a Draft Environmental Impact Statement (DEIS) concerning an application by the New York City Department of Housing Preservation and Development ("HPD"). HPD is seeking a series of land use actions including zoning map amendments, zoning text amendments, amendments to the Edgemere URP including acquisition of real property, disposition of City-Owned property, Urban Development Action Area (UDAA) designation and Urban Development Action Area Project (UDAAP) approval, and a Mayoral Zoning Override and potential future construction financing from HPD (the "Proposed Actions") to facilitate the development of market-rate and affordable housing and community amenities to benefit the neighborhood in transitoriented areas and discourage future development in areas at greater risk to coastal hazards.

The Project Area is generally bounded by Beach 35th Street to the east, Rockaway Freeway and Rockaway Beach Boulevard to the south, Beach 50th Street and Beach 51st Street to the west, and Jamaica Bay to the north in the neighborhood of Edgemere in Queens Community District 14 on the Rockaway Peninsula.

In total, the reasonable worst-case development scenario (RWCDS) for the Proposed Actions is expected to result in 1,222 residential units in approximately 1,313,659 gross square feet (gsf), including up to 465 affordable units; approximately 115,849 gsf of local retail uses; and approximately 640 new parking spaces. Under the RWCDS, the Proposed Actions would also result in a net increment of 3,568 residents and 389 workers.

Written comments on the DEIS are requested and will be received and considered by the Lead Agency through 5:00 P.M. on Monday, April 11, 2022.

For instructions on how to submit comments and participate remotely, please refer to the instructions at the beginning of this agenda.

This hearing is being held, pursuant to the State Environmental Quality Review Act (SEQRA) and City Environmental Quality Review (CEQR), CEQR No. 21HPD009Q.

The Crisis Management System, is a supporting a set of interrelated services to reduce gun violence in over 88 schools across 40 target neighborhoods. The school-based services component is designed to provide culturally competent programming to at-risk youth to reduce the likelihood of their involvement in violence in their school or community, with the goal of increasing their engagement at school as measured through attendance, academic progress, and other measures. The program can also include school-wide activities to assist in changing the culture around violence and to assist schools in their response to incidents that occur in the school or community.

(a) the current health emergency and the extraordinary challenges of the pandemic emphasizes the urgent need to streamline procurement through the execution and management of multiple subcontracts with a diverse pool of approximately 10-15 competent community-based organizations, to achieve the deliverables of the mayoral announcement of Academic Recovery for all; (b) the significant and drastic increase in gun violence across multiple neighborhoods in New York City that require an immediate response and intervention to interrupt the cycle of violence that impacts students citywide; and (c) the exceptionally limited timeframe to implement the mayoral strategy to expand employment services to New Yorkers to directly impact the build environment to contribute to the healthy and vibrant communities.

BIC is also authorized under sections 16-504(b) and (h) and 16-519 of the Administrative Code to set by rule the maximum rates by weight and by volume that trade waste haulers can charge for the removal of putrescible and recyclable commercial waste, except with respect to commercial waste required to be collected by a designated carter pursuant to Chapter 1 of Title 16-B of the Administrative Code. Rates were last adjusted in August 2018.

In accordance with section 16-519 of the Administrative Code, any change that BIC proposes to the maximum rates must be based on a fair and reasonable return to the licensees who provide waste removal services to commercial establishments in New York City, while also protecting those using these services from excessive or unreasonable charges. To achieve this balance, BIC established an administrative procedure that provides transparency, standardization and regularity in the rate-setting process. Pursuant to Title 17, Chapter 1, § 5-02(f) of the Rules of the City of New York ("RCNY"), BIC held a hearing on September 23, 2021, relating to the maximum rates charged by a licensee for the collection, removal, disposal, or recycling of trade waste. The hearing was attended by representatives of the trade waste industry and other interested parties, some of whom testified at the hearing and submitted written testimony.

The Commission has carefully evaluated the evidence relevant to the maximum rates charged, including, but not limited to, the testimony provided orally at the September 23, 2021, hearing and the written testimony provided prior to and after the hearing. In accordance with the process outlined in RCNY Title 17, Chapter 1, § 5-02(g), BIC has also reviewed the Producer Price Index, as published by the United States Department of Labor Bureau of Labor Statistics, and other relevant factors affecting the trade waste industry and its customers,

including but not limited to data contained in financial statements that licensees are required to file with BIC, as well as certain data regarding increases in operating and capital costs provided to BIC by members of the trade waste industry. BIC also considered the fact that, between the previous rate adjustment and the proposed rule, the global pandemic caused by COVID-19 resulted in a period of serious economic difficulty, presenting ongoing challenges for trade waste haulers and their customers alike. Based on its analysis, BIC proposes to increase the current maximum rates that trade waste haulers can charge by 9%. This increase recognizes the fact that operating costs have risen significantly for trade waste haulers since the last rate cap increase, while also recognizing the difficult economic situation for many businesses in New York City, particularly small businesses. The increase would result in maximum rates of:

- \$22.63 per cubic yard
- \$14.85 per 100 pounds

BIC's authority for these rules is found in sections 1043(a) and 2101(b) of the New York City Charter, and in sections 16-504(b), 16-504(h), and 16-519 of the Administrative Code.

New text is <u>underlined</u>; deleted text is in [] brackets.

Section 1. Subdivision (a) of section 5-02 of subchapter E of Chapter 1 of Title 17 of the Rules of the City of New York is amended to read as follows:

- (a) A trade waste removal business must not demand, charge, exact, or accept rates for the collection, removal, disposal, or recycling of trade waste greater than the following maximum rates:
  - (1) [\$20.76] <u>\$22.63</u> per cubic yard.
  - (2) [\$13.62] <u>\$14.85</u> per 100 pounds.
  - (3) Exempt Waste. This subdivision does not apply to the removal of construction and demolition debris, infectious medical waste, covered electronic equipment as defined in \$16-421 of the Code, waste from grease interceptors as defined in 15 RCNY § 19-11(a) and paper that is collected for the purpose of shredding or destruction by the licensee.
