These actions would enable a nine-story, mixed-use building with 8,000 sf of ground-floor commercial space and 48 units of which approximately 13 would be affordable, pursuant to MIH Option 1.

Pursuant to Section 3-05 of the NYC Procurement Policy Board Rules, it is the intent of The New York City Department of Correction to enter into a Sole Source negotiation, with APPRISS INSIGHTS, with offices located at 9901 Linn Station, Suite 200, Louisville, KY 40223 for the Automated Victim Notification Everyday Services (VINE). The New York City Department of Correction (DOC) is legally required to provide a victim notification service to advise the public of certain information related to defendants in criminal court cases. Victim Information and Notification Everyday or "VINE" was enacted by the state Legislature in 1998 as part of Jenna's Law, which ended discretionary parole for first-time violent felony offenders. The contract shall maintain the VINE system in full operational order through the term of the agreement.

The City of New York has established a free 24-hour hotline service that provides information about the custody status of caller-specified inmates in New York City Department of Correction jails and initiates automated notifications to registered callers about the release of those inmates. VINE was created to give crime victims easier access to important custody information about whether a particular inmate is still incarcerated.

VINE monitors only New York City Department of Correction (DOC) inmates, not those held in police lockups, federal detention facilities, state prisons, or juvenile detention centers. Defendants 16 years and older are committed by courts to DOC custody at arraignment, if unable to make bail or if remanded without opportunity for bail.

What Does VINE Do?

- Confirms if an inmate is in custody.
- Allows the caller to register to receive an automated telephone alert if the inmate is released or transferred from DOC custody.
- Initiates the telephone notification to the registered caller that the inmate has been released or transferred from DOC custody.

Any vendor besides APPRISS INSIGHTS that believe it can provide the above referenced services may express interest responding to the RFI E-PIN 07222Y0073 in PASSPort no later than the date specified above.

CHARACTERIZATION AND STUDY OF GRANULAR ACTIVATED CARBON - Government to Government - PIN# 82622T0001 - Due 6-23-22 at 8:00 P.M.

DEP, intends to enter into a Government to Government agreement, with The City University of New York, on behalf of City College of New York for 1574-CRB: for the Characterization and Study of Granular Activated Carbon.

The New York City Department of Environmental Protection treats odorous air using granular activated carbon at various locations. Over time, as the carbon is exposed to a contaminated air stream, it becomes exhausted and is no longer able to absorb Hydrogen Sulfide (H₂S), which limits its capacity to treat odorous air. It is therefore important to periodically determine the condition of the existing carbon and to determine its best and most efficient use, as well as whether other sources or products would be more effective in treating odorous air. This Project is intended to examine the condition of the existing carbon at each of the locations, as well as perform research to provide additional information regarding various properties of different types of granular activated carbon for the future benefit of DEP, CUNY and the public. Any firm which believes it can also provide the required service IN THE FUTURE, is invited to so, indicated by letter, which must be received no later than June 23, 2022, 4:00 P.M., at: Department of Environmental Protection, Agency Chief Contracting Officer, 59-17 Junction Boulevard, 17th Floor, Flushing, NY 11373, Attn: Glorivee Roman, glroman@dep.nyc.gov, (718) 595-3226.
