BOROUGH PRESIDENT - BROOKLYN

■ PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN THAT, pursuant to Section 201 of the New York City Charter, the Brooklyn Borough President will hold an ULURP hearing on the matters below in person, at 6:00 P.M., on Monday, November 21, 2022, in the Borough Hall Courtroom. The meeting will be recorded for public transparency.

Please note that while members of the public are no longer required to wear masks at Borough Hall, all attendees must be able to show proof of vaccination, per building policy.

For further information on accessibility or to make a request for accommodations, such as sign language interpretation services, please contact Corina Lozada, at corina.lozada@brooklynbp.nyc.gov, at least five (5) business days in advance to ensure availability.

Testimony at the hearing is limited to 2 minutes, unless extended by the Chair. The Borough President welcomes written testimony on all agenda items. For timely consideration, comments must be submitted to testimony@brooklynbp.nyc.gov, no later than Monday, November 28, 2022.

The following agenda item will be heard:

1880-1888 Coney Island Avenue Rezoning (210090 ZMK, 210091 ZRK)

An application by Plaza Realty LLC, pursuant to Sections 197-c and 201 of the New York City Charter affecting all or part of 15 lots on the west side of Coney Island Avenue between avenues O and P, within the Special Ocean Parkway District (OP). The applicant seeks a zoning map amendment to change the project area from C8-2/OP to C4-5A/OP, and a zoning text amendment to establish a coterminous Mandatory Inclusionary Housing (MIH) area. These actions would enable a development of two attached 8-story buildings with 231 units, 36,456 square feet (sf) of ground-floor commercial space, and 245 parking spaces in the cellar. Approximately 60 units would be affordable pursuant to MIH Option 1.

In addition, to view the **Arthur Kill Terminal** Draft Scope of Work and the Environmental Assessment Statement, navigate, to the project page in ZAP and select Public Documents, then "Draft Scope of Work_23DCP056R" and "EAS_23DCP056R." To view the Scoping Protocol, select the Public Documents, then "Scoping Protocol."

Please inform the Department of City Planning if you need a reasonable accommodation, such as a sign language interpreter, in order to participate in the meeting. Requests for a reasonable accommodation or foreign language assistance during the meeting should be emailed to AccessibilityInfo@planning.nyc.gov or by calling (212) 720-3508. Requests must be submitted, at least ten business days before the meeting, by Thursday, December 1, 2022.

The applicant, Arthur Kill Terminal, LLC, is seeking a series of land use actions including a Zoning Text Amendment, Zoning Authorizations, a Special Permit, a City Map Amendment, and a Landfill action affecting an approximately 32.5-acre property ("the Project Site") along the Arthur Kill waterfront in Staten Island Community District 3. The Project Site encompasses Block 7620, Lot 1 and Block 7632, Lots 6, 50, 150, and 151, and is, bounded by the Outerbridge Crossing, to the north, Arthur Kill Road, to the east, the mapped but non-dedicated and unbuilt Richmond Valley Road extension and the shoreline of Mill Creek, to the south, and the Arthur Kill waterway to the west.

The Proposed Actions would facilitate the development and construction of a special-purpose marine terminal for the staging and assembly of offshore wind turbine generator ("WTG") components supporting the installation of offshore wind ("OSW") farms in the Mid-Atlantic region and other proximate areas along the East Coast and support New York State's green energy goals. Upon completion, the Project Site would contain approximately 32.5 acres of reinforced, 90% permeable upland area, with a quayside and laydown area for the staging and assembly of OSW components. The Project Site would include a 1,365-foot quay, a 22,472 gross square foot ("gsf") warehouse building containing 15,266 gsf of warehouse use, 7,206 gsf of accessory office space, and parking for employees and visitors. An additional 4,212 gsf of office space would be created in the existing Cole House and utilized as both office space and a visitor's area. The two buildings on-site (the warehouse and the existing Cole House) would each stand, at two stories, (48 and 33 feet tall, respectively) including mechanical bulkheads. The warehouse would include 109 accessory parking spaces and the Cole House would include 12 accessory parking spaces. The 32.5-acre Project Site and the proposed approximately 18-acre basin for vessel operations (the "Dredge Basin") comprise the 50.5-acre Project Area.

Development of the Proposed Project requires approvals from the City Planning Commission (CPC) for the following actions:

- Zoning Text Amendment to Article X, Chapter 7 of the Zoning Resolution (ZR) is being proposed to establish goals for the Special South Richmond District ("SRD") related to sustainability, resiliency, climate and clean energy objectives (ZR § 107-00)
- Zoning Text Amendment to modify tree removal regulations (ZR § 107-64);
- Zoning Text Amendment to modify topography modification regulations (ZR § 107-65);
- Special Permit, pursuant to ZR § 107-73 (Exceptions to Height Regulations), to allow a structure having a height of greater than 50 feet that would otherwise be prohibited under ZR § 107-43;
- Zoning Authorization, pursuant to ZR §107-64 (Removal of Trees), as modified, to allow the removal of approximately 1,209 trees of six-inch caliper or more, removal of which would otherwise be prohibited under ZR §107-321;
- Authorization, pursuant to ZR § 107-65 (Modification of Existing Topography), as modified, to allow topographic modification of greater than two feet that would otherwise be prohibited under ZR § 107-312;
- Authorization, pursuant to ZR §107-68 (Modification of Group Parking Facility and Access Regulations) to allow more than 30 accessory off-street parking spaces;
- A City Map Amendment to eliminate, discontinue, and close the segment of Richmond Valley Road west of Arthur Kill Road;
- A Landfill action to add approximately 8.77 acres of fill to create a quay along the Arthur Kill waterway.

A concurrent application by the New York City Department of City Planning may modify some of the preceding zoning resolution sections. Therefore, there may be adjustments, to the specific zoning resolution section numbers and names, though the project facilitated will remain the same.

Development of the Proposed Project also requires a number of additional City, State, and Federal discretionary actions, including but not necessarily limited, to the following:

- NYSDEC tidal wetlands permit and water quality certification;
- USACE permits for freshwater wetlands and discharge of fill materials into U.S. waters;
- Individual NYSDEC SPDES permits for operation and construction discharges.

Implementation of the proposed actions would require review and approval of the discretionary action pursuant, to the City's Uniform Land Use Review Procedure (ULURP). DCP is acting as lead agency on

behalf of the CPC and is conducting a coordinated environmental review under the City Environmental Quality Review (CEQR) process. The analysis year for the Proposed Actions is 2025.

“Compete To Win” More Contracts!

Thanks to a new City initiative - “Compete To Win” - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and Women-Owned Businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- Win More Contracts, at nyc.gov/competetowin

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed, to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR PREQUALIFICATION

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic HHS Accelerator Prequalification Application using the City’s PASSPort system. The PASSPort system is a web-based system maintained by the City of New York for use by its Mayoral Agencies to manage procurement. Important business information collected in the Prequalification Application is required every three years. Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete. Prequalification applications will be reviewed to validate compliance with corporate filings and organizational capacity. Approved organizations will be eligible to compete and would submit electronic proposals through the PASSPort system. The PASSPort Public Portal, which lists all RFPs, including HHS RFPs that require HHS Accelerator Prequalification, may be viewed at https://passport.cityofnewyork.us/page.aspx/en/rfp/request_browse_public. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding. For additional information about HHS Accelerator Prequalification and PASSPort, including background materials, user guides and video

tutorials, please visit <https://www1.nyc.gov/site/mocs/systems/about-go-to-passport.page>.

There will be a recommended remote proposer meeting on Friday, November 18, 2022, at 1:00 P.M. If you are considering responding to this RFP, please make every effort to attend this recommended remote proposer meeting.

Subject to availability and by appointment only, we may set up a meeting at the proposed concession site, which is located at the existing facility, at West 16th Street and the Boardwalk, Brooklyn.

All proposals submitted in response to this RFP must be submitted no later than Friday, December 16, 2022, at 3:00 P.M.

Hard copies of the RFP can be obtained at no cost, commencing November 10, 2022 through December 16, 2022, by contacting Andrew Coppola, Senior Project Manager, at (212) 360-3454, or at Andrew.Coppola@parks.nyc.gov.

The RFP is also available for download, on November 10, 2022 through December 16, 2022, on Parks' website. To download the RFP, visit <http://www.nyc.gov/parks/businessopportunities>, and click on the "Concessions Opportunities at Parks" link. Once you have logged in, click on the "download" link that appears adjacent to the RFP's description.

For more information or if you cannot attend the remote proposer meeting, prospective proposers may contact Andrew Coppola, Senior Project Manager, at (212) 360-3454, or at Andrew.Coppola@parks.nyc.gov.

CORRECTION: NEW CAPABILITY PROJECT / DIGITAL EXPERIENCE PLATFORM - Request for Qualifications - PIN# 23-000XXRJT - Due 11-18-22 at 2:00 P.M.

The New York City School Construction Authority ("SCA"), has approximately 1300 staff, and 3,000 + external partners accessing our systems. The SCA is seeking a qualified developer/ designer ("Consultant"), to redesign the SCA's existing Digital Experience Platform (<https://www.nycsca.org>). The Digital Experience Platform must be designed and organized in a manner that follows modern web standards in design, security, ADA WCAG 2.0 AA, and functionality with a focus on providing information and services to the SCA's client users. The Digital Experience Platform must also have a user-friendly backend that can be easily operated by employees with non-technical backgrounds. The SCA aims to implement best practices and technologies, revise the information architecture, and improve content strategy and visual design.

This RFQEI seeks responses from consultants and associated products which would serve the needs of the SCA. We believe that there are many consultants that can satisfy our needs in regard to a platform. The ideal respondent has a proven track record on creating Business to Business and Government to Consultant websites.

The Consultant must have experience creating client-driven information architecture and graphic design that facilitates the SCA's engagement with its audience. The SCA website should be designed to meet the needs of companies seeking to do business with the SCA, vendors currently engaged with SCA contracts, and the general public. The Consultant must provide all labor, equipment, and expertise to efficiently review, evaluate, and produce multiple website designs for evaluation. The Consultant must have experience designing and/or redesigning websites, with special consideration for Consultants who have done so for public organizations or construction related firms.

The SCA also requires self-service portals for external users such as design firms, contractors, and the general public. The Consultant will guide the SCA through a needs/requirements analysis to identify and evaluate all possible design options and elements. Functional elements of the Digital Experience Platform must include:

1. Promotion of communication tools such as web posts, event calendars, and links to SCA social media (Twitter, Instagram, YouTube etc...) through robust integration.
2. Analytics integration that provides information on traffic analysis reporting capabilities and available metrics for user/system response times such as number of visitors, page views, and frequently visited pages
3. Security features to prevent website hacking or defacement
4. Third party integration

Other features that the Digital Experience Platform may require are listed in the Appendix at the end of the document.

Below are examples of the types of interactions customers currently have with our website. It is not comprehensive, and Consultants should explain how they would expand upon the user stories below to ensure our website serves all of our potential customers.

1. A design consultant, Construction Company, or other vendor is interested in potentially working with the SCA. The website should explain how to work with us, how to get prequalified, how to bid on our work, and what the benefits are to working with us.
2. A vendor has been awarded a contract and wants to know about the specifications and requirements to working with us and how to get paid.
3. A member of the public or elected official is interested in finding out about the work going on in their school district.
4. A member of the public is interested in becoming an SCA employee.
5. A member of the Minority-Owned Business, Women-Owned Business, or Locally Based Enterprise community wants to find out the benefits of being certified by the SCA and what special programs we run for them. The SCA has a variety of bespoke systems and COTS applications that will need to integrate with this solution. MS Active Directory integration - is our user access management tool, Vendor Access System, and APIs.

Submission: Please provide a written proposal with the following sections:

1. A letter of your interest in working with the School Construction Authority to provide a solution.
2. The firm's contact information
3. Please fill out the embedded spreadsheet with your answers to the queries.
4. All services, functions, and features the firm offers related to website design/redesign.
5. The firm's qualifications for the project including key personnel
6. A summary of firm's recent experience with similar projects including timeline, payment method (hourly rates, lump sum, etc.) and total cost
7. Examples of existing designs/redesigns e.g., web links, before and after shots, etc.
8. If awarded, please explain how this project will be integrated into the firm's present workload
9. Describe a government client engagement if any
10. Describe your experience partnering with Minority Owned, Women Owned or local New York City enterprises to deliver your product or services.
11. Described how your product and services are licensed

The SCA is implementing a two-step procurement process. Our initial step is asking prospective consultants to demonstrate certain qualifications in response to this RFQEI. Thereafter the SCA will evaluate procurement methods available and move towards consultant selection. The SCA may choose to short list respondents to this RFQEI to provide a live demonstration of your solution. Although proposing firms need not be pre-qualified by the SCA at the time of bid, each firm must be pre-qualified prior to contract award.

Interested firms should respond via email submitting their qualifications and expression of interest.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

POSITIVE DECLARATION

Project Identification	Lead Agency
Arthur Kill Terminal	City Planning Commission
CEQR No. 23DCP056R	120 Broadway
ULURP Nos. Pending	New York, NY 10271
SEQRA Classification: Type I	Contact: Stephanie Shellooe (212) 720-3328

Name, Description and Location of Proposal:

Arthur Kill Terminal

The applicant, Arthur Kill Terminal, LLC, is seeking a series of land use actions including a Zoning Text Amendment, Zoning Authorizations, a Special Permit, a City Map Amendment, and a Landfill action affecting an approximately 32.5-acre property (“the Project Site”) along the Arthur Kill waterfront in Staten Island Community District 3. The Project Site encompasses Block 7620, Lot 1 and Block 7632, Lots 6, 50, 150, and 151, and is, bounded by the Outerbridge Crossing, to the north, Arthur Kill Road, to the east, the mapped but non-dedicated and unbuilt Richmond Valley Road extension and the shoreline of Mill Creek, to the south, and the Arthur Kill waterway, to the west.

The Proposed Actions would facilitate the development and construction of a special-purpose marine terminal for the staging and assembly of offshore wind turbine generator (“WTG”) components supporting the installation of offshore wind (“OSW”) farms in the Mid-Atlantic region and other proximate areas along the East Coast and support New York State’s green energy goals. Upon completion, the Project Site would contain approximately 32.5 acres of reinforced, 90% permeable upland area, with a quayside and laydown area for the staging and assembly of OSW components. The Project Site would include a 1,365-foot quay, a 22,472 gross square foot (“gsf”) warehouse building containing 15,266 gsf of warehouse use, 7,206 gsf of accessory office space, and parking for employees and visitors. An additional 4,212 gsf of office space would be created in the existing Cole House and utilized as both office space and a visitor’s area. The two buildings on-site (the warehouse and the existing Cole House) would each stand, at two stories, (48 and 33 feet tall, respectively) including mechanical bulkheads. The warehouse would include 109 accessory parking spaces

and the Cole House would include 12 accessory parking spaces. The 32.5-acre Project Site and the proposed approximately 18-acre basin for vessel operations (the “Dredge Basin”) comprise the 50.5-acre Project Area.

Development of the Proposed Project requires approvals from the City Planning Commission (CPC) for the following discretionary actions:

- Zoning Text Amendment to Article X, Chapter 7 of the Zoning Resolution is being proposed to establish goals for the SRD related to sustainability, resiliency, climate and clean energy objectives (ZR § 107-00)
- Zoning Text Amendment to modify tree removal regulations (ZR § 107-64);
- Zoning Text Amendment to modify topography modification regulations (ZR § 107-65);
- Special Permit, pursuant to ZR § 107-73 (Exceptions to Height Regulations), to allow a structure having a height of greater than 50 feet that would otherwise be prohibited under ZR Section 107-43;
- Zoning Authorization, pursuant to ZR §107-64 (Removal of Trees), as modified, to allow the removal of approximately 1,209 trees of six-inch caliper or more, removal of which would otherwise be prohibited under ZR §107-321;
- Authorization, pursuant to ZR § 107-65 (Modification of Existing Topography), as modified, to allow topographic modification of greater than two feet that would otherwise be prohibited under ZR § 107-312;
- Authorization, pursuant to ZR §107-68 (Modification of Group Parking Facility and Access Regulations) to allow more than 30 accessory off-street parking spaces;
- A City Map Amendment to eliminate, discontinue, and close the segment of Richmond Valley Road west of Arthur Kill Road;
- A Landfill action to add approximately 8.77 acres of fill to create a quay along the Arthur Kill waterway.

A concurrent application by the New York City Department of City Planning may modify some of the preceding zoning resolution sections. Therefore, there may be adjustments, to the specific zoning resolution section numbers and names, though the project facilitated will remain the same.

Development of the Proposed Project also requires a number of additional City, State, and Federal discretionary actions, including but not necessarily limited, to the following:

- NYSDEC tidal wetlands permit and water quality certification;
- USACE permits for freshwater wetlands and discharge of fill materials into U.S. waters;
- Individual NYSDEC SPDES permits for operation and construction discharges.

Implementation of the proposed actions would require review and approval of the discretionary actions pursuant, to the City’s Uniform Land Use Review Procedure (ULURP). DCP is acting as lead agency on behalf of the CPC and is conducting a coordinated environmental review under the City Environmental Quality Review (CEQR) process.

The analysis year for the Proposed Actions is 2025.

Statement of Significant Effect:

On behalf of the City Planning Commission (CPC), the Department of City Planning has determined, pursuant to 6 NYCRR Part 617.7, that the Proposed Actions may have a significant adverse effect on the environment as detailed in the following areas, and that an environmental impact statement will be required:

The Proposed Actions may result in significant adverse impacts related to: land use, zoning, and public policy; historic and cultural resources; urban design and visual resources; natural resources; hazardous materials; water and sewer infrastructure; transportation; air quality; greenhouse gas emissions and climate change; noise; public health; neighborhood character; and construction.

The Proposed Actions would not result in significant adverse impacts related to: socioeconomic conditions; community facilities; open space; shadows; solid waste and sanitation services; and energy.

Supporting Statement:

The above determination is based on an Environmental Assessment Statement prepared for the Proposed Actions which finds that:

1. Land Use, Zoning, and Public Policy - The Proposed Actions include a series of land use actions including a City Map change, a Zoning Text Amendment, a Special Permit, three

- Zoning Authorizations, and a Landfill action that would affect an approximately 1,417,014 square foot (sf) area along the Arthur Kill waterfront in Staten Island Community District 3. Several public policies are applicable to portions of the Project Area and surrounding study area, including the New York City Waterfront Revitalization Program (WRP), and the City's sustainability plan known as OneNYC 2050. Therefore, an assessment of land use, zoning, and public policy is warranted, and will be provided in the EIS.
2. Socioeconomic Conditions – The Proposed Actions would not result in the introduction of a substantial new residential population which would have the potential to result in indirect residential displacement in the surrounding area, nor would it result in the displacement of residential or commercial uses, introduce a substantial amount a new retail space, or affect conditions in a specific industry. Therefore, the Proposed Actions do not have the potential to result in significant adverse impacts related to do socioeconomic conditions and no further analysis of socioeconomic conditions is warranted.
 3. Community Facilities – The Proposed Actions would not displace any existing community facilities or services, nor would they result in a new residential population that would create new demand for community facilities, such as public schools, early childhood programs, libraries, health care facilities, and police or fire services. Therefore, the Proposed Actions do not have the potential to result in significant adverse impacts to community facilities and no further analysis is warranted.
 4. Open Space – The Proposed Actions would result in an incremental increase of approximately 207 workers per day and a net reduction of three residents compared, to the No-Action Condition. As such, the Proposed Project facilitated by the Proposed Actions would not exceed the *CEQR Technical Manual* screening threshold for open space analysis. The Proposed Project would also not directly displace any existing publicly accessible open space. Therefore, the Proposed Actions do not have the potential to result in significant adverse impacts to open space and no further analysis of open space is warranted.
 5. Shadows – The Proposed Actions would result in the development of a 48-foot-tall two-story warehouse building. Under the With-Action Condition, the new two-story structure would not be located adjacent to any publicly-accessible open space or other sunlight-sensitive resource. Wind turbine generator components would be assembled in the staging area before being loaded onto vessels for transport. Any shadow cast by these WTG would be temporary and would not result in a permanent shadows impact to any sunlight-sensitive receptors. Therefore, further analysis of shadows is not warranted.
 6. Historic and Cultural Resources – Although an early-19th century house, known as the Cole House, is located on the Project Site, LPC has previously rejected an application to designate the Cole House as a City landmark, and the New York State Historic Preservation Office has determined, in 2016, that it is not eligible for listing on the State/National Registers of Historic Places (S/NR). While the Project Site does not encompass any designated historic architectural resources, it is located directly south of the S/NR-eligible Outerbridge Crossing. As such, an assessment of potential effects on historic architectural resources will be provided in the EIS, as described in the Draft Scope. The Proposed Actions would facilitate new excavation and/or removal of fill, at depths greater than currently exist on the Project Site. Due, to the Project Site's potential for archaeological significance, an assessment of archaeological resources is warranted, and will be provided in the EIS, as described in the Draft Scope.
 7. Urban Design and Visual Resources – The Proposed Actions would result in physical changes, to the Project Site beyond what is currently permitted as-of-right. This would include construction of a new port facility designed for the staging, assembly and pre-commissioning of wind turbine generators and other OSW components, as well as the demapping of a portion of Richmond Valley Road west of Arthur Kill Road. These changes could affect a pedestrian's experience of public space, requiring an urban design assessment. The Project Site is also located within 400-feet of an eligible architectural resource, which is considered a potential visual resource. Therefore, an assessment of urban design and visual resources will be provided in the EIS, as described in the Draft Scope.
 8. Natural Resources – The Project Site includes natural resources that would be directly affected by the Proposed Project, and the site is bounded, to the west by Arthur Kill.
- The Proposed Project would also entail in-water work. Therefore, a natural resources assessment is warranted for the Proposed Actions, and will be included in the EIS.
9. Hazardous Materials – The Project Site is zoned M1-1/M3-1 and was historically occupied by industrial uses. The Proposed Actions would facilitate construction of a new port facility and accessory on-site warehouse/office building, which would entail new in-ground excavation and subsurface disturbance. Therefore, the EIS will include an assessment of hazardous materials, at the Project Site, as described in the Draft Scope.
 10. Water and Sewer Infrastructure – For the Proposed Actions, an analysis of water supply is not warranted because the Reasonable Worst Case Development Scenario would result in a demand of less than one million gallons per day compared, to the No-Action condition. It is estimated that the Proposed Project's total water demand would be approximately 7,204 gallons per day, a net increase of approximately 6,904 gallons per day compared, to the No-Action Condition. As the Proposed Project would not exceed the threshold set forth in the *CEQR Technical Manual*, a detailed assessment of water supply and wastewater conveyance is not warranted and no significant adverse impacts are anticipated. As the Project Site is larger than five acres, and the amount of impervious surface would increase because of the Proposed Actions, a stormwater assessment is warranted and will be provided in the EIS, as described in the Draft Scope.
 11. Solid Waste and Sanitation – The Proposed Actions would not result in a substantial increase in solid waste production that would overburden available waste management capacity and would not result in solid waste generation greater than the threshold of 50 tons per week. Therefore, no significant adverse impacts related to do solid Waste and Sanitation are expected and further analysis will not be provided in the EIS.
 12. Energy – The Proposed Project would not result in any significant adverse impacts, to the transmission or generation of energy due, to the minimal amount of consumption, and therefore a detailed energy assessment is not warranted and will not be provided in the EIS.
 13. Transportation – Based on the preliminary Travel Demand Forecast Technical Memorandum and vehicle trip assignments, detailed analyses of transit, ferry, pedestrian, street user safety, vessel traffic, and parking conditions are not warranted and will not be included in the EIS. The Proposed Actions would generate vehicle trips and have the potential to result in significant adverse impacts related to traffic. Therefore an assessment of vehicle traffic is warranted and will be provided in the EIS.
 14. Air Quality – The Proposed Actions would result in the conditions outlined in Section 220 of Chapter 17 of the *CEQR Technical Manual*. Operational stationary source air quality emissions would be emitted from the logistics and deliveries activities, idling/operating activities of marine vessels while, at berth, onsite material loading activities within the proposed terminal laydown and assembly area, as well as HVAC systems for the 22,472 gsf warehouse/office building and a 4,212 gsf office building. Therefore, an assessment of stationary sources would be conducted, as described in the Draft Scope. In addition, a qualitative and screening analysis will be conducted for mobile source on-road operation, and a detailed mobile source air quality assessment will be included in the EIS to determine the potential for air quality impact from on-site parking facilities.
 15. Greenhouse Gas Emissions (GHG) and Climate Change – The Proposed Project would not exceed 350,000 gsf, and would not be a power generator, and therefore a GHG assessment is not warranted per *CEQR Technical Manual* guidance. However, given the large scale and nature of the project, the EIS will include a qualitative discussion of the Proposed Project's consistency with the City's GHG reduction goals. As the Project Site is located within the current 100- or 500-year flood zone, the EIS will include a discussion of the Proposed Project's resiliency to climate change.
 16. Noise – A detailed noise analysis will be included in the EIS, because the Proposed Actions would generate and reroute vehicular traffic near the vicinity of the Project Site and introduce new on-site noise generating equipment in close proximity to existing sensitive receptors. As operations, at the Project Site would include some noise generating on-site equipment, which are anticipated to operation within 1,500 feet of several existing sensitive receptors with a direct line of site to those receptors, a detailed stationary source noise analysis is warranted and will be included in the EIS as described in the Draft Scope of Work.

- 17. Public Health – Although no adverse impact on public health is anticipated, as the relevant analyses have not yet been completed, the potential for an impact in these analysis areas, and thus potentially to public health, cannot be ruled out, at this time. Should the technical analyses conducted for the EIS indicate that significant unmitigated adverse impacts would occur in the areas of air quality, hazardous materials, or noise, then an assessment of public health will be provided in the EIS, as described in the Draft Scope.
- 18. Neighborhood Character – The proposed action could affect land use, zoning, and public policy, urban design and visual resources and historic and cultural resources, and consequently, the Proposed Actions could have the potential to result in significant adverse impacts related, to the affected area’s neighborhood character. As a result, a Neighborhood Character analysis will be provided in the EIS.
- 19. Construction – Construction of the Proposed Project is expected to take place over a period of 20 to 23 months (i.e., less than two years), and is therefore considered short-term and does not warrant a detailed construction analysis. The EIS will provide a qualitative discussion that will describe the proposed construction program and phasing, and will qualitatively examine the potential short-term construction impacts of the proposed construction on the Project Site, as described in the Draft Scope.

Public Scoping:

The CEQR lead agency hereby requests that the applicant prepare or have prepared, at their option, a Draft Environmental Impact Statement (DEIS) in accordance with 6 NYCRR 617.9(b) and Sections 6-08 and 6-12 of Executive Order No. 91 of 1977 as amended (City Environmental Quality Review).

A public scoping meeting has been scheduled for Thursday, December 15, at 2:00 PM. In support of the City’s efforts to contain the spread of COVID-19, DCP will hold the public scoping meeting remotely. To join the meeting and comment, please visit the NYC Engage site, <https://www.nyc.gov/engage>.

Written comments will be accepted through 5:00 P.M., Tuesday, December 27, 2022.

This determination has been prepared in accordance with Article 8 of the Environmental Conservation Law.

Before the Department of Buildings can issue a permit for the alteration or demolition of a single room occupancy multiple dwelling, the owner must obtain a “Certification of No Harassment” from the Department of Housing Preservation and Development (“HPD”) stating that there has not been harassment of the building’s lawful occupants during a specified time period. Harassment is conduct by an owner that is intended to cause, or does cause, residents to leave or otherwise surrender any of their legal occupancy rights. It can include, but is not limited to, failure to provide essential services (such as heat, water, gas, or electricity), illegally locking out building residents, starting frivolous lawsuits, and using threats or physical force.

The owner of the building identified above has applied for a Certification of No Harassment. If you have any comments or evidence of harassment at this building, please notify HPD at **CONH Unit, 100 Gold Street, 6th Floor, New York, NY 10038** by letter postmarked not later than 30 days from the date of this notice or by an in-person statement made within the same period. To schedule an appointment for an in-person statement, please call **(212) 863-5277** or **(212) 863-8211**.

For the decision on the Certification of No Harassment Final Determination please visit our website at www.hpd.nyc.gov or call 212-863-8266.

Autoridad: SRO, Código Administrativo §27-2093

Antes de que el Departamento de Edificios pueda conceder un permiso para la alteración o demolición de una vivienda múltiple de ocupación de cuartos individuales, el propietario debe obtener una “Certificación

de No Acoso" del Departamento de Preservación y Desarrollo de la Vivienda ("HPD") que indique que tiene no haber sido hostigado a los ocupantes legales del edificio durante un periodo de tiempo especificado. El acoso es una conducta por parte de un dueño de edificio que pretende causar, o causa, que los residentes se vayan o renuncien a cualquiera de sus derechos legales de ocupación. Puede incluir, entre otros, no proporcionar servicios esenciales (como calefacción, agua, gas o electricidad), bloquear ilegalmente a los residentes del edificio, iniciar demandas frívolas y utilizar amenazas o fuerza física.

El dueño del edificio identificado anteriormente ha solicitado una Certificación de No Acoso. Si tiene algún comentario o evidencia de acoso en este edificio, notifique a HPD al CONH Unit, 100 Gold Street, 6th Floor, New York, NY 10038 por carta con matasellos no mas tarde que 30 días después de la fecha de este aviso o por una declaración en persona realizada dentro del mismo periodo. Para hacer una cita para una declaración en persona, llame al (212) 863-5277 o (212) 863-8211.

Para conocer la decisión final sobre la Certificación de No Acoso, visite nuestra pagina web en www.hpd.nyc.gov o llame al 212-863-8266.

LATE NOTICE

BUILD NYC RESOURCE CORPORATION

■ PUBLIC HEARINGS

SUPPLEMENTAL NOTICE OF PUBLIC HEARING

The Build NYC Resource Corporation (the "Corporation") is a not-for-profit local development corporation organized under Sections 402 and 1411 of the Not-for-Profit Corporation Law of the State of New York. In accordance with the aforesaid law, and pursuant to its certificate of incorporation, the Corporation has the power to issue non-recourse revenue bonds or notes and to make the proceeds of those bonds or notes available for projects that promote community and economic development in The City of New York (the "City"), and to thereby create jobs in the non-profit and for-profit sectors of the City's economy. The Corporation has been requested to issue such bonds and notes for the financings listed below in the approximate dollar amounts respectively indicated. As used herein, "bonds" or "notes" are the bonds or notes of the Corporation, the interest on which may be exempt from local and/or state and/or federal income taxes; and, with reference to the bond or note amounts provided herein below, "approximately" shall be deemed to mean up to such stated bond or note amount or a greater principal amount not to exceed 10% of such stated bond or note amount. All other amounts and square footage amounts and wage information shown below are approximate numbers.

Borrower Name: Canal West 75, LLC ("Canal"), a Delaware limited liability company and a disregarded entity for federal income tax purposes whose sole member is PCS Properties Foundation, Inc. ("PCSPF"), a Delaware non-profit, non-stock corporation exempt from federal taxation pursuant to section 501(c)(3) of the Internal Revenue Code of 1986, as amended (the "Code"). **Financing Amount:** \$250,500,000 in tax-exempt bonds (the "Bonds"). The Bonds will be qualified 501(c)(3) bonds issued to finance educational facilities under Section 145 of the Code. **Project Description:** Proceeds from the Bonds will be used as part of a plan of finance to reimburse, finance or refinance (1) the acquisition of 33,565 square foot parcel of land (the "Land") located at 75 Canal Street West, Bronx, NY, the demolition of an existing 12,194 square foot building on the Land, and the construction, furnishing and equipping of a 150,000 square foot facility (the "Facility") on the Land, and (2) certain costs related to the issuance of the Bonds, including capitalized interest and the funding of a debt service reserve fund. The Facility will be owned by Canal, and Canal expects the Facility to be used as an educational facility, initially as a public charter school, and other ancillary related and charitable uses to the extent consistent with PCSPF's status as a section 501(c)(3) organization. The Facility will be initially leased to KIPP NYC Public Charter Schools ("KIPP"), a New York not-for-profit education corporation exempt from federal taxation pursuant to section 501(c)(3) of the Code, that operates public charter schools. KIPP expects to operate the Facility as a public charter school (initially anticipated to serve as a high school), and other ancillary related and charitable uses to the extent consistent with KIPP's status as a section 501(c)(3) organization. **Address:** 75 Canal Street West, Bronx, NY 10451. **Type of Benefits:** Tax-exempt bond financing and exemption from City and State mortgage recording taxes. **Total Project Cost:** \$280,950,000. **Projected Jobs:** 17 full time equivalent retained; 132 full time equivalent projected. **Hourly Wage Average and Range:** \$50.00/hour, estimated range of \$33.00/hour to \$73.00/hour.
