06923Y0162-MAINTENANCE SERVICE OF 2 XEROX NUVERA MICR 100 & 144 PRINTERS, INCLUDING 3X7 EXTENDED SERVICE - Request for Information - PIN#06923Y0162 - Due 11-30-22 at 4:00 P.M.

Office of Information Technology Services of the Department of Social Services, is requesting a Sole Source procurement, for maintenance of two Xerox Nuvera MICR 100 & 144 Printers. The period of service is 1/1/2023 - 12/31/2023. The amount requested for FY'23 is \$210,758.81.

Maintenance for MICR machines is needed, because they are being utilized for printing of MICR line on the checks, and the line is expected to be of a certain guaranteed quality that is pre-approved by banks. Therefore, it is imperative that these printers are being serviced and maintained efficiently so that we do not have to manually program these machines in order to complete any printing task; this reduces the risk of error because of the necessary parameters (e.g., page imposition, page ordering and trimming) and these are set automatically when a job enters the workflow. It also maximizes productivity by enabling prints to be output to stack carts at full rates print speed and is also cost-effective without the need for multiple, dedicated in-line finishing devices.

Xerox Corporation, is the sole source provider for Service and Maintenance for NYC HRA Xerox Nuvera 288 printers.

What authorizes the Department to make these rules? Section 1043(a) and subdivision (c) of section 1403 of the New York City Charter ("Charter") and section 24-105 of the Administrative Code of the City of New York authorize the Department to make these proposed rules. These proposed rules were not included in the Department's regulatory agenda for this Fiscal Year as they were not contemplated at the time of publication of the agenda.

Where can I find the Department's rules? The Department's rules are in Title 15 of the Rules of the City of New York.

What laws govern the rulemaking process? The Department must meet the requirements of Section 1043 of the Charter when creating or changing rules. This notice is made according to the requirements of Subdivision (b) of 1043 of the Charter.

Statement of Basis and Purpose of Rule

This proposed rule makes an adjustment to the definition of "processing device," as set forth in section 39-01 of Title 15 of the Rules of the City of New York to clarify that the six examples of processing devices listed in the rule – a lift, crane, pump, drill, hoist, or mixer – are illustrative, rather than exhaustive.

Section 24-163 of the Administrative Code prohibits, in relevant part, the idling of a motor vehicle engine for longer than three minutes (or one minute if adjacent to a school), unless the engine is used to operate a loading, unloading, or processing device. DEP's rules define "processing device" as a device that is necessary to accomplish the vehicle's designed function via a mechanical connection to the engine,

or is a temperature control system for food or other temperaturesensitive items. In conjunction with the first part of the definition, the rule lists six devices (lift, crane, pump, drill, hoist, or mixer) as examples of "processing devices" after the word "including." This list is not meant to be exhaustive. Instead, these devices are examples of processing devices.

In a recent decision (DEP v. Con Edison, appeal # 2200691), the OATH Appeals Board determined that flashing lights are not processing devices for the purposes of section 24-163 of the Administrative Code. The decision reasoned that flashing lights are not a device that accomplishes the function for which the vehicle was designed. Unlike the six enumerated examples of processing devices, flashing lights are not a mechanical process that the vehicle was constructed to carry out. The Department agrees with that analysis. However, the decision further suggested that any devices not specified after the word "including" in 15 RCNY section 39-01 are understood to be excluded, citing the *expressio unius* canon of construction. It concluded that flashing lights are not processing devices for that additional reason as well.

The Department did not intend to limit the definition of "processing device" to the six enumerated examples. Accordingly, this proposed rule clarifies that the six specified devices are not exhaustive by adding the words "but not limited to" after "including." This adjustment is meant only to clarify the definition of "processing device," and is not intended to alter the scope of the term.

Sections 1043(a) and 1403(c) of the New York City Charter and section 24-105 of the Administrative Code authorize the Department to issue this proposed rule.

New material is underlined.

Section 1. The definition of "Processing Device" in section 39-01 of Title 15 of the Rules of the City of New York is amended to read as follows:

Processing Device. For purposes of section 24-163 of the administrative code, the term "processing device" shall mean:

- (1) a device that accomplishes the function for which the vehicle or equipment was designed, other than transporting goods or people, via a mechanical connection to the engine, including <u>but not limited to</u> operating a lift, crane, pump, drill, hoist, or mixer; or
- (2) a system that controls the environment of temperature-sensitive cargo or substances, including but not limited to food, provided that such cargo or substances are being transported in a vehicle designed for the transportation of such cargo or substances.

The term "processing device" shall not include a heater or air conditioner operated for cabin comfort.

■ NOTICE

PUBLIC NOTICE

Federal Emergency Management Agency In accordance with 44 CFR §9.8 for Executive Orders 11988 & 11990 Proposed Stormwater Resiliency Measures East Harlem, New York County, New York

NOTIFICATION IS HEREBY GIVEN to the public of the intent of the Department of Homeland Security-Federal Emergency Management Agency (DHS-FEMA), to provide Federal funding to the New York City Department of Environmental Protection (NYCDEP) as Subrecipient for financial assistance to install flood control measures, including nature-based detention and retention basins, at eight locations within the Clinton Houses public housing development in the Manhattan neighborhood of East Harlem. Funds are being requested through the Building Resilient Infrastructure and Communities (BRIC) grant program. The purpose of the BRIC grant program is to proactively invest in hazard mitigation projects, reducing the risks that communities face from disasters and natural hazards. This notification is given in accordance with Executive Order (EO) 11988 (Floodplain Management), EO 11990 (Protection of Wetlands), the Federal Coastal Zone Management Act, and 44 CFR Part 9, regulations for implementing EO 11988 and EO 11990.

The proposed project entails the installation of eight sites with green infrastructure interventions at the Clinton Houses development. These interventions will include infiltration-based stormwater system units placed under and above existing open spaces such as basketball courts, parking lots, and other locations. A conveyance system comprising of inlets, perforated pipes, spreader tanks and small bioretention nature-based channels will be utilized to route the rainfall runoff from the Clinton Houses development and surrounding streets into the eight sites. Several sites may also include "water squares," which will allow for water to be stored above ground (up to one foot) in the proposed locations. These sites will be integrated into the community as multi-functional open spaces able to store excessive rainfall runoff while incorporating green infrastructure and nature-based designs.

This action would take place within the 100-year floodplain per the current preliminary flood insurance rate map, which means that the action has the potential to affect, or be affected by, the floodplain. Alternatives considered include: 1) taking no action and 2) the proposed alternative to install the green infrastructure at the Clinton Houses development. FEMA, has determined that the proposed alternative is the most practicable to combat the increasing threat of stormwater flooding that is known to impact this community. FEMA has also determined that investment of funds to reduce flood risk is in the public interest. Potential impacts to water quality or aquatic habitat are anticipated to be negligible during construction and minimized through best management practices and conservation measures incorporated from resource agency recommendations and required regulatory permits.

Comments about this project, potential alternatives, and floodplain impacts may be submitted in writing within 15 days of the date of this publication to: FEMA Region 2, Attn: Environmental Planning and Historic Preservation, 26 Federal Plaza, New York, NY 10278, or via email, to FEMAR2COMMENT@fema.dhs.gov. If substantive comments are received, FEMA will evaluate and address the comments as part of the environmental documentation for this project.
