Requests for a reasonable accommodation or foreign language assistance during the meeting should be emailed to AccessibilityInfo@planning.nyc.gov or made by calling (212) 720-3508. Requests must be submitted at least ten business days before the meeting, by Friday, February 16, 2023.

The Applicant, Lenox Hill Hospital ("LHH") is seeking the approval of a series of discretionary actions including a zoning map amendment, zoning text amendment, special permits, and a zoning authorization (the "Proposed Actions"). The Proposed Actions would facilitate the enlargement and modernization of the existing LHH complex located on the 1.9-acre block bounded by Park and Lexington Avenues and East 76th and East 77th Streets (Block 1411, Lots 1 and 113; "Projected Development Site 1") in the Upper East Side neighborhood of Manhattan Community District 8. The Proposed Project would include a new approximately 771,000 gross square foot (gsf), 26-story building rising to a height of approximately 436 feet; 56,000 gsf of additions to the existing LHH; renovations to the existing hospital to accommodate connections to the new hospital building; improvements to the new internal loading docks (East 76th Street); off-street parking for ambulances (East 77th Street); and improvements to the Lexington Avenue 77th Street subway station which would provide for 725 sf of new open area at street level. Construction of the Proposed Project would result in a state-of-the-art 1,398,000 gsf (12.5 FAR) hospital complex that would include 475 single-bedded patient rooms, 30 operating suites, and a right-sized emergency department.

The Proposed Actions may facilitate redevelopment of one additional site; therefore, the environmental review considers a future with-action scenario that also includes Projected Development Site 1a, an existing LHH building located at 111-115 East 77th Street (Block 1412, Lots 9, 10, and 11). The future with-action scenario also includes a below grade utility tunnel containing a separate utility and pedestrian/service corridor under 77th Street connecting Projected Development Sites 1 and 1a.

Specifically, the Proposed Actions include:

- **Zoning map amendment** to rezone the Lexington Avenue frontage of Projected Development Site 1 from a C1-8X district to a C1-9 (R10 equivalent) district; and to rezone the midblock of Projected Development Site 1 from an R8B district to a C1-8 (R9 equivalent) district.
- **Zoning text amendment** to the New York City Zoning Resolution (ZR) to:
 - Map a Mandatory Inclusionary Housing (MIH) area over the rezoned portions of the block.
 - Modify ZR Section 66-513 (Additional rules, limitations, conditions, findings, and requirements) to allow a floor area bonus for transit improvements in addition to other floor area bonuses where explicitly permitted by a special permit of the City Planning Commission (CPC).

- Modify the Special Park Improvement District regulations (ZR Section 92-041) to allow for a community facility bonus pursuant to ZR Section 74-904.
- Create a new special permit under ZR Section 74-904 to allow:
 - A floor area increase of up to 12.0 FAR for a project with a substantial quantity of the zoning lot's floor area dedicated to community facility uses;
 - A further floor area increase in connection with an authorization or special permit pursuant to ZR Section 66-51; and
 - Modifications of applicable bulk regulations.
- **Special Permits** pursuant to new ZR Section 74-904 to facilitate the proposed redevelopment by:
 - Receiving a floor area bonus of 2.0 FAR for a community facility project;
 - Incorporating a further floor area bonus of 0.5 FAR in connection with an authorization pursuant to ZR Section 66-511; and
 - Modifying street wall, height, and setback and other bulk regulations.
- **Authorization** pursuant to ZR Section 66-511 to allow a floor area bonus of 0.5 FAR in connection with a major improvement to a mass transit station.

The Proposed Actions also include an additional non-discretionary ministerial action: CPC chairperson certification of a transit easement volume pursuant to ZR Section 66-21. In addition, the Proposed Project would require a Certificate of Need from the New York State Department of Health (DOH) and the Applicant would likely seek tax-exempt financing of project costs to be issued through the Dormitory Authority of the State of New York (DASNY). A coordinated review will be conducted.

Implementation of the proposed actions would require review and approval of the discretionary action pursuant to the City's Uniform Land Use Review Procedure (ULURP). DCP is acting as lead agency on behalf of the CPC and is conducting a coordinated environmental review under the City Environmental Quality Review (CEQR) process.

The Analysis Year for the Proposed Actions is 2036.

PROCUREMENT

“Compete To Win” More Contracts!

Thanks to a new City initiative - “Compete To Win” - the NYC Department of Small Business Services offers a new set of FREE services to help create more opportunities for minority and Women-Owned Businesses to compete, connect and grow their business with the City. With NYC Construction Loan, Technical Assistance, NYC Construction Mentorship, Bond Readiness, and NYC Teaming services, the City will be able to help even more small businesses than before.

- *Win More Contracts, at nyc.gov/competetowin*

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed, to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR PREQUALIFICATION

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic HHS Accelerator Prequalification Application using the City’s PASSPort system. The PASSPort system is a web-based system maintained by the City of New York for use by its Mayoral Agencies to manage procurement. Important business information collected in the Prequalification Application is required every three years. Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.

Prequalification applications will be reviewed to validate compliance with corporate filings and organizational capacity. Approved organizations will be eligible to compete and would submit electronic proposals through the PASSPort system. The PASSPort Public Portal, which lists all RFPs, including HHS RFPs that require HHS Accelerator Prequalification, may be viewed, at https://passport.cityofnewyork.us/page.aspx/en/rfp/request_browse_public. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding. For additional information about HHS Accelerator Prequalification and PASSPort, including background materials, user guides and video tutorials, please visit <https://www1.nyc.gov/site/mocs/systems/about-go-to-passport.page>.

Email Address"). Bid Submissions sent to any other email address will be disregarded. The subject line of your Bid Submission Email must include the solicitation number and the name of the submitting vendor (e.g. B5670 – 12345 Corporation). Please attach the completed Request for Bids and the Bid Blank documents, to the Bid Submission Email as separate files. Please name the bid blank attachment "Bid Blank" and the completed Request for Bids attachment "RFB." If the files accompanying your bid submission are too large to be transmitted as email attachments, please include in the first line of your Bid Submission Email a link to a Microsoft OneDrive folder containing all of your bid-related documents. Please note that if you are using OneDrive, do not attach any documents, to the Bid Submission Email. Further, please include a separate folder within your OneDrive folder which includes the separate bid blank file. Please name this folder and the bid blank file "Bid Blank." The name of your OneDrive folder must match the subject line of your bid submission, and your OneDrive folder must not contain any files unrelated, to the Bid Submission.

Guidance for first-time Microsoft One-Drive Users: Microsoft OneDrive ("OneDrive") is a file hosting and synchronization service operated by Microsoft as part of its web version of Microsoft Office. OneDrive allows users to grant access to files which are too large to transmit via electronic mail to other users. If you do not have Office 365, please take the following steps to gain access to a free version of OneDrive so that you can upload those bid submission documents which are too large to transmit via electronic mail: 1. Conduct an internet search for "Microsoft OneDrive;" 2. Navigate, to the official Microsoft website and sign up for a free account; 3. Once you have created a folder for the solicitation whose name matches the subject line of your Bid Submission Email, upload the documents relevant to your bid submission in this folder. 4. Create a share link for this folder; 5. Be sure to check your share settings so that anyone receiving the link that you create will be able to open the link and access the files. If your share link permissions are restricted (e.g. to only your organization in Office 365), the DOE will not be able to view your solicitation documents. It is your responsibility, to ensure that the link(s) you provide allows the DOE to view, download and/or open your documents; and 6. Include the link which you have created as the first line of your Bid Submission Email. The Bid opening will be conducted virtually via Microsoft Teams on March 22, 2023, at 11:00 A.M. Bidders who have submitted their Bid Submission Email by the Bid Submission Deadline will receive a reply, to their Bid Submission Email with a link to view be able to view a livestream of the Bid opening online.

For hard copy (paper) bid submissions, please follow the below instructions: Further to prior instructions regarding submissions of bids. In addition to electronic submission via email, Bidders may choose to hand deliver their bid packages to NYC DOE, at any time prior, to the Bid Due Date/Time. If you plan to submit a paper bid, you must provide notice by emailing DCPSubmissions@schools.nyc.gov, including "Paper Submission Request for Solicitation # B5670" in the subject line, at least three (3) business days in advance of the anticipated date and time and place you or your agent plan to arrive, at 65 Court Street, Brooklyn, NY 11201, Room 1201 to drop off your bid. Bidders should include in their notification email the name of the person who will be delivering the bid or advise that the Bid Package will be arriving by messenger. Bidders who fail, to provide advance notification of intent to hand-deliver a bid risk not having anyone to receive the bid. Fed Ex, UPS, USPS or other common deliveries services will not be accepted.

The subject line of your Bid Submission Email must include the solicitation number and the name of the submitting vendor (e.g. B5757 – Enter Company Name). Please attach the completed Request for Bids and the Bid Blank documents to the Bid Submission Email as separate files. Please name the bid blank attachment "Bid Blank" and the completed Request for Bids attachment "RFB."

If the files accompanying your bid submission are too large to be transmitted as email attachments, please include in the first line of your Bid Submission Email a link to a Microsoft OneDrive folder containing all of your bid-related documents. Please note that if you are using OneDrive, do not attach any documents to the Bid Submission Email. Further, please include a separate folder within your OneDrive folder which includes the separate bid blank file. Please name this folder and the bid blank file "Bid Blank." The name of your OneDrive folder must match the subject line of your bid submission, and your OneDrive folder must not contain any files unrelated to the Bid Submission.

Guidance for first-time Microsoft One-Drive Users: Microsoft OneDrive ("OneDrive") is a file hosting and synchronization service operated by Microsoft as part of its web version of Microsoft Office. OneDrive allows users to grant access to files which are too large to transmit via electronic mail to other users. If you do not have Office 365, please take the following steps to gain access to a free version of OneDrive so that you can upload those bid submission documents which are too large to transmit via electronic mail: 1. Conduct an internet search for "Microsoft OneDrive;" 2. Navigate to the official Microsoft website and sign up for a free account; 3. Once you have created a folder for the solicitation whose name matches the subject line of your Bid Submission Email, upload the documents relevant to your bid submission in this folder. 4. Create a share link for this folder; 5. Be sure to check your share settings so that anyone receiving the link that you create will be able to open the link and access the files. If your share link permissions are restricted (e.g. to only your organization in Office 365), the DOE will not be able to view your solicitation documents. It is your responsibility to ensure that the link(s) you provide allows the DOE to view, download and/or open your documents; and 6. Include the link which you have created as the first line of your Bid Submission Email. The Bid opening will be conducted virtually via Microsoft Teams on March 7, 2023 from 11:00 A.M. to 12:00 P.M. Bidders who have submitted their Bid Submission Email by the Bid Submission Deadline will receive a reply to their Bid Submission Email with a link to be able to view a livestream of the Bid

opening online. If you do not receive a confirmation email of the DOE's receipt of your electronic bid submission, please email: Gabriel Soriano at GSoriano@schools.nyc.gov.

For hard copy (paper) bid submissions, please follow the below instructions: Further to prior instructions regarding submissions of bids. In addition to electronic submission via email, Bidders may choose to hand deliver their bid packages to NYC DOE at any time prior to the Bid Due Date/Time. If you plan to submit a paper bid, you must provide notice by emailing DCPSubmissions@schools.nyc.gov, including "Paper Submission Request for Solicitation # B5757" in the subject line, at least three (3) business days in advance of the anticipated date and time and place you or your agent plan to arrive at 65 Court Street, Brooklyn, NY 11201, Room 1201 to drop off your bid. Bidders should include in their notification email the name of the person who will be delivering the bid or advise that the Bid Package will be arriving by messenger. Bidders who fail to provide advance notification of intent to hand-deliver a bid risk not having anyone to receive the bid. Fed Ex, UPS, USPS or other common deliveries services, will not be accepted.

The Bid opening will be conducted virtually via Microsoft Teams on March 7, 2023 from 11:00 A.M. to 12:00 P.M. Bidders who have submitted their Bid Submission Email by the Bid Submission Deadline will receive a reply to their Bid Submission Email with a link to be able to view a livestream of the Bid opening online. If you do not receive a confirmation email of the DOE's receipt of your electronic bid submission, please email: Gabriel Soriano at GSoriano@schools.nyc.gov. Please continue to check the DOE website and/or Vendor Portal for updates. <https://infohub.nyc.ed.org/vendors> <https://www.finance360.org/vendor/vendorportal/>

AGENCY RULES

TAXI AND LIMOUSINE COMMISSION

■ PUBLIC HEARINGS

Notice of Public Hearing and Opportunity to Comment on Proposed Rules

What are we proposing? The Taxi and Limousine Commission ("TLC", "the Commission") is proposing amendments to its minimum driver payment rules for high-volume for hire services, including increasing the minimum pay amounts to account for increased driver expenses and changing the way utilization rates are calculated and applied.

When and where is the Hearing? TLC will hold a public hearing on the proposed rule. The public hearing will take place at 10:00 am on March 1, 2023. The hearing will be held in the hearing room at 33 Beaver Street – 19th Floor, New York, NY 10004.

The hearing room is wheelchair accessible and CART will be provided in the meeting room.

How do I comment on the proposed rules? Anyone can comment on the proposed rules by:

- **Website.** You can submit comments to the Taxi and Limousine Commission through the NYC rules website at www.nyc.gov/nycrules.
- **Email.** You can email comments to tlcrules@tlc.nyc.gov.
- **Mail.** You can mail comments to the Taxi and Limousine Commission, Office of Legal Affairs, 33 Beaver Street – 22nd Floor, New York, NY 10004.
- **Fax.** You can fax comments to the TLC at 212-676-1102.
- **By speaking at the hearing.** Anyone who wants to comment on the proposed rule at the public hearing must sign up to speak. You can sign up before the hearing by calling 212-676-1135. You can also sign up in the hearing room before the hearing begins. You can speak for up to three minutes.

Is there a deadline to submit written comments? Yes, you must submit written comments by March 1, 2023.

Do you need assistance to participate in the Hearing? You must tell the Office of Legal Affairs if you need a reasonable accommodation of a disability at the Hearing. You must tell us if you need a sign language interpreter. You can tell us by mail at the address given above. You may also tell us by telephone at 212-676-1135. You must tell us by February 24, 2023. This location has the following accessibility option(s) available: Simultaneous transcription for people who are deaf or hard of hearing and audio only access.

Can I review the comments made on the proposed rules?

You can review the comments made online on the proposed rules by going to the website at www.nyc.gov/nycrules. A few days after the hearing, copies of all comments submitted online, copies of all written comments, and a summary of oral comments concerning the proposed rule will be available to the public at the Office of Legal Affairs.

What authorizes the Commission to make this rule? Sections 1043 and 2303 of the City Charter and Sections 19-503 and 19-549 of the New York City Administrative Code authorize the Commission to make this proposed rule. This proposed rule was included in TLC’s regulatory agenda for fiscal year 2023.

Where can I find the Commission’s rules? The Commission’s rules are in Title 35 of the Rules of the City of New York.

What rules govern the rulemaking process? TLC must meet the requirements of Section 1043 of the City Charter when creating or changing rules. This notice is made according to the requirements of Section 1043 of the City Charter.

Statement of Basis and Purpose

Background

In 2018 TLC drafted a driver minimum pay policy and commissioned two labor economists—Dr. James A. Parrott, Economic and Fiscal Policy Director of the Center for New York City Affairs at the New School, and Dr. Michael Reich, Professor of Economics and Chair of the Center on Wage and Employment Dynamics at the University of California, Berkeley—to study the economics of the city’s for-hire vehicle (FHV) industry, including driver income and earnings, and evaluate the agency’s proposed policy. Focusing on the largest FHV companies, now categorized as high-volume for-hire services (HVFHS or HV),¹ the resulting report issued in July of 2018² found that:

- FHV driver median earnings declined by almost \$3.00 per hour from \$25.78 in September of 2016 to \$22.90 in October of 2017;³
- 85% of drivers were earning less than the equivalent of the \$15.00 minimum wage;⁴
- 80% of drivers acquired their vehicle to enter the industry, taking on significant personal expense and risk;⁵ and
- 40% of drivers had incomes so low they qualified for Medicaid, 16% had no health insurance, and 18% qualified for federal SNAP benefits.⁶

The report also found that TLC’s proposed driver pay policy, discussed further below, would increase average gross driver pay by 14%, ensure that drivers are able to cover all vehicle and related expenses, and correct some inefficiencies and inequities in the industry.⁷

In response to the report and the economic conditions faced by drivers, in August of 2018 the City Council adopted, and Mayor Bill de Blasio signed into law, Local Law 150 of 2018, which required that TLC “establish a method for determining the minimum payment that must be made to a for-hire vehicle driver for a trip dispatched by a high-volume for-hire service.”⁸ The Local Law specifically states that, in establishing such method, TLC must consider driver expenses.⁹

TLC subsequently adopted rules in December of 2018 establishing minimum per trip payments for HV trips, based on a formula, to provide drivers a minimum take-home pay after covering their expenses and taking into account drivers’ total working time, both time spent driving passengers as well as time waiting for a dispatch and driving to pick up passengers.¹⁰

The policy has three critical elements: the **per mile rate**, the **per minute rate**, and the **utilization rate**. The **per mile rate** was calculated to cover a typical driver’s expenses such as the

1 A high-volume for-hire service is a base that dispatches 10,000 or more trips per day. HVFHSs are licensed as such by TLC. In 2018, Uber, Lyft, Gett/Juno, and Via dispatched more than 10,000 trips per day and were thus included in the analysis of driver pay in 2018. This category now includes only Uber and Lyft.

vehicle, fuel, maintenance, and insurance.¹¹ The original per mile rate for a standard trip was set at \$0.631. The **per minute rate** was calculated to result in an average net income of \$17.22 per hour, the independent contractor equivalent of a \$15.00 minimum wage. The original per minute rate for a standard trip was set at \$0.287 (the \$17.22 hourly rate divided by 60 minutes). The **utilization rate** accounts for the time that drivers spend without a passenger in the vehicle. It is calculated by dividing the total time that a high-volume for-hire service’s drivers spend transporting passengers by the total amount of time that drivers are logged into the app (including time waiting for a dispatch, time en route to pick up a passenger, and time with a passenger). TLC analyzed utilization rates at the time, set an industrywide utilization rate of 58%, and intended to move to company specific utilization rates after one year. Because of the impacts of the COVID-19 pandemic, during which time TLC suspended the calculation of new utilization rates as trip volumes plummeted across all sectors, the industrywide 58% utilization rate remains in place.

Below is the driver pay formula as presented in 2019 for a standard trip and then a sample calculation for a trip of 7.5 miles and 30 minutes, with a utilization rate of 58%, which would result in driver pay of \$23.00 under the original rates.

$$\text{Per Trip Driver Pay} = \left(\frac{\$0.631 \times \text{Trip Miles}}{\text{Company Utilization Rate}} \right) + \left(\frac{\$0.287 \times \text{Trip Minutes}}{\text{Company Utilization Rate}} \right)$$

$$\frac{(\$.631 * 7.5 \text{ miles})}{.58 \text{ utilization}} + \frac{(\$.287 * 30 \text{ minutes})}{.58 \text{ utilization}} = \$23.00$$

TLC rules also established yearly adjustments to the per minute and per mile rates to account for inflation, using the Consumer Price Index for Urban Wage Earners and Clerical Workers for the NY-NJ-PA metro area (CPI-W),¹² to ensure that real driver earnings were not reduced over time.

Following litigation brought by Lyft, the pay standard went into effect in February of 2019.

CPI Adjustments in 2020 and 2022

TLC has increased the per mile and per minute rates pursuant to the increase in CPI-W twice since the rules were implemented in February of 2019. In February of 2020, both the per mile and the per minute rates were increased by 1.46%, which was the percent change in CPI-W between 2018 and 2019. In March of 2022, TLC increased the per mile rate and the per minute rate by 5.30%, which was the percent change in CPI-W between 2019 and 2021. According to TLC analysis of publicly available inflation data and transportation costs as part of that inflation data, transportation costs—and thus driver expenses—increased between 2018 and 2021 at roughly the same rate as inflation.¹³

The Proposed Amendments

As described above, the per mile rate is meant to account for driver expenses. When the scheduled CPI-W increases are less than the rate of increase in driver expenses, the driver pay formula as a whole is rendered less effective because it fails to account for the reality of drivers’ economic conditions: drivers pay more out of pocket for their expenses than the per mile rate covers, which reduces their take-home pay to an amount less than the driver pay formula is meant to provide. For example, if driver expenses are up 15% and the CPI-W is up only 5%, that 10% difference is paid by drivers out of what should be their take-home, net, after-expenses pay. Indeed, this is precisely what occurred in 2022. While the CPI-W and the Transportation Index remained roughly equivalent between 2018 and 2021,¹⁴ between 2021 and 2022 the Transportation Index increased at more than double the rate of the CPI-W.¹⁵

11 For simplicity, the description of the driver pay formula uses the rate for trips within the city limits performed in a vehicle that is not a wheelchair accessible vehicle (WAV). TLC has set different rates for those trips based on the higher expenses for WAVs and lower utilization rates for trips that begin in the city but end outside of the city.

12 In rules passed in 2018 as § 59B-24(a)(4); now § 59D-22(a)(4).

13 Comparing the percent change in annual average CPI-W NY-NJ-PA metro to the Transportation Index (introduced and discussed more below), CPI-W increased by 6.94% while the Transportation Index increased by 6.90% between 2018 and 2021.

14 Id.

15 Comparing the annual average for 2021 to the annual average for 2022, the CPI-W increased 6.39% while the Transportation Index increased 12.91%.

Drivers began to feel this divergence acutely, demanding increased wages to address these increased costs.¹⁶ In March of 2022, the impacts of high gas prices and increased transportation costs grew so severe that drivers caravanned across the Brooklyn Bridge to publicly demand relief.¹⁷ Uber itself noted the impacts of the increased transportation costs, instituting a temporary gas surcharge for its drivers in every U.S. market except, crucially, New York City.¹⁸

In response to the public outcry from drivers over the need to address their rapidly increasing expenses, and the high-volume for-hire services' unwillingness to address these increases on their own, TLC began exploring ways to account for increased driver expenses. TLC held a public hearing on May 24, 2022 at which the Commission received written comments and testimony regarding driver pay and utilization rates. TLC specifically invited testimony on, among other things, driver expenses, and received much testimony from drivers on their expenses. Of particular emphasis was concern about the rapid increase in driver expenses, and that the increase in driver expenses—especially the costs of vehicles and fuel—had exceeded the general CPI-W. In other words, specific driver expenses like vehicles and fuel had increased at a higher rate than other consumer items like food and clothing that are captured in the CPI-W.

At the same time, TLC issued a driver expense survey in the spring of 2022. The results were generally informative but TLC determined that the limited self-reported figures were not reliable enough to use in updating the expense calculations. Instead, TLC sought a widely reported and widely used metric similar to the Consumer Price Index but more narrowly tailored to expenses borne by drivers. TLC determined that the best such metric was included in the CPI itself: the Transportation Index.

The CPI contains many buckets of consumer goods. One of those, as categorized by the U.S. Bureau of Labor Statistics, is Transportation. It includes new and used motor vehicles and motor fuel.¹⁹ TLC determined that the Transportation Index, as included in the CPI-U NY-NJ-PA metro, was an appropriate metric upon which to rely because:

- Testimony indicated that changes in the costs of vehicles and motor fuel were the primary causes of driver expenses outpacing general inflation, and the Transportation Index includes those expenses;
- The metric is publicly available, well established, widely reported, widely relied upon, transparent, and created by a reputable expert third party, the federal government;²⁰
- The index is specific to the New York City metropolitan area and is not a nationwide figure;
- As a CPI component, it is closely related to the scheduled CPI adjustments that TLC already performs and can be calculated in much the same way; and
- It is relatively simple to determine the percent increase of the Transportation Index and apply it to the per mile rate, and it does not require complex methodology.

TLC considered other options including other components of the regional CPI, components of the national CPI, weighting the components in different ways, and using the Internal Revenue Service

17 <https://nypost.com/2022/03/29/uber-drivers-take-to-nyc-streets-to-demand-relief-from-soaring-gas-prices/>

18 At the time, Uber argued a surcharge in New York City was unnecessary because the CPI-W adjustments accounted for the increased costs of gas in New York City. See <https://www.cnbc.com/2022/03/11/uber-adds-fuel-surcharge-because-of-high-gas-prices.html>. However, today even Uber recognizes the divergence between the CPI-W and the increase in gas and transportation costs, arguing that to address high gas prices, TLC should have instituted a temporary gas surcharge. 20 TLC determined that it would use the transportation component of the CPI-U rather than the transportation component of the CPI-W because the CPI-U and its components are more widely reported and available as the more "general" and less "specialized" index, making it significantly easier for members of the public and stakeholders to track and review. See U.S. Bureau of Labor Statistics, "What is the difference between the CPI-U and the CPI-W?" available at <https://www.bls.gov/newsroom/faqs.htm#:~:text=The%20CPI%20DU%20is%20a,wage%20earners%20and%20clerical%20workers.>

mileage reimbursement rate. These other options were rejected because they were inferior to the Transportation Index with respect to some or all of the bulleted characteristics immediately above. Specifically, for example, the IRS mileage reimbursement rate is not specific to the New York City metro area and is further divorced from TLC's use of the CPI as an appropriate index to monitor and rely on, and adjustments pursuant to the general CPI-W, general CPI-U, for the New York City metro area or for other areas, were not sufficiently itemized, were not specific enough for driver expenses, or were not as geographically specific.

Following this extensive research, TLC proposed rules that, among other things, increased the per minute rate pursuant to the general CPI-W and increased the per mile rate pursuant to the Transportation Index. Those proposed rules received a public hearing on October 6, 2022 and were passed unanimously by the Commission on November 15, 2022. The rules were scheduled to go into effect on December 19, 2022, before Uber sued to challenge them. After an initial temporary restraining order was issued by the court, on January 10, 2023, the court issued its final written decision in Uber's favor. The judge found that though the case "appears faintly ridiculous," a "legal technicality" requires TLC to further explain its reasoning in adopting proposed increases to the pay rates and urged TLC to do so. The rules now being proposed seek to similarly increase the per mile rate by the changes in the Transportation Index and provide that additional explanation as to the reasons and methodology for doing so.

As such, to determine the increase to the per mile rate in accordance with the Transportation Index in these proposed rules, TLC did the following:²¹

- 1) Look up the monthly Transportation Index since January of 2018, using public reports on the U.S. Bureau of Labor Statistics website.²²
- 2) Using that monthly data, calculate the annual average for 2018 and the annual average for 2022 by adding up each monthly figure and dividing by 12. The results, rounded to the nearest three decimal points, are as follows:

2018 Transportation Index annual average: 221.680
2022 Transportation Index annual average: 267.580

TLC determined that 2018 was the appropriate baseline because that is the year in which TLC collected driver expense data to inform the original rates. Rather than update the most recent rates, which themselves had already been adjusted twice in accordance with the general CPI, TLC returned to the original per mile rate as the most appropriate baseline because that rate was the direct result of the initial analysis done by Parrott and Reich. TLC also determined that the best timeframes for comparison were annual averages, which reduce month-to-month instability and are consistent with TLC's existing practice of comparing annual averages for CPI adjustments.

- 3) Calculate the percent increase between the 2018 annual average and the 2022 annual average, rounded to the nearest two decimal places: 20.71%
- 4) Multiply this percent increase by the per mile rate as implemented in 2019, with the result rounded to the nearest three decimal places:

2019 per mile rate: \$0.631
Percent increase: 20.71%
New rate: \$0.762

As such, following this methodology and for the reasons given, TLC is updating the per mile rates as follows:²³

- 21 For simplicity, these steps show the methodology for the per mile rate as it applies to trips that begin and end within city limits and are done in a vehicle other than a wheelchair accessible vehicle. To determine those other rates, TLC applied the same methodology, multiplying each rate by 20.71%. The original and new rates for these other categories are provided in the table that follows.
- 22 U.S. Bureau of Labor Statistics, "Consumer Price Index, New York-Newark-Jersey City — December 2022," available at https://www.bls.gov/regions/new-york-new-jersey/news-release/consumerpriceindex_newyorkarea.htm.
- 23 The per minute rate, which is not reflective of driver expenses and instead serves as the take-home pay, will continue to be adjusted pursuant to the CPI-W as described and amended in these proposed rules.

Category	Original per mile rate	Percent increase	New per mile rate
Standard	\$0.631	20.71%	\$0.762
WAV	\$0.818	20.71%	\$0.987
Out-of-town ²⁴	\$1.262	20.71%	\$1.523
Out-of-town WAV	\$1.636	20.71%	\$1.975

Combined with the scheduled CPI-W increase of 6.39% effective February 1, 2023, increasing the original per mile rate by 20.71% will result in a **minimum driver pay of \$26.76 for a sample trip of 7.5 miles and 30 minutes**. This is an increase of \$2.16, or 8.78%, from the rates in effect from March 2022 through January 2023, and an increase of \$3.76, or 16.35%, from the original rates effective in 2019. Analysis of trip data further revealed that the high-volume FHV sector has substantially recovered from the pandemic, and has recovered faster than any other TLC-licensed sector or any mode of public transit in New York City. This indicates that the high-volume FHV sector is strong and can likely absorb a reasonable increase to minimum driver pay without significantly upsetting trip volume.

In addition to the per mile rate, TLC is making the following amendments to Chapter 59D for the following reasons:

- Clarifying CPI increases going forward:
 - TLC will continue to adjust the per minute and the per mile rates using the CPI-W for the NY-NJ-PA metro area. The amendments clarify that TLC will use the CPI-W percent increase, if any,²⁵ in the annual average between the previous calendar year and two calendar years prior.²⁶
 - Moving forward, new rates pursuant to the CPI adjustments will go into effect March 1 of each year.
- Changes and clarifications to utilization rate calculation and application:
 - To align with driver expectations following the previous four years, TLC is proposing to apply a uniform utilization rate to all high-volume for-hire services, as has been the case for the first four years of the minimum pay standards policy. The aggregate utilization rate for all companies will be calculated on an annual basis.
 - Following requests from high-volume for-hire services and drivers to reduce the incentive driver lock-outs and other supply control measures, each company's applied utilization rate for purposes of calculating the minimum per mile and per minute rates will continue to be 58%, the utilization rate that has been in effect since the beginning of the minimum driver pay policy. However, to ensure that drivers are properly compensated for their time without passengers, and to ensure that high-volume for-hire services efficiently use their drivers' time, if the utilization rate for the high-volume for-hire service industry falls below 56% in a calendar year, the utilization rate for all high-volume for-hire services the following calendar year will be the industry's actual utilization rate, effective March 1 of that year.
 - The utilization rate definition is amended to (1) calculate utilization rates in aggregate and (2) clarify that the utilization rate is calculated by dividing the total time passengers are in the vehicle (trip time) by the total time a driver is logged into a company's app. The total time includes the time a driver is en route to pick up a passenger, but the

24 Higher rates apply to any portion of a trip dispatched by an HV that occurs outside of New York City's boundaries to account for deadheading back into the City for the driver's next passenger fare.

25 Using a "percent increase, if any" is consistent with many minimum wage laws that are indexed to inflation, including New York City's Living Wage Law, and ensures that for-hire drivers, already earning near a minimum wage, are not burdened with pay reductions should there be a rare deflationary period. See, e.g., Admin. Code § 6-134(b)(9) ("rate shall be adjusted based upon the twelve-month percentage increases, if any, in the Consumer Price Index").

26 TLC may, of course, revisit this at any time, including under circumstances similar to those in the past year in which there is a high divergence between the general CPI-W and driver expenses.

trip time does not include en route time. Because TLC's minimum pay rates only apply to the time and distance that passengers are in the vehicle, drivers are not paid for en route time, and therefore en route time is not fairly categorized as utilized time. This is only a clarification and does not change existing practice in how TLC calculates driver pay and utilization.

- Other changes:
 - Repealing the assessment of daily average trip volumes because it is no longer necessary as that process now occurs through the issuance and renewal of the high-volume for-hire service license.
 - Repealing references to a shared ride bonus, which was never specified or implemented, so is not necessary to include in TLC rules at this time.
 - Repealing the set schedule whereby TLC must reevaluate the rates as TLC may reevaluate the rates, as it may reevaluate all aspects of its rules, at any time.

The Commission's authority to promulgate this rule is found in sections 2303 of the New York City Charter and section 19-503 of the New York City Administrative Code. The rules that the Commission amends are contained within Chapter 59 of Title 35 of the Rules of the City of New York.

[Deleted material is in brackets.]

Section 1. Subparagraph (ii) of paragraph (5) of subdivision (f) section 59B-18 of Title 35 of the Rules of the City of New York is amended to read as follows:

- (iii) For Driver and Vehicle owner earnings, in addition to the items specified in subparagraph (ii) of this paragraph, the receipt must also include the amount paid by passengers for trips during the time period covered by the receipt and any calculation used to determine the earnings, including the per-trip minutes and miles for which the Driver is being paid [and the number of shared rides subject to the Shared Ride Bonus provided in Section 59D-22(a)(3), if applicable]. Such calculation must conform to the applicable policy, formula or schedule provided in the Base Agreement.

§ 2. Subdivision (j) of section 59D-03 of Title 35 of the Rules of the City of New York, in relation to a Shared Ride Bonus, is REPEALED; subdivision (k) of such section is re-lettered subdivision (j); and subdivision (l) of such section re-lettered subdivision (k).

§ 3. Subdivision (j) of section 59D-03 of Title 35 of the Rules of the City of New York is amended to read as follows:

- (j) **Utilization Rate** refers to the percentage of time, in aggregate, that all Drivers who have made themselves available to accept dispatches from [a] High-Volume For-Hire Services spend transporting passengers on trips dispatched by [the] High-Volume For-Hire Services. [A High-Volume For-Hire Service's] The Utilization Rate is calculated by dividing the total amount of time those Drivers spend transporting passengers on trips dispatched by [the] High-Volume For-Hire Services by the total amount of time Drivers are available to accept dispatches from [the] High-Volume For-Hire Services, have been dispatched by a High-Volume For-Hire Service to pick up a passenger but do not have a passenger in the vehicle, and are transporting passengers on trips dispatched by a High-Volume For-Hire Service.

§ 4. Section 59D-22 of Title 35 of the Rules of the City of New York is amended to read as follows:

§59D-22 Minimum Driver Payment Requirements

- (a) A High-Volume For-Hire Service must pay Drivers, at a minimum, the following amounts for each trip dispatched by the Base:
 - (1) *Per Mile Rate.* [Beginning January 1, 2019, for] ~~For~~ each mile a Driver transports a Passenger in the City on a trip dispatched by the High-Volume For-Hire Service, the High-Volume For-Hire Service must pay the Driver no less than ~~[\$0.631] \$0.762~~ per mile for a trip dispatched to a Vehicle that is not an Accessible Vehicle and ~~[\$0.818] \$0.987~~ for a trip dispatched to an Accessible Vehicle, divided by the High-Volume For-Hire Service's Utilization Rate, and for trips that begin in the City but end outside of the City, the Base must pay the Driver no less than ~~[\$1.262] \$1.523~~ per mile for a trip dispatched to a vehicle that is not an Accessible Vehicle and no less than ~~[\$1.636] \$1.975~~ per mile for a trip dispatched to an Accessible Vehicle for each mile a Driver transports a Passenger outside of the City; and
 - [(i) RESERVED – expense formulation for luxury vehicles]

- (2) *Per Minute Rate.* Beginning January 1, 2019, for each minute a Driver transports a Passenger in the City on a trip dispatched by the High-Volume For-Hire Service, the High-Volume For-Hire Service must pay the Driver no less than \$0.287 per minute, divided by the High-Volume For-Hire Service's Utilization Rate, and for each minute a Driver transports a Passenger outside of the City on a trip dispatched by the High-Volume For-Hire Service that began in the City and ended outside of the City, the High-Volume For-Hire Service must pay the Driver no less than \$0.574 per minute[, and].
- (3) [*Shared Ride Bonus.* For each separate pick up on a trip where a Passenger shares the Vehicle for part or all of the trip with a Passenger from a separately dispatched call, the High-Volume For-Hire Service must pay the Driver the Shared Ride Bonus, in addition to the per mile and per minute rates.] Reserved.
- (4) *Consumer Price Index Adjustments.* Beginning [January 1, 2020,] March 1, 2024 and continuing each calendar year thereafter, the dollar amounts in the per mile rates and per minute rates contained in this subdivision will be adjusted using the [12-month Percentage Change] percent increases, if any, in the annual average Consumer Price Index for Urban Wage Earners and Clerical Workers for the NY-NJ-PA metro area between the previous calendar year and two calendar years prior. The Consumer Price Index adjusted per mile and per minute rates will be posted on the Commission's website.
- (5) *Hourly Payments.* If a High-Volume For-Hire Service [subject to this section] pays drivers on an hourly basis, the payment the Driver receives for each hour the Driver accepts dispatches from the High-Volume For-Hire Service must be at least the sum of the Per Mile Rate for all miles the Driver transported Passengers during the hour[, and the Per Minute Rate for all minutes the Driver spent transporting Passengers during the hour], and the Shared Ride Bonus for each applicable pick up performed during the hour].

§59D-22(a)	Fine: \$500 per instance of under payment. In addition to the penalty payable to the Commission, the Hearing Officer must order the High-Volume For-Hire Service to pay restitution to the Driver, equal to the amount not paid to the Driver in violation of this rule.	Appearance REQUIRED
------------	--	---------------------

- (b) [*Utilization Rate:* The Commission will assess, and post on its website, the Utilization Rate for each High-Volume For-Hire Service subject to this section every six months.
 - (1) *Initial Utilization Rate.* Prior to the Commission assessing and posting on its website the Utilization Rate for each High-Volume For-Hire Service and notifying each High-Volume For-Hire Service of such High-Volume For-Hire Service's Utilization Rate, the Utilization Rate for all High-Volume For-Hire Services will be the aggregate Utilization Rate of all High-Volume For-Hire Services, as calculated by the Commission. A High-Volume For-Hire Service may petition the Commission to calculate a Utilization Rate specific to that High-Volume For-Hire Service prior to the expiration of the Initial Utilization Rate period, but in no event will a High-Volume For-Hire Service have a Utilization Rate lower than the aggregate Utilization Rate of all High-Volume For-Hire Services for the Initial Utilization Rate period.] Applied Utilization Rate. The applied Utilization Rate for purposes of calculating the per-minute and per-mile rates for all High-Volume For-Hire Services will be 58%. Each January, the Commission will calculate the Utilization Rate for all High-Volume For-Hire Services for the prior calendar year. If the Utilization Rate for all High-Volume For-Hire Services for the prior calendar year is at least 56%, the applied Utilization Rate will be 58%. If the Utilization Rate for all High-Volume For-Hire Services for the prior calendar year is below 56%, the applied Utilization Rate for all High-Volume For-Hire Services for the following year, effective from the immediately following March 1 until the subsequent March 1, will be the actual Utilization Rate from the prior calendar year.
- (c) *Daily Average Trip Volumes:* The daily average trip volume for each High-Volume For-Hire Service will be assessed every six months.
- (d) *Evaluation by the Commission.* No less than annually, the Commission will review Driver, Vehicle Owner, and High-Volume For-Hire Service expenses, Driver earnings, the impact on Utilization Rates of Drivers making themselves available to accept dispatches from multiple Bases or High-Volume For-Hire Services, service levels, and any other information it deems

relevant to determine if adjustments need to be made to the rates set forth in subdivision (a) of this section.]

Notice of Promulgation

Notice is hereby given in accordance with section 1043(b) of the New York City Charter ("Charter") that the Taxi and Limousine Commission ("TLC") promulgates amendments to its rules relating to the issuance of grants under the Medallion Relief Program.

This rule is promulgated pursuant to sections 1043 and 2303 of the Charter and section 19-503 of the Administrative Code of the City of New York. This rule was published in the City Record on December 9, 2022 for public comment. On January 11, 2023 a public hearing was held virtually by the TLC and the rule was adopted by the Commission on January 25, 2023.

Statement of Basis and Purpose

On March 17, 2022 the Commission adopted rules establishing the eligibility criteria for applying for a supplemental loan deficiency guaranty through the Medallion Relief Program ("MRP"). The goal of the MRP is to support the recovery of the yellow taxicab industry in New York City by helping medallion owners restructure their outstanding debt to more sustainable levels on more favorable terms.

These proposed rules increase the number of loans eligible for a supplemental loan deficiency guaranty by extending participation in the program from those who have an interest in five or fewer medallions to those who have an interest in six or fewer medallions. TLC wants to offer the program to as many small business owners as possible so that they can lower their debt during difficult financial times.

Based on agency comment, an additional change was made that increase the number of loans eligible for participation in the supplemental loan deficiency guaranty program. Previously, the loan restructure had to be for 25 years. The amendment will allow loan restructures of less than 25 years, so long as the restructure is for at least 10 years and the level monthly loan payments do not exceed \$1,235.00.

The Commission's authority to promulgate this rule is found in sections 2303 and 2304 of the New York City Charter and section 19-503 of the New York City Administrative Code. The rules that the Commission is seeking to amend are contained within Chapters 58 and 82 of Title 35 of the Rules of the City of New York.

New material is underlined.
[Deleted material is in brackets.]

Section 1. Paragraph (2) of subdivision (b) of section 58-51 of Title 35 of the Rules of the City of New York is amended to read as follows:

- (2) Applicant must possess an interest in no more than [five (5)] six (6) medallions;

Section 2. Paragraph (2) of subdivision (e) of section 58-51 of Title 35 of the Rules of the City of New York is amended to read as follows:

- (2) Applicant's Application must contain a Loan Restructure that meets the following minimum standards:
 - (i) Remaining principal balance of \$170,000 or less,
 - (ii) A fixed interest rate of 7.3% or less,
 - (iii) Fully amortized over no less than 10 years and no more than 25 years, [and]
 - (iv) Does not contain personal guaranties or guaranties other than the Supplemental Loan Deficiency Guaranty, and
 - (v) Level monthly loan payments do not exceed \$1,235.00.

Statement of Substantial Need for Earlier Implementation

I hereby find, pursuant to Section 1043(f)(1)(c) of the New York City Charter, that there is a substantial need for the implementation of the rules establishing eligibility criteria for a supplemental loan deficiency guaranty immediately upon publication of the promulgated rule in the City Record.

The combined effects of the Covid epidemic and inflation have put many taxicab medallion owners in a critical financial situation. They need to restructure their debt, with the assistance of the Medallion Relief Program, as soon as possible. Immediate implementation of these rules is necessary to dispense funds to eligible applicants to ensure the yellow taxi industry, and individual medallion owners, recovers as quickly as possible.

Name, Description and Location of Proposal:

Lenox Hill Hospital

The Applicant, Lenox Hill Hospital ("LHH") is seeking the approval of a series of discretionary actions including a zoning map amendment, zoning text amendment, special permits, and a zoning authorization (the "Proposed Actions"). The Proposed Actions would facilitate the enlargement and modernization of the existing LHH complex located on the 1.9-acre block bounded by Park and Lexington Avenues and East 76th and East 77th Streets (Block 1411, Lots 1 and 113; "Projected Development Site 1") in the Upper East Side neighborhood of Manhattan Community District 8. The Proposed Project would include a new approximately 771,000 gross square foot (gsf), 26-story building rising to a height of approximately 436 feet; 56,000 gsf of additions to the existing LHH; renovations to the existing hospital to accommodate connections to the new hospital building; improvements to the new internal loading docks (East 76th Street); off-street parking for ambulances (East 77th Street); and improvements to the Lexington Avenue 77th Street subway station which would provide for 725 sf of new open area at street level. Construction of the Proposed Project would result in a state-of-the-art 1,398,000 gsf (12.5 FAR) hospital complex that would include 475 single-bedded patient rooms, 30 operating suites, and a right-sized emergency department.

The Proposed Actions may facilitate redevelopment of one additional site; therefore, the environmental review considers a future with-action scenario that also includes Projected Development Site 1a, an existing LHH building located at 111-115 East 77th Street (Block 1412, Lots 9, 10, and 11). The future with-action scenario also includes a below grade utility tunnel containing a separate utility and pedestrian/service corridor under 77th Street connecting Projected Development Sites 1 and 1a.

Specifically, the Proposed Actions include:

- **Zoning map amendment** to rezone the Lexington Avenue frontage of Projected Development Site 1 from a C1-8X district to a C1-9 (R10 equivalent) district; and to rezone the midblock of Projected Development Site 1 from an R8B district to a C1-8 (R9 equivalent) district.
- **Zoning text amendment** to the New York City Zoning Resolution (ZR) to:
 - Map a Mandatory Inclusionary Housing (MIH) area over the rezoned portions of the block.
 - Modify ZR Section 66-513 (Additional rules, limitations, conditions, findings, and requirements) to allow a floor area bonus for transit improvements in addition to other floor area bonuses where explicitly permitted by a special permit of the City Planning Commission (CPC).
 - Modify the Special Park Improvement District regulations (ZR Section 92-041) to allow for a community facility bonus pursuant to ZR Section 74-904.
 - Create a new special permit under ZR Section 74-904 to allow:
 - A floor area increase of up to 12.0 FAR for a project with a substantial quantity of the zoning lot's floor area dedicated to community facility uses;
 - A further floor area increase in connection with an authorization or special permit pursuant to ZR Section 66-51; and
 - Modifications of applicable bulk regulations.
- **Special Permits**, pursuant to new ZR Section 74-904 to facilitate the proposed redevelopment by:
 - Receiving a floor area bonus of 2.0 FAR for a community facility project;
 - Incorporating a further floor area bonus of 0.5 FAR in connection with an authorization pursuant to ZR Section 66-511; and
 - Modifying street wall, height, and setback and other bulk regulations.
- **Authorization** pursuant to ZR Section 66-511 to allow a floor area bonus of 0.5 FAR in connection with a major improvement to a mass transit station.

The Proposed Actions also include an additional non-discretionary ministerial action: CPC chairperson certification of a transit easement

volume pursuant to ZR Section 66-21. In addition, the Proposed Project would require a Certificate of Need from the New York State Department of Health (DOH) and the Applicant would likely seek tax-exempt financing of project costs to be issued through the Dormitory Authority of the State of New York (DASNY). A coordinated review will be conducted.

Absent the Proposed Actions, the future no-action scenario assumes that the LHH buildings in the affected area generally would remain in their current form. The relocation of certain uses would occur under the no-action scenario, freeing up space to allow for limited improvements and renovations; and smaller renovation projects would occur independent of the Proposed Actions.

The Proposed Actions would result in an incremental increase of 639,300 gsf of hospital use (including mechanical/utility space), and 25 hospital beds. The Proposed Actions would result in a net increase of 339 workers, 17 patients and 45 daily visitors. There would also be an increase of 725 sf of open area on the sidewalk adjacent to hospital at 77th Street and Lexington Avenue.

The Analysis Year for the Proposed Actions is 2036.

Statement of Significant Effect:

On behalf of the CPC, the Environmental Assessment and Review Division has determined, pursuant to 6 NYCRR Part 617.7, that the Proposed Actions may have a significant effect on the quality of the environment as detailed in the following environmental impacts, and that an environmental impact statement will be required: land use, zoning and public policy; community facilities; open space; shadows; historic and cultural resources; urban design and visual resources; hazardous materials; water and sewer infrastructure; transportation; air quality; greenhouse gas emissions and climate change; noise; public health; neighborhood character; and construction.

The Proposed Actions would not have significant adverse impacts related to socioeconomic conditions, natural resources, solid waste and sanitation services, and energy.

Supporting Statement:

The above determination is based on an Environmental Assessment Statement prepared for the Proposed Actions which finds that:

1. Land Use, Zoning and Public Policy – The Proposed Actions, which include zoning map and text amendments, special permits and authorization, would affect the land use, zoning and public policies with the project area. The Proposed Actions could have the potential to result in significant adverse impacts related to land use, zoning, and public policy.
2. Socioeconomic Conditions – The Proposed Actions would not cause direct or indirect residential displacement, or direct or indirect business displacement, and would not have adverse effects on a specific industry. Therefore, the Proposed Actions would not result in significant adverse impacts related to socioeconomic conditions and no further analysis is warranted.
3. Community Facilities – The Proposed Actions would have direct effects on the existing LHH complex, a community facility. The Proposed Actions could have the potential to result in a significant adverse impact to community facilities and services.
4. Open Space – The Proposed Actions would not cause an indirect effect on open space through increased population. An assessment of direct effects to open space will be provided if warranted based on the shadows analysis results.
5. Shadows – The Proposed Actions would introduce buildings greater than 50 feet in height in the vicinity of nearby sunlight sensitive resources, which could result in new incremental shadows on a sunlight-sensitive resources. The Proposed Actions could have the potential to result in a significant adverse impact on shadows.
6. Historic and Cultural Resources – The Proposed Actions would result in new construction within close proximity to known architectural resources. The Proposed Actions could have the potential to result in a significant adverse impact on historic and cultural resources.
7. Urban Design and Visual Resources – The Proposed Actions would result in physical changes to Projected Development Site 1 beyond the bulk and form currently permitted as-of-right. These proposed changes could affect a pedestrian's experience of public space. Therefore, the Proposed Actions could result in a significant adverse impact related to urban design and visual resources.
8. Natural Resources – There are no significant natural resources within the project area. Therefore, no thresholds were met for an analysis of natural resources, and the Proposed Actions would not result in significant adverse impacts related to natural resources

9. Hazardous Materials – The Proposed Actions would result in new in-ground disturbance within the project area, with the potential to increase pathways to hazardous materials that may be present. Therefore, the Proposed Actions could result in a significant adverse impact on hazardous materials.
10. Water and Sewer Infrastructure – The Proposed Actions would result in an incremental increase of more than 250,000 sf of community facility space, exceeding the threshold for a sewer system analysis. Therefore, the Proposed Actions could result in a significant adverse impact on wastewater and stormwater infrastructure.
11. Solid Waste and Sanitation Services – The Proposed Actions would not have the potential to generate 50 tons or more of solid waste per week and would not involve a reduction of capacity at a solid waste management facility. Therefore, no significant adverse impacts related to solid waste and sanitation services are anticipated.
12. Energy – The Proposed Actions would not affect the transmission or generation of energy. Although significant adverse energy impacts are not anticipated for the Proposed Actions, the EIS will disclose the projected amount of energy consumption during long-term operation of development in the future with-action scenario.
13. Transportation – The Proposed Actions would generate vehicular and pedestrian traffic and increase demand for parking and transit. Therefore, the Proposed Actions could have the potential to result in a significant adverse impact related to transportation.
14. Air Quality – The Proposed Actions would have the potential to create new mobile sources of pollutants. Therefore, the Proposed Actions could result in a significant adverse impact on air quality.
15. Greenhouse Gas Emissions and Climate Change – The Proposed Actions could generate greenhouse gas emissions.
16. Noise – The Proposed Actions would introduce new noise-sensitive receptors in an area with existing high ambient noise levels and would generate vehicular traffic. As a result, detailed noise analysis is warranted. Therefore, the Proposed Actions could result in a significant adverse impact on noise.
17. Public Health – The Proposed Actions could result in effects related to air quality, hazardous materials or noise, and consequently public health may be affected.
18. Neighborhood Character – The Proposed Actions could affect land use, community facilities, historic resources, urban design and visual resources, shadows, transportation, and noise; consequently, the affected area's neighborhood character may be affected.
19. Construction – The construction period for the Proposed Actions would be longer than two years, which is considered long term, and would occur in proximity to sensitive receptors. As such, construction activities could affect the surrounding area.

Public Scoping:

The CEQR lead agency hereby requests that the applicant prepare or have prepared, at their option, a Draft Environmental Impact Statement (DEIS) in accordance with 6 NYCRR 617.9(b) and Sections 6-08 and 6-12 of Executive Order No. 91 of 1977 as amended (City Environmental Quality Review).

A public scoping meeting has been scheduled for Thursday, March 2, 2023 at 2:00 PM. In support of the City's efforts to contain the spread of COVID-19, DCP will hold the public scoping meeting remotely. To join the meeting and comment, please visit NYC Engage (<https://www1.nyc.gov/site/nycengage/events/index.page>).

Written comments will be accepted by the lead agency through 5:00 P.M., Monday, March 13, 2023.

This determination has been prepared in accordance with Article 8 of the Environmental Conservation Law.

HOUSING PRESERVATION AND DEVELOPMENT

NOTICE

NOTICE OF CONCEPT PAPER

The New York City Department of Housing Preservation and Development (HPD), intends to release a Request for Proposal (RFP), for the Owner Resource Center to provide direct technical and financial support for small and medium-sized multi-family properties Citywide, including rentals and HDFC cooperatives. The ORC will expand on and modify the current iteration of the Landlord Ambassador Program (LAP), to provide direct technical assistance to help stabilize properties and ensure their long-term viability by identifying operational improvements, determining appropriate financial assistance, and helping owners navigate government programs, including those administered by Department of Finance (DOF), Department of Environmental Protection (DEP), HPD, and institutional lender offerings. Technical assistance and training will also include assessment of physical, financial and operational conditions; including the organizational and/or governance structure of ownership entities, and the development of business/stabilization plans.

The Concept Paper will be posted on PASSPort, https://passport.cityofnewyork.us/page.aspx/en/rfp/request_browse_public, from February 2, 2023 to March 19, 2023.

Contact Information/Deadline for Comments

To submit feedback on this Concept Paper, please submit your comments through the PASSPort system either by submitting a response in the Manage Responses tab or submitting a comment/question in the Discussion with Buyer tab. Written comments are invited by March 19, 2023. Comments may also be submitted, via email, to sanoguec@hpd.nyc.gov. Indicate "Concept Paper - Owner Resource Center (ORC)" in the subject line of the email.

OFFICE OF THE MAYOR

NOTICE

EMERGENCY EXECUTIVE ORDER NO. 179 August 24, 2022 INFANT FORMULA SHORTAGE

WHEREAS, in February 2022, concerns about contamination, at the Sturgis, Michigan facility of Abbott Nutrition, the largest manufacturer of infant formula in the United States, led to a voluntary recall of several lines of powdered formula and the temporary closure of the Sturgis facility; and

WHEREAS, the closure of the Sturgis facility, along with supply chain problems caused by the COVID-19 pandemic and other issues affecting the national economy, have led to shortages in infant formula, including in New York City, where, according, to the Centers for Disease Control and Prevention, the majority of parents and caregivers rely on some amount of formula to feed their babies, and the inability of parents and caregiver to obtain infant formula remains an imminent threat, to the health and safety of infants in New York City; and

WHEREAS, the state of emergency to address the infant formula shortage in the City of New York first declared in Emergency Executive Order No. 98, dated May 21, 2022, and extended most recently by Emergency Executive Order No. 174, dated August 19, 2022, remains in effect;

NOW, THEREFORE, pursuant to the powers vested in me by the laws of the State of New York and the City of New York, including but not limited, to the New York Executive Law, the New York City Charter and the Administrative Code of the City of New York, and the common law authority to protect the public in the event of an emergency, it is hereby ordered:

Section 1. I hereby order that section 2 of Emergency Executive Order No. 174, dated August 19, 2022, is extended for five (5) days.

§ 2. This Emergency Executive Order shall take effect immediately and shall remain in effect for five (5) days unless it is terminated or modified, at an earlier date.

EMERGENCY EXECUTIVE ORDER NO. 180 August 24, 2022

WHEREAS, the COVID-19 pandemic has severely impacted New York City and its economy, and is addressed effectively only by joint action of the City, State, and Federal governments; and

WHEREAS, the state of emergency to address the threat and impacts of COVID-19 in the City of New York first declared in Emergency Executive Order No. 98, dated March 12, 2020, and extended most recently by Emergency Executive Order No. 151, dated July 25, 2022, remains in effect; and

WHEREAS, this Order is given because of the propensity of the virus to spread person-to-person, and also because the actions taken to prevent such spread have led to property loss and damage;

NOW, THEREFORE, pursuant to the powers vested in me by the laws of the State of New York and the City of New York, including but not limited, to the New York Executive Law, the New York City Charter and the Administrative Code of the City of New York, and the common law authority to protect the public in the event of an emergency:

Section 1. I hereby direct that the State of Emergency declared in Emergency Executive Order No. 98, dated March 12, 2020, and extended by subsequent orders, is extended for thirty (30) days.

§ 2. I hereby order that section 1 of Emergency Executive Order No. 175, dated August 19, 2022, is extended for five (5) days.

§ 3. I hereby direct the Fire and Police Departments, the Department of Buildings, the Sheriff, and other agencies as needed, to enforce the directives set forth in this Order in accordance with their lawful authorities, including Administrative Code sections 15-227(a), 28-105.10.1, and 28-201.1, and section 107.6 of the Fire Code. Violations of the directives set forth in this Order may be issued as if they were violations under Health Code sections 3.07 and 3.11, and enforced by the Department of Health and Mental Hygiene or any other agency.

§ 4. This Emergency Executive Order shall take effect immediately. The State of Emergency shall remain in effect for a period not to exceed thirty (30) days or until rescinded, whichever occurs first. Additional declarations to extend the State of Emergency for additional periods not to exceed thirty (30) days shall be issued if needed.

EMERGENCY EXECUTIVE ORDER NO. 181 August 24, 2022

WHEREAS, on September 2, 2021, the federal monitor in the Nunez use-of-force class action stated steps must be taken immediately to address the conditions in the New York City jails; and

WHEREAS, on June 14, 2022, the federal court in Nunez approved the Nunez Action Plan, which "represents a way to move forward with concrete measures now to address the ongoing crisis, at Rikers Island"; and

WHEREAS, while there has been improvement in excessive staff absenteeism, the Department of Correction's (DOC's) staffing levels continue to contribute to a rise in unrest and disorder and create a serious risk, to the necessary maintenance and delivery of sanitary conditions; access to basic services including showers, meals, visitation, religious services, commissary, and recreation; and prompt processing, at intake; and

WHEREAS, this Order is given to prioritize compliance with the Nunez Action Plan and to address the effects of DOC's staffing levels, the conditions, at DOC facilities, and health operations; and

WHEREAS, additional reasons for requiring the measures continued in this Order are set forth in Emergency Executive Order No. 140; and

WHEREAS, the state of emergency existing within DOC facilities, first declared in Emergency Executive Order No. 241, dated September 15, 2021, and extended most recently by Emergency Executive Order No. 152, dated July 25, 2022, remains in effect;

NOW, THEREFORE, pursuant to the powers vested in me by the laws of the State of New York and the City of New York, including but not limited, to the New York Executive Law, the New York City Charter and the Administrative Code of the City of New York, and the common law authority to protect the public in the event of an emergency:

Section 1. I hereby direct that the State of Emergency declared in Emergency Executive Order No. 241, dated September 15, 2021, and extended by subsequent orders, is extended for thirty (30) days.

§ 2. I hereby direct that section 1 of Emergency Executive Order No. 176, dated August 19, 2022, is extended for five (5) days.

§ 3. This Emergency Executive Order shall take effect immediately. The State of Emergency shall remain in effect for a period not to exceed thirty (30) days or until rescinded, whichever occurs first. Additional declarations to extend the State of Emergency for additional periods not to exceed thirty (30) days shall be issued if needed.
