INNOVATIVE PROCUREMENT METHOD FOR ADVERTISEMENT PLACEMENT - Innovative Procurement - Other - PIN# DCAS2023INN001 - Due 2-28-23 at 2:00 P.M.

The Department of Citywide Administrative Services (DCAS), has implemented the use of the Innovative Procurement Method, pursuant to PPB §3-12 for “open -ended” request for proposal (RFP) process for advertisement placement services. PPB §3-03(b)(2) limits the use of open-ended RFPs to solicit “client services”; this innovative procurement method allows agencies to solicit advertisement placement services, or other non “client services” procurements using the open-ended RFP.

The benefit of open-ended RFPs for procurements beyond “client

services” would be for agencies to procure advertisement placement services more quickly than utilizing the competitive sealed proposal method in PPB §3-03 while still allowing for the widest pool of potential vendors to increase competition.

In addition, the open-ended nature would allow the City to continue to conduct ongoing outreach to the industry while the RFP, or applicable ‘round’ remains open, maximizing the expectation levels of potentially interested vendors and minimizing the length of time between that outreach and a chance to compete for an applicable award. Ideally, this will result in an improvement in the diversity and quantity of vendors trying to do business with the City in this industry.

Determinations required pursuant to PPB Rule §2-02, pre-solicitation review, including public notices of solicitation and the pre-solicitation review of reports and recommendations for awards pursuant to PPB Rule §2-09 will not be required. Agencies shall make a determination of responsibility before issuing an award pursuant to PPB Rule §2-08.

After a vendor has been selected, the contracting officer must issue a contract, as appropriate, to the successful bidder or proposer. The procurement file must include at a minimum all of the requirements of PPB Rule §3-03(b)(2), (c) and (d), in addition to the dollar amount of the contract. Given the nature of this innovative open-ended RFP, a total dollar value cannot be estimated at this time.

The proposed method will be evaluated to determine whether it is in the City’s best interest to be codified and used within the PPB rules.

The proposed method is anticipated to result in registered contracts beginning in Fiscal Year 2023. This method will be in use until there are codified PPB rules addressing these procedures, the time period to utilize such proposed method elapses, or the authority granted pursuant to New York State law elapses, whichever occurs first.

At this time, DCAS would like to give this opportunity to accept comments from the public and expressions of interest from vendors on this proposed method. Comments and expressions of interest may be emailed to Nazmije Toci at NToci@dcas.nyc.gov. Expressions of interest will be recorded and all vendors who have submitted such will be noticed once the innovative solicitation has been issued so that they may apply. Vendor submissions will be evaluated solely on the basis of their response to the solicitation and the evaluation criteria therein. The due date for such expressions of interest shall be not less than twenty (20) days after the final noticed published in the City Record.

Use the following address unless otherwise specified in notice, to secure, examine or submit bid/proposal documents, vendor pre-qualification and other forms; specifications/blueprints; other information; and for opening and reading of bids at date and time specified above.

The Department shall take these comment requests into consideration as it considers future regulatory updates to this chapter.

On its own initiative, the Department has now added the following 2 additional penalties to the Chapter 31 Appendix 31-A penalty schedule, relating to certain violations of NYC Health Code Article 141, which provides requirements for drinking water supply safety standards. These added violations to the penalty schedule concern failure to design, install or maintain a system to operate within manufacturer's specifications and industry standards, and failure to meet appropriate chemical storage requirements, as required by Health Code sections 141.11(f) and 141.11(j), respectively.

The Department now adopts the following amendments as provided below.

Statement of Basis and Purpose

NYC Administrative Code section 17-194 governs drinking water tank inspections. The Department's rules enacted pursuant to section 17-194 are located in Chapter 31 (§§ 31-01 to 31-03) of Title 24 of the Rules of the City of New York. Section 17-194 requires an owner of a building with a water tank that provides potable water to submit documentation of an annual drinking water tank inspection report to the Department. The inspection report must be submitted by the water tank inspector and must state whether all applicable regulations were met at the time of inspection and provide a description of any non-compliance with the requirements.

These amendments to the Chapter 31 Appendix 31-A penalty schedule reflect amendments to section 17-194 made by Local Laws 85, 86, 87 and 88 of 2019, which added the following requirements: electronic submission of documentation for water tank inspection and cleaning; specific qualifications for persons conducting inspections of drinking water tanks; the maintenance of water tanks and associated structures in safe condition and the reporting by the water tank inspector or owner of any unsafe conditions to the Department of Buildings in writing; and submission of a visual depiction of the interior and exterior of water tanks to the Department. An increase in the penalty fee for failure to submit the annual drinking water tank inspection report is also adopted in light of the importance of this requirement. The adopted rule also makes one technical amendment to section 31-03 that is not meant to change the scope of an owner's or operator's requirement to pay penalties whenever a violation is sustained. Certain ministerial corrections are also adopted to accurately reflect the Administrative Code citations after Local Law revisions. The adopted penalties are all within the range established in section 17-194 of the NYC Administrative Code.

It should also be noted that NYC Health Code Article 141 provides water supply safety standards and operates in conjunction with Chapter 31 drinking water tank inspection requirements. Section 141.11 of Article 141 provides requirements as to drinking water storage tanks and chemical treatment of the drinking water supply system within a building. Violations of these sections are now reflected in this updated Chapter 31 Appendix 31-A penalty schedule. Accordingly, the title of Appendix 31-A is also being updated to reflect the adoption of penalties for certain Article 141 (section 141.11) violations. These amendments now provide fixed penalties for violations of section 141.11 of the New York City Health Code, relating to requirements for chemical storage and treatment of building drinking water. Finally, these amended penalties fall within the range set forth in section 3.11 of the Health Code.

Pursuant to Charter section 1043(d)(4)(ii), these amendments are exempt from the review required under Charter section 1043(d)(1).

The amendments are as follows:

Underlined text is new. Deleted text is in [brackets].

Section 1. Section 31-03 of Chapter 31 of Title 24 of the Rules of the City of New York is amended to read as follows:

§31-03 Penalties. Owners or operators of buildings with drinking water tanks or other persons found to be in violation of any of the following provisions of law by a hearing officer at the Office of Administrative Trials and Hearings or successor tribunal must pay the penalties set forth in Appendix 31- A of this Chapter for each such violation sustained [with respect to each building drinking water tank for each year to which such violation pertains].

Section 2. The title of Appendix 31-A of Chapter 31 of Title 24 of the Rules of the City of New York is amended to read as follows:

Appendix 31-A:
Building Drinking Water Tank and Water Supply Safety Standards Penalties

Section 3. Appendix 31-A of Chapter 31 of Title 24 of the Rules of the City of New York is amended to add and amend the following penalties for violations of section 31-02 of Chapter 31, section 17-194 of the Administrative Code and section 141.11 of the Health Code, to read as follows:
