Statement of Basis and Purpose of Proposed Rule

Introduction

New York City has a robust approach to rat control using a variety of approaches depending on conditions. One approach recognized in Local Law 110 (2022) has been to designate areas with high levels of rat activity as "Rat Mitigation Zones," and focus a datadriven, coordinated, multiagency effort there to address rats and the conditions that cause them. Local Law 110 requires the Department to promulgate a rule designating Rat Mitigation Zones using criteria set out in Local Law 110.

Proposed Rules Governing Designation of Rat Mitigation Zones

Local Law 110 requires the Department to consider certain criteria in determining the boundary of a Rat Mitigation Zone using information from a "sanitation district" or "community district", which are coterminous. The Department will use "community district" because New Yorkers may be more familiar with that term. Specifically, the required criteria within a given community district are:

- (1) the number and percentage of inspections for rat activity for properties that resulted in the issuance of an order pursuant to section 151.02 of the Health Code or an agency referral letter related to rat activity, and the location of such properties;
- (2) the number and percentage of inspections for rat activity for properties that resulted in the issuance of a summons pursuant to sections 3.05 or 151.02 of the Health Code, and the location of such properties;
- (3) the number of rat baiting visits at properties executed by the Department pursuant to section 17-147 of the New York City Administrative Code ("Administrative Code"), following a failure to comply with an order issued pursuant to section 151.02 of the Health Code and the location of such properties;
- (4) the number and nature of 311 requests for service or complaints related to rat activity within any 12-month period; and
- (5) the susceptibility to rat infestation of any properties managed by the New York City Department of Parks and Recreation.

Statutory Authority

Section 2 of Local Law 110 requires the Department to promulgate rules for establishing Rat Mitigation Zones.

The proposed rules are as follows.

Deleted material appears in [brackets]. New material is underlined.

RESOLVED, that Title 24 of the Rules of the City of New York is amended by adding a new chapter 35 to read as follows:

<u>Chapter 35</u> Designating Rat Mitigation Zones

§ 35-01. Definitions.

"Rat Mitigation Zone" means one or more community districts, in whole or in part, that the Department has designated as meeting the criteria described in section 35-03 of this Chapter.

§ 35-02. Designation of Rat Mitigation Zones.

The Department will establish Rat Mitigation Zones in accordance with the criteria described in section 35-03 of this Chapter. The criteria and supporting data for Rat Mitigation Zones will be made available annually on the Department's website.

§ 35-03. Criteria for Designating Rat Mitigation Zones.

The Department will consider the following criteria to determine whether a community district, or any part thereof, should be designated as a Rat Mitigation Zone:

- (a) Commissioner orders to abate. The number and percentage of inspections for properties within a given community district that resulted in an abatement order issued by the Department pursuant to section 151.02 of the Health Code in a 12-month period, and the location of such properties within such community district.
- (b) City agency referral letters. The number and percentage of inspections for properties within a given community district that resulted in the issuance of a city agency referral letter by the Department in a 12-month period, and the location of such properties within such community district.
- (c) Summonses. The number and percentage of inspections for rat activity for properties within a given community district that have resulted in the issuance of a summons pursuant to section 3.05 or section 151.02 of the Health Code in a 12-month period, and the location of such properties within such community district.
- (d) Rat exterminations. The number of rat baiting visits by the Department at properties within a given community district in a 12-month period, executed by the Department pursuant to section 17-147 of the Administrative Code following a failure to comply with an order issued pursuant to section 151.02 of the Health Code, and the location of such properties within such community district.
- (e) Reports to 311. The number and nature of 311 requests for service or complaints related to rat activity within any 12-month period within a given community district.
- (f) Susceptibility to rat infestation. The number of properties that are managed by the New York City Department of Parks and Recreation that are susceptible to rat infestation or have failed inspection for rat infestation in a 12-month period.
- (g) Availability of resources. The availability of resources to implement rat mitigation measures and the most efficient use of such resources.

§ 35-04 Community Districts Designated as Rat Mitigation Zones.

- (a) The Department has designated four Rat Mitigation Zones as indicated in the Appendix to this Chapter.
- (b) Nothing in this Chapter shall limit or prevent the Department from any nuisance abatement or other pest control activities in areas not designated as a Rat Mitigation Zone, including with the same methods used in a Rat Mitigation Zone.

■ NOTICE

The purpose of this Concept Paper is to invite stakeholder feedback on the proposed School-Based Early Support model (formerly the ACS Beacon Prevention model), in advance of an upcoming Request for Proposals (RFP), to be issued by the Division of Prevention Services (DPS), in the New York City Administration for Children's Services (ACS), in the summer of 2023. Part of the ACS Commissioner's strategic priorities for the coming year, the RFP represents an opportunity to re-imagine one way in which ACS might engage the New York City Department of Education (DOE) differently, and as a result, to "narrow the front door" to the child welfare system in New York City. This concept paper builds on a number of ACS' recent efforts to collaborate more closely with the DOE to identify families who would benefit from community-based support.
