HHS ACCELERATOR PREQUALIFICATION

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic HHS Accelerator Prequalification Application using the City's PASSPort system. The PASSPort system is a web-based system maintained by the City of New York for use by its Mayoral Agencies to manage procurement. Important business information collected in the Prequalification Application is required every three years. For electronic bid submissions, please note the following procedures: Bid submissions must be sent via electronic mail ("The Bid Submission Email") to DCPSubmissions@schools.nyc.gov (the "Bid

Submission Email Address”). Bid Submissions sent to any other email address will be disregarded. The subject line of your Bid Submission Email must include the solicitation number and the name of the submitting vendor (e.g. B5830 – Enter Company Name). Please attach the completed Request for Bids and the Bid Blank documents to the Bid Submission Email as separate files. Please name the bid blank attachment “Bid Blank” and the completed Request for Bids attachment “RFB.” If the files accompanying your bid submission are too large to be transmitted as email attachments, please include in the first line of your Bid Submission Email a link to a Microsoft OneDrive folder containing all of your bid-related documents. Please note that if you are using OneDrive, do not attach any documents to the Bid Submission Email. Please name this folder and the bid blank file “Bid Blank.” The name of your OneDrive folder must match the subject line of your bid submission, and your OneDrive folder must not contain any files unrelated to the Bid Submission.

Guidance for first-time Microsoft One-Drive Users: Microsoft OneDrive (“OneDrive”) is a file hosting and synchronization service operated by Microsoft as part of its web version of Microsoft Office. OneDrive allows users to grant access to files which are too large to transmit via electronic mail to other users. If you do not have Office 365, please take the following steps to gain access to a free version of OneDrive so that you can upload those bid submission documents which are too large to transmit via electronic mail: 1. Conduct an internet search for “Microsoft OneDrive;” 2. Navigate to the official Microsoft website and sign up for a free account; 3. Once you have created a folder for the solicitation whose name matches the subject line of your Bid Submission Email, upload the documents relevant to your bid submission in this folder. 4. Create a share link for this folder; 5. Be sure to check your share settings so that anyone receiving the link that you create will be able to open the link and access the files. If your share link permissions are restricted (e.g. to only your organization in Office 365), the DOE will not be able to view your solicitation documents. It is your responsibility to ensure that the link(s) you provide allows the DOE to view, download and/or open your documents; and 6. Include the link which you have created as the first line of your Bid Submission Email. The Bid opening will be conducted virtually via Microsoft Teams on Thursday, January 4, 2024, at 11:00 A.M. Bidders who have submitted their Bid Submission Email by the Bid Submission Deadline will receive a reply to their Bid Submission Email with a link to be able to view a livestream of the Bid opening online. If you do not receive a confirmation email of the DOE’s receipt of your electronic bid submission, please email: Gabriel Soriano at GSoriano@schools.nyc.gov.

For hard copy (paper) bid submissions, please follow the below instructions: Further to prior instructions regarding submissions of bids. In addition to electronic submission via email, Bidders may choose to hand deliver their bid packages to NYC DOE at any time prior to the Bid Due Date/Time. If you plan to submit a paper bid, you must provide notice by emailing DCPSubmissions@schools.nyc.gov, including “Paper Submission Request for Solicitation # B5830” in the subject line, at least three (3) business days in advance of the anticipated date and time and place you or your agent plan to arrive at 65 Court Street, Brooklyn, NY 11201, Room 1201 to drop off your bid. Bidders should include in their notification email the name of the person who will be delivering the bid or advise that the Bid Package will be arriving by messenger. Bidders who fail to provide advance notification of intent to hand-deliver a bid risk not having anyone to receive the bid.

Please continue to check the DOE website and/or Vendor Portal for updates. <https://infohub.nyced.org/vendors> <https://www.finance360.org/vendor/vendorportal/>

PRE-QUALIFIED LIST (PQL) PROGRAM FOR VARIOUS TRADES

NYCHA is currently accepting applications for Pre-Qualified List (PQL) program for various trades.

A PQL is a tool that NYCHA will use to qualify vendors and contract goods or services for its developments, streamlining the process for both vendors and NYCHA. NYCHA will publish contracting opportunities, and the PQL will predominantly be used to procure goods or services for those contracts. Vendors who apply to those bids must pre-qualify according to specific criteria, and vendors who are admitted to the PQL can bid on contracts.

Currently NYCHA has established four (4) PQL lists for the Closed-Circuit Television (CCTV), Carpentry, Painting and Lead Based Paint (Assessment and Abatement, Inspection and Assessment & Lab Analysis).

All vendors interested in NYCHA's PQLs must follow two (2) important steps:

First, vendors must prepare and submit applications to the PQL: To pre-qualify, vendors must meet the minimum requirements listed on the Request for Qualification of the select PQL. Applications will be evaluated by NYCHA on a rolling basis.

Second, vendors who are admitted to the PQL can then bid on solicitations for services on the PQL: Vendors must bid on each contract award, as these are not guaranteed.

For more information regarding PQLs and to obtain applications, please visit NYCHA's website at: https://www.nyc.gov/site/nycha/business-nycha-pql.page.

STATEMENT OF BASIS AND PURPOSE

In 2019, the Conflicts of Interest Board (the "Board") comprehensively revised Chapter 2 of the Rules of the Board, which governs the Board's enforcement process, "both to reflect its current enforcement process and to improve, where needed, various aspects of that process." Board Rules Chapter 2, Statement of Basis and Purpose (City Record, August 30, 2019). With four years of additional perspective on how Chapter 2 works in practice, the Board proposes to clarify and update these procedures.

1. Applicability of Chapter 2 to the Annual Disclosure Law

In its 2019 revisions to Chapter 2, the Board eliminated references to the Annual Disclosure Law, Administrative Code § 12-110. The Board subsequently codified in Board Rules § 4-07 procedures for assessing penalties against annual disclosure filers who submit late reports in violation of Administrative Code § 12-110(g)(1). However, for intentional violations of the Annual Disclosure Law, identified in Administrative Code § 12-110(g)(2), such as failure to include or misstatement of assets or liabilities, the Board has historically utilized the same process as it does for the enforcement of Chapter 68 violations, usually by adding alleged violations of the Annual Disclosure Law to a Chapter 68 violation. Accordingly, the Board proposes to reinstate a reference to Administrative Code § 12-110(g)(2) so that the procedures contained in Chapter 2 apply to enforcement of that provision in the Annual Disclosure Law. See Proposed Board Rules § 2-01(a)(5).

2. Order of Closing Statements

Prior to 2019, former Board Rules § 2-03(d)(3) provided that closing statements at a hearing "shall be made first by the [respondent]." The 2019 amendments to Board Rules Chapter 2 switched this order to provide that "[t]he enforcement attorney will make a closing statement first, after which the respondent may make a closing statement." Board Rules § 2-03(f)(4). This amendment is inconsistent with standard trial practice. The Board proposes to reorder closing statements so that the respondent or respondent's representative would have the opportunity to give a closing statement first, followed by the enforcement attorney. See Proposed Board Rules § 2-03(f)(4). The proposed amendment will conform the Board's procedures to the standard trial practice of giving the party with the burden of proof the final word.

3. Page Limit for Written Statements

There is presently no page limit for a written closing statement submitted in lieu of an oral closing statement, a comment to the Administrative Law Judge's ("ALJ's") Report and Recommendation, or a response to the other party's comment. The Board proposes to adopt a limit of 30 double-spaced pages for written closing statements or comments to the ALJ's Report and Recommendation and 15 double-spaced pages for a response to the other party's comment on the Report and Recommendation. This proposed rule mirrors the page limits contained in the Federal Rules of Appellate Procedure. See Proposed Board Rules § 2-03(f)(4); Fed. R. App. P. 32(a)(7)(A).

4. Ex Parte Communications

Board Rules § 2-03(c) retains the Board's longstanding prohibition of *ex parte* communications between the enforcement attorney and the Board and counsel to the Board when the Board reviews the OATH Report and Recommendation and makes its final determination. In practice, the Board and its counsel discourage *ex parte* communications by either party, and the Board proposes to codify this practice. See Proposed Board Rules § 2-03(c).

5. Garnishment of City Wages to Collect Penalty

The proposed amendment to Board Rules § 2-03(j)(4) recognizes that, among the methods available to the Board for obtaining a penalty, the Board may seek garnishment of the wages of the respondent if the respondent is a current City employee. See Proposed Board Rules § 2-03(j)(4).

6. Clarifying Edits

Finally, the Board proposes two categories of clarifying edits to make Chapter 2 more user-friendly: organizational edits so that the order of the sections follows the chronology of a case and descriptive edits to assist respondents and their representatives in understanding the enforcement process.

The Proposed Actions would also affect several properties owned by the Metropolitan Transit Authority (MTA) (Block 1555, Lot 1 and Block 1576, Lot 13) and Amba Mata Inc. (Block 1576, Lot 32) referred to as the "Out Parcels". The Out Parcels and the Development Site are collectively referred to as the "Project Area". The Project Area is bounded by Fulton Street to the north, Van Sinderen Avenue to the west, Atlantic Avenue to the south, and East New York Avenue to the east, with both Herkimer Street and Williams Place running through the Project Area. Approval of the Proposed Actions would facilitate the development of four new buildings containing a combined total of approximately 1,667,836 gross square feet (gsf), including approximately 748,386 gsf of commercial office space, 247,848 gsf of commercial retail space, 540,114 gsf of residential space (596 dwelling units or "DUs," of which 159-365 units would be permanently affordable pursuant to MIH depending on which option is selected), 18,985 gsf of community facility (house of worship) space, and 10,403 gsf of light industrial space, as well as approximately 250 accessory parking spaces and 24,536 sf of publicly accessible area (PAA).

The Proposed Actions are as follows:

- Zoning Map Amendment to:
 - Rezone the Project Area from an M1-2 zoning district to C6-4 and M1-6 districts.

- Zoning Text Amendment to:
 - Modify Appendix F of the Zoning Resolution (ZR) to establish a Mandatory Inclusionary Housing (MIH) area coterminous with the boundaries of the proposed C6-4 district within Brooklyn CD 5;
 - Amend ZR Section 74-742 to modify Large-Scale General Development (LSGD) ownership requirements; and
 - Amend ZR Section 23-154(d)(2) to permit a maximum residential floor area ratio (FAR) of 12.0 for MIH sites in LSGD sites within Brooklyn CD 5.
- City Map Amendment to:
 - Demap Herkimer Street between Williams Place and Fulton Street.
- Special Permits to:
 - Modify certain building, height, setback, and rear yard regulations pursuant to ZR Section 74-743; and
 - Waive floor area limitations for certain retail uses in ZR Section 74-922 within M1-6 zoning districts.

In order to assess the possible effects of the Proposed Actions, a Reasonable Worst Case Development Scenario (RWCDS) was prepared, which identified two possible development scenarios that will be analyzed in connection with the Proposed Actions:

The RWCDS for the Proposed Actions would result in a 1,667,836 gsf development consisting of 540,114 gsf of residential space (636 DUs of which up to 159-191 units would be permanently affordable pursuant to MIH), 748,386 gsf of commercial office space, 748,386 gsf of commercial retail space, 18,985 gsf of community facility (house of worship) space, and 122,473 gsf of light industrial (Use Group 11) space, as well as approximately 250 accessory parking spaces (approximately 136,941 sf) and 24,536 sf of publicly accessible area (PAA).

In addition, under the proposed Large Scale General Development plans for the Development Site, some portions of the development could be developed with either commercial office (Use Group 6) or community facility uses (Use Groups 3 and 4) and some spaces could be developed with either commercial office (Use Group 6), retail or service establishments (Use Groups 7 and 9), or light industrial uses (Use Groups 11, 16, and 17). As such, in the future with the Proposed Actions, the Proposed Development could be developed with a combined total of approximately 1,881,565 gsf, including approximately 540,114 gsf of residential space, 748,386 gsf of commercial office space, 247,848 gsf of commercial retail space, 120,645 gsf of community facility space (of which, approximately 18,985 gsf would consist of house of worship uses, and up to 101,660 gsf would consist of educational and/or medical office uses), and 122,473 gsf of industrial space (including 10,403 gsf of Use Group 11 space and up to 112,070 gsf of additional Use Group 7, 9, 11, 16, and/or 17 light industrial space), as well as approximately 250 accessory parking spaces (approximately 102,100 sf) and 24,536 sf of PAA space. For conservative analysis purposes, this development scenario will be analyzed for any technical area in the Environmental Impact Statement (EIS) where this development scenario serves as the more conservative RWCDS compared to the Proposed Development or the Alternate Residential Scenario, described below.

Additionally, in the event the Applicant chooses not to exercise the LSGD Special Permit, the Development Site would only be constrained by the underlying zoning. As such, the proposed Zoning Map and Text Amendments would increase the maximum permitted residential FAR on the Development to approximately 8.1. As a result, a second RWCDS, the "Alternate Residential Scenario" RWCDS, has been developed. The Alternate Residential Scenario would result in a 1,954,193 gsf development consisting of 1,035,993 gsf of residential space (1,218 DUs, of which 305-365 units would be designated as permanently affordable pursuant to MIH), 272,352 gsf of office space, 264,580 gsf of retail space, 200,761 gsf of light industrial (Use Group 6, 7, 9, 11, 16, and/or 17) space, 6,081 gsf of community facility (house of worship) space, 219 off-street accessory parking spaces, and 24,536 sf of PAA, as well as a net reduction of approximately 50,422 gsf of manufacturing/industrial space in the Project Area. For conservative analysis purposes, the Alternate Residential Scenario will be analyzed for any technical area in the EIS where this development scenario serves as a more conservative RWCDS compared to the Proposed Development.

Absent the Proposed Actions, the Development Site would be constrained by the underlying zoning. The Project Area would remain under existing conditions.

The analysis year for the Proposed Actions is 2036.

Statement of Significant Effect:

On behalf of the City Planning Commission (CPC), the Department of City Planning has determined, pursuant to 6 NYCRR Part 617.7, that the Proposed Actions may have a significant adverse effect on the environment as detailed in the following areas, and that an environmental impact statement will be required: Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities

and Services; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Transportation; Air Quality; Greenhouse Gas Emissions and Climate Change; Noise; Public Health; Neighborhood Character; and Construction.

The Proposed Actions would not result in significant adverse impacts related to: Natural Resources and Energy.

Supporting Statement:

The above determination is based on an Environmental Assessment Statement prepared for the Proposed Actions which finds that:

1. Land Use Zoning, and Public Policy - The Proposed Actions include Zoning Map and Text Amendments, and Special Permits. Therefore, the Proposed Actions would affect regulations and policies governing zoning within the Project Area and could have the potential to result in significant adverse impacts.
2. Socioeconomic Conditions - The Proposed Actions could result in potential direct business displacement since redevelopment of the Project Area could result in displacement of 100 employees, the threshold for analysis in the CEQR Technical Manual. Therefore a detailed assessment of direct business displacement is warranted. As the Proposed Actions would introduce more than 200,000 sf of new commercial uses to the Project Area, "substantial" new commercial development described in the CEQR Technical Manual, an assessment of potential socioeconomic effects due to indirect business and institutional displacement is warranted. Additionally, as the Proposed Actions would introduce more than 200 incremental residential units to the Project Area, an assessment of potential indirect residential displacement is warranted as well. As there are no existing residential uses in the Project Area, the Proposed Actions would not result in any direct residential displacement, and as such, further analysis is not warranted. In addition, the Proposed Actions are site-specific to the Project Area and do not include any Citywide regulatory changes that would adversely affect the economic and operational conditions of certain types of businesses or processes. Therefore, the Proposed Actions would not result in significant adverse impacts on specific industries, and no further analysis of this issue is warranted.
3. Community Facilities - The Proposed Actions would not result in the direct displacement of any existing publicly funded community facilities or services, nor would they affect the physical operations of or access to and from any police or fire stations. Therefore, the Proposed Actions would not have any significant adverse direct impacts on existing community facilities or services, and a detailed analysis of potential direct impacts on community facilities and services is not warranted. As the number of additional students introduced by the Proposed Actions would exceed the elementary and middle school threshold, but not the high school threshold, a detailed analysis of public elementary and middle schools is warranted while no analysis is needed for high schools. The number of total and affordable DUs introduced by the Proposed Actions exceed thresholds for analysis in the CEQR Technical Manual for libraries and early childhood programs, and detailed analysis of both is warranted.
4. Open Space - As the Proposed Actions would result in an increase in both the residential and non-residential populations above the 2021 CEQR Technical Manual thresholds for detailed analysis, an open space analysis of indirect impacts on both the residential population and the non-residential population generated by the Proposed Actions is warranted.
5. Shadows - The Proposed Actions would introduce buildings taller than 50 feet, which is above the threshold for shadows analysis on potential sunlight sensitive resources in the Project Area which could result in new incremental shadows on a sunlight-sensitive resources. The Proposed Actions could have the potential to result in a significant adverse impact on shadows.
6. Historic and Cultural Resources - Based on a preliminary review, while there are no listed or eligible historic resources located within a 400-foot radius of the Project Area, there is one potential historic resource that the New York State Historic Preservation Office has designated as 'undetermined' located directly south of the Project Area. The Proposed Actions could have the potential to result in a significant adverse impact on historic and cultural resources.
7. Urban Design and Visual Resources - The Proposed Actions would result in changes within and surrounding the Project Area that could affect a pedestrian's experience of public space, requiring an urban design and visual resources assessment. The Proposed Actions could have the potential to result in a significant adverse impact on urban design and visual resources.

- 8. Natural Resources - The Proposed Actions would not result in construction on a site containing or adjacent to a natural resource. Therefore, no thresholds were met for an analysis of natural resources, and the Proposed Actions would not result in significant adverse impacts related to natural resources.
- 9. Hazardous Materials - The Proposed Actions would result in new construction including new in-ground excavation and subsurface disturbance within the Project Area, which has a documented history of hazardous materials conditions and previous industrial uses. Therefore, the Proposed Actions could result in a significant adverse impact on hazardous materials.
- 10. Water and Sewer Infrastructure - The Proposed Actions would result in a With-Action water demand of approximately 497,466 and 643,234 gallons per day (gpd) for the With-Action Alternate Residential Scenario (a net increase of approximately 471,405 and 617,172 gpd compared to the No-Action condition, respectively). Therefore, an assessment of water supply is not warranted, and no significant adverse impacts are anticipated. For wastewater and stormwater conveyance and treatment, Proposed Actions exceed the 2021 CEQR Technical Manual's 400 residential units or 150,000 sf or more of non-residential space outside of Manhattan threshold so an assessment of wastewater and stormwater infrastructure is warranted as significant adverse impacts could occur.
- 11. Solid Waste and Sanitation - As a result of the increased development resulting from the Proposed Actions, there would be increased demand on solid waste and sanitation services that could result in significant adverse impacts on solid waste and sanitation services.
- 12. Energy - Although the Proposed Actions are not anticipated to result in significant adverse energy impacts, the EIS will disclose the projected amount of energy consumption during long-term operation resulting from the Proposed Actions to determine the potential impacts on greenhouse gas emissions.
- 13. Transportation - The Proposed Actions would generate trips greater than the thresholds for vehicular traffic, subways, buses, pedestrians and parking, and additional analysis is warranted. Additionally, a detailed analysis of vehicular safety is warranted. Therefore, the Proposed Actions could have the potential to result in a significant adverse impact related to transportation.
- 14. Air Quality - The preliminary analysis for air quality indicated that a detailed mobile and stationary source analysis is warranted. In addition, the projected developments would use fossil fuels for heat and hot water systems. Therefore, an assessment of air quality impacts due to heating and hot water systems is warranted. Emissions from large or major existing sources within a 1,000-foot radius of the Project Area and existing industrial/manufacturing permitted uses within a 400-foot study area will also be assessed to examine the potential for impacts. The Proposed Actions could further potentially introduce light industrial space to the Project Area, so an assessment of project-generated industrial sources introduced by the Proposed Development must also be included in analysis. As a result of the preliminary screening, the Proposed Actions could result in a significant adverse impact on air quality.

- 15. Greenhouse Gas Emissions (GHG) and Climate Change – The development associated with the Proposed Actions exceeds 350,000 sf, which triggers a GHG assessment. As a GHG emissions analysis will be provided in the EIS, pursuant to 2021 CEQR Technical Manual guidance, the Proposed Actions' RWCDs energy consumption will be calculated and provided in the EIS to study significant adverse impacts.
- 16. Noise - The Proposed Actions would introduce additional vehicle trips to and from the Project Area that could potentially impact existing and project-generated sensitive receptors within and in the vicinity of the Project Area. As a result, detailed noise analysis is warranted. Building attenuation required to provide acceptable interior noise levels for the Proposed Development must also be examined. Therefore, the Proposed Actions could result in a significant adverse impact related to noise.
- 17. Public Health - The Proposed Actions could result in effects related to air quality, noise, hazardous materials or construction. Therefore, the Proposed Actions could have the potential to result in significant adverse impacts related to public health.
- 18. Neighborhood Character - The Proposed Actions could affect land use, socioeconomic conditions, open space, urban design and visual resources, historic and cultural resources, transportation, and noise. As a result, the Proposed Actions could have the potential to result in a significant adverse impact related the affected area's neighborhood character
- 19. Construction – The Proposed Actions duration of construction would be considered long term in duration (more than 24 months) and warrants a detailed analysis. The quantitative analyses will evaluate the duration and severity of the disruption or inconvenience to nearby sensitive receptors. Therefore, the Proposed Actions could have the potential to result in significant adverse impacts related to construction.

Public Scoping:

The CEQR lead agency hereby requests that the applicant prepare or have prepared, at their option, a Draft Environmental Impact Statement (DEIS) in accordance with 6 NYCRR 617.9(b) and Sections 6-08 and 6-12 of Executive Order No. 91 of 1977 as amended (City Environmental Quality Review).

A public scoping meeting has been scheduled for Tuesday, December 19, 2023 at 2:00 P.M. To continue to allow for broad public participation options, DCP will hold the public scoping meeting remotely. ENVIRONMENTAL PROTECTION

NOTICE

PUBLIC NOTICE

Federal Emergency Management Agency In accordance with 44 CFR §9.8 for Executive Order 11988 Proposed Pumping Station Improvements Bay Terrace, Queens County, New York

Notification is hereby given to the public of the intent of the Department of Homeland Security- Federal Emergency Management Agency (DHS-FEMA) to provide federal funding to the New York City Department of Environmental Protection (NYC DEP) as subrecipient for a new elevated support building (superstructure) to house the electrical distribution for an existing pump station through the Hazard Mitigation Grant Program (HMGP).

The Proposed Action is located at the southeast intersection of the Clearview Expressway and the Cross Island Expressway, Bay Terrace, Queens County NY (40.78805, -73.789503). The proposed scope of work consists of elevating the proposed superstructure to 17.5 feet NAVD88 which is at the base flood elevation (BFE), as indicated by best available flood map data, plus at least three (3) feet of freeboard for this Critical Action.

This action would take place within the 100-year floodplain. Alternatives considered include: 1) no action, 2) proposed alternative, which is the proposed elevated superstructure or 3) alternate construction. FEMA has determined that building the proposed elevated superstructure is the most practicable alternative to ensure continuity of operations to support the existing pump station.

Comments about this project, potential alternatives, and floodplain impacts may be submitted in writing within 15 days of the date of this publication to: U.S. Department of Homeland Security, Federal Emergency Management Agency – Region 2 – Environmental Planning and Historic Preservation, Mitigation Division, One World Trade Center, Suite 53, New York, NY 10007 or via email to FEMAR2COMMENT@fema.dhs.gov.
