

To: Public, Licensed Master Plumbers, Engineering and Architect Consultants,
Construction Industry

Date: October 13, 2023

From: Anastasios Georgelis, PE; Deputy Commissioner of BWSO *AS*

Re: Bronx, Staten Island and Queens BWSO Local office consolidation

Through the years the Bureau of Water and Sewer Operations staff in the Local Offices have provided a valuable resource of information, engineering and design guidance, and consultation to the design and construction industry, elected officials and home and building owners. The staff bring a lot of different expertise and knowledge of the agency design standards, water and sewer requirements, historic knowledge of connections and permitting, and guidance to the main office staff.

Due to the on-going digitization of the bureau's records, online reviews and permitting capabilities, the bureau is starting the first phase of the office consolidation. The following re-assignments will take effect October 16, 2023.

CURRENT LOCATION	TRANSFER LOCATION
120-55 Queens Blvd.	96-05 Horace Harding Expressway, (Lefrak) 3 rd Floor Low-Rise
1932 Arthur Avenue	
60 Bay Street	250 Livingston Street, 8th Floor, Brooklyn

All record requests should continue to go through PARIS [Request Records - DEP \(nyc.gov\)](https://nyc.gov/request-records).

I thank all the staff and the public for their continued support during this transition.

Rohit Aggarwala
Commissioner &
NYC Chief Climate Officer

Anastasios Georgelis, P.E.
Deputy Commissioner
Bureau of Water & Sewer
Operations
