

Annual Report: New York City Curbside and Containerized Municipal Refuse and by Borough and District: FISCAL YEAR 2013

DSNY Curbside and Containerized collections

Curbside and Containerized collection routes serve individual districts; trucks on these routes pass over scales each day which transmit tonnage data into DSNY's centralized computer system. For this reason, monthly statistics, by Community Districts, can be tracked and reported.

Tons per day

Notes:

Curbside Collection routes serve individual districts; trucks on these routes pass over scales each day which transmit tonnage data into DSNY's centralized computer system. For this reason, monthly statistics, by Community Districts, can be Other Collection Routes cross district boundaries. Like Curbside Routes, the weights of collections are uploaded into the DSNY computer system daily. We can therefore report monthly on Containerized Collections, but not by district.

- 1) **Metal/Glass/Plastic (MGP) Recycling refers to Beverage Cartons, Plastic and Glass Bottles, Cans, Metal, and Foil recycling.**
- 2) **Disposed is sent via transfer stations to landfills or waste-to-energy facilities outside NYC.**
- 3) **Diverted is sent to reuse, recycling or composting inside or outside NYC.**
- 4) **Diversion Rate is tonnage diverted divided by the sum of tonnage diverted and disposed.**
- 5) **C is Curbside Collections only (includes Street Basket, Public Space Recycling, School Trucks).**
- 6) **CT is Containerized Collections**
- 7) **DS is Total DSNY managed**

The following categories of Disposal and Diversion are available only for annual statistics, not monthly, due to DSNY operations: Other City Agency Disposal; Diversion of Household Hazardous Waste, Automotive, Refrigerants; Redeemed bottles and cans; Plastic Bags; Textile Donations; Other Used Material Donations; Electronics Recycling.

* **Organics currently include Christmas Trees, Leaves and Yard Waste. Green Market Food Waste was added as of April 2012.**

** Reported monthly by Vendor. Citywide only, Figures reflect Calendar Month / Year.

Please note: Annual numbers may differ from monthly numbers due to data adjustments.

* Organics currently include Christmas Trees, Leaves and Yard Waste. Green Market Food Waste was added as of April 2012. School Food Waste was added in September 2012.

Monthly Report: New York City Curbside Municipal Refuse and Recycling Statistics

by Borough and District: NOVEMBER 2012

DSNY

Curbside collections

Curbside collection routes serve individual districts; trucks on these routes pass over scales each day which transmit tonnage data into DSNY's centralized computer system. For this reason, monthly statistics, by Community Districts, can be tracked and reported.

Tons per day

District	This month						Same Month Last Year

* Organics currently includes Christmas Trees, Leaves, Yard Waste, Green Market Food Waste, School Food Waste, Residential Food Waste.

Monthly Report: New York City Curbside and Containerized Municipal Refuse and Recycling Statistics

by Borough and District: JUNE 2013

DSNY Curbside and Containerized collections

Curbside and Containerized collection routes serve individual districts; trucks on these routes pass over scales each day which transmit tonnage data into DSNY's centralized computer system. For this reason, monthly statistics, by Community Districts, can be tracked and reported.

Tons per day

District	This month						Same Month Last Year
