

## General Information

Section 11-503(p) of the New York City Administrative Code applicable to tax years beginning on or after January 1, 2017 provides a beer production credit to taxpayers who meet the eligibility requirements.

## Eligibility

To be eligible for this credit, you must meet all of the following requirements:

- You are claiming this credit as an unincorporated business that earned the credit (not as a partner in a partnership),
- you are registered as a distributor under Article 18 (Taxes on Alcoholic Beverages), and
- you produce 60 million gallons or less of beer in New York State during the tax year.
- A registered distributor that produces more than one type of alcoholic beverage in New York State in the same tax year qualifies for the credit for beer produced within the production limits stated above. If the production limitation for beer is exceeded, no credit is allowed.

## Credit Information

- The amount of credit per tax year for each gallon of beer produced in New York City is:
  - ♦ 12 cents (.12) per gallon for the first 500,000 gallons produced, plus
  - ♦ 3.86 cents (.0386) per gallon for each gallon produced in excess of 500,000 gallons (up to 15 million additional gallons of beer).
- However, no credit is allowed for any beer produced in excess of 15.5 million gallons during the tax year.
- Any unused amount of credit for the current tax year will be treated as a refund or overpayment of tax to be credited to next year's tax. Interest will not be paid on the refund or overpayment.
