Reporting on Coordinated
Assessment and Placement
System (CAPS)

NYC HRA CAS LOCAL LAW 3 REPORTING ON COORDINATED ASSESSMENT AND PLACEMENT SYSTEM (CAPS)

FISCAL YEAR ENDING 6/30/2024

INTRODUCTION:

Local Law 3 of 2022 was implemented January 10, 2022. This legislation requires the New York City Department of Social Services (DSS) to produce a detailed report on supportive housing data contained in the Coordinated Assessment and Placement System (CAPS) for the preceding fiscal year and to post the report on the department's website as well as submit to the Council Speaker. The report is due no later than September 1, 2022, and annually thereafter.

This report includes data on clients with supportive housing eligibility, referral, interview, and acceptance activity as applicable in CFY 2024 (July 1, 2023 – June 30, 2024):

Section 1. Supportive Housing Eligible

Section 2. Referred for Supportive Housing Interview

Section 3. Not Referred for Supportive Housing Interview

Section 4. Clients Interviewed

Section 5. Referred No Interview

Section 6. Accepted to Supportive Housing¹

Section 7A. Not Accepted for Supportive Housing (Rejected)²

Section 7B. Not Accepted for Supportive Housing (Rejected) – Detail

Section 8. Referred Awaiting Placement

This report includes data from CAPS for CFY 2024 and as required by LL3 each group is further delineated with disaggregated data by age, gender, ethnicity, language, household type, eligibility, homeless duration, and current placement. Where client counts are under 10, numbers have been redacted to protect client privacy.

This report includes if the client was referred to a housing provider, with the required additional disaggregated data pertaining to the referral entity; if the client was interviewed or not; type of supportive housing referred to/interviewed for; reason for no interview; average number of interviews attended; details on reason for rejection; and count of clients referred but awaiting placement. The pull of data from CAPS was conducted on July 1, 2024.

¹ A client can be accepted for one unit and rejected for another. In these circumstances, the client is included in both Sections 6 and 7.

² This only includes Supportive Housing Provider rejections. Client rejections of units are not reflected in this report.

At the top of each section of this report, there is a description of the universe (how each group is defined) before the disaggregated data is presented. Additionally, footnotes are provided as needed for each subsection to provide the method of defining the data presented.

In Section 7B. Not Accepted for Supported Housing (Rejected) – Detail, the reasons for rejection have been redacted to protect client privacy using the following criteria: client name, program name, program address, and identifying behavior or information. Where complete duplicate entries are listed, these are exactly as entered by housing providers into CAPS and are not errors.

BACKGROUND:

The Coordinated Assessment and Placement System (CAPS) was developed to meet HUD requirements and more importantly, to streamline and improve the assessment, prioritization, housing referral, and placement process for homeless and at-risk households within the NYC CoC geographic region. CAPS assesses homeless or at-risk individuals and families for potential housing options, provides detailed instructions on how to apply for the housing options (including supportive housing categories), assists in prioritizing referrals (based on vulnerability and length of time homeless), and identifies vacancies for the household and places according to verified information on eligibility, client preference, and available vacancies. As NYC continues to develop CAPS to achieve the objectives of streamlining the referral and placement process, consider the following information:

- CAPS was launched in October 2020 and has approximately 36K units of supportive housing being tracked. There are over 40K units of supportive housing in operation in NYC and there is a continuous effort to add more units to CAPS.
- Currently, there is no mandate or operational support for all referrals to be made through CAPS. Therefore, many supportive housing providers conduct intake of eligible individuals and families through direct referrals that are not captured in CAPS.
- In CFY 2024:
 - Added Respite as a housing type in CAPS on 8/28/2023.
 - Added ESSHI Senior as an eligibility determination on 8/30/2023.
 - CUCS began referring six clients per vacancy on 3/14/2024.
- There are four Referral Entities using CAPS to make referrals. These are NYC Administration for Children’s Services (ACS), NYC Human Resources Administration HIV/AIDS Services Administration (HRA HASA), NYC Human Resources Administration Office of Supportive/Affordable Housing & Services (HRA OSAHS), and the State Office of Mental Health/Center for Urban Community Services (SOMH/CUCS). Housing providers can also make internal referrals for their units in specific cases.
 - NYC HRA OSAHS is the primary referral entity for households in the DHS shelter system or engaged with street outreach teams.
 - NYC ACS is the primary referral entity for NY/NY III Pop I eligible clients.
 - NYC HRA HASA is the primary referral entity for NY/NY III Pop H eligible clients and NYC 15/15 HASA Addendum projects.
 - SOMH/CUCS, which was added to CAPS as a referral entity on 7/1/2022, is the primary referral entity for clients eligible for state-funded SMI Singles, ESSHI MH, state-funded NY/NY I & II, NY/NY III Pop B, and NY/NY III Pop C.

Any Other Reason Indicated in the Record of Client Interview	The family will be placed on a waiting list because there is no available apartment.
Any Other Reason Indicated in the Record of Client Interview	The individual appears pre-contemplative, contrary, minimizing his behaviors and minimizing substance abuse. The applicant blames others for his behaviors. His presence in our residential program would not be conducive to a therapeutic environment. He has a history of making accusations against others including family and hospital staff.
Any Other Reason Indicated in the Record of Client Interview	The individual has severe assaultive behaviors on law enforcement, peers in hospital and jail settings and engage in disruptive behaviors while under the influence of substances. He superficially participated in the interview for the sole purpose of discharge from a restricted setting, with no concrete plans for recovery upon return to the community.
Any Other Reason Indicated in the Record of Client Interview	The individual's total needs are such that placement in a {redacted program name} residence or outpatient program was considered but determined not to be appropriate or feasible at this time. Applicant minimized and denied his past substance use, arrest history and severity of symptoms. He should consider substance use housing to address his on-going use of substances to cope with symptoms and stressors. There he can learn appropriate coping skills.
Any Other Reason Indicated in the Record of Client Interview	The individual's total needs are such that placement in a {redacted program name} residence or outpatient program was considered but determined not to be appropriate or feasible at this time. He may benefit from substance use housing as he has had several ER visits for alcohol and opioid use. Documents indicate no history of hospitalizations for mental health treatment prior to current admission. He has a lengthy forensic history, including a violent felony, records indicate he was transferred from jail to the hospital, however, details of his offenses are unclear and he was unable/unwilling to discuss. Danger to others, and recovery efforts are unable to be determined at this time.
Any Other Reason Indicated in the Record of Client Interview	The individual's total needs are such that placement in a {redacted program name} residence or outpatient program was considered but determined not to be appropriate or feasible at this time. Clarification was requested regarding physical aggression against peers. No response was received.

Any Other Reason Indicated in the Record of Client Interview	The individual's total needs are such that placement in a {redacted program name} residence or outpatient program was considered but determined not to be appropriate or feasible at this time. Clarification was requested regarding physical aggression against peers. No response was received.
Any Other Reason Indicated in the Record of Client Interview	The individual's total needs are such that placement in a {redacted program name} residence or outpatient program was considered but determined not to be appropriate or feasible at this time. Clarification was requested regarding physical aggression against peers. No response was received.
Any Other Reason Indicated in the Record of Client Interview	The individual's total needs are such that placement in a {redacted program name} residence was considered but determined not to be appropriate or feasible at this time. He appears pre-contemplative, minimizing violent behaviors, delusions, and a history of non-compliance with medications. He lacks insight into his behaviors and would benefit from a smaller setting in which more constant direct observation could be placed on the individual. Substance housing can also be considered to offer education about harm reduction and mental health management. His volatile behavior would be too disruptive in the therapeutic environment of a large supportive housing setting, and would put others at risk for harm.
Any Other Reason Indicated in the Record of Client Interview	The individual's total needs are such that placement in a {redacted program name} residential program was considered but determined not to be appropriate or feasible at the time. The individual appears pre-contemplative, contrary, minimizing his behaviors and minimizing substance abuse. The applicant blames others for his behaviors. His presence in our residential program would not be conducive to a therapeutic environment. He has a history of making accusations against others including family and hospital staff.
Any Other Reason Indicated in the Record of Client Interview	The individual's total needs are such that placement in a {redacted program name} residence or outpatient program was considered but determined not to be appropriate or feasible at this time. The applicant appeared to be superficially participated in the interview. He is motivated to leave current setting without much investment on recovery efforts. Documents indicate that he is not adherent to structured day programming. He denied and minimized his long history of arrest and assaultive behaviors, as well as substance usage of {redacted details to protect client privacy}.
Any Other Reason Indicated in the Record of Client Interview	The individual's total needs are such that placement in a {redacted program name} residence or outpatient program was considered but determined not to be appropriate or feasible at this time. The applicant has a long history of violence and lacks remorse and understanding of the seriousness of his behaviors with regard to causing harm to others. His inappropriate sexual behaviors put females at risk in the community as well as in congregate settings. He is housed in an all-male setting for the safety of female peers and staff.

Any Other Reason Indicated in the Record of Client Interview	The individual's total needs are such that placement in a {redacted program name} residence was considered but determined not to be appropriate or feasible at this time. {redacted client name} reports a suicide attempt over the summer, as well as an altercation with a peer that she initiated in {redacted month}. She did not demonstrate or verbalize remorse for her violent actions, and continues to be needy and engage in attentionseeking behaviors. She would benefit from a small setting with less staff to client ratio to learn concrete skill-building.
Any Other Reason Indicated in the Record of Client Interview	The individual's total needs are such that placement in a {redacted program name} residence was considered but determined not to be appropriate or feasible at this time. {redacted client name} appears pre-contemplative, withholding information regarding non-compliance, hospitalizations, violence, arrest history, and substance use. He does not accept mental health diagnoses or value the need for ongoing treatment. He is non-compliant despite under ACT and AOT supervision. He has a history of violent behavior while decompensated, and due to his consistent non-compliance, would be a risk to other residents in a programmatic setting.
Any Other Reason Indicated in the Record of Client Interview	The individual's total needs are such that they may be met in a Congregate Treatment setting with 24-hour staffing for medication supervision, ADL assistance, and symptom management. The applicant appears symptomatic, maintaining that he had to leave his house because of {redacted details to protect client privacy}. He states that he has to listen to the voices in his head when they tell him to harm himself or others, however, there are no reports of past harm to others. He was unaware of his previous hospitalizations despite {redacted details to protect client privacy}. The applicant should be reconsidered for AOT supervision. As he is now admitting to experiencing psychosis, medication regimen should be evaluated for added anti-psychotic meds for symptom management.
Any Other Reason Indicated in the Record of Client Interview	The PD is moving forward with another client for the unit.
Any Other Reason Indicated in the Record of Client Interview	The PD went with someone else for the unit.
Any Other Reason Indicated in the Record of Client Interview	The program has no units available for the client at this moment, will request her once we have another unit available.
Any Other Reason Indicated in the Record of Client Interview	The unit has been marked as offline for extensive renovations and we will not be able to move anyone into the apartment at this time.
Any Other Reason Indicated in the Record of Client Interview	this time. {redacted client name} minimizes his alcohol abuse, stating during the interview that he does not drink and has remained in control of his drinking since his {redacted details to protect client privacy}. He has had several ER visits in recent years due to alcohol abuse and would be better suited to a residence that specializes in substance use treatment to assist {redacted client name} in gaining and maintaining sober within the community.

Any Other Reason Indicated in the Record of Client Interview	{redacted client name} was reluctant to any treatment, whether that be medical, psych, or substance use.
Any Other Reason Indicated in the Record of Client Interview	we are going to schedule a second interview with {redacted program name} program director.
Any Other Reason Indicated in the Record of Client Interview	We have identified an applicant for the unit.
Any Other Reason Indicated in the Record of Client Interview	withdrawn we only have one unit available

Support for Personal Care Needs beyond the Scope of the Facility	Unable to provide level of personal care client needs

Support for Personal Care Needs beyond the Scope of the Facility	Unfortunately, we will not be moving forward with the candidate at this time. We determined that the client would function optimally in a program with supportive services on site. Our decision was based on several factors including the client's history of medication non-compliance, his limited understanding of his mental illness, his unwillingness to be forthcoming regarding certain lines of questioning during the interview, needs medical care needed among other things. We recommend that the client apply to one of our Community Residence. Pending he meets the criteria for one of these programs he would have the freedom of community living with the additional support of 24-hour staff on site.
