

NEW ISSUE

In the opinion of Bond Counsel, interest on the Bonds will be exempt from personal income taxes imposed by the State of New York or any political subdivision thereof, including the City, and assuming continuing compliance with the provisions of the Internal Revenue Code of 1986, as amended, as described herein, interest on the Tax-Exempt Bonds will not be includable in the gross income of the owners thereof for Federal income tax purposes. See "SECTION IX: OTHER INFORMATION—Tax Exemption" herein for further information. Interest on the Taxable Bonds will be includable in gross income for Federal income tax purposes.

\$365,000,000

The City of New York

General Obligation Bonds, Fiscal 2001 Series H

\$340,000,000 Tax-Exempt Bonds (Fixed Rate)

\$25,000,000 Taxable Bonds (Fixed Rate)

Dated: Date of Delivery

Due: As shown on the inside cover

The Bonds will be issued as registered bonds. The Bonds will be registered in the nominee name of The Depository Trust Company, New York, New York, which will act as securities depository for the Bonds.

Interest on the Bonds will be payable semiannually, beginning September 15, 2001 and at maturity or prior redemption. The Bonds can be purchased in principal amounts of \$5,000 or any integral multiple thereof. Other terms of the Bonds including optional redemption provisions are described herein. *A detailed schedule of the Bonds is set forth inside this cover page.*

The Tax-Exempt Bonds are offered subject to prior sale, when, as and if issued by the City and accepted by the Underwriters, and the Taxable Bonds are being sold by public letting on the basis of electronic, competitive bids in accordance with the Notice of Sale, dated March 12, 2001, subject to the approval of the legality of the Bonds by Brown & Wood LLP, New York, New York, Bond Counsel to the City, and to certain other conditions. Certain legal matters in connection with the preparation of this Official Statement will be passed upon for the City by Morgan, Lewis & Bockius LLP, New York, New York. Certain legal matters will be passed upon for the Underwriters and the Original Purchaser by Clifford Chance Rogers & Wells, LLP, New York, New York. It is expected that the Bonds will be available for delivery in New York, New York, on or about March 29, 2001.

No dealer, broker, salesperson or other person has been authorized by the City, the Underwriters or the original purchaser to give any information or to make any representations in connection with the Bonds or the matters described herein, other than those contained in this Official Statement, and, if given or made, such other information or representations must not be relied upon as having been authorized by the City or the Underwriters. This Official Statement does not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of the Bonds by any person in any jurisdiction in which it is unlawful for such person to make such offer, solicitation or sale. The information and expressions of opinion contained herein are subject to change without notice, and neither the delivery of this Official Statement, nor any sale made hereunder, shall, under any circumstances, create any implication that there has been no change in the matters described herein since the date hereof. This Official Statement is submitted in connection with the sale of the Bonds referred to herein and may not be reproduced or used, in whole or in part, for any other purpose. The Underwriters may offer and sell Bonds to certain dealers and others at prices lower than the offering prices stated on the inside cover page hereof. The offering prices may be changed from time to time by the Underwriters. No representations are made or implied by the City, the Underwriters or the original purchaser as to any offering of any derivative instruments.

The factors affecting the City's financial condition are complex. This Official Statement should be considered in its entirety and no one factor considered less important than any other by reason of its location herein. Where agreements, reports or other documents are referred to herein, reference should be made to such agreements, reports or other documents for more complete information regarding the rights and obligations of parties thereto, facts and opinions contained therein and the subject matter thereof. Any electronic reproduction of this Official Statement may contain computer-generated errors or other deviations from the printed Official Statement. In any such case, the printed version controls.

IN CONNECTION WITH THIS OFFERING, THE UNDERWRITERS OR THE ORIGINAL PURCHASER MAY OVER-ALLOT OR EFFECT TRANSACTIONS WHICH STABILIZE OR MAINTAIN MARKET PRICES OF THE BONDS AT LEVELS ABOVE THOSE WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

THESE SECURITIES HAVE NOT BEEN RECOMMENDED BY ANY FEDERAL OR STATE SECURITIES COMMISSION OR REGULATORY AUTHORITY. FURTHERMORE, THE FOREGOING AUTHORITIES HAVE NOT CONFIRMED THE ACCURACY OR DETERMINED THE ADEQUACY OF THIS DOCUMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE. IN MAKING AN INVESTMENT DECISION INVESTORS MUST RELY ON THEIR OWN EXAMINATION OF THIS OFFICIAL STATEMENT AND THE TERMS OF THE OFFERING, INCLUDING THE MERITS AND RISKS INVOLVED.

[THIS PAGE INTENTIONALLY LEFT BLANK]

OFFICIAL STATEMENT OF THE CITY OF NEW YORK

This Official Statement provides certain information concerning The City of New York (the "City") in connection with the sale of \$365,000,000 aggregate principal amount of the City's General Obligation Bonds, Fiscal 2001 Series H. The Bonds consist of \$340,000,000 fixed rate tax-exempt bonds (the "Tax-Exempt Bonds") and \$25,000,000 fixed rate taxable bonds (the "Taxable Bonds" and together with the Tax-Exempt Bonds, the "Bonds"). The Taxable Bonds are to be issued to the Original Purchaser thereof in accordance with the City's Notice of Sale, dated March 12, 2001, as supplemented. Reference is made to the Notice of Sale for the terms and conditions of sale and delivery of the Taxable Bonds to be issued to the original purchaser thereof. In addition to the Bonds, \$100,000,000 of the City's General Obligation Bonds, Fiscal 2001 Series H will be issued as adjustable rate tax-exempt bonds and \$100,000,000 of the City's General Obligation Bonds, Fiscal 2001 Series H will be issued as adjustable rate taxable bonds. Such adjustable rate bonds will be offered by a separate official statement.

INTRODUCTORY STATEMENT

The Bonds will be general obligations of the City for the payment of which the City will pledge its faith and credit. All real property subject to taxation by the City will be subject to the levy of *ad valorem* taxes, without limitation as to rate or amount, to pay the principal of, applicable redemption premium, if any, and interest on the Bonds.

The City, with a population of approximately 8 million, is an international center of business and culture. Its non-manufacturing economy is broadly based, with the banking and securities, life insurance, communications, publishing, fashion design, retailing and construction industries accounting for a significant portion of the City's total employment earnings. Additionally, the City is a leading tourist destination. Manufacturing activity in the City is conducted primarily in apparel and printing.

For each of the 1981 through 2000 fiscal years, the City had an operating surplus, before discretionary and other transfers, and achieved balanced operating results as reported in accordance with then applicable generally accepted accounting principles ("GAAP"), after discretionary and other transfers. See "SECTION VI: FINANCIAL OPERATIONS—1996-2000 Summary of Operations." The City has been required to close substantial gaps between forecast revenues and forecast expenditures in order to maintain balanced operating results. There can be no assurance that the City will continue to maintain balanced operating results as required by New York State law without tax or other revenue increases or reductions in City services or entitlement programs, which could adversely affect the City's economic base.

As required by law, the City prepares a four-year annual financial plan, which is reviewed and revised on a quarterly basis and which includes the City's capital, revenue and expense projections and outlines proposed gap-closing programs for years with projected budget gaps. The City's current financial plan projects a surplus in the 2001 and 2002 fiscal years, before discretionary transfers, and budget gaps for each of the 2003, 2004 and 2005 fiscal years. This pattern of current year surplus operating results and projected subsequent year budget gaps has been consistent through the entire period since 1982, during which the City has achieved surplus operating results, before discretionary transfers, for each fiscal year. For information regarding the current financial plan, as well as subsequent developments, see "SECTION I: RECENT FINANCIAL DEVELOPMENTS" and "SECTION VII: FINANCIAL PLAN." The City is required to submit its financial plans to the New York State Financial Control Board (the "Control Board"). For further information regarding the Control Board, see "SECTION III: GOVERNMENT AND FINANCIAL CONTROLS—City Financial Management, Budgeting and Controls—*Financial Review and Oversight*."

The City depends on aid from the State of New York (the "State") both to enable the City to balance its budget and to meet its cash requirements. There can be no assurance that there will not be reductions in State aid to the City from amounts currently projected; that State budgets will be adopted by the April 1 statutory deadline, or interim appropriations will be enacted; or that any such reductions or delays will not have adverse effects on the City's cash flow or expenditures. See "SECTION I: RECENT FINANCIAL DEVELOPMENTS—The State." In addition, the Federal budget negotiation process could result in a reduction or a delay in the receipt of Federal grants which could have additional adverse effects on the City's cash flow or revenues.

The Mayor is responsible for preparing the City's financial plan, including the City's current financial plan for the 2001 through 2005 fiscal years (the "2001-2005 Financial Plan" or "Financial Plan"). The City's projections set forth in the Financial Plan are based on various assumptions and contingencies which are uncertain and which may not materialize. Such assumptions and contingencies are described throughout this Official Statement and include the condition of the regional and local economies, the provision of State and Federal aid and the impact on City revenues and expenditures of any future Federal or State policies affecting the City.

Implementation of the Financial Plan is dependent upon the City's ability to market its securities successfully. The City's program for financing capital projects for fiscal years 2001 through 2005 contemplates the issuance of approximately \$11.4 billion of general obligation bonds and approximately \$5.54 billion of bonds (excluding bond anticipation notes) to be issued by the New York City Transitional Finance Authority (the "Finance Authority"). In addition, the Financial Plan anticipates access to approximately \$2.4 billion (including the \$604 million of bond proceeds received to date) in financing capacity of TSASC, Inc. ("TSASC"), which issues debt secured by revenues derived from the settlement of litigation with tobacco companies selling cigarettes in the United States. The Finance Authority and TSASC were created to assist the City in financing its capital program while keeping City indebtedness within the forecast level of the constitutional restrictions on the amount of debt the City is authorized to incur. See "SECTION VII: FINANCIAL PLAN Assumptions—*Revenue Assumptions*—4. Miscellaneous Revenues" and "SECTION VIII: INDEBTEDNESS—Indebtedness of the City and Certain Other Entities—*Limitations on the City's Authority to Contract Indebtedness.*" In addition, the City issues revenue and tax anticipation notes to finance its seasonal working capital requirements. The success of projected public sales of City, New York City Municipal Water Finance Authority ("Water Authority"), Finance Authority, TSASC and other bonds and notes will be subject to prevailing market conditions. The City's planned capital and operating expenditures are dependent upon the sale of its general obligation debt, as well as debt of the Water Authority, Finance Authority and TSASC. Future developments concerning the City and public discussion of such developments, as well as prevailing market conditions, may affect the market for outstanding City general obligation bonds and notes.

The City Comptroller and other agencies and public officials, from time to time, issue reports and make public statements which, among other things, state that projected revenues and expenditures may be different from those forecast in the City's financial plans. See "SECTION VII: FINANCIAL PLAN—Certain Reports."

The factors affecting the City's financial condition and the Bonds described throughout this Official Statement are complex and are not intended to be summarized in this Introductory Statement. This Official Statement should be read in its entirety.

SECTION I: RECENT FINANCIAL DEVELOPMENTS

2001-2005 Financial Plan

For the 2000 fiscal year, the City had an operating surplus of \$3.187 billion, before discretionary and other transfers, and achieved balanced operating results, after discretionary and other transfers, in accordance with GAAP. The 2000 fiscal year is the twentieth consecutive year that the City has achieved an operating surplus, before discretionary and other transfers, and balanced operating results, after discretionary and other transfers.

On January 25, 2001, the City released the Financial Plan for the 2001 through 2005 fiscal years, which relates to the City and certain entities which receive funds from the City. The Financial Plan is a modification to the financial plan submitted to the Control Board on June 15, 2000 (the "June Financial Plan") as modified in November 2000. The Financial Plan projects revenues and expenditures for the 2001 and 2002 fiscal years balanced in accordance with GAAP, and projects gaps of \$2.4 billion, \$2.5 billion and \$2.3 billion for fiscal years 2003 through 2005, respectively.

Changes since the June Financial Plan include: (i) an increase in projected tax revenues of \$950 million, \$589 million, \$604 million and \$696 million in fiscal years 2001 through 2004, respectively, reflecting primarily increases in projected personal income, business and sales tax revenues, and \$139 million in fiscal year 2001 from unrestricted aid and miscellaneous revenues; (ii) an increase in projected revenues of \$323 million and \$139 million in fiscal years 2001 and 2002, respectively, due to reductions in proposed tax cuts; (iii) increased pension costs resulting primarily from a cost of living adjustment in pension payments totaling \$132 million, \$265 million, \$380 million and \$480 million in fiscal years 2001 through 2004, respectively; (iv) an increase in labor costs totaling \$130 million, \$220 million, \$180 million and \$200 million in fiscal years 2001 through 2004, respectively, to reflect the elimination of previously planned savings, partially offset by recently negotiated fringe benefit cost savings; and (v) other net spending increases of \$134 million, \$340 million, \$401 million and \$379 million in fiscal years 2001 through 2004, respectively, including increased spending for Medicaid, police, energy, debt service and other agency spending. In addition, the Financial Plan sets forth gap-closing actions to eliminate a previously projected gap for the 2002 fiscal year and to reduce projected gaps for fiscal years 2003 through 2005. The gap-closing actions for the 2001 through 2005 fiscal years include: (i) additional agency savings and revenue actions totaling \$346 million, \$692 million, \$330 million, \$312 million and \$312 million for fiscal years 2001 through 2005, respectively; (ii) State reimbursement for landfill closure costs in fiscal year 2002 totaling \$75 million; (iii) additional Federal and State actions of \$350 million in each of fiscal years 2002 through 2005; and (iv) the proposed sale of New York City Off-Track Betting Corporation ("OTB") in fiscal year 2002 for \$250 million. The Financial Plan includes a proposed discretionary transfer in the 2001 fiscal year of \$2.3 billion to pay debt service due in fiscal year 2002 and a proposed discretionary transfer in fiscal year 2002 of \$345 million to pay debt service due in fiscal year 2003.

The Financial Plan assumes: (i) collection of projected rent payments for the City's airports, totaling \$350 million, \$205 million, \$140 million and \$70 million in the 2002 through 2005 fiscal years, respectively, which depends on the successful completion of negotiations with The Port Authority of New York and New Jersey (the "Port Authority") or the enforcement of the City's rights under the existing leases through pending legal actions; (ii) State and Federal approval of the State and Federal gap-closing actions proposed by the City in the Financial Plan; (iii) the annual receipt of \$114 million of State payments to a stock transfer tax incentive fund reflected in the Financial Plan as revenue to the City which was not included in the Governor's Executive Budget; (iv) the successful completion of the sale of OTB, which will require State legislative approval; and (v) the sale of approximately \$150 million of assets. The Financial Plan contains a labor reserve for merit pay wage increases for City employees for two years after their collective bargaining agreements expire, at a cost of \$355 million, \$750 million, \$800 million and \$800 million in fiscal years 2001 through 2004, respectively. The Financial Plan does not make any provision for wage increases other than the labor reserve for merit pay increases discussed above. The Financial Plan also reflects a proposed tax reduction program which totals \$405 million, \$721 million, \$1.0 billion and \$1.2 billion in fiscal years 2002 through 2005, respectively. This tax reduction program includes elimination of the commercial rent tax over four years; the extension of current tax reductions for owners of cooperative and condominium apartments; an earned income tax credit; a credit against the personal income tax for resident owners of Subchapter S corporations; repeal of the \$2 hotel tax; elimination of the sales tax on

clothing and footwear; and a 10% reduction in business taxes, each of which requires approval by the State legislature and/or the City Council.

It can be expected that the Financial Plan will engender public debate, which will continue through the time the budget is scheduled to be adopted in June 2001, and that there will be proposals to increase spending. Accordingly, the Financial Plan may be changed by the time the budget for fiscal year 2002 is adopted. In addition, the economic and financial condition of the City may be affected by various financial, social, economic and other factors which could have a material effect on the City.

The State

The State Financial Plan projects balance on a cash-basis for the 2000-2001 fiscal year, with a closing balance in the General Fund of \$1.4 billion. The Governor's Executive Budget projects balance on a cash basis for the 2001-2002 fiscal year, with a closing balance in the General Fund of \$2.3 billion, including a projected reserve of \$1.3 billion to mitigate the impact in future years of a potential national economic slowdown. The Legislature and the State Comptroller will review the Governor's Executive Budget and are expected to comment on it. There can be no assurance that the Legislature will enact the Executive Budget into law, or that the State's adopted budget projections will not differ materially and adversely from the projections set forth in the Executive Budget. Depending on the amount of State aid provided to localities, the City might be required to make changes in its Financial Plan.

The State Financial Plan contains projections of a potential imbalance in the 2002-2003 fiscal year of \$2.5 billion and in the 2003-2004 fiscal year of \$2.9 billion, assuming implementation of the 2001-2002 Executive Budget recommendations. The current gap projections do not count on the use of any of the proposed \$1.3 billion reserve fund in either 2002-2003 or 2003-2004, and include no new collective bargaining costs after the current labor contracts expire in 2003. In addition, the third quarterly update to the State's Annual Information Statement describes risks relating to a slowing economy and litigation against the State.

SECTION II: THE BONDS

General

The Bonds will be general obligations of the City issued pursuant to the Constitution and laws of the State and the New York City Charter (the “City Charter”) and in accordance with bond resolutions of the Mayor and a certificate of the Deputy Comptroller for Public Finance. The Bonds will mature and bear interest as described on the inside cover page of this Official Statement and will contain a pledge of the City’s faith and credit for the payment of the principal of, redemption premium, if any, and interest on the Bonds. All real property subject to taxation by the City will be subject to the levy of *ad valorem* taxes, without limitation as to rate or amount, to pay the principal of, redemption premium, if any, and interest on the Bonds.

Payment Mechanism

Pursuant to the New York State Financial Emergency Act For The City of New York (the “Financial Emergency Act” or the “Act”), a general debt service fund (the “General Debt Service Fund” or the “Fund”) has been established for City bonds and certain City notes. Pursuant to the Act, payments of the City real estate tax must be deposited upon receipt in the Fund, and retained under a statutory formula, for the payment of debt service (with exceptions for debt service, such as principal of seasonal borrowings, that is set aside under other procedures). The statutory formula has in recent years resulted in retention of sufficient real estate taxes to comply with the City Covenants (as defined in “SECTION II: THE BONDS—Certain Covenants and Agreements”). If the statutory formula does not result in retention of sufficient real estate taxes to comply with the City Covenants, the City will comply with the City Covenants either by providing for early retention of real estate taxes or by making cash payments into the Fund. The principal of and interest on the Bonds will be paid from the Fund until the Act expires on July 1, 2008, and thereafter from a separate fund maintained in accordance with the City Covenants. Since its inception in 1978, the Fund has been fully funded at the beginning of each payment period.

If the Control Board determines that retentions in the Fund are likely to be insufficient to provide for the debt service payable therefrom, it must require that additional real estate tax revenues be retained or other cash resources of the City be paid into the Fund. In addition, the Control Board is required to take such action as it determines to be necessary so that the money in the Fund is adequate to meet debt service requirements.

Enforceability of City Obligations

As required by the State Constitution and applicable law, the City pledges its faith and credit for the payment of the principal of and interest on all City indebtedness. Holders of City debt obligations have a contractual right to full payment of principal and interest at maturity. If the City fails to pay principal or interest, the holder has the right to sue and is entitled to the full amount due, including interest to maturity at the stated rate and at the rate authorized by law thereafter until payment. Under the General Municipal Law, if the City fails to pay any money judgment, it is the duty of the City to assess, levy and cause to be collected amounts sufficient to pay the judgment. Decisions indicate that judicial enforcement of statutes such as this provision in the General Municipal Law is within the discretion of a court. Other judicial decisions also indicate that a money judgment against a municipality may not be enforceable against municipal property devoted to public use.

The rights of the owners of Bonds to receive interest, principal and redemption premium, if any, from the City could be adversely affected by a restructuring of the City’s debt under Chapter 9 of the Federal Bankruptcy Code. No assurance can be given that any priority of holders of City securities (including the Bonds) to payment from money retained in the Fund or from other sources would be recognized if a petition were filed by or on behalf of the City under the Federal Bankruptcy Code or pursuant to other subsequently enacted laws relating to creditors’ rights; such money might then be available for the payment of all City creditors generally. Judicial enforcement of the City’s obligation to make payments into the Fund, of the obligation to retain money in the Fund, of the rights of holders of bonds and notes of the City to money in the Fund, of the obligations of the City under the City Covenants and of the State under the State Covenant and the State Pledge and Agreement (in each case, as defined in “—Certain Covenants and Agreements”) may be within the discretion of a court. For further information concerning rights of owners of Bonds against the City, see “SECTION VIII: INDEBTEDNESS—Indebtedness of the City and Certain Other Entities.”

Certain Covenants and Agreements

The City will covenant that: (i) a separate fund or funds for the purpose of paying principal of and interest on bonds and interest on notes of the City (including required payments into, but not from, City sinking funds) shall be maintained by an officer or agency of the State or by a bank or trust company; and (ii) not later than the last day of each month, there shall be on deposit in a separate fund or funds an amount sufficient to pay principal of and interest on bonds and interest on notes of the City due and payable in the next succeeding month. The City currently uses the debt service payment mechanism described above to perform these covenants. The City will further covenant in the Bonds to comply with the financial reporting requirements of the Act, as in effect from time to time, and to limit its issuance of bond anticipation notes as required by the Act, as in effect from time to time.

The State pledges and agrees in the Financial Emergency Act that the State will not take any action that will impair the power of the City to comply with the covenants described in the preceding paragraph (the "City Covenants") or any right or remedy of any owner of the Bonds to enforce the City Covenants (the "State Pledge and Agreement"). The City will include in the Bonds the covenant of the State (the "State Covenant") to the effect, among other things, that the State will not substantially impair the authority of the Control Board in specified respects. The City will covenant to make continuing disclosure with respect to the Bonds (the "Undertaking") as summarized below under "SECTION IX: OTHER INFORMATION--Continuing Disclosure Undertaking." In the opinion of Bond Counsel, the enforceability of the City Covenants, the Undertaking, the State Pledge and Agreement and the State Covenant may be subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted and may also be subject to the exercise of the State's police powers and of judicial discretion in appropriate cases. The City Covenants, the Undertaking, the State Pledge and Agreement and the State Covenant shall be of no force and effect with respect to any Bond if there is a deposit in trust with a bank or trust company of sufficient cash or cash equivalents to pay when due all principal of, applicable redemption premium, if any, and interest on such Bond.

Use of Proceeds

The proceeds of the Bonds will be used for capital purposes, including expenses of the City in connection with the issuance and sale of the Bonds.

Redemption

Thirty days' notice shall be given to the holders of Bonds to be redeemed prior to maturity. The City may select the dates, amounts, rates and maturities of Bonds for redemption in its sole discretion. On and after any redemption date, interest will cease to accrue on the Bonds called for redemption.

Optional Redemption

The Bonds will be subject to redemption at the option of the City on or after March 15, 2011 in whole or in part, by lot within each maturity, on any date at the following redemption prices, plus accrued interest to the date of redemption:

<u>Redemption Dates</u>	<u>Redemption Price as Percentage of Par</u>
March 15, 2011 through March 14, 2012	101%
March 15, 2012 and thereafter	100

Bond Certificates

Book-Entry Only System

The Depository Trust Company (“DTC”), New York, New York, will act as securities depository for the Bonds. Reference to the Bonds under the caption “Bond Certificates” shall mean all Bonds that are deposited with DTC from time to time. The Bonds will be issued as fully-registered notes registered in the name of Cede & Co. (DTC’s partnership nominee) and deposited with DTC.

DTC is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds securities that its direct participants (“Direct Participants”) deposit with DTC. DTC also facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in Participants’ accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc., the American Stock Exchange LLC, and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). The Rules applicable to DTC and its Participants are on file with the Securities and Exchange Commission.

Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC’s records. The ownership interest of each actual purchaser of each Bond (under this caption, “*Book-Entry Only System*,” a “Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co. The deposit of Bonds with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC’s records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. will consent or vote with respect to Bonds. Under its usual procedures, DTC mails an omnibus proxy (the “Omnibus Proxy”) to the City as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.’s consenting or voting rights to those Direct Participants to whose accounts the Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption notices shall be sent to Cede & Co. If less than all of the Bonds within a maturity are being redeemed, DTC’s practice is to determine by lot the amount of interest of each Direct Participant in such maturity to be redeemed.

Principal and interest payments on the Bonds will be made to DTC. DTC’s practice is to credit Direct Participants’ accounts on the payment date in accordance with their respective holdings shown on DTC’s records

unless DTC has reason to believe that it will not receive payment on the payment date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participant and not of DTC, the Fiscal Agent, or the City, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of the City or the Fiscal Agent, disbursement of such payments to Direct Participants shall be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners shall be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the Bonds at any time by giving reasonable notice to the City or the Fiscal Agent. Under such circumstances, in the event that a successor securities depository is not obtained, Bond certificates are required to be printed and delivered.

The City may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the City believes to be reliable, but the City takes no responsibility for the accuracy thereof.

No assurance can be given by the City that DTC will make prompt transfer of payments to the Participants or that Participants will make prompt transfer of payments to Beneficial Owners. The City is not responsible or liable for payment by DTC or Participants or for sending transaction statements or for maintaining, supervising or reviewing records maintained by DTC or Participants.

For every transfer and exchange of the Bonds, the Beneficial Owners may be charged a sum sufficient to cover any tax, fee or other charge that may be imposed in relation thereto.

Unless otherwise noted, certain of the information contained in this subsection "Book-Entry-Only System" has been extracted from information furnished by DTC. Neither the City nor the Underwriters makes any representation as to the completeness or the accuracy of such information or as to the absence of material adverse changes in such information subsequent to the date hereof.

Discontinuance of the Book-Entry Only System

In the event that the book-entry only system is discontinued, the City will authenticate and make available for delivery replacement Bonds in the form of registered certificates. In addition, the following provisions would apply: principal of the Bonds will be payable in lawful money of the United States of America to the registered owners thereof on the maturity date of the Bonds in immediately available funds at the office of the Fiscal Agent, The Bank of New York: if by hand, The Bank of New York, 101 Barclay Street, New York, New York 10286, Bond Redemption Unit (Lobby Level); if by mail, The Bank of New York, P.O. Box 11265, New York, New York 10286, Attention: Fiscal Agent Department (101B-7E) or any successor fiscal agent designated by the City, and interest on the Bonds will be payable by wire transfer or by check mailed to the respective addresses of the registered owners thereof as shown on the registration books of the City as of the close of business on the last business day of the calendar month immediately preceding the applicable interest payment date.

SECTION III: GOVERNMENT AND FINANCIAL CONTROLS

Structure of City Government

The City of New York is divided into five counties, which correspond to its five boroughs. The City, however, is the only unit of local government within its territorial jurisdiction with authority to levy and collect taxes, and is the unit of local government primarily responsible for service delivery. Responsibility for governing the City is currently vested by the City Charter in the Mayor, the City Comptroller, the City Council, the Public Advocate and the Borough Presidents.

- *The Mayor.* Rudolph W. Giuliani, the Mayor of the City, took office on January 1, 1994 and was elected for a second term commencing January 1, 1998. The Mayor is elected in a general election for a four-year term and is the chief executive officer of the City. The Mayor has the power to appoint the commissioners of the City's various departments. The Mayor is responsible for preparing and administering the City's annual Expense and Capital Budgets (as defined below) and financial plan. The Mayor has the power to veto local laws enacted by the City Council, but such a veto may be overridden by a two-thirds vote of the Council. The Mayor has powers and responsibilities relating to land use and City contracts and all residual powers of the City government not otherwise delegated by law to some other public official or body. The Mayor is also a member of the Control Board.
- *The City Comptroller.* Alan G. Hevesi, the Comptroller of the City, took office on January 1, 1994 and was elected for a second term commencing January 1, 1998. The City Comptroller is elected in a general election for a four-year term and is the chief fiscal officer of the City. The City Comptroller has extensive investigative and audit powers and responsibilities which include keeping the financial books and records of the City. The City Comptroller's audit responsibilities include a program of performance audits of City agencies in connection with the City's management, planning and control of operations. In addition, the City Comptroller is required to evaluate the Mayor's budget, including the assumptions and methodology used in the budget. The Office of the City Comptroller is responsible under the City Charter and pursuant to State Law and City investment guidelines for managing and investing City funds for operating and capital purposes. The City Comptroller is also a member of the Control Board and is a trustee, the custodian and the delegated investment manager of the City's five pension systems. The investments of those pension system assets, aggregating approximately \$91 billion as of December 31, 2000, are made pursuant to the directions of the respective boards of trustees.
- *The City Council.* The City Council is the legislative body of the City and consists of the Public Advocate and 51 members elected for four-year terms who represent various geographic districts of the City. Under the Charter, the City Council must annually adopt a resolution fixing the amount of the real estate tax and adopt the City's annual Expense Budget and Capital Budget (as defined below). The City Council does not, however, have the power to enact local laws imposing other taxes, unless such taxes have been authorized by State legislation. The City Council has powers and responsibilities relating to franchises and land use and as provided by State law.
- *The Public Advocate.* Mark Green, the Public Advocate, took office on January 1, 1994 and was elected for a second term commencing January 1, 1998. The Public Advocate is elected in a general election for a four-year term. The Public Advocate may preside at meetings of the City Council without voting power, except in the case of a tie vote. The Public Advocate is first in the line of succession to the Mayor in the event of the disability of the Mayor or a vacancy in the office. The Public Advocate appoints a member of the City Planning Commission and has various responsibilities relating to, among other things, monitoring the activities of City agencies, the investigation and resolution of certain complaints made by members of the public concerning City agencies and ensuring appropriate public access to government information and meetings.
- *The Borough Presidents.* Each of the City's five boroughs elects a Borough President who serves for a four-year term concurrent with other City elected officials. The Borough Presidents consult with the Mayor in the preparation of the City's annual Expense Budget and Capital Budget. Five percent of discretionary increases proposed by the Mayor in the Expense Budget and, with certain exceptions, five percent of the appropriations supported by funds over which the City has substantial discretion proposed

by the Mayor in the Capital Budget, must be based on appropriations proposed by the Borough Presidents. Each Borough President also appoints one member to the Board of Education (“BOE”) and has various responsibilities relating to, among other things, reviewing and making recommendations regarding applications for the use, development or improvement of land located within the borough, monitoring and making recommendations regarding the performance of contracts providing for the delivery of services in the borough, and overseeing the coordination of a borough-wide public service complaint program.

The City Charter provides that no person shall be eligible to be elected to or serve in the office of Mayor, Public Advocate, Comptroller, Borough President or Council member if that person has previously held such office for two or more full consecutive terms, unless one full term or more has elapsed since that person last held such office. This Charter provision applies to terms of office commencing on or after January 1, 1994.

City Financial Management, Budgeting and Controls

The Mayor is responsible under the City Charter for preparing the City’s annual expense and capital budgets (as adopted, the “Expense Budget” and the “Capital Budget,” respectively, and collectively, the “Budgets”) and for submitting the Budgets to the City Council for its review and adoption. The Expense Budget covers the City’s annual operating expenditures for municipal services, while the Capital Budget covers expenditures for capital projects, as defined in the City Charter. Operations under the Expense Budget must reflect the aggregate expenditure limitations contained in financial plans.

The City Council is responsible for adopting the Expense Budget and the Capital Budget. Pursuant to the City Charter, the City Council may increase, decrease, add or omit specific units of appropriation in the Budgets submitted by the Mayor and add, omit or change any terms or conditions related to such appropriations. The City Council is also responsible, pursuant to the City Charter, for approving modifications to the Expense Budget and adopting amendments to the Capital Budget beyond certain latitudes allowed to the Mayor under the City Charter. However, the Mayor has the power to veto any increase or addition to the Budgets or any change in any term or condition of the Budgets approved by the City Council, which veto is subject to an override by a two-thirds vote of the City Council, and the Mayor has the power to implement expenditure reductions subsequent to adoption of the Expense Budget in order to maintain a balanced budget. In addition, the Mayor has the power to determine the non-property tax revenue forecast on which the City Council must rely in setting the property tax rates for adopting a balanced City budget.

Office of Management and Budget

The Office of Management and Budget (“OMB”), with a staff of approximately 300 professionals, is the Mayor’s primary advisory group on fiscal issues and is also responsible for the preparation, monitoring and control of the City’s Budgets and four-year financial plans. In addition, the City prepares a Ten-Year Capital Strategy.

State law requires the City to maintain its Expense Budget balanced when reported in accordance with GAAP. In addition to the City’s annual Expense and Capital Budgets, the City prepares a four-year financial plan which encompasses the City’s revenue, expenditure, cash flow and capital projections. All Covered Organizations, as hereinafter defined, are also required to maintain budgets that are balanced when reported in accordance with GAAP. From time to time certain Covered Organizations have had budgets providing for operations on a cash basis but not balanced under GAAP.

To assist in achieving the goals of the financial plan and budget, the City reviews its financial plan periodically and, if necessary, prepares modifications to incorporate actual results and revisions to projections and assumptions to reflect current information. The City’s revenue projections are continually reviewed and periodically updated with the benefit of discussions with a panel of private economists analyzing the effects of changes in economic indicators on City revenues and information from various economic forecasting services.

Office of the Comptroller

The City Comptroller is the City’s chief fiscal officer and is responsible under the City Charter for reviewing and commenting on the City’s Budgets and financial plans, including the assumptions and methodologies used in

their preparation. The City Comptroller, as an independently elected public official, is required to report annually to the City Council on the state of the City's economy and finances and periodically to the Mayor and the City Council on the financial condition of the City and to make recommendations, comments and criticisms on the operations, fiscal policies and financial transactions of the City. Such reports, among other things, have differed with certain of the economic, revenue and expenditure assumptions and projections in the City's financial plans and Budgets. See "SECTION VII: FINANCIAL PLAN—Certain Reports."

The Office of the City Comptroller, with a professional staff of approximately 790, establishes the City's accounting and financial reporting practices and internal control procedures. The City Comptroller is also responsible for the preparation of the City's annual financial statements, which, since 1978, have been required to be reported in accordance with GAAP.

The Comprehensive Annual Financial Report of the Comptroller for the 1999 fiscal year, which includes, among other things, the City's financial statements for the 1999 fiscal year, has received the Government Finance Officers Association award of the Certificate of Achievement for Excellence in Financial Reporting, the twentieth consecutive year the Comprehensive Annual Financial Report of the Comptroller has won such award.

All contracts for goods and services requiring the expenditure of City moneys must be registered with the City Comptroller. No contract can be registered unless funds for its payment have been appropriated by the City Council or otherwise authorized. The City Comptroller also prepares vouchers for payments for such goods and services and cannot prepare a voucher unless funds are available in the Budgets for its payment.

The City Comptroller is also required by the City Charter to audit all City agencies and has the power to audit all City contracts. The Office of the Comptroller conducts both financial and management audits and has the power to investigate corruption in connection with City contracts or contractors.

The Mayor and City Comptroller are responsible for the issuance of City indebtedness. The City Comptroller oversees the payment of such indebtedness and is responsible for the custody of certain sinking funds.

Financial Reporting and Control Systems

Since 1978, the City's financial statements have been required to be audited by independent certified public accountants and to be presented in accordance with GAAP. The City has completed twenty consecutive fiscal years with a General Fund surplus when reported in accordance with then applicable GAAP.

Both OMB and the Office of the Comptroller utilize a financial management system which provides comprehensive current and historical information regarding the City's financial condition. This information, which is independently evaluated by each office, provides a basis for City action required to maintain a balanced budget and continued financial stability.

The City's operating results and forecasts are analyzed, reviewed and reported on by each of OMB and the Office of the Comptroller as part of the City's overall system of internal control. Internal control systems are reviewed regularly, and the City Comptroller requires an annual report on internal control and accountability from each agency. Comprehensive service level and productivity targets are formulated and monitored for each agency by the Mayor's Office of Operations and reported publicly in a semiannual management report.

The City has developed and utilizes a cash forecasting system which forecasts its daily cash balances. This enables the City to predict more accurately its short-term borrowing needs and maximize its return on the investment of available cash balances. Monthly statements of operating revenues and expenditures, capital revenues and expenditures and cash flow are reported after each month's end, and major variances from the financial plan are identified and explained.

City funds held for operation and capital purposes are managed by the Office of the City Comptroller, with specific guidelines as to investment vehicles. The City does not invest such funds in leveraged products or use reverse repurchase agreements. The City invests primarily in obligations of the United States Government, its agencies and instrumentalities, high grade commercial paper and repurchase agreements with primary dealers. The repurchase agreements are collateralized by United States Government treasuries, agencies and instrumentalities, held by the City's custodian bank and marked to market daily.

More than 95% of the aggregate assets of the City's five defined benefit pension systems are managed by outside managers, supervised by the Office of the City Comptroller, and the remainder is held in cash or managed by the City Comptroller. Allocations of investment assets are determined by each fund's board of trustees. As of December 31, 2000 aggregate pension assets were allocated approximately as follows: 52% U.S. equities; 32% U.S. fixed income; 16% international equities; 0% international fixed income; and 0% cash.

Financial Emergency Act

The Financial Emergency Act (the "Act") requires that the City submit to the Control Board, at least 50 days prior to the beginning of each fiscal year (or on such other date as the Control Board may approve), a financial plan for the City and certain State governmental agencies, public authorities or public benefit corporations ("PBCs") which receive or may receive monies from the City directly, indirectly or contingently (the "Covered Organizations") covering the four-year period beginning with such fiscal year. The BOE, the New York City Transit Authority and the Manhattan and Bronx Surface Transit Operating Authority (collectively, "New York City Transit" or "NYCT"), New York City Health and Hospitals Corporation ("HHC") and the New York City Housing Authority (the "Housing Authority" or "HA") are examples of Covered Organizations. The Act requires that the City's four-year financial plans conform to a number of standards. Unless otherwise permitted by the Control Board under certain conditions, the City must prepare and balance its budget covering all expenditures other than capital items so that the results of such budget will not show a deficit when reported in accordance with GAAP. Provision must be made, among other things, for the payment in full of the debt service on all City securities. The budget and operations of the City and the Covered Organizations must be in conformance with the financial plan then in effect.

From 1975 to June 30, 1986, the City was subject to a Control Period, as defined in the Act, which was terminated upon the satisfaction of the statutory conditions for termination, including the termination of all Federal guarantees of obligations of the City, a determination by the Control Board that the City had maintained a balanced budget in accordance with GAAP for each of the three immediately preceding fiscal years and a certification by the State and City Comptrollers that sales of securities by or for the benefit of the City satisfied its capital and seasonal financing requirements in the public credit markets and were expected to satisfy such requirements in the 1987 fiscal year. With the termination of the Control Period, certain Control Board powers were suspended including, among others, its power to approve or disapprove certain contracts (including collective bargaining agreements), long-term and short-term borrowings, and the four-year financial plan and modifications thereto of the City and the Covered Organizations. After the termination of the Control Period but prior to the statutory expiration date of the Act on July 1, 2008, the City is still required to develop a four-year financial plan each year and to modify the plan as changing circumstances require. During this period, the Control Board will also continue to have certain review powers and must reimpose a Control Period upon the occurrence or substantial likelihood and imminence of any one of certain events specified in the Act. These events are (i) failure by the City to pay principal of or interest on any of its notes or bonds when due or payable, (ii) the existence of a City operating deficit of more than \$100 million, (iii) issuance by the City of notes in violation of certain restrictions on short-term borrowing imposed by the Act, (iv) any violation by the City of any provision of the Act which substantially impairs the ability of the City to pay principal of or interest on its bonds or notes when due and payable or its ability to adopt or adhere to an operating budget balanced in accordance with the Act, or (v) joint certification by the State and City Comptrollers that they could not at that time make a joint certification that sales of securities in the public credit market by or for the benefit of the City during the immediately preceding fiscal year and the current fiscal year satisfied its capital and seasonal financing requirements during such period and that there is a substantial likelihood that such securities can be sold in the general public market from the date of the joint certification through the end of the next succeeding fiscal year in amounts that will satisfy substantially all of the capital and seasonal financing requirements of the City during such period in accordance with the financial plan then in effect.

Financial Review and Oversight

The Control Board, with the Office of the State Deputy Comptroller ("OSDC"), reviews and monitors revenues and expenditures of the City and the Covered Organizations. In addition, the Municipal Assistance Corporation for The City of New York ("MAC") was organized to provide financing assistance for the City and

to exercise certain review functions with respect to the City's finances, and the Independent Budget Office (the "IBO") has been established pursuant to the City Charter to provide analysis to elected officials and the public on relevant fiscal and budgetary issues affecting the City.

The Control Board is required to: (i) review the four-year financial plan of the City and of the Covered Organizations and modifications thereto; (ii) review the operations of the City and the Covered Organizations, including their compliance with the financial plan; and (iii) review long-term and short-term borrowings and certain contracts, including collective bargaining agreements, of the City and the Covered Organizations. The requirement to submit four-year financial plans and budgets for review was in response to the severe financial difficulties and loss of access to the credit markets encountered by the City in 1975. The Control Board must reexamine the financial plan on at least a quarterly basis to determine its conformance to statutory standards.

The ex officio members of the Control Board are the Governor of the State of New York (Chairman); the Comptroller of the State of New York; the Mayor of The City of New York; and the Comptroller of The City of New York. In addition, there are three private members appointed by the Governor. The Executive Director of the Control Board is appointed jointly by the Governor and the Mayor. The Control Board is assisted in the exercise of its responsibilities and powers under the Financial Emergency Act by the State Deputy Comptroller.

SECTION IV: SOURCES OF CITY REVENUES

The City derives its revenues from a variety of local taxes, user charges and miscellaneous revenues, as well as from Federal and State unrestricted and categorical grants. State aid as a percentage of the City's revenues has remained relatively constant over the period from 1980 to 2000, while unrestricted Federal aid has been sharply reduced. The City projects that local revenues will provide approximately 67.7% of total revenues in the 2001 fiscal year while Federal aid, including categorical grants, will provide 11.3%, and State aid, including unrestricted aid and categorical grants, will provide 21.0%. Adjusting the data for comparability, local revenues provided approximately 60.6% of total revenues in 1980, while Federal and State aid each provided approximately 19.7%. A discussion of the City's principal revenue sources follows. For information regarding assumptions on which the City's revenue projections are based, see "SECTION VII: FINANCIAL PLAN - Assumptions." For information regarding the City's tax base, see "APPENDIX A—ECONOMIC AND SOCIAL FACTORS."

Real Estate Tax

The real estate tax, the single largest source of the City's revenues, is the primary source of funds for the City's General Debt Service Fund. The City expects to derive approximately 35.5% of its total tax revenues and 20.4% of its total revenues for the 2001 fiscal year from the real estate tax. For information concerning tax revenues and total revenues of the City for prior fiscal years, see "SECTION VI: FINANCIAL OPERATIONS—1996-2000 Summary of Operations."

The State Constitution authorizes the City to levy a real estate tax without limit as to rate or amount (the "debt service levy") to cover scheduled payments of the principal of and interest on indebtedness of the City. However, the State Constitution limits the amount of revenue which the City can raise from the real estate tax for operating purposes (the "operating limit") to 2.5% of the average full value of taxable real estate in the City for the current and the last four fiscal years less interest on temporary debt and the aggregate amount of business improvement district charges subject to the 2.5% tax limitation. The table below sets forth the percentage of the debt service levy to the total levy. The City Council has adopted a distinct tax rate for each of the four categories of real property established by State legislation.

COMPARISON OF REAL ESTATE TAX LEVIES, TAX LIMITS AND TAX RATES

Fiscal Year	Total Levy(1)	Levy Within Operating Limit	Debt Service Levy(2)	Percent of Debt Service Levy to		Percent of Levy Within Operating Limit to Operating Limit(3)	Rate Per \$100 of Full Valuation(4)	Average Tax Rate Per \$100 of Assessed Valuation
				Total Levy	Operating Limit			
(Dollars in Millions)								
1996	\$7,871.4	\$5,182.3	\$2,609.8	33.2%	\$8,633.4	60.0%	1.88%	\$10.37
1997	7,835.1	4,933.3	2,827.4	36.1	7,857.3	62.8	2.14	10.37
1998	7,890.4	5,928.5	1,872.9	23.7	7,599.7	78.0	2.27	10.37
1999	8,099.3	6,307.8	1,776.5	21.9	7,170.3	88.0	2.56	10.37
2000	8,374.3	7,223.2	1,138.9	13.6	7,268.7	99.4	2.62	10.37
2001	8,730.3	7,432.7	1,274.6	14.6	7,573.1	98.1	2.59	10.37

- (1) As approved by the City Council.
- (2) The debt service levy includes a portion of the total reserve for uncollected real estate taxes.
- (3) The increase in the percentage between fiscal year 1997 and fiscal year 2001 was primarily due to the discretionary transfers, for accounting purposes, in the 1997, 1998, 1999 and 2000 fiscal years to pay debt service due in the 1998, 1999, 2000 and 2001 fiscal years, respectively, which reduced the amount of the debt service levy in the 1998, 1999, 2000 and 2001 fiscal years and, as a result, increased the amount of the total levy utilized for operating purposes.
- (4) Full valuation is based on the special equalization ratios (discussed below) and the billable assessed valuation. Special equalization ratios and full valuations are revised periodically as a result of surveys by the State Board of Real Property Services.

Assessment

The City has traditionally assessed real property at less than market (full) value. The State Board of Real Property Services (the "State Board") is required by law to determine annually the relationship between taxable assessed value and market value which is expressed as the "special equalization ratio." The special equalization ratio is used to compute full value for the purpose of measuring the City's compliance with the operating limit and general debt limit. For a discussion of the City's debt limit, see "SECTION VIII: INDEBTEDNESS—Indebtedness of the City and Certain Other Entities—*Limitations on the City's Authority to Contract Indebtedness.*" The ratios are calculated by using the most recent market value surveys available and a projection of market value based on recent survey trends, in accordance with methodologies established by the State Board from time to time. Ratios, and therefore full values, may be revised when new surveys are completed. The ratios and full values used to compute the 2001 fiscal year operating limit and general debt limit which are shown in the table below, have been established by the State Board and include the results of the calendar year 1999 market value survey. For information concerning litigation asserting that the special equalization ratios calculated by the State Board in certain years violate State law because they substantially overestimate the full value of City real estate for the purposes of calculating the operating limit, and that the City's real estate tax levy for operating purposes exceeded the State Constitutional limit, see "SECTION IX: OTHER INFORMATION—Litigation—*Taxes.*"

BILLABLE ASSESSED AND FULL VALUE OF TAXABLE REAL ESTATE⁽¹⁾

<u>Fiscal Year</u>	<u>Billable Assessed Valuation of Taxable Real Estate(2)</u>	+	<u>Special Equalization Ratio</u>	=	<u>Full Valuation(2)</u>
1997.	\$75,668,457,434		0.2691		\$281,190,848,881
1998.	76,188,390,641		0.2604		292,582,145,319
1999.	78,239,325,754		0.2566		304,907,738,714
2000.	80,885,286,485		0.2574		314,239,652,234
2001.	84,319,741,571		0.2504		336,740,181,993
				Average:	305,932,113,428

- (1) Also assessed by the City, but excluded from the computation of taxable real estate, are various categories of property exempt from taxation under State law. For the 2001 fiscal year, the billable assessed value of real estate categorized by the City as exempt is \$61.7 billion, or 40.8% of the \$151.1 billion billable assessed value of all real estate (taxable and exempt).
- (2) Figures for 1997 to 2001 are based on estimates of the special equalization ratio which are revised annually. These figures are derived from official City Council Tax Resolutions adopted with respect to the 2001 fiscal year. These figures differ from the assessed and full valuation of taxable real estate reported in the Annual Financial Report of the City Comptroller, which excludes veterans' property subject to tax for school purposes and is based on estimates of the special equalization ratio which are not revised annually.

State law provides for the classification of all real property in the City into one of four statutory classes. Class one primarily includes one-, two- and three-family homes; class two includes certain other residential property not included in class one; class three includes most utility real property; and class four includes all other real property. The total tax levy consists of four tax levies, one for each class. Once the tax levy is set for each class, the tax rate for each class is then fixed annually by the City Council by dividing the levy for such class by the billable assessed value for such class.

Assessment procedures differ for each class of property. For fiscal year 2001, class one was assessed at approximately 8% of market value and classes two, three and four were each assessed at 45% of market value. In addition, individual assessments on class one parcels cannot increase by more than six percent per year or twenty percent over a five-year period. Market value increases and decreases for most of class two and all of class four are phased in over a period of five years. Increases in class one market value in excess of applicable limitations are not phased in over subsequent years. There is also no phase in for class three property.

Class two and class four real property have three assessed values: actual, transition and billable. Actual assessed value is established for all tax classes without regard to the five-year phase-in requirement applicable to most class two and all class four properties. The transition assessed value reflects this phase-in. Billable assessed value is the basis for tax liability, and is the lower of the actual or transition assessment.

The share of the total levy that can be borne by each class is regulated by the provisions of the Real Property Tax Law. Each class's share of the total tax levy is updated annually to reflect new construction, demolition,

alterations or changes in taxable status and is subject to limited adjustment to reflect market value changes among the four classes. Class share adjustments are limited to a 5% maximum increase per year and, in addition, increases below 5% must be approved by the State legislature. Fiscal year 2001 tax rates were set on June 6, 2000, and reflect a 5% limitation on the market value adjustment for 2001. After final adoption of the fiscal year 2001 budget, the Governor signed legislation which reduced the market value adjustment to 2%. The tax fixing resolution was amended and restated on September 13, 2000 by the City Council. New tax bills were sent out in November 2000 reflecting a redistribution of the tax levy among the tax classes. For fiscal year 2001, the average tax rate is held at the current rate of \$10.37 per \$100 of assessed value, though individual class tax rates have changed from the prior year level.

A change to the Real Property Tax Law, effective January 1, 1998, allows taxpayers to use sales prices to challenge the equality of assessments. This change may result in significant refund exposure and reduce the City's real estate tax revenue accordingly.

City real estate tax revenues may be reduced in future fiscal years as a result of tax refund claims asserting overvaluation, inequality of assessment and illegality. For a discussion of various proceedings challenging assessments of real property for real estate tax purposes, see "SECTION IX: OTHER INFORMATION—Litigation—Taxes." For further information regarding the City's potential exposure in certain of these proceedings, see "APPENDIX B— FINANCIAL STATEMENTS—Notes to Financial Statements—Note J. LONG-TERM OBLIGATIONS—Judgments and Claims."

The State Board annually certifies various class ratios and class equalization rates relating to the four classes of real property in the City. "Class ratios", which are determined for each class by the State Board by calculating the ratio of assessed value to market value, are used in real property tax certiorari proceedings involving allegations of inequality of assessments. The City believes that the State Board overestimated market values for class two and class four properties in calculating the class ratios for the 1991 and 1992 assessment rolls and has commenced proceedings challenging these class ratios. A lowering of the market value determination by the State Board for classes two and four would raise the class ratios and could result in a reduction in tax refunds issued as a result of tax certiorari proceedings. For further information regarding the City's proceeding, see "SECTION IX: OTHER INFORMATION—Litigation— Taxes."

Trend in Taxable Assessed Value

During the decade prior to fiscal year 1993, real property tax revenues grew substantially. Because State law provides for increases in assessed values of most properties to be phased into property tax bills over five-year periods, billable assessed values continued to grow and real property tax revenue increased through fiscal year 1993 even as market values declined during the local recession.

For the 1996 fiscal year, billable assessed valuation in total was essentially unchanged from the prior year (a decline of 0.2%), as the rate of decline in class four slowed and slight increases in the valuations of the other classes offset the class four decline. For the 1996 fiscal year, actual assessed valuation increased by 0.8%, the first improvement since fiscal year 1991. Billable assessed valuation for 1996 was essentially unchanged at \$75.9 billion. Fiscal year 1997 actual assessed valuation on the final assessment roll increased by 0.1% or \$86 million, while billable assessed valuation decreased by 0.5% or \$356 million from fiscal year 1996 to \$75.5 billion. For the 1998 fiscal year, actual assessed valuation increased by 1.6% or \$1.3 billion while billable assessed valuation increased by 0.7% to \$76.0 billion, the first increase since 1993. For the 1999 fiscal year, billable assessed valuation rose by \$1.7 billion to \$77.7 billion. For fiscal year 2000, billable assessed valuation rose by \$2.4 billion to \$80.1 billion. The Department of Finance has released the final assessment roll for fiscal year 2001, in which billable assessed valuation rose by \$3.2 billion to \$83.3 billion. The Department of Finance has released the tentative assessment roll for fiscal year 2002, in which billable assessed valuation rose by \$6.4 billion to \$90.7 billion. After accounting for adjustments from the tax commission and other actions, it is estimated that the final assessment roll for fiscal year 2002, to be released in May, will be \$1.3 billion lower than the tentative assessment roll. Billable assessed valuations are forecast to exceed local inflation through the 2005 fiscal year following continued growth in market values.

Collection of the Real Estate Tax

Real estate tax payments are due each July 1 and January 1. Changes to the real property tax law expanded the eligibility for quarterly tax payments by owners of class one and class two properties assessed at \$80,000 or less, up from the previous \$40,000, and cooperatives whose individual units on average are valued at \$80,000 or less, up from the previous \$40,000, which are paid in quarterly installments on July 1, October 1, January 1 and April 1. These provisions apply to installments of real property tax becoming due and payable on or after July 1, 1998. An annual interest rate of 9% compounded daily is imposed upon late payments on properties for which the annual tax bill does not exceed \$2,750 except in the case of (i) any parcel with respect of which the real property taxes are held in escrow and paid by a mortgage escrow agent and (ii) parcels consisting of vacant or unimproved land. An interest rate of 18% compounded daily is imposed upon late payments on all other properties. These interest rates are set annually.

The City primarily uses two methods to enforce the collection of real estate taxes. The City is authorized to sell real property tax liens on class one properties which are delinquent for at least three years and class two, three and four properties which are delinquent for at least one year. The City Council voted to extend such authority until October 31, 2001. In addition, the City is entitled to foreclose delinquent tax liens by *in rem* proceedings after one year of delinquency with respect to properties other than one- and two-family dwellings and condominium apartments for which the annual tax bills do not exceed \$2,750, as to which a three-year delinquency rule is in effect.

The real estate tax is accounted for on a modified accrual basis. Revenue accrued is limited to prior year payments received, offset by refunds made, within the first two months of the following fiscal year. In deriving the real estate tax revenue forecast, a reserve is provided for cancellations or abatements of taxes and for nonpayment of current year taxes owed and outstanding as of the end of the fiscal year.

The following table sets forth the amount of delinquent real estate taxes (owed and outstanding as of the end of the fiscal year of levy) for each of the fiscal years indicated. Delinquent real estate taxes do not include real estate taxes subject to cancellation or abatement under various exemption or abatement programs. Delinquent real estate taxes generally increase during a recession and when the real estate market deteriorates. Delinquent real estate taxes generally decrease as the City's economy and real estate market recover.

In fiscal years 1996, 1997, 1998, 1999, 2000 and 2001, the City sold to separate business trusts real property tax liens for which the City received net proceeds of approximately \$169 million, \$52 million, \$23 million, \$127 million, \$73 million and \$121 million, respectively. In addition, the Financial Plan projects that the City will receive approximately \$52 million in additional proceeds from a second lien sale in fiscal year 2001.

REAL ESTATE TAX COLLECTIONS AND DELINQUENCIES (In Millions)

Fiscal Year	Tax Levy(1)	Tax Collections on Current Year Levy(2)	Tax Collections as a Percentage of Tax Levy	Prior Year (Delinquent Tax) Collections	Refunds(3)	Cancellations, Net Credits, Abatements, Exempt Property Restored and Shelter Rent	Delinquent as of End of Fiscal Year(4)	Delinquency as a Percentage of Tax Levy	Lien Sale(5)
1996	\$7,871.4	\$7,306.9	92.8%	\$240.6	\$(399.7)	\$(275.5)	\$(289.1)	3.67%	\$169.1
1997	7,835.1	7,371.3	94.1	146.8	(279.0)	(179.4)	(284.4)	3.63	51.5
1998	7,890.4	7,414.2	94.0	148.2	(345.6)	(199.1)	(277.1)	3.51	22.5
1999	8,099.3	7,519.7	92.8	127.7	(175.5)	(303.4)	(276.2)	3.40	127.3
2000	8,374.3	7,768.1	92.8	149.2	(200.2)	(345.7)	(260.5)	3.11	73.0
2001(6) . .	8,730.3	8,030.2	92.0	127.0	(238.0)	(429.5)	(270.6)	3.10	173.0

(1) As approved by the City Council.

(2) Quarterly collections on current year levy.

(3) Includes repurchases of defective tax liens amounting to \$7.6 million, \$0.5 million, \$7.9 million, \$11.0 million and \$8.0 million in the 1997, 1998, 1999, 2000 and 2001 fiscal years, respectively.

(4) These figures include taxes due on certain publicly owned property and exclude delinquency on shelter rent and exempt property restored in the 1996 fiscal year.

(5) Net of reserve for defective liens.

(6) Forecast.

Other Taxes

The City expects to derive 64.5% of its total tax revenues for the 2001 fiscal year from a variety of taxes other than the real estate tax, such as: (i) the 4% sales and compensating use tax, in addition to the State 4¾% sales and use tax imposed by the State upon receipts from retail sales of tangible personal property and certain services in the City; (ii) the personal income tax on City residents; (iii) a general corporation tax levied on the income of corporations doing business in the City; (iv) a banking corporation tax imposed on the income of banking corporations doing business in the City; and (v) the State-imposed stock transfer tax. While the economic effect of the stock transfer tax was eliminated as of October 1, 1981, the City's revenue loss is, to some extent, mitigated by State payments to a stock transfer tax incentive fund.

For local taxes other than the real property tax, the City may adopt and amend local laws for the levy of local taxes to the extent authorized by the State. This authority can be withdrawn, amended or expanded by State legislation. Without State authorization, the City may locally impose property taxes to fund general operations in an amount not to exceed 2¾% of property values in the City as determined under a State mandated formula. In addition, the State cannot restrict the City's authority to levy and collect real estate taxes in excess of the 2¾% limitation in the amount necessary to pay principal of and interest on City indebtedness. For further information concerning the City's authority to impose real property taxes, see "SECTION IV: SOURCES OF CITY REVENUES—Real Estate Tax." Payments by the State to the City of sales tax and stock transfer tax revenues are subject to appropriation by the State and are made available first to MAC for payment of MAC debt service, reserve fund requirements and operating expenses, with the balance, if any, payable to the City. Sales tax payments payable to the City would be paid to the Finance Authority if personal income tax revenues do not satisfy specified debt service ratios.

Revenues from taxes other than the real property tax in the 2000 fiscal year increased by \$749 million or approximately 5.5% from the 1999 fiscal year. The following table sets forth, by category, revenues from taxes, other than the real property tax, for each of the City's 1996 through 2000 fiscal years.

	<u>1996</u>	<u>1997</u>	<u>1998</u>	<u>1999</u>	<u>2000</u>
	(In Millions)				
Personal Income(1)	\$ 3,908	\$ 4,361	\$ 5,117	\$ 5,379	\$ 5,353
General Corporation	1,209	1,478	1,551	1,423	1,779
Banking Corporation	361	360	515	388	347
Unincorporated Business Income	496	561	671	657	805
Sales	2,714	2,912	3,052	3,192	3,509
Commercial Rent(2)	531	374	358	333	344
Real Property Transfer	175	215	288	424	483
Mortgage Recording	147	185	232	408	403
Utility	214	215	223	222	247
All Other(3)	628	695	704	698	723
Audits	657	651	458	536	416
Total	<u>\$11,040</u>	<u>\$12,007</u>	<u>\$13,170</u>	<u>\$13,660</u>	<u>\$14,409</u>

(1) Personal Income includes \$185 million of Criminal Justice Fund revenues in fiscal year 1996, \$90 million in fiscal year 1997 and \$185 million in fiscal year 1998 and excludes \$16 million, \$144 million and \$247 million retained by the Finance Authority in 1998, 1999 and 2000, respectively. In fiscal years 1999 and 2000, Personal Income also includes \$85 million and \$200 million, respectively, which was provided to the City by the State as a reimbursement for the reduced personal income tax revenues resulting from the State Tax Relief Program ("STAR Program"). Personal Income also reflects, commencing in fiscal year 1999, the expiration of the 12.5% personal income tax surcharge and, commencing in fiscal year 2000, the repeal of the nonresident earnings tax, which together reduced taxes by \$1.366 billion in fiscal year 2000. Personal Income taxes flow directly from the State to the Finance Authority, and from the Finance Authority to the City only to the extent not required by the Finance Authority for debt service and operating expenses.

(2) Commercial Rent reflects legislation providing for various credit and exemptions which reduced collections.

(3) All Other includes, among others, the stock transfer tax, New York City Off-Track Betting Corporation ("OTB") net revenues, cigarette, beer and liquor taxes, the hotel tax and the automobile use tax, but excludes the STAR Program aid of \$117 million and \$260 million in fiscal years 1999 and 2000, respectively.

Miscellaneous Revenues

Miscellaneous revenues include revenue sources such as charges collected by the City for the issuance of licenses, permits and franchises, interest earned by the City on the investment of City cash balances, tuition and fees at the Community Colleges, reimbursement to the City from the proceeds of water and sewer rates charged by the New York City Water Board (the “Water Board”) for costs of delivery of water and sewer services and paid to the City by the Water Board for its lease interest in the water and sewer system, rents collected from tenants in City-owned property and from the Port Authority of New York and New Jersey (the “Port Authority”) with respect to airports, and the collection of fines. The following table sets forth amounts of miscellaneous revenues for each of the City’s 1996 through 2000 fiscal years.

	<u>1996</u>	<u>1997</u>	<u>1998</u>	<u>1999</u>	<u>2000</u>
	(In Millions)				
Licenses, Permits and Franchises	\$ 237	\$ 245	\$ 273	\$ 291	\$ 329
Interest Income	112	160	199	182	195
Charges for Services	415	428	435	440	439
Water and Sewer Payments	731	775	823	778	801
Rental Income	139	143	151	114	139
Fines and Forfeitures	417	491	468	479	468
Other	683	807	486	408	718
Total	<u>\$2,734</u>	<u>\$3,049</u>	<u>\$2,835</u>	<u>\$2,692</u>	<u>\$3,089</u>

Note: Totals may not add due to rounding.

Fees and charges collected from the users of the water and sewer system of the City are revenues of the Water Board, a public benefit corporation all of the members of which are appointed by the Mayor. The Water Board currently holds a long-term leasehold interest in the water and sewer system pursuant to a lease between the Water Board and the City.

Other miscellaneous revenues for fiscal year 1996 include an increase of \$170 million resulting from actions at HHC, a one-time collection of \$28 million from HFA and \$55 million from the recovery of prior year FICA overpayments. Other miscellaneous revenues for fiscal year 1997 include a \$250 million payment from the MTA and \$207 million from the sale of WNYC. Other miscellaneous revenues for fiscal year 1998 include \$84 million from the sale of the United Nations Plaza Hotel. Other miscellaneous revenues for fiscal year 1999 include \$38 million from a condemnation award and \$29 million from the restructuring of a City lease. Other miscellaneous revenues for fiscal year 2000 include \$42 million from the recovery of prior year FICA overpayments and \$247 million of tobacco settlement revenues that are not retained by TSASC for debt service and operating expenses.

Unrestricted Intergovernmental Aid

Unrestricted Federal and State aid has consisted primarily of per capita aid from the State government. These funds, which are not subject to any substantial restriction as to their use, are used by the City as general support for its Expense Budget. State general revenue sharing (State per capita aid) is allocated among the units of local government by statutory formulas which take into account the distribution of the State’s population and the full valuation of taxable real property. In recent years, however, such allocation has been based on prior year levels in lieu of the statutory formula. For a further discussion of unrestricted State aid, see “SECTION VII: FINANCIAL PLAN—Assumptions—Revenue Assumptions—5. Unrestricted Intergovernmental Aid.”

The following table sets forth amounts of unrestricted Federal and State aid received by the City in each of its 1996 through 2000 fiscal years.

	<u>1996</u>	<u>1997</u>	<u>1998</u>	<u>1999</u>	<u>2000</u>
	(In Millions)				
State Per Capita Aid	\$369	\$322	\$327	\$328	\$405
Consolidated Local Highway Assistance Program ("CHIPS")(1)	17	6	16	13	8
Other(2)	<u>235</u>	<u>326</u>	<u>279</u>	<u>311</u>	<u>218</u>
Total	<u>\$621</u>	<u>\$654</u>	<u>\$622</u>	<u>\$652</u>	<u>\$631</u>

(1) CHIPS refers to taxes which are levied and collected by the State and which, pursuant to aid formulas determined by the State Legislature, are returned to various communities in the State.

(2) Included in the 1996, 1997, 1998, 1999 and 2000 fiscal years are \$121 million, \$133 million, \$153 million, \$168 million and \$147 million, respectively, of aid associated with the partial State takeover of long-term care Medicaid costs.

Federal and State Categorical Grants

The City makes certain expenditures for services required by Federal and State mandates which are then wholly or partially reimbursed through Federal and State categorical grants. State categorical grants are received by the City primarily in connection with City welfare, education, higher education, health and mental health expenditures. The City also receives substantial Federal categorical grants in connection with the Federal Community Development Block Grant Program ("Community Development"). The Federal government also provides the City with substantial public assistance, social service and education grants as well as reimbursement for all or a portion of certain costs incurred by the City in maintaining programs in a number of areas, including housing, criminal justice and health. All City claims for Federal and State grants are subject to subsequent audit by Federal and State authorities. The City provides a reserve for disallowances resulting from these audits which could be asserted in subsequent years. Federal grants are also subject to audit under the Single Audit Act Amendments of 1996. For a further discussion of Federal and State categorical grants, see "SECTION VII: FINANCIAL PLAN-- Assumptions-- Revenue Assumptions--6. Federal and State Categorical Grants."

The following table sets forth amounts of Federal and State categorical grants received by the City for each of the City's 1996 through 2000 fiscal years.

	<u>1996</u>	<u>1997</u>	<u>1998</u>	<u>1999</u>	<u>2000</u>
	(In Millions)				
Federal					
Community Development(1)	\$ 279	\$ 264	\$ 255	\$ 239	\$ 264
Welfare	2,241	2,284	2,344	2,183	2,335
Education	887	929	1,014	1,053	1,127
Other	<u>787</u>	<u>656</u>	<u>679</u>	<u>787</u>	<u>691</u>
Total	<u>\$4,194</u>	<u>\$4,133</u>	<u>\$4,292</u>	<u>\$4,262</u>	<u>\$4,417</u>
State					
Welfare	\$1,720	\$1,672	\$1,580	\$1,442	\$1,382
Education	3,746	3,908	4,155	4,413	4,829
Higher Education	118	121	125	128	124
Health and Mental Health	241	254	269	323	348
Other	<u>254</u>	<u>309</u>	<u>243</u>	<u>333</u>	<u>379</u>
Total	<u>\$6,079</u>	<u>\$6,264</u>	<u>\$6,372</u>	<u>\$6,639</u>	<u>\$7,062</u>

(1) Amounts represent actual funds received and may be lower or higher than the appropriation of funds actually provided by the Federal government for the particular fiscal year due either to underspending or the spending of funds carried forward from prior fiscal years.

SECTION V: CITY SERVICES AND EXPENDITURES

Expenditures for City Services

Three types of governmental agencies provide public services within the City's borders and receive financial support from the City. One category is the mayoral agencies established by the City Charter which include, among others, the Police, Fire and Sanitation Departments. Another is the independent agencies which are funded in whole or in part through the City Budgets but which have greater independence in the use of appropriated funds than the mayoral agencies. Included in this category are certain Covered Organizations such as HHC, the Transit Authority and the BOE. A third category consists of certain PBCs which were created to finance the construction of housing, hospitals, dormitories and other facilities and to provide other governmental services in the City. The legislation establishing this type of agency contemplates that annual payments from the City, appropriated through its Expense Budget, may or will constitute a substantial part of the revenues of the agency. Included in this category is, among others, the City University Construction Fund ("CUCF"). For information regarding expenditures for City services, see "SECTION VI: FINANCIAL OPERATIONS—1996-2000 Summary of Operations."

Federal and State laws require the City to provide certain social services for needy individuals and families who qualify for such assistance. The City receives Temporary Assistance for Needy Families ("TANF") block grant funds through the State which, supplemented by City and State contributions, fund the Family Assistance Program. The Family Assistance Program provides benefits for households with minor children subject, in most cases, to a five-year time limit, effective December 2001. The five-year TANF limit is not expected to have a fiscal impact on the City. The Safety Net Assistance Program provides benefits for adults without minor children, families who have reached the Family Assistance Program time limit, and others, including certain immigrants, who are ineligible for Family Assistance but are eligible for public assistance. Cash assistance benefits under the Safety Net Program are also subject to time and eligibility limits. Recipients who reach such time limits or fail to satisfy such eligibility requirements are transferred to non-cash assistance. The cost of the Safety Net Assistance Program is borne equally by the City and the State.

The City also provides funding for many other social services such as day care, foster care, family planning, services for the elderly and special employment services for welfare recipients some of which are mandated, and may be wholly or partially subsidized, by either the Federal or State government. See "SECTION VII: FINANCIAL PLAN—Assumptions—Revenue Assumptions—6. Federal and State Categorical Grants."

The City's elementary and secondary school system is operated under the general supervision of the BOE, with considerable authority over elementary and junior high schools also exercised by the 32 Community School Boards. The BOE is responsible to the State on policy issues and to the City on fiscal matters. The number of pupils in the school system for the 2001 through 2004 fiscal years is estimated to be approximately 1.1 million. Actual enrollment in fiscal years 1996 through 2000 has been 1,043,731, 1,064,291, 1,067,976, 1,075,131 and 1,081,460, respectively. Between fiscal years 1998 and 2000, the percentage of the City's total budget allocated to the BOE has remained relatively stable at approximately 28.38%; in fiscal year 2001 the percentage of the City's total budget allocated to the BOE is projected to be 31.09%. See "SECTION VII: FINANCIAL PLAN—Assumptions—Expenditure Assumptions—2. Other Than Personal Service Costs—Board of Education." The City's system of higher education, consisting of its Senior Colleges and Community Colleges, is operated under the supervision of City University of New York ("CUNY"). The City is projected to provide approximately 33.1% of the costs of the Community Colleges in the 2001 fiscal year. The State has full responsibility for the costs of operating the Senior Colleges, although the City is required initially to fund these costs.

The City administers health services programs for the care of the physically and mentally ill and the aged. HHC maintains and operates the City's eleven municipal acute care hospitals, five long-term care facilities, seven free standing diagnostic and treatment centers, many hospital-based and neighborhood clinics and a health maintenance organization. HHC is funded primarily by third party reimbursement collections from Medicare and Medicaid and by payments from Bad Debt/Charity Care Pools.

Medicaid provides basic medical assistance to needy persons. The City is required by State law to furnish medical assistance through Medicaid to all City residents meeting eligibility requirements established by the State. The State has assumed 81.2% of the non-Federal share of long-term care costs, all of the costs of providing

medical assistance to the mentally disabled, and 50% of the non-Federal share of Medicaid costs for clients enrolled in managed care plans. The Federal government pays approximately 50% of Medicaid costs for Federally eligible recipients.

The City's Expense Budget has increased during the five-year period ended June 30, 2000, due to, among other factors, the costs of labor settlements, debt service costs and the impact of inflation on various other than personal service costs.

Employees and Labor Relations

Employees

The following table presents the number of full-time employees of the City, including the mayoral agencies, the BOE and CUNY, at the end of each of the City's 1996 through 2000 fiscal years.

	<u>1996</u>	<u>1997</u>	<u>1998</u>	<u>1999</u>	<u>2000</u>
Education	85,959	87,969	93,365	96,930	100,748
Police	43,589	46,830	46,864	48,092	49,269
Social Services, Homeless and Children's Services	23,604	23,061	22,952	22,224	21,972
City University Community Colleges and Hunter Campus Schools	3,581	3,667	3,720	3,781	3,756
Environmental Protection and Sanitation	15,313	14,624	14,820	15,024	15,542
Fire	15,703	15,693	15,709	15,937	15,987
All Other	<u>47,320</u>	<u>45,108</u>	<u>45,019</u>	<u>44,648</u>	<u>43,538</u>
Total	<u>235,069</u>	<u>236,952</u>	<u>242,449</u>	<u>246,636</u>	<u>250,812</u>

The following table presents the number of full-time employees of certain Covered Organizations, as reported by such Organizations, at the end of each of the City's 1996 through 2000 fiscal years.

	<u>1996</u>	<u>1997</u>	<u>1998</u>	<u>1999</u>	<u>2000</u>
Transit Authority	42,802	42,687	43,303	44,634	46,082
Housing Authority	14,273	14,170	15,029	14,780	14,867
HHC	<u>37,527</u>	<u>36,336</u>	<u>34,706</u>	<u>33,718</u>	<u>33,295</u>
Total(1)	<u>94,602</u>	<u>93,193</u>	<u>93,038</u>	<u>93,132</u>	<u>94,244</u>

(1) The definition of "full-time employees" varies among the Covered Organizations and the City.

The foregoing tables include persons whose salaries or wages are paid by certain public employment programs, principally programs funded under the WIA, which support employees in non-profit and State agencies as well as in the mayoral agencies and the Covered Organizations.

Labor Relations

Substantially all of the City's full-time employees are members of labor unions. Under applicable law, the City may not make unilateral changes in wages, hours or working conditions under any of the following circumstances: (i) during the period of negotiations between the City and a union representing municipal employees concerning a collective bargaining agreement; (ii) if an impasse panel is appointed, then during the period commencing on the date on which such panel is appointed and ending sixty days thereafter or thirty days after it submits its report, whichever is sooner, subject to extension under certain circumstances to permit completion of panel proceedings; or (iii) during the pendency of an appeal to the Board of Collective Bargaining. Although State law prohibits strikes by municipal employees, strikes and work stoppages by employees of the City and the Covered Organizations have occurred.

The terms of future wage settlements could be determined through the impasse procedure in the New York City Collective Bargaining Law, which can impose a binding settlement. Legislation passed by the Legislature

and signed by the Governor on December 18, 1998 places collective bargaining matters relating to police and firefighters, including impasse proceedings, under the jurisdiction of the State Public Employment Relations Board (“PERB”), instead of the New York City Office of Collective Bargaining (“OCB”). OCB considers wage levels of municipal employees in similar cities in the United States in reaching its determinations, while PERB’s determinations take into account wage levels in both private and public employment in comparable communities, particularly within the State. In addition, PERB can impose a settlement on the parties for a period not longer than two years, unlike OCB which can impose longer settlements. For these reasons, among others, PERB jurisdiction could result in labor settlements which could impose higher costs on the City than those reached under existing procedures.

Since May 4, 2000, the Police Benevolent Association (“PBA”) and the City have held nine bargaining sessions, and the City has filed a petition to define the scope of bargaining with OCB. On December 15, 2000, PBA filed a lawsuit in Albany County seeking a declaratory judgment that jurisdiction over scope proceedings rests with PERB. PBA also filed a request for a declaration of impasse with PERB and filed a response to the City’s scope petition at OCB stating that jurisdiction should be with PERB.

Since September 2000, the United Federation of Teachers (the “UFT”) and the City have held six bargaining sessions. While the UFT has requested that PERB declare an impasse, the City and BOE do not believe that an impasse has been reached and believe that it is premature to request intervention.

For information regarding the City’s assumptions with respect to the cost of future labor settlements and related effects on the 2001-2004 Financial Plan, see “SECTION VII: FINANCIAL PLAN—Assumptions—*Expenditure Assumptions*—1. Personal Service Costs.”

Pensions

The City maintains a number of pension systems providing benefits for its employees and employees of various independent agencies (including certain Covered Organizations). The City has made certain changes to its assumptions and methods of calculation, which have affected the City’s pension contributions starting in fiscal year 2000. For further information regarding such changes in the City’s pension systems and the City’s obligations thereto, see “SECTION IX: OTHER INFORMATION—Pension Systems.”

Capital Expenditures

The City makes substantial capital expenditures to reconstruct, rehabilitate and expand the City’s infrastructure and physical assets, including City mass transit facilities, sewers, streets, bridges and tunnels, and to make capital investments that will improve productivity in City operations. For additional information regarding the City’s infrastructure, physical assets and capital program, see “SECTION VII: FINANCIAL PLAN—Long-Term Capital and Financing Program.”

The City utilizes a three-tiered capital planning process consisting of the Ten-Year Capital Strategy (previously, the Ten-Year Capital Plan), the Four-Year Capital Program and the current-year Capital Budget. The Ten-Year Capital Strategy, which is published once every two years in conjunction with the Executive Budget, is a long-term planning tool designed to reflect fundamental allocation choices and basic policy objectives. The Four-Year Capital Program translates mid-range policy goals into specific projects. The Capital Budget defines for each fiscal year specific projects and the timing of their initiation, design, construction and completion.

On January 25, 2001, the City published the Preliminary Ten-Year Capital Strategy for fiscal years 2002 through 2011. The Preliminary Ten-Year Capital Strategy totals \$51.9 billion, of which approximately 95% would be financed with City funds. See “SECTION VIII: INDEBTEDNESS—Indebtedness of the City and Certain Other Entities—*Limitations on the City’s Authority to Contract Indebtedness*.” The Preliminary Ten-Year Capital Strategy provides \$5.7 billion for the BOE for fiscal years 2001 through 2004. See “SECTION VII: FINANCIAL PLAN.”

The Preliminary Ten-Year Capital Strategy includes: (i) \$13.3 billion to construct new schools and improve existing educational facilities; (ii) \$8.3 billion for improvements to the water and sewer system; (iii) \$5.0 billion for expanding and upgrading the City’s housing stock; (iv) \$3.5 billion for reconstruction or resurfacing of City streets; (v) \$1.4 billion for continued City-funded investment in mass transit; (vi) \$5.9 billion for the continued

reconstruction and rehabilitation of all four East River bridges and 337 other bridge structures; (vii) \$1.8 billion to expand current jail capacity; and (viii) \$1.4 billion for construction and improvement of court facilities.

Those programs in the Preliminary Ten-Year Capital Strategy financed with City funds are currently expected to be funded primarily from the issuance of general obligation bonds issued by the City, revenue bonds issued by the Water Authority and the Finance Authority and bonds issued by TSASC which will be paid from revenues received pursuant to a settlement of litigation with the four leading cigarette companies. Debt service on such general obligation bonds is paid out of the City's operating revenues, debt service on Water Authority bonds is paid out of water and sewer system revenues, debt service on Finance Authority bonds is paid out of personal income taxes and debt service on TSASC bonds is paid out of revenues derived from the settlement of litigation with tobacco companies selling cigarettes in the United States. From time to time in the past, during recessionary periods when operating revenues have come under increasing pressure, capital funding levels have been reduced from those previously contemplated in order to reduce debt service costs. For information concerning the City's long-term financing program for capital expenditures, see "SECTION VII: FINANCIAL PLAN—Long-Term Capital and Financing Program."

The City's capital expenditures, including expenditures funded by State and Federal grants, totaled \$21.4 billion during the 1996 through 2000 fiscal years. City-funded expenditures, which totaled \$19.3 billion during the 1996 through 2000 fiscal years, have been financed through the issuance of bonds by the City, the Finance Authority, the Water Authority, TSASC, HHC and the Dormitory Authority of the State of New York ("DASNY"). The following table summarizes the major categories of capital expenditures in the past five fiscal years.

	1996	1997	1998	1999	2000	Total
	(In Millions)					
Education	\$ 807	\$ 614	\$1,228	\$1,559	\$1,296	\$ 5,504
Environmental Protection	1,004	978	765	788	797	4,332
Transportation	554	537	589	636	637	2,953
Transit Authority(1)	218	202	246	342	270	1,278
Housing	246	269	235	365	290	1,405
Hospitals	104	83	71	41	43	342
Sanitation	131	213	116	71	118	649
All Other(2)	732	963	850	1,017	1,358	4,920
Total Expenditures(3)	<u>\$3,796</u>	<u>\$3,859</u>	<u>\$4,100</u>	<u>\$4,819</u>	<u>\$4,809</u>	<u>\$21,383</u>
City-funded Expenditures(4)	<u>\$3,413</u>	<u>\$3,569</u>	<u>\$3,631</u>	<u>\$4,595</u>	<u>\$4,096</u>	<u>\$19,304</u>

- (1) Excludes the Transit Authority's non-City portion of the MTA's Capital Program.
- (2) All Other includes, among other things, parks, correction facilities, public structures and equipment.
- (3) Total expenditures for the 1996 through 2000 fiscal years include City, State and Federal funding and represent amounts which include an accrual for work-in-progress. The figures for the 1996 through 2000 fiscal years are derived from the Comprehensive Annual Financial Report of the Comptroller.
- (4) City-funded expenditures do not include accruals, but represent actual cash disbursements occurring during the fiscal year.

The City annually issues a condition assessment and a proposed maintenance schedule for the major portion of its assets and asset systems which have a replacement cost of \$10 million or more and a useful life of at least ten years, as required by the City Charter. For information concerning a report which sets forth the recommended capital investment to bring certain identified assets of the City to a state of good repair, see "SECTION VII: FINANCIAL PLAN—Long-Term Capital and Financing Program."

SECTION VI: FINANCIAL OPERATIONS

The City's General Purpose Financial Statements and the auditors' opinion thereon are presented in "APPENDIX B—FINANCIAL STATEMENTS." Further details are set forth in the Comprehensive Annual Financial Report of the Comptroller for the Fiscal Year Ended June 30, 2000, which is available for inspection at the Office of the Comptroller. For a summary of the City's significant accounting policies, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Note A." For a summary of the City's operating results for the previous five fiscal years, see "SECTION VI: FINANCIAL OPERATIONS—1996-2000 Summary of Operations."

Except as otherwise indicated, all of the financial data relating to the City's operations contained herein, although derived from the City's books and records, are unaudited. In addition, the City's independent certified public accountants have not compiled or examined, or applied agreed upon procedures to, the forecast of 2001 results or the Financial Plan.

The estimates and projections contained in this Section and elsewhere herein are based on, among other factors, evaluations of historical revenue and expenditure data, analyses of economic trends and current and anticipated Federal and State legislation affecting the City's finances. The City's financial projections are based upon numerous assumptions and are subject to certain contingencies and periodic revisions which may involve substantial change. Consequently, the City makes no representation or warranty that these estimates and projections will be realized.

1996-2000 Summary of Operations

The following table sets forth the City's results of operations for its 1996 through 2000 fiscal years in accordance with GAAP.

The information regarding the 1996 through 2000 fiscal years has been derived from the City's audited financial statements and should be read in conjunction with the notes accompanying this table and the City's 1999 and 2000 financial statements included in "APPENDIX B—FINANCIAL STATEMENTS." The 1996 through 1998 financial statements are not separately presented herein. For further information regarding the City's revenues and expenditures, see "SECTION IV: SOURCES OF CITY REVENUES" and "SECTION V: CITY SERVICES AND EXPENDITURES."

	Fiscal Year(1)

Surplus(7)	<u>\$ 5</u>	<u>\$ 5</u>	<u>\$ 5</u>	<u>\$ 5</u>	<u>\$ 5</u>

- (1) The City's results of operations refer to the City's General Fund revenues and transfers reduced by expenditures and transfers. The revenues and assets of PBCs included in the City's audited financial statements do not constitute revenues and assets of the City's General Fund, and, accordingly, the revenues of such PBCs, other than net OTB revenues, are not included in the City's results of operations. Expenditures required to be made by the City with respect to such PBCs are included in the City's results of operations. For further information regarding the particular PBCs included in the City's financial statements, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Note A."
- (2) Real Estate Tax for the 1996 fiscal year includes \$146 million of Criminal Justice Fund revenues. Real Estate Tax for fiscal years 1996, 1997, 1998, 1999 and 2000 also includes \$223 million from the sale of the City's delinquent tax receivables and \$169 million, \$52 million, \$23 million, \$127 million and \$73 million from the sale of real property tax liens, respectively. In fiscal years 1999 and 2000, Real Estate Tax includes \$31.8 million and \$59.9 million, respectively, which was provided to the City by the State as a reimbursement for the reduced property tax revenues resulting from the STAR Program.
- (3) Revenues includes amounts paid and expected to be paid to MAC by the State from sales tax receipts, stock transfer tax receipts and State per capita aid otherwise payable by the State to the City. Pursuant to State statute, these revenues flow directly from the State to MAC, and flow to the City only to the extent not required by MAC for debt service, reserve fund requirements and for operating expenses. The City includes such revenues as City revenues and reports the amount retained by MAC from such revenues as "MAC Debt Service Funding," although the City has no control over the statutory application of such revenues to the extent MAC requires them. City "Debt Service" includes, and "MAC Debt Service Funding" is reduced by, payments by the City of debt service on City obligations held by MAC. Personal income taxes for the 1996 through 1998 fiscal years include \$185 million, \$90 million and \$185 million of Criminal Justice Fund revenues, respectively, and exclude \$16 million, \$144 million and \$247 million in fiscal years 1998, 1999 and 2000, respectively retained by the Finance Authority. "Debt Service" does not include debt service on Finance Authority obligations in fiscal years 1999 and 2000. Miscellaneous Revenues includes tobacco settlement revenues that are not retained by TSASC for debt service and operating expenses. Debt Service does not include debt service on TSASC bonds.
- (4) Other Taxes includes transfers of net OTB revenues. Other Taxes also reflects the effects of the repeal of the 12.5% surcharge commencing in fiscal year 1999 and reflects, in fiscal year 2000, the repeal of the nonresident earnings tax as of July 1, 1999. For further information regarding the City's revenues from Other Taxes, see "SECTION IV: SOURCES OF CITY REVENUES—Additional City Revenues—Other Taxes."
- (5) Total Revenues and Transfers and Total Expenditures and Transfers exclude Inter-Fund Revenues.
- (6) For information regarding pension expenditures, see "SECTION IX: OTHER INFORMATION."
- (7) The General Fund surplus is the surplus after discretionary and other transfers and expenditures. The City had General Fund operating surpluses of \$3.187 billion, \$2.620 billion, \$2.086 billion, \$1.367 billion and \$229 million before discretionary and other transfers and expenditures for the 2000, 1999, 1998, 1997 and 1996 fiscal years, respectively. Discretionary and other transfers are included in Debt Service, MAC Debt Service Funding and for transit subsidies in All Other.

Forecast of 2001 Results

The following table compares the forecast for the 2001 fiscal year contained in the financial plan submitted to the Control Board on June 15, 2000 (the "June 2000 Forecast") with the Financial Plan published on January 25, 2001 (the "January 2001 Forecast"). This forecast was prepared on a basis consistent with GAAP. For information regarding recent developments, see "SECTION I: RECENT FINANCIAL DEVELOPMENTS."

	June 2000 Forecast	January 2001 Forecast	Increase (Decrease) from June 2000 Forecast
(In Millions)			
REVENUES			
Taxes			
General Property Tax	\$ 8,022	\$ 8,092	\$ 70 (1)
Other Taxes	13,455	14,305	850 (2)
Tax Audit Revenue	412	399	(13)
Tax Reduction Program	(418)	(8)	410 (3)
Miscellaneous Revenues	4,265	4,655	390 (4)
Unrestricted Intergovernmental Aid	564	616	52
Other Categorical Grants	354	414	60
Inter-Fund Revenues	290	293	3
Less: Intra-City Revenues	(1,169)	(1,295)	(126)

Total City Funds	<u>\$25,760</u>	<u>\$27,456</u>	<u>\$1,696</u>
Federal Categorical Grants	4,322	4,433	111 (5)
State Categorical Grants	7,532	7,783	251 (5)
Total Revenues	<u>\$37,614</u>	<u>\$39,672</u>	<u>\$2,058</u>
EXPENDITURES			
Personal Services	\$20,276	\$20,961	\$ 685 (6)
Other Than Personal Services	16,945	17,016	71 (7)
Pay-As-You-Go-Capital	85	247	162 (8)
Debt Service	372	417	45
Budget Stabilization & Other Prepayments	905	2,267	1,362 (9)
General Reserve	200	59	(141)
Total Expenditures	<u>\$38,783</u>	<u>\$40,967</u>	<u>\$2,184</u>
Less: Intra-City Expenses	(1,169)	(1,295)	(126)
Net Total Expenditures	<u>\$37,614</u>	<u>\$39,672</u>	<u>\$2,058</u>

- (1) The increase in General Property Tax resulted from an increase of \$75 million in lien sale proceeds and an increase of \$12 million in collections from prior year delinquency offset by an increase in uncollectible reserve of \$17 million.
- (2) The increase in Other Taxes resulted from increases in personal income taxes of \$352 million, general corporation taxes of \$225 million, sales taxes of \$235 million, unincorporated business taxes of \$64 million, commercial rent taxes of \$12 million, utility taxes of \$9 million, all other taxes of \$35 million and STAR Program aid of \$14 million, offset by declines in mortgage recording taxes of \$42 million, real property transfer taxes of \$44 million and banking corporation taxes of \$10 million.
- (3) The increase in revenues in the Tax Reduction Program resulted primarily from a reduction in the cut and restructuring of the 14% personal income tax surcharge.
- (4) The increase in Miscellaneous Revenues resulted primarily from an increase in intra-city revenue of \$126 million, water and sewer revenue of \$23 million, miscellaneous receipts of \$153 million, interest income of \$57 million, rents of \$12 million, licenses of \$32 million, and \$3 million in charges for services, offset by a reduction in fines of \$16 million.
- (5) The increase in Federal and State Categorical Grants resulted primarily from budget modifications increasing such grants that were processed during the fiscal year and other State and Federal categorical adjustments reflected in the Financial Plan.
- (6) The increase in Personal Services is due in part to increased spending of \$102 million primarily for police overtime, \$137 million in pension costs, an increase in labor costs of \$215 million reflecting the elimination of previously planned savings offset by negotiated fringe benefit cost savings, \$147 million in budget modifications processed from November 2000 to January 2001 and an increase of \$98 million in BOE spending resulting from increased fringe benefit costs and a reallocation of funding between Personal Services and Other Than Personal Services.
- (7) The increase in Other Than Personal Services is due in part to \$284 million in budget modifications processed from November 2000 to January 2001, increased spending by the BOE of \$45 million resulting from increased State and Federal appropriations, reallocations of funding between Personal Services and Other Than Personal Services and increased energy costs and increased Medicaid spending of \$113 million and public assistance spending of \$62 million, offset by a \$250 million reduction in prior payables and a reclassification of \$162 million in expenses from Other Than Personal Services to Pay-As-You-Go-Capital.
- (8) The increase of \$162 million in Pay-As-You-Go-Capital reflects a reclassification of expenses from Other Than Personal Services.
- (9) The increase in the Budget Stabilization & Other Prepayments is due to a projected discretionary transfer to the General Debt Service Fund and MAC in the 2001 fiscal year for debt service due in the 2002 fiscal year.

SECTION VII: FINANCIAL PLAN

The following table sets forth the City's projected operations on a basis consistent with GAAP for the 2001 through 2005 fiscal years as contained in the 2001-2005 Financial Plan. This table should be read in conjunction with the accompanying notes, "Actions to Close the Remaining Gaps" and "Assumptions," below. For information regarding recent developments, see "SECTION I: RECENT FINANCIAL DEVELOPMENTS."

(1) The four-year financial plan for the 2000 through 2003 fiscal years, as submitted to the Control Board on June 14, 1999, contained the following projections for the 2000-2003 fiscal years: (i) for 2000, total revenues of \$35.175 billion and total expenditures of \$35.175 billion; (ii) for 2001, total revenues of \$35.850 billion and total expenditures of \$37.694 billion, with a gap to be closed of \$1.844 billion; (iii) for 2002, total revenues of \$36.007 billion and total expenditures of \$37.876 billion, with a gap to be closed of \$1.869 billion; and (iv) for 2003, total revenues of \$36.812 billion and total expenditures of \$38.616 billion, with a gap to be closed of \$1.804 billion.

The four-year financial plan for the 1999 through 2002 fiscal years, as submitted to the Control Board on June 26, 1998, contained the following projections for the 1999-2002 fiscal years: (i) for 1999, total revenues of \$34.186 billion and total expenditures of \$34.186 billion; (ii) for 2000, total revenues of \$34.072 billion and total expenditures of \$36.345 billion, with a gap to be closed of \$2.273 billion; (iii) for 2001, total revenues of \$34.162 billion and total expenditures of \$37.269 billion, with a gap to be closed of \$3.107 billion; and (iv) for 2002, total revenues of \$34.920 billion and total expenditures of \$37.602 billion with a gap to be closed of \$2.682 billion.

The four-year financial plan for the 1998 through 2001 fiscal years, as submitted to the Control Board on June 10, 1997, contained the following projections for the 1998-2001 fiscal years: (i) for 1998, total revenues of \$33.373 billion and total expenditures of \$33.373 billion; (ii) for 1999, total revenues of \$33.021 billion and total expenditures of \$34.801 billion with a gap to be closed of \$1.780 billion; (iii) for 2000, total revenues of \$33.561 billion and total expenditures of \$36.370 billion with a gap to be closed of \$2.809 billion; and (iv) for 2001, total revenues of \$34.392 billion and total expenditures of \$37.033 billion with a gap to be closed of \$2.641 billion.

(2) The Financial Plan combines the operating revenues and expenditures of the City, the BOE and CUNY. The Financial Plan does not include the total operations of HHC, but does include the City's subsidy to HHC and the City's share of HHC revenues and expenditures related to HHC's role as a Medicaid provider. Certain Covered Organizations and PBCs which provide governmental services to the City, such as the Transit Authority, are separately constituted and their revenues (other than net OTB revenues), are not included in the Financial Plan; however, City subsidies and certain other payments to these organizations are included. Revenues and expenditures are presented net of intra-City items, which are revenues and expenditures arising from transactions between City agencies.

(Footnotes continued on the next page)

(Footnotes continued from previous page)

- (3) General Property Tax includes \$173 million, \$37 million, \$26 million, \$23 million and \$22 million net revenue from the sale of real property tax liens in fiscal years 2001 through 2005, respectively. General Property Tax projections include the effects of the STAR Program which will reduce the property tax revenues by an estimated \$89 million in fiscal year 2001, \$110 million in fiscal year 2002, \$132 million in fiscal year 2003, \$135 million in fiscal year 2004 and \$135 million in fiscal year 2005. In addition, Other Taxes includes the effects of the STAR Program, which will reduce personal income taxes by an estimated \$415 million, \$560 million, \$599 million, \$620 million and \$642 million in fiscal years 2001 through 2005, respectively, and will increase Other Taxes by \$504 million, \$670 million, \$731 million, \$755 million and \$777 million in fiscal years 2001 through 2005, respectively, to be provided to the City by the State as reimbursement for the reduced property tax and personal income tax revenues resulting from the STAR Program.
- (4) Other Taxes includes amounts paid and expected to be paid to MAC by the State from sales tax receipts, stock transfer tax receipts and State per capita aid otherwise payable by the State to the City. Pursuant to State statute, these revenues flow directly from the State to MAC, and flow to the City only to the extent not required by MAC for debt service, reserve fund requirements and operating expenses. The City includes such revenues as City revenues and reports the amount retained by MAC from such revenues as "MAC Debt Service Funding", although the City has no control over the statutory application of such revenues to the extent MAC requires them. Estimates of City "Debt Service" include, and estimates of "MAC Debt Service Funding" are reduced by, anticipated payments by the City of debt service on City obligations held by MAC. Other Taxes includes transfers of net OTB revenues. Other Taxes also assumes the extension of the 14% personal income tax surcharge (as reduced and restructured on January 1, 2001) and the base rate schedule through tax year 2005. Personal income taxes will flow directly from the State to the Finance Authority, and from the Finance Authority to the City only to the extent not required by the Finance Authority for debt service, reserves and operating expenses. Sales taxes will flow directly from the State to the Finance Authority, after required payments are made to MAC, to the extent necessary to provide statutory coverage. Other Taxes does not include amounts that are expected to be retained by the Finance Authority for its debt service and operating expenses totaling \$434 million, \$517 million, \$640 million, \$775 million and \$823 million in the 2001 through 2005 fiscal years, respectively. Estimates of Debt Service do not include debt service on Finance Authority obligations.
- (5) For a description of the proposed tax reduction program, see "SECTION I: RECENT FINANCIAL DEVELOPMENTS." For other Financial Plan assumptions, see "SECTION VII: FINANCIAL PLAN—Assumptions—Revenue Assumptions—3. Other Taxes."
- (6) Miscellaneous Revenues reflects the receipt by the City of a portion of the funds from the settlement of litigation with the four leading cigarette companies. The Financial Plan reflects the sale of the City's right to receive such funds to TSASC which has issued debt and is expected to continue to issue debt payable from such funds to finance approximately \$2.4 billion of capital projects. Miscellaneous Revenues does not include tobacco settlement revenues that are expected to be retained by TSASC for debt service and operating expenses totaling approximately \$682 million from fiscal years 2001 through 2005. Estimates of Debt Service do not include debt service on TSASC obligations.
- (7) Inter-Fund Revenues represents General Fund expenditures, properly includable in the Capital Budget, made on behalf of the Capital Projects Fund pursuant to inter-fund agreements.
- (8) For an explanation of projected expenditures for personal service costs, see "SECTION VII: FINANCIAL PLAN— Assumptions—Expenditure Assumptions—1. PERSONAL SERVICE COSTS."
- (9) Represents operating budget payments for capital projects.
- (10) Budget Stabilization & Other Payments primarily includes projected discretionary transfers to the General Debt Service Fund and MAC Debt Service in each of the 2001 through 2002 fiscal years for debt service due in the subsequent fiscal year.

Various actions proposed in the Financial Plan are uncertain. See "SECTION I: RECENT FINANCIAL DEVELOPMENTS." If these measures cannot be implemented, the City will be required to take other actions to decrease expenditures or increase revenues to maintain a balanced financial plan. See "SECTION VII: FINANCIAL PLAN—Certain Reports" and "—Assumptions."

Actions to Close the Remaining Gaps

In connection with the Financial Plan, the City has outlined a gap-closing program for fiscal years 2003 through 2005 to eliminate the \$2.4 billion, \$2.5 billion and \$2.3 billion projected budget gaps for the 2003 through 2005 fiscal years, respectively. This program, which is not specified in detail, assumes for the 2003 through 2005 fiscal years, respectively, additional agency programs to reduce expenditures or increase revenues by \$1.3 billion, \$1.4 billion and \$1.2 billion; additional State actions of \$550 million and additional Federal actions of \$450 million in each of fiscal years 2003 through 2005; and the availability of \$100 million of the General Reserve in each of fiscal years 2003 through 2005.

The City's projected budget gaps for the 2004 and 2005 fiscal years do not reflect the savings expected to result from the prior years' program to close the gaps set forth in the Financial Plan. Thus, for example, recurring savings anticipated from the actions which the City proposes to take to balance the fiscal year 2003 budget are not taken into account in projecting the budget gaps for the 2004 and 2005 fiscal years.

Although the City has maintained balanced budgets in each of its last twenty fiscal years and is projected to achieve balanced operating results for the 2001 and 2002 fiscal years, there can be no assurance that the gap-closing actions proposed in the Financial Plan can be successfully implemented or that the City will maintain a balanced budget in future years without additional State aid, revenue increases or expenditure reductions. Additional tax increases and reductions in essential City services could adversely affect the City's economic base.

Assumptions

The Financial Plan is based on numerous assumptions, including the condition of the City's and the region's economies and the concomitant receipt of economically sensitive tax revenues in the amounts projected. The Financial Plan is subject to various other uncertainties and contingencies relating to, among other factors, the extent, if any, to which wage increases for City employees exceed the annual wage costs assumed for the 2001 through 2005 fiscal years; continuation of projected interest earnings assumptions for pension fund assets and current assumptions with respect to wages for City employees affecting the City's required pension fund contributions; the willingness and ability of the State to provide the aid contemplated by the Financial Plan and to take various other actions to assist the City; the ability of HHC, the BOE and other such agencies to maintain balanced budgets; the willingness of the Federal government to provide the amount of Federal aid contemplated in the Financial Plan; the impact on City revenues and expenditures of Federal and State welfare reform and any future legislation affecting Medicare or other entitlement programs; adoption of the City's budgets by the City Council in substantially the forms submitted by the Mayor; the ability of the City to implement cost reduction initiatives, and the success with which the City controls expenditures; the impact of conditions in the real estate market on real estate tax revenues; the City's ability to market its securities successfully in the public credit markets; and unanticipated expenditures that may be incurred as a result of the need to maintain the City's infrastructure. See "SECTION I: RECENT FINANCIAL DEVELOPMENTS." Certain of these assumptions have been questioned by the City Comptroller and other public officials. See "SECTION VII: FINANCIAL PLAN--Certain Reports."

The projections and assumptions contained in the Financial Plan are subject to revision which may involve substantial change, and no assurance can be given that these estimates and projections, which include actions which the City expects will be taken but which are not within the City's control, will be realized. For information regarding certain recent developments, see "SECTION I: RECENT FINANCIAL DEVELOPMENTS."

Revenue Assumptions

I. GENERAL ECONOMIC CONDITIONS

The Financial Plan assumes that economic growth, after slowing in the last quarter of calendar year 2000 and in calendar year 2001, will begin to recover in calendar year 2002. This assumption is based on, among other things, low inflation; a less restrictive monetary policy by the Federal Reserve; no recession resulting from further declines in the stock market, a protracted loss of consumer confidence or other factors; and continued strength in the service industries.

The following table presents a forecast of the key economic indicators for the calendar years 2001 through 2005. This forecast is based upon information available in January 2001.

FORECAST OF KEY ECONOMIC INDICATORS

<u>U.S. ECONOMY</u>	<u>Calendar Years</u>					
	<u>2000</u>	<u>2001</u>	<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>

Percent Change	3.1	2.9	2.7	2.6	2.6	2.9

Source: OMB model for the City economy.

2. REAL ESTATE TAX

Projections of real estate tax revenues are based on a number of assumptions, including, among others, assumptions relating to the tax rate, the assessed valuation of the City's taxable real estate, the delinquency rate, debt service needs, a reserve for uncollectible taxes and the operating limit. See "SECTION IV: SOURCES OF CITY REVENUES—Real Estate Tax."

The delinquency rate for the 2000 fiscal year was 3.1%. The Financial Plan projects delinquency rates of 3.2% for each of the 2001 through 2005 fiscal years. For information concerning the delinquency rates for prior years, see "SECTION IV: SOURCES OF CITY REVENUES—Real Estate Tax—*Collection of the Real Estate Tax.*" For a description of proceedings seeking real estate tax refunds from the City, see "SECTION IX: OTHER INFORMATION—Litigation—*Taxes.*"

3. OTHER TAXES

The following table sets forth amounts of revenues (net of refunds) from taxes other than the real estate tax projected to be received by the City in the Financial Plan. The amounts set forth below include projected tax program revenues and exclude the Criminal Justice Fund and audit revenues.

	<u>2001</u>	<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>
	(In Millions)				
Personal Income(1)	\$ 5,191	\$ 4,833	\$ 5,029	\$ 5,252	\$ 5,566
General Corporation	1,723	1,518	1,533	1,589	1,695
Banking Corporation	388	359	416	429	460
Unincorporated Business Income	809	788	833	879	931
Sales(2)	3,599	3,583	3,717	3,867	3,930
Commercial Rent	363	382	402	423	445
Real Property Transfer	322	328	362	390	416
Mortgage Recording	417	422	471	513	554
Utility	240	245	242	236	222
All Other(3)	1,253	1,433	1,506	1,541	1,577
Total	<u>\$14,305</u>	<u>\$13,891</u>	<u>\$14,512</u>	<u>\$15,120</u>	<u>\$15,795</u>

Note: Totals may not add due to rounding.

- (1) Personal Income does not include \$434 million, \$517 million, \$640 million, \$775 million and \$823 million of personal income tax revenues projected to be paid to the Finance Authority for debt service in the 2001 through 2005 fiscal years, respectively. These projections include the effects of the STAR Program, which will reduce personal income tax revenues by an estimated \$415 million, \$360 million, \$599 million, \$620 million and \$642 million in the 2001 through 2005 fiscal years, respectively. The State will reimburse the City for such reduced revenues. Personal Income also reflects the reduction and restructuring of the 14% personal income tax surcharge, which became effective on January 1, 2001 and which reduced personal income tax revenues by an estimated \$92 million, \$181 million, \$188 million, \$202 million and \$211 million in fiscal years 2001 through 2005, respectively.
- (2) Sales reflects, among other changes, a reduction in the sales tax on utilities and includes no MAC debt service in the 2001 and 2002 fiscal years and MAC debt service of \$490 million, \$489 million and \$490 million in the 2003 through 2005 fiscal years, respectively.
- (3) All Other includes, among others, stock transfer tax, OTB net revenues, cigarette, beer and liquor taxes, the hotel tax and the automobile use tax. The stock transfer tax is \$114 million in each of the 2001 through 2005 fiscal years. All Other also includes \$504 million, \$360 million, \$731 million, \$755 million and \$777 million in fiscal years 2001 through 2005, respectively, to be provided to the City by the State as reimbursement for the reduced property tax and personal income tax revenues resulting from the STAR Program.

The Financial Plan reflects the following assumptions regarding projected baseline revenues from Other Taxes: (i) with respect to personal income tax revenues, slower income growth commencing in the 2001 fiscal year, reflecting a slowdown in the growth of capital gains realizations, followed by no growth in fiscal year 2002, reflecting a projected decline in wage and non-wage income, and growth in subsequent fiscal years reflecting moderate growth in the economy; (ii) with respect to the general corporation tax, a slowdown in the outlook for the securities industry and the economy in fiscal years 2001 and 2002 and the impact of limited liability company legislation which will reduce the number of corporate entities subject to the general corporation tax over time; (iii) with respect to the banking corporation tax, an increase in the liability estimate in fiscal year 2001 and a decrease in fiscal year 2002 reflecting a slowdown in the economy; (iv) with respect to the unincorporated business tax, moderation in securities industry profits and a slowing economy in fiscal years 2001 and 2002; (v) with respect to the sales tax, a moderation in wage income and securities industry profit growth, a weakening economy and moderating employment growth in calendar year 2002; (vi) with respect to the mortgage recording and real property transfer taxes, a decline in fiscal year 2001 reflecting a slowdown in the local economy and an increase in interest rates, followed by an increase in subsequent fiscal years reflecting forecast interest rate reductions; and (vii) with respect to the commercial rent tax, increased growth in the 2001 fiscal year and thereafter due to assumed continued strength in Manhattan commercial real estate. The Financial Plan also assumes the timely extension by the State Legislature of the current rate structures for the resident personal income tax, for the general corporation tax, for the two special sales taxes and for the cigarette tax. Legislation extending the general corporation tax, the two special sales taxes and the cigarette tax to December 31, 2001 has been enacted. Legislation extending the current rate structure for the resident personal income tax and extending the 14% personal income tax surcharge to December 31, 2001 was also enacted. On December 31, 2001, a lower rate schedule for the resident personal income tax with a maximum rate of 1.61% is to become effective, unless the current rate schedule is extended, as has been the case since 1989. The rate schedule for the resident personal income tax is scheduled to further decline to a maximum rate of 1.48% on January 1, 2003. The Financial Plan assumes the timely extension of the current maximum rate of 3.4% for the resident personal income tax.

4. MISCELLANEOUS REVENUES

The following table sets forth amounts of miscellaneous revenues projected to be received by the City in the Financial Plan.

	<u>2001</u>	<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>
	(In Millions)				
Licenses, Permits and Franchises	\$ 328	\$ 319	\$ 312	\$ 310	\$ 309
Interest Income	188	141	142	143	144
Charges for Services	420	412	411	411	411
Water and Sewer Payments(1)	866	812	812	832	854
Rental Income	127	458	300	229	155
Fines and Forfeitures	474	471	470	470	470
Other	957	935	355	311	330
Intra-City Revenues	<u>1,295</u>	<u>1,211</u>	<u>1,168</u>	<u>1,124</u>	<u>1,124</u>
Total	<u>\$4,655</u>	<u>\$4,759</u>	<u>\$3,970</u>	<u>\$3,830</u>	<u>\$3,797</u>

(1) Received from the Water Board. For further information regarding the Water Board, see "SECTION VII: FINANCIAL PLAN—Long-Term Capital and Financing Program."

Rental Income in the 2001 through 2005 fiscal years includes \$22 million, \$365 million, \$220 million, \$155 million and \$85 million from the Port Authority as rent payments for the City's airports, of which \$350 million, \$205 million, \$140 million and \$70 million in the 2002 through 2005 fiscal years, respectively, is currently the subject of a dispute with the Port Authority.

In an arbitration against the Port Authority, the City has asserted that it is owed additional rent under the John F. Kennedy International and LaGuardia airports lease. The City contends, among other things, that, in determining the amount of rent due to the City, the Port Authority has erroneously (i) excluded from the calculation of gross revenue the amounts of passenger facility charges ("PFCs") which the Port Authority has collected since 1992 (the "PFC claim"), (ii) taken certain capital deductions for investments that the Port Authority previously recovered in full with interest, and (iii) included in the calculation of operation and maintenance expense certain general and administrative, indirect and other expenses. In denying a stay application brought by the Port Authority, the Appellate Division of the New York Supreme Court held on June 27, 1996 that the City's claims must be arbitrated and that the PFC claim does not raise any issue of Federal law so long as any additional rent to be paid on the claim would be paid from funds other than PFCs. On November 20, 1996, the Chief Counsel of the Federal Aviation Administration ("FAA") issued a letter, at the Port Authority's request, stating that it was the FAA's position that under Federal law the sums of PFCs collected by the Port Authority could not be included in the determination of rent. On January 21, 1997, the Chief Counsel stated in a letter to the City's Corporation Counsel that his prior letter was an "advisory opinion" that by its terms was not binding. If the City prevails on the PFC claim, the additional rent resulting from that claim would not be paid from PFCs; rather, such payment would be made from the Port Authority's consolidated operating funds.

Miscellaneous Revenues—Other reflects \$153 million, \$220 million, \$101 million, \$56 million and \$56 million of projected resources in fiscal years 2001 through 2005, respectively, from the receipt by the City of funds from the settlement of litigation with certain tobacco companies. Miscellaneous Revenues—Other does not reflect a total of approximately \$682 million expected to be retained by TSASC during fiscal years 2001 through 2005. Miscellaneous Revenues—Other includes the receipt in fiscal year 2001 of \$340 million from the sale of the Coliseum, \$30 million from asset sales and \$85 million from the health benefit stabilization fund. In fiscal year 2002, Miscellaneous Revenues—Other includes \$250 million from the proposed sale of OTB, \$41 million from the United Nations Development Corporation and \$106 million from the sale of mortgages and other assets.

5. UNRESTRICTED INTERGOVERNMENTAL AID

The following table sets forth amounts of unrestricted intergovernmental aid projected to be received by the City in the Financial Plan.

	<u>2001</u>	<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>
	(In Millions)				
State Revenue Sharing	\$327	\$327	\$327	\$327	\$327
Other Aid	<u>289</u>	<u>237</u>	<u>237</u>	<u>237</u>	<u>237</u>
Total	<u>\$616</u>	<u>\$564</u>	<u>\$564</u>	<u>\$564</u>	<u>\$564</u>

The Other Aid category primarily consists of approximately \$158 million annually from aid associated with the State takeover of long-term care Medicaid costs, \$51 million of additional unrestricted aid, \$35 million annually from State audits, \$23 million annually in inter-governmental transfers, and \$13 million in prior year claims settlements.

The receipt of State Revenue Sharing funds could be affected by potential prior claims asserted by the State. For information concerning projected State budget gaps and the possible impact on State aid to the City, see "SECTION I: RECENT FINANCIAL DEVELOPMENTS—The State."

6. FEDERAL AND STATE CATEGORICAL GRANTS

The following table sets forth amounts of Federal and State categorical grants projected to be received by the City in the Financial Plan.

	<u>2001</u>	<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>
	(In Millions)				
Federal					
Community Development(1)	\$ 295	\$ 258	\$ 258	\$ 258	\$ 258
Welfare	2,357	2,203	2,156	2,161	2,161
Education	1,046	1,046	1,046	1,046	1,046
Other	<u>735</u>	<u>421</u>	<u>418</u>	<u>414</u>	<u>420</u>
Total	<u>\$4,433</u>	<u>\$3,928</u>	<u>\$3,878</u>	<u>\$3,879</u>	<u>\$3,885</u>
State					
Welfare	\$1,574	\$1,544	\$1,534	\$1,540	\$1,544
Education	5,330	5,391	5,460	5,524	5,590
Higher Education	159	159	159	159	159
Health and Mental Health	398	352	352	352	352
Other	<u>322</u>	<u>533</u>	<u>526</u>	<u>534</u>	<u>541</u>
Total	<u>\$7,783</u>	<u>\$7,979</u>	<u>\$8,031</u>	<u>\$8,109</u>	<u>\$8,186</u>

(1) This amount represents the projected annual level of new funds. Unspent Community Development grants from prior fiscal years could increase the amount actually received.

The Financial Plan assumes that all existing Federal and State categorical grant programs will continue, unless specific legislation provides for their termination or adjustment, and assumes increases in aid where increased costs are projected for existing grant programs. For information concerning projected State budget gaps and the possible impact on State aid to the City, see "SECTION I: RECENT FINANCIAL DEVELOPMENTS—The State." As of December 31, 2000 approximately 15.57% of the City's full-time employees (consisting of employees of the mayoral agencies and the BOE) were paid by JTPA funds, Community Development funds, water and sewer funds and from other sources not funded by unrestricted revenues of the City. In the 2001 fiscal year, the City expects to receive approximately \$221 million from the Community Development Block grant, which is approximately \$1 million less than the amount received in the 2000 fiscal year.

A major component of Federal categorical aid to the City is the Community Development program. Pursuant to Federal legislation, Community Development grants are provided to cities primarily to aid low and moderate income persons by improving housing facilities, parks and other capital improvements, by providing certain social programs and by promoting economic development. These grants are based on a formula that takes into consideration such factors as population, housing overcrowding and poverty.

The City's receipt of categorical aid is contingent upon the satisfaction of certain statutory conditions and is subject to subsequent audits, possible disallowances and possible prior claims by the State or Federal governments. The general practice of the State and Federal governments has been to deduct the amount of any disallowances against the current year's payment. Substantial disallowances of aid claims may be asserted during the course of the Financial Plan. The amounts of such disallowances attributable to prior years declined from \$124 million in the 1977 fiscal year to \$6 million in the 2000 fiscal year. This decrease reflects favorable experience with the level of disallowances in recent years, which may not continue. As of June 30, 2000, the City had an accumulated reserve of \$205 million for future disallowances of categorical aid.

Expenditure Assumptions

1. PERSONAL SERVICE COSTS

The following table sets forth projected expenditures for personal service costs contained in the Financial Plan.

	<u>2001</u>	<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>
	(In Millions)				
Wages and Salaries	\$15,373	\$15,256	\$15,236	\$15,257	\$15,249
Pensions	1,348	1,428	1,478	1,516	1,599
Other Fringe Benefits	3,845	3,801	3,876	4,028	4,284
Reserve for Collective Bargaining	395	814	861	857	857
Total	<u>\$20,961</u>	<u>\$21,299</u>	<u>\$21,451</u>	<u>\$21,658</u>	<u>\$21,989</u>

The Financial Plan projects that the authorized number of City-funded employees whose salaries are paid directly from City funds, as opposed to Federal or State funds or water and sewer funds, will decrease from an estimated level of 214,902 on June 30, 2001 to an estimated level of 214,552 by June 30, 2005, before implementation of out-year gap-closing programs included in the Financial Plan.

The Reserve for Collective Bargaining contains funding for the cost of a wage increase through a merit pay plan for City employees which provides for salary increases based on merit as measured by performance evaluations for two years after their collective bargaining contracts expire in fiscal years 2000 and 2001. The reserve does not contain provisions for wage increases thereafter. The reserve no longer reflects an offset from productivity savings as a result of the recently negotiated collective bargaining agreement on benefits. The Reserve for Collective Bargaining includes \$125 million, \$284 million, \$337 million, \$337 million and \$337 million in fiscal years 2001 through 2005, respectively, included in the BOE's financial plan as a reserve for collective bargaining.

The terms of wage settlements could be determined through the impasse procedure in the New York City Collective Bargaining Law, which can impose a binding settlement.

For a discussion of the City's pension systems, see "SECTION IX: OTHER INFORMATION—Pension Systems" and "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Note S." For a discussion of certain information relating to the City's health insurance costs, see "SECTION VII: FINANCIAL PLAN—Certain Reports."

2. OTHER THAN PERSONAL SERVICE COSTS

The following table sets forth projected other than personal service ("OTPS") expenditures contained in the Financial Plan.

	<u>2001</u>	<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>
	(In Millions)				
Administrative OTPS	\$ 9,439	\$ 9,395	\$ 9,473	\$ 9,573	\$ 9,717
Public Assistance	2,243	2,015	1,956	1,958	1,958
Medical Assistance	3,365	3,576	3,747	3,956	4,073
HHC Support	144	131	131	131	131
Other	<u>1,825</u>	<u>1,943</u>	<u>2,093</u>	<u>1,849</u>	<u>1,901</u>
Total(1)	<u>\$17,016</u>	<u>\$17,060</u>	<u>\$17,400</u>	<u>\$17,467</u>	<u>\$17,780</u>

(1) Does not include pay-as-you-go capital.

Legislation has been passed by the State which prohibits the disposal of solid waste in any landfill located within the City after December 31, 2001. The Financial Plan includes the estimated costs of phasing out the use of landfills located within the City under the category OTPS-Other. The New York City Recycling Law, Local Law No. 19 ("Local Law No. 19") for the year 1989, set requirements for increasing the tonnage of solid waste that is recycled by the Department of Sanitation and its contractors. Pursuant to court order, the City is currently required to recycle 3,400 tons per day of solid waste and is required to recycle 4,250 tons per day by July 2001. The City is currently recycling over 2,600 tons per day of solid waste. If the City is unable to comply with Local Law No. 19, it may incur substantial costs.

Administrative OTPS and Energy

The Financial Plan contains estimates of the City's administrative OTPS expenditures for general supplies and materials, equipment and selected contractual services and estimates of energy costs in the 2001 fiscal year. Thereafter, to account for inflation, selected OTPS expenditures are projected to rise by approximately 2.6%, 2.6%, 2.8% and 2.8% in fiscal years 2002 through 2005, respectively. However, it is assumed that the savings from a procurement initiative will offset the need for funding projected increases in OTPS expenditures that result from the accounting for inflation. Energy costs for each of the 2001 through 2005 fiscal years are assumed to rise at varying rates of inflation, with total energy expenditures projected at \$608 million in the 2001 fiscal year, falling to \$554 million in fiscal year 2005.

Public Assistance

The average number of persons receiving income benefits under public assistance programs is projected to be 541,634 per month in the 2001 fiscal year. The Financial Plan projects that the average number of recipients will decrease by 12.39% in the 2001 fiscal year from the average number of recipients in the 2000 fiscal year. The Financial Plan assumes that public assistance grant levels will remain flat in the 2001 fiscal year. Of total public assistance expenditures in the City for the 2001 fiscal year, the City-funded portion is projected to be \$401.6 million, a decrease of 6.8% from the 2000 fiscal year, and is projected to continue to decrease to \$355.4 million in fiscal year 2005.

Medical Assistance

Medical assistance payments projected in the Financial Plan consists of payments to voluntary hospitals, skilled nursing facilities, intermediate care facilities, home care and physicians and other medical practitioners. The City-funded portion of medical assistance payments is estimated at \$2.537 billion for the 2001 fiscal year and is expected to increase to \$3.175 billion in fiscal year 2005. Such payments include, among other things, City-funded Medicaid payments, but exclude City-funded Medicaid payments to HHC, as discussed below. City Medicaid costs (including City-funded Medicaid payments to HHC) assumed in the Financial Plan do not include 81.2% of the non-Federal share of long-term care costs which have been assumed by the State. The Financial

Plan projects savings of \$782 million in the 2001 fiscal year due to the State having assumed such costs, and projects such savings will increase to \$940 million in fiscal year 2005.

Health and Hospitals Corporation

HHC operates under its own section of the Financial Plan as a Covered Organization. HHC's financial plan projects City-funded expenditures of \$763 million for the 2001 fiscal year, increasing to \$818 million in fiscal year 2005. The City-funded expenditures in the 2001 fiscal year include \$53 million for the care of prisoners and uniformed personnel, \$14 million of general City support, \$696 million for the City's share of Medicaid payments and \$55 million primarily for mental health services.

HHC is projected to achieve balanced budgets in fiscal years 2001 through 2005 on a cash basis. Total receipts are projected to be \$3.505 billion in fiscal year 2001, increasing to \$3.553 billion in fiscal year 2005. Total disbursements are projected to be \$3.569 billion in fiscal year 2001, increasing to \$3.749 billion in fiscal year 2005. These projections assume: (i) continued headcount reduction through attrition; (ii) small increases in other than personal service costs in fiscal years 2001 through 2005; and (iii) an increase of 1.8% in Medicaid fee-for-service and Medicaid managed care between fiscal years 2001 and 2005. Significant changes have been and may be made in Medicaid, Medicare and other third-party payor programs, which could have adverse impacts on HHC's financial condition.

Other

The projections set forth in the Financial Plan for OTPS-Other include the City's contributions to NYCT, the Housing Authority, CUNY and subsidies to libraries and various cultural institutions. They also include projections for the cost of future judgments and claims which are discussed below under "Judgments and Claims." In the past, the City has provided additional assistance to certain Covered Organizations which had exhausted their financial resources prior to the end of the fiscal year. No assurance can be given that similar additional assistance will not be required in the future.

New York City Transit

In January 2001, the City prepared a financial plan for New York City Transit ("NYCT") covering its 2001 through 2005 fiscal years (the "NYCT Financial Plan"). NYCT's fiscal year coincides with the calendar year. For 2001, the NYCT Financial Plan projects \$4.5 billion in revenues and \$4.7 billion in expenses, leaving a budget gap of \$227 million. This gap will be offset by \$160 million in anticipated cash flow adjustments including reserve fund releases and additional receipts, funds made available from a \$30 million cash basis surplus in 2000, and \$37 million in new State assistance or a reduction in planned expenses. NYCT's cash basis budget for fiscal year 2001 will be balanced. City assistance in 2001 to NYCT's operating budget is \$234 million, in addition to \$142 million in real estate tax revenue dedicated for NYCT's use.

The NYCT Financial Plan forecasts budget gaps of \$297 million, \$392 million, \$553 million, and \$588 million in 2002 through 2005, respectively, before the implementation of cash flow adjustments and additional gap-closing actions. The City's Financial Plan does not require that NYCT's out-year gaps be funded. The City's Financial Plan assumes that the gaps in 2002 through 2005 will be closed in part by increased user charges, productivity measures, reduced service levels, additional management actions, or some combination of these actions.

On April 19, 2000, the Metropolitan Transportation Authority ("MTA") board approved a five-year, \$18.1 billion capital plan for the MTA for 2000 through 2004 (the "2000-2004 Capital Program"), including approximately \$11.9 billion for NYCT, to be funded with Federal, State and City capital funds, MTA bonds, and other MTA resources. The 2000-2004 Capital Program includes \$530 million in City capital funds, as well as \$345 million in City capital funds exchanged for proceeds from the sale of the Coliseum. The 2000-2004 Capital Program was approved by the Capital Program Review Board ("CPRB"), the State Legislature and the Governor.

The 2000-2004 Capital Program follows the \$13.2 billion capital program for 1995 through 1999, which included \$9.3 billion for NYCT. The Capital Program for 1995 through 1999 superseded the previous capital program for the period 1992 through 1996, which totaled \$9.56 billion, with \$7.4 billion in projects for NYCT.

There can be no assurance that all the necessary governmental actions for the 2000-2004 Capital Program will be taken, that funding sources currently identified will not be reduced or eliminated, or that parts of the capital program will not be delayed or reduced. If the MTA's capital program is delayed or reduced, ridership and fare revenues may decline which could, among other things, impair the MTA's ability to meet its operating expenses without additional assistance.

Board of Education

The Stavisky-Goodman Act requires the City to allocate to the BOE an amount of funds from the total budget either equal to the average proportion of the total budget appropriated for the BOE in the three preceding fiscal years or an amount agreed upon by the City and the BOE. In the Financial Plan 31.09% of the City's budget is allocated to the BOE for the 2001 fiscal year, exceeding the amount required by the Stavisky-Goodman Act. The Financial Plan assumes student enrollment to be approximately 1.1 million in the 2001 through 2005 fiscal years.

Judgments and Claims

In the fiscal year ended on June 30, 2000, the City expended \$490.7 million for judgments and claims. The Financial Plan includes provisions for judgments and claims of \$468.3 million, \$463.5 million, \$482.7 million, \$507.7 million and \$536.2 million for the 2001 through 2005 fiscal years, respectively. The City is a party to numerous lawsuits and is the subject of numerous claims and investigations. The City has estimated that its potential future liability on account of outstanding claims against it as of June 30, 2000 amounted to approximately \$3.6 billion. This estimate was made by categorizing the various claims and applying a statistical model, based primarily on actual settlements by type of claim during the preceding ten fiscal years, and by supplementing the estimated liability with information supplied by the City's Corporation Counsel. For further information regarding certain of these claims, see "SECTION IX: OTHER INFORMATION—Litigation."

In addition to the above claims, numerous real estate tax *certiorari* proceedings involving allegations of inequality of assessment, illegality and overvaluation are currently pending against the City. The City's Financial Statements for the year ending June 30, 2000 include an estimate that the City's liability in the *certiorari* proceedings, as of June 30, 2000, could amount to approximately \$540 million. Provision has been made in the Financial Plan for estimated refunds of \$236 million, \$230 million, \$253 million, \$258 million and \$272 million for the 2001 through 2005 fiscal years, respectively, which includes provision for repurchase of previously sold defective tax liens. For further information concerning these claims, certain remedial legislation related thereto and the City's estimates of potential liability, see "SECTION IX: OTHER INFORMATION—Litigation—Taxes" and "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Note J."

3. DEBT SERVICE

Debt service estimates for the 2001 through 2005 fiscal years include estimates of debt service costs on outstanding City bonds and notes and future debt issuances based on current and projected future market conditions.

Certain Reports

From time to time, the Control Board staff, OSDC, the City Comptroller, the IBO and others issue reports and make public statements regarding the City's financial condition, commenting on, among other matters, the City's financial plans, projected revenues and expenditures and actions by the City to eliminate projected operating deficits. Some of these reports and statements have warned that the City may have underestimated certain expenditures and overestimated certain revenues and have suggested that the City may not have adequately provided for future contingencies. Certain of these reports have analyzed the City's future economic and social conditions and have questioned whether the City has the capacity to generate sufficient revenues in the future to meet the costs of its expenditure increases and to provide necessary services. It is reasonable to expect that reports and statements will continue to be issued and to engender public comment.

On March 1, 2001, the City Comptroller issued a report on the Financial Plan. The report projected a surplus for fiscal year 2001 which could exceed the Financial Plan projections by between \$29 million and \$49 million.

In addition, the report projected a possible budget gap of \$290 million, or a possible surplus of \$671 million, for fiscal year 2002, and budget gaps of between \$2.3 billion and \$3.2 billion, \$2.9 billion and \$4.0 billion, and \$2.8 billion and \$4.0 billion in fiscal years 2003 through 2005, respectively, depending upon whether (i) the State Legislature fails to approve up to \$165 million, \$355 million, \$461 million and \$559 million of proposed tax reductions in fiscal years 2002 through 2005, respectively; (ii) the City incurs labor costs exceeding those assumed in the Financial Plan by between \$205 million and \$234 million, \$608 million and \$766 million, \$1.1 billion and \$1.4 billion and \$1.45 billion and \$1.54 billion in fiscal years 2002 through 2005, respectively, depending upon whether labor contracts are settled at the rate of local inflation or consistent with new labor contracts negotiated between the State and civil service employees; (iii) the City is able to complete proposed asset sales, including the sale of OTB, totaling \$397 million in fiscal year 2002; and (iv) the City receives \$350 million in assumed State and federal aid in each of fiscal years 2002 through 2005, which has been proposed in prior years without success. Additional risks identified in the report for fiscal years 2002 through 2005 include: (i) assumed payments from the Port Authority relating to the City's claim for back rentals, which are the subject of arbitration; (ii) the receipt by the City of \$114 million annually from the State with respect to the stock transfer tax, which the Governor has proposed eliminating; (iii) possible increased overtime expenditures of between \$190 million and \$320 million in each of fiscal years 2002 through 2005; and (iv) the writedown of outstanding education aid receivables of \$96 million, \$72 million, \$104 million and \$14 million in fiscal years 2002 through 2005, respectively. The report noted that these risks may be offset by additional resources for fiscal years 2002 through 2005, including: (i) the availability of \$194 million and \$289 million in fiscal years 2002 and 2003, respectively, if funds are not spent for purposes of building three sports facilities; (ii) the availability of \$250 million annually in each of fiscal years 2002 through 2005 from the write-off of liabilities accrued in prior years that do not materialize; (iii) possible debt service savings of \$100 million annually in each of fiscal years 2002 through 2005 from the refunding of outstanding bonds, lower interest rates on variable rate obligations and lower interest costs on short-term debt; (iv) the possibility that tax revenues will be greater than forecast in the Financial Plan by \$215 million, \$88 million and \$154 million in fiscal years 2002 through 2004, respectively; and (v) the possibility of \$250 million of additional State education aid which might be realized as a result of the State budget adoption process in each of fiscal years 2002 through 2005.

In addition, the report noted that, while current City pension contribution projections are based on the assumption that investment earnings will equal 8% per annum, for the first seven months of fiscal year 2001 the City's pension funds lost 1.8%. The report noted that if the investment experience at the end of fiscal year 2001 is lower than the 8% assumed investment earnings, then, for each percentage point difference between the actual investment return and the 8% assumed investment earning, the City's pension costs will increase from the Financial Plan projections by approximately \$6 million in fiscal year 2002, \$16 million in fiscal year 2003, \$28 million in fiscal year 2004 and \$43 million in fiscal year 2005. Finally, the report noted that the near term growth of the capital plan and the burden of the resulting debt service on the City's operating budget is a significant concern, with debt service consuming 17% of tax revenues collected by the City and projected to rise to 20% by fiscal year 2005. The report noted that if the capital plan is fully implemented and tax revenue growth decelerates, the ratio of debt service to tax revenues could increase to 25%.

On August 25, 1998, the City Comptroller issued a report reviewing the current condition of the City's major physical assets and the capital expenditures required to bring them to a state of good repair. The report estimated that the expenditure of approximately \$91.83 billion would be required over the next decade to bring the City's infrastructure to a systematic state of good repair and address new capital needs already identified, and that the City's current Ten-Year Capital Strategy, together with funding received from other sources, is projected to provide approximately \$52.08 billion. This represents the first time the Comptroller has issued such a report since May 1979. The capital need identified in the 1979 report was approximately two times greater than the actual capital expenditures for the period covered by that report. OMB notes that in the 1979 report, the Comptroller identified a capital need over seven times greater than the capital budget then proposed by the Mayor. The Comptroller's 1998 report estimates a capital need of approximately twice the amount of the capital spending proposed by the Mayor.

The 1998 report noted that the City's ability to meet all capital obligations is limited by law, as well as funding capacity, and that the issue for the City is how best to set priorities and manage limited resources. The report stated that its analysis is not limited to assets valued over \$10 million. It is noted that the annual City

capital asset condition survey as required by section 1110-a of the City Charter reviews items valued at \$10 million or more. The report also includes major systems like traffic signal systems, street lighting, the East River bridges and assets leased to the Transit Authority and the Water Board. The report's findings relate only to current infrastructure and do not address future capacity or technology needs. While the report indicates that the demands of the City's infrastructure outstrip the City's ability to pay for them, the report identifies several potential alternative methods for capital financing.

On March 1, 2001, the staff of the OSDC issued a report on the Financial Plan. The report identified a surplus of \$116 million in fiscal year 2001, in addition to the \$2.3 billion reflected in the Budget Stabilization Account. In addition, the report identified net risks of \$1.1 billion, \$1.1 billion, \$1.8 billion and \$2.2 billion for fiscal years 2002 through 2005, respectively, which, when added to the gaps of \$2.4 billion, \$2.5 billion and \$2.3 billion in fiscal years 2003 through 2005, respectively, projected in the Financial Plan, would result in gaps of \$1.1 billion, \$3.6 billion, \$4.3 billion and \$4.5 billion in fiscal years 2002 through 2005, respectively. The risks identified in the report included: (i) the potential for additional wage costs of \$220 million, \$750 million, \$1.2 billion and \$1.7 billion in fiscal years 2002 through 2005, respectively, if new labor contracts have wage increases at the projected rate of inflation; (ii) the assumed receipt of \$350 million in federal and State aid in each of fiscal years 2002 through 2005; (iii) delays in receipt of Port Authority lease payments assumed in the Financial Plan; (iv) the possible loss of \$114 million in each of fiscal years 2001 through 2005 if the Governor's proposal to eliminate the State appropriation to the stock transfer tax incentive fund is enacted by the State Legislature; (v) the possible write-down of outstanding State education aid receivables of \$63 million, \$72 million and \$104 million in fiscal years 2002 through 2004, respectively; (vi) additional pension contributions totaling \$70 million in each of fiscal years 2002 through 2005, to take into account teachers' summer school salaries; (vii) possible additional expenditures for health insurance totaling \$110 million in each of fiscal years 2002 through 2005; (viii) the possibility of increased overtime spending of \$50 million in fiscal year 2002 and \$100 million in each of fiscal years 2003 through 2005; (ix) the receipt of the proceeds of \$250 million in fiscal year 2002 from the sale of OTB, which requires State approval; (x) \$104 million of projected service reductions in each of fiscal years 2002 through 2005, which may be restored by the City Council; and (xi) the need for \$45 million in fiscal year 2002 to comply with the new campaign finance law. The report also identified the possibility of lower spending of \$90 million, \$194 million and \$289 million in fiscal years 2001 through 2003, respectively, if the construction and restoration of sports facilities is delayed. In addition, the report noted that, although the City's economic forecast appears reasonable, the risks could be partially offset by the possibility that tax revenues could exceed forecasts in the Financial Plan by between \$250 million and \$350 million in each of fiscal years 2001 through 2005.

With respect to the economy, the report noted that if a recession materializes from a sharply slowing national economy, the City's economic and revenue forecasts would be at risk. The report also noted that the investment performance of the City's five pension funds through the first eight months of the fiscal year has resulted in a 6% loss in value, compared with an expected gain of 8% for the year. The report noted that, while the losses could still be made up during the balance of fiscal year 2001, a loss of this magnitude could result in increased pension contributions of approximately \$100 million in fiscal year 2002, \$250 million in 2003, \$450 million in fiscal year 2004, \$700 million in fiscal year 2005 and \$1.0 billion in fiscal year 2006, when the losses are fully recognized. With respect to possible wage increases, the report noted that recent State agreements with the Civil Service Employees Association and the Transport Workers Union increase compensation by greater than the projected rate of inflation. The staff of OSDC has stated that a wage settlement for City employees similar to the State agreements would increase costs above the Financial Plan projections by \$135 million, \$245 million, \$900 million and \$1.5 billion in fiscal years 2001 through 2004, respectively. The report also noted that the size of the Federal block grant for public assistance may be reduced in fiscal year 2003 because of large reductions in the public assistance caseloads nationally; that caseloads may rise if there is a sustained downturn in the economy; that legislation is under consideration in Albany that could increase the minimum funding requirements for education and require the City to increase its funding of BOE; and that the City could be required to significantly increase its contributions to HHC, which faces large projected budget gaps.

On March 22, 2001, the staff of the Control Board issued a report reviewing the mid-year modification to the City's Financial Plan. The report noted that the City is likely to end fiscal year 2001 with a possible surplus of \$99 million, in addition to the \$2.3 billion in resources held in the Budget Stabilization Account. However, the

report identified net risks of \$1.2 billion, \$1.2 billion, \$1.9 billion and \$2.1 billion for fiscal years 2002 through 2005, respectively, which, when combined with the gaps projected in the Financial Plan, result in estimated gaps of \$1.2 billion, \$3.6 billion, \$4.3 billion and \$4.4 billion for fiscal years 2002 through 2005, respectively. The report noted (i) the possibility that non-property taxes could be \$150 million greater than forecast in the Financial Plan for fiscal year 2001; (ii) that other miscellaneous revenues could be \$50 million and \$100 million greater than forecast in the Financial Plan for fiscal year 2001 and each of fiscal years 2002 through 2005, respectively; and (iii) that spending could be lower than projected in the Financial Plan by \$90 million, \$194 million and \$289 million for fiscal years 2001 through 2003, respectively, if the proposed construction and restoration of sports facilities is delayed. However, the report also identified risks for fiscal years 2001 through 2005 including: (i) the assumed receipt of \$350 million in federal and State aid in each of fiscal years 2002 through 2005; (ii) increased labor costs above those assumed in the Financial Plan of \$340 million, \$760 million and \$1.2 billion for fiscal years 2003 through 2005, respectively, for possible future labor settlements consistent with the City's inflation assumption; (iii) delays in receipt of Port Authority lease payments assumed in the Financial Plan; (iv) the possible loss of \$114 million for each of fiscal years 2001 through 2005 if the Governor's proposal to eliminate funding for a payment to the City from the stock transfer tax incentive fund is implemented; (v) the possible write-down of funds owed to BOE by the State which have been outstanding for ten or more years, and the possible failure of the State to resume teacher support aid for the City, at a cost of \$145 million, \$121 million, \$153 million and \$63 million in fiscal years 2002 through 2005, respectively; (vi) possible increased overtime costs of between \$77 million and \$181 million annually; (vii) increased waste disposal costs of between \$20 million and \$26 million in each of fiscal years 2002 through 2005; (viii) the receipt of proceeds of \$331 million in fiscal year 2002 from the proposed sale of OTB and other assets; (ix) the possibility that non-property taxes could be \$150 million less than forecast in the Financial Plan for each of fiscal years 2003 through 2005; (x) the need for \$48 million in fiscal year 2002 to comply with the new campaign finance law; and (xi) increased expenditures of \$90 million in each of fiscal years 2003 through 2005 to fund the recently negotiated rate increase in welfare benefit contributions. In addition, the report expressed concern that the City could incur additional costs if welfare case loads increase, especially due to an economic downturn, or if Congress reduces the block grant appropriation, and noted the possible impact of falling stock values on the City's contributions to its pension system. Finally, the report noted that the City, which is facing a national downturn that may be deeper than generally expected and a depressed stock market, should develop the recurring initiatives necessary to support ongoing budget plans.

Long-Term Capital and Financing Program

The City makes substantial capital expenditures to reconstruct and rehabilitate the City's infrastructure and physical assets, including City mass transit facilities, sewers, streets, bridges and tunnels, and to make capital investments that will improve productivity in City operations.

The City utilizes a three-tiered capital planning process consisting of the Ten-Year Capital Strategy, the Four-Year Capital Plan and the current-year Capital Budget. The Ten-Year Capital Strategy is a long-term planning tool designed to reflect fundamental allocation choices and basic policy objectives. The Four-Year Capital Program translates mid-range policy goals into specific projects. The Capital Budget defines specific projects and the timing of their initiation, design, construction and completion.

City-funded commitments, which were \$344 million in 1979, are projected to reach \$7.1 billion in 2001. City-funded expenditures, which more than tripled between fiscal years 1980 and 1985, are forecast at \$4.5 billion in the 2001 fiscal year; total expenditures are forecast at \$5.1 billion in 2001. For additional information concerning the City's capital expenditures and the Preliminary Ten-Year Capital Strategy covering fiscal years 2002 through 2011, see "SECTION V: CITY SERVICES AND EXPENDITURES—Capital Expenditures."

The following table sets forth the major areas of capital commitment projected for the 2001 through 2004 fiscal years. See "SECTION V: CITY SERVICES AND EXPENDITURES—Capital Expenditures." See "SECTION VIII: INDEBTEDNESS—Indebtedness of the City and Certain Other Entities—*Limitations on the City's Authority to Contract Indebtedness.*"

2001-2004 CAPITAL COMMITMENT PLAN

	2001		2002		2003		2004	
	City Funds	All Funds	City Funds	All Funds	City Funds	All Funds	City Funds	All Funds
	(In Millions)

Note: Numbers may not tally due to rounding.

(1) Excludes NYCT's non-City portion of the MTA's five-year Capital Program.

(2) Includes water supply, water mains, water pollution control, sewer projects and related equipment.

(3) Commitments represent contracts registered with the City Comptroller, except for certain projects which are undertaken jointly by the City and State. Totals may not add due to rounding.

(4) Expenditures represent cash payments and appropriations planned to be expended for capital costs, excluding amounts for original issue discount.

The following table sets forth the City's planned sources and uses of City funds to be raised through issuances of long-term debt and transfers of monies from the City's General Fund during the City's 2001 through 2005 fiscal years. See "SECTION VIII: INDEBTEDNESS—Indebtedness of the City and Certain Other Entities."

2001-2005 FINANCING PROGRAM

Note: Totals may not add due to rounding.

(1) The City has issued approximately \$1.8 billion of general obligation bonds during fiscal year 2001, of which approximately \$1.138 billion was for refunding purposes.

(2) Finance Authority Bonds excludes bonds issued to defease bond anticipation notes and includes bond anticipation notes and capitalized interest thereon.

- (3) TSASC Bonds includes a \$150 million loan pursuant to the Transportation Infrastructure Finance and Innovation Act ("TIFIA"), estimated to be drawn down by \$20 million in fiscal year 2001 and \$65 million in each of fiscal years 2002 and 2003. The size of future TSASC bond issues will be approximately \$630 million each in fiscal years 2002, 2003 and 2004. The City expects to derive net proceeds of approximately \$2.4 billion from TSASC for capital purposes, including the \$604 million of proceeds from the November 1999 TSASC financing and the \$150 million TIFIA loan.
- (4) Water Authority Bonds includes commercial paper and certain revenue bonds issued to date and expected to be issued for the water and sewer system's capital program, and include reserve amounts. Figures do not include bonds that defease commercial paper.
- (5) DASNY and other conduit debt includes DASNY financing of the City Court Capital Program and three HHC projects, Jay Street Development Corp. financing of the 330 Jay Street project, New York City Industrial Development Agency financing of the New York Stock Exchange project and other conduit financings. The amounts reflected in fiscal years 2001 through 2005 include a total allocation for reserve funds and other costs of issuance during the period of \$426 million.
- (6) Other Sources includes changes in restricted cash balances, and federal and state grants.
- (7) City Capital Improvements includes capital cash expenditures for various City agencies, including DEP, the City's court capital program, Lincoln Center capital improvement, and three projects in HHC's hospital reconstruction program.
- (8) Reserve Funds and Other comprises amounts necessary to fund certain reserves, certain costs of issuance of securities, and allocations for original issue discounts, capitalized interest, and other uses in connection with the issuance of City, Water Authority, TSASC and DASNY bonds.

A Federal law, the Americans with Disabilities Act of 1990, generally requires that various facilities be made accessible to disabled persons. The City continues to analyze actions that are required to comply with the law. The City may incur substantial additional capital expenditures, as well as additional operating expenses to comply with the law. Compliance measures which require additional capital measures are expected to be achieved through the reallocation of existing funds within the City's capital program. In addition, the City could incur substantial additional capital expenditures for school construction if alternative proposals to relieve overcrowding in the public schools are not developed and implemented. The Financial Plan also assumes State approval of the repeal of the Wicks Law relating to contracting requirements for City construction projects. If such approval is not obtained, the City will incur additional expenditures for construction projects.

Currently, if all City capital projects were implemented, expenditures would exceed the City's financing projections in the current fiscal year and subsequent years. The City has therefore established capital budgeting priorities to maintain capital expenditures within the available long-term financing. Due to the size and complexity of the City's capital program, it is difficult to forecast precisely the timing of capital project activity so that actual capital expenditures may vary from the planned annual amounts.

The City's four-year financing program and capital program includes the issuance of revenue bonds by the Finance Authority and tobacco settlement bonds by TSASC to provide for capital financing needs of the City. The bonds issued by the Finance Authority are secured by the City's personal income tax revenue, and other revenues if personal income tax revenues do not satisfy specified debt service ratios, and are not subject to the constitutional debt limitation but are subject to a statutory cap of \$11.5 billion. Bonds issued by TSASC will be payable from funds derived from the settlement of litigation with tobacco companies selling cigarettes in the United States and will not be subject to the constitutional debt limitation. See "SECTION VIII: INDEBTEDNESS—Indebtedness of the City and Certain Other Entities—*Limitations on the City's Authority to Contract Indebtedness.*"

The City's current four-year financing program and capital program includes the issuance of water and sewer revenue bonds. The Water Authority is authorized to issue bonds to finance capital investment in the City's water and sewer system. Pursuant to State law, debt service on this indebtedness is secured by water and sewer fees paid by users of the water and sewer system. Such fees are revenues of the Water Board and the Water Board holds a lease interest in the City's water and sewer system. After providing for debt service on obligations of the Water Authority and certain incidental costs, the revenues of the Water Board are paid to the City to cover the City's costs of operating the water and sewer system and as rental for the system. The City's Preliminary Ten-Year Capital Strategy covering fiscal years 2002 through 2011 projects City-funded water and sewer investment (which is expected to be financed with proceeds of Water Authority debt) at approximately \$8.25 billion of the \$46.0 billion City-funded portion of the plan.

The City is subject to statutory and regulatory standards relating to the quality of its drinking water. State and Federal regulations require the City water supply to meet certain standards to avoid filtration. The City's water supply now meets all technical standards and the City's current efforts are directed toward protection of the watershed area. The City has taken the position that increased regulatory, enforcement and other efforts to protect its water supply, relating to such matters as land use and sewage treatment, will preserve the high quality of water

in the upstate water supply system and prevent the need for filtration. The City has estimated that if filtration of the upstate water supply system is ultimately required, the construction expenditures required could be between \$4 billion and \$5 billion. In accordance with the New York City Watershed Memorandum of Agreement which was signed on January 21, 1997, among the City, the State, the U.S. Environmental Protection Agency ("USEPA"), the communities in the watershed area and several environmental groups, on May 6, 1997, USEPA granted the City a filtration avoidance waiver through April 15, 2002. The estimated incremental cost to the City of implementing this Watershed Memorandum of Agreement, beyond investments in the watershed which were planned independently, is approximately \$400 million. The New York City Department of Environmental Protection has estimated that the cost of the Watershed Memorandum of Agreement, including investments in the watershed which were previously included in the capital plan, is \$1.25 billion. The estimated cost does not include certain future administrative, construction, operating and maintenance costs which have not yet been determined.

Implementation of the capital plan is dependent upon the City's ability to market its securities successfully in the public credit markets. The terms and the success of projected public sales of City general obligation bonds, Water Authority, Finance Authority and HHC revenue bonds and TSASC bonds will be subject to prevailing market conditions at the times of sale. No assurance can be given that the credit markets will absorb the projected amounts of public bond sales. As a significant portion of bond financing is used to reimburse the City's General Fund for capital expenditures already incurred, if the City is unable to sell such amounts of bonds it would have an adverse effect on the City's cash position. In addition, the need of the City to fund future debt service costs from current operations may also limit the City's capital program. The Ten-Year Capital Strategy for fiscal years 2000 through 2009 totals \$48.1 billion, of which approximately 96% is to be financed with City funds. See "SECTION VIII: INDEBTEDNESS—Indebtedness of the City and Certain Other Entities—*Limitations on the City's Authority to Contract Indebtedness*". Congressional developments affecting Federal taxation generally could reduce the market value of tax-favored investments and increase the City's debt-service costs in carrying out the currently tax-exempt major portion of its capital plan. For information concerning litigation which, if determined against the City, could have an adverse impact on the amount of debt the City can have outstanding under the general debt limit (defined as 10% of the average full value of taxable real estate in the City for the most recent five years), see "SECTION IX: OTHER INFORMATION—Litigation—*Taxes*."

In December 2000, the City issued its annual assessment of the asset condition and a proposed maintenance schedule for its assets and asset systems which have a replacement cost of \$10 million or more and a useful life of at least ten years, as required by the City Charter (the "AIMS Report"). This report does not reflect any policy considerations which could affect the appropriate amount of investment, such as whether there is a continuing need for a particular facility or whether there have been changes in the use of a facility. The AIMS Report estimated that \$4.67 billion in capital investment was needed for fiscal years 2002 through 2005 to bring the assets to a state of good repair. The report also estimated that \$173 million, \$129 million, \$185 million and \$154 million should be spent on maintenance in fiscal years 2002 through 2005, respectively.

The recommended capital investment for each inventoried asset is not readily comparable to the capital spending allocated by the City in the Four-Year Capital Plan and the Ten-Year Capital Strategy. Only a portion of the funding set forth in the Four-Year Capital Plan is allocated to specifically identified assets, and funding in the subsequent years of the Ten-Year Capital Strategy is even less identifiable with individual assets. Therefore, there is a substantial difference between the amount of investment recommended in the report for all inventoried City assets and amounts allocated to the specifically identified inventoried assets in the Four-Year Capital Plan. The City also issues an annual report (the "Reconciliation Report") that compares the recommended capital investment with the capital spending allocated by the City in the Four-Year Capital Plan to the specifically identified inventoried assets.

The most recent Reconciliation Report, in April 2000, concluded that the capital investment in the Four-Year Capital Plan for the specifically identified inventoried assets funds 73% of the total investment recommended in the preceding AIMS Report issued in November 1999. Capital investment allocated in the Ten-Year Capital Strategy published in April 1999 will fund an additional portion of the recommended investment. In the same Reconciliation Report, OMB estimated that 57% of the expense maintenance levels recommended were included in the financial plan, compared to 55% of the expense maintenance levels included in the previous year.

Seasonal Financing Requirements

The City since 1981 has fully satisfied its seasonal financing needs in the public credit markets, repaying all short-term obligations within their fiscal year of issuance. The City issued \$750 million of short-term obligations in fiscal year 2001 to finance the City's projected cash flow needs for fiscal year 2001 and issued the same amount of short-term obligations in fiscal year 2000 to finance its projected cash flow needs for that year. The City issued \$500 million of short-term obligations in the 1999 fiscal year to finance the City's projected cash flow needs for the 1999 fiscal year. The City issued \$1.075 billion of short-term obligations in fiscal year 1998 to finance the City's projected cash flow needs for the 1998 fiscal year. The City issued \$2.4 billion of short-term obligations in fiscal year 1997. The delay in the adoption of the State's budget in certain past fiscal years has required the City to issue short-term notes in amounts exceeding those expected early in such fiscal years.

SECTION VIII: INDEBTEDNESS

Indebtedness of the City and Certain Other Entities

Outstanding City, MAC and PBC Indebtedness

The following table sets forth outstanding indebtedness having an initial maturity greater than one year from the date of issuance of the City, MAC and the PBCs as of December 31, 2000.

(In Thousands)		
Gross City Long-Term Indebtedness(1)	\$26,515,564	
Less: Assets Held for Debt Service(1)	<u>284,554</u>	
Net City Long-Term Indebtedness		\$26,231,010
Gross MAC Long-Term Indebtedness(2)	3,217,035	
Less: Assets Held for Debt Service(2)	<u>762,000</u>	
Net MAC Long-Term Indebtedness		2,455,035
PBC Indebtedness(3)		
Bonds Payable	556,082	
Capital Lease Obligations	<u>1,325,445</u>	
Gross PBC Indebtedness	1,881,527	
Less: Assets Held for Debt Service	<u>316,981</u>	
Net PBC Indebtedness		<u>1,564,546</u>
Combined Net City, MAC and PBC Indebtedness		<u><u>\$30,250,591</u></u>

- (1) With respect to City long-term indebtedness, "Assets Held for Debt Service" consists of General Debt Service Fund assets, and \$88.4 million principal amount of City serial bonds held by MAC. Amounts do not include the indebtedness of the Finance Authority and TSASC, which were \$6,393 million and \$704 million, respectively, as of December 31, 2000. See "APPENDIX B--FINANCIAL STATEMENTS--Notes to Financial Statements--Notes D, E, F and J."
- (2) With respect to MAC indebtedness, "Assets Held for Debt Service" consists of assets held in MAC's debt service funds less accrued liabilities for interest payable on MAC long-term indebtedness plus amounts held in reserve funds for payment of principal of and interest on MAC bonds. Other MAC funds, while not specifically pledged for the payment of principal of and interest on MAC bonds, are also available for these purposes. For further information regarding MAC indebtedness and assets held for debt service, see "Municipal Assistance Corporation Indebtedness" below and "APPENDIX B--FINANCIAL STATEMENTS--Notes to Financial Statements--Notes C and J."
- (3) "PBC Indebtedness" refers to City obligations to PBCs. For further information regarding the indebtedness of certain PBCs, see "Public Benefit Corporation Indebtedness" below and "APPENDIX B--FINANCIAL STATEMENTS--Notes to Financial Statements--Notes I and J." "PBC Indebtedness" does not include the indebtedness of individual PBCs which are Enterprise Funds. For further information regarding the indebtedness of Enterprise Funds PBCs, see "APPENDIX B--FINANCIAL STATEMENTS--Notes to Financial Statements--Notes L, M, N, O and P."

Trend in Outstanding Net City, MAC and PBC Indebtedness

The following table shows the trend in the outstanding net long-term and net short-term debt of the City and MAC and in net PBC indebtedness as of June 30 of each of the fiscal years 1989 through 2000 and as of December 31, 2000, except for short-term debt information, which is as of January 25, 2001.

	City(1)		MAC(2)		Component Unit and City Guaranteed	Total
	Long-Term Net Debt(3)	Short-Term Debt	Long-Term Net Debt(4)	Short-Term Debt	Debt(3)	
(In Millions)						
1989	\$ 9,332	\$ —	\$6,082	\$ —	\$ 780	\$16,194
1990	11,779	—	5,713	—	782	18,274
1991	15,293	—	5,265	—	803	21,361
1992	17,916	—	4,657	—	782	23,355
1993	19,624	—	4,470	—	768	24,862
1994	21,731	—	4,215	—	1,114	27,060
1995	23,258	—	4,033	—	1,098	28,389
1996	25,052	—	3,936	—	1,155	30,143
1997	26,180	—	3,717	—	1,182	31,079
1998	25,917	—	3,108	—	1,129	30,154
1999	26,287	—	2,809	—	1,403	30,499
2000	25,543	—	2,477	—	1,575	29,571
December 31, 2000	26,231	750	2,455	—	1,565	30,251

- (1) Amounts do not include debt of the City held by MAC. See "Outstanding City, MAC and PBC Indebtedness—note 2." Amounts do not include indebtedness of the Finance Authority and TSASC, which were \$6,393 million and \$704 million, respectively, as of December 31, 2000. See "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes D, E, F and J."
- (2) MAC reported outstanding long-term indebtedness without reduction for reserves, as follows: \$7,307 million, \$6,901 million, \$6,471 million, \$5,559 million, \$5,304 million, \$4,891 million, \$4,694 million, \$4,563 million, \$4,267 million, \$3,895 million, \$3,532 million and \$3,217 million as of June 30 of each of the years 1989 through 2000.
- (3) Net of reserves. See "Outstanding Indebtedness—note 2." Component Units are PBCs included in the City's financial statements other than PBCs which are Enterprise Funds. For more information concerning Component Unit PBCs, see "Public Benefit Corporation Indebtedness" below and "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements Notes I and J." For more information concerning Enterprise Funds PBCs, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes L, M, N, O and P."
- (4) Calculations of net MAC indebtedness include the total bonds outstanding under MAC's 1991 General Bond Resolutions and accrued interest on those bonds less the amounts held by MAC in its debt service and reserve funds.

Rapidity of Principal Retirement

The following table details, as of December 31, 2000, the cumulative percentage of total City general obligation debt outstanding that is scheduled to be retired in accordance with its terms in each prospective five-year period.

<u>Period</u>	<u>Cumulative Percentage of Debt Scheduled for Retirement</u>
5 years	26.44%
10 years	51.03
15 years	71.74
20 years	87.94
25 years	97.97
30 years	99.87

City, MAC and City-guaranteed PBC Debt Service Requirements

The following table summarizes future debt service requirements, as of December 31, 2000, on City and MAC term and serial bonds outstanding and City-guaranteed debt of and capital lease obligations to certain PBCs.

<u>Fiscal Years</u>	<u>City Long-Term Debt</u>		<u>Component Unit and City Guaranteed Debt(2)</u>	<u>MAC Funding Requirements</u>	<u>Total</u>
	<u>Principal of Bonds(1)</u>	<u>Interest(1)</u>			
			(In Thousands)		
2001.....	\$ 51,275	\$ 173,550	\$ 44,869	\$ 462,614	\$ 732,368
2002.....	1,398,470	1,402,838	175,242	506,214	3,482,764
2003.....	1,388,513	1,329,161	181,438	506,385	3,405,497
2004.....	1,404,405	1,252,521	181,613	506,296	3,344,835
2005 through 2147.....	21,983,347	11,607,960	2,767,700	1,981,029(3)	38,340,036
Total.....	<u>\$26,231,010</u>	<u>\$15,766,030</u>	<u>\$3,350,862</u>	<u>\$3,962,538</u>	<u>\$49,310,440</u>

- (1) Includes debt service on general obligation bonds only. See "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes D, E, F and J."
- (2) Component Units are PBCs included in the City's financial statements other than PBCs which are Enterprise Funds. For additional information concerning these PBCs, see "Public Benefit Corporation Indebtedness" below and "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes I and J." For more information concerning Enterprise Funds PBCs, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes L, M, N, O and P."
- (3) Amount shown is for fiscal years 2005 through 2008.

Certain Debt Ratios

The following table sets forth information for each of the fiscal years 1989 through 2000, with respect to the approximate ratio of debt to certain economic factors. As used in this table, debt includes net City, MAC, Finance Authority, TSASC and PBC debt.

<u>Fiscal Year</u>	<u>Debt Per Capita</u>	<u>Debt as % of Total Taxable Real Property By</u>	
		<u>Assessed Valuation</u>	<u>Estimated Full Valuation(1)</u>
1989.....	\$2,202	25.4%	4.6%
1990.....	2,490	26.0	4.5
1991.....	2,920	28.0	4.5
1992.....	3,193	27.9	3.9
1993.....	3,388	30.4	3.8

- (1) Based on full valuations for each fiscal year derived from the application of the special equalization ratio reported by the State Board for such fiscal year.

Ratio of Debt to Personal Income

The following table sets forth, for each of fiscal years 1984 through 1998, debt per capita as a percentage of personal income per capita in current dollars. As used in this table, debt includes net City, MAC, Finance Authority, TSASC and PBC debt.

<u>Fiscal Year</u>	<u>Debt per Capita</u>	<u>Personal Income per Capita(1)</u>	<u>Debt per Capita as % of Personal Income per Capita</u>
1984	\$1,695	\$15,881	10.67%
1985	1,723	16,919	10.18
1986	1,833	18,318	10.01
1987	1,893	19,488	9.71
1988	2,041	21,479	9.50
1989	2,202	23,004	9.57
1990	2,490	24,893	10.00
1991	2,920	25,597	11.42
1992	3,193	27,331	11.68
1993	3,338	27,677	12.06
1994	3,687	26,435	13.95
1995	3,892	30,192	12.89
1996	4,122	32,147	12.82
1997	4,218	33,192	12.71
1998	4,363	35,007	12.46

Source: Comprehensive Annual Financial Report of the Comptroller for the Fiscal Year Ended June 30, 2000.

(1) Personal income is measured before the deduction of personal income taxes and other personal taxes.

Certain Provisions for the Payment of City Indebtedness

The State Constitution requires the City to make an annual appropriation for: (i) payment of interest on all City indebtedness; (ii) redemption or amortization of bonds; (iii) redemption of other City indebtedness (except bond anticipation notes (“BANs”), tax anticipation notes (“TANs”), revenue anticipation notes (“RANs”), and urban renewal notes (“URNs”) contracted to be paid in that year out of the tax levy or other revenues); and (iv) redemption of short-term indebtedness issued in anticipation of the collection of taxes or other revenues, such as TANs, RANs and URNs, and renewals of such short-term indebtedness which are not retired within five years of the date of original issue. If this appropriation is not made, a sum sufficient for such purposes must be set apart from the first revenues thereafter received by the City and must be applied for these purposes.

The City’s debt service appropriation provides for the interest on, but not the principal of, short-term indebtedness, which has in recent years been issued as TANs and RANs. If such principal were not provided for from the anticipated sources, it would be, like debt service on City bonds, a general obligation of the City.

Pursuant to the Act, a general debt service fund (the “General Debt Service Fund” or the “Fund”) has been established for the purpose of paying Monthly Debt Service, as defined in the Act. In addition, as required under the Act, a TAN Account has been established by the State Comptroller within the Fund to pay the principal of outstanding City TANs. After notification by the City of the date when principal due or to become due on an outstanding issue of TANs will equal 90% of the “available tax levy,” as defined in the Act, with respect to such issue, the State Comptroller must pay into the TAN Account from the collection of real estate tax payments (after paying amounts required to be deposited in the General Debt Service Fund for Monthly Debt Service) amounts sufficient to pay the principal of such TANs. Similarly, a RAN Account has been established by the State Comptroller within the Fund to pay the principal of outstanding City RANs. Revenues in anticipation of which RANs are issued must be deposited in the RAN Account. If revenue consists of State or other revenue to be paid to the City by the State Comptroller, the State Comptroller must deposit such revenue directly into the RAN Account on the date such revenue is payable to the City. Under the Act, after notification by the City of the date when principal due or to become due on an outstanding issue of RANs will equal 90% of the total amount of revenue against which such RANs were issued on or before the fifth day prior to the maturity date of the RANs,

the State Comptroller must commence on such date to retain in the RAN Account an amount sufficient to pay the principal of such RANs when due. Revenues required to be deposited in the RAN Account vest immediately in the State Comptroller in trust for the benefit of the holders of notes issued in anticipation of such revenues. No person other than a holder of such RANs, has any right to or claim against revenues so held in trust. Whenever the amount contained in the RAN Account or the TAN Account exceeds the amount required to be retained in such Account, the excess, including earnings on investments, is to be withdrawn from such Account and paid into the General Fund of the City.

Limitations on the City's Authority to Contract Indebtedness

The Financial Emergency Act imposes various limitations on the issuance of City indebtedness. No TANs may be issued by the City which would cause the principal amount of such issue of TANs to exceed 90% of the "available tax levy," as defined in the Act, with respect to such issue; TANs and renewals thereof must mature not later than the last day of the fiscal year in which they were issued. No RANS may be issued by the City which would cause the principal amount of RANs outstanding to exceed 90% of the "available revenues," as defined in the Act, for that fiscal year; RANs must mature not later than the last day of the fiscal year in which they were issued; and in no event may renewals of RANs mature later than one year subsequent to the last day of the fiscal year in which such RANs were originally issued. No BANs may be issued by the City in any fiscal year which would cause the principal amount of BANs outstanding, together with interest due or to become due thereon, to exceed 50% of the principal amount of bonds issued by the City in the twelve months immediately preceding the month in which such BANs are to be issued; BANs must mature not later than six months after their date of issuance and may be renewed once for a period not to exceed six months. Budget Notes may be issued only to fund cost overruns in the expense budget; no Budget Notes, or renewals thereof, may mature later than sixty days prior to the last day of the fiscal year next succeeding the fiscal year during which the Budget Notes were originally issued.

The MAC Act contains two limitations on the amount of short-term debt which the City may issue. As of December 31, 2000, the maximum amount of additional short-term debt which the City could issue was \$7.26 billion under the first limitation. The second limitation does not prohibit any issuance by the City of BANs or short-term debt issued and payable within the same fiscal year, such as TANs and RANs. However, subject to the other restrictions and requirements described above, as of December 31, 2000, the maximum amount of TANs, RANs, or Budget Notes issued in the current fiscal year and maturing next fiscal year, that the City could issue was approximately \$841.4 million under the second limitation. These limitations, and other restrictions on maturities of City notes and other requirements described above, could be amended by State legislative action.

The State Constitution provides that, with certain exceptions, the City may not contract indebtedness, including contracts for capital projects to be paid with the proceeds of City bonds ("contracts for capital projects"), in an amount greater than 10% of the average full value of taxable real estate in the City for the most recent five years (the "general debt limit"). See "SECTION IV: SOURCES OF CITY REVENUES --Real Estate Tax--Assessment." For information concerning litigation which, if determined against the City, could have an adverse impact on the amount of debt the City can have outstanding under the general debt limit, see "SECTION IX: OTHER INFORMATION--Litigation--Taxes." Certain indebtedness ("excluded debt") is excluded in ascertaining the City's authority to contract indebtedness within the constitutional limit. TANs, RANs, BANs, URNs and Budget Notes and long-term indebtedness issued for certain types of public improvements and capital projects are considered excluded debt. The City's statutory authority for variable rate debt is limited to 20% of the general debt limit. The State Constitution also provides that, subject to legislative implementation, the City may contract indebtedness for low-rent housing, nursing homes for persons of low income and urban renewal purposes in an amount not to exceed 2% of the average assessed valuation of the taxable real estate of the City for the most recent five years (the "2% debt limit"). Excluded from the 2% debt limit, after approval by the State Comptroller, is indebtedness for certain self-supporting programs aided by City guarantees or loans. Neither MAC indebtedness nor the City's commitments with other PBCs (other than certain guaranteed debt of the Housing Authority) are chargeable against the City's constitutional debt limits.

To provide for the City's capital program, the Finance Authority and TSASC were created, the debt of which is not subject to the general debt limit of the City. Without the Finance Authority and TSASC, or other legislative relief, new contractual commitments for the City's general obligation financed capital program would have been

virtually brought to a halt during the Financial Plan period beginning early in the 1998 fiscal year. The debt-incurring power of the Finance Authority and TSASC has permitted the City to continue to enter into new contractual commitments and is expected to provide sufficient capacity to continue the City's capital program through the end of the Financial Plan in 2005. The City's current projections indicate that it will require an additional \$2.3 billion in financing capacity to complete its Ten-Year Capital Strategy. The City will either seek an amendment to the State Constitution to increase its debt-incurring capacity or seek to establish some other financing mechanism to enable it to complete its Ten-Year Capital Strategy.

The following table sets forth the calculation of the debt-incurring power of the City, the Finance Authority and TSASC as of February 28, 2001.

(In Thousands)		
Total City Debt-Incurring Power under General Debt Limit		\$30,593,211
Gross Debt-Funded	\$26,226,511	
Less: Excluded Debt	<u>712,446</u>	
	25,514,064	
Less: Fiscal Year 2001 Appropriations for Principal of Debt.....	<u>100,119</u>	
	25,413,945	
Contracts and Other Liabilities, Net of Prior TSASC and Finance Authority Financings and Restricted Cash	<u>6,770,414</u>	
Total Indebtedness	32,184,359	
Less: Anticipated Finance Authority Financing of Liabilities(1)	4,502,395	
Less: Anticipated TSASC Debt-Incurring Power	<u>1,796,348</u>	<u>25,885,616</u>
City, Finance Authority and TSASC Debt-Incurring Power(2).....		<u>\$4,707,595</u>

Note: Numbers may not tally due to rounding.

(1) Reflects Finance Authority debt-incurring capacity of \$11.5 billion, which was increased from \$7.5 billion by State legislation in June 2000.

(2) Without the creation of the Finance Authority and TSASC, the debt-incurring power of the City under the general debt limit, as of February 28, 2001, would have been exceeded by \$9.2 billion.

Federal Bankruptcy Code

Under the Federal Bankruptcy Code, a petition may be filed in the Federal bankruptcy court by a municipality which is insolvent or unable to meet its debts as they mature. The filing of such a petition would operate as a stay of any proceeding to enforce a claim against the City. The Code requires the municipality to file a plan for the adjustment of its debts, which may modify or alter the rights of creditors and may provide for the municipality to issue indebtedness, which could have priority over existing creditors and which could be secured. Any plan of adjustment confirmed by the court must be approved by the requisite majority of creditors. If confirmed by the bankruptcy court, the plan would be binding upon all creditors affected by it. Each of the City and the Control Board, acting on behalf of the City, has the legal capacity to file a petition under the Federal Bankruptcy Code.

Municipal Assistance Corporation Indebtedness

MAC was organized in 1975 to provide financing assistance for the City and also to exercise certain review functions with respect to the City's finances. Since its creation, MAC has provided, among other things, financing assistance to the City by refunding maturing City short-term debt and transferring to the City funds received from sales of MAC bonds and notes. MAC is authorized to issue bonds and notes payable from certain stock transfer tax revenues and the City's portion of the State sales tax derived in the City and, subject to certain prior claims, State per capita aid otherwise payable by the State to the City. These revenues are paid, subject to appropriation, directly by the State to MAC to the extent they are needed for MAC debt service, MAC reserve fund requirements or MAC operating expenses; revenues which are not needed by MAC are paid by the State to the City, except for the stock transfer tax revenues, which are rebated to the payers of the tax. MAC bonds and notes constitute general obligations of MAC and do not constitute an enforceable obligation or debt of either the State or the City. Failure by the State to continue the imposition of such taxes, the reduction of the rate of such taxes to rates less than those in effect on July 2, 1975, failure by the State to pay such aid revenues and the reduction of

such aid revenues below a specified level are included among the events of default in the resolutions authorizing MAC's long-term debt. The occurrence of an event of default may result in the acceleration of the maturity of all or a portion of MAC's debt.

As of December 31, 2000, MAC had outstanding an aggregate of approximately \$3.217 billion of its bonds. MAC is authorized to issue bonds and notes to refund its outstanding bonds and notes and to fund certain reserves. For additional information regarding MAC indebtedness, see "APPENDIX B FINANCIAL STATEMENTS—Notes to Financial Statements Notes C and J."

Public Benefit Corporation Indebtedness

City Financial Commitments to PBCs

PBCs are corporate governmental agencies created by State law to finance and operate projects of a governmental nature or to provide governmental services. Generally, PBCs issue bonds and notes to finance construction of housing, hospitals, dormitories and other facilities and receive revenues from the collection of fees, charges or rentals for the use of their facilities, including subsidies and other payments from the governmental entity whose residents have benefited from the services and facilities provided by the PBC. These bonds and notes do not constitute debt of the City unless expressly guaranteed or assumed by the City.

The City has undertaken various types of financial commitments with certain PBCs which, although they generally do not represent City indebtedness, have a similar budgetary effect. During a Control Period as defined by the Financial Emergency Act, neither the City nor any Covered Organization may enter into any arrangement whereby the revenues or credit of the City are directly or indirectly pledged, encumbered, committed or promised for the payment of obligations of a PBC unless approved by the Control Board. The principal forms of the City's financial commitments with respect to PBC debt obligations are as follows:

1. *Guarantees*—PBC indebtedness may be directly guaranteed by the City.
2. *Capital Lease Obligations*—These are leases of facilities by the City or a Covered Organization, entered into with PBCs, under which the City has no liability beyond monies legally available for lease payments. State law generally provides, however, that in the event the City fails to make any required lease payment, the amount of such payment will be deducted from State aid otherwise payable to the City and will be paid to the PBC.
3. *Executed Leases*—These are leases pursuant to which the City is legally obligated to make the required rental payments.
4. *Capital Reserve Fund Arrangements*—Under these arrangements, State law requires the PBC to maintain a capital reserve fund in a specified minimum amount to be used solely for the payment of the PBC's obligations. State law further provides that in the event the capital reserve fund is depleted, State aid otherwise payable to the City may be paid to the PBC to restore such fund.

The City's financial statements include MAC and certain PBCs, such as The New York City Educational Construction Fund ("ECF") and the CUCF. For further information regarding indebtedness of these PBCs, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Note J." Certain other PBCs appear in the financial statements as Enterprise Funds. For information regarding Enterprise Funds PBCs, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Notes L, M, N, O and P."

New York City Educational Construction Fund

As of December 31, 2000, approximately \$138.4 million principal amount of ECF bonds to finance costs related to the school portions of combined occupancy structures was outstanding. Under ECF's leases with the City, debt service on the ECF bonds is payable by the City to the extent third party revenues are not sufficient to pay such debt service.

New York City Housing Authority

As of December 31, 2000, the City had guaranteed \$16.0 million principal amount of HA bonds. The Federal government has agreed to pay debt service on \$0.6 million principal amount of additional HA indebtedness guaranteed by the City. The City has also guaranteed the repayment of \$134.2 million principal amount of HA indebtedness to the State, of which the Federal government has agreed to pay debt service on \$52.0 million. The City also pays subsidies to the HA to cover operating expenses. Exclusive of the payment of certain labor costs, such subsidies amounted to \$36.1 million in the 1999 fiscal year and to \$37.0 million in the 2000 fiscal year.

New York State Housing Finance Agency

As of December 31, 2000, \$231.7 million principal amount of HFA refunding bonds relating to hospital and family care facilities leased to the City was outstanding. HFA does not receive third party revenues to offset the City's capital lease obligations with respect to these bonds. Lease payments, which are made by the City seven months in advance of payment dates of the bonds, are intended to cover development and construction costs, including debt service, of each facility plus a share of HFA's overhead and administrative expenses.

Dormitory Authority of the State of New York

As of December 31, 2000, \$689.9 million principal amount of DASNY bonds issued to finance the design, construction and renovation of court facilities in the City was outstanding. The court facilities are leased to the City by DASNY, with lease payments made by the City in amounts sufficient to pay debt service on Authority bonds and certain fees and expenses of DASNY.

City University Construction Fund

As of December 31, 2000, approximately \$659.1 million principal amount of DASNY bonds, relating to Community College facilities, subject to capital lease arrangements was outstanding. The City and the State are each responsible for approximately one-half of the CUCF's annual rental payments to DASNY for Community College facilities which are applied to the payment of debt service on DASNY's bonds issued to finance the leased projects plus related overhead and administrative expenses of DASNY.

New York State Urban Development Corporation

As of December 31, 2000, \$52.2 million principal amount of New York State Urban Development Corporation ("UDC") bonds subject to executed or proposed lease arrangements was outstanding. This amount differs from the amount calculated by UDC (\$63.8 million) because UDC has included certain interest costs relating to Public School 50 and Intermediate School 229 in Manhattan in its calculation. The City leases schools and certain other facilities from UDC.

SECTION IX: OTHER INFORMATION

Pension Systems

The City maintains a number of pension systems providing benefits for its employees and employees of various independent agencies (including certain Covered Organizations). The systems combine features of a defined benefit pension plan with those of a defined contribution pension plan. Membership in the City's five major actuarial systems on June 30, 1999 consisted of approximately 329,000 current employees, of whom approximately 78,000 were employees of certain independent agencies whose pension costs in some cases are provided by City appropriations. In addition, there were approximately 243,000 retirees and beneficiaries currently receiving benefits and other vested members terminated but not receiving benefits. The City also contributes to three other actuarial systems, maintains a non-actuarial retirement system for retired individuals not covered by the five major actuarial systems, provides other supplemental benefits to retirees and makes contributions to certain union annuity funds.

Each of the City's five major actuarial pension systems is managed by a board of trustees which includes representatives of the City and the employees covered by such system. The City Comptroller is the custodian of, and has been delegated investment responsibilities for, the major actuarial systems, subject to the policies established by the boards of trustees of the systems and State law.

The City's pension expenditures in fiscal year 2000 were \$615 million. Expense projections for fiscal year 2001 through 2005 are estimated at \$1.348 billion, \$1.428 billion, \$1.478 billion, \$1.516 billion, and \$1.599 billion, respectively. These projections reflect the Chief Actuary's revised set of funding assumptions governing contributions to the City's five retirement systems which were effective for fiscal year 2000, including a market value restart. The boards of trustees of the City's retirement systems have adopted the Actuary's funding recommendations, and enabling State legislation has been passed. The above estimates in the Financial Plan also include provisions for the costs of certain pension benefit improvements to which the City and its unions agreed. For information concerning recent investment earnings on pension assets, see "SECTION VII: FINANCIAL PLAN - Certain Reports."

Certain of the systems provide pension benefits of 50% to 55% of "final pay" after 20 to 25 years of service with additional benefits for subsequent years of service. For the 2000 fiscal year, the City's total annual pension costs, including the City's pension costs not associated with the five major actuarial systems, plus Federal Social Security tax payments by the City for the year, were approximately 12% of total payroll costs. In addition, contributions are also made by certain component units of the City and other government units directly to the three cost sharing multiple employer actuarial systems. The State Constitution provides that pension rights of public employees are contractual and shall not be diminished or impaired.

For fiscal year 2000, the City made pension contributions to the five major systems in amounts equivalent to the pension costs as determined in accordance with GAAP. Pension costs incurred with respect to the other actuarial systems to which the City contributes and the City's non-actuarial retirement systems and supplemental pension programs for participants in these non-actuarial systems are recorded and paid currently.

Prior to June 30, 1999, four of the five major actuarial systems were not fully funded (i.e., the actuarial accrued liability exceeded the actuarial value of the assets). Due to the recognition of recent significant market performance in the actuarial asset values, calculated as of June 30, 1999, three additional systems became fully funded. As of June 30, 1999, only the New York Fire Department, Subchapter Two Pension Fund was not fully funded.

The excess of the present value of future pension benefits over the present value of the assets of the five major actuarial pension systems (including that which is attributable to independent agencies) as of June 30, 1994, as calculated by the City's Chief Actuary on the basis of the actuarial assumptions then in effect, is set forth in the following table. In addition, for the period June 30, 1995 to June 30, 1998 this excess is listed for the major actuarial systems other than New York City Employees' Retirement System because it was fully funded. For June 30, 1999, this excess is listed for the New York Fire Department, Subchapter Two Pension Fund, the only remaining non-fully-funded system.

<u>June 30</u>	Unfunded Pension Liability Amount(1) (In Billions)
1994	\$5.94(2)
1995	4.03
1996	4.29
1997	4.28
1998	4.64
199915

(1) For purposes of making these calculations, accrued pension contributions receivable from the City were not treated as assets of the system.

(2) Prior to June 30, 1994, amounts are the unfunded pension benefit obligation calculated in accordance with GASB Statement No. 5, *Disclosure of Pension Information by Public Employee Retirement Systems and State and Local Government Employers*. For June 30, 1994, amounts are the unfunded actuarial accrued liability produced by the method used to fund the plans and reflect implementation of GASB Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*. Before adoption of this Statement, such amount was \$1.85 billion.

The five major actuarial systems are funded on a basis which is designed to reduce gradually any unfunded accrued liability of those systems. For further information regarding the City's pension systems see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Note S."

Litigation

The following paragraphs describe certain material legal proceedings and claims involving the City and Covered Organizations other than routine litigation incidental to the performance of their governmental and other functions and certain other litigation arising out of alleged constitutional violations, torts, breaches of contract and other violations of law and condemnation proceedings. While the ultimate outcome and fiscal impact, if any, on the City of the proceedings and claims described below are not currently predictable, adverse determinations in certain of them might have a material adverse effect upon the City's ability to carry out the Financial Plan. The City has estimated that its potential future liability on account of outstanding claims against it as of June 30, 2000 amounted to approximately \$3.5 billion. See "SECTION VII: FINANCIAL PLAN—Assumptions—*Expenditure Assumptions—2. Other Than Personal Service Costs—Judgments and Claims.*"

Taxes

1. Numerous real estate tax *certiorari* proceedings alleging overvaluation, inequality and illegality are pending against the City. Based on historical settlement activity, and including an estimated premium for inequality of assessment, the City estimates its potential future liability for outstanding *certiorari* proceedings to be \$540 million at June 30, 2000. For a discussion of the City's accounting treatment of its inequality and overvaluation exposure, see "APPENDIX B—FINANCIAL STATEMENTS—Notes to Financial Statements—Note J."

2. The City has brought proceedings challenging the final class ratios for class two and class four property certified by the State Board for the 1991 and 1992 assessment rolls. Class ratios are used in real property tax *certiorari* proceedings involving allegations of inequality of assessment and ratios that are too low can result in more successful claims for refunds for overpayments than appropriate. In a proceeding consolidating the City's challenges to the class ratios for the 1991 and 1992 assessment rolls, on December 15, 1994, the Supreme Court, New York County annulled the class two and class four ratios for those years and remanded the matter to the State Board for recalculation of the ratios consistent with the decision. Pursuant to a stipulation extending its time to appeal, the State Board has not yet appealed the judgment, but if the original class ratios were reinstated on appeal, it could lead to an increase in refunds, for overpayment of real property taxes paid in the 1992 and 1993 fiscal years. The State Board and the City have also agreed to toll the City's time to challenge final class ratios for classes two and four for the 1993 and 1994 assessment rolls, pending the outcome of efforts to resolve the matter without further litigation. For additional information, see "SECTION IV: SOURCES OF CITY REVENUES—Real Estate Tax—*Assessment.*"

3. A group of real property taxpayers have brought a series of declaratory judgment actions charging that Tax Resolutions adopted by the City Council violate the State Constitution. Plaintiffs allege that the special equalization ratios calculated by the State Board resulted in the overstatement of the average full valuation of real

property in the City with the result that the City's real estate tax levy is in excess of the State Constitution's real estate tax limit. Actions relating to the real estate tax levies for fiscal years 1993, 1994, 1995 and 1996 have been commenced by groups of taxpayers and are pending in State Supreme Court, Albany County. The first such action was dismissed on standing grounds. Although plaintiffs do not specify the extent of the alleged real property overvaluation, an adverse determination significantly reducing such limit could subject the City to substantial liability for real property tax refunds and could have an adverse impact on the amount of debt the City can have outstanding under the general debt limit (defined as 10% of the average full value of taxable real estate in the City for the most recent five years).

Miscellaneous

1. On April 3, 1990, the New York State Court of Appeals ruled, in a case brought by a group of New York City recipients of AFDC, that the New York Social Services Law requires that AFDC recipients receive for housing an adequate allowance that bears a reasonable relationship to the cost of housing and remanded the case to the trial court. On April 16, 1997, the trial court held that the current shelter allowance is not reasonably related to the cost of housing. On May 6, 1999, the Appellate Division, First Department, affirmed the trial court decision. The State has filed a motion for leave to appeal the Appellate Court decision to the Court of Appeals. The shelter allowance, while determined by the State Department of Social Services ("DSS"), is funded by contributions from the Federal, State and City governments. The City's contribution is 25% of the total allowance. If plaintiffs are ultimately successful in seeking substantial increases in the shelter allowance, it could result in substantial costs to the City.

2. In three pending actions plaintiffs seek broad injunctive relief directed toward the City's lead paint poisoning prevention activities. In the Federal action, a class has been certified consisting of children under the age of seven and pregnant women residing in housing owned by the City or where the City administers federal community development block grant funds.

In one of the State actions, a class has been certified consisting of children under the age of seven living in multiple dwellings in New York City where a complaint of lead paint has been made which the City allegedly has not timely and adequately inspected and abated. Orders have been issued in such action directing the City's Department of Housing Preservation and Development and Department of Health to issue regulations in conformance with the court's interpretation of local law governing the removal of lead paint in residential buildings. While both agencies were in the process of promulgating these regulations, the parties to the litigation agreed to a stay of the relevant orders in contemplation of legislative change. In the summer of 1999, the City Council passed and the Mayor signed a new local law governing lead paint in residential buildings. The City is currently defending two lawsuits that challenge the new local law as having been passed in violation of State and City environmental laws, and in violation of the State's Municipal Home Rule Law. In October 2000, a trial court judge ruled that the City did not comply with the pertinent environmental laws when it adopted this local law. The City has appealed from the judgment entered, and has invoked a statutory stay of the judgment pending resolution of the appeal.

The State class action also challenges the City's activities relating to the screening of children for lead poisoning, the timeliness and adequacy of enforcement efforts, and inspection of day care facilities. The Federal action seeks warnings to tenants of lead paint hazards, abatement of lead paint hazards, and medical monitoring of class members. In another State action, plaintiffs challenge the City's enforcement activities with regard to lead paint in day care centers, nursery schools and kindergartens. Adverse determinations on these issues could result in substantial additional costs to the City.

In addition, nearly 1,300 claims have been filed against the City on behalf of children exposed to lead in City apartments. The suits seek to hold the City liable for failing to fix lead paint hazards in City-owned buildings and for failing to enforce lead safety standards in privately owned buildings. Such claims could cost the City in excess of \$300 million in the future.

3. On January 26, 1994, the Eastern Paralyzed Veterans Association ("EPVA") commenced an action in the United States District Court for the Southern District of New York alleging that the City had failed to take steps prescribed by the Americans with Disabilities Act and regulations promulgated thereunder to make the streets and sidewalks of the City accessible to handicapped persons. The EPVA seeks to compel the City, among other things, to implement a plan to provide curb ramps or other sloped areas at all intersections in the City by a

certain future date, to be determined in accordance with U.S. Department of Justice regulations. If the EPVA were to prevail in this action, performing such work in an expedited time frame would impose substantial costs on the City.

4. In May 1997, ten individuals commenced an action pursuant to 42 U.S.C. § 1983 against the City in the United States District Court for the Southern District of New York on behalf of themselves and persons similarly situated, alleging that City correctional officers since July 1996 had violated the constitutional rights of persons arrested for misdemeanors or non-criminal offenses by stripsearching such persons upon entry into pre-arraignment holding pens at the Manhattan and Queens criminal courthouses. In April 1998, the district court granted plaintiffs' motion for class certification. The City estimates that there are approximately 65,000 persons in the class. The City and the lawyers representing the plaintiff class have reached a tentative settlement under which the City would be required to pay between twenty and fifty million dollars. The settlement is subject to judicial approval following a hearing to determine its fairness to members of the class. The hearing is currently scheduled for June 13, 2001.

5. In February 1997, a former New York City school principal filed an action in New York State Supreme Court challenging the investment policies and practices of the Retirement Board of the Teachers' Retirement System of The City of New York (the "System") with regard to a component of the System consisting of member contributions and earnings thereon known as the Variable B Fund (the "Fund"). Plaintiff alleges that the trustees of the System illegally maintained the Fund as a fixed-income fund and ignored a requirement that a substantial amount of the Fund's assets be invested in equity securities. The defendants are the System and its individual trustees. Plaintiff seeks damages on behalf of all Fund participants in excess of \$250,000,000. In May 1999, the Appellate Division, First Department, affirmed the Supreme Court's earlier denial of the defendants' motion for summary judgment. If the plaintiff were to prevail in this action, it could result in substantial costs to the City.

Tax Exemption

In the opinion of Brown & Wood LLP, New York, New York, as Bond Counsel, except as provided in the following sentence, interest on the Tax-Exempt Bonds will not be includable in the gross income of the owners of the Tax-Exempt Bonds for purposes of Federal income taxation under existing law. Interest on the Tax-Exempt Bonds will be includable in the gross income of the owners thereof retroactive to the date of issue of the Bonds in the event of a failure by the City to comply with applicable requirements of the Code, and covenants regarding use, expenditure and investment of bond proceeds and the timely payment of certain investment earnings to the United States Treasury; and no opinion is rendered by Brown & Wood LLP as to the exclusion from gross income of the interest on the Tax-Exempt Bonds for Federal income tax purposes on or after the date on which any action is taken under the Bond proceedings upon the approval of counsel other than such firm.

Interest on the Bonds will be exempt from personal income taxes imposed by the State or any political subdivision thereof, including the City.

Interest on the Tax-Exempt Bonds will not be a specific preference item for purposes of the Federal individual or corporate alternative minimum tax. The Code contains other provisions that could result in tax consequences, upon which Brown & Wood LLP renders no opinion, as a result of ownership of such Bonds or the inclusion in certain computations (including, without limitation, those related to the corporate alternative minimum tax) of interest that is excluded from gross income. Interest on the Tax-Exempt Bonds owned by a corporation will be included in the calculation of the corporation's Federal alternative minimum tax liability.

Ownership of tax-exempt obligations may result in collateral tax consequences to certain taxpayers, including, without limitation, financial institutions, property and casualty insurance companies, certain foreign corporations doing business in the United States, certain S Corporations with excess passive income, individual recipients of Social Security or railroad retirement benefits, taxpayers eligible for the earned income tax credit and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations. Prospective purchasers of the Bonds should consult their tax advisors as to applicability of any such collateral consequences.

The excess, if any, of the amount payable at maturity of any maturity of the Tax-Exempt Bonds over the initial public offering price to the public (excluding bond houses, brokers or similar persons acting in the capacity of underwriters or wholesalers) at which price a substantial amount of such maturity is sold constitutes original issue discount, which will be excludable from gross income to the same extent as interest on the Tax-Exempt

Bonds for Federal, New York State and New York City income tax purposes. The Code provides that the amount of original issue discount accrues in accordance with a constant interest method based on the compounding of interest, and that a holder's adjusted basis for purposes of determining a holder's gain or loss on disposition of the Tax-Exempt Bonds with original issue discount (the "OID Bonds") will be increased by such amount. A portion of the original issue discount that accrues in each year to an owner of a OID Bond which is a corporation will be included in the calculation of the corporation's Federal alternative minimum tax liability. In addition, original issue discount that accrues in each year to an owner of a OID Bond is included in the calculation of the distribution requirements of certain regulated investment companies and may result in some of the collateral Federal income tax consequences discussed above. Consequently, owners of any OID Bond should be aware that the accrual of original issue discount in each year may result in an alternative minimum tax liability, additional distribution requirements or other collateral Federal income tax consequences although the owner of such OID Bond has not received cash attributable to such original issue discount in such year.

Owners of OID Bonds should consult their personal tax advisors with respect to the determination for Federal income tax purposes of the amount of original issue discount or interest properly accruable with respect to such OID Bonds, other tax consequences of owning OID Bonds and other state and local tax consequences of holding such OID Bonds.

The excess, if any, of the tax basis of the Tax-Exempt Bonds to a purchaser (other than a purchaser who holds such Tax-Exempt Bonds as inventory, stock in trade or for sale to customers in the ordinary course of business) over the amount payable at maturity is "bond premium." Bond premium is amortized over the term of such Bonds for Federal income tax purposes. Owners of such Bonds are required to decrease their adjusted basis in such Tax-Exempt Bonds by the amount of amortizable bond premium attributable to each taxable year such Tax-Exempt Bonds are held. The amortizable bond premium on such Tax-Exempt Bonds attributable to a taxable year is not deductible for Federal income tax purposes. Owners of such Bonds should consult their tax advisors with respect to the determination for Federal income tax purposes of the treatment of bond premiums upon sale or other disposition of such Bonds and with respect to the state and local tax consequences of owning and disposing of such Bonds.

Legislation affecting municipal securities is constantly being considered by the United States Congress. There can be no assurance that legislation enacted after the date of issuance of the Bonds will not have an adverse effect on the tax-exempt status of the Tax-Exempt Bonds. Legislative or regulatory actions and proposals may also affect the economic value of tax exemption or the market price of the Tax-Exempt Bonds.

Taxable Bonds

The following discussion addresses certain Federal income tax consequences to United States holders of the Taxable Bonds. It does not discuss all the tax consequences that may be relevant to particular holders. Each holder should consult his own tax adviser with respect to his particular circumstances.

Interest on the Taxable Bonds will be includable in the gross income of the owners thereof for purposes of Federal income taxation. Interest on the Taxable Bonds will be exempt from personal income taxes imposed by the State or any political subdivision thereof, including the City.

Ratings

The Bonds have been rated A2 by Moody's, A by Standard & Poor's and A+ by Fitch. Such ratings reflect only the views of Moody's, Standard & Poor's and Fitch from which an explanation of the significance of such ratings may be obtained. There is no assurance that such ratings will continue for any given period of time or that they will not be revised downward or withdrawn entirely. Any such downward revision or withdrawal could have an adverse effect on the market prices of such bonds. On July 16, 1998, Standard & Poor's revised its rating of City bonds to A- from BBB+. On September 13, 2000, Standard & Poor's revised its rating of City bonds upward to A. Moody's rating of City bonds was revised in August 2000 to A2 from A3. On March 8, 1999, Fitch revised its rating of City bonds upward to A from A- and on September 15, 2000, Fitch revised its rating to A+. Moody's, Standard & Poor's and Fitch currently rate the City's outstanding general obligation bonds A2, A and A+, respectively.

Legal Opinions

The legality of the authorization and issuance of the Bonds will be covered by the approving legal opinion of Brown & Wood LLP, New York, New York, Bond Counsel to the City. Reference should be made to the form of such opinion set forth in Appendix C hereto for the matters covered by such opinion and the scope of Bond Counsel's engagement in relation to the issuance of the Bonds. Such firm is also acting as counsel for and against the City in certain other unrelated matters.

Certain legal matters will be passed upon for the City by its Corporation Counsel.

Morgan, Lewis & Bockius LLP, New York, New York, Special Counsel to the City, will pass upon certain legal matters in connection with the preparation of this Official Statement. A description of those matters and the nature of the review conducted by that firm is set forth in its opinion and accompanying memorandum which are on file at the office of the Corporation Counsel. Such firm is also acting as counsel against the City in certain unrelated matters.

Certain legal matters will be passed upon by Clifford Chance Rogers & Wells LLP, New York, New York, counsel for the Underwriters and the Original Purchaser. Such firm is also acting as counsel for and against the City in certain unrelated matters.

Underwriting

The Fixed Rate Tax-Exempt Bonds are being purchased for reoffering by the Underwriters, for whom Goldman, Sachs & Co., J.P. Morgan Securities Inc. and Salomon Smith Barney Inc. are acting as lead managers.

The Fixed Rate Taxable Bonds are being purchased for reoffering by Salomon Smith Barney Inc.

The compensation for services rendered in connection with the underwriting of the Fixed Rate Tax-Exempt Bonds and the Fixed Rate Taxable Bonds shall be \$2,163,194.96 and \$23,000, respectively. All of the Bonds will be purchased if any are purchased.

Certain of the Underwriters hold substantial amounts of City bonds and notes and MAC bonds and may, from time to time during and after the offering of the Bonds to the public, purchase and sell City bonds and notes (including the Bonds) and MAC bonds for their own accounts or for their accounts or for the accounts of others, or receive payments or prepayments thereon.

Continuing Disclosure Undertaking

As authorized by the Act, and to the extent that (i) Rule 15c2-12 (the "Rule") of the Securities and Exchange Commission ("SEC") under the Securities Exchange Act of 1934, as amended (the "1934 Act") requires the underwriters (as defined in the Rule) of securities offered hereby (under this caption, if subject to the Rule, the "securities") to determine, as a condition to purchasing the securities, that the City will covenant to the effect of the Undertaking, and (ii) the Rule as so applied is authorized by a Federal law that as so construed is within the powers of Congress, the City agrees with the record and beneficial owners from time to time of the outstanding securities (under this caption, if subject to the Rule, "Bondholders") that:

(a) within 185 days after the end of each fiscal year, to each nationally recognized municipal securities information repository and to any New York State information depository, core financial information and operating data for the prior fiscal year, including (i) the City's audited general purpose financial statements, prepared in accordance with generally accepted accounting principles in effect from time to time, and (ii) material historical quantitative data on the City's revenues, expenditures, financial operations and indebtedness generally of the type found herein in Sections IV, V and VIII and under the captions "1996-2000 Summary of Operations" in Section VI and "Pension Systems" in Section IX; and

(b) in a timely manner, to each nationally recognized municipal securities information repository or to the Municipal Securities Rulemaking Board, and to any New York State information depository, notice of any of the following events with respect to the securities, if material:

- (1) principal and interest payment delinquencies;
- (2) non-payment related defaults;
- (3) unscheduled draws on debt service reserves reflecting financial difficulties;
- (4) unscheduled draws on credit enhancements reflecting financial difficulties;
- (5) substitution of credit or liquidity providers, or their failure to perform;

- (6) adverse tax opinions or events affecting the tax-exempt status of the security;
- (7) modifications to rights of security holders;
- (8) bond calls;
- (9) defeasances;
- (10) release, substitution, or sale of property securing repayment of the securities;
- (11) rating changes; and
- (12) failure of the City to comply with clause (a) above.

Event (3) is included pursuant to a letter from the SEC staff to the National Association of Bond Lawyers dated September 19, 1995. However, event (3) may not be applicable, since the terms of the securities do not provide for "debt service reserves".

Events (4) and (5). The City does not undertake to provide any notice with respect to credit enhancement added after the primary offering of the securities, unless the City applies for or participates in obtaining the enhancement.

Event (6) is relevant only to the extent interest on the securities is tax-exempt.

Event (8). The City does not undertake to provide the above-described event notice of a mandatory scheduled redemption, not otherwise contingent upon the occurrence of an event, if (i) the terms, dates and amounts of redemption are set forth in detail in the final official statement (as defined in the Rule), (ii) the only open issue is which securities will be redeemed in the case of a partial redemption, (iii) notice of redemption is given to the Bondholders as required under the terms of the securities and (iv) public notice of redemption is given pursuant to Exchange Act Release No. 23856 of the SEC, even if the originally scheduled amounts are reduced prior optional redemptions or security purchases.

At the date hereof, there is no New York State information depository and the nationally recognized municipal securities information repositories are: Bloomberg Municipal Repository, P.O. Box 840, Princeton, New Jersey 08542-0840; Standard & Poor's J.J. Kenny Repository, Inc., 55 Water Street, 45th Floor, New York, New York 10041; DPC Data Inc., One Executive Drive, Fort Lee, New Jersey 07024; and Interactive Data, 100 William Street, New York, New York 10038. Attn: Repository.

No Bondholder may institute any suit, action or proceeding at law or in equity ("Proceeding") for the enforcement of the Undertaking or for any remedy for breach thereof, unless such Bondholder shall have filed with the Corporation Counsel of the City evidence of ownership and a written notice of and request to cure such breach, and the City shall have refused to comply within a reasonable time. All Proceedings shall be instituted only as specified herein, in the Federal or State courts located in the Borough of Manhattan, State and City of New York, and for the equal benefit of all holders of the outstanding securities benefitted by the same or a substantially similar covenant, and no remedy shall be sought or granted other than specific performance of the covenant at issue.

Any amendment to the Undertaking may only take effect if:

(a) the amendment is made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of the City, or type of business conducted; the Undertaking, as amended, would have complied with the requirements of the Rule at the time of award of the securities after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and the amendment does not materially impair the interests of Bondholders, as determined by parties unaffiliated with the City (such as, but without limitation, the City's financial advisor or bond counsel) and the annual financial information containing (if applicable) the amended operating data or financial information will explain, in narrative form, the reasons for the amendment and the "impact" (as that word is used in the letter from the staff of the SEC to the National Association of Bond Lawyers dated June 23, 1995) of the change in the type of operating data or financial information being provided; or

(b) all or any part of the Rule, as interpreted by the staff of the SEC at the date of the Undertaking, ceases to be in effect for any reason, and the City elects that the Undertaking shall be deemed terminated or amended (as the case may be) accordingly.

For purposes of the Undertaking, a beneficial owner of a security includes any person who, directly or indirectly, through any contract, arrangement, understanding, relationship, or otherwise has or shares investment power which includes the power to dispose, or to direct the disposition of, such security, subject to certain

exceptions, as set forth in the Undertaking. An assertion of beneficial ownership must be filed, with full documentary support, as part of the written request to the Corporation Counsel described above.

Financial Advisor

The City retains Public Resources Advisory Group (“PRAG”) to act as financial advisor with respect to the City’s financing program. PRAG is acting as financial advisor for the issuance of the Bonds.

Further Information

The references herein to, and summaries of, Federal, State and local laws, including but not limited to the State Constitution, the Financial Emergency Act, the Moratorium Act, the MAC Act and the City Charter, and documents, agreements and court decisions, including but not limited to the Financial Plan, are summaries of certain provisions thereof. Such summaries do not purport to be complete and are qualified in their entirety by reference to such acts, laws, documents, agreements or decisions, copies of which are available for inspection during business hours at the office of the Corporation Counsel.

Copies of the most recent financial plan submitted to the Control Board are available upon written request to the Office of Management and Budget, General Counsel, 6th Floor, 75 Park Place, New York, NY 10007, and copies of the published Comprehensive Annual Financial Reports of the Comptroller are available upon written request to the Office of the Comptroller, Deputy Comptroller for Public Finance, Fifth Floor, Room 517, Municipal Building, One Centre Street, New York, NY 10007. Financial plans are prepared quarterly, and the Comprehensive Annual Financial Report of the Comptroller is typically prepared at the end of October of each year.

Neither this Official Statement nor any statement which may have been made orally or in writing shall be construed as a contract or as a part of a contract with the original purchasers or any holders of the Bonds.

THE CITY OF NEW YORK

[THIS PAGE INTENTIONALLY LEFT BLANK]

ECONOMIC AND SOCIAL FACTORS

This section presents information regarding certain of the major economic and demographic factors in the City which may affect the City. All information is presented on a calendar year basis unless otherwise indicated. The data set forth are the latest available. Sources of information are indicated in the text or immediately following the tables. Although the City considers the sources to be reliable, the City has made no independent verification of the information presented herein and does not warrant its accuracy.

New York City Economy

The City has a highly diversified economic base, with a substantial volume of business activity in the service, wholesale and retail trade and manufacturing industries and is the location of many securities, banking, law, accounting, new media and advertising firms.

The City is a major seaport and focal point for international business. Many of the major corporations headquartered in the City are multinational in scope and have extensive foreign operations. Numerous foreign-owned companies in the United States are also headquartered in the City. These firms, which have increased in number substantially over the past decade, are found in all sectors of the City's economy, but are concentrated in trade, manufacturing sales offices, tourism and finance. The City is the location of the headquarters of the United Nations, and several affiliated organizations maintain their principal offices in the City. A large diplomatic community exists in the City to staff the 186 missions to the United Nations and the 96 foreign consulates.

Economic activity in the City has experienced periods of growth and recession and can be expected to experience periods of growth and recession in the future. Changes in the economic activity in the City, particularly employment, per capita personal income and retail sales, may have an impact on the City. From 1969 to 1977, the City experienced substantial declines in employment, but from 1978 to 1987 the City experienced strong growth in jobs, especially in the City's finance, insurance and real estate ("FIRE") sector due in large part to lower inflation, lower interest rates and a strong securities market. Beginning in 1988, employment growth in the City slowed, and in 1990 the City experienced job losses, although the U.S. economy expanded during that period. During 1991 and 1992, employment levels in the City continued to decline. In recent years, the City has experienced increases in employment. Real per capita personal income (i.e., per capita personal income adjusted for the effects of inflation and the differential in living costs) has generally experienced fewer fluctuations than employment in the City. Although the City periodically experienced declines in real per capita personal income between 1969 and 1981, real per capita personal income in the City has generally increased from the mid-1980s until the present. In nearly all of the years between 1969 and 1990 the City experienced strong increases in retail sales. However, from 1991 to 1993, the City experienced a weak period of retail sales. Since 1994, the City has returned to a period of growth in retail sales. Overall, the City's economic improvement accelerated significantly in between 1997 and 1999. Much of the increase can be traced to the performance of the securities industry, but the City's economy also produced gains in the retail trade sector, the hotel and tourism industry, and business services, with private sector employment growing at a record pace. The City's current Financial Plan assumes that, after strong growth in 2000, moderate economic growth will exist through calendar year 2005, with moderating job growth and wage increases. However, there can be no assurance that the economic projections assumed in the Financial Plan will occur or that the tax revenues projected in the Financial Plan to be received will be received in the amounts anticipated.

Personal Income

Per capita personal income for City residents, unadjusted for the effects of inflation and the differential in living costs, has steadily increased from 1988 to 1998 (the most recent year for which City personal income data are available) and is higher than the average for the United States. From 1988 to 1998, per capita personal income in the City averaged 5.1% growth compared to 4.5% for the nation. The following table sets forth recent information regarding personal income in the City.

PERSONAL INCOME IN NEW YORK CITY(1)

<u>Year</u>	<u>Total NYC Personal Income (\$ billions)</u>	<u>Per Capita Personal Income NYC</u>	<u>Per Capita Personal Income U.S.</u>	<u>NYC as a Percent of U.S.</u>
1988	\$157.1	\$21,363	\$17,472	122.3%
1989	168.2	22,971	18,636	123.3
1990	182.3	24,897	19,656	126.7
1991	186.8	25,573	20,169	126.8
1992	199.7	27,338	21,138	129.3
1993	202.9	27,684	21,764	127.2
1994	208.6	28,415	22,620	125.6
1995	221.9	30,192	23,598	127.9
1996	236.6	32,144	24,688	130.2
1997	245.1	33,198	25,978	127.8
1998	259.2	35,007	27,263	128.4

(1) In current dollars. Personal Income is based on the place of residence and is measured from income which includes wages and salaries, other labor income, proprietors' income, personal dividend income, personal interest income, rental income of persons, and transfer payments.

Sectoral Distribution of Employment and Income

In 2000, the City's services employment sector hit an all-time peak, providing approximately 1.5 million jobs and accounting for approximately 39% of total employment. Figures on the sectoral distribution of employment in the City reflect a significant shift to non-manufacturing employment, particularly to the areas of services and FIRE, and a shrinking manufacturing base in the City relative to the nation.

The structural shift from manufacturing to the services and FIRE sectors affects the level of earnings per employee because employee compensation in finance and related business and professional services is considerably higher than in manufacturing. Moreover, per employee earnings in the FIRE sector are significantly higher in the City than in the nation. From 1978 to 1998, the employment share for FIRE increased from 13% to 14% in the City while the FIRE sector earnings share for the same period rose from 16% to 31% in the City. This shift in employment and earnings distribution toward the FIRE sector was more pronounced in the City than in the nation overall as indicated in the table below. Due to this shift in earnings distribution, sudden or large shocks in the financial markets have a disproportionately adverse effect on the City relative to the nation.

The City's and the nation's employment and earnings by industry are set forth in the following table.

SECTORAL DISTRIBUTION OF EMPLOYMENT AND EARNINGS(1)

<u>Sector</u>	<u>Employment</u>				<u>Earnings(2)</u>			
	<u>1978</u>		<u>1998</u>		<u>1978</u>		<u>1998</u>

Note: Totals may not tally due to rounding.

Sources: The two primary sources of employment and earnings information are U.S. Dept. of Labor, Bureau of Labor Statistics, and U.S. Department of Commerce, Bureau of Economic Analysis.

- (1) The sectoral distributions are obtained by dividing each industry's employment or earnings by total non-agricultural employment or earnings.
- (2) Includes the sum of wage and salary disbursements, other labor income, and proprietors' income. The latest information available for the City is 1998 data.
- (3) Excludes military establishments.

Employment Trends

The City is a leading center for the banking and securities industry, life insurance, communications, publishing, fashion design and retail fields. From 1993 through 2000, the City experienced significant private sector job growth with the addition of more than 449,000 (an average growth rate of 2.2%) new private sector jobs. Over the last seven years, the City has experienced its largest period of employment growth since the 1950s, which contrasts with the approximately 9% loss in the City's employment base during 1989-1992. As of January 2001, total employment in the City was approximately 3,712,500 compared to approximately 3,627,400 in January 2000.

The table below shows the distribution of employment from 1991 to 2000.

NEW YORK CITY EMPLOYMENT DISTRIBUTION

	Average Annual Employment (in thousands)									
	1991	1992	1993	1994	1995	1996	1997	1998	1999	2000

Note: Totals may not add due to rounding.
Source: U.S. Department of Labor, Bureau of Labor Statistics.

Unemployment

The unemployment rate of the City's resident labor force is shown in the following table. As of January 2001, the total unemployment rate in the City was 5.6% compared to 6.4% in January 2000.

ANNUAL UNEMPLOYMENT RATE(1)(2)

	1991	1992	1993	1994	1995	1996	1997	1998	1999	2000
New York City	8.7%	11.0%	10.4%	8.7%	8.2%	8.8%	9.4%	8.0%	6.7%	5.7%
United States	6.9%	7.5%	6.9%	6.1%	5.6%	5.4%	5.0%	4.5%	4.2%	4.0%

Note: Monthly and semi-annual data are not seasonally adjusted. Because these estimates are based on a sample rather than a full count of population, these data are subject to sampling error. Accordingly, small differences in the estimates over time should be interpreted with caution. The Current Population Survey includes wage and salary workers, domestic and other household workers, self-employed persons and unpaid workers who work 15 hours or more during the survey week in family businesses.

Source: U.S. Department of Labor, BLS.

- (1) Percentage of civilian labor force unemployed; excludes those persons unable to work and discouraged workers (i.e., persons not actively seeking work because they believe no suitable work is available).
- (2) Beginning in late 1992 the Current Population Survey (which provides household employment and unemployment statistics) methodology was revised for September 1992 and thereafter. As a result, the methodology used for such period differs from the methodology used for the period prior to September 1992 and, consequently, the pre-September 1992 data is inconsistent with the data for September 1992 and thereafter.

Public Assistance

The following table sets forth the number of persons receiving public assistance in the City. As of February 2001, the number of persons receiving public assistance in the City was 523,178 compared to 599,387 in February 2000.

PUBLIC ASSISTANCE(1)

(Annual Averages in Thousands)

1991	1992	1993	1994	1995	1996	1997	1998	1999	2000
896.5	976.5	1,047.3	1,116.0	1,146.8	1,055.4	940.0	812.6	713.7	618.2

- (1) Figures do not include aged, disabled or blind persons who were transferred from public assistance to the SSI program, which is primarily federally funded.

Taxable Sales

The sales tax is levied on a variety of economic activities including retail sales, utility and communication sales, services and manufacturing. The total taxable sales volume has grown steadily over the past 13 years, except for the period from 1991-1992, with a growth rate averaging over 4%.

The City is a major retail trade market with the greatest volume of retail sales of any city in the nation. Retail sales account for almost 50% of the total taxable sales volume.

The following table illustrates the volume of sales and purchases subject to the sales tax over the past ten years.

TAXABLE SALES AND PURCHASES SUBJECT TO SALES TAX
(In Billions)

<u>Year(1)</u>	<u>Retail(2)</u>	<u>Utility & Communication Sales(3)</u>	<u>Services(4)</u>	<u>Manufacturing</u>	<u>Other(5)</u>	<u>All Total</u>
1987	\$22.6	\$7.1	\$ 7.7	\$3.9	\$6.7	\$48.0
1988	23.8	7.3	8.5	3.9	7.3	50.8

- (1) The yearly data is for the period from September 1 of the year prior to the listed year through August 31 of the listed year.
- (2) Retail sales include building materials, general merchandise, food, auto dealers/gas stations, apparel, furniture, eating and drinking and miscellaneous retail.
- (3) Utility and Communication sales include electric and gas and communication.
- (4) Services include business services, hotels, personal services, auto repair and other services.
- (5) All other sales include construction, wholesale trade and others.

Population

The City has been the most populous city in the United States since 1810. The City's population is almost as large as the combined population of Los Angeles, Chicago and Houston, the three next most populous cities in the nation.

POPULATION OF NEW YORK CITY

<u>Year(1)</u>	<u>Total Population</u>
1970	7,895,563
1980	7,071,639
1990	7,321,713
2000	8,008,278

Note: Figures do not include an undetermined number of undocumented aliens.

Source: U.S. Department of Commerce, Bureau of the Census.

The following table sets forth the distribution of the City's population by age between 1980 and 1990.

**DISTRIBUTION OF POPULATION BY AGE
(In Thousands)**

<u>Age</u>	<u>1980</u>		<u>1990</u>	
		<u>% of Total</u>		<u>% of Total</u>
Under 5	471	6.7	510	7.0
5 to 17	1,295	18.3	1,177	16.1

65 and Over	952	13.4	953	13.0

Source: U.S. Department of Commerce, Bureau of the Census.

Housing

In 1999, the housing stock in the City consisted of approximately 3,039,000 housing units, excluding certain special types of units primarily in institutions such as hospitals and universities. The 1999 housing inventory represented an increase of approximately 44,000 units, or 1.5%, since 1996 and an increase of approximately 62,000 units, or 2.1% since 1993. The 1999 Housing and Vacancy Survey indicates that rental housing units predominate in the City. Of all occupied housing units in 1999, approximately 34% were conventional home-ownership units, cooperatives or condominiums and approximately 66% were rental units. The following table presents trends in the housing inventory in the City.

(1) Vacant units that are dilapidated, intended for seasonal use, held for occasional use, held for maintenance purposes or other reasons. Note: Details may not add up to totals due to rounding.

(2) Projected.

LARGEST REAL ESTATE TAXPAYERS

No single taxpayer accounts for 10% or more of the City's real property tax. For the 2001 fiscal year, the billable assessed valuation of real estate of utility corporations is \$6.3 billion. The following table presents the 40 non-utility properties having the greatest assessed valuation in the 2000 fiscal year as indicated in the tax rolls.

<u>Property</u>	<u>2001 Fiscal Year Assessed Valuation</u>	<u>Property</u>	<u>2001 Fiscal Year Assessed Valuation</u>

Report of Independent Auditors

The People of The City of New York

We have audited the general purpose financial statements of The City of New York ("City") as of and for the years ended June 30, 2000 and June 30, 1999, as listed in the accompanying index. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of the entities disclosed in Note B. Those financial statements were audited by other auditors, whose reports have been furnished to us, and our opinion on the general purpose financial statements, insofar as it relates to the amounts included for such entities, is based solely on the reports of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and reports of the other auditors, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of The City of New York as of June 30, 2000 and 1999, and the results of its operations and cash flows of its discretely presented component units for the years then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Notes A and J, respectively, the City's financial statements include TSASC, Inc., (as a blended component unit), which was created in November 1999 to purchase the City's future right, title, and interest in tobacco settlement revenues, and the Corrections Variable Supplements Fund, (as a Similar Trust Fund), which was created in December 1999.

As discussed in Note S to the general purpose financial statements, certain actuarial assumptions and methods used in the calculation of employer contributions to the actuarial pension systems for the fiscal ended June 30, 2000, were changed. In addition, as discussed in Note J, State legislation resulted in the elimination of the liability, which was previously recorded in the General Long-term Obligations Account Group for certain pension costs incurred prior to 1981.

The Water Board received capital assets of \$7.4 million for fiscal year 1999 which represents contributed capital from Primary Government.

See accompanying notes to financial statements.

THE CITY OF NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2000 AND JUNE 30, 1999

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying general purpose financial statements of The City of New York (City or primary government) are presented in conformity with generally accepted accounting principles (GAAP) for governments in the United States as prescribed by the Governmental Accounting Standards Board (GASB). The amounts shown in the "Totals —(Memorandum Only) Primary Government" and "Totals—(Memorandum Only) Reporting Entity" columns of the accompanying combined financial statements are only presented to facilitate financial analysis and are not the equivalent of consolidated financial statements.

The following is a summary of the significant accounting policies and reporting practices of the City:

Reporting Entity

The City of New York is a municipal corporation governed by the Mayor and the City Council.

The financial reporting entity consists of the primary government including the Board of Education and the community colleges of the City University of New York, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

Most component units are included in the financial reporting entity by discrete presentation. Some component units, despite being legally separate from the primary government, are so integrated with the primary government, that they are in substance part of the primary government. These component units are blended with the primary government.

Blended Component Units

These component units, although legally separate, all provide services exclusively to the City and thus are reported as if they were part of the primary government. They include the following:

Municipal Assistance Corporation For The City of New York (MAC)
New York City Transitional Finance Authority (TFA)
New York City Samurai Funding Corporation (SFC)
TSASC, Inc. (TSASC)
New York City Educational Construction Fund (ECF)
City University Construction Fund (CUCF)
New York City School Construction Authority (SCA)

Discretely Presented Component Units

All discretely presented component units are legally separate from the primary government. These entities are reported as discretely presented component units because the City appoints a majority of these organizations' boards, is able to impose its will on them, or a financial benefit/burden situation exists.

The discretely presented component unit column in the combined financial statements includes the financial data of these entities, which are reported in a separate column to emphasize that they are legally separate from the City. They include the following:

New York City Health and Hospitals Corporation (HHC)
New York City Off-Track Betting Corporation (OTB)
Housing and Economic Development Entities:

- New York City Housing Development Corporation (HDC)
- New York City Housing Authority (HA)

- New York City Industrial Development Agency (IDA)
- New York City Economic Development Corporation (EDC)
- Business Relocation Assistance Corporation (BRAC)
- Brooklyn Navy Yard Development Corporation (BNYDC)

Water And Sewer System:

- New York City Water Board (Water Board)
- New York City Municipal Water Finance Authority (Water Authority)

Note: These organizations publish separate annual financial statements which are available at: Office of the Comptroller, Bureau of Accountancy—Room 800, 1 Centre Street, New York, New York 10007.

Fiduciary Funds

These funds are used to account for assets when a governmental unit is functioning either as a trustee or an agent for another party. They include the following:

Expendable Trust Fund:

- Deferred Compensation Plan for Employees of The City of New York and Related Agencies and Instrumentalities (DCP)

Pension and Similar Trust Funds:

- New York City Employees' Retirement System (NYCERS)
- New York City Teachers' Retirement System—Qualified Pension Plan (TRS)
- New York City Board of Education Retirement System—Qualified Pension Plan (BERS)
- New York City Police Department Pension Fund—Subchapter 2 (POLICE)
- New York City Fire Department Pension Fund—Subchapter 2 (FIRE)
- New York Police Department Police Officers' Variable Supplements Fund (POVSF)
- New York Police Department Police Superior Officers' Variable Supplements Fund (PSOVSF)
- New York Fire Department Firefighters' Variable Supplements Fund (FFVSF)
- New York Fire Department Fire Officers' Variable Supplements Fund (FOVSF)
- Transit Police Officers' Variable Supplements Fund (TPOVSF)
- Transit Police Superior Officers' Variable Supplements Fund (TPSOVSF)
- Housing Police Officers' Variable Supplements Fund (HPOVSF)
- Housing Police Superior Officers' Variable Supplements Fund (HPSOVSF)
- Correction Variable Supplements Fund (CVSF)

Note: These organizations publish separate annual financial statements which are available at: Office of the Comptroller, Bureau of Accountancy—Room 800, 1 Centre Street, New York, New York 10007.

Agency Funds

Significant accounting policies and other matters concerning the financial information of these organizations are described elsewhere in the Notes to Financial Statements.

The City's operations also include those normally performed at the county level and, accordingly, transactions applicable to the operations of the five counties which comprise the City are included in these financial statements.

The New York City Transit Authority is an affiliated agency of the Metropolitan Transportation Authority of the State of New York which is a component unit of New York State and is excluded from the City's financial reporting entity.

Fund Accounting

The City uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories: governmental, fiduciary, and proprietary. Except for proprietary (the only organizations that would be categorized as proprietary funds are reported as discretely presented component units), each category, in turn, is divided into separate "fund types."

Governmental

General Fund

The General Fund is the general operating fund of the City. Substantially all tax revenues, Federal and State aid (except aid for capital projects), and other operating revenues are accounted for in the General Fund. This fund also accounts for expenditures and transfers as appropriated in the Expense Budget, which provides for the City's day-to-day operations, including transfers to Debt Service Funds for payment of long-term obligations.

Capital Projects Funds

The Capital Projects Funds account for resources used to construct or acquire fixed assets and make capital improvements. Such assets and improvements include substantially all land, buildings, equipment, water distribution and sewage collection systems, and other elements of the City's infrastructure having a minimum useful life of five years, having a cost of more than \$35,000 (minimum cost criteria increased from \$15,000 effective November 1, 1999), and having been appropriated in the Capital Budget (see Budgets). The Capital Projects Funds include the activities of the New York City Capital Projects Fund, SCA, TFA, and TSASC. Resources of the Capital Projects Funds are derived principally from proceeds of City, TFA, and TSASC bond issues, payments from the Water Authority, and from Federal, State, and other aid. The New York City Capital Projects Fund cumulative deficits of \$1.1 billion and \$936 million at June 30, 2000 and 1999, respectively, represent the amounts expected to be financed from future bond issues or intergovernmental reimbursements. To the extent the deficits will not be financed or reimbursed, a transfer from the General Fund will be required.

Debt Service Funds

The Debt Service Funds account for the accumulation of resources for payment of principal and interest on long-term obligations. Separate funds are maintained to account for transactions relating to: (i) the City's Debt Service Funds and the General Debt Service Fund required by State legislation; (ii) certain other public benefit corporations whose indebtedness has been guaranteed by the City, or with whom the City has entered into lease purchase and similar agreements; (iii) MAC, TFA, SFC, and TSASC; and (iv) ECF and CUCF as component units of the City.

ECF and CUCF are to account for governmental financial resources to pay for long-term debt consistent with the activity of the Debt Service Funds, and not for the construction of major capital projects.

Fiduciary

Trust and Agency Funds

The Trust and Agency Funds account for the assets and activities of the Expendable Trust Fund, Pension and Similar Trust Funds, and Agency Funds.

The Expendable Trust Fund accounts for the assets and activities of DCP which was created in accordance with Internal Revenue Code Section 457.

The Pension and Similar Trust Funds account for the operations of NYCERS, TRS, BERS, POLICE, and FIRE employee retirement systems, and POVSF, PSOVSF, FFVSF, FOVSF, TPOVSF, TPOVSF, HPOVSF, HPSOVSF, and CVSF. These funds use the accrual basis of accounting and a measurement focus on the periodic determination of additions, deductions, and net assets held in trust for pension benefits and supplemental benefits payments.

The Agency Funds account for miscellaneous assets held by the City for other funds, governmental units, and individuals. The Agency Funds are custodial in nature and do not involve measurement of results of operations.

Account Groups

General Fixed Assets Account Group

The General Fixed Assets Account Group accounts for those fixed assets which are used for general governmental purposes and are not available for expenditure. Such assets include all capital assets, except for the City's infrastructure elements that are not required to be capitalized under GAAP. Infrastructure elements include the roads, bridges, curbs and gutters, streets and sidewalks, park land and improvements, and subway tracks and tunnels. The fixed assets of SCA are included in the City's General Fixed Assets Account Group. The fixed assets of the water distribution and sewage collection system are recorded in the Water and Sewer System component unit financial statements under a lease agreement between the City and the Water Board.

General Long-term Obligations Account Group

The General Long-term Obligations Account Group accounts for unmatured long-term bonds payable which at maturity will be paid through the Debt Service Funds. In addition, the General Long-term Obligations Account Group includes other long-term obligations for: (i) capital leases; (ii) real estate tax refunds; (iii) judgments and claims; (iv) unpaid vacation and sick leave; (v) certain unfunded pension liabilities; and (vi) landfill closure and postclosure care costs.

Discretely Presented Component Units

The discretely presented component units consist of HHC, OTB, HDC, HA and other component units comprising the Housing and Economic Development Entities, and the Water and Sewer System. These activities are accounted for in a manner similar to private business enterprises, in which the focus is on the periodic determination of revenues, expenses, and net income.

Basis of Accounting

The accounting and financial reporting applied to a fund is determined by its measurement focus. Governmental fund types and the Expendable Trust Fund use the flow of current financial resources measurement focus. This focus is on the determination of, and changes in financial position, and generally only current assets and current liabilities are included on the balance sheet. These funds use the modified accrual basis of accounting, whereby revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the fiscal period. Expenditures are recorded when the related liability is incurred, except for interest on long-term obligations and certain estimated liabilities recorded in the General Long-term Obligations Account Group.

The measurement focus of the Pension and Similar Trust Funds and the discretely presented component units is on the flow of economic resources. This focus emphasizes the determination of net income, changes in net assets, and financial position. With this measurement focus, all assets and liabilities associated with the operation of these funds and discretely presented component units are included on the balance sheet. These funds and discretely presented component units use the accrual basis of accounting whereby revenues are recognized in the accounting period in which they are earned, and expenses are recognized in the period incurred. In accordance with GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Activities That Use Proprietary Fund Accounting*, the discretely presented component units have elected not to apply Financial Accounting Standards Board statements and interpretations issued after November 30, 1989. The Pension Trust Funds' contributions from members are recorded when the employer makes payroll deductions from Plan members. Employer contributions are recognized when due. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plans.

The Agency Funds use the modified accrual basis of accounting and do not measure the results of operations.

*Budgets and Financial Plans**Budgets*

Annual Expense Budget appropriations, which are prepared on the modified accrual basis, are adopted for the General Fund, and unused appropriations lapse at fiscal year-end. The City uses appropriations in the Capital Budget to authorize the expenditure of funds for various capital projects. Capital appropriations, unless modified or rescinded, remain in effect until the completion of each project.

The City is required by State Law to adopt and adhere to a budget, on a basis consistent with GAAP, that would not have General Fund expenditures in excess of revenues.

Expenditures made against the Expense Budget are controlled through the use of quarterly spending allotments and units of appropriation. A unit of appropriation represents a subdivision of an agency's budget and is the level of control at which expenditures may not legally exceed the appropriation. The number of units of appropriation and the span of operating responsibility which each unit represents, differs from agency to agency depending on the size of the agency and the level of control required. Transfers between units of appropriation and supplementary appropriations may be made by the Mayor subject to the approval provisions set forth in the City Charter. Supplementary appropriations increased the Expense Budget by \$3.898 million and \$2.997 million subsequent to its original adoption in fiscal years 2000 and 1999, respectively.

Financial Plans

The New York State Financial Emergency Act for The City of New York, as amended in 1978, requires the City to operate under a "rolling" Four-Year Financial Plan (Plan). Revenues and expenditures, including operating transfers, of each year of the Plan are required to be balanced on a basis consistent with GAAP. The Plan is broader in scope than the Expense Budget; it comprises General Fund revenues and expenditures, Capital Projects Fund revenues and expenditures, and all short and long-term financing.

The Expense Budget is generally consistent with the first year of the Plan and operations under the Expense Budget must reflect the aggregate limitations contained in the approved Plan. The City reviews its Plan periodically during the year and, if necessary, makes modifications to incorporate actual results and revisions to assumptions.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for expenditures are recorded to reflect the use of the applicable spending appropriations, is used by the General Fund during the fiscal year to control expenditures. The cost of those goods received and services rendered on or before June 30 are recognized as expenditures. Encumbrances not resulting in expenditures by year-end, lapse.

Cash and Investments

The City considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased, to be cash equivalents.

Cash and cash equivalents include compensating balances maintained with certain banks in lieu of payments for services rendered. The average compensating balances maintained during fiscal years 2000 and 1999 were approximately \$264 million and \$227 million, respectively.

Investments in fixed income securities are recorded at fair value. Securities purchased pursuant to agreements to resell are carried at the contract price, exclusive of interest, at which the securities will be resold.

Investments of the Expendable Trust Fund and Pension and Similar Trust Funds are reported at fair value. Investments are stated at the last reported sales price on a national securities exchange on the last business day of the fiscal year.

A description of the City's securities lending activities for the Pension and Similar Trust Funds in fiscal years 2000 and 1999 is provided in Deposits and Investments (see Note G).

Most investments are reported in the balance sheet at fair value. Investment income, including changes in the fair value of investments, is reported in operations.

Inventories

Materials and supplies are recorded as expenditures in governmental funds at the time of purchase. Accordingly, inventories on hand at June 30, 2000 and 1999 (estimated at \$210 million and \$201 million, respectively, based on average cost) have not been reported on the governmental funds balance sheets.

Restricted Cash and Investments

Certain proceeds of component unit bonds, as well as certain resources set aside for bond repayment, are classified as restricted cash and investments on the balance sheet because their use is limited by applicable bond covenants.

Fixed Assets

Fixed assets are generally stated at historical cost, or at estimated historical cost based on appraisals or on other acceptable methods when historical cost is not available. Donated fixed assets are stated at their fair market value as of the date of the donation. Capital leases are classified as fixed assets in amounts equal to the lesser of the fair market value or the present value of net minimum lease payments at the inception of the lease (see Note I).

Accumulated depreciation and amortization are reported as reductions of fixed assets. Depreciation is computed using the straight-line method based upon estimated useful lives of 40 to 50 years for buildings and 5 to 35 years for equipment. Capital lease assets and leasehold improvements are amortized over the term of the lease or the life of the asset, whichever is less.

See Notes M, N, O, and P for fixed asset accounting policies used by HHC, OTB, HA, and the Water and Sewer System, respectively.

Allowance for Uncollectible Mortgage Loans

Mortgage loans and interest receivable in the Debt Service Funds are net of an allowance for uncollectible amounts of \$742.4 million and \$737.8 million for fiscal years 2000 and 1999, respectively. The allowance is composed of the balance of first mortgages one or more years in arrears and the balance of refinanced mortgages where payments to the City are not expected to be completed for approximately 25 to 30 years.

Vacation and Sick Leave

Earned vacation and sick leave is recorded as an expenditure in the period when it is payable from current financial resources. The estimated value of vacation leave earned by employees which may be used in subsequent years or earned vacation and sick

leave paid upon termination or retirement, and therefore payable from future resources, is recorded in the General Long-term Obligations Account Group, except for leave of the employees of the discretely presented component units which is accounted for in those component unit financial statements.

Treasury Obligations

Bonds payable included in the General Long-term Obligations Account Group and investments in the Debt Service Funds are reported net of "treasury obligations." Treasury obligations represent City bonds held as investments of the Debt Service Funds which are offset and reported as if these bonds had been redeemed.

Judgments and Claims

The City is uninsured with respect to risks including, but not limited to, property damage, personal injury, and workers' compensation. Expenditures for judgments and claims (other than workers' compensation and condemnation proceedings) are recorded on the basis of settlements reached or judgments entered within the current fiscal year. Expenditures for workers' compensation are recorded when paid. Settlements relating to condemnation proceedings are reported in the Capital Projects Fund when the liability is estimable. The estimated liability for judgments and claims which have not been adjudicated, settled, or reported at the end of a fiscal year is recorded in the General Long-term Obligations Account Group. The current liability for settlements reached or judgments entered but not yet paid is recorded in the General Fund.

General Long-term Obligations

For general long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the General Long-term Obligations Account Group. Long-term liabilities expected to be financed from discretely presented component unit operations are accounted for in those component unit financial statements.

Real Estate Tax

Real estate tax payments for the fiscal year ended June 30, 2000 were due July 1, 1999 and January 1, 2000 except that payments by owners of real property assessed at \$80,000 or less and cooperatives whose individual units on average are valued at \$80,000 or less were due in quarterly installments on the first day of each quarter beginning on July 1.

The levy date for fiscal year 2000 taxes was June 7, 1999. The lien date is the date taxes are due.

Real estate tax revenue represents payments received during the year and payments received (against the current fiscal year and prior years' levies) within the first two months of the following fiscal year reduced by tax refunds.

The City offered the usual discount of 2% for the prepayment of real estate taxes for fiscal years 2001 and 2000. Collections of these real estate taxes received on or before June 30, 2000 and 1999 were \$1,576 million and \$935 million, respectively. These amounts were recorded as deferred revenue.

The City sold approximately \$65 million of real property tax liens, fully attributable to fiscal year 2000, at various dates in fiscal year 2000. As in prior year's lien sale agreements, the City will refund the value of liens later determined to be defective, plus interest and a five percent surcharge. It has been estimated that \$5.7 million worth of liens sold in fiscal year 2000 will require replacement. The estimated refund accrual amount of \$6 million, including the surcharge, results in fiscal year 2000 sale proceeds of \$59 million.

In fiscal year 2000, \$10.8 million, including the surcharge and interest, was refunded for defective liens from the fiscal year 1999 sale. This resulted in an increase to fiscal year 2000 revenue of \$3.2 million for the unused balance of the fiscal year 1999 accrual of \$14 million and increased the proceeds of the fiscal year 1999 sale to \$130.2 million up from the original fiscal year 1999 proceeds reported last year of \$127 million.

In fiscal years 2000 and 1999, \$388 million and \$376 million, respectively, were provided as allowances for uncollectible real estate taxes against the balance of the receivable. Delinquent real estate taxes receivable that are estimated to be collectible but which are not collected in the first two months of the next fiscal year are recorded as deferred revenues.

The City is permitted to levy real estate taxes for general operating purposes in an amount up to 2.5% of the average full value of taxable real estate in the City for the last five years and in unlimited amounts for the payment of principal and interest on long-term City debt. Amounts collected for payment of principal and interest on long-term debt in excess of that required for that purpose in the year of the levy must be applied towards future years' debt service. For the fiscal years ended June 30, 2000 and 1999, excess amounts of \$414 million and \$410 million, respectively, were transferred to the Debt Service Funds.

Other Taxes and Other Revenues

Taxpayer-assessed taxes, such as sales and income taxes, net of refunds, are recognized in the accounting period in which they become susceptible to accrual.

Licenses, permits, privileges and franchises, fines, and other revenues are recorded when received in cash. The City receives revenue from the Water Board for operating and maintenance costs and rental payments for use of the Water and Sewer System. These revenues are recognized when the services are provided by the City for the Water Board.

Federal, State, and Other Aid

Categorical aid, net of a provision for estimated disallowances, is reported as revenue when the related reimbursable expenditures are incurred. Unrestricted aid is reported as revenue in the fiscal year of entitlement. The City has not recognized \$178 million of prior year Board of Education claims for reimbursement from the New York State Education Department. While these revenues are measurable, they are not considered available to fund current operations based on the State's appropriation practices over the last several years.

Bond Discounts/Issuance Costs

In governmental fund types, bond discounts and issuance costs are recognized as expenditures in the period incurred. Bond discounts and issuance costs in the discretely presented component units are deferred and amortized over the term of the bonds using the bonds-outstanding method, which approximates the effective interest method. Bond discounts are presented as a reduction of the face amount of bonds payable, whereas issuance costs are recorded as deferred charges.

Transfers

Payments from a fund or discretely presented component unit receiving revenue to a fund or discretely presented component unit through which the revenue is to be expended are reported as operating transfers. Such payments include transfers for debt service, capital construction, and OTB net revenues.

Subsidies

The City makes various payments to subsidize a number of organizations which provide services to City residents. These payments are recorded as expenditures in the year paid.

Pensions

Pension cost is required to be measured and disclosed using the accrual basis of accounting (see Note S), regardless of the amount recognized as pension expense on the modified accrual basis of accounting. Annual pension cost should be equal to the annual required contributions to the pension plan, calculated in accordance with certain parameters.

Comparative Data

Comparative total data for the prior year have been presented, where appropriate, in order to provide an understanding of changes in the City's operations. Reclassifications and adjustments of certain prior year amounts have been made to conform with the current year presentation and separately issued financial statements of reported entities.

Estimates and Assumptions

A number of estimates and assumptions relating to the reporting of revenues, expenditures, assets and liabilities, and the disclosure of contingent liabilities were used to prepare these financial statements in conformity with GAAP. Actual results could differ from those estimates.

Pronouncements Issued But Not Yet Effective or Implemented

In December, 1998, GASB issued Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*. The Statement establishes accounting and financial reporting standards for nonexchange transactions involving financial or capital resources. Nonexchange transactions are those in which a government gives or receives value without directly receiving or giving equal value in return. A significant amount of the City's revenues are derived from nonexchange transactions, such as real estate, income, and sales taxes, as well as Federal, State and other categorical aid. Statement No. 33 prescribes standards primarily related to the timing of the recognition of nonexchange transactions. The City has not completed the task of estimating the effect of Statement No. 33 on all of the nonexchange transactions recorded in its financial statements. Statement No. 33 is effective for financial statement periods beginning after June 15, 2000, which would require the City to implement its requirements for its fiscal year ending June 30, 2001.

In June, 1999, GASB issued Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*. The Statement significantly changes the financial reporting model for state and local governments and will result in significant changes to the financial statements of the City. The City has not completed a detailed analysis of the impact of Statement No. 34 on its financial statements. Statement No. 34 requires government-wide financial statements to be prepared using the accrual basis of accounting and the economic resources measurement focus. Government-wide financial statements will not provide information by fund or account group, but will distinguish between the City's governmental activities and activities of its discretely presented component units on the City's statement of net assets and statement of activities. Significantly, the City's statement of net assets will include both noncurrent assets and noncurrent liabilities of the City, which are currently recorded in the General Fixed Assets Account Group and the General Long-term Obligations Account Group. In addition to the fixed assets now recorded in the General Fixed Assets Account Group, the City will be required to retroactively capitalize infrastructure assets that were acquired beginning with the City's fiscal year ended June 30, 1981. The City's government-wide statement of activities will reflect depreciation expense on the City's fixed assets, including infrastructure. If certain conditions are met, the City may use an alternative method to recording depreciation on infrastructure assets.

In addition to the government-wide financial statements, the City will be required to prepare fund financial statements. Fund financial statements will continue to use the modified accrual basis of accounting and current financial resources measurement focus. Accordingly, the accounting and financial reporting for the City's General Fund, Capital Projects Funds and Debt Service Funds will be similar to that currently presented in the City's financial statements, although the financial statements will be modified by Statement No. 34.

Statement No. 34 also requires two components of required supplementary information: Management's discussion and analysis will include an analytical overview of the City's financial activities. Budgetary comparison schedules will compare the adopted and modified general fund budget with actual results.

The City will be required to implement Statement No. 34 in fiscal year ending June 30, 2002, except that the City can delay the retroactive recording of infrastructure assets until fiscal year ending June 30, 2006. The component units currently included in the City's financial reporting entity will also be required to implement Statement No. 34 at the same time the City implements this Statement. The City is continuing the complex analysis of determining the financial statement impact of implementing Statement No. 34.

In November, 1999, GASB issued Statement No. 35, *Basic Financial Statements—and Management's Discussion and Analysis—for Public Colleges and Universities*. This Statement amends Statement No. 34 to make it applicable to public colleges and universities and is not expected to have an impact on the City's financial statements.

In April, 2000, GASB issued Statement No. 36, *Recipient Reporting for Certain Shared Nonexchange Revenues*. This Statement amends Statement No. 33 to require governments that are recipients of shared revenues that are provided by another government to account for those revenues in the same period as the provider government. This Statement is not expected to have a significant impact on the City's financial statements. It must be implemented simultaneously with Statement No. 33.

B. AUDIT RESPONSIBILITY

In fiscal years 2000 and 1999, respectively, the separately administered organizations included in the financial statements of the City audited by auditors other than KPMG LLP, are the Municipal Assistance Corporation For The City of New York, New

York City Housing Authority, New York City Economic Development Corporation, New York City Educational Construction Fund, New York City Industrial Development Agency, New York City Off-Track Betting Corporation, New York City School Construction Authority, Brooklyn Navy Yard Development Corporation, Business Relocation Assistance Corporation, City University Construction Fund, Deferred Compensation Plan, the New York City Transitional Finance Authority, and TSASC, Inc.

The following describes the proportion of certain key financial information that is audited by other auditors in fiscal years 2000 and 1999:

	Fund Types								Account Groups				Discretely Presented Component Units	
	General		Capital Projects		Debt Service		Trust and Agency		General Fixed Assets		General Long-term Obligations			
	2000	1999	2000	1999	2000	1999	2000	1999	2000	1999	2000	1999	2000	1999
Total assets/liabilities	0	0	19	19	43	41	3	3	32	30	26	21	36	22
Operating revenues and other financing sources	0	0	54	40	30	25	8	4	NA	NA	NA	NA	32	29

NA: Not Applicable

C. MUNICIPAL ASSISTANCE CORPORATION FOR THE CITY OF NEW YORK (MAC)

MAC is a corporate governmental agency and instrumentality of the State constituting a public benefit corporation. MAC was created in June, 1975 by the Municipal Assistance Corporation For The City of New York Act (Act) to assist the City in providing essential services to its inhabitants without interruption and in reestablishing investor confidence in the soundness of City obligations. Pursuant to the Act, MAC is empowered to issue and sell bonds and notes, pay or loan to the City funds received from such sales, and exchange its obligations for those of the City. Also pursuant to the Act, MAC provides certain oversight of the City's financial activities.

MAC has no taxing power. All outstanding bonds issued by MAC are general obligations of MAC and do not constitute an enforceable obligation or a debt of either the City or the State and neither the City nor the State is liable thereon. Neither the City nor a creditor of the City has any claim to MAC's revenues and assets. Debt service requirements and operating expenses are funded by allocations from the State's collection of certain sales and compensating use taxes (imposed by the State within the City at rates formerly imposed by the City), the stock transfer tax, and certain per capita aid subject in each case to appropriation by the State Legislature. Net collections of taxes and per capita aid are returned to the City by the State after MAC debt service requirements are met. The MAC bond resolutions provide for liens by bondholders on certain monies received by MAC from the State.

MAC was authorized by the Act to issue, until January 1, 1985, obligations in an aggregate principal amount of \$10 billion, of which MAC issued approximately \$9.445 billion, exclusive of obligations issued to refund outstanding obligations of MAC and of notes issued to enable the City to fulfill its seasonal borrowing requirements. In July, 1990, State legislation was enacted which, among other things, authorized MAC to issue up to an additional \$1.5 billion of bonds and notes to fund a portion of the capital programs of the New York City Transit Authority and SCA. This legislation also provides for a reduction in the July, 1990 issuance authority to the extent that the transit and schools capital programs are funded by the City. As of June 30, 1997, the City had completed funding of these programs, and MAC's additional \$1.5 billion in borrowing authority lapsed without any of it being used.

MAC continues to be authorized to issue obligations to renew or refund outstanding obligations, without limitation as to amount. No obligations of MAC may mature later than July 1, 2008. MAC may issue new obligations provided their issuance would not cause certain debt service limitations and debt service coverage ratios to be exceeded.

As indicated in Note A, MAC transactions and account balances are included in the accompanying financial statements because MAC's financing activities are considered an essential part of the City's financing activities. In order to include the financial statements of MAC with those of the City, the following eliminations were made: (i) July 1st bond redemptions and interest on bonds payable which are reflected on MAC's statements at June 30; and (ii) certain City obligations purchased by MAC (see Note J). MAC account balances and transactions are shown in the Debt Service Funds and General Long-term Obligations Account Group; revenues appropriated and paid by the State of New York to MAC are first included in General Fund revenues and then transferred to the Debt Service Funds in the fiscal year of such payments.

D. NEW YORK CITY TRANSITIONAL FINANCE AUTHORITY (TFA)

TFA is a corporate governmental agency constituting a public benefit corporation and instrumentality of the State. TFA was created in March, 1997 by the New York City Financial Authority Act (Act) to assist the City in funding its capital program, the purpose of which is to maintain, rebuild and expand the infrastructure of the City. TFA became operational in October, 1997 concurrent with its first debt offering.

TFA has no taxing power. All outstanding bonds issued by TFA are general obligations of TFA and do not constitute an enforceable obligation or a debt of either the City or the State and neither the City nor the State is liable thereon. Neither the City nor a creditor of the City has any claim to TFA's revenues and assets. Debt service requirements and operating expenses are funded by allocations from the State's collection of personal income taxes (imposed by the City and collected by the State) and, under certain circumstances, sales taxes. Sales taxes are only available to TFA after such amounts required by MAC are deducted and if the amounts of personal income tax revenues fall below statutorily specified coverage levels. Net collections of taxes not required by TFA are paid to the City by TFA. No sales tax revenues were received by TFA during fiscal year 2000.

TFA was authorized by the Act to issue obligations in an aggregate principal amount of \$11.5 billion in debt for City purposes, providing an alternative to the issuance of General Obligation Debt subject to the constitutional limitation, of which TFA issued \$1.815 billion revenue bonds and \$515 million Series 3 Bond Anticipation Notes for the fiscal year ended June 30, 2000.

TFA account balances and transactions are shown in the Capital Projects Funds, Debt Service Funds, and General Long-term Obligations Account Group.

E. NEW YORK CITY SAMURAI FUNDING CORPORATION (SFC)

The City created SFC on August 25, 1992. This is a special-purpose governmental not-for-profit entity, created to issue Yen-denominated bonds. The members, directors, and officers of SFC are all elected officials or employees of the City.

SFC issued Yen-denominated bonds to investors on May 27, 1993 and simultaneously bought general obligation bonds from the City. Such bonds require the City to make floating rate interest and principal payments in U.S. dollars to SFC. SFC entered into currency and interest rate exchange agreements to swap the City's payments into fixed rate Yen which are used to pay SFC's bondholders. These agreements limit the City's currency and exchange rate change exposure. SFC's bonds are included in the City's General Long-term Obligations Account Group. The proceeds from the City's bonds sold to SFC were used for housing and economic development projects.

F. TSASC, INC. (TSASC)

TSASC is a special purpose, local development corporation organized under the laws of the State of New York. TSASC is an instrumentality of the City, but is a separate legal entity from the City.

Pursuant to a purchase and sale agreement with the City, the City sold to TSASC all of its future right, title and interest in the tobacco settlement revenues under the Master Settlement Agreement and the Decree and Final Judgment. This settlement agreement resolved cigarette smoking-related litigation between the settling states and participating manufacturers, released the participating manufacturers from past and present smoking-related claims, and provides for a continuing release of future smoking-related claims, in exchange for certain payments to be made to the settling states, as well as certain tobacco advertising and marketing restrictions, among other things. The City is allocated a share of the tobacco settlement revenues received by New York State.

The purchase price of the City's future right, title and interest in the tobacco settlement revenues has been financed by the issuance of a series of bonds. In addition, the City is entitled to receive all amounts required to be distributed after payment of debt service, operating expenses and certain other costs as set forth in the indenture. These payments are subordinate to payments on the bonds and payment of certain other costs specified in the indenture.

The City is required to use the net proceeds of bonds for capital projects. TSASC is expecting to issue a total amount of Tobacco Flexible Amortization Bonds in the approximate principal amount of \$2.8 billion, which includes the \$709 million issued during the period from November 5, 1999 (inception) to June 30, 2000.

TSASC account balances and transactions are shown in the Capital Projects Funds, Debt Service Funds and General Long-term Obligations Account Group.

G. DEPOSITS AND INVESTMENTS*Deposits*

The City's bank depositories are designated by the Banking Commission, which consists of the Comptroller, the Mayor, and the Finance Commissioner. Independent bank rating agencies are used to determine the financial soundness of each bank, and the City's banking relationships are under periodic operational and credit reviews.

The City Charter limits the amount of deposits at any time in any one bank or trust company to a maximum of one-half of the amount of the capital and net surplus of such bank or trust company. The discretely presented component units included in the City's reporting entity maintain their own banking relationships which generally conform with the City's. Bank balances are currently insured up to \$100,000 in the aggregate by the Federal Deposit Insurance Corporation (FDIC) for each bank for all funds other than monies of the retirement systems, which are held by well-capitalized banks and are insured by the FDIC up to \$100,000 per retirement system member. At June 30, 2000 and 1999, the carrying amount of the City's cash and cash equivalents was \$1,978 million and \$799 million, respectively, and the bank balances were \$1,620 million and \$890 million, respectively. Of the bank balances, \$737 million and \$363 million, respectively, were covered by Federal depository insurance and \$883 million and \$527 million, respectively, were uninsured and collateralized with securities held by the City's agent in the City's name. At June 30, 2000 and 1999, the carrying amount of the discretely presented component units' cash and cash equivalents was \$778 million and \$634 million, respectively, and the bank balances were \$64 million and \$120 million, respectively. Of the bank balances, \$4 million and \$5 million, respectively, were covered by Federal depository insurance and \$58 million and \$111 million, respectively, were uninsured and collateralized with securities held by the City's agent in the City's name. Of the bank balances, \$2 million and \$4 million, respectively, were uninsured and uncollateralized.

The uninsured, collateralized cash balances carried during the year represent primarily the compensating balances to be maintained at banks for services provided. It is the policy of the City to invest all funds in excess of compensating balance requirements.

Investments

The City's investment of cash in its governmental fund types is currently limited to U.S. Government guaranteed securities and U.S. Government agency securities purchased directly and through repurchase agreements from primary dealers as well as commercial paper rated A1 and P1 by Standard & Poor's Corporation and Moody's Investors Service, Inc., respectively. The repurchase agreements must be collateralized by U.S. Government guaranteed securities, U.S. Government agency securities, or eligible commercial paper in a range of 100% to 103% of the matured value of the repurchase agreements.

The investment policies of the discretely presented component units included in the City's reporting entity generally conform to those of the City's. The criteria for the Pension and Similar Trust Funds' investments are as follows:

1. Fixed income investments may be made in U.S. Government securities or securities of U.S. Government agencies, securities of companies rated BBB or better by both Standard & Poor's Corporation and Moody's Investors Service, Inc., and any bond that meets the qualifications of the New York State Retirement and Social Security Law, the New York State Banking Law, and the New York City Administrative Code.
2. Equity investments may be made only in those stocks that meet the qualifications of the New York State Retirement and Social Security Law, the New York State Banking Law, and the New York City Administrative Code.
3. Short-term investments may be made in the following:
 - a. U.S. Government guaranteed securities or U.S. Government agency securities.
 - b. Commercial paper rated A1 or P1 by Standard & Poor's Corporation or Moody's Investors Service, Inc., respectively.
 - c. Repurchase agreements collateralized in a range of 100% to 103% of matured value, purchased from primary dealers of U.S. Government securities.
 - d. Investments in bankers' acceptances, certificates of deposit, and time deposits are limited to banks with world-wide assets in excess of \$50 billion that are rated within the highest categories of the leading bank rating services and selected regional banks also rated within the highest categories.
4. Investments up to 15% of total pension fund assets in instruments not specifically covered by the New York State Retirement and Social Security Law.

5. No investment in any one corporation can be: (i) more than 2% of the pension plan net assets; or (ii) more than 5% of the total outstanding issues of the corporation.

All investments are held by the City's custodial banks (in bearer or book-entry form) solely as agent of the Comptroller of The City of New York on behalf of the various account owners. Payments for purchases are not released until evidence of ownership of the underlying investments are received by the City's custodial bank.

Investments of the City and its discretely presented component units are categorized by level of credit risk (the risk that a counterparty to an investment transaction will not fulfill its obligations). Category 1, the lowest risk, includes investments that are insured or registered or for which securities are held by the entity or its agent in the entity's name. Category 2, includes investments that are uninsured and unregistered with securities held by the counterparty's trust department or agent in the entity's name. Category 3, the highest risk, includes investments that are uninsured and unregistered with securities held by the counterparty, or by its trust department or agent but not in the entity's name.

The City's investments, including those of the discretely presented component units (DPCU), as of June 30, 2000 and 1999 are classified as follows:

	2000

(1) These investments are not categorized because they are not evidenced by securities that exist in physical or book entry form.

In fiscal year 2000, the restricted cash and cash equivalents applicable to the Capital Projects Funds was \$1,346 million of which the repayment of \$1,346 million was insured or collateralized and none was uninsured and uncollateralized. There were no restricted capital investments for fiscal year 2000.

In fiscal year 2000, the restricted cash, cash equivalents, and investments applicable to discretely presented component units include \$1,089 million of cash and cash equivalents, of which the repayment of \$1,089 million was insured or collateralized and

none was uninsured and uncollateralized. Restricted investments, principally in U.S. Government securities with a cost and approximate fair value of \$196 million are fully registered with securities held by the City's agent in the entity's name of which \$64 million have maturities of three months or less.

(1) These investments are not categorized because they are not evidenced by securities that exist in physical or book entry form.

In fiscal year 1999, the restricted cash, cash equivalents, and investments applicable to the Capital Projects Funds include \$682.6 million of cash and cash equivalents, of which the repayment of \$682.6 million was insured or collateralized and none was uninsured and uncollateralized. Restricted investments, principally in U.S. Government securities with a cost and approximate fair value of \$111.5 million are fully registered with securities held by the City's agent in the entity's name of which none have maturities of three months or less.

In fiscal year 1999, the restricted cash, cash equivalents, and investments applicable to discretely presented component units include \$565 million of cash and cash equivalents, of which the repayment of \$562.6 million was insured or collateralized and \$2.4 million was uninsured and uncollateralized. Restricted investments, principally in U.S. Government securities with a cost and approximate fair value of \$870.9 million are fully registered with securities held by the City's agent in the entity's name of which \$4.9 million have maturities of three months or less.

Securities Lending

State statutes and boards of trustees policies permit the Pension and Retirement Systems and certain Variable Supplements Funds (Systems and Funds) to lend their securities (the underlying securities) to brokers-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. The Systems' and Funds' custodians lend the following types of securities: short-term securities, common stock, long-term corporate bonds, U.S. Government and U.S. Government agencies' bonds, asset-backed securities, and international equities and bonds held in collective investment funds. Securities on loan at year-end are classified as a Category 1 risk in the preceding schedule of custodial credit risk. International securities are uncatagorized. In return, they receive collateral in the form of cash at 100%—105% of the principal plus accrued interest for reinvestment. At year-end, the Systems and Funds had no credit risk exposure to borrowers because the amounts the Systems and Funds owe the borrowers exceed the amounts the borrowers owe the Systems and Funds. The contracts with the Systems' and Funds' custodian requires borrowers to indemnify the Systems and Funds if the borrowers fail to return the securities, if the collateral is inadequate, and if the borrowers fail to pay the Systems and Funds for income distributions by the securities' issuers while the securities are on loan.

All securities loans can be terminated on demand within a period specified in each agreement by either the Systems and Funds or the borrowers. Cash collateral is invested in the lending agents' short-term investment pools, which have a weighted-average maturity of 90 days. The underlying securities (fixed income) have an average maturity of 10 years except for the TRS securities lending program discussed below which has an average maturity of 5 years.

In addition, TRS administers a securities lending program for TRS and BERS Variable A investment program which is comparable to the securities lending program discussed above.

The City reports securities loaned as assets on the balance sheet. Cash received as collateral on securities lending transactions and investments made with that cash are also recorded as assets. Liabilities resulting from these transactions are reported on the balance sheet. Accordingly, the City records the investments purchased with the cash collateral as Investments, Collateral From Securities Lending Transactions with a corresponding liability as Securities Lending Transactions.

H. GENERAL FIXED ASSETS ACCOUNT GROUP

The following is a summary of changes in general fixed assets for the fiscal years ended June 30, 1999 and 2000:

	Balance June 30, 1998	Additions	Deletions	Balance June 30, 1999	Additions	Deletions	Balance June 30, 2000
	(in thousands)						
Land	\$ 635,447	\$ 13,049	\$ —	\$ 648,496	\$ 23,975	\$ —	\$ 672,471
Buildings	11,303,407	1,070,226	54,318	12,319,315	1,328,350	29,657	13,618,008
Equipment	3,257,726	77,344	1,995	3,333,075	291,829	52,601	3,572,303
Construction work-in-progress	6,398,299	1,598,257	1,070,226	6,926,330	1,387,002	1,328,350	6,984,982
	<u>21,594,879</u>	<u>2,758,876</u>	<u>1,126,539</u>	<u>23,227,216</u>	<u>3,031,156</u>	<u>1,410,608</u>	<u>24,847,764</u>
Less accumulated depreciation and amortization	<u>7,303,490</u>	<u>929,372</u>	<u>1,802</u>	<u>8,231,060</u>	<u>1,195,875</u>	<u>3,157</u>	<u>9,423,778</u>
Total changes in net fixed assets	<u>\$14,291,389</u>	<u>\$1,829,504</u>	<u>\$1,124,737</u>	<u>\$14,996,156</u>	<u>\$1,835,281</u>	<u>\$1,407,451</u>	<u>\$15,423,986</u>

The following are the sources of funding for the general fixed assets for the fiscal years ended June 30, 2000 and 1999. Sources of funding for fixed assets are not available prior to fiscal year 1987.

	2000	1999
	(in thousands)	
Capital Projects Funds:		
Prior to fiscal year 1987	\$ 6,632,113	\$ 6,714,370
City bonds	15,692,552	14,359,491
Federal grants	350,833	314,851
State grants	123,965	119,923
Private grants	49,454	48,421
Capitalized leases	1,998,847	1,670,160
Total funding sources	<u>\$24,847,764</u>	<u>\$23,227,216</u>

At June 30, 2000 and 1999, the General Fixed Assets Account Group includes approximately \$1.3 billion of City-owned assets leased for \$1 per year to the New York City Transit Authority which operates and maintains the assets. In addition, assets leased to HHC and to the Water and Sewer System are excluded from the General Fixed Assets Account Group and are recorded in the respective component unit financial statements.

Included in land and buildings at June 30, 2000 and 1999 are leased properties capitalized at \$1,999 million and \$1,670 million, respectively, with related accumulated amortization of \$196 million and \$145 million, respectively.

The City's infrastructure is not required to be capitalized in the General Fixed Assets Account Group under GAAP although the acquisition and construction of such items are expenditures of the Capital Projects Funds (see Note A). For this reason, expenditures of the Capital Projects Funds for the fiscal years ended June 30, 2000 and 1999 exceed the \$3.031 billion and \$2.759 billion increases recorded as general fixed assets by \$1.812 billion and \$2.363 billion, respectively.

I. LEASES

The City leases a significant amount of property and equipment from others. Leased property having elements of ownership is recorded in the General Fixed Assets Account Group. The related obligations, in amounts equal to the present value of minimum lease payments payable during the remaining term of the leases, are recorded in the General Long-term Obligations Account Group. Other leased property not having elements of ownership are classified as operating leases. Both capital and operating lease payments are recorded as expenditures when payable. Total expenditures on such leases for the fiscal years ended June 30, 2000 and 1999 were approximately \$425 million and \$392 million, respectively.

As of June 30, 2000, the City (excluding discretely presented component units) had future minimum payments under capital and operating leases with a remaining term in excess of one year as follows:

	Capital Leases	Operating Leases	Total
	(in thousands)		
Fiscal year ending June 30:			
2001	\$ 160,560	\$ 220,709	\$ 381,269
2002	163,816	212,870	376,686
2003	169,622	203,565	373,187
2004	170,887	200,271	371,158
2005	171,279	190,337	361,616
Thereafter until 2039	<u>2,455,449</u>	<u>1,258,566</u>	<u>3,714,015</u>
Future minimum payments	\$3,291,613	<u>\$2,286,318</u>	<u>\$5,577,931</u>
Less interest	<u>1,488,563</u>		
Present value of future minimum payments	<u>\$1,803,050</u>		

The present value of future minimum lease payments includes approximately \$1.338 billion for leases with Public Benefit Corporations (PBC) where State law generally provides that in the event the City fails to make any required lease payment, the amount of such payment will be deducted from State aid otherwise payable to the City and paid to PBC.

The City also leases City-owned property to others, primarily for markets, ports, and terminals. Total rental revenue on these operating leases for the fiscal years ended June 30, 2000 and 1999 was approximately \$139 million and \$114 million, respectively. As of June 30, 2000, the following future minimum rentals are provided for by the leases:

	<u>Amount</u> (in thousands)
Fiscal year ending June 30:	
2001	\$62,587
2002	56,851
2003	52,560
2004	47,767
2005	44,971
Thereafter until 2086	1,060,511
Future minimum rentals	<u>\$1,325,247</u>

J. LONG-TERM OBLIGATIONS

Long-term Debt

Following is a summary of the bond and note transactions of the City, MAC, TFA, TSASC, SFC, and certain public benefit corporations that are component units of the City and/or whose debt is guaranteed by the City. For information on notes and bonds payable of the discretely presented component units, see Notes M, N, O, and P.

- (1) The debt of CUCF and ECF are reported as bonds outstanding pursuant to their treatment as component units (see Note A).
- (2) Excludes \$281,009 in 1999 and \$259,901 in 2000 to be provided by the State.
- (3) Net adjustment based on allocation of debt between New York State and New York City.
- (4) Includes \$314,530 of principal debt due July 1, 2000 which MAC reports as redeemed as of June 30, 2000.
- (5) TFA debt does not include \$515 million of bond anticipation notes which are recorded in the capital projects fund.

The bonds payable, net of treasury obligations, at June 30, 2000 and 1999 summarized by type of issue are as follows:

	2000			1999		
	General Obligations	Revenue	Total	General Obligations	Revenue	Total
	(in thousands)					
Bonds payable:						
City debt	\$26,661,638	\$ —	\$26,661,638	\$27,142,323	\$ —	\$27,142,323
MAC debt	3,531,565	—	3,531,565	3,832,415	—	3,832,415
TFA debt	5,923,155	—	5,923,155	4,150,000	—	4,150,000

- (1) Includes interest estimated at 4% rate on tax-exempt adjustable rate bonds and at 6% rate on taxable adjustable rate bonds.
- (2) Interest estimated at 7% rate.

The average (weighted) interest rates for outstanding City general obligation bonds as of both June 30, 2000 and 1999 was 5.7% and ranged from 3.0% to 13.55%, respectively, and the interest rates on outstanding MAC bonds as of both June 30, 2000 and 1999 ranged from 3.75% to 6.25%. The last maturity of the outstanding City debt is in the year 2147.

In fiscal year 2000, the City issued \$66.4 million of general obligation bonds to advance refund general obligation bonds of \$79.7 million aggregate principal amount. The net proceeds from the sales of the refunding bonds, together with other funds of \$16.8 million, were irrevocably placed in escrow accounts and invested in United States Government securities. As a result of providing for the payment of the principal and interest to maturity, and any redemption premium, the advance refunded bonds are considered to be defeased and, accordingly, the liability is not reported in the General Long-term Obligations Account Group. The refunding transactions will increase the City's aggregate debt service payments by \$4.3 million but provide an economic gain of \$3.1 million. At June 30, 2000, \$8.257 billion of the City's outstanding general obligation bonds were considered defeased.

The City utilizes derivative financial instruments in connection with certain bond issues in order to reduce debt service costs. The City minimizes the interest rate risk of these instruments through hedging transactions and minimizes counterparty credit risk by dealing with high-quality counterparties.

The City has entered into a number of interest rate swap agreements to facilitate the issuance and sale of certain variable rate bonds by providing protection to the City against variable rate risk. The agreements effectively change the City's interest rate exposure on its obligation to pay fluctuating amounts of interest on floating rate debt instruments to fixed rate interest payments.

Debt instruments subject to interest rate swap agreements were: \$22.5 million Short RITES bonds, \$43.8 million indexed inverse floaters, and \$14.6 million inverse floating rate notes.

The State Constitution requires the City to pledge its full faith and credit for the payment of the principal and interest on City term and serial bonds and guaranteed debt. The general debt-incurring power of the City is limited by the Constitution to 10% of the average of five years' full valuations of taxable real estate. Excluded from this debt limitation is certain indebtedness incurred for water supply, certain obligations for transit, sewage, and other specific obligations which exclusions are based on a relationship of debt service to net revenue.

As of July 1, 2000, the 10% general limitation was approximately \$30.593 billion (compared with \$29.332 billion as of July 1, 1999). To provide for the City's capital program, TFA and TSASC were created, the debt of which is not subject to the general debt limit of the City. The debt-incurring power of TFA and TSASC has permitted the City to continue to enter into new contractual commitments. As of July 1, 2000, the combined City, TFA and TSASC remaining debt incurring power totaled \$8.489 billion, after providing for capital commitments.

Pursuant to State legislation on January 1, 1979, the City established a General Debt Service Fund administered and maintained by the State Comptroller into which payments of real estate taxes and other revenues are deposited in advance of debt service payment dates. Debt service on all City notes and bonds is paid from this Fund. In fiscal year 2000, discretionary and other transfers of \$2.509 billion were made from the General Fund to the General Debt Service Fund for fiscal year 2001 debt service. In addition, in fiscal year 2000, discretionary transfers totaling \$524 million were made to certain component units of the Debt Service Funds. In fiscal year 1999, a discretionary and other transfers of \$2.001 billion were made from the General Fund to the General Debt Service Fund for fiscal year 2000 debt service. In addition, in fiscal year 1999 discretionary transfers totaling \$424 million were made to certain component units of the Debt Service Funds.

Subsequent to June 30, 2000, the City completed the following long-term financing:

City debt: On July 6, 2000, the City sold in the public credit market its fiscal 2001 series A tax exempt general obligation bonds of \$150 million principal amount for various municipal capital purposes. On October 10, 2000 the City sold its series B and C tax exempt bonds of approximately \$403 million, tax exempt multi-modal bonds of \$100 million and taxable bonds of approximately \$85 million. The series B bonds (\$525 million) were issued for various municipal capital purposes and the series C bonds (\$63 million) for refunding purposes.

Judgments and Claims

The City is a defendant in lawsuits pertaining to material matters, including claims asserted which are incidental to performing routine governmental and other functions. This litigation includes but is not limited to: actions commenced and claims asserted against the City arising out of alleged torts; alleged breaches of contracts; alleged violations of law; and condemnation proceedings. As of June 30, 2000 and 1999, claims in excess of \$455 billion and \$458 billion, respectively, were outstanding against the City for which the City estimates its potential future liability to be \$3.6 billion and \$3.5 billion, respectively.

As explained in Note A, the estimate of the liability for unsettled claims has been reported in the General Long-term Obligations Account Group. The liability was estimated by categorizing the various claims and applying a historical average percentage, based primarily on actual settlements by type of claim during the preceding ten fiscal years, and supplemented by information provided by the New York City Law Department with respect to certain large individual claims and proceedings. The recorded liability is the City's best estimate based on available information and application of the foregoing procedures.

In February, 1997, a former New York City school principal filed an action in New York State Supreme Court challenging the investment policies and practices of the Retirement Board of the New York City Teachers' Retirement System (TRS) with regard to a component of TRS consisting of member contributions and earnings thereon known as the Variable B Fund. Plaintiff alleges that the trustees of TRS illegally maintained the Variable B Fund as a fixed-income fund and ignored a requirement that a substantial amount of the Fund's assets be invested in equity securities. The defendants are TRS and its individual trustees. Plaintiff seeks damages on behalf of all Variable B Fund participants in excess of \$250 million. In May 1999, the Appellate Division, First Department, affirmed the Supreme Court's earlier denial of the defendants' motion for summary judgement. If the plaintiff were to prevail in this action, it could result in substantial costs to the City.

In May, 1997, an action was commenced against the City in the United States District Court for the Southern District of New York by ten individuals on behalf of themselves and persons similarly situated, alleging that City correctional officers since July, 1996 had violated the constitutional rights of persons arrested for misdemeanors or non-criminal offenses by stripsearching such persons upon entry into prearrestment holding pens at the Manhattan and Queens criminal courthouses. In April, 1998, the district court granted plaintiffs' motion for class certification. The City estimates that there are approximately 65,000 persons in the class. While the class action is in its preliminary stages and the potential cost to the City of adverse determinations of liability and damages in the action cannot be determined at this time, any such adverse determinations could result in substantial costs to the City.

In addition to the above claims and proceedings, numerous real estate tax certiorari proceedings are presently pending against the City on grounds of alleged overvaluation, inequality, and illegality of assessment. In response to these actions, in December, 1981, State legislation was enacted which, among other things, authorizes the City to assess real property according to four classes and makes certain evidentiary changes in real estate tax certiorari proceedings. Based on historical settlement activity, the City estimates its potential liability for outstanding certiorari proceedings to be \$540 million as reported in the General Long-term Obligations Account Group.

Pension Liability

The City's pension liability as of June 30, 1999 resulted from a statutory change in the timing of the City's contribution to its pension plans. Prior to fiscal year 1981, the City's pension contribution reflected pension costs incurred two years earlier and a phase-in of certain actuarial assumptions. The City's liability was originally amortized over 40 years. Later legislation reduced the amortization period to 20 years. As of June 30, 1999, the remaining amortization period was 11 years. In accordance with Chapter 85 of the New York State Laws of 2000, enacted on June 24, 2000, as part of a number of changes to actuarial assumptions and methods (see Note S), this liability is no longer being funded separately as part of actuarially-determined pension contributions and a liability on the part of the City separate from its actuarially-determined pension contributions no longer exists. Accordingly, the amount of the recorded liability was decreased to zero as of June 30, 2000. For actuarial purposes, the liability was eliminated for the purpose of calculating fiscal year 2000 pension contributions.

Landfill Closure and Postclosure Care Costs

The City's only active landfill available for waste disposal is the Fresh Kills landfill. A portion of the total estimated current cost of the closure and postclosure care is to be recognized as an expense and as a liability in each period the landfill accepts solid waste. For governmental funds, the measurement and recognition of the accrued liability for closure and postclosure care is based on total estimated current cost and landfill usage to date. Expenditures and fund liabilities are recognized using the modified accrual basis of accounting. The remainder of the liability is reported in the General Long-term Obligations Account Group.

Upon the landfill becoming inactive, the City is required by Federal and State law to close the landfill, including final cover, stormwater management, landfill gas control, and to provide postclosure care for a period of 30 years following closure. The City is also required under Consent Order with the New York State Department of Environmental Conservation to conduct certain corrective measures associated with the landfill. The corrective measures include construction and operation of a leachate mitigation system for the active portions of the landfill as well as closure, postclosure, and groundwater monitoring activities for the sections no longer accepting solid waste.

The liability for these activities as of June 30, 2000 is \$877.8 million based on the cumulative landfill capacity used to date. The total estimated current cost is \$890.9 million; therefore, the costs remaining to be recognized are \$13.1 million. During fiscal year 1996, New York State legislation was enacted which states that no waste will be accepted at the Fresh Kills landfill on or after January 1, 2002. Accordingly, the liability for closure and postclosure care costs is based upon an effective cumulative landfill capacity used to date of approximately 98%. Cost estimates are based on current data including contracts awarded by the City, contract bids, and engineering studies. These estimates are subject to adjustment for inflation and to account for any changes in landfill conditions, regulatory requirements, technologies, or cost estimates.

During fiscal year 2000, expenditures for landfill closing costs totaling \$14.5 million were recorded in the General Fund.

Resource Conservation and Recovery Act Subtitle D Part 258, which became effective April, 1997, requires financial assurance regarding closure and postclosure care. This assurance was most recently provided, on March 31, 2000, by the City's Chief Financial Officer placing in the Fresh Kills Landfill operating record representations in satisfaction of the Local Government Financial Test.

The City has five inactive hazardous waste sites not covered by the EPA rule. The City has included the long-term portion of these postclosure care costs in the General Long-term Obligations Account Group.

The following represents the City's total landfill and hazardous waste sites liability which is recorded in the General Long-term Obligations Account Group:

	<u>Amount</u> (in thousands)
Landfill	\$ 877,812
Hazardous waste sites	207,466
Total landfill and hazardous waste sites liability	<u>\$1,085,278</u>

Changes In Certain Long-term Obligations

In fiscal years 1999 and 2000, the changes in long-term obligations other than for bonds were as follows:

	Balance June 30, 1998	Additions	Deletions	Balance June 30, 1999 <small>(in thousands)</small>	Additions	Deletions	Balance June 30, 2000

M. NEW YORK CITY HEALTH AND HOSPITALS CORPORATION (HHC)*General*

HHC, a public benefit corporation, assumed responsibility for the operation of the City's municipal hospital system in 1970. HHC's financial statements include the accounts of HHC and its wholly-owned subsidiaries, Metroplus Health Plan, Inc. and HHC Capital Corporation. All significant intercompany accounts and transactions have been eliminated.

The City provides funds to HHC for care given to uninsured indigent patients, members of the uniformed services and prisoners, and for other costs not covered by other payors. The City's Annual Expense Budget determines the support to HHC on a cash-flow basis. In addition, the City has paid HHC's costs for settlements of claims for medical malpractice, negligence, and other miscellaneous torts and contracts, as well as other HHC costs including utilities expense, City debt which funded HHC capital acquisitions, and New York State Housing Finance Agency (HFA) debt on HHC assets acquired through lease purchase agreements. HHC reimburses the City for these debt payments. HHC records both a revenue and an expense in an amount equal to expenditures made on its behalf by the City.

Revenues

Patient service accounts receivable and revenues are reported at estimated collectible amounts. Substantially all direct patient service revenue is derived from third-party payors. Generally, revenues from these sources are based upon cost reimbursement principles and are subject to routine audit by applicable payors. HHC records adjustments resulting from audits and from appeals when the amount is reasonably determinable.

Fund Accounting

HHC maintains separate accounts in its financial records to assure compliance with specific restrictions imposed by the City and other grantors or contributors.

Plant and Equipment

All facilities and equipment are leased from the City at \$1 per year. In addition, HHC operates certain facilities which are financed by HFA and leased to the City on behalf of HHC. HHC records as revenue and as expense the interest portion of such lease purchase obligations paid by the City. Because HHC is responsible for the control and maintenance of all plant and equipment, and because depreciation is a significant cost of operations, HHC capitalizes plant and equipment at cost or estimated cost based on appraisals. Depreciation is computed on a straight-line basis using estimated useful lives based on American Hospital Association guidelines. As a result of modernizing programs and changes in service requirements, HHC has closed facilities and portions of facilities during the past several years. It is the policy of HHC to reflect the financial effect of the closing of facilities or portions thereof in the financial statements when a decision has been made as to the disposition of such assets. HHC records the cost of construction that it controls as costs are incurred. Costs associated with facilities constructed by HFA are recorded when the facilities are placed in service.

Donor Restricted Assets

Contributions which are restricted as to use are recorded as donor restricted funds.

Pensions

Substantially all HHC employees are eligible to participate in NYCERS (see Note S). The provisions for pension costs were actuarially determined and amounted to \$9 million and \$7 million for fiscal years 2000 and 1999, respectively. These amounts were fully funded.

HHC's pension liability as of June 30, 1999 resulted from a statutory change in the timing of HHC's contribution to its pension plan. Prior to fiscal year 1981, HHC's pension contribution reflected pension costs incurred two years earlier and a phase-in of certain actuarial assumptions. In accordance with Chapter 85 of the New York State Laws of 2000, enacted on June 24, 2000, as part of a number of changes to actuarial assumptions and methods (see Note S), this liability is no longer being funded separately as part of an actuarially-determined pension contribution and a liability on the part of HHC separate from its actuarially-determined pension contribution no longer exists. Accordingly, this liability was decreased to zero as of June 30, 2000 resulting in a \$93.3 million increase in nonoperating revenues for the fiscal year ended June 30, 2000.

Affiliated Institution Expenses

Affiliated institution expenses represent contractual expenses incurred by affiliated institutions and charged to HHC for participation in patient service programs at HHC's facilities.

Debt Service

In fiscal year 1999, HHC issued Series A Health Systems bonds in the amount of \$236 million for the purpose of advance refunding \$218 million of HHC's 1993 Series A Bonds. Although the advance refunding resulted in an accounting loss of \$19 million, HHC reduced its debt service payments by approximately \$12.9 million, resulting in an economic gain of \$10.6 million. The accounting loss is being amortized over 20 years.

The following table summarizes future debt service requirements as of June 30, 2000:

	<u>Principal</u>	<u>Interest</u> (in thousands)	<u>Total</u>
Fiscal year ending June 30:			
2001	\$ 17,330	\$ 40,867	\$ 58,197
2002	18,075	40,032	58,107
2003	18,960	39,150	58,110
2004	19,890	38,212	58,102
2005	20,960	37,216	58,176
Thereafter until 2026	718,144	415,955	1,134,099
Total future debt service requirements	<u>\$813,359</u>	<u>\$611,432</u>	<u>\$1,424,791</u>

The interest rates on the bonds as of June 30, 2000 range from 4.1% to 6.0%.

The following is a summary of revenue bond transactions for HHC for the fiscal years ended June 30, 1999 and 2000:

	<u>Balance June 30, 1998</u>	<u>Issued</u>	<u>Defeased or Retired</u>	<u>Balance June 30, 1999</u>	<u>Issued</u>	<u>Defeased or Retired</u>	<u>Balance June 30, 2000</u>
	(in thousands)						
Revenue bonds	\$827,610	\$235,700	\$233,330	\$829,980	\$ —	\$16,621	\$813,359

Installment Note Payable

HHC issued a secured 8-year installment note payable with an 8% rate of interest. The following table summarizes future debt service requirements as of June 30, 2000:

	<u>Principal</u>	<u>Interest</u> (in thousands)	<u>Total</u>
Fiscal year ending June 30:			
2001	\$420	\$56	\$476
2002	456	20	476
Total future debt service requirements	<u>\$876</u>	<u>\$76</u>	<u>\$952</u>

Capital Lease Obligations

HHC entered into a long-term agreement which involves the construction of a parking garage at Elmhurst Hospital Center. As of June 30, 2000, the future minimum lease payments under the capitalized lease are as follows:

	<u>Amount</u> (in thousands)
Fiscal year ending June 30:	
2001	\$ 982
2002	978
2003	1,003
2004	10,547
2005	100
Thereafter until 2013	775
Future minimum lease payments	14,385
Less interest	2,555
Present value of future minimum lease payments	<u>\$11,830</u>

New York Power Authority (NYPA) Financing

NYPA has provided construction services and financing to HHC for energy-efficient heating/cooling systems and lighting improvements. In fiscal year 1999, NYPA completed projects amounting to \$11.7 million at variable interest rates over 10 years. The effective interest rate for fiscal year 2000 was approximately 3.6%.

The following table summarizes future debt service requirements as of June 30, 2000:

	<u>Principal</u>	<u>Interest</u> (in thousands)	<u>Total</u>
Fiscal year ending June 30:			
2001	\$1,148	\$ 325	\$ 1,473
2002	1,124	281	1,405
2003	1,132	239	1,371
2004	1,175	196	1,371
2005	1,219	152	1,371
Thereafter until 2009	<u>3,445</u>	<u>180</u>	<u>3,625</u>
Total future debt service requirements	<u>\$9,243</u>	<u>\$1,373</u>	<u>\$10,616</u>

Equipment Financing Agreement

HHC entered into an equipment financing agreement that allows HHC to borrow up to \$50 million to primarily fund the purchase of patient information systems. In fiscal year 1998, HHC drew down \$11.6 million with a 5.19% rate of interest.

The following table summarizes future debt service requirements as of June 30, 2000:

	<u>Principal</u>	<u>Interest</u> (in thousands)	<u>Total</u>
Fiscal year ending June 30:			
2001	\$2,336	\$304	\$2,640
2002	2,460	180	2,640
2003	1,929	50	1,979
Total future debt service requirements	<u>\$6,725</u>	<u>\$534</u>	<u>\$7,259</u>

Changes in Fund Equity

Presented below are the changes in fund equity for the fiscal years ended June 30, 1999 and 2000:

	<u>Unreserved Retained Earnings</u>	<u>Contributed Capital Plant and Equipment</u>	<u>Reserve for Donor Restrictions</u>	<u>Total Fund Equity</u>

N. NEW YORK CITY OFF-TRACK BETTING CORPORATION (OTB)

General

OTB was established in 1970 as a public benefit corporation to operate a system of off-track betting in the City. OTB earns: (i) revenues on its betting operations ranging between 15% and 31% of wagers handled, depending on the type of wager; (ii) a 5% surcharge and surcharge breakage on pari-mutuel winnings; (iii) a 1% surcharge on multiple, exotic, and super exotic wagering pools; and (iv) breakage, the revenue resulting from the rounding down of winning payoffs. Pursuant to State law, OTB: (i) distributes various portions of the surcharge and surcharge breakage to other localities in the State; (ii) allocates various percentages of wagers handled to the racing industry; (iii) allocates various percentages of wagers handled and breakage together with all uncashed pari-mutuel tickets to the State; and (iv) allocates the 1% surcharge on exotic wagering pools for the financing of capital acquisitions. All remaining net revenue is distributable to the City. In addition, OTB acts as a collection agent for the City with respect to surcharge and surcharge breakage due from other community off-track betting corporations.

OTB had a cumulative deficit of \$4.7 million after providing for mandatory transfers in fiscal year 1999. In fiscal year 2000, OTB has a cumulative unreserved fund equity of \$4.1 million after providing for mandatory transfers.

Net Revenue Retained for Capital Acquisitions

For the fiscal years ended June 30, 2000 and 1999, the changes in net revenue retained for capital acquisition were as follows:

	<u>2000</u>	<u>1999</u>
	(in thousands)	
Balance, June 30	\$19,015	\$19,764
Capital acquisition surcharge	3,758	3,550
Depreciation of assets purchased with funds restricted for capital acquisition	<u>(5,156)</u>	<u>(4,299)</u>
Balance, June 30	<u>\$17,617</u>	<u>\$19,015</u>

Since inception of the capital acquisition surcharge at July 21, 1990, surcharges of approximately \$39.3 million have been collected and approximately \$38.8 million has been used to finance leasehold improvements and the acquisition of property and equipment through June 30, 2000.

Property and Equipment

Property and equipment are recorded at cost. Depreciation and amortization are computed using the straight-line method based upon estimated useful lives ranging from 3 to 15 years. Leasehold improvements are amortized principally over the term of the lease.

Rental expense, including escalation charges for leased property was approximately \$14 million for both fiscal years 2000 and 1999. As of June 30, 2000, OTB had future minimum rental obligations on noncancelable operating leases as follows:

	<u>Amount</u>
	(in thousands)
Fiscal year ending June 30:	
2001	\$12,241
2002	11,012
2003	10,326
2004	9,472
2005	8,463
Thereafter until 2015	<u>27,491</u>
Total future minimum rental obligations	<u>\$79,005</u>

Pensions

Substantially all full-time employees of OTB are members of NYCERS (see Note S). The provisions for pension costs were actuarially determined and amounted to approximately \$.4 million and \$.5 million for fiscal years 2000 and 1999, respectively. These amounts were fully funded.

OTB's pension liability as of June 30, 1999 resulted from a statutory change in the timing of OTB's contribution to its pension plan. Prior to fiscal year 1981, OTB's pension contribution reflected pension costs incurred two years earlier and a phase-in of certain actuarial assumptions. In accordance with Chapter 85 of the New York State Laws of 2000, enacted on June 24, 2000, as part of a number of changes to actuarial assumptions and methods (see Note S), this liability is no longer being funded separately as part of an actuarially-determined pension contribution and a liability on the part of OTB separate from its actuarially-determined pension contribution no longer exists. Accordingly, this liability was decreased to zero as of June 30, 2000 resulting in a \$6.3 million increase in net revenue available for distributions for the fiscal year ended June 30, 2000.

O. HOUSING AND ECONOMIC DEVELOPMENT ENTITIES

General

The Housing and Economic Development Entities are comprised of the New York City Housing Development Corporation (HDC), the New York City Housing Authority (HA), the New York City Industrial Development Agency (IDA), the New York City Economic Development Corporation (EDC), the Business Relocation Assistance Corporation (BRAC), and the Brooklyn Navy Yard Development Corporation (BNYDC), the largest of which are HDC and HA.

HDC

HDC was established in 1971 to encourage private housing development by providing low interest mortgage loans. The combined financial statements include the accounts of HDC and its wholly-owned subsidiaries, Housing Assistance Corporation, Housing New York Corporation, and the New York City Residential Mortgage Insurance Corporation. HDC finances multiple dwelling mortgages substantially through issuance of HDC bonds and notes, and also acts as an intermediary for the sale and refinancing of certain City multiple dwelling mortgages. HDC has a fiscal year ending October 31.

HDC is authorized to issue bonds and notes for any corporate purpose in a principal amount outstanding, exclusive of refunding bonds and notes, not to exceed \$2.8 billion and certain other limitations.

HDC is supported by service fees, investment income, and interest charged to mortgagors and has been self-sustaining. Mortgage loans are carried at cost. Mortgage loan interest income, fees, charges, and interest expense are recognized on the accrual basis. HDC maintains separate funds in its financial records to assure compliance with specific restrictions of its various bond and note resolutions.

Substantially all HDC employees are eligible to participate in NYCERS (see Note S). The provisions for pension costs were actuarially computed, determined, and funded by HDC.

The future debt service requirements on HDC bonds and notes payable at October 31, 1999 were as follows:

	<u>Principal</u>	<u>Interest</u> (in thousands)	<u>Total</u>
Fiscal year ending October 31:			
2000	\$ 32,906	\$ 128,448	\$ 161,354
2001	37,335	127,423	164,758
2002	43,428	125,322	168,750
2003	55,828	122,686	178,514
2004	64,021	119,503	183,524
Thereafter until 2037	<u>2,372,294</u>	<u>1,608,938</u>	<u>3,981,232</u>
Total future debt service requirements	<u>\$2,605,812</u>	<u>\$2,232,320</u>	<u>\$4,838,132</u>

The bonds and notes will be repaid from assets and future earnings of the assets. The interest rates on the bonds and notes as of October 31, 1999 range from 1.4% to 8.95%.

The following is a summary of bond transactions of HDC for the fiscal years ended October 31, 1998 and 1999:

	<u>Balance</u> <u>October 31,</u> <u>1997</u>	<u>Issued</u>	<u>Retired</u>	<u>Balance</u> <u>October 31,</u> <u>1998</u>	<u>Issued</u>	<u>Retired</u>	<u>Balance</u> <u>October 31,</u> <u>1999</u>
				(in thousands)			
Revenue bonds	\$2,547,212	\$298,670	\$414,423	\$2,431,459	\$511,330	\$336,977	\$2,605,812

HA

HA is a public benefit corporation chartered under the New York State Public Housing Law. HA develops, constructs, manages, and maintains low cost housing for eligible low income families in The City of New York. At December 31, 1999, HA maintained 346 developments encompassing approximately 181,000 units. HA also maintains a leased housing program which provides housing assistance payments to approximately 76,000 families.

Substantial operating losses (the difference between operating revenues and expenses) result from the essential services that HA provides, and such operating losses will continue in the foreseeable future. To meet the funding requirements of these operating losses, HA receives subsidies from: (a) the Federal government primarily the U.S. Department of Housing and Urban Development (HUD) in the form of annual grants for operating assistance, debt service payments, contributions for capital and reimbursement of expenditures incurred for certain Federal housing programs; (b) New York State in the form of operating assistance, reimbursement of certain expenses, and debt service payments; and (c) New York City in the form of operating assistance, reimbursement of certain housing police costs prior to May 1, 1995, and debt service payments. Subsidies are established through budgetary procedures which establish amounts to be funded by the grantor agencies. Projected operating income or loss amounts are budgeted on an annual basis and approved by the grantor agency. Expected variances from budgeted amounts are communicated to the agency during periodic budget revisions, as any revisions to previously approved budgets must be agreed to by the grantor. HA has a calendar year-end.

Revenue

Rents are due from tenants on the first day of each month. Receivable balances primarily consist of rents past due and vacated tenants. An allowance for doubtful accounts is established to provide for all accounts which may not be collected in the future for any reason. At December 31, 1999 and 1998, tenant accounts receivable approximated \$21.8 million and \$31.7 million, respectively, with related allowances of \$14.4 million and \$27.6 million, respectively.

HA receives Federal financial assistance from HUD in the form of annual contributions for debt service and operating subsidies for public housing projects, as well as rent subsidies for the Section 8 Housing Assistance Payments Program (HAP). In addition, assistance is also received under HUD's Public Housing Development Programs, Comprehensive Grant Program, Comprehensive Improvement Assistance Program, and other programs.

HA also receives Federal assistance from the U.S. Department of Agriculture for child and adult care food and summer food service programs.

HA receives financial assistance from the Department of Housing Preservation and Development (HPD), a City of New York agency. HPD receives these funds from HUD based on certain criteria (e.g., population, poverty, and extent of overcrowded housing in the area applying for funds).

HA also receives assistance from New York State and The City of New York in the form of operating subsidies for public housing projects and annual contributions for debt service and capital.

Land, Structures, and Equipment

Land, structures, and equipment are recorded at cost which is comprised of initial project development costs, property betterments and additions, and modernization program costs. HA depreciates these assets over their estimated useful lives (buildings—40 years, capital improvements—10 to 30 years, and equipment—5 to 15 years) using the straight-line method of depreciation. Land, structures, and equipment, including modernization costs, are generally funded through grant awards (for Federal, State, and City programs). A summary of costs at December 31, 1999 and 1998 is as follows:

	<u>1999</u>	<u>1998</u>
	(in thousands)	
Land	\$ 691,415	\$ 695,570
Buildings	3,188,050	3,188,432
Capital improvements	3,410,180	3,006,134
Equipment	364,221	303,803
	<u>7,653,866</u>	<u>7,193,939</u>
Accumulated depreciation	(3,611,154)	(3,368,807)
Land, structures, and equipment—net	<u>\$ 4,042,712</u>	<u>\$ 3,825,132</u>

Debt Service

The future debt service requirements on HA bonds and notes at December 31, 1999 were as follows:

	<u>Principal</u>	<u>Interest</u> (in thousands)	<u>Total</u>
Calendar year ending December 31:			
2000	\$ 11,695	\$ 5,884	\$ 17,579
2001	11,864	5,420	17,284
2002	12,050	4,944	16,994
2003	12,241	4,470	16,711
2004	11,345	4,005	15,350
Thereafter until 2024	<u>102,492</u>	<u>20,060</u>	<u>122,552</u>
Total future debt service requirements	<u>\$161,687</u>	<u>\$44,783</u>	<u>\$206,470</u>

Interest rates on outstanding bonds and notes as of December 31, 1999 and 1998 range from 1.0% to 7.0%. During calendar years 1999 and 1998, principal repayments totaled \$55.8 million and \$58.5 million, respectively.

Advance Notes—HUD

Advance Notes—HUD at December 31, 1999 and 1998 consist of the following:

	<u>1999</u>	<u>1998</u>
	(in thousands)	
Unsubsidized improvement notes	\$ 6,262	\$ 12,524
Modernization and development notes	—	990,039
Total advance notes—HUD	<u>\$ 6,262</u>	<u>\$1,002,563</u>

Through 1985, HA funded development projects by issuing Advance Notes which generally matured in less than one year and were refinanced at market rates upon maturity. Principal and interest payments were financed by funds provided by HUD through accruing annual contributions.

In 1985, the U.S. Treasury purchased all then-outstanding Advance Notes. Subsequently, additional Advance Notes were issued by HUD to fund development and modernization projects. In April, 1986, HUD ceased funding the debt service on all Advance Notes. Therefore, principal and interest have not been paid since that date.

Through December 31, 1998, HA continued to accrue interest for a portion of the Advance Notes at the contractual rates in accordance with HUD guidelines. Accrued interest relating to these notes at December 31, 1998 was \$434.2 million. Interest expense of \$17.4 million is included in the statements of operations and equity for the year ended December 31, 1998, but no subsidy is reflected since HUD does not fund, and HA has not been required to pay, the interest on the Advance Notes.

Effective with the calendar year 1999 financial statements, HUD authorized the reclassification of HUD guaranteed debt and HUD held debt to equity. At December 31, 1999, the Advance Notes and accrued interest transferred to equity totaled \$990.0 million and \$434.2 million, respectively.

Accrued interest includes interest of \$132 thousand and \$341 thousand relating to Unsubsidized Improvement Notes at both December 31, 1999 and 1998, respectively. The notes which are currently held by HUD, were used to finance capital improvements and rehabilitations at various projects and are being repaid from commercial rents and State maximum subsidy funds. Related interest expense of \$.8 million and \$1.4 million was included in the statements of operations and equity for the calendar years ended December 31, 1999 and 1998, respectively.

Pensions

HA employees are members of NYCERS (see Note S). The calendar years 1999 and 1998 pension costs reported in the financial statements amounted to \$4.9 million and \$2.8 million, respectively. The calendar year 1998 costs were decreased by \$1.1 million, representing a reduction in calendar year 1997 pension costs which was received during calendar year 1998.

Changes in Fund Equity

Presented below are the changes in fund equity for the calendar years ended December 31, 1998 and 1999:

	<u>Unreserved</u>	<u>Cumulative Contributions (in thousands)</u>	<u>Total</u>
Balance, December 31, 1997	\$ 136,328	\$ 1,742,332	\$ 1,878,660
Net deficit	(44,477)	—	(44,477)
Allocation of depreciation to cumulative contributions	223,051	(223,051)	—
Contributions for capital	—	556,137	556,137
Balance, December 31, 1998	<u>314,902</u>	<u>2,075,418</u>	<u>2,390,320</u>
Net deficit	(181,242)	—	(181,242)
Allocation of depreciation to cumulative contributions	242,347	(242,347)	—
Contributions for capital	—	2,289,280	2,289,280
Balance, December 31, 1999	<u>\$ 376,007</u>	<u>\$ 4,122,351</u>	<u>\$ 4,498,358</u>

Cumulative Contributions

This account represents the cumulative amount of subsidies received to fund annual operating deficits and interest expense, and contributions made available to HA for capital expenditures associated with modernization and improvements of public housing and the payment of debt service.

Commitments

HA rents office space under operating leases which expire at various dates. Future minimum lease commitments under these leases as of December 31, 1999 are as follows:

	<u>Amount (in thousands)</u>
Calendar year ending December 31:	
2000	\$ 23,997
2001	23,444
2002	23,337
2003	22,562
2004	21,105
Thereafter until 2020	<u>319,494</u>
Total future minimum lease commitments ..	<u>\$433,939</u>

Rental expense approximated \$15.8 million and \$11.7 million for the calendar years ended December 31, 1999 and 1998, respectively.

BNYDC

BNYDC issued a note payable for \$85,000, due 2008, \$6,500 maturing annually.

Leases

BNYDC has lease commitments from commercial tenants for space at the Navy Yard. Total rental revenue on these lease commitments for the fiscal years ended June 30, 2000 and 1999 was approximately \$9.0 million and \$8.6 million, respectively. As of June 30, 2000, the following future minimum rentals are provided for by the leases:

	<u>Amount</u> (in thousands)
Fiscal year ending June 30:	
2001	\$ 9,800
2002	10,275
2003	10,790
2004	11,325
2005	11,900
Thereafter until 2040	34,125
Total future minimum rentals	<u>88,215</u>

P. WATER AND SEWER SYSTEM

General

The Water and Sewer System, consisting of two legally separate and independent entities, the New York City Water Board (Water Board) and the New York City Municipal Water Finance Authority (Water Authority), was established on July 1, 1985. The Water and Sewer System provides for water supply and distribution, and sewage collection, treatment, and disposal for the City. The Water Authority was established to issue debt to finance the cost of capital improvements to the water distribution and sewage collection system. The Water Board was established to lease the water distribution and sewage collection system from the City and to establish and collect fees, rates, rents, and other service charges for services furnished by the system to produce cash sufficient to pay debt service on the Water Authority's bonds and to place the Water and Sewer System on a self-sustaining basis.

Under the terms of the Water and Sewer System General Revenue Bond Resolution, which covers all outstanding bonds of the Water Authority, operations are required to be balanced on a cash basis. At June 30, 2000 and 1999, the Water Authority has a cumulative deficit of \$3,369 million and \$2,959 million, respectively, which is more than offset by a surplus in the Water Board.

Financing Agreement

As of July 1, 1985, the City, the Water Board, and the Water Authority entered into a Financing Agreement. The Agreement, as amended, provides that the Water Authority will issue bonds to finance the cost of capital investment in the water distribution and sewage collection system serving the City. It also sets forth the funding of the debt service costs of the Water Authority, operating costs of the water distribution and sewage collection system, and the rental payment to the City.

Lease Agreement

As of July 1, 1985, the City entered into a long-term lease with the Water Board which leased all the water and sewer related real and personal property valued at historical cost, net of depreciation and all work-in-progress, at cost, to the Water Board for the term of the lease. The City administers, operates, and maintains the water distribution and sewage collection system. The lease provides for payments to the City to cover the City's cost for operation and maintenance, capital costs not otherwise reimbursed, rent, and for other services provided.

Contributed Capital

City financed additions for the fiscal years ended June 30, 2000 and 1999 amounted to \$5.6 million and \$7.4 million, respectively, and are recorded by the Water Board as contributed capital.

Utility Plant-in-Service

All additions to utility plant-in-service are recorded at cost. Depreciation is computed on all utility plant-in-service using the straight-line method based upon estimated useful lives as follows:

	<u>Years</u>
Buildings	40-50
Water supply and wastewater treatment system	15-50
Water distribution and sewage collection system	15-75
Equipment	5-35

Depreciation on contributed utility plant-in-service is allocated to contributed capital after the computation of net income.

Debt Service

The following table summarizes future debt service requirements as of June 30, 2000:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
	(in thousands)		
Fiscal year ending June 30:			
2001	\$ 358,575	\$ 502,993	\$ 861,568
2002	170,492	494,438	664,930
2003	181,986	485,498	667,484
2004	191,875	475,924	667,799
2005	208,869	465,656	674,525
Thereafter until 2031	8,664,575	6,879,880	15,544,455
Total future debt service requirements	<u>\$9,776,372</u>	<u>\$9,304,389</u>	<u>\$19,080,761</u>

The interest rates on the outstanding bonds and commercial paper as of June 30, 2000 and 1999 range from 3.95% to 5.00% and from 3.10% to 7.90%, respectively.

The following is a summary of bond and commercial paper transactions of the Water Authority for the fiscal years ended June 30, 1999 and 2000:

	<u>Balance June 30, 1998</u>	<u>Issued</u>	<u>Defeased or Retired</u>	<u>Balance June 30, 1999</u>	<u>Issued</u>	<u>Defeased or Retired</u>	<u>Balance June 30, 2000</u>
	(in thousands)						
Revenue bonds	\$8,281,006	\$ 865,601	\$ 374,897	\$8,771,710	\$1,006,455	\$ 201,793	\$9,576,372
Commercial paper	600,000	6,408,500	6,408,500	600,000	4,712,400	5,112,400	200,000
Total summary of bond and commercial paper transactions	<u>\$8,881,006</u>	<u>\$7,274,101</u>	<u>\$6,783,397</u>	<u>\$9,371,710</u>	<u>\$5,718,855</u>	<u>\$5,314,193</u>	<u>\$9,776,372</u>

During fiscal year 2000, the Water Authority used \$40 million of current revenues to advance refund long-term debt. The advance refunding resulted in an accounting gain of \$.7 million and an economic gain of \$1.8 million.

For fiscal years 2000 and 1999, amortization expense of \$16.4 million and \$19.0 million, respectively, was incurred to amortize prior years' losses on advance refundings.

During prior fiscal years, the Water Authority defeased in substance \$4,087 million of revenue bonds. As of June 30, 2000, \$2,702 million of the defeased bonds have been retired from the assets of the escrow accounts.

In prior years, the Water Authority has issued obligations involving the concurrent issuance of long-term variable rate securities that are matched with long-term floating securities. These obligations when taken together as a whole, yield a fixed rate of interest at all times. These securities have been issued to achieve a lower prevailing fixed rate of interest in relation to traditional fixed rate bonds.

Restricted Assets

Proceeds from the issuance of debt and funds set aside for the operation and maintenance of the water distribution and sewage collection system are classified as restricted assets since their use is limited by applicable bond indentures.

Changes in Contributed Capital

Changes in contributed capital for the fiscal years ended June 30, 2000 and 1999 are as follows:

	<u>2000</u>	<u>1999</u>
	(in thousands)	
Balance, June 30	\$4,696,778	\$4,817,668
Plant and equipment contributed	5,637	7,389
Allocation of depreciation to contributed capital ...	(130,640)	(128,279)
Balance, June 30	<u>\$4,571,775</u>	<u>\$4,696,778</u>

Operating Revenues

Revenues from metered customers, who represent 80% of water customers, are based on billings at rates imposed by the Water Board that are applied to customers' consumption of water and include accruals based upon estimated usage not billed during the fiscal year.

Commitments and Contingencies

Construction

The Water and Sewer System has commitments of approximately \$2.4 billion at June 30, 2000, for water and sewer projects.

Legal

The City is a defendant in a number of lawsuits pertaining to the Water and Sewer System. As of June 30, 2000, the City estimates its potential future liability for these claims to be \$8.2 million. This amount is included in the City's General Long-term Obligations Account Group.

Q. EXPENDABLE TRUST FUND

Deferred Compensation Plan For Employees of The City of New York and Related Agencies and Instrumentalities (DCP)

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457 (Section 457). DCP is available to certain employees of The City of New York and related agencies and instrumentalities. It permits them to defer a portion of their salary until future years. The compensation deferred is not available to employees until termination, retirement, death, or unforeseen emergency (as defined by the Internal Revenue Service).

Section 457 requires amounts maintained under a deferred compensation plan by a state or local government to be held in trust (or custodial account or annuity contract) for the exclusive benefit of plan participants and their beneficiaries. Consequently, DCP is presented as an Expendable Trust Fund in the City's financial statements. The beginning fund balance of the Expendable Trust Fund was increased by \$2,626 million when DCP implemented the required changes December 31, 1998.

Investments are managed by DCP's trustee under one of eight investment options or a combination thereof. The choices of the investment options are made by the participants.

The following is a summary of the increases and decreases of the fund for the calendar years ended December 31, 1999 and 1998:

	<u>1999</u>	<u>1998</u>
	(in thousands)	
Fund assets, December 31	\$3,367,261	\$2,625,872
Deferrals of compensation	385,691	339,689
Earnings and adjustment to market value	606,148	478,023
Payments to eligible participants and beneficiaries ..	(84,255)	(72,734)
Administrative expenses	(4,213)	(3,589)
Fund assets, December 31	<u>\$4,270,632</u>	<u>\$3,367,261</u>

R. OTHER POSTEMPLOYMENT BENEFITS

In accordance with collective bargaining agreements, the City provides Other Postemployment Benefits (OPEB) which include basic medical and hospitalization (health care) benefits to eligible retirees and dependents at no cost to 95.5% of the participants. Basic health care premium costs which are partially paid by the remaining participants vary according to the terms of their elected plans. To qualify, retirees must: (i) have worked for the City with at least five years of credited service as a member of an approved pension system (requirement does not apply if retirement is as a result of accidental disability); (ii) have been employed by the City or a City related agency prior to retirement; (iii) have worked regularly for at least twenty hours a week prior to retirement; and (iv) be receiving a pension check from a retirement system maintained by the City or another system approved by the City. The City's OPEB expense is recorded on a pay-as-you-go basis.

The amounts expended for health care benefits for fiscal years 2000 and 1999 are as follows:

	<u>2000</u>		<u>1999</u>	
	<u>Active</u>	<u>Retired</u>	<u>Active</u>	<u>Retired</u>
Number of employees	344,456	180,610	338,007	180,340
Cost of health care (in thousands)*	<u>\$1,395,056</u>	<u>\$457,501</u>	<u>\$1,229,217</u>	<u>\$425,024</u>

* The amounts reflected are based on average headcounts.

In addition, the City sponsors a supplemental (Superimposed Major Medical) benefit plan for City managerial employees to refund medical and hospital bills that are not reimbursed by the regular health insurance carriers.

The amounts expended for supplemental benefits for fiscal years 2000 and 1999 are as follows:

	<u>2000</u>		<u>1999</u>	
	<u>Active</u>	<u>Retired</u>	<u>Active</u>	<u>Retired</u>
Number of claims	14,385	4,110	11,719	3,182
Cost of Superimposed Major Medical (in thousands) ..	<u>\$ 2,005</u>	<u>\$ 578</u>	<u>\$ 1,979</u>	<u>\$ 504</u>

S. PENSION AND SIMILAR TRUST FUNDS

Pension Systems

Plan Descriptions

The City sponsors or participates in pension systems providing benefits to its employees. The pension systems function in accordance with existing State statutes and City laws. Each system combines features of a defined benefit pension plan with those of a defined contribution pension plan. Contributions are made by the employers and the members.

The majority of City employees are members of one of the following five major actuarial pension systems:

1. New York City Employees' Retirement System (NYCERS), a cost-sharing multiple-employer public employee retirement system, for employees of the City not covered by one of the other pension systems and employees of certain component units of the City and certain other government units.
2. New York City Teachers' Retirement System-Qualified Pension Plan (TRS), a cost-sharing multiple-employer public employee retirement system for teachers in the public schools of the City and certain other specified school and college employees.
3. New York City Board of Education Retirement System-Qualified Pension Plan (BERS), a cost-sharing multiple-employer public employee retirement system, for nonpedagogical employees of the Board of Education and certain employees of the School Construction Authority.
4. New York City Police Department, Subchapter Two Pension Fund (POLICE), a single-employer public employee retirement system, for full-time uniformed employees of the Police Department.
5. New York City Fire Department, Subchapter Two Pension Fund (FIRE), a single-employer public employee retirement system, for full-time uniformed employees of the Fire Department.

The actuarial pension systems provide pension benefits to retired employees based on salary and length of service. In addition, the actuarial pension systems provide cost-of-living and other supplemental pension benefits to certain retirees and beneficiaries. In the event of disability during employment, participants may receive retirement allowances based on satisfaction of certain service requirements and other provisions. The actuarial pension systems also provide death benefits.

Subject to certain conditions, members become fully vested as to benefits upon the completion of 5 years of service. Except for NYCERS, permanent, full-time employees are generally required to become members of the actuarial pension systems upon employment. Permanent full-time employees who are eligible to participate in NYCERS are required to become members within six months of their permanent employment status but may elect to become members earlier. Other employees who are eligible to participate in NYCERS may become members at their option. Upon termination of employment before retirement, certain members are entitled to refunds of their own contributions including accumulated interest less any loans outstanding.

Plan Membership

At June 30, 1999 and 1998, the membership of the actuarial pension systems consisted of:

	1999					
	<u>NYCERS</u>	<u>TRS</u>	<u>BERS</u>	<u>POLICE</u>	<u>FIRE</u>	<u>TOTAL</u>
Retirees and beneficiaries receiving benefits	121,880	50,525	9,058	34,739	16,146	232,348
Terminated vested members not yet receiving benefits	6,276	3,065	771	85	14	10,211
Active members	<u>169,458</u>	<u>86,682</u>	<u>22,933</u>	<u>39,107</u>	<u>11,477</u>	<u>329,657</u>
Total plan membership	<u>297,614</u>	<u>140,272</u>	<u>32,762</u>	<u>73,931</u>	<u>27,637</u>	<u>572,216</u>
	1998					
	<u>NYCERS</u>	<u>TRS</u>	<u>BERS</u>	<u>POLICE</u>	<u>FIRE</u>	<u>TOTAL</u>
Retirees and beneficiaries receiving benefits	122,438	50,268	8,794	35,047	16,180	232,727
Terminated vested members not yet receiving benefits	5,678	3,276	292	52	11	9,309
Active members	<u>165,461</u>	<u>83,940</u>	<u>23,323</u>	<u>38,133</u>	<u>11,224</u>	<u>322,081</u>
Total plan membership	<u>293,577</u>	<u>137,484</u>	<u>32,409</u>	<u>73,232</u>	<u>27,415</u>	<u>564,117</u>

Funding Policy

The City's funding policy for periodic employer contributions to the actuarial pension systems is to provide for actuarially-determined rates that, expressed as percentages of annualized covered payroll, are designed to accumulate sufficient assets to pay benefits when due.

Member contributions are established by law and vary by Plan. Employer contributions are accrued by the actuarial pension systems and are funded by the employers on a current basis.

Tiers I and II employee contribution rates, other than Transit 20-Year Plan employee contribution rates, are dependent upon the member's age at membership and retirement plan election. As of July 1, 1970, the 20-Year Transit Plan was made non-contributory for Tier I members and the 20-Year Transit Plan for Tier II members is also non-contributory.

Tier III and Tier IV employees contribute 3.0% of salary regardless of age at membership. Certain members of NYCERS and BERS make additional member contributions.

Annual Pension Costs

For fiscal year 2000, the City's annual pension costs of approximately \$695.4 million were equal to the City's required and actual contributions. These required contributions were determined as part of the June 30, 1999 actuarial valuations using revised actuarial assumptions and methods including the Frozen Initial Liability Actuarial Cost Method. Annual pension costs for the actuarial pension systems were equal to the amounts computed by the systems' Actuary.

The City's pension costs, including those computed by the Actuary for the actuarial pension systems, for the fiscal years ended June 30, 2000, 1999, and 1998 were as follows:

	<u>2000</u>	<u>1999</u> (in millions)	<u>1998</u>
NYCERS*	\$ 35.6	\$ 126.1	\$ 166.6
TRS*	178.6	444.6	426.5
BERS*	9.2	43.7	34.2
POLICE	250.0	502.1	544.2
FIRE	182.9	256.1	261.3
OTHER**	39.1	39.3	38.7
Total pension costs	<u>\$695.4</u>	<u>\$1,411.9</u>	<u>\$1,471.5</u>

* NYCERS, TRS, and BERS are cost-sharing multiple-employer public employee retirement systems. The City's total actuarially-determined contributions as a percentage of contributions for all employers to NYCERS, TRS, and BERS were:

	<u>2000</u>	<u>1999</u>	<u>1998</u>
NYCERS	51.95%	70.41%	69.85%
TRS	98.27	96.54	96.51
BERS	96.93	97.26	96.88

** Other pension expenditures represent contributions to other actuarial and pay-as-you-go pension systems for certain employees, retirees, and beneficiaries not covered by any of the five major actuarial pension systems. The City also contributes per diem amounts into certain union-administered annuity funds.

The following is a three-year trend information for the City's actuarially-funded single-employer pension plans:

	<u>Fiscal Year Ending</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension Obligation</u>
		(in millions)		
POLICE	6/30/00	\$250.0	100%	\$ —
	6/30/99	502.1	100	—
	6/30/98	544.2	100	—
FIRE	6/30/00	\$182.9	100%	\$ —
	6/30/99	256.1	100	—
	6/30/98	261.3	100	—

Actuarial Assumptions and Methods

The more significant actuarial assumptions and methods used in the calculations of employer contributions to the actuarial pension systems for the fiscal years ending June 30, 2000 and 1999 are as follows:

	<u>2000</u>	<u>1999</u>
Valuation Date	June 30, 1999.	June 30, 1998.
Actuarial Cost Method(1)	Frozen Initial Liability(2).	Frozen Entry Age.
Amortization Method for Unfunded Actuarial Accrued Liabilities (UAAL)	Increasing dollar for FIRE(3).	Increasing dollar, except for UAAL attributable to ERI 95, ERI 96, ERI 97, 1995 and 1998 Retiree Supplementation Laws(4). All outstanding components of the UAAL are being amortized over closed periods.
Remaining Amortization Period	11 years for FIRE(3).	3, 4, 5, 8, 10, and 12 years.
Actuarial Asset Valuation Method	Modified 5-year moving average of Market Value with Market Value Restart as of June 30, 1999.	Modified 5-year moving average of Market Value with Market Value Restart as of June 30, 1995.
Assumed Rate of Return On Investments	8.0% per annum(5) (4.0% per annum for benefits payable under the variable annuity programs of TRS and BERS).	8.75% per annum(6) (4.0% per annum for benefits payable under the variable annuity programs of TRS and BERS).
Post-Retirement Mortality	Tables adopted during fiscal year 2000 by the Board of Trustees.	Tables adopted by the Board of Trustees.
Active Service Withdrawal, Death, Disability, Service Retirement	Tables adopted during fiscal year 2000 by the Board of Trustees.	Tables adopted by the Board of Trustees.
Salary Increases	In general, Merit and Promotion Increases plus assumed General Wage Increases of 3.0% per year(5).	In general, Merit and Promotion Increases plus assumed General Wage Increases of 4.0% per year(6).
Cost-of-Living Adjustments	Provided by the legislature on an ad-hoc basis.	Provided by the legislature on an ad-hoc basis.

- (1) Under both methods, the excess of the actuarial present value of projected benefits of the membership as of the valuation date, over the sum of the actuarial value of assets plus present value of UAAL and present value of future employee contributions is allocated on a level basis over the future earnings of members who are on the payroll as of the valuation date. Actuarial gains and losses are reflected in the employer normal contribution rate.
- (2) Under the Frozen Initial Liability Actuarial Cost method, the Initial Liability has been established by the Entry Age Actuarial Cost Method but with the UAAL not less than \$0.
- (3) In conjunction with Chapter 85 of the Laws of 2000, there is an amortization method. However, the UAAL of NYCERS, TRS, BERS, and POLICE equal \$0 and no amortization periods are required.
- (4) Laws established UAAL for Early Retirement Incentive Programs to be amortized on a level dollar amount over a period of 5 years.
- (5) Developed assuming a long-term Consumer Price Inflation assumption of 2.5% per year.
- (6) Developed assuming a long-term Consumer Price Inflation assumption of 3.5% per year.

The investment return assumptions used for determining employer contributions to the actuarial pension systems are enacted by the New York State Legislature upon the recommendations of the Boards of Trustees and the Actuary.

Pursuant to Section 96 of the New York City Charter, a study of the actuarial assumptions used to value liabilities of the five actuarially-funded New York City Retirement Systems (NYCRS) are conducted by an independent actuarial firm every two years. The most recent such study was completed in October, 1999 and, based upon the results and recommendations of that study, the Actuary for NYCRS recommended changes in actuarial assumptions and methods to be used for fiscal years beginning on and after July 1, 1999 i.e., fiscal year 2000.

The Actuarial Asset Valuation Method (AAVM) was changed as of June 30, 1995 and 1999 to reflect a market basis for investments held by the Plan and was made as one component of an overall revision of actuarial assumptions and methods as of June 30, 1995 and 1999, respectively.

Under this AAVM, the Actuarial Asset Value (AAV) was reset to Market Value i.e., Market Value Restart as of June 30, 1995. Prior to June 30, 1995, this AAVM recognized expected investment returns immediately and phased in investment returns greater or less than expected i.e., Unexpected Investment Returns (UIR) over five years at a rate of 20% per year (or at a cumulative rate of 20%, 40%, 60%, 80%, and 100% over five years).

The AAVM used as of June 30, 1996 is a modified version of that used prior to June 30, 1995.

Under this modified AAVM, any UIR for fiscal years 1997 or later are being phased into the AAV beginning the following June 30 at a rate of 10%, 15%, 20%, 25%, and 30% per year (or at a cumulative rate of 10%, 25%, 45%, 70%, and 100% over five years). The UIR for fiscal year 1996 is being phased into AAV beginning June 30, 1996 at a cumulative rate of 20%, 35%, 45%, 70%, and 100% over five years.

Under the AAVM, any UIR for fiscal year 2000 or later will be phased into the AAV beginning the following June 30 at a rate of 10%, 15%, 20%, 25%, and 30% per year (or at a cumulative rate of 10%, 25%, 45%, 70%, and 100% over five years).

For the June 30, 1998 actuarial valuations used to determine fiscal year 1999 employer contributions, the Frozen Entry Age Actuarial Cost Method is utilized by the Actuary to calculate the contributions required of the employers. The employer carried part of the UAAL as an accounting liability. This accounting liability is referred to as the Balance Sheet Liability (BSL).

The schedules of payments toward the UAAL and the BSL provide that the UAAL and BSL as of June 30, 1995 be amortized over a period of 15 years beginning fiscal year 1996, where each annual payment after the first annual payment would equal 103% of its preceding annual payment.

Chapter 390 of the Laws of 1998 established a UAAL for the Retiree Supplementation increases to be amortized on a level dollar amount over a period of 10 years.

For the June 30, 1999 actuarial valuations used to determine fiscal year 2000 employer contributions, the Frozen Initial Liability Actuarial Cost Method (where the Initial Liability has been established by the Entry Age Actuarial Cost Method but with the UAAL not less than \$0) is utilized by the Actuary to calculate the contributions required of the employers.

Chapter 85 of the Laws of 2000 reestablished a UAAL and eliminated the BSL for actuarial purposes as of June 30, 1999. The schedules of payment toward the reestablished UAAL provides that the UAAL, if any, be amortized over a period of 11 years beginning fiscal year 2000, where each annual payment after the first annual payment would equal 103% of its preceding annual payment (see Note J).

Similar Trust Funds

Fund Descriptions

Per enabling State legislation, certain retirees of POLICE, FIRE, and NYCERS are eligible to receive scheduled supplemental benefits from certain Variable Supplements Funds (VSFs).

Under current law, VSFs are not to be construed as constituting pension or retirement system funds. Instead, they provide scheduled supplemental payments, other than pension or retirement system allowances, in accordance with applicable statutory provisions. While a portion of these payments are guaranteed by the City, the Legislature has reserved to itself and the State of New York, the right and power to amend, modify, or repeal the VSFs and the payments they provide.

The New York City Police Department maintains the Police Officers' Variable Supplements Fund (POVSF) and the Police Superior Officers' Variable Supplements Fund (PSOVSF). These funds operate pursuant to the provisions of Title 13, Chapter 2 of the Administrative Code of The City of New York.

1. POVSF provides supplemental benefits to retirees who retire for service (with 20 or more years) as police officers of the New York City Police Department, Subchapter One or Subchapter Two Pension Fund and who retired on or after October 1, 1968.
2. PSOVSF provides supplemental benefits to retirees who retire for service (with 20 or more years) holding the rank of sergeant or higher, or detective, of the New York City Police Department, Subchapter One or Subchapter Two, Pension Fund and who retired on or after October 1, 1968.

The New York City Fire Department maintains the Firefighters' Variable Supplements Fund (FFVSF) and the Fire Officers' Variable Supplements Fund (FOVSF). These funds operate pursuant to the provisions of Title 13, Chapter 3 of the Administrative Code of The City of New York.

3. FFVSF provides supplemental benefits to retirees who retire for service (with 20 or more years) as firefighters (or wipers) of the New York City Fire Department, Subchapter One or Subchapter Two Pension Fund and who retired on or after October 1, 1968.
4. FOVSF provides supplemental benefits to retirees who retire for service (with 20 or more years) holding the rank of lieutenant or higher and all pilots and marine engineers (uniformed) of the New York City Fire Department, Subchapter One or Subchapter Two Pension Fund and who retired on or after October 1, 1968.

The New York City Employees' Retirement System maintains the Transit Police Officers' Variable Supplements Fund (TPOVSF), the Transit Police Superior Officers' Variable Supplements Fund (TPSOVSF), the Housing Police Officers' Variable Supplements Fund (HPOVSF), and the Housing Police Superior Officers' Variable Supplements Fund (HPSOVSF). Chapter 657 of the Laws of 1999 established the Correction Officers' Variable Supplements Fund (COVSF) and the Correction Captains' and Above Variable Supplements Fund (CAVSF). Chapter 255 of the Laws of 2000 combined the COVSF and the CCAVSF into an amended Correction Officers' Variable Supplements Fund referred to herein as the Correction Variable Supplements Fund (CVSF). These funds operate pursuant to the provisions of Title 13, Chapter 1 of the Administrative Code of The City of New York.

5. TPOVSF provides supplemental benefits to retirees who retire for service (with 20 or more years) as Transit Police Officers on or after July 1, 1987. Prior to calendar year 2007, when this plan provides for guaranteed schedules of defined supplemental benefits, total supplemental benefits payments cannot exceed the assets of the fund unless the City guarantee becomes effective. As a result of calculations performed by the Funds' Actuary during November, 1993, the City guarantee became effective.
6. TPSOVSF provides supplemental benefits to retirees who retire for service (with 20 or more years) as Transit Police Superior Officers on or after July 1, 1987. Prior to calendar year 2007, when this plan provides for guaranteed schedules of defined supplemental benefits, total supplemental benefits payments cannot exceed the assets of the fund.
7. HPOVSF provides supplemental benefits to retirees who retire for service (with 20 or more years) as Housing Police Officers on or after July 1, 1987. Prior to calendar year 2007, when this plan provides for guaranteed schedules of defined supplemental benefits, total supplemental benefits payments cannot exceed the assets of the fund. Chapter 719 of the Laws of 1994 amended the defined schedules of benefits for certain Housing Police Officers and guaranteed the schedules of defined supplemental benefits.
8. HPSOVSF provides supplemental benefits to retirees who retire for service (with 20 or more years) as Housing Police Superior Officers on or after July 1, 1987. Prior to calendar year 2007, when this plan provides for guaranteed schedules of defined supplemental benefits, total supplemental benefits payments cannot exceed the assets of the fund.
9. COVSF was enacted to provide supplemental benefits to retirees who retire as Correction Officers.
10. CCAVSF was enacted to provide supplemental benefits to retirees who retire as Correction Captains and Above.
11. CVSF replaces COVSF and CCAVSF and provides supplemental benefits to retirees who retire for service (with 20 or more years) as Correction Officers or as Correction Captains and Above on or after July 1, 1999. Prior to calendar year 2019, when this plan provides for guaranteed schedules of defined supplemental benefits, total supplemental benefits payments cannot exceed the assets of the fund unless the City guarantee becomes effective.

Funding Policy and Contributions

The Administrative Code of The City of New York provides that POLICE, FIRE, and NYCERS pay to their respective VSFs amounts equal to certain excess earnings on equity investments, generally limited to the unfunded accumulated benefit obligation

for each VSF. The excess earnings are defined as the amount by which earnings on equity investments exceed what the earnings would have been had such funds been invested at a yield comparable to that available from fixed income securities, less any cumulative deficiencies.

For fiscal years 2000 and 1999, no excess earnings on equity investments are estimated to be transferable to the VSEs except to the CVSF for fiscal year 2000 which is expected to receive approximately \$100 million. The actual amounts transferred are based on final calculations and will be recognized in the financial statements when paid or when actual amounts of the transfers are known.

Subsequent Events

During the Spring 2000 session, the New York State Legislature approved and the Governor signed laws which provide an automatic cost-of-living adjustment (COLA) for retirees (Chapter 125 of the Laws of 2000), additional service credits for certain Tier I and Tier II members, and reduced member contributions for certain Tier III and Tier IV members (Chapter 126 of the Laws of 2000) and several other changes in benefits for various groups. These benefit enhancements are not reflected in the actuarial valuations as of June 30, 1999 and are expected to increase future employer contributions to the actuarial pension systems.

Of particular note, Chapter 125 of the Laws of 2000 provides for a phase-in schedule for funding the additional actuarial liabilities created by the benefits provided by this law. The impact of the phase-in would result in greater employer contributions during and after the fifth fiscal year (end of the phase-in period).

Required Supplementary Information (Unaudited)

The following schedule of funding progress is presented as required supplementary information for the five major actuarial pension systems as of June 30, 1999, 1998, and 1997:

		(1)	(2)	(3)	(4)	(5)	(6)
	Fiscal Year Ending	Actuarial Value of Assets (A)	Actuarial Accrued Liability (AAL)* (A) & (B)	Unfunded AAL (UAAL) (C)	Funded Ratio (1) (2)	Covered Payroll	UAAL as a Percentage of Covered Payroll (3) (5)
				(2)-(1)			
				(in millions)			
NYCERS	6/30/99	\$40,936.0	\$40,936.0	\$ —	100.0%	\$7,593.2	— %
	6/30/98	29,334.7	28,805.3	(529.4)	101.8	6,935.2	(7.6)
	6/30/97	27,222.9	26,296.3	(926.6)	103.5	6,752.9	(13.7)
TRS	6/30/99	34,626.1	34,626.1	—	100.0	4,217.6	—

	6/30/98	4,537.7	5,926.0	1,388.3	76.6	676.1	205.3
	6/30/97	4,157.1	5,473.1	1,316.0	76.0	660.8	199.2

* Frozen Entry Age (1997-1998), Frozen Initial Liability (1999).

(A) Revised economic and noneconomic assumptions due to experience review as of June 30, 1995 and 1999, respectively. The Actuarial Asset Valuation Method (AAVM) was changed as of June 30, 1995 and 1999 to reflect a market basis for investments held by the Plan and was made as one component of an overall revision of actuarial assumptions and methods as of June 30, 1995 and 1999, respectively.

Under this AAVM, the Actuarial Asset Value (AAV) was reset to Market Value i.e., Market Value Restart as of June 30, 1995. Prior to June 30, 1995, AAVM recognized expected investment returns immediately and phased in investment returns greater or less than expected i.e., Unexpected Investment Returns (UIR) over five years at a rate of 20% per year (or a cumulative rate of 20%, 40%, 60%, 80%, and 100% over five years).

The AAVM used as of June 30, 1996 is a modified version of that used prior to June 30, 1995.

Under this modified AAVM, any UIR for fiscal years 1997 or later are being phased into the AAV beginning the following June 30 at a rate of 10%, 15%, 20%, 25%, and 30% per year (or at a cumulative rate of 10%, 25%, 45%, 70%, and 100% over five years). The UIR for fiscal year 1996 is being phased into the AAV beginning June 30, 1996 at a cumulative rate of 20%, 35%, 45%, 70%, and 100% over five years.

Under the AAVM, any UIR for fiscal year 2000 or later will be phased into the AAV beginning the following June 30 at a rate of 10%, 15%, 20%, 25%, and 30% per year (or at a cumulative rate of 10%, 25%, 45%, 70%, and 100% over five years).

- (B) To effectively assess the funding progress of the Plan, it is necessary to compare the actuarial value of assets and the AALs calculated in a manner consistent with the Plan's funding method over a period of time. The AAL is the portion of the actuarial present value of pension plan benefits and expenses which is not provided for by future normal costs and future member contributions.
- (C) The UAAL is the excess of the AAL over the actuarial value of assets. This is the same as unfunded frozen actuarial accrued liability which is not adjusted from one actuarial valuation to the next to reflect actuarial gains and losses.

T. COMMITMENTS

At June 30, 2000, the outstanding commitments relating to projects of the New York City Capital Projects Fund amounted to approximately \$8.0 billion.

To address the need for significant infrastructure and public facility capital investments, the City has prepared a ten-year capital spending program which contemplates expenditures of \$43.3 billion over the remaining fiscal years 2001 through 2009. To help meet its capital spending program, the City, TFA, and TSASC borrowed \$3.1 billion in the public credit market in fiscal year 2000. The City, TFA, and/or TSASC plan to borrow \$3.4 billion in the public credit market in fiscal year 2001.

March 29, 2001

HONORABLE ALAN G. HEVESI
Comptroller
The City of New York
Municipal Building
New York, New York 10007

Dear Comptroller Hevesi:

We have acted as counsel to The City of New York (the "City"), a municipal corporation of the State of New York (the "State"), in its issuance of \$565,000,000 General Obligation Bonds, Fiscal 2001 Series H (the "Bonds").

The Bonds are issued pursuant to the provisions of the Constitution of the State, the Local Finance Law of the State, and the Charter of the City, and in accordance with a certificate of the Deputy Comptroller for Public Finance and related proceedings (the "Certificate").

Based on our examination of existing law, such legal proceedings and such other documents as we deem necessary to render this opinion, we are of the opinion that:

1. The Bonds have been duly authorized, executed and issued in accordance with the Constitution and statutes of the State and the Charter of the City and constitute valid and legally binding obligations of the City for the payment of which the City has validly pledged its faith and credit, and all real property within the City subject to taxation by the City is subject to the levy by the City of ad valorem taxes, without limit as to rate or amount, for payment of the principal of and interest on the Bonds.

2. Interest on the Bonds is exempt from personal income taxes imposed by the State or any political subdivision thereof, including the City.

3. Except as provided in the following sentence, interest on the Bonds due in 2031, the 3.40% Bonds due in 2004 and the fixed-rate Bonds due thereafter (the "Tax-Exempt Bonds") is not includable in the gross income of the owners of the Tax-Exempt Bonds for purposes of Federal income taxation under existing law. Interest on the Tax-Exempt Bonds will be includable in the gross income of the owners thereof retroactive to the date of issue of the Tax-Exempt Bonds in the event of a failure by the City to comply with the applicable requirements of the Internal Revenue Code of 1986, as amended (the "Code"), and the covenants regarding use, expenditure and investment of bond proceeds and the timely payment of certain investment earnings to the United States Treasury; and we render no opinion as to the exclusion from gross income of interest on the Tax-Exempt Bonds for Federal income tax purposes on or after the date on which any action is taken under the Bond proceedings upon the approval of counsel other than ourselves.

4. Interest on the Tax-Exempt Bonds is not a specific preference item for purposes of the Federal individual or corporate alternative minimum tax. The Code contains other provisions that could result in tax consequences, upon which we render no opinion, as a result of ownership of such Bonds or the inclusion in certain computations (including without limitation those related to the corporate alternative minimum tax) of interest that is excluded from gross income.

5. The excess, if any, of the amount payable at maturity of any maturity of the Tax-Exempt Bonds over the initial offering price of such Tax-Exempt Bonds to the public at which price a substantial amount of such maturity is sold represents original issue discount which is excluded from gross income for Federal income tax purposes to the same extent as interest on the Tax-Exempt Bonds. The Code further provides that such original issue discount excluded as interest accrues in accordance with a constant interest method based on the compounding of interest, and that a holder's adjusted basis for purposes of determining a holder's gain or loss on disposition of the Bonds with original issue discount will be increased by the amount of such accrued interest.

The rights of the owners of the Bonds and the enforceability thereof may be subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted, to the extent constitutionally applicable, and the enforcement of related contractual and statutory covenants of the City and the State may also be subject to the exercise of the State's police powers and of judicial discretion in appropriate cases.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions. Such opinions may be adversely affected by actions taken or events occurring, including a change in law, regulation or ruling (or in the application or official interpretation of any law, regulation or ruling) after the date hereof. We have not undertaken to determine, or to inform any person, whether such actions are taken or such events occur and we have no obligation to update this opinion in light of such actions or events.

Very truly yours,

122974

MSRB

FORM G-36(OS) - FOR OFFICIAL STATEMENTS

SECTION I - MATERIALS SUBMITTED

- A. THIS FORM IS SUBMITTED IN CONNECTION WITH (check one):
- A FINAL OFFICIAL STATEMENT RELATING TO A PRIMARY OFFERING OF MUNICIPAL SECURITIES (enclose two (2) copies)
 - (a) DATE RECEIVED FROM ISSUER: 3-23-01 (b) DATE SENT TO MSRB: 3-23-01
 - AN AMENDED OFFICIAL STATEMENT WITHIN THE MEANING OF RULE G-36(d) (enclose two (2) copies)
 - (a) DATE RECEIVED FROM ISSUER: _____ (b) DATE SENT TO MSRB: _____
- B. IF MATERIALS SUBMITTED WITH THIS FORM CONSIST OF MORE THAN ONE DOCUMENT (e.g., preliminary official statement and wrap, even if physically attached), PLEASE CHECK HERE:
- C. IF THIS FORM AMENDS PREVIOUSLY SUBMITTED FORM WITHOUT CHANGING MATERIALS SUBMITTED, PLEASE CHECK HERE (include copy of original Form G-36(OS)):

SECTION II - IDENTIFICATION OF ISSUE(S)

Each issue must be listed separately. If more space is needed to list additional issues, please include on separate sheet and check here:

- A. NAME OF ISSUER: The City of New York G.O. Bonds STATE: NY
 DESCRIPTION OF ISSUE: Taxable Bds. of Fiscal 2001 Ser. H DATED DATE: 3-29-01
- B. NAME OF ISSUER: _____ STATE: _____
 DESCRIPTION OF ISSUE: _____ DATED DATE: _____
- C. NAME OF ISSUER: _____ STATE: _____
 DESCRIPTION OF ISSUE: _____ DATED DATE: _____

SECTION III - TRANSACTION INFORMATION

- A. LATEST FINAL MATURITY DATE OF ALL SECURITIES IN OFFERING: 3-15-04
- B. DATE OF FINAL AGREEMENT TO PURCHASE, OFFER OR SELL SECURITIES (Date of Sale): 3-21-01
- C. ACTUAL OR EXPECTED DATE OF DELIVERY OF SECURITIES TO UNDERWRITER(S) (Bond Closing): 3-29-01
- D. IF THESE SECURITIES ADVANCE REFUND ALL OR A PORTION OF ANOTHER ISSUE, PLEASE CHECK HERE:
 A separate Form G-36(ARD) and copies of the advance refunding documents must be submitted for each issue advance refunded.

SECTION IV - UNDERWRITING ASSESSMENT INFORMATION

This information will be used by the MSRB to compute any rule A-13 underwriting assessment that may be due on this offering. The managing underwriter will be sent an invoice if a rule A-13 assessment is due on the offering.

- A. MANAGING UNDERWRITER: Salomon Smith Barney SEC REG. NUMBER: 8-08177
- B. TOTAL PAR VALUE OF ALL SECURITIES IN OFFERING: \$ 365,000,000
- C. PAR AMOUNT OF SECURITIES UNDERWRITTEN (if different from amount shown in item B above): \$ 25,000,000
- D. CHECK ALL THAT APPLY:
- At the option of the holder thereof, all securities in this offering may be tendered to the issuer of such securities or its designated agent for redemption or purchase at par value or more at least as frequently as every nine months until maturity, earlier redemption, or purchase by the issuer or its designated agent.
 - At the option of the holder thereof, all securities in this offering may be tendered to the issuer of such securities or its designated agent for redemption or purchase at par value or more at least as frequently as every two years until maturity, earlier redemption, or purchase by the issuer or its designated agent.
 - This offering is exempt from SEC Rule 15c2-12 under section (d)(1)(i) of that rule. Section (d)(1)(i) of SEC Rule 15c2-12 states that an offering is exempt from the requirements of the rule if the securities offered have authorized denominations of \$100,000 or more and are sold to no more than 35 persons each of whom the participating underwriter believes: (1) has the knowledge and expertise necessary to evaluate the merits and risks of the investment; and (2) is not purchasing for more than one account, or with a view toward distributing the securities.

SECTION V - CUSIP INFORMATION

MSRB rule G-34 requires that CUSIP numbers be assigned to each new issue of municipal securities unless the issue is ineligible for CUSIP number assignment under the eligibility criteria of the CUSIP Service Bureau.

A. CUSIP-9 NUMBERS OF ISSUE(S)

Maturity Date	CUSIP Number	Maturity Date	CUSIP Number	Maturity Date	CUSIP Number
3-15-03	64966AF75				
3-15-04	64966AF83				

B. IF ANY OF THE ABOVE SECURITIES HAS A "CUSIP-6" BUT NO "CUSIP-9", CHECK HERE AND LIST THEM BELOW:
 (Please see instructions in Form G-36 Manual)

LIST ALL CUSIP-6 NUMBERS ASSIGNED: _____

State the reason why such securities have not been assigned a "CUSIP-9": _____

C. IF ANY OF THESE SECURITIES IS INELIGIBLE FOR CUSIP NUMBER ASSIGNMENT, PLEASE CHECK HERE:

State the reason why such securities are ineligible for CUSIP number assignment: _____

SECTION VI - MANAGING UNDERWRITER'S CERTIFICATION AND SIGNATURE

THE UNDERSIGNED CERTIFIES THAT THE MATERIALS ACCOMPANYING THIS FORM ARE AS DESCRIBED IN SECTION I ABOVE AND THAT ALL OTHER INFORMATION CONTAINED HEREIN IS TRUE AND CORRECT. THE UNDERSIGNED ACKNOWLEDGES THAT SAID MATERIALS WILL BE PUBLICLY DISSEMINATED.
