

Project # SANDTWOBOR | Borough: Manhattan | Date Issued: 10/07/2023

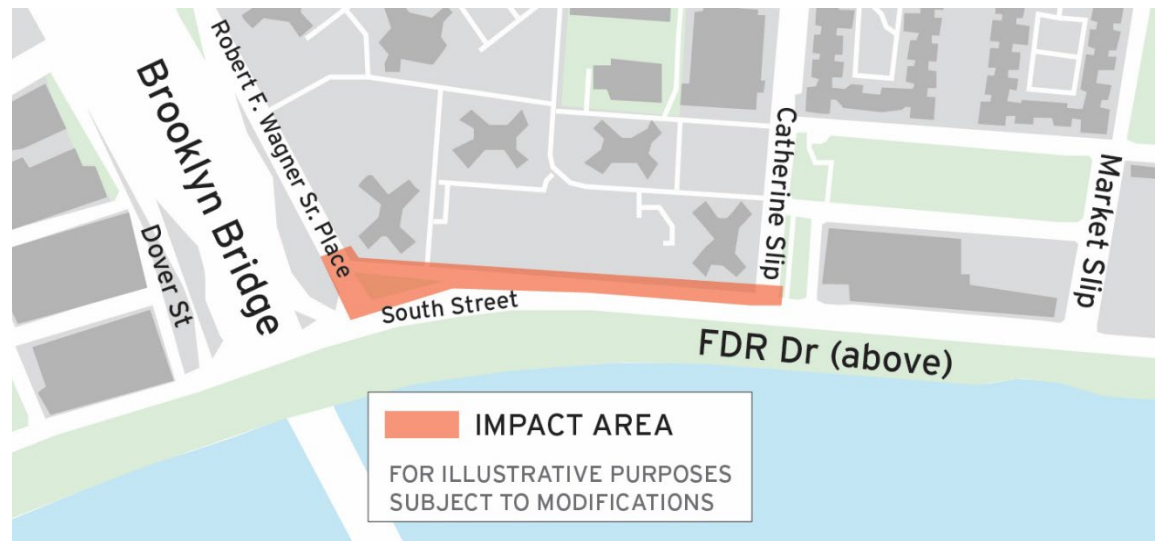

The Brooklyn Bridge - Montgomery Coastal Resilience (BMCR) Project is an initiative to provide long-term flood protection on the south side of Manhattan.

Intermittent Driveway Closure

Starting October 7, 2024 for approximately two (2) days

The contractor will be crossing your driveway to excavate and install utilities in South Street, between Robert F Wagner Place and Catherine Slip, impacting access. Passenger vehicle access will be maintained, but with intermittent delays. We advise passenger vehicles to allow extra time when using the lot between 11:00 am and 9:00 pm on these days.

Evening and overnight access will not be affected.
