- Identify the community or communities and individuals disproportionately impacted that the applicant or licensee plans to benefit
- Include a description of:
  - the benefits that the applicant or licensee will provide to the community or individuals disproportionately impacted, including, but not limited to, workforce opportunities, community resources, education, and other community building programs
  - the scale or size of the disproportionately impacted target beneficiaries; and
  - the plan for implementation, including, but not limited to, actions, activities and engagements that will be performed by the applicant or licensee and frequency of engagement with the community or individuals disproportionately impacted
- Detail a demonstrated need of the proposed benefit to the community and individuals disproportionately impacted, including, but not limited to, economic and social impact
- Include identifiable resources the applicant or licensee will use to execute the community impact plan, including, but not limited to:
  - by written agreement, a demonstrable partnership or relationship with a community-based organization or other association
  - estimated expenses, if any, the applicant or licensee will incur to execute the community impact plan and its activities
  - the applicant's or licensee's demonstrated ability, knowledge, expertise or experience
  - any other information or documentation evidencing community engagement.
- Include a description of the applicant's or licensee's strategy to measure, track, and record the performance and execution of the community impact plan that identifies qualitative and quantitative metrics, and includes frequency of tracking such metrics

Attached.

# Community Impact Plan

## 1. Target Community and Individuals

Community Identified: We will focus on formerly incarcerated individuals within NYC. This group has been disproportionately impacted by systemic barriers, including limited access to workforce opportunities, education, and other resources. We plan to hire formerly incarcerated individuals as bud tenders and other staff.

## 2. Description of Benefits

### a. Benefits Provided:

- **Workforce Opportunities:** We will create job training programs and provide direct employment opportunities tailored to the skills and needs of formerly incarcerated individuals. This includes partnering with local businesses / nonprofits to offer internships and job placements.
- **Community Resources:** Establishment of a resource center providing access to legal aid, housing assistance, and financial literacy programs. We will accomplish this by partnering with nonprofit organizations.
- **Education:** Develop educational workshops focusing on skills development, including resume writing, interview techniques, and career planning.
- **Community Building Programs:** Host regular community events, support groups, and networking opportunities to foster a sense of community and support among participants.

### b. Scale of Beneficiaries:

The plan targets approximately 200 individuals in NYC, aiming to reach a meaningful part of the formerly incarcerated population within the first year, with expansion plans based on program success and community needs.

### c. Implementation Plan:

- **Actions and Activities:**
  - **Quarterly Job Fairs:** Organized in collaboration with local businesses.
  - **Monthly Workshops:** Covering job readiness, financial management, and legal assistance.
  - **Weekly Support Groups:** Facilitated by trained counselors and community leaders.
  - **Resource Center Launch:** Set up by Q4 2024 with ongoing support services.
- **Frequency of Engagement:**
  - **Monthly:** Track progress and adjust programming based on feedback and observed outcomes.
  - **Quarterly:** Review and report on employment placements, educational advancements, and overall community impact.

## 3. Demonstrated Need

- **Economic Impact:** The unemployment rate among formerly incarcerated individuals is significantly higher than the general population, contributing to cycles of poverty and instability.
- **Social Impact:** Barriers to reintegration, such as lack of access to education and community support, exacerbate social isolation and hinder successful reintegration.

## 4. Resources and Execution

a. Partnership:

- Written Agreement: Partner with [Community-Based Organization], which specializes in support for formerly incarcerated individuals. This partnership will enhance resource accessibility and provide additional expertise.

b. Estimated Expenses:

- Program Costs: \$[Amount] annually, covering job training, educational materials, event coordination, and resource center operations.

c. Expertise:

- Demonstrated Ability: The applicant has a proven track record in community engagement, supported by a team of professionals with experience in social services, workforce development, and education.

d. Documentation:

- Community Engagement: Attach letters of support from community leaders, testimonials from previous program participants, and evidence of successful past initiatives.

## 5. Performance Measurement

a. Metrics:

- Quantitative: Track the number of individuals employed, the number of workshops held, and the usage rates of the resource center.

- Qualitative: Collect feedback from participants on program effectiveness, satisfaction levels, and perceived impact on their reintegration process.

b. Tracking Frequency:

- Monthly: Analyze and report on metrics to ensure goals are being met and adjust strategies as necessary to improve outcomes.

This comprehensive plan outlines a strategic approach to support and empower formerly incarcerated individuals, addressing their unique needs and fostering meaningful community engagement and development.
