## We'd like your feedback about Indirect Cost Rates

Dear Provider,

Have you heard that the City of New York is implementing an initiative to fund indirect cost rates for health and human service contracts, beginning this fiscal year? This means that you will be able to claim your indirect rate on current contracts and the City will reimburse you for it – even if that requires the City to add more funding to your contracts. To learn more about the indirect cost rate commitment, please visit our [webpage](#).

The Mayor's Office of Contract Services and the Mayor's Office of Management and Budget have formed a City Implementation Team to establish new processes that will enable providers to claim their indirect rates and the City to approve and pay those claims.

**To inform the City's implementation planning efforts, we are asking for your help by completing a short 3 – 5 minute informational survey. This survey is for informational purposes only. Results will be used to better understand how your organization is thinking about approaching this new opportunity. Your answers are not a claim or commitment and they won't affect your rate submission or funding.**

[Click here](#)

Guidance about the indirect cost rate submission and claiming processes will be forthcoming. If you have any questions, please contact us at [help@mocs.nyc.gov](mailto:help@mocs.nyc.gov).

Sincerely,  
The City Implementation Team
