

# FORENSIC BIOLOGY SEROLOGY PROCEDURES MANUAL

GENERAL GUIDELINES		
DATE EFFECTIVE 06-20-2016	APPROVED BY SEROLOGY TECHNICAL LEADER	PAGE 1 OF 1

## General Guidelines

1. The procedures within this Serology Procedures Manual are intended to support the processes outlined in the Evidence Examination Procedure in the Evidence and Case Management Manual.
2. In general, screening tests and/or confirmatory tests are used to identify physiological fluids such as blood, semen, and saliva prior to further analysis.
3. All reagents are available pre-made and are quality control checked, where possible. Do not make your own or use supplies that have not been quality control checked. If reagents are needed, contact the Quality Assurance Unit for assistance.
