224-01 MERRICK BOULEVARD.
SPRINGFIELD GARDENS, NY 11413
NERON'S PIZZA
215-32 HILLSIDE AVENUE
QUEENS VILLAGE, NY 11427

Environmentally Friendly Alternatives for Disposal of Leaves

Compost - Start a compost pile or add leaves to an existing one. Composting is nature's way of recycling leaves, grass clippings, and other organic materials and converting them into a valuable soil enricher that can be utilized in flower and vegetable gardens.

Mulch - By using a mulching mower, you can chop the leaves into small pieces which will decompose directly on your lawn. If the mower has a bagger, you can collect the leaf pieces and spread them around flower beds and shrubs as mulch.

Till - Decomposing leaves provide a naturally produced organic material which is healthy to lawns and gardens. To reap the benefits of this natural recycling process, till leaves directly into a garden.

NYPD Halloween Safety

- ☠ Go trick or treating with friends.
- ☠ Children should be cautioned to avoid strangers or enter a strangers home.
- ☠ An adult should always examine Halloween treats before children eat them.
- ☠ Never eat unwrapped candy or treats.
- ☠ If you are going out after dark, wear light colored clothing or carry a flashlight.
- ☠ Go trick or treating in your neighborhood, don't wander too far from home.
- ☠ Walk on the sidewalk.
- ☠ Children's ability to see, hear and move should not be impaired by costume.
- ☠ Remind older children; If trick or treating with younger brothers or sisters stay with them. Help them cross the streets and remember always cross at the corner and for the light .

Fallen Tree or Branch Removal Request

The City removes street trees and large branches that have fallen to the ground in front of houses, in parks, and in other public spaces. The City also removes trees or branches that are blocking sidewalks or streets, as well as branches that are cracked or hanging and about to fall. Removal may be delayed during a storm if the branches are not blocking streets or sidewalks.

Trees along streets in front of houses will be investigated and, if necessary, removed. The City also removes dead trees from parks and other public spaces.

The City is not responsible for:

- (1) Any non-City tree that falls on private property,
- (2) Any small non-City tree branch that falls on private property and
- (3) Any tree that is on private property.

Property owners must consult with a private landscape contractor to arrange for the removal of non-City trees or tree branches. Landscape contractors are listed in the yellow pages.

Property owners are responsible for knowing whether a tree is on their property or on the City's property. Trees can appear to be growing on your property but actually be on City property. Reference your title survey to verify property lines before removing a tree or conducting any tree work on or around trees in your front yard.

311 TEXT

THE CITY PROVIDES NON-EMERGENCY INFORMATION TEXTING. CUSTOMERS CAN "TEXT" A QUESTION ABOUT CITY SERVICES TO SHORTCODE 311NYC (311692) AND RECEIVE AN IMMEDIATE RESPONSE.

NYC will create a thriving market for energy efficiency and renewable energy. by Training the next generation of building operators.
 The City will help improve the efficiency and lifespan of their equipment and upgrade the skills of building staff by offering low- to no-cost training in energy efficiency best practices. These expanded trainings will reach new constituencies, including building supers and operators who speak English as a second language.
