# Queensboro Bridge South Outer Roadway Street Improvements

April 2, 2024

Queens Community Board 2

### **NYC DOT Public Realm**

**Equity Focused Maintenance** 

Comprehensive Planning + Policy

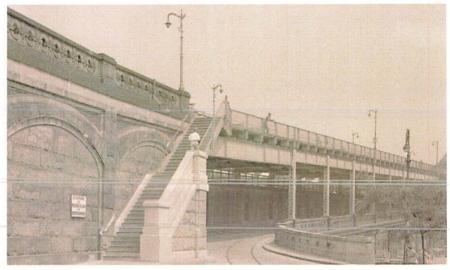

Community Partnership + Engagement

### ackground

### **Timeline**

- **2018:** NYC DOT began current bridge repair (contract 10)
- 2021: Mayor Bill DeBlasio announced the South Outer Roadway would close to vehicle traffic and open to pedestrians
- 2022: New administration begins under Mayor Eric Adams
  - May rally held calling for pedestrian and bike improvements
  - September NYCDOT walkthrough with Councilmember Won
- 2024: Upon completion of current bridge repairs NYC DOT will convert the South Outer Roadway for pedestrians
  - Merchant Survey conducted on East 59 Street
  - Majority of upper deck bridge work will be completed

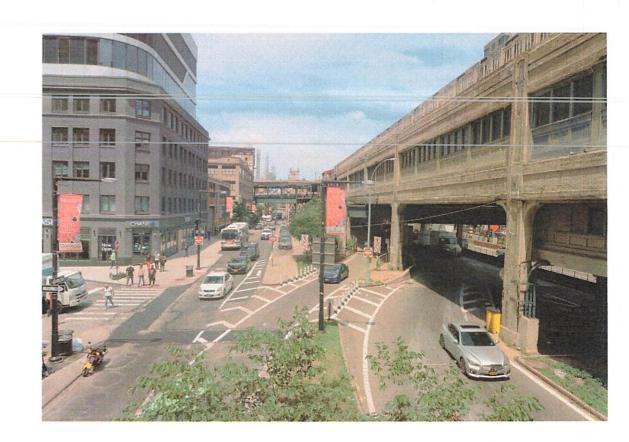

Municipal Archives: Queensboro Bridge pedestrian path above SOR 1939

### South Outer Roadway: Project Objectives and Benefits

- Create a pedestrian network that is accessible, safe, and convenient
  - Adds more pedestrian access points
  - Expands pedestrian space
- Maintain and enhance the existing bike network
  - Provides additional protection to bike riders
  - Clarifies where bikes will be on the roadway
- Maintain local access for drivers that are accessing businesses, residences, and city facilities
  - · Evaluates loading needs
  - Provides traffic calming, while maintaining vehicle access
  - Accommodate vehicle crossing needs by updating traffic patterns

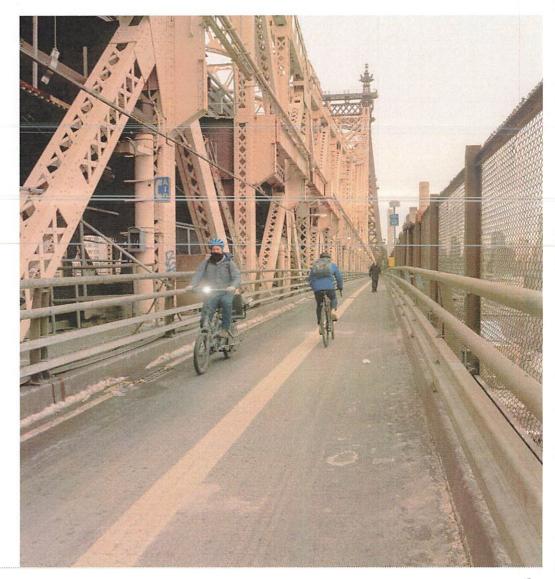

### Background

### **North Outer Roadway**

- One 11-foot shared use path between bikes and pedestrians – all other NYC DOT East River bridges have separate paths for bikes and pedestrians
- More than 2,785 people walk over the bridge daily, which is equivalent to a Community Connector in the NYC DOT Pedestrian Mobility Plan
- Queensboro Bridge has the second highest bike count of the East River bridges

Bridge Name	Bike Count (daily)			
Williamsburg Bridge	7,820			
Queensboro Bridge	7,185			
Manhattan Bridge	6,168			
Brooklyn Bridge	4,769			

### **3ackground**

### South Outer Roadway

- One 11-foot travel lane
- Restricted to vehicles less than 10'2" tall
- · Has 8,163 vehicles that use it daily
- Closed to vehicles overnight for current bridge construction
- There are more pedestrians and bikes using the North Outer Roadway than vehicles using the South Outer Roadway each day

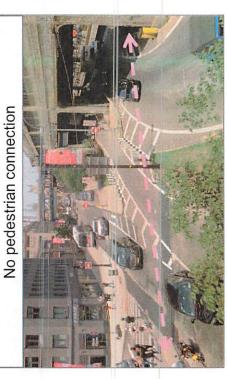

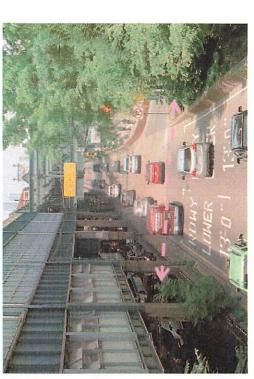

/c.gov/dot Vehicle volumes are from 2019 ATR count

Pedestrian Counts: 2023 Spring Annual Counts by NYCDOT

### xisting Condition: Pedestrians

### xisting Condition: Pedestrians

10

### **Existing Condition:** Bikes

The bike network will remain with access to the North Outer Roadway on Queens Plaza North.

### **Existing Condition:** Bikes

The bike network will remain with access to the North Outer Roadway.

### **Toolkit**

**!ueens Proposal:** Conceptual Design

### **lueens Proposal:** 'edestrians

Extend signal for pedestrian crossing to connect Crescent St

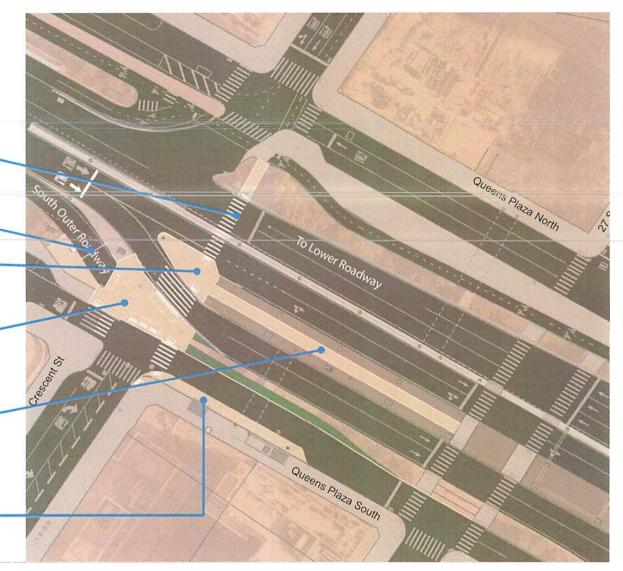

**Build Gate** 

Build concrete median extension

Build concrete landing at base of SOR with ramps for NYC Marathon and maintenance access

Build concrete sidewalk connecting to 27 St, shortening pedestrian route

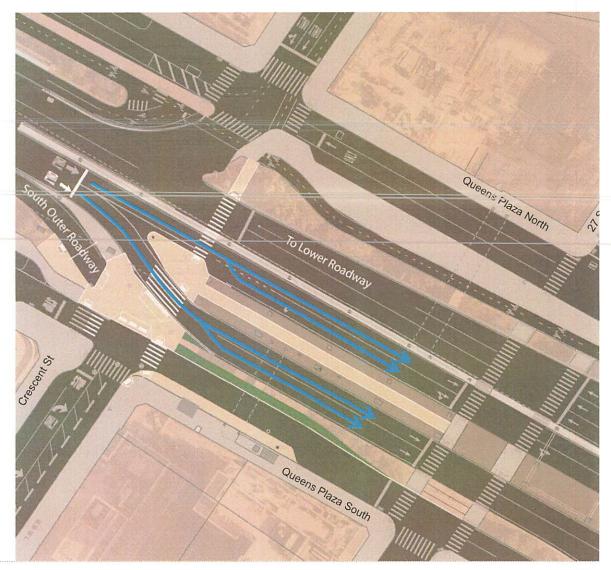

MTA to build concrete curb extension (Spring 2024)

### **lueens Proposal:** Vehicles

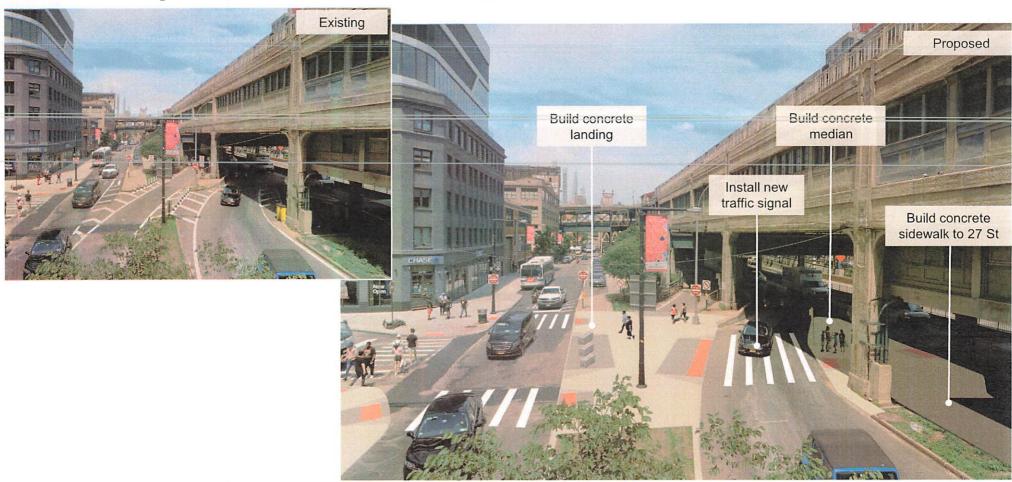

With the South Outer Roadway closed to vehicles, the Lower Roadway can be used by trucks and passenger vehicles to access Jackson Ave, 1-495, Northern Blvd or Queens Blvd.

The Upper Roadway can also be used by passenger vehicles to access Thomson Av or 21st St.

### lueens Proposal: Conceptual Design

19

### imeline

### **Before SOR Opens**

### Manhattan

- Build pedestrian ramps
- · Start installing signal infrastructure
- · Install fence for South Outer Roadway
- Install gates

### Queens

- Build concrete median tip under MTA structure (1)
- Start installing signal infrastructure

SOR Opens to Pedestrians: anticipated late summer 2024

### After SOR Opens

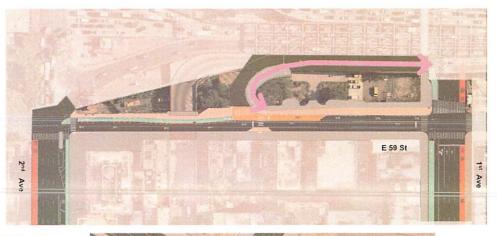

- · Some construction will continue on the bridge.
- Pedestrians can use the SOR while street level construction is in progress.

### Manhattan

- · Install pedestrian stamps on South Outer Roadway
- Install pedestrian and bike markings on E 59 St
- Change signal timing at 1<sup>st</sup> Ave
- Install new pedestrian signal across 59 St at 2<sup>nd</sup> Ave

### Queens

- Build concrete landing at base of South Outer Roadway (2)
- · Install new signal across Crescent St
- Build concrete sidewalk connecting to 27 St (3)

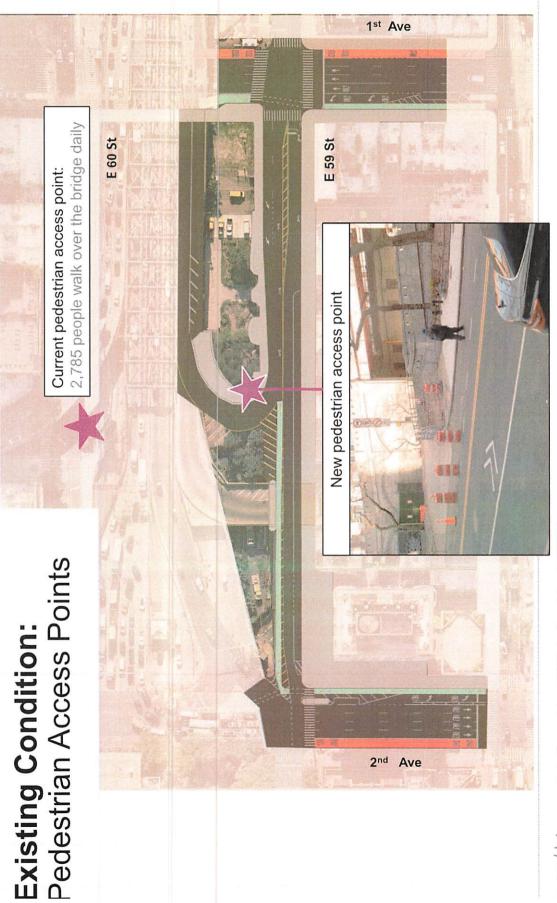

Pedestrian route after SOR opens and during DOT construction

### Thank You!

### **Vanhattan:** Jehicular Routing

Lower Roadway has two Manhattan-bound lanes and two Queens-bound lanes.

Upper Roadway has two Manhattan-bound lanes and two Queens-bound lanes. The Queens-bound lanes are reversed in the morning to Manhattan.

These lane configurations will be evaluated with the revised volume.

Access to the Lower
Roadway

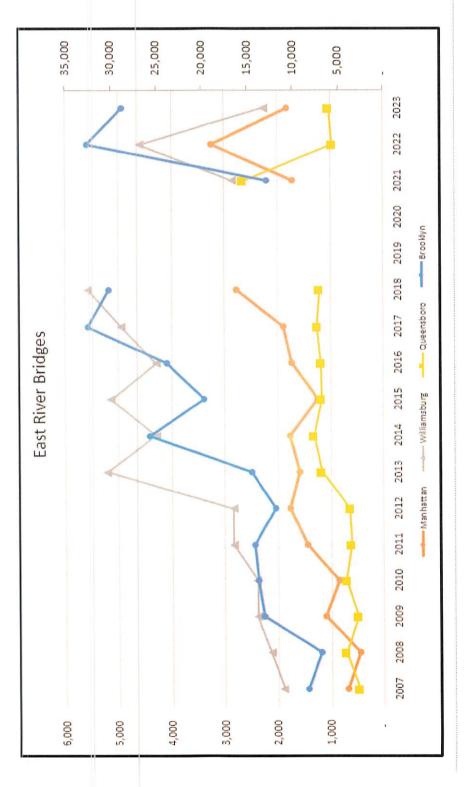

Vehicle Volumes 1,793 AM / 1,892 PM

Access to the Upper Roadway (no truck access)

Vehicle Volumes 0 AM / 2,621 PM

## Queensboro Bridge Pedestrian Counts

### lueens: existing Vehicular Routing

Access to the Upper Roadway

North Upper Roadway is Manhattan-bound at all times

South Upper Roadway is Manhattan-bound 6am-9:30am Mon-Fri and Queens-bound all other times
