AGENDA

Park Drive East Pump Station Reconstruction - The Department of Environmental Protection (DEP) proposes to reconstruct the Park Drive East Pump Station, which is largely below ground with the exception of an electrical cabinet. The proposed reconstruction project will upgrade the entire pump station, establish redundancy for all mechanical and electrical equipment, and raise all critical electrical equipment above the floodplain to ensure resiliency and reliability.

The anticipated schedule for construction is October 2023 to April 2026 with the most active period of construction between December 2024 and June 2025. Construction hours are typically 8 a.m. to 6 p.m. (*though work ramps down around 3:30 p.m.*) Monday-Friday.
