

Community Partnership

Community Partnerships are a network for providers, community leaders, and residents to share resources and information, address community needs, design and promote strategies to reduce the potential need for child welfare involvement and empower communities to thrive.

Connect with your neighbors, service providers, community leaders and learn about what's going on in your community.

Bring your ideas about how you and others can work together to support the well-being of children, youth and families.

Participate in or lead workshops, events, resources fairs and much more!

Represent your community as a Community Leader and help build relationships and grow our network of partners.

Come join a Community Partnership! There are 11 partnerships located throughout the five boroughs that help bring people together.

Participation is open to all.

Eleven Partnerships operate across the City and meet monthly. Meetings are voluntary and open to the community.

Regular meeting days, times, and contact information are listed below. Please reach out for specific meeting locations and to be added to the mailing lists.

STATEN ISLAND
